It seems as though the Crookston boys were out of luck in the ball game Saturday. At the close of the game, the score stood as follows. Warren, 32; Crookston,

Next Thursday night the people will of Warren will have the privilege of listening to Bishop Morrison of Duluth preach in the M. E. church. This will be a rare treat and no one should fail to hear him.

Warren is to have another bank which is to be christened the First National Bank of Warren. The stock holders and officers include a number of the best busines men of Warren. We understand they are backed up by eastern capitalists.

Next Sunday Rev. Hutton will preach his farewell sermon in Warren, as he has decided to go to Brainerd where he will have a larger field to labor in. He has made many friends during his stay here, who wish him success in his new field.

It is rumored that Mrs. Bennewitz will build a brick block on the corner now occupied by D. Ferrell's jewelry store, and that a part of the building will be occupied by the new bank, which it is said will be in running condition in a few days.

Sunday, while some boys were engaged in playing a game of ball, Xavier Gonyer received a kick on the nose completely breaking it. Dr. Wattam repaired the fractured appendage, and the boy is resting as easily as could be expected under the circumstances.

Mr. and Mrs. Ole Knudseth had the sad misfortune to lose their infant babe by death Saturday night. Mrs. Knudseth had put the little one to bed early in the evening and on going ot see it later was horrified to find it cold in death. It is supposed to have died of suffocation. The parents have the sympathy of the entire community in their bereavement.

Lulu Elliott, daughter of Thos. Elliott was taken dangerously ill with pneumonia about the middle of last week and it was thought Friday and Saturday that her recovery was an impossibility. The sad news was telegraphed to her father at Bemidji on Friday morning, and he came to Crookston by rail Friday night and drove from there, arriving here some time in the night. At this writing, however, there is hope for her speedy recovery.

Burr Peck and Mr. Jeroy are partners in the City Bakery and Restaurant in the Diton building. They have been making quite a change in the internal appearance of their building by taking out the partition and making a large and commodions room in the front for restaurant purposes. The boys made up quite a batch of ice cream last Saturday, expecting to do a big business in that line, as that was the day the high schol nines of Crookston and Warren were to settle the question as to who are the best ball players, but Burr says that hot coffee sold better that day than ice cream, and he thinks the cream they had left over will keep until the 4th of July, that is, providing the cold weather we are now having holds on.

LEESTON

Julius Broden has invested in a new bicycle.

J. O. Kilvik is going to build a new barn this spring.

Quite a gay crowd was seen over at T. Hanson's Sunday.

J. O. Nordal and Tom Gulbranson were doing busines at the county seat Friday.

Mr. and Mrs. Jens Hallestad of Ungdale visited with Mr. and Mrs. P. C. Bertils Sunday.

E. Borgen is building a new house on his farm in the town of Onstad. Otto Berg is doing the work.

Tom Hansen is driving around with a brand new rig. There is a chance for somebody to get a ride nowadays.

Tollof Carlsen has begun the erection of a dwelling house on his farm four miles south of here. Christ Moen is doing the work.

KEY WEST

Mrs. Ed Gilmour was seen on our strets Monday.

Mrs. Wagner transacted business at Key West Tuesday.

Ww. Agnew spent Friday of last week seeding for A. Dieffenbaugh.

Miss Jennie Dieffenbaugh resigned her position at Buffington last Friday.

Miss Minnie Buchanan returned to Fisher Sunday, having spent a week at home.

Key West school is in operation again after a two weeks vacation on account of smallpox.

Seeding is in full blast in this vicinity now and the early sown grain is making a splendid appearance.

FISHER

Mr. Casey came over from Crookston on Wednesday.

E. D. Kingsland has been sick for the past week with the grip.

Dr. Frank Erwin has returned from Ontario and will locate in Fisher.

Miss Marin of Crookston visited her sister, Mrs. Hodgson, over Sunday.

Miss Mamie Buchanan has been visiting at her home at Key West for the past week.

Prof. Andersen and Misses Nessels and Smith attended a teacher's meeting on Friday.

Mrs. D. Hamilton entertained the "Sixty-three" club on Thursday evening. A pleasant time was reported by all.

DONALDSON

John Rutherford was here on business Monday.

J. G. Whittemore visited Warren and Kennedy last week.

S. O. Myre has been somewhat under the weather with the catarrh.

Wm. Hese came up from his claim in the Park Region Wednesday.

Herman Miller was at Stephen Friday evening taking in the dance at that place.

Mr. Lind and F. C. Taft have fenced in their lots so as to keep stray animals out of the gardens.

John P. Wicks returned from Peterson, Iowa, where he has been visiting his parents, Wednesday.

Frantz Jomgren was seen in town Saturday. He reports that he is nearly through seeding 2,400 acres.

C. E. Rideout from Kennedy has moved down here with his family and is now living in A. Blomsness' residence.

Fred Anderson from Stephen and Peter Lofgren from Pelan were visitors over night here between Tuesday and Wednesday.

Misses Julia and Sarah Person came home from Winnipeg Monday to witness the marriage ceremony of their sister Betty and Mr. Anderson, also from Winnipeg. The happy couple left on Tuesday evening's train for Buffalo, N. Y., to spend their honeymoon.

The question of constructing a state ditch, which has been agitated for three years past, was taken up by the county commissioners Tuesday, and there being no appearance on the part of those who have been urging it, the objectors to it succeeded in getting it turned down.

A full crew of men and 16 horses arrived here Saturday with a ditching machine that will make a ditch 7 feet wide and 4 feet deep. They will ditch every section line west of here, and make a special one from Borgesson west, so as to drain the big coulee that floods the whole country west of here.

WARREN BALL GAME

THE CROOKSTON HIGH SCHOOL GREATLY OUTCLASSED.

Upon their return from Warren Saturday evening, a Journal reporter interviewed some of the members of the local high school base-ball nine, which went up there that day to meet their waterloo, and one of the leaders gave the following explanation in connection with the home nine's defeat:

There were several causes that led to the defeat of our team. In the first place, our high school team received a challenge from Warren to play a strictly high school team from that place. Acting on the face of the challenge, our high school boys went up there and found, to their dismay, that the supposed Warren high school team was composed of one or two high school students, and the rest picked out of the first team and from the surrounding country. Some of the boys didn't want to play then, but as long as they were up there, and had some expenses coming from the Warren team, the majority thought they might as well play.

In the second place, the stormy, wintry weather that prevailed rendered ball playing almost impossible.

Our boys were greatly outclassed in weight, which gave the advantage to Warren both in batting and throwing against the heavy wind.

As far as scientific ball playing is concerned, our boys will hold their own with Warren any day, and when Warren comes down here to play, if the weather is favorable, it is safe to say that they will dance to a different tune.

WANT CREAMERY

SHELLY ANXIOUS TO HAVE A DAIRYING INDUSTRY.

There is no better place under the canopy of heaven for a co-operative separator than right here in Shelly says the Signal. Make a canvass, and you will find cows enough and to spare. The best experience in agricultural matters is unanimous in saying that the dairying industry is not only much more profitable for the time being than is farming of small grain; but that it is absolutely necessary for keeping up the quality of the soil. In other places they go to dairying after their soil is run out, and get rich. We have yet the good soil, but should not put off doing ourselves a good turn till we have to. "Union," the big word of our republic, is the one essential thing necessary for building and maintaining a co-operative creamery. We have that, too, only it is apt to rust for want of being used. Farmers and business men should get together and brighten up this good quality on the creamery question.

—If you wish to renew your loan, or take up balance on your contract for deed, see Ole Tiegen, Crookston. tf

STOCK INDUSTRY.

IS RAPIDLY DEVELOPING IN THE NORTHWEST.

We are pleased to see the interest manifested in stock in this vicinity, says the Edgely (N. D.) Mail. It is an exception now to drive up to a farm residence and find no cattle or sheep feeding upon our excellent native grass. Upon a large area of our picturesque prairie land, which only a few years ago was made no use of whatever, can be seen scattered here and there herds of cattle, sheep and horses, feeding upon the most nutritious grass in the world. The results are more than satisfactory, the profits of one steer being $10; the profits of a cow $3 per month, and one little sheep $3.50; all during the short period of grazing season. Train loads of steers are shipped east each fall at top prices for grass fed cattle, and our meat throughout the states brings prices at a premium over corn fed cattle. Why, then, should we not increase our stock industry and combine it with farming more extensively? It only requires a little time and good care to realize handsome profits. "Farmer" should not be attached to a man's name unless he combines stock raising with the tilling of the soil. Let us get out of the old rut and keep pace with the development of our commonwealth and adapt ourselves to the conditions of our glorious young state.

HOPPER EGGS

ARE NUMEROUS AT FELTON BUT ARE BEING DESTROYED.

Felton Courier: We were out in the country this week and we were shown some of the locust eggs which are so much talked about. While they are numerous, it is a matter of fact that one has to go to certain fields, sometimes apart, to find them, a great many fields being clear of them. It is said by old settlers that these eggs are those of the native grasshopper and not those of the grain destroying locust. Everyone will remember the little bug man, who spent several weeks here last year inoculating the fields with virus which produced a parasite which was an enemy to the hopper. While many doubted this, it needs only an inspection of the conditions at present to convince the most skeptical. The fields swarm with these little red bugs, and their one aim seems to be to destroy hopper eggs. We placed some of these upon a piece of sod containing eggs and they immediately borrowed into the sod and attacked the eggs. Their work can be seen wherever eggs are found.

NEW LAND OFFICE.

GEO. PURVIS OPENS ONE AT LAKOTA, N. D.

To a Journal reporter George Purvis, of the Great Northern Land company, of this city, this morning stated that he has opened a land office, similar to the one in this city, at Lakota, N. D., and will conduct it on the same system as the Crookston office.

This will give land seekers an opportunity to close deals for North Dakota railroad lands at Lakota and save them the expense of travel between that place and Crookston. The new office is to be known as the Great Northern Land company's office of George Purvis, and will be in charge of Robert Purvis and Mr. McElroy.

PROTECT YOUR FURS

By using CEDAR ANTI-MOTH BAGS. Size 24x36 inches. GUARANTEED VERMIN PROOF. Neither Miller, Moth nor Mouse will go near them.

Bags are strongly impregnated with Odor of Cedar (odor lasts as long as bag.) Sent post paid on receipt of $1. Agents wanted. Manufactured by Frink & Reynolds, 32 E. Fairfield av., St. Paul, Minn.

BEMIDJI EXCURSION

THE 17de MAI TO BE MADE A GRAND GALA DAY.

Otto Thorson returned last evening from Bemidji, where he went to see if all preparations had been completed for the reception of the crowds that will go to that city on the 17th on the excursion that will be run from here on that date, says the Grand Forks Herald. He was very well pleased with the outlook and says there are boats enough on hand to accommodate 1,000 people, and that in every other way everything has been done to make the day a most pleasant one for the visitors. He says the people of Bemidji are desirous of giving all who take advantage of the excursion such an excellent time for the one day that they will all determine to come again later in the season and spend several days. As the excursion is being run for the benefit of those who wish to celebrate the anniversary of the independence of Norway by a trip out of the city, there will be a very large attendance, not only from this city, but from all the cities and towns between here and Bemidji. Mr. Thorson says the fish are biting in great shape and those who are already on the ground this spring are having great success in making record breaking catches. The special excursion train will leave Grand Forks at 7 a. m. and returning will leave Bemidji at 10:30.

ROBBED THE GYPSIES

$3,500 TAKEN FROM SATCHEL AT MIDWAY.

The Romany Chals, quartered near the street car barns at Midway, were robbed of $3,50 last Tuesday, says the Minneapolis Journal. The money was in a little yellow satchel and had been placed under a cot between two tents occupied by the gypsies. Two women and two men had a hand in the robbery.

About 7:30 a man drove up in front of the tents and engaged Sinfi and Chiekilo and all the other gypsies in earnest conversation. He told them of vast sums of money and a relative that he was looking for. The gypsies were all attention. During the conversation the two women accomplices sneaked around near the tents where the money was concealed and made way with the satchel. Both of the women had been spending some time at the gypsy camp and knew the contents of the satchel and its hiding place. Simultaneously the man with the rig and the women with the money disappeared. Police headquarters in Minneapolis and St. Paul have been advised of the theft and are working on the case.

The gypsies are the advance guard of a large convention that meets at Midway next month.

ROYAL
Baking Powder

Makes the bread more healthful.

Safeguards the food against alum.

Alum baking powders are the greatest menacers to health of the present day.

ROYAL BAKING POWDER CO., NEW YORK.

WANTED—Agents for a wholesale house in Chicago. Send $5 guarantee for a costly outfit. G. T. Gagen, Mgr. Western Depot, Crookston, Minn.

A JAIL DELIVERY

Grand Forks Prisoners Escape From the County Jail

BASSANELLAS AMONG THEM

The Others are George Baxter and James Rayburn Thieves.

A telegram was received by the authorities in this city yesterday from Sheriff Collins of Grand Forks county, in which the latter states that a general jail delivery occurred at Grand Forks, by which Joseph and Jacob Bassenella, the two brothers who about two months ago murdered Axel Anderson in a box car in the Grand Forks yards, and who were being held for trial, gained their liberty.

The fleeing murderers are described by the officers as follows: They are 18 and 20 years old, respectively, weight about 150 pounds each, light complected, and have blue eyes. Joseph Bassenella wore a light colored duck coat, with corduroy collar, and plush hand cap.

Jacob had on a red sweater, and both the men wore black pants.

Besides the murderers, two other prisoners made good their escape. They are George Baxter and James Rayburn, two noted thieves who were held to await the action of the grand jury. Baxter is described as a man of 5 feet 7 inches tall, weighs about 160 pounds, has flat nose and brown mustache, and had on a dark black coat.

Rayburn is 5 feet 9 inches high, weighs 170 pounds, is dark complected, with black mustache, and a week's growth of whiskers.

The sheriff of Grand Forks county offers $200 reward for the arrest of the escaped prisoners, and desires to be notified by wire of any clew that may lead to their apprehension.

The delivery was accomplished by digging a hole through the floor in the corridor of the prison, and through under the wall.

It is believed that they have separated to meet at some appointed place and outgoing trains, as well as all depots along the different railroad lines, are being closely watched.

AFTER BISAZZA

AUTHORITIES WANT TO GET HIM INTO COURT AGAIN.

Assistant United States District Attorney F. R. Hubacheck returned to the state capital Tuesday after spending several days in straightening out some of the financial entanglements of the Bisazza failure. Mr. Hubacheck stated that everything is now disposed of and the affairs practically wound up in the noted case, except the replevin suit against Bisazza for the goods seized at Seattle, which Mrs. Bisazza claims are her personal property, and the contempt proceedings, which were entered against the prisoner before his trial at Fergus Falls.

Both of these cases will come up as soon as Bisazza has served out his present sentence, although Judge Amidon has failed so far to sign the contempt charge as returned by the grand jury, and nothing will be left undone to get Bisazza once more before the tribunal of justice and right, if such a thing is possible under the circumstances.

CIVIC OWNERSHIP

OF GAS PLANT AT WINNIPEG ADVOCATED BY COM. STUART.

Winnipeg, Man., May. 21.—James Stuart, water and light commissioner, has publicly stated that he will guarantee to furnish gas to the citizens under a system of municipal ownership at half the price at present charged by the gas company. Stuart was manager of the Winnipeg gas works for sixteen years, after he instituted the system here for the present company, and of course he knows what he is talking about. Two years ago he made a similar offer in regard to the street lighting. At that time Winnipeg was paying 45 cents per light per night. Stuart said he would cut the price in half and save money. The company's representative laughed at him and said his experience had been with gas and that he knew nothing about electric lighting.

Stuart, who is a man of means, offered to back up his contention. If given complete control of the department he would put up a personal bond to pay every cent, over half the cost as it then was. Stuart more than carried out his promise. The first year's returns under municipal ownership showed that the lights which were of greatly improved quality, have cost 19½ cents per night each. The mayor is strongly in favor of introducing a civic gas plant for general supply, and the present company has no monopoly.

IT WAS FEROCIOUS

WARM SCRAP BETWEEN PROMINENT FERTILEITES.

News reached the city yesterday from Fertile of a rather serious quarrel which occurred at that place Tuesday afternoon between several of the most prominent citizens and leading business men of that thriving and prosperous little village, over the possession of a building, which is being claimed by two competing banking concerns.

The details of the fracas are not all known, but the Journal informant stated that its origin was due to the strife of the factions involved as to the establishment of a new bank at Fertile. About a week ago several citizens of the town made application to the treasury department at Washington for a charter to establish a national bank. The parties to the deal contracted for the purchase of a building and the ground upon which the same was located, and went on with their preparations, little dreaming that they would encounter any obstacle in their new business venture.

They were entertaining a wrong idea about this matter, however, all the time, for as soon as the national bank promoters' purpose became known, a number of other business men of means of the town put their thinking faculties in operation and conceived the idea of starting a state bank.

It was no sooner thought of than decided upon, and all necessary steps were taken by the new concern to outwit the national bank people. The former, learning that no deed of the building and property purchased by the latter had been placed on record, took chances and also bought the same lot and structure, placed its deed on file with the register of deeds of Polk county, and returned home to take possession of the new property.

Then there came trouble. The national bank people objected to the proceedings, hard words were exchanged and the matter is said to have culminated in a free for all fistic encounter, during which one of the state bank men used a piece of cordwood upon the head of one of his opponents with telling effect. The friends of the latter have since filed a lis pendens on the property in question with the register of deeds, and the whole trouble at this time is in statu quo, with the state bank people apparently in the lead.

FATAL EXPERIMENT.

CHEMIST TOOK HIS OWN MEDICINE TO TRY IT.

St. Louis, May 17.—Edward J. Sultan, aged 34, died at the city hospital yesterday morning from the effects of a sedative which he was compounding, with which he experimented upon himself.

Sultan was the experimenting chemist of a St. Louis drug company and had been assigned to formulate a new preparation of a sedative with the assurance that should he succeed, he would be placed in permanent charge of its manufacture. This morning he was found unconscious in his apartments. He was taken to the dispensary and from thence to the city hospital, where he died 30 minutes after his arrival without having gained consciousness.

MELQUIST MYSTERY

FOUR MEN ARE ARRESTED ON SUSPICION OF MURDER.

Last Saturday evening Deputy Sheriff Ross of Casselton arrested four men at Sanborn, on suspicion of their being the men who had been seen with the bicycle which belonged to Chas. Melquist, the Fargo Front street butcher who disappeared about ten days ago. The men were brought to the city Sunday night and lodged in the county jail. They were taken before Judge Gearey yesterday afternoon for hearing. They all pleaded not guilty to the charge of having stolen the wheel and the cases were adjourned for one week as the state's attorney is too busy to take them up at this time. They gave their names as Frank Dinkle of Long Prairie, Minn., Eugene Scanlon of Lead, S. D., Jas. L. Kelly and Tim O'Connor of Minneapolis.

These are supposed to be the men who were seen learning to ride Melquist's wheel at Haggart station a week ago last Friday, and it is the object of the authorities to have them say as to where they got the wheel, in hopes that this will lead up to the discovery of Melquists remains. The authorities are still at work.

Uncle Jo's Column

It seems to me as if everybody is as busy as they can be nowadays. Some how I don't find anybody to stop and chat with now at all. And I can't hardly find a man to do a little job of work in the yard, or a dressmaker to make Betsey a new calico dress. And everybody goes rushin' along in a way that makes my old rheumatic bones fairly ache to look at 'em. The younger folks seem to enjoy bein' rushed along so, but somehow it seems to me as if the train has got to goin' a little bit too fast, and everybody is in too much of a rush. And the most of 'em seem to think there aint anything to do but just git there as quick as they can, and they're doin' it. Well, it don't make much difference to me anyhow. If I can't keep up with the procession I can let it go on without me and I'll bring up the rear the best I can.

—o—

One great trouble with us is we are in too much of a hurry to git rich And we figure out that if we are rais in wheat, and we have twenty bushels an acre, and git a dollar a bushel for it, it will bring us in lots of money And it seems like kind of slow work for us to be ploddin' along makin' a little on one thing and a little on another. But puttin' all the eggs in one basket and takin' the chances on their bein' upset, and stakin' all our work and expense on one crop is too much like gamblin' to suit me. There's too many chances of a slip, to run the risk of losin' everything for the sake of the extra money there is in it if everything goes right. And it is the safest way to divide the chances of a failure up a little. Its sure to pan out better in the long run than to put all the dependence on one crop.

—o—

I see ay the Journal that there's a couple of men tryin' to git a creamery started here. I think that's a proper good scheme. I see they are talkin' about havin' skimmin' stations and shippin' the cream here to be made into butter. Of course that would be better than shippin' all the milk in, but it seems to me it would be a whole lot better yet for the farmers to own their separators theirselves, and then they'd have the skim milk right at home where they could feed it to the calves and the pigs while it was warm. And then I spose the creamery folks would pay for the cream accordin' to the amount of butter fat it had in it. That's the fairest way there is to do it. And then the man that's got the cows that give the best milk gits the biggest price for his cream. Them cream separators, and that Babcock way of testin' the milk and cream are great things. There's been a big change in the way they do these things now from the way they did when I was a boy. Well, I hope these men are all right and will succeed in gittin' the creamery in.

—o—

I believe last Saturday was Minnesota's birthday. She was 43 years old then. And I just believe that we ain't got any reason to cover our faces and be ashamed of our state at 43 years old. We're in the front rank with the best of 'em in most everything. Of course, we ain't got as big a population as some of the states, but I guess we can compare with any of 'em for quality. And our state institutions are as good as the best. Our churches, schools and manufacturin' interests are all as good as any of 'em. Our population has increased a little more than ten times what it was 40 years ago, and we have now 1,751,394.

—Uncle Joe.

IT PAYS WELL.

That enterprising sheet, the Pelican Rapids Press, had so many ads last week they were compelled to print their locals on an 8x12 supplement. Now, that is the way we like to see business men come to the front and let the public at large know where they are at. It pays, and we would just as soon be as fortunate as the Press and be compelled to enlarge our paper.—Breckenridge Gazette.

The business men did spread themselves pretty well in that issue of April 26, the only trouble being that it is going to take them three months or so abouts to recover from the rush of business before they can get around to advertise again. We often wish somebody would go into business here on a large scale enough to take care of the trade resulting from more than three ads per year.—Pelican Rapids Press.

A BOWLING CONTEST

LOCAL CLUB DECIDES TO HAVE A TOURNAMENT.

A meeting of the members of the Bowling club was held Tuesday evening at the club's rooms on South Main street, for the purpose of taking some decisive measures in arranging for a bowling tournament during the state firemen's convention in this city the second week in June.

It was unanimously decided by those of the members who were in attendance to arrange a three days' contest, and to extend invitations to the clubs at Fergus Falls, Wahpeton, Breckenridge, Fargo, Moorhead, Grand Forks and East Grand Forks, to participate in the tournament.

Capt. Al Vanstrum of the local club has agreed to donate the alley for the contest, and besides this generous offer, he will hang up two gold medals, one for the team making the highest average, and the other to the player making the highest score. Purses to be divided among the winners will not be less than $50 for each event, and the regulation rules will govern the contests.

LAND MEN GALORE

BOTH MORNING TRAINS LOADED WITH THEM YESTERDAY.

Both the Great Northern and Northern Pacific passenger depots in this city yesterday were the scenes of more than usual activity and bustle upon the arrival of the early trains at 7 o'clock, as each train brought to the city hundreds of new home seekers from Iowa and southern parts of Minnesota.

The new comers arrived in parties of from 10 to 50 strong, and were chaperoned by representatives of local land agencies, and the rush for the various offices of land companies located here was simply a struggle, as though it meant a race for the last piece of agricultural property in the wide scope of the bread basket country of the world. So intense became the fever "to get there first," that two of the strangers came very near to blows in front of the Stevens and Great Western agencies, opposite the Palace hotel. Hot words were exchanged between the two angered rivals, but by-standers interfered and prevented a setto, which might have caused bloodshed.

The Northern Pacific train, which reaches this city a few minutes in advance of the Great Northern, carried the J. H. Boyd party, consisting of 33 members, most of them from Nevada, Iowa and its immediate vicinity. The Warner & Audra's company also had a large delegation on this train, and several parties from southern Minnesota came without a guide, and took their own chances of finding what they want.

The Great Northern train was made up of ten passenger and three baggage coaches, and had on board 973 passengers, most of them land seekers. Of these, in the neighborhood of 250 enterprising tillers of the soil left the train here, and were taken to the offices of land agencies to be supplied with plats and descriptions of farming lands that are for sale in northern Minnesota. After breakfast, the scramble was renewed when the time arrived for the departure of the St. Vincent and St. Hilaire trains, as a large number of the new arrivals were bound for points along these railway lines. Both of these trains were crowded to their utmost capacity, when they pulled out of the depot.

A STRANGE CASE

A MAN WHO KNOWS HOW TO KEEP MUM

On Sunday evening a middle aged man was arrested by Officer Blue in an alley between Third and Fourth street says the Grand Forks Herald. When found the fellow was poking around in swill barrels trying to find something to eat. He was lodged in jail that night and yesterday all attempts to get him to speak or write a word was futile. The case is a very peculiar one and Judge Brown, before whom he was arraigned, concluded that the only thing to do was to commit him to the county jail and believes the case a proper one for the county board of insanity to take up. The unfortunate man is a little beyond middle age and looks about half starved to death. His case will be investigated by the authorities at once. There was nothing on his clothing to indicate where he was from, who he was or where he was going. A dozen different people went to his cell yesterday to try, and get him to utter a word or write a line, but he refused to do anything and the case is one of the most peculiar that has ever come to the attention of the police court of Grand Forks.

GOOD ADVICE.

The most miserable beings in the world are those suffering from Dyspepsia and Liver Complaint. More than 75 per cent of the people in the United States are afflicted with these two diseases and their effects, such as Sour Stomach, Sick Headache, Habitual Costiveness, Palpitation of the Heart, Heart-burn, Water-brash, Gnawing and Burning Pains at the Pit of the Stomach, Yellow Skin, Coated Tongue and Disagreeable Taste in the Mouth, Coming up of Food After Eating, Low Spirits, Etc. Go to your druggist and get a bottle of August Flower for 75 cents. Two doses will relieve you. Try it. Get Green's Prize Almanac. F. H. Hillard & Son. 1

PROF. LUGGER DEAD

The Skillful Professor of Entomology Succumbs to a Failing Heart.

HOPE OF HIS RECOVERY

Was Awakened Only to be Extinguished by the Announcement of his Death.

Otto Lugger, professor of entomology at the state agricultural school, and state entomologist, who has been suffering from a severe case of pneumonia for some days past but was thought Monday to be in a more hopeful condition, passed away at 10 o'clock Saturday, his disease having taken a turn for the worse during the night. His situation had been regarded as very critical for several days, but it was given out Monday by his physician, Dr. C. M. Cannon, that his respiration was freer and the action of his heart better, with the explanation that accompanying the pneumonia there had been a dilation of both sides of the heart, and an acute oedema of the lungs. This encouraging report awakened hopes among his friends that the crisis was passed, and that he would soon be well on the road to recovery.

The announcement of his death, however, followed closely upon the encouraging report of his apparent improvement, and caused a severer shock than it would if the hope had not been rekindled.

Prof. Lugger was born in Germany and received his education mainly in his native land. After coming to America he was for a time in the employ of the agricultural department of the John Hopkins university. He was also for a time connected with the United States department of agriculture in the entomological division. He had traveled extensively in South America conducting his zoological studies and researches and had gathered a very extensive collection of specimens which is said to be worth not less than $10,000. He was thoroughly informed upon all scientific subjects, always being able to answer requests for information off hand without taking time to look up authorities. He resided with his wife and a married daughter in his beautiful home at St. Anthony park. His son is also an entomologist and occupies that position at the state experiment station of Alabama.

He was of an unusually genial disposition and warmly beloved by all who knew him. The story of his life will be one of fascinating interest when published, as it probably will be.

A SHOOTING SCRAPE

BETWEEN TWO BROTHERS AT HENDRUM LAST SATURDAY.

Our Halstad correspondent sends us the following account of a shooting affair, which fortunately terminated without serious results:

A shooting scrape took place between two brothers, Ole and Mikel Lee, of the town of Hendrum, last Saturday. Mikel had Ole arrested and brought up before Justice Semling of this place, last Monday. Mikel and his wife swore Ole had fired four shots at them with a revolver, which Ole claimed he always carried. Ole and his little son swore that Mikel had fired two shots at them with a rifle when they were working in the field, and Ole had fired one shot in the air to scare him away.

County Attorney Nelles appeared for Mikel and T. Torkelson of this place appeared for Ole. Both of the attorneys said, "One of those men must be a great liar." Judge Semling said, "I dismiss the case." And the crowd said, "It was more fun than Barnum's circus."

SHOOTING ACCIDENT

A CASS LAKE MAN IS SHOT BY YOUNG BOY.

Cass Lake, Minn., May 22.—Harry Gamenthaler was accidentally shot Sunday night. Gamenthaler was employed by the Cass Lake Boat company to look after the row boats for the company. He was attending to his duties when the accident occurred. A party with some guns in their boat had just returned from a trip up the lake. They laid the rifles on the bank at the dock and were bringing their other paraphernalia from the boat, when a boy picked up one the rifles. The gun was in some manner discharged, the bullet entering Gamenthaler's left leg just below the knee. The wound is a painful, though not dangerous one, and beyond being laid up for a time, Gamenthaler will probably suffer no serious trouble as a result of the accident.

GUN CLUB SHOOT

NEW SHELLS PREVENT USUAL GOOD SCORES.

The Crookston Gun club at its last regular practice shoot experimented with a new shell, and the result was that some small scores were made. In the first event the score stood:

Stair	14
N Campbell	8
Mossefin	17
Rowe	22
Koelmel	16
V. Campbell	15
Senbert	15
Withey	15
Anderson	12
Smith	18

The second event showed up a trifle better, and the number of birds damaged were as follows:

Stair	19
Finlayson	13
N. Campbell	11
Mossefin	17
Smith	18
Withey	16

In an extra 25 bird shoot Rowe broke 20, Withey 17 and N. Campbell 14 birds.

MONDAY'S BALL GAME

THIEF RIVER FALLS VIES WITH THE CROOKSTON NINE.

The Crookston first nine will try their hand for the first time this season in a game with Thief River Falls. Both teams contain some excellent material and the game, in progress as the Journal goes to press, is being witnessed by a fair sized audience. The line and batting order of the home team is as follows:

Ericson, ss; Roneck, c. f.; Murphy, 2 b; Winslow, 1 b; W. S. Brekke, c; O. Brekke, p; Smith, l. f.; Silk, r. f.; Win[illegible]e, 3 b; Bradish, sub.

Thief River Falls is arranged in the following manner:

Douglas, ss; A. Benzie, 1 b; D. Benzie, c; Warm, 2 b; Nason, p; Crone r. f.; Paronto, 3 b; Rausch, c. f.; Berg l. f.

The game was called at 3:30.

SAID PLEASANT WORDS

STEENERSON'S ELOQUENT ADDRESS AT GRAND FORKS.

The Grand Forks Herald, in commenting upon the 17 de Mai celebration in that city, has this to say of Hon. Halvor Steenerson's address at the opera house:

"The oration of Hon. Halvor Steenerson was very pleasing to the audience. He spoke with great emphasis, and his voice filled every corner of the house. He gave a brief history of Norway and its people and the events leading up to the independence of that country. The greater part of his time however, was devoted to a review of the important part that had been played by the Norwegians of this country, and especially to the important factor they had been in the development of the great northwest. His remarks were listened to with the closest attention and he was interrupted frequently with hearty applause."

STRUCK BY LIGHTNING

NORMAN COUNTY FARMER LOSES BARN BY FIRE.

During the heavy rain storm which visited this section of the county on Wednesday, says the Ada Herald, lightning struck the barn on the farm of A. C. Tvedt, who lives a few miles east of Ada. The boys had just returned from the field and had hardly left the building when the crash came and returning at once they managed to get the horses out and saved everything with the exception of three calves and a few setting hens.

Mr. and Mrs. Tvedt were in town at the time of the fire and did not know anything about it until they returned home. The building was insured in the Halstad Mutual company, and the representatives of that company are adjusting the loss today. Mr. Tvedt has already commenced preparations for rebuilding.

MAKES CORRECTION.

Editor Journal:

I see that you have an item of news in your Key West correspondence stating that our school has resumed after a two weeks' vacation on account of smallpox. Please correct in your next issue, as we have not had any vacation on account of smallpox, and do not intend to have one.

—F. J. Tousley, Teacher.

Key West, Minn., May 17.

KILLING MUSTARD

And Other Weeds Discussed by Prof. R. H. Bolley of North Dakota.

SPRAYING METHOD IS USED

With Copper Sulphate--Kills All Weeds Without Injury to Grain

In a letter written by Prof. R. H. Bolley of the North Dakota experiment station and published in the Grand Forks Herald, he gives various conclusions at which he has arrived as the result of experiments in killing mustard and other noxious weeds by spraying with copper sulphate, which may be of interest to our readers.

He says: "For sometime, the papers have given notice of the fact that there have been experiments carried on in various places for the destruction of mustard and other weeds by means of chemical sprays. As far as we are able to learn, the North Dakota station was the first to undertake this work, beginning as early as the seasons of 1896 and 1897. In the spring and summer of 1899, we had very marked success with copper sulphate, completely destroying all young weeds which grow from the seed in the spring, without injury to the growing wheat and oats. Indeed, the crop was materially increased as to yield of straw and grain. It was learned, however, that weather conditions had much to do with the success of the work, so another year of experimentation was decided upon before a report of the work should be made. Quite extensive experiments were caried out during theseason of 1900. Copper sulphate and other types of chemicals were used. The drout hconditions which prevailed showed that, under conditions of dry atmosphere and drouthy soil, it is useless to hope for success in killing weeds in wheat fields by means of chemical sprays. Under such conditions as those of last year, the slow growing weeds were found to resist as strong a solution as the young wheat and oats.

There can be no doubt that with a proper spraying cart, two men can destroy a very large area of mustard in a day. The advantage of the method is, that it can be used in fields where the mustard is so thick that should one attempt to pull it, all the wheat would be frampled out. The space allowed me in this article will not allow of explanations as to why the weeds may be killed, and the grain remain perfectly aninjnred. I hope that quite a number of farmers may follow the following directions this spring at least, upon a small scale and report results, so that as soon as possible by our joint efforts we may arrive at the best method of weed destruction:

1. Do the work of spraying when the young grain is about three to six inches high and when the young mustard plants are well up, showing quite large leaves.
2. Select a time which is as still as possible with regard to the wind. One of the best is a morning just following a light rain. The brighter the sunshine the better, providing there is not a high drying wind.
3. Use spraying nozzles which throw fine drops rather than misty spray. The Bordeaux type of nozzle is one which may be regulated as to the form of spray thrown and is thus a very satisfactory one.
4. If there is a likelihood of a heavy rain storm just following the work, it is best not to undertake the spraying. A light drizzling shower just following is beneficial, for it tends to wash the chemicals from the wheat, but spreads it evenly over the rough mustard leaves.
5. Do not undertake to kill the mustard until some of the larger leaves are formed. If it is a rapid growing season good success can be attained when the grain is fully ten inches high.

[illegible] after a period of drouthy weather the mustard plants become so hardened that the spray does not injure them, and under such conditions the wheat or oat plants do not grow rapidly and thus do not revive from the treatment as rapidly as they should. I therefore recommend that under such drouthy conditions no attempt be made to kill weeds by spraying. The mustard and other weeds to be killed must be rapid growing, soft and succulent.

7. As to apparatus, it is not within the province of the station to recommend the apparatus of one firm over that of another. There are any number of companies which deal in good spraying apparatus. There are many good spray pumps which can be attached to an ordinary barrel, the barrel being placed upon a cart or truck, wheel barrow or upon a wagon. In the case of an attempt to spray on a large scale, I would recommend that a tank similar to a water tank, though not so heavy because of the soft ground, be attached to a cart which may be hauled by one or more horses. Any of the spraying houses will furnish force pumps, with one, two or three attachments of hose, thus allowing one or more men to walk around the wagon, a distance limited only by the length of rubber hose attached. The nozzles are in most cases so constructed that the pole attachment can be used, thus allowing the man who does the spraying to walk erect and spray the grain and ground all around him for a distance of ten or more feet. The work of spraying can be done for six to ten feet on each side of the cart and behind it practically as it can be moved along by the driverdriver. A cart of one half barrel capacity is to be had from many firms, which will spray a large area of ground and may be pulled by hand. Such spraying apparatus is always of value in the destruction of bugs upon potatoes, insects upon trees, etc. In fact, hardly any farmer can afford to be without a good spraying apparatus.

If you will apply to your hardware dealer, they no doubt will be able to procure any form of pump which is wished and you can attach it to any type of barrel, cart or wagon which may be available or desired. There are spray pump manufacturers in St. Paul and Minneapolis, but at present I do not remember their address. Any one who wishes to communicate with a reliable firm will get good treatment, I believe, from either of the following:

The Deming Co., Salem, O., western agency, 61 to 69 north Jefferson st., Chicago, or the Spray Motor Co., Buffalo, New York. These are the most extensive manufacturers of spraying implements and can furnish practically any type of apparatus.

Use commercial copper sulphate thoroughly dissolved at the rate of one pound to four gallons of water. Spray this solution upon the weeds so as to thoroughly wet the surface of the leaves.

We will gladly communicate with any person desiring further information in the use of the spray for killing mustard or other weeds. Of course where one does not have to protect growing grain, the killing of weeds is a simple matter by means of the spraying solution, as it can be made stronger. We will also be pleased to give advice to hardware dealers as to the best type of spraying nozzles, spraying pumps and general spraying apparatus for this kind of work."

NOW A BOOTBLACK

IS THE SON OF SIOUX CHIEF SITTING BULL.

The eldest son of the famous Sioux chief, Sitting Bull, is now a thrifty, prosperous bootblack in Philadelphia, says an exchange. His Indian name is Montezuma, but he is known to his friends and patrons as Harry Parker. He is a graduate of the Indian school at Carlisle, where he took high honors both in the classics and as an athlete. When he left college he found it difficult to get a position where he could use his education, but he determined that he would not remain idle. Without wasting time he promptly set up in business as a bootblack and he now owns and conducts one of the most prosperous stands in Philadelphia. He has saved considerable money and is about to open several branch stands in other parts of the city. Montezuma is married to Winonah, a full blood Sioux girl, whose father was one of the great chiefs of the tribe, and they have two children. Mr. and Mrs. Parker, as they are called, own a pretty home and are in every respect model citizens of the Quaker city.

NIPPED IN THE BUD

DENVER MAN ATTEMPTS TO IMITATE DEAD SOLDIER.

St. Paul, May 18.—Oscar Seebach, acting assistant adjutant general of the national guard, nipped in the bud a scheme of a Denver man to defraud the government out of a section of land in Colorado by impersonating Wm. Cogger, a member of the First Minnesota, killed in the battle of Antietam.

The letter purporting to be signed by William Cogger came from Denver asking for an honorable discharge papers. He wanted to take up a section of land. "Mr. Cogger" did not get the discharge papers, for records showed that he had been buried for a quarter of a century.

SUIT FOR INFRINGEMENT.

The J. L. Owens company has begun a suit in equity against the Keller Manufacturing company of which the famous ex-Senator Keller is the head, at Sauk Centre, alleging the infringement of patent rights. The Owens company claims to be the owner of a patent on a certain draft equalizer, and alleges that the Keller company is not only manufacturing eveners of the design covered by the patent, but has swiped even the name. The Owens people figure that they have been damaged to the extent of about $10,000 and ask for an injunction to restrain the Keller company from further manufacture of the evener, pending a decision of the points in controversy.—Fergus Falls Journal.

Cooke at once and get price, as she expects to return east soon. She can be found at the residence of F. W. Hall, 228 Houston ave. Di Wi

Wise and Otherwise.

There is one thing I have noticed about people of Crookston, and that is the variety of "sets" into which society is divided. But then I am told that this feature is not peculiar in western cities of this size, and in order to be popular one must belong to one or the other of these cliques. Now popularity is greatly to be desired, but my observation has led me to conclude that popularity doesn't always represent the highest type of morality. The man or woman who bobs up on the top of every social wave always reminds me of the cork on a fisherman's line which comes to the surface because it is too light to go anywhere else. I don't know as I want to belong to anybody's set, but I've often wished I could sing (away up in the key of G) or speak a piece, or tangle up the piano keys in a masterful way, for then I could go every where and have a front seat, be looked at by everybody, and have a good time generally. I might not be admired, for I am no beauty, but it would be worth a good deal to be brought into notice. Nobody would ask my family history, finances or character, for you know, "music hath charms," if the singer has'nt.

—o—

Right here I would like to say something to the boys and girls. Ever since I came to Crookston, I have had my attention drawn particularly toward them, and I would like to tell them how heartily I sympathize with them in all their sport and enjoyment and also in their trials and troubles, which experience has taught me are not few, and very perplexing. I sometimes think older people have all forgotten their youth, and when I hear a man or woman say how good the young people were years ago, and how they never did this or that when "I was young," I always make a mental estimate of how much that person has lived in his years and conclude that age has locked the door of the past, and that only one side of the question has been remembered. Now, boys and girls, while I think you are about as good as young people average, there are a few things you might improve in. Madame Grundy is stil on the lookout and there are plenty of gossips who never see things straighter than they tell them, and you know how twisted and crooked that is don't you? Be careful then of your conduct on the street. Don't do anything to attract undue attention, and remember that what might be perfectly proper at home is not always the thing to do in public. Girls, for one thing, please cultivate a quiet, pleasing voice at home, and avoid, above all things, a loud shrill tone on the street. To my mind, a woman's voice, be she young or old, is among the chiefest of her charms. Think the matter over, and see if you do not agree with me. These pretty nights are a great temptation to all of you, I know, but remember that a regular hour for retiring is no less necessary for your best good and perfect health in summer than in winter. Tomorrow's sun will rise on time and your duties will await your regular rising, too.

—o—

The paint brushes have been laid aside this week by Crookston's fair ones and the woman with the hoe and garden rake has been quite in evidence throughout the city. Gardening, that "art as old as history itself," has occupied many hands, and white ones, too. As I walked down the Avenue and up Ash street yesterday morning, early, I saw many of the ladies out working in their yards and gardens with a relish born in enjoyment and full of hope. Is'nt it surprising how a few touches will improve the lawn and how many of our women love to do it. It made me think of home and mother, for her greatest happiness always lay in her work out of doors. And I felt glad that our progressive western women still cling to the old ways, and realize that nothing is better for them than the actual contact of their own hands with mother earth. I am so glad you all love flowers so well, for nothing makes home brighter or a city more attractive.

—o—

When do your people begin to have lawn parties and picnics in this country? I do hope the committee will put me on the list for them, for if there is one thing more than another that I love, it is a picnic, especially later in the season, when animal life is full of activity. It affords such a good opportunity to study the habits of ants and mosquitoes and all kinds of bugs and worms. I've noticed the tendency of these creatures is toward civilization, and they are much inclined to be over intimate toward picnic parties. Isn't it strange that so many nice, particular housekeepers, who will chase a stray fly in their dining room ever so long to get it out before sitting down to a meal, will go into the woods and eat a picnic dinner with hundreds of these pests crawling all over everything. I wonder if the members of their families don't wish they could live in sylvan groves forever, just to escape the remarks about screen doors being left open, and miss the family swish of that everlasting fly brush. Why can't we make the best of things at home just as we do elsewhere and put on a smiling face when little things go wrong and something unpleasant happens.

That's What Two Homesteaders Get For Illegal Entries

ONE ENTRY WAS MADE HERE

And the Other, the Illegal One, in the Duluth Land Office

Register Sylvester Peterson, of the United States land office in this city, returned from Duluth Thursday, where he was summoned to appear as witness in the United States court, against two men from Park Rapids, who were indicted by the grand jury on a charge of illegal entries upon homestead lands.

The men accused of the crime are Frank A. Perkinson and Walter C. Phipps, and both are known in these parts. In the year 1898 both men filed on homesteads in this land office district, and complied with the law prescribed to hold down homestead rights. Some time later the two men went to Duluth and again made entries upon homestead lands belonging to that district. Their fraudulent game was discovered and they were arrested and taken for trial before the United States court. The court held that the entry first made by the men in the Crookston land office was valid, while the Duluth entry was plainly fraudulent and illegal.

They were each sentenced to one year's imprisonment and to pay a separate money fine of $100 each. While the sentence is considered severe, it was deemed advisable to set an example of this kind of violation of Uncle Sam's land grant laws.

STILL MISSING

FARGO BUTCHER'S ABSENCE IS A DEEP MYSTERY.

The mystery surrounding the disappearance of Charles Melquist, the Fargo butcher, is still dark, and as a result Mrs. Melquist has filed with L. C. Johnson a duly acknowledged and witnessed offer of $250 reward for the recovery of Melquist's body, and it is hoped that the woman's awful suspense may soon be terminated. She is in a pitiable mental condition and has eaten but one meal since her husband left home. The only nourishment she takes is water, and her strength is about gone.

Some people state that Melquist may have gone to Winnipeg, as he is known to have many friends there, but this idea is scouted by Melquist's friends, who say that he would not think of leaving home without informing his wife.

A few days ago a bicycle was offered for sale to a second hand dealer at Fargo, which resembled that used by Melquist on the night of his disappearance a week ago, but the party who was in possession of the wheel has disappeared and may be out west by this time.

BIG RUSH FOR LAND

NEW TOWNSHIP IN ROSEAU IS NEARLY ALL TAKEN.

Wednesday last week township 160, range 42, near Badger, in Roseau county, was thrown open for homesteading, and the rush at the local land office that day indicated that there was a great deal of demand for the unoccupied land in that region. Before the close of the office that evening, 25 homestead entries had been filed at the land office, and Friday morning 40 more entries were received by mail.

The great rush for these farm lands has almost exhausted the entire township, and the best pieces are certainly claimed by new settlers. The land lies in one of the most fertile sections of Roseau county and is all tillable soil, mostly prairie, has good water and small wood, and the opening for settlement will greatly advance the financial standing of the county in which it is situated.

The new owners of homesteads are all practical farmers and will open their possessions as fast as circumstances will permit.

ANOTHER DISAPPEARANCE

R. J. PLANTZ OF PARKER BEING SOUGHT FOR BY FRIENDS.

Although a thorough search has been made, nothing can be learned of the whereabouts of R. J. Plantz, who left Parker town April 12.

It seems to be the opinion of the people of Parker town that Mr. Plantz was murdered on his way from this city to Parker town on the evening of April 12. As was stated before, Mr. Plantz was seen in this city about 2 o'clock in the afternoon and was on his way to a barber shop to get shaved. He had intended to go back on the way freight that leaves this city about 4 o'clock, but did not, and it was thought that he had missed the train. It is now thought that he started to walk up the railroad track, and had been waylaid and killed on his way.

Mr. Plantz mortgaged a pair of horses to the First National bank in this city and secured $25, and this was all the money he had, and it does not seem probable that anyone would kill him for that. A thorough search will be made of the woods between this city and Randall, and if the theory that he was killed is right, his body will probably be found.—Little Falls Transcript.

HAD NARROW ESCAPE

SAVED HIMSELF ONLY BY PROMPT ACTION.

About 11 o'clock Thursday night Ed. Huntley, a Great Northern night switchman, came very near landing in the unknown dark beyond. Huntley was riding on the foot board of the switch engine, which at the time was running on the pass track in the Carman yards, along the main track, at a pretty fair rate of speed, when he suddenly discovered that a short distance ahead of him a pine log, that must have fallen off a Great Northern log train, hauling timber for the East Grand Forks saw mill was obstructing the track and would not permit the engine to pass without hitting it. He signalled the engineer of the danger and then looked about for a place to leap. Unfortunately, however, there was no safe spot in sight for him to land, as on one side of the pass track stood a string of cars, while the other side was unsafe because of the log in question.

About that time the foot board of the engine struck the log with considerable force, although Engineer Swanton had reversed the lever of the machine. The foot board upon which Huntley stood was literally torn from its bearings and he was thrown forward into the middle of the track. His presence of mind never left him and the next thing for him to do was to get out of the way of the engine, which was still moving, and while crawling over the rail the pony trucks struck him in the side and rolled the switchman over toward the other track.

The escape of Mr. Huntley from instant death was almost miraculous, but he did sustain a large number of severe bruises. Both his limbs and hips are cut and show black spots from coming in contact with the rails and the hard track.

HIS HEAD CUT

ANOTHER SWITCHMAN MEETS WITH AN ACCIDENT.

Friday the Journal had an account of an accident which befell Ed Huntley, a Great Northern switchman in the Carman yards the preceding night. Huntley is temporarily disabled on account of the mishap, and Fred Ramshardt was assigned to fill the vacancy. All went smoothly until about 11 o'clock, when the switch engine was returning from this end with a string of eight cars. Ramshardt was hanging on the iron ladder bars on the side of one of the cars when it reached the coal sheds. He failed to notice danger ahead of him, as it was quite dark at the time, and before the train had fairly passed the first half of the coal bins, Ramshardt's head came in contact with some projection and received a deep gash on the crown of his skull almost four inches in length.

The heavy blow knocked him off the ladder, but he still retained a hand hold, and in this manner clung to one of the bars until the train came to a standstill. Next morning he had the cut dressed and was able to be about, but his hat does not fit as well as before.

NEW HELLO COMPANY

OUTSIDE CONCERN SEEKS ADMISSION TO CROOKSTON.

Correspondence has been opened between a prominent citizen of Crookston and the management of an outside telephone company, which seeks to get the privilege of operating a system in this city.

The new company is a moneyed concern and if they secure the right which they will ask from the city council in the near future, Crookston will soon have another telephone line, and enjoy a very low rental rate.

The new enterprise proposes to furnish instruments to business houses at $1.75 per month, and residences for $1.25.

ADA TO THE FRONT.

The village council has about decided to extend the electric lights to the resident portion of the village—a plan that will greatly please a majority of our citizens. Electrician Zimmerman has recommended stringing wires across the streets and hanging a 32-candle power incandescent light in the center of the street instead of placing a light on every other pole as talked of. Mr. Zimmerman's plans will give both sides of the street an equal light, with a much better effect and very little additional cost. With water works, a good system of sewerage, telephone exchange in sight and electric lights extended all over the town—what's the matter with Ada?

The Index reporter has been informed by C. C. Allen that the directors of the local telephone company have ordered three carloads of cedar poles, averaging from 25 to 50 feet in length and expect them to arrive in Ada in a short time, when work on the line will be started.—Ada Index.

TERRIBLE TRAGEDY

Occurred at the Celebration at Bemidji Last Friday Night.

FOUR DEAD, MANY INJURED

And Others Who are Injured May Increase Number of Deaths

The survivors of the terrible catastrophe on Lake Bemidji last Friday night tell a thrilling story of their experiences. As usual in such cases each one has his own version of the sad affair, and there is much conflict in testimony, no two telling the same story.

Several of the excursionists from this city who stayed over arrived home Saturday evening, and their recital of the accident is simply heartrending. Among those returning were H. G. Ebbighausen, Adolph Kirsch, Cliff Finch and several others. Kirsch and Finch were on the ill-fated Shadow a few moments before the explosion occurred, but left the boat because of the reckless manner in which the fireworks were handled, and secured a smaller boat for their own convenience.

The returning party stated to a Journal reporter that among the drowned was Joseph Michaud, a well to do and favorably known citizen of Shevlin, who spent the greater part of the day in company with Mr. Ebbighausen.

Michaud had a large sum of money on his person when he went down and it is reported today that $500 in gold was found on his person when the body was recovered yesterday.

Frank Smith, who was fatally burned, and who will probably not survive, is also well known here, having conducted a restaurant on North Main street in this city up to last fall. He is burned and charred beyond recognition, and his head is swelled out of all proportions. Although still living, under terrible suffering, his end is considered only a question of a short time.

The names of the three boys drowned, the body of only one of whom has so far been recovered, are Fred Driver, 10 years old: Richard Zacharias, 11 years old, and his brother Al, 9 years old, all of Bemidji. The list of those more seriously burned or injured, are:

FRED McCAULEY, fatally burned.

ED. SCARROTT, Bemidji, leg broken and injured internally.

C. E. ARNOLD, Bemidji, seriously injured.

EMIL JESTEN, Rosby, Minn. burned and bruised.

The explosion threw everyone into a panic, and the wildest excitement reigned on the boat, during which the drowned persons evidently attempted to save their lives by swimming to shore, or be rescued by some other boat.

There were at least forty boats on the lake and within reaching distance of the unfortunate ones, but no one realized the awful situation until it was too late.

The night was very still and the shrill voices of women and children immediately following the disaster were plainly and distinctly heard by those gathered at the shore. Serpents of fire leaped through the darkness and lit up the palid faces of the imperilled passengers and crew of the burning boat, until they were finally brought to land and cared for as well as willing hands could do it. Meanwhile a heroic and plucky fight was made to extinguish the flames, and when assistance came the fire was pretty well under control.

Hundreds of men have been engaged ever since the accident in dragging the lake, which is about 30 feet deep at the point where the explosion occurred, but only two of the bodies have so far been recovered, according to last reports.

COULD NOT RECOVER

..AGES—INJURIES WERE THE RESULT OF CARELESSNESS.

Henry Bell, a woodsman, engaged with a contractor's crew in building a dam over the Nemadji river in Wisconsin, climbed a dead tree, fastened a rope and tackle to it, and then he and his foreman, Charles Sherman, with the aid of a yoke of oxen, tried to hoist a 1,400 pound hammer from the pile driver onto a wagon. The oxen pulled, the hammer swung out, and the dead tree came down on top of Bell. His arm was broken and he was otherwise badly bruised, so he sued the contractor, Robert A. Lang, for damages.

The courts hold that Lang didn't furnish that tree as a tackle post. It was a mere temporary appliance provided by Sherman and Bell themselves, and, as Bell had been a woodsman for 26 years, he should have known better than to hitch the tackle to a dead tree. The decision of the lower court against Bell is affirmed, Chief Justice Start writing the opinion. The case was tried in Ramsey county.

INSTITUTE DATES

SINGLE DAY SESSIONS FOR THIS SUMMER.

Farmers' Institutes will be held during the coming sumer as follows:

Perley, Norman county, Tuesday, June 4.

Halstad, Norman county, Wednesday, June 5.

Climax, Polk county, Thursday, June 6.

Fisher, Polk county, Friday, June 7.

East Grand Forks, Polk county, Saturday, June 8.

Red Lake Falls, Red Lake county, Tuesday, June 11.

St. Hilaire, Red Lake county, Wednesday, June 12.

Hallock, Kittson county, Friday, June 14.

Stephen, Marshall county, Saturday June 15.

Badger, Roseau county, Tuesday, June 18.

Roseau, Roseau county, Wednesday June 19.

Argyle, Marshall county, Friday June 21.

Warren, Marshall county, Saturday, June 22.

Euclid, Polk county, Monday, June 24.

McIntosh, Polk county, Tuesday, June 25.

Fosston, Polk county, Wednesday, June 26.

Bemidji, Beltrami county, Friday, June 28.

Fertile, Polk county, Monday, July 1.

Twin Valley, Norman county, Tuesday, July 2.

Speakers have been secured as follows:

John Goold of Ohio, Dr. C. D. Smead of New York, A. A. Borberree of Guelph, Ont.

—T. A. Hoverstad.

LOST SOME TOES

CONDUCTOR JIM BURNS BADLY INJURED.

Conductor Jim Burns of the Great Northern, who during the winter has been running a logging train at Cass Lake, fell a victim to a serious accident Thursday afternoon which cost him a part of his right foot. Burns was in charge of a gravel train and when within three quarters of a mile from Shawnee, the plow used in unloading gravel got stuck, and in trying to loosen it he jumped and had his foot caught, cutting it so badly that the amputation of several toes and a part of the side of it became necessary. The injured man was a passenger on the No. 8 east bound Great Northern last night on his way to a St. Paul hospital.

His many friends in this city will regret to learn of Mr. Borns' misfortune.

N. S. GERVAIS,
"THE BOSTON"

Polk County Journal,

BY N. S. GORDON.

☞ Subscription $1.50 per year in advance

Entered at the postoffice at Crookston, Minnesota, as second-class matter.

A New York girl only 20 years of age, named Marie L. Wilson, has cleared $725,000 in clean cash as the result of speculations during the past six months, with a $2,000 capital to start with.

HOW IS THIS FOR "SARKASM?"

The Free Press (Fergus Falls) says: "Editor Wheelock had a little bill against this office this week and brought it up. Harry is strong on sarcasm, and he illustrates this ability by printing on one corner of his bill head the words, "A live weekly newspaper."

FREE PRESS HOSPITALITY.

The Fergus hospital now has 1,340 insane patients. The number is steadily increasing.—Breckenridge Telegram.

Yes, and the authorities are expecting the editor of the Telegram over any day to take the room already set aside for his use. Come along, brother, and make yourself agreeable.—Free Press.

THE PRIMARY ELECTION LAW.

As a matter of course, the recently passed primary election law is exciting quite a variety of comment, much of which is quite conflicting in its conclusions. The claim is made by some that it will operate to strengthen the present office holder in his grip upon his position and enable him to perpetuate himself in office indefinitely. The Journal does not accept this view of the tendency of its provisions, and predicts that only so far as the office holder is faithful in the discharge of the trust committed to him by the voters, will this law tend to strengthen his popularity and open the way for his renomination and election.

We believe that the fact that each individual voter has an equal chance with every other legal voter to control in the nomination of candidates for the various offices, will awaken a deeper interest on the part of the honest voters in becoming thoroughly informed in regard to the comparative qualifications of the aspirants for the various nominations respectively, and stimulate them to the exercise of the privilege of expressing their choice, beyond what there was any incentive to under previous conditions. While we do not claim for the law that it will absolutely do away with all the objectionable practices which existed under the old law, yet we believe it places the question of nominations in the hands of the voters, and takes them out of the hands of the professional politicians. But one thing should be remembered. This law does not undertake the education of the voter, and will not accomplish that work. The voter who desires to exercise his influence intelligently must be interested in keeping in touch with passing events, and becoming familiar with the character and records of men who ask for his support. Otherwise he will be liable to be misled and become the dupe of unscrupulous politicians still. And its tendency to broaden mens' information we believe constitutes an important element of the value of the law.

RUBBER FACTS.

Julian Provenchier, who is the proprietor of an immense rubber plantation in Mexico, which has been under cultivation eight years, is in Minneapolis and has furnished the Tribune with an interview in which some interesting statements in regard to this useful article are made. He says:

"The India rubber industry is going to become one of the most important we have down there. The demand is tremendous and constantly on the increase. Central America is having all it can do to meet the demands of the trade, and there is no sign that the product will ever be less in demand than it is at this time. On the contrary, there is every probability that the necessities of the manufacturer will increase from year to year.

"A tremendous change has occurred in this field during the last 10 years. First, the tremendous call for rubber created by the bicycle boom caused a hoist in prices, and an increased interest in the growth of the plant. Instead of depending on nature for a supply, the trees are now being planted and systematically cultivated in Mexico, where the industry has become a most important one.

"The comparatively recent adoption of the rubber tire to all sorts of horse vehicles has increased the call for material enormously, and in fact India rubber now enters so widely into various sorts of manufactures that the trade may be said to have undergone a complete revolution in the past decade.

"There is excellent opportunity for the investment of capital in rubber plantations in Mexico. The soil and climate are peculiarly suited to the growth of these trees, and it requires about five to six years for a plantation to become profitable. A large number of American capitalists have become interested in rubber culture in Mexico within the last five years, and it will not be very long before the American product takes a much more prominent place in the market than it holds at present."

The city of Rhinelander, Wis., is said to have expended $10,000 in caring for smallpox patients, and is still in the business and finding new cases every day.

We publish in this issue a list of institute appointments as furnished for the Journal by T. A. Hoverstad, manager of the Experiment Station at this place. The list of speakers named is a sufficient guarantee of the interesting and valuable character of the work that will be done, and the various session will no doubt be well patronized.

The Journal acknowledges the receipt of a very tasty manual issued by the Minneapolis District Epworth League, and giving the program for the International League convention to be held in San Francisco July 18 to 21, 1901, with a description of the prive her of it. This method of pro been arranged in connection with the convention. The description given indicates that the excursion and the convention together will furnish an attraction rarely equalled. All particulars can be ascertained by addressing W. G. Calderwood, secretary transportation committee, Minneapolis, Minn.

DISCIPLINARY SUGGESTION.

"An American Mother" gives some very sensible advice in regard to the persistently grumbling child. She says she would not attempt to influence the child by argument, but would let her reap the result of her own conduct. If she grumbles at her breakfast, let the breakfast be quietly and pleasantly taken away from her, and let her go without until dinner time. If she grumbles at getting up in the morning, let her stay in bed and lose her breakfast. If she grumbles at going to bed, let her remain up, and so arrange that she is left to go to bed without the usual good-night attentions, or leave her to sit up alone while the rest of the family go to bed. Whenever she finds fault with anything, sweetly acquiesce in her ideas, and at the same time dener time. If she grumbles at getting cedure will soon cure the most fault-finding child of grumbling.

DREW A CROWD.

A minister of the Methodist Episcopal church at Jersey Shore, Pa., recently caused a sensation by offering a cash bonus to every one attending divine service at his church. The edifice was crowded and after a sermon each one present was handed an envelope. When opened each one was found to contain just one penny. On the envelopes were printed these words: "This is your talent. Don't wrap it in a napkin, but use it. Your love for the success of the cause will determine your efforts. Harness up this talent and make it pull in others." Quite a number were sorely disappointed, and more so when they found that the pastor had a string on the penny, for he told them that he expected the money to be invested so that it would bring a return of either $2.15 or $10 to the church.

How far such schemes to attract a crowd of hearers through an appeal to their curiosity may justifiably be resorted to by preachers of the gospel is of course for them to decide. But the great mass of thoughtful, Christian people are sure to discount it heavily as a soul saving method.

EX. STATION ITEMS.

Friday afternoon Rev. Mr. Fisher made Prof. and Mrs. Hoverstad a visit at their home on the Experimental farm, and has contributed for the benefit of Journal readers the following items of information gleaned by him while there: Prof Hoverstad intends to put in some forty varieties of corn this year, and about the same number of varieties of wheat. In the past he has experimented with about six hundred varieties of wheat and has thus found out the most desirable ones for the climate and general conditions of this region. To poultry and stock raising also much attention is being paid, and the results of Prof. Hoverstad's work are very gratifying. The department of forestry is bound to gain more and more favor as the people of this region set themselves about beautifying their homes and surroundings. For several years much work has been done in this line at the farm. At present special attention is given to producing fruit trees which, it is hoped, will stand this climate. Upward of one hundred varieties of apple seeds have been planted and some thrifty little shoots are now coming up. If a hardy tree can be grown, then, by scientific processes, good fruit may be produced.

In the department of grasses much labor has been expended. Among the most promising large producing grasses are the Agripinum, Tenerum and Bromus Inermis. Seed has been obtained from Russia, Austria and West Virginia. Efforts are being made to produce good clover in this region. A new variety, whose leaves are without hairs on the under side, has been obtained. It is thought that much of the smut and dirt which ordinary clover brings into the barn is occasioned by these hairy leaves. If the cultivation of this clover shall prove a success, the result will be greatly appreciated. Efforts are being made also to get the best specimens of the best native grasses with a a view to their culture.

—Grand Forks Herald: When a man is sent to the city jail at Crookston he is put to work digging a well for the smallpox patients, and the ground in the neighborhood of the pest house is assuming the appearance of the homestead of a big colony of foxes.

The Blue Earth Post very appropriately says: "State Republicanism boiled down: Better cared for institutions; more and better general improvements; lower tax rate; more good laws passed than at any session for years." The people do not fail to notice the improved conditions. And many a one is becoming convinced, even against his will, of the sincerity of the ante-election republican promises.

CONJUGAL CONSIDERATION.

The editor of the Gaylord (Kan.) Herald furnishes evidence possessing a very strong principle of conjugal consideration. He says:

"Believing that it is the duty of every man to be as good to his wife as circumstances will permit, we have just bought our better half a nice new hoe and garden rake, and if some of our subscribers, who ought to have done so long ago, will pay up, we shall buy her a wheelbarrow and shovel."

UNDER THE NEW LAW

A. A. Groven of the town of Onstad who has a flock of fifty fine sheep, will be among the first to avail himself of the indemnity provided by Chapter 187 of the laws passed by the legislature of 1901. His flock was visited by some dogs and two of his sheep were killed. He was in the city Monday looking up the question of the course to be pursued in the case, his attention having been called to the existence of the law by the article in the Journal a short time ago.

The state dairy and food commission is now sending out four creamery experts, who will devote their entire time and attention during the summer to creamery work exclusively. This will be more than a mere inspection of the creameries; the inspectors will not only insist that all the sanitary conditions at the creamery are all right, but they will also take particular care to observe that the patrons handle the milk properly before delivering it at the creamery. This is of equal importance in making a first class article of butter, and the full benefit of this reverts directly back to the patrons. The inspectors will also ascertain what fault or trouble, if any, there is in the work of the butter maker, and will give him the necessary instructions to remedy it.

BREAD AND BUTTER STATE.

The unique idea of providing an exhibit at the Pan-American exposition of a model of Minesota's new capitol made entirely of butter, was unquestionably born in an instinctive conception of its harmonious fitness. The Red River valley has become widely known as the "Bread Basket" of the world, and in still further recognition of its wheat producing capacity, Minnesota has become known as the "Bread State of the World." Her wonderful dairy industry has, however, now come to an advanced stage of development and by its importance and merit demands for itself an inclusive recognition in the appellation which has become so inseparably attached to the state. Bread is a synonym for the staff of life. But its supply invariably suggests a demand for butter. This demand Minnesota has an ambition to supply, and has succeeded in forcing herself to the front as a butter producing state. And we now claim for her the significant and applicable title, the "Bread and Butter" state.

And assuming that the pertinency of the appellation will not be questioned, what more fitting exhibit could be devised than a model of her elegant new capitol composed entirely of rich, golden butter, the product of her creameries, resting upon a huge slice of bread representing the capitol grounds? The project is one which does credit to the genius and loyalty of its originators, and we trust will not fail of fulfillment.

This model is intended to be eight feet in length and five feet high, the entire length of the grounds represented being about fourteen feet.

OBJECTED TO HIS GRAVE.

The friends of Chris Houston, who operates a fine farm about three miles east of the city, tell a good joke on him. Chris had a young calf which he let run at large on his pasture grounds. One day last week the youngster apparently wasn't feeling well, and laid down for several hours, and its owner noticing this, concluded that the little critter was a dead loss. Taking a spade, he proceeded to dig a hole in which to bury the dead animal, and after completing this part of the job turned around to roll the supposed carcass into the excavation, when he noticed the calf with his head raised, sizing up its grave. It then leaped to its feet and with a long drawn out "blah!" chased down towards the barn. Chris wiped the perspiration from his brow, went back to the house, and for three hours and seventeen minutes he wouldn't speak, and now when he sees that identical calf, he takes a walk around the barn to kick himself, where nobody can see him.

—Don't suffer from Dyspepsia and Stomach trouble; when you're tired of "cure all" remedies try Mull's Pioneer Stomach and Dyspepsia Cure. A dollar draft in each $1.00 box guarantees a cure.

THE STATE FAIR

To be Held on the Fair Grounds at Hamline, Minn., Sept. 2 to Sept. 7.

NEW AGRICULTURAL HALL

Will be Important Addition to Facilities for Handling Exhibits.

The arrangements for the forty-second annual state fair have now progressed sufficiently to justify the prediction that it will be the [illegible] fair ever held in the state.

It has been and still will be the earnest efforts of the managers to utilize the experience which the past years have brought to them in avoiding a repetition of the mistakes which have been made, as well as in achieving greater success along the lines already successful.

THE NEW AGRICULTURAL BUILDING.

The elegant new agricultural building which will be in readiness for use by the time it is needed, will make it possible to do justice to the various classes of exhibits for which it is intended, to a degree which was not possible with former accommodations.

The grounds of the society, embracing 200 acres in area, are remarkably well adapted to the purposes of a great exposition, and in arrangement and convenience of access have no superior in the United States.

The premium list, which has now been published and is being given out has been most liberally revised, and will well repay a careful examination.

Special attention will be given to the live stock exhibits, and an effort will be made to secure the best possible types of all breeds of each class of the domestic animals—horses, cattle, swine and poultry. The opportunity to study these animals and see them judged by expert judges will be of great educational value to the farmers of the state.

It is the intention to have every industry in the state well represented, and every department will be placed in charge of a superintendent, selected because of his competency and experience in that particular line.

Delightful surprises will await every visitor in every department of the fair.

The attractions of the women's building will not be excelled by any department on the grounds. Very liberal premiums are offered and the best specimens of textile and fine art work, as well as the most delicious productions of culinary skill will be shown, and every lady visitor is sure to be delighted here.

In the agricultural department $1,200 are offered to be divided among all the counties making exhibits pro rata, according to the score awarded them, and an additional $600 is to be divided among the six exhibits making the best score, in $200, $150, $100, $75, $50 and $25 amounts, respectively.

The total amount of premiums offered approximates $35,000. The narrow limits of a newspaper article will not permit a detailed mention of all the attractions to be offered. But we want to place especial emphasis upon the fact that the wide range of attractions will surely furnish something which will possess especial interest for everyone who attends, no matter how widely diversified their tastes.

The grounds will be open continually from Monday morning till Saturday night, and evening amusement programs, as well as day programs, will be rendered.

Recreation necessarily follows labor, and at the fair when you weary with studying its exhibits, you will be delighted with the opportunities provided for relaxation and pleasure.

No. 3 Northern	.52 1-2
No. 4 Northern	.35
Flax	$1.33

—Octova Barker, a veteran of the civil war, was Thursday granted a pension of $10 per month. Mr. Barker's home is at Argyle.

—Engineer F. A. Chapin is making extensive improvements on his residence on North Main street, and when completed he will have a cozy home.

—Arrangements have been made with Rev. Floyd A. Lawson, pastor of the Methodist church, to deliver the oration at the cemetery on Memorial day.

—Geo. Walsh has sufficiently recovered from a badly sprained ankle, to enable him to resume his work as switch engineer in the Great Northern yards here.

—Aaron Jones, of Indiana, grand master of the National Grange, is to meet the Grange in this city June 3, and will meet with the Grange at McIntosh the following day.

—A serious cutting affray in which one of the redskins nearly lost his life is reported from the Red Lake reservation, and is said to be the result of too much fire water, which is being distributed among the Indians.

—Ed Miller, of the town of Marin, recently purchased the business interests of Knut Nerland in the village of Fertile, and will remove to that place with his family in the near future. Mr. Nerland has not decided what he will engage in next.

—According to the Times of Blackduck that town is soon to have a sanatarium in the pine woods for pulmonary consumption patients. The town submits its claims as the proper place for such an institution, on the grounds that it is best suited for it.

—Miss Katherine Germaine, the prima donna of "The Highwayman" opera company which played an engagement at the grand in this city recently, ate more strychnine than she needed in Minneapolis Sunday morning and the doctors have since been trying to get her stomach in shape. She will recover.

—Harry Ives, of St. Hilaire, returned Monday from Cass Lake, where he has been visiting his parents for a few days. While at the lake Harry took a look at the hole he made in the water several years ago, when Gus Schmitt dumped him out of the row boat they were in. Harry asserts that the hole is still in the lake.

—State Supt. of Schools J. W. Olson will hold a summer school congress at the University of Minnesota June 25, when matters pertaining to the summer schools will be discussed by the county superintendents, summer school conductors and instructors. It will be the first congress of its kind ever held in the state.

—Judge Holt performed the ceremony Friday which resulted in bonds matrimonial for life, Miss Signe Brekke and Alfred Vigen, both of Neilsville, in this county. The judge spoke the momentous words with his usual judicial dignity and grace. The happy couple left on the evening train for Great Falls, Mont., where they will reside.

—An overland tourist, in the presence of about a hundred spectators Tuesday swung himself upon the trucks of the passenger coach on the St. Vincent train, just as Conductor Murphy gave the signal to pull out, and after planting himself in a comfortable position, stuck his hands out between the wheels and waved the crowd good-bye, as the train disappeared in a northerly direction.

Ada Index: The following is what the government inspector of U. S. land offices has to say of the Crookston office: "I believe that the register and receiver in Crookston do more personal work and manage the business of the government at less expense, considering the volume of business transacted, than the officers at any other point in the United States and I shall take great pleasure in incorporating this in my report to Washington."

—Conductor Hank Murray mourns the loss of his foot stool, which served the passengers on his train as a stepping stone in alighting from the passenger coach. Some one has accused Ad. Kirsch of swiping the apparatus and selling it to the Bemidji city council for a mail box. Ad. denies the allegation and claims that Hank himself is responsible for its disappearance, and that the handsome ticket puncher is using the box as a receptacle for a pair of nice white owls with big, large yellow eyes.

—Chief Creamer: Of all the smallpox patients the city of Crookston has so far cared for at the detention hospital, only one of them was a resident of Polk county. The rest all came from outside counties and enjoyed the hospitality at our expense. This should be changed. Every patient should be compelled to work a day for the city for every day he received care from the authorities while sick. At least, patients from other counties should be asked to make some sort of payment for what they get, and not have the city stand the whole expense.

—Dr. W. W. Schiffman of St. Paul, a prominent physician and politician of the capital city, was a Crookston visitor yesterday.

—Auction sale of all kinds of shoes at Kiewel's shoe store Friday and Saturday evenings. John Kiewel, auctioneer.

—Frank Hessler is the name of the new day clerk at the Palace, who succeeds John Moorhead. Hessler comes here from Morris and has had long experience as hotel clerk.

—Up at Bottineau, N. D., a farmer wanted a muzzle for a calf. Not having one, he used a base ball mask. Instead of reforming the calf, he converted it into the star backstop of the country.

—The "Evil Eye" company, which appeared at the opera house in this city some time ago, is again heading this way and is receiving many complimentary press notices where they have appeared.

—The interior of the Northern Pacific passenger depot now presents a very inviting appearance, painters and brush artists having treated the waiting room walls and ceiling to a new coat of frescoing.

—Contractor M. McKay left for BeltramiTuesday, where he has a number of proposed building plans to prepare, and he will probably superintend the construction of the same when the contracts are let.

—On Sunday morning, the 26th inst., the members of the G. A. R post and the members of the W. R. C. will attend the Methodist church in a body, and listen to a memorial sermon by Rev. Mr. Lawson.

—A small colony of Polanders arrived from the old country on the early train Saturday, and stopped over between trains. Their destination is Angus, where some of the new comers have relatives and friends.

—Warren Register: A few Crookston people are doing a lot of "beefing" over the ball game played here last Saturday. That's right, when you can't lick the other fellow, get all the satisfaction you can by making faces at him.

—Ed Morrissey returned Friday evening from St. Hilaire, where he placed a steam heating plant in the elegant farm residence of M. McAndrus of that place. The McAndrus home is one of the costliest and most comfortable in the Red River valley.

—John Sims, one of the prominent farmers of Hammond township, came to the city Tuesday, having finished his spring work on his fields. Crop prospects, he thinks, are exceedingly good at this time, and unless something unforeseen should turn up, the farmers of this section may expect a repetition of the crop of '95.

—The Cass Lake Times says: We are pleased that the change in the Times from "ready print" insides to all home print bids fair to be a success. Our patrons are responding to the appeal we made and we are now in condition to bid the wolf that our contemporary threatens us with, to get away from the door forever.

—Red Lake Falls Gazette: Archie McKinnon of Crookston was up this week putting the finishing touches on the steel cells in the jail, which has been accepted by the commissioners, and will soon be ready for use. The Red Lake county prisoners who are being boarded over at Crookston will be brought here as soon as completed.

—The Great Northern is reported to have let contracts for 60 new locomotives of varying types. Many are for service on the western divisions and are unusually heavy. The Rogers Locomotive works will build 30 of the new locomotives, the Brooks Locomotive works 20 and the Cooke Locomotive & Machine company will construct 10. Delivery will begin this year.

—The McIntosh Times says: Not satisfied with its state firemen's convention, its race meeting, its gun shoot and numerous other conventions and public gatherings, Crookston is now straining every nerve to get up an elaborate Fourth of July celebration to compete with the Fosston race meeting to be held on the 4th and 5th of July. Crookston may not want everything in sight, but it looks very much as though she wanted everything but the crumbs, and as though she wanted the rest of creation to pay her mighty dearly for them.

—The Chas. E. Lewis & Co. grain commission house of Minneapolis has opened a grain commission office in the McKinnon block in this city, and occupy the room formerly used by the Club Lafayette as a club room. Electrician Wm. Hall is engaged today in stringing special wires for the new enterprise, which is presided over by Messrs. Irwin and Mealey, two experienced grain and commission men of Minneapolis. All kinds of grains stocks and provisions will be handled by the firm, and as the Lewis company is one of the most reliable in the state, their business in this city will be successful.

—Mayor Nat Campbell entertained his brother, Victor E. Campbell of Goldendale, Wash., Saturday. He was on his way east and went to Buffalo via Chicago. He will place on exhibition his improved automatic cut-off for gas burners, at the Pan-American exposition during the summer. Mr. Campbell's invention pertains to an automatic device whereby gas is automatically cut off in case the light is blowed out or the gas turned on by mistake and not lighted, and if he obtains the success which his friends claim for him, he has solved the problem of death by asphyxiation and undoubtedly has a valuable invention.

—Mrs. O. F. Onstad, of Holmes, was brought to Bethesda hospital in this city Saturday, and may have to undergo an operation.

—Alexandria Post News: Crookston has elected W. F. F. Selleck, formerly of Austin, superintendent of its schools. Crookston is fortunate.

—Mentor, in the eastern part of Polk county, is soon to have a bank and it is stated that Prof. P. V. Malm, of this city, who is at present engaged in the real estate business, is to have charge of the new financial venture.

—C. B. Case had the misfortune Saturday evening while out driving to lose a leather pocketbook containing about ten dollars. He is willing to divide the contents with the finder, but is particularly anxious to get back the pocketbook.

—Grand Forks is to have a city park with a bicycle path and driveways, and a plan has been devised by which the necessary work can be accomplished with little difficulty and at slight cost. Let's see, did we hear some one remark about Crookston having a city park?

—Fargo Forum: The Fargo banks have decided to close on Saturdays at 1 o'clock during the summer season, beginning May 24. Come to think of it, they'll make just as much money and do business equally as well. The fact is—busy business men—apply too many hours to the office desk.

—Miss Helen Schaefer, daughter of J. Schaefer of Red Lake Falls, on Saturday afternoon underwent an operation upon her right hand for necrosis of the bone. The young lady is at St. Vincent's hospital and is doing nicely. The two last fingers and half of the hand had to be removed.

—A. W. Reed arrived from Huntington, Pa., Friday morning to spend the summer months with his uncles, the Hayes brothers, who successfully conduct a bonanza farm at Neilsville. Mr. Reed has not been in this city during the past few years and found many substantial improvements since his last visit.

—The Journal correspondent at Bemidji says: The Crookston band was very much appreciated, as also were the "Kids" of Fosston. Hon. Halvor Steenerson gave our people an elegant talk and he was cheered to the echo. Taken all together, barring the terrible accident, the celebration was a decided success.

—Stephen Leader: The Leader is turned out under difficulties this week The office dog has the mange, the editor has just been vaccinated and the balance of the force is serving on a jury. The editor has only one arm to use, and as Editor Novotony of Argyle is in town, that one arm has been busy rushing the growler.

—Henry Castle, more favorably known among his friends as "Skell," His rented the "Little Gem" restaurant, No. 204 North Broadway, recently operated by O. P. Hines, and will open the new eating house to the public about the middle of this week. The place will undergo a thorough renovation before it is opened.

—Not long ago Sheriff Sullivan went out west to serve a subpoena on a petit juror for the next term of the district court. He drove out in the field where the farmer was at work and getting out of the rig, he started to walk up to this member of the next jury. When near him, the farmer's Shepherd dog ran around behind Ed and bit him in the leg. A gentleman present at the time has found a satisfactory solution of the problem. Being a cattle dog, and Ed being a stranger, it was the natural instinct of the dog to bite Ed's calf.

—A little Polander boy, probably 10 years of age, arrived here Sunday morning direct from the old country, bound for Thief River Falls, where the lad has relatives. As there was no train for that place yesterday, he was compelled to lay over in this city, and was cared for by the ticket agents of the Great Northern and John Hare. The boy couldn't speak a word of any other but his native language, and only from his ticket could his destination be learned. Assistant Ticket Agent Alstrom this morning placed him on the train which took him to his future home.

—An overgrown, but thoughtless Grand Forks young man the other day seized the four year old son of T. J. Parker by an arm and leg, and threatened to throw him into the brush fire which was burning in the back yard. He let go of his leg but held on to the boy's arm, with the result that it was very badly broken. Medical assistance was immediately summoned and the fracture reduced. The injured member was put in a plaster cast, which has not yet been removed, so it is impossible to determine as yet just how serious the injury may be.

—A terrible accident was narrowly averted at the Great Northern depot this morning a few minutes before 8 o'clock as the two trains came in from the east, says the Grand Forks Plaindealer. The train from Crookston arrived a few minutes in advance of the other and a number started to cross the track to secure seats. They failed to notice the train on the next track which was backing in, and stepped almost directly in front of it. When the train was seen an elderly lady, who is a well known resident of the city, became confused and stood still. Her husband was slightly in advance and failed to notice her great danger. Officer Blue, who was present, grasped the lady by the arm and drew her from the track just in time to prevent her being knocked down by the cars.

WANTED—First class barber, at once. Good wages and steady job to right man. Chas. Thomas.

—Geo. Lillo, a prosperous young gentleman of Lengby, was in the city yesterday and made the Journal a pleasant call.

—C. C. Bowen Monday commenced the work of putting the new steel ceiling into the Baptist church. After this work is done the interior of the building will be subjected to a dose of decorating and frescoing, and when completed the church will have one of the handsomest places of worship in the city.

—Blackduck Times: In the well at the corner of Mrs. Bain's hotel, yesterday forenoon Henry Dalstul found a large piece of lignite coal, that Mr. Dalstul says is equal to the best Hocking Valley coal, so that probably at a sufficient depth there are big coal veins, that some day may be worked with profit. A sample of coal was taken to Mayor O'Leary's and tested.

Turtle River Pine Tree: The old "iron horse" which we have been waiting for so patiently is now within a few rods of town and by the middle of next week we can all ride to the county seat. It is expected that the different crews of men will stop here for awhile as there will be a lot of side track laid and the "spur" and hoisting works will require a larger force of men, so that will make the town pretty lively.

—Fred Durand, of the Times, was chosen "caller" at the practice shoot of the Crookston Gun club Sunday afternoon, and some claim that he was partial to Steve Withey, giving the latter "dead" birds, when in reality they were "lost." Steve's enemies claim that he "tipped" the umpire, but the real facts in the case have not yet been learned.

—Rev. H. P. Berg, representing the Book Concern of the Norwegian Danish Methodist conference, was in the city Monday the guest of Rev. Gjarding, on his way to attend the Red River Valley District preachers meeting which commenced at the Forks Wednesday and will continue till next Monday. Mr Berg made a pleasant visit at the Journal office, and witnessed the work of the Mergenthaler Linotype, and other modern printing office machinery with which our plant is equipped.

—Attorney A. R. Holston returned this morning from St. James, Minn., where he on Saturday argued a motion before the district judge for a change of venue in the trial of the case of Henry Schermer of this city, against Wm. Lang of St. James. The plaintiff a few months ago bought a team of horses from defendant at a high price, and had a guarantee that the horses were sound and in good health. Recently one of the animals died and Schermer now refuses to pay the amount agreed upon, claiming that the dead horse was not as represented. The change of venue is asked for the convenience of witnesses to be summoned in the case.

AUCTION SALE

SALE OF 600 HEAD OF THOROUGHBRED SHRAPSHIRE SHEEP AND OTHER STOCK AND FARM MACHINERY.

Having sold his farm, Ernst Mueller will sell at public auction, on Sec. 10, township of Russia, Polk county, all stock, implements and machinery. Stock includes six hundred head of thoroughbred Shrapshire sheep, a fine lot of registered Scrapshire rams, 10 head of horses and 9 head of cattle.

Sale takes palce at 10 o'clock on Monday, June 3, 1901. Everything sold without reserve. For particulars see hand bills.

IN THE MATTER OF THE ESTATE OF James A. McMannis, bankrupt.—In Bankruptcy.

To the Honorable William Lochren, Judge of the District Court of the United States for the Sixth District of Minnesota.

James A. McMannis, of Crookston, in the county of Polk, state of Minnesota, in said district, respectfully represents that on the 21st day of February, last past, he was duly adjudged bankrupt under the acts of congress relating to bankruptcy; that he has duly surrendered all his property and rights of property, and has fully complied with all the requirements of said acts and of the orders of the court touching his bankruptcy.

Wherefore he prays that he may be decreed by the courtt o bave a full discharge from all debts proveable against his estate under said bankrupt acts, except such debts as are excepted by law from such discharge.

Dated this 23rd day of March, A. D. 1901, Crookston, Minn.

—James A. McMannis,
Bankrupt.

—James H. Maybury,

Attorney for Bankrupt.

United States District Court, District of Minnesota, Sixth Division—ss.

On this 6th day of May, A. D. 1901, on reading the foregoing petition, it is ordered by the court, that a hearing be had upon the same on the 17th day of June, A. D., 1901, before said court, at St. Paul, in said district, at 10 o'clock in the forenoon; and that notice thereof be published in the Polk County Journal, a newspaper printed in said district, and that all known creditors and other persons in interest may appear at the said time and place and show cause, if any they have, why the prayer of said petitioner should not be granted.

And it is further ordered by the court, that the clerk shall send by mail to all known creditors copies of said petition and this order, addressed to them at their places of residence as stated.

Witness the Honorable William Lochren, Judge of the said Court, and the seal thereof, at Fergus Falls, in said district, on the 6th day of May, A. D. 191.

(Seal of the Court.)

—Charles L. Spencer, Clerk.

—By L. A. Levorsen, Deputy Clerk.

NOTICE FOR PUBLICATION.
DEPARTMENT OF THE INTERIOR,
Land Office at Crookston, Minn, May 13, 1901.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the Register and Receiver of the U. S. Land Office at Crookston, Minn., on July 5th, 1901, viz:

Ole P. Sessaas, H. E. 15979, for the E½ SW¼ and lots 6 and 7, Sec. 6, Tp. 147 N., R. 45 W.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz:

Louis. B. Haftorson, of Fertile, Minn.
Ola N. Tarvestad, of Fertile, Minn.
Hans M. Hulmvek, of Beltrami, Minn.
Ole B. Bolstad, of Fertile, Minn.

—Sylvester Peterson,
Register.

GONE TO REST

SUDDEN DEATH OF MRS. M. R. BROWN SUNDAY.

Early Sunday morning the news spread throughout the city conveying the sad intelligence that Mrs. Hanna Jane Brown, wife of M. R. Brown, whose residence is on North Ash street, had passed away. The report caused universal sorrow and came so discredit the unwelcome news. But unexpectedly that many of the family's friends at first were inclined to the report was soon corroborated and further particulars given. Angina pectoris, says Dr. Denniston, caused the sudden death.

Mrs. Brown has been afflicted for about two years with inflammatory rheumatism, and at times had been a great sufferer from that malady. Yesterday morning she had a slight sick spell, but nothing serious was apprehended, until shortly afterwards one of her daughters realized that her mother was dying. A physician was immediately called in, but it was too late, and one of the oldest and most respected citizens of Crookston closed her eyes forever.

When death came, the husband and her only son, Frank M. Brown, were both absent from the city, the former at Larimore and the latter at Neilsville, and some time elapsed before the sad news could be imparted to them by wire.

The deceased was born in New York state 59 years ago, and when but a child removed with her parents to Milwaukee. Thirty eight years ago she was united in marriage to her surviving husband, and from this happy union issued five children, one son and four daughters, all of them now grown. They are Frank M., Margaret, Matie and Laura, of this city, and Mrs. C. D. March of Akeley, Minn.

The funeral services will be held tomorrow afternoon at 3 o'clock from Christ church, on Ash street, Rev. Green officiating. At the same time will occur the funeral of the little son of Mr. and Mrs. Frank M. Brown, grandson of the deceased lady.

Almost simultaneously with the last breath of his grandmother, went out the life of little Clayton Brown, the 15 months' old son of Mr. and Mrs. Frank M. Brown.

Little Clayton was but 15 months old, and was a bright and lovely child. Spinal meningitis caused his death.

—The funeral services of Mrs. M. R. Brown and her little grandchild, Clayton Brown, was held from Christ church at three o'clock Tuesday, and was one of the largest ever witnessed in Crookston. The cortege of carriages bearing mourners and friends of the deceased was at least one mile long, and the procession required nearly twenty minutes to pass a given point.

ORDER TO EXAMINE ACCOUNTS.
STATE OF MINNESOTA, COUNTY OF Polk—ss.

In Probate Court, Special Term, May 21st, 1901.

In the matter of the estate of Emilie A. Jennings, deceased.

On reading and filing the petition of I. U. Jennings, administrator of the estate of Emilie A. Jennings, deceased, representing, among other things, that he has fully administered said estate, and praying that a time and place be fixed for examining and allowing the account of his administration, and for the assignment of the residue of said estate to the parties entitled thereto by law.

It is ordered, that said account be examined, and petition be heard by this court on Friday, the 14th day of June, A. D. 1901, at 10 o'clock a. m., at the Probate office in Crookston, in said county.

And it is further ordered, that notice thereof be given to all persons interested, by publishing this order once in each week for three successive weeks prior to said day of hearing, in the Polk County Journal, a weekly newspaper, printed and published at Crookston, in said county.

Dated at Crookston, the 21st day of May, A. D. 1901.

By the Court,
—Ole E. Hagen,
Judge of Probate.

7-9

WAS CALLED HOME

MRS. WM. HIMMELSBACH IS RELIEVED OF SUFFERING.

Information reached here Monday morning of the death of Mrs. Wm. Himmelsbach, which occurred during the night in the town of Fairfax, after long and untold suffering. While it had been apparent that death would soon relieve her from her agony, the news of her demise has cast a deep gloom of sadness over the entire community in which she has lived for years, and her numerous relatives and friends in this city sincerely mourn her untimely loss.

The deceased leaves a sorrowing husband and three small children the youngest only three weeks old, and these will feel her loss most keenly. She was about 35 years of age and was the daughter of John Ohrecht, who resides in the town of Fanny. The latter is doubly afflicted at the present time. Several days ago two sons of the family were stricken with smallpox and the whole family is under quarantine and will not be permitted to take a last look at their dear departed daughter and sister. Mrs. S. L. Collins of this city, is also a sister of the dead lady.

Funeral services were held Wednesday afternoon at 2:30 from the Presbyterian church, Rev. H. P. Fisher officiating.

The Journal joins the many friends of the grief stricken family in extending sincere sympathy in this sad hour of mourning.

The immediate cause of death was tuberculosis of the throat. The deceased was a member of the D. of H., of this city, an auxiliary of the order of Workmen.

OBITUARY.

The following further particulars in regard to the death of Ole Estenson at Vineland, mention of which was made in the Journal, have been furnished by our Climax correspondent:

Wednesday occurred the funeral of Ole Estenson, one of the pioneers of Polk county. He came to the Red River valey from Freeborn county, Minn., just 30 years ago next June, and located on his present farm in Vineland township, where he has lived ever since. He left a wife and six grown up children, all of whom have families of their own and live in Vineland. Although Mr. Estenson reached the age of 77 years, his wife is his senior by four years, and still enjoying good health. Four years ago it was their intention to have celebrated the fiftieth anniversary with a golden wedding, but it was omitted on account of sickness. Deceased was interred at the Neby cemetery. Rev. Yterhus of Hillsboro, N. D., officiated. A number of friends and relatives were present, including 44 grand children and 7 great grand children, which constitutes the entire family.

HIGH SCHOOL WINS

A GOOD GAME AND FINE TREATMENT REPORTED.

The Crookston high school nine which went to Red Lake Falls Saturday, to play a game of ball with the high school nine of that place, returned late Saturday night with all kinds of good words for the treatment accorded them by their adversaries. The game was close throughout and some excellent plays on both sides were features of the contest.

About a dozn rooters accompanied the Crookston boys from here, and the game resulted in favor of our nine by a score of 13 to 12.

A return game will be played in the near future on the local grounds.

TO BE SUBDIVIDED

The John Grove Land Company Purchase Bonanza Farm for Such Purpose

THE LOCKHART PROPERTY

To Be Sold in Quarter Section Farms, and Will Be of Benefit to the Valley

The day of the bonanza farm is fast drawing to a close. One after another of the large farm enterprises in the Red River valley are being divided up into smaller farm enterprises and the quarter section farms, each with its neat and conveniently arranged set of buildings, and its much better methods of diversified husbandry, are taking their place.

This changing condition in the agricultural interests of the valley are of incalculable advantage to every resident of the valley. The management of such large tracts of lands by a single proprietor or corporation has been a serious handicap upon our development and growth from the very first. In many ways the effect of bonanza farming has been a blighting one. The proprietors of these large farms are invariably residents of cities in other localities, and having business connections in their home cities, their trade for what supplies have been needed has almost invariably been given to the wholesale houses in such cities. And but little or none of it has been given our local merchants. Their farm help has as a rule been imported for the special season in which it was needed, and but little of the money paid to the laborers has found its way into the channels of trade here, except what has been paid into the saloons.

The sparseness of the population caused by such large tracts of land being held intact, and settlement on them limited to a single locality, has long prevented the establishment of schools and churches, and at the same time has held taxable values down to the minimum. And in various other ways has the bonanza method of farming operated to the detriment of the valley. It is therefore a matter for congratulation that its day is rapidly passing, and that this clog in the pathway of progress is now practically removed.

The latest incident in this line which has called attention to the matter, is the purchase by the John Grove Land company of the valuable Lockhart farm, which is situated on the Great Northern railroad just south of the line between Polk and Norman counties. This farm, consisting of 4,700 acres of the most fertile lands in the valley, of which practically all is under cultivation, has been purchased for the express purpose of being subdivided into quarter section farms and disposed of to separate purchasers. When this end has been accomplished and each quarter section is equipped with its outfit of buildings, and occupied by its actual owner, it must have an important effect upon the prosperity of that part of the valley. And the community thus established will be enabled to provide for themselves such school and church privileges as they may desire. In connection with the purchase of the land the company also acquired the ownership of all the machinery and farming implements hitherto required to cultivate and harvest the vast crops, and also of the stock, consisting of 125 horses, 150 head of cattle and 250 hogs. Mr. Guy Grove of this city, manager of the John Grove Land company's office, now has charge of these lands, and anyone who is familiar with existing conditions here, the desirable character of the lands themselves, and with Mr. Grove's hustling qualities, can easily predict the speedy sale of these desirable farms.

BURNED TO DEATH

HORSE MEDICINE TOOK FIRE WITH FATAL RESULTS.

Jasper, Minn., May 18.—K. K. Steen, a well known farmer living three miles east, and one of the earliest settlers of the county, died last night. He was preparing some medicine for a sick horse and by some means it took fire and exploded, burning Mr. Steen so seriously that death resulted in a few hours.

COAL DEALERS MEET

TO PERFECT CONSOLIDATION OF MINES.

J. A. Wright of Minneapolis, superintendent of the Wright Coal Mining company, at Kenmare, and A. M. Halstead of Jamestown, one of the largest stockholders in the company, spent Friday in the city, says the Fargo Call, conferring with President George D. Brown of the Consolidated Kenmare Dry Coal company, relative to the Wright Coal Mining company, in which it was proposed to dispose of the mines to the Consolidated company, and the stockholders of the Wright company receiving in return shares in the new company equal to their present holdings.

While this transfer, or rather this further consolidation has not actually been made, there is but little doubt that it will be within a few days at the outside. If it is made, it places full control of about 18,000 acres of the best coal mining land in the state under the control of the Consolidated Dry Coal company, and will make it possible for the Smith & Wright mine which will then be under the same management, to be worked by electric machinery from one central power house. The Consolidated dry coal company is made up of Fargo business men and capitalists.

A CHURCH TRUST

TOLEDO (OHIO) CHURCHES TO COMBINE FORCES.

Toledo, Ohio, May 18.—Toledo evangelical churches are to form a trust. The plan has been approved by the pastors' union and will be submitted to the various congregations next Sunday. The object is to concentrate force, economize effort and afford a solid front against municipal, public and private evil. There are in the city 102 religious gathering places to a population of 145,000. The erection of unnecessary churches will be opposed. Where the neighborhood has sufficient church accommodation of whatever denomination, the federation will stand against the erection of other churches. Where it is conceded that a neighborhood needs a church, a canvass of the people will be made and the denomination possessing the most adherents will be aided by the other denominations in the erection of a suitable edifice. A prime idea of the federation will be to stand as a unit for Sunday observance and for the abolition of gambling and other evils. The opinion now is that every evangelical church in the city will enter the federation.

RICH STIKE IN IRON ORE

HAS JUST BEEN MADE ON FARM NEAR ANOKA.

An unexpected discovery of very rich iron ore has been made on the farm of Patrick Manley a farmer who owns about 35 acres of land near the junction of the Eastern Minnesota railroad, just below Coon creek.

Specimens of the ore were recently sent to Duluth and found to contain about 62 per cent of iron. Saturday two experts from Duluth went to Anoka to inspect Manley's land. Their verdict has not yet been learned. At this time it cannot be said just how much iron is in sight or what the value of the deposit will be, but it is believed that Mr. Manley has made a very rich strike.

Manley is about 52 years of age and has operated his farm at Coon creek for many years.

BULLET IN KNEE

A YOUNG FERTILE BOY WOUNDED AT A PICNIC.

Last Saturday a childrens' picnic was given to the pupils of the Fertile school in a near-by grove, at which a number of sports were indulged in by the young folks. Target shooting with small 22-calibre rifles was one of these, and during the afternoon Melton Holton, the young son of John Holton, who conducts an extensive mercantile business at Fertile, received a bullet in the knee from a shot fired by one of his playmates.

The bullet cut a bad and painful wound in the little fellow's limb, and he was brought to this city for treatment. The attending physician removed the bullet this morning and dressed the wound, and the young lad is resting as easy as could be expected. There is some fear that he may have a stiff knee, as the cap was partially shattered.

LAW IS NOT BROKEN

BY EMPLOYERS MAINTAINING A BLACKLIST.

Chicago, May 18.—In the superior court Judge Baker decided that it is legal for employers to maintain a blacklist. The ruling was in the case of Allie Condon against certain stockyards packing firms. The plaintiff joined a strike last year against a reduction of wages and claimed she had since been unable to secure employment at the yards. The court ruled that the various firms had a right to take protective measures against persons who had quit the employment of other firms without valid reasons.

WIDOW OF FIFTY

IN TEARS BECAUSE BOY OF 17 COULD NOT MARRY HER.

Des Moines, Ia., May 18.—Mrs. Deaton, of this city, aged 50 years, who wanted to be a bride, but with whom the fates cruelly interferred, left the room of the county clerk of Polk county Thursday in tears. The object of her affections was a blooming youth of 17 named Frank Earing. The relatives of the boy objected to the marriage. The clerk referred the matter to Judge Conrad of the district court and he recommended the license be not issued.

CASCARINE AT ALL DRUGGISTS.
Cures biliousness, constipation and dyspepsia or money refunded. 50c. Sample and book on diet and cure sent for ten cents in stamps. Rea Bros. & Co., Minneapolis, Minn.

THEY ARE COMING

Some in Carriages, and Others in Trains and On Foot

TO FIREMEN'S CONVENTION

A Special Will Bring Delegates and Visitors From the North

Secretary Thos. R. Johnstone of the Crookston fire department returned Saturday evening from a week's trip along the St. Vincent line in the interests of the coming state firemen's convention, which meets in this city June 11, 12 and 13. During his absence Mr. Johnstone visited St. Vincent, Warren, Argyle, Kennedy, Hallock and other places, and wherever he met with the numerous fire companies he received the pleasant assurance that it was only a question of numbers who would attend during the three days, as every company will be represented, and that most places would send their entire departments.

Hallock, for one, will send its whole department, and these boys are certain of making a good showing in the parade, as they have ordered new uniforms for the occasion. Mayor Konzen has also undertaken to organize a band, which Hallock citizens propose to bring with them when they come to Crookston.

Kennedy has just organized a fire company, under the provisions of the State Firemen's association, and has made application for admission into that body. The entire company is coming from Kennedy, and half of that town's citizens have agreed to accompany their fire fighters on their trip to the convention.

Arrangements have been made for a special train from St. Vincent, to leave that place on the morning of June 11, which will carry the delegations and visitors along the line to Crookston. As an indication of how the people are interested in the big event, Mr. Johnstone said, it may be mentioned that the necessary guarantee for securing the special train has already been placed with the Great Northern Railway Co. Everybody he says, is coming to see the bread basket city of the world.

The secretary left Monday morning and will this week visit St. Hilaire, Red Lake and Thief River Falls, as well as other northern Minnesota towns where there are organized fire companies.

EDITOR BOEN A LIAR

PROCURES A LICENSE FOR ART OF PREVARICATING.

Ex-Congressman Boen, editor and publisher of the Fergus Falls Globe, says in his paper this week:

A "Liar's License" is being issued by A. B. Erickson the worthy successor of Ananias, the high priest of the honored Original Order of Unblushing Liars. Believing that we were fully qualified for membership, we went to Erickson's office and procured a license. It bears date May 1, and entitles H. E. Boen, to lie from the first day of January to the last day of December, and we nailed it on to a map of the United States on our office wall, right over a picture of Jim Hill, the most famous of the modern members of the Original Order of Unblushing Liars. So, if you see anything in the Globe that you doubt, or have reason to doubt, remember that this paper is edited by a duly licensed liar.

Now, let the Times editor of this city follow the example of the Fergus Falls publisher and get himself properly classified.

ATTORNEY STILL AT LARGE.

A man is now in jail here upon the charge of trying to bribe a Wadena attorney. "Where is the attorney?" is the question that might be properly asked.—Fergus Falls Free Press.

The name of the incorruptible one is Col. C. E. Bullard. He is here in our midst and running at large, though there is some talk of caging him and placing him on exhibition as a curiosity.—Wadena Tribune.

AGED DEPRAVITY

A DULUTH MAN, 93 YEARS OLD, IS SENT TO JAIL.

Probably the oldest man in this or any other county sent to jail was arraigned in police court yesterday, says the Duluth Herald, when Felix Hackett, aged 97 years, was sentenced to 35 days by Judge Gearhart for conducting a disorderly house on East Third street. Hackett, however, is an old offender, and has been in court for drunkenness and other charges many times during the past year, although he has never before been sentenced. He would always tell his age and the court would naturally hesitate before sending a man who is almost a centenarian to jail, with the result that sentence would invariably be suspended, promising never to make himself liable to imprisonment again. Yesterday the court decided that perhaps it would have a salutary effect to punish the man by putting him out of circulation for a few days.

Arraigned with Hackett was his son, Thos. Hackett, a middle aged man, who was sent to jail for 20 days with his father for disorderly conduct and Lizzie Buckley and Margaret Smith, two depraved old dames, were given an equal sentence on a similar charge.

ONE LUNG REMOVED.

REMAINING LUNG FURNISHES NECESSARY BREATH.

Santa Ana, Cal., May 17.—Perry Taylor, of this place, enjoys the rare distinction of being one of the few human beings from whom medical science has successfully removed an entire lung.

The patient, who is 26 years of age, was stricken about four years ago with what he believed was tuberculosis, or galloping consumption, and was treated accordingly by physicians he consulted.

Fully 240 cysts were removed in one operation, then it was decided that one whole lung would have to come out. The operation was speedily performed, the patient sewed up again with the great void within, and nature allowed to take its kindly course. Taylor seems to have recovered his strength and is in the best of spirits.

WOMEN VS. BURGLARS.

The Minneapolis Times says: There is one woman of whom burglars will beware hereafter. She is Mrs. Ella Karcher and she dwells in Elizabeth, N. J. The other morning as the clock was striking 4 she heard a noise down stairs and proceeded to investigate. She found two men looking over the silverware and ordered them out, but a merry laugh was the only reply. Mrs. Karcher grabbed one and hurled him through a window. The other departed. Thoroughly aroused, the muscular mistress of the house ran back for a revolver and started in pursuit of the thieves. She overtook them and marched them to a police station where they were locked up. Then Mrs. Karcher fainted. The fact that she fainted is proof that she is a really, true feminine woman, say you? So also the fact that she captured a burglar. The statistics of the last year show that for every burglar caught in the act by men and successfully landed behind the bars, two have been captured by women. This is no reflection on the bravery of men; it only shows that women are more likely to be at home at the hours when burglars call.

A CORRECTION.

Editor Journal: Several days ago the Times stated that one Wesley Smith, formerly a resident of this county, and a man of somewhat questionable reputation, was doing time in the North Dakota penitentiary. If my memory is not at fault, Smith was either killed by accident or murdered outside of an East Grand Forks saloon. I believe he was killed, and that the court records of Polk county will bear me out in my opinion. This occurred about five years ago, and will be remembered by many residents of Crookston and Polk county. —A Journal Reader.

FOR $2,000 DAMAGES

SUIT BROUGHT FOR DELAY AGAINST TELEPHONE CO.

Clear Lake, Ia., May 16.—A case which has attracted widespread legal attention all over the country was yesterday brought up for trial in the district court of this county. It is the case in law of Hans Nelson, of Portland, vs. the Greene & Western Telephone company. In the petition Nelson asks for damages in the amount of $2,000, alleging the telephone company to be responsible for the death of his child, in that they failed to deliver a message sent over their lines by him, asking the aid of a doctor for his 4 year old daughter, who was suffering from diphtheria. He says he was kept waiting at the station for two hours, and then informed that his doctor was out of the city. Later the company dispatched another doctor to his house, but the aid was too late, and the girl died. In his bill he asks for damages for loss of the girl's services until she reached her majority and for damages for mental anguish endured during the two hours' wait and in his daughter's death. The case is without parallel in the records it being the first time a telephone company has been sued for the non-delivery of a message.

A BUTTER MODEL

OF THE NEW MINNESOTA CAPITOL AT THE PAN-EXPO.

A model of the new Minnesota capitol in pure Minnesota butter will be exhibited at the Buffalo exposition, if present plans are carried out, says the Minneapolis Journal.

The model will be five feet high and eight feet long. It will be executed by Jenson, a St. Paul sculptor, and the total cost will be $1,500. The Minnesota commission has contributed several hundred dollars from the appropriation, all that can be spared, and Gov. Van Sant has helped out of his contingent fund. The rest is being raised by private subscription.

The completed model will be a handsome and unique affair. It was originally intended to get the capitol commission to contribute a plaster model, but they declined on account of the expense. The butter model will attract far more attention, and will advertise Minnesota as the butter state, besides giving visitors to the exposition an idea of the architectural beauty of the new state house.

—Fine photographs in all styles from $1 to $20 per dozen at Skrivseth's art studio, near Commercial hotel, Broadway.

"Pleasant Dreams"

Cries the young maid to her mother, as she retires to rest. The mother smiles, but sighs. She knows that the pains that rack her will not stop for darkness, and that if she sleeps her dreams will only be echoes of the sufferings of the day.

Why not sleep soundly and rise refreshed at morning, with strength and courage for the day's duties? Weak, nervous women, sufferers from backache, bearing-down pains, and other womanly ailments, have found a perfect cure in Dr. Pierce's Favorite Prescription. It heals the womanly diseases which cause the pains and nervousness. It makes weak women strong and sick women well.

"I deem it my duty to express my heartfelt gratitude for having been the means, under Providence, of restoring me to health," writes Mrs. B. H. Munn, of Springhill, Leon Co., Fla. "For nearly two years I suffered from female weakness so I could not stand on my feet any length of time; could scarcely walk at all. Appetite was much impaired; I had bearing-down sensations; can't express how badly I *did* feel. Had tried several kinds of medicine which did me little or no good. At last decided to try Dr. Pierce's Favorite Prescription. I had not taken all of two bottles before I saw it was benefiting me, so I continued to take it until I had taken seven bottles, when I felt entirely cured. Did not feel a touch of my old complaint. It has been over a year since I took your medicine, and I can truthfully say that my health has been better for the last year than it had been for four years previously.

"You may publish this as a testimonial."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent *free* on receipt of 21 one-cent stamps to pay expense of mailing *only*. Address Dr. R. V. Pierce, Buffalo, N. Y.

RYDER WAS SICK

THAT'S WHAT CAUSED HIM TO MAKE PISTOL PLAY.

Senator J. J. Ryder, who was taken in charge Tuesday evening on a charge of recklessly discharging a pistol in the streets of St. Paul, was not brought into the police court yesterday, says the Pioneer Press. Court Officer Frank Horn entered the name of J. S. Elliott on the calendar with the remark that the defendant was sick, and Judge Orr continued the case to May 22. Senator Ryder notified the police by telephone last night that he would leave for his home in East Grand Forks by the late train.

COUNTY COMS. MET

Full Report of Meeting Held May 13 and Two Days Following

LET BRIDGE CONTRACTS

Various Ditches, School Districts Roads and Tax Abatements Considered

The board convened in special session May 13, and during a three days session transacted a volume of business.

Sealed bids for the construction of a number of wooden pile bridges were considered, and contracts awarded as follows:

John H. Sanders, bridge across the Marais, between sections 24 and 25, in the township of Huntsville, at the rate of $3.75 per lineal foot. Bonds were fixed at $800, and work to be completed by July 1, 1901. Sanders was also voted the contract for constructing a bridge across ditch No. 2, in the town of Esther, at the rate of $4.00 per lineal foot, and another bridge across ditch No. 2 in the town of Northland, at the rate of $3.95 per lineal foot. Bonds in the sum of $305 were required of the contractor.

The application of Peter Wermager and others, of the town of Russia, for an embankment and other improvements to ditch No. 11, known as the Kittson ditch, was referred to the ditch committee.

The new wolf bounty law, passed by the last legislature, was adopted and the auditor instructed to pay bounties as provided in said law.

The county auditor was instructed to credit $37.60 to account of school district No. 242 and $16.85 to school No. 243, and charge the amounts to district No. 195. These amounts were due the new districts as their share of the funds on hand when detached from district No. 195.

The petition of D. Grundysen for the formation of a new school district was rejected.

Another petition from the same taxpayer asking for the formation of a new school district, was ordered to be heard before the board June 11, 1801.

In the division of funds between school districts Nos. 238 and 254, it was ordered that the latter district be allowed 30 per cent of the money on hand at time of division.

The county attorney was instructed to appeal the suit of M. O. Sortedahl against the county, to the supreme court.

The petition of Hans O. Folvig for detachment from school district No. 61, was rejected.

The same fate met the petition of O. E. Sortedahl and others for the formation of a new school district.

The county auditor was instructed that inasmuch as there was no provisions made by the last legislature for part payment of wolf bounties, to pay any application filed after July 31, 1901, until notice is received from the state auditor that funds are available for two thirds of the bounty, as provided by general laws of 1901.

Commissioner McCarty offered a resolution, which was duly adopted, providing in effect that the several boards of township supervisors of the townships through which the public ditches have heretofore been constructed, be notified to keep such ditches in repairs and assess the cost thereof against the lands benefited by the same, as authorized by section 7816 of the statutes of 1894.

Commissioner Bratvold introduced a resolution appropriating $100 out of the county revenue fund to aid in the construction of the county road known as the Fosston-McIntosh Co. road, and the same was duly adopted. Commissioner Bratvold was appointed to supervise the work.

It was decided to repair the bridge across Red Lake river at East Grand Forks to the extent of $100, and the oversight of the work was committed to Commissioner Morken.

W. E. Walker's bid for furnishing screens for the doors and windows of the court house was accepted.

A resolution introduced by Commissioner Morken providing for an appropriation of $200 to defray the expense of extra clerk hire for the county auditor on account of the special tax sales to be held June 24 and September 9, was adopted.

The road and bridge committee reported favorably on the application of the town board of Reis for a bridge across the Sand Hill river at a point about one half mile west of Beltrami, and recommended that a contract for such bridge be let, requiring the completion of same prior to September 1, 1901.

They also recommended that the application for a bridge across what is known as Bridge Creek, in section 8, town of Kante, be granted and the bridge ordered built prior to September 1, 1901.

Both of these reports were accepted and the recommendations complied with.

Application was made by J. P. Foote in behalf of E. H. Rollins & Son for the reduction of taxes on lot 4, block 27, original townsite of city of Crookston, for the year 1900, and the same was granted subject to the approval of the state auditor such reduction having been recommended by the finance committee.

Commissioner Remi Fortier and K. O. Bratsvold and Dr. A. McEachran were appointed to constitute a county board of health under the provisions of chapter 239, general laws of 1901.

The county auditor was authorized to issue a warrant for $35 for the purchase of stamped envelopes and postage stamps for use in the auditor's office.

A resolution was offered by Commissioner Morken and duly adopted, recommending to the state drainage commission that a petition which had been presented to that body for the construction of a ditch from the Grand Marais river in Polk county to the Red River be granted.

Application of C. A. Hitchcock for license as auctioneer was granted on condition of the regular bond and fee of $10 being furnished.

Application of the administrator of the estate of L. Lindhlom for correction of assessment and abatement of taxes for the year 1900 on the southwest quarter of northeast quarter of section 12, town 151, range 50, was granted, subject to the approval of the state auditor.

Application was made by A. Baarnaas for refundment of taxes paid for the years 1885 and 1886 on the northeast quarter of the northeast quarter of section 18, township 149, range 45, and was rejected.

The board of auditors of Polk county submitted a report designating the Citizen's Bank of Fisher as one of the depositories for the custody of county funds, fixing the maximum amount to be deposited in said bank at any one time at $4,442, and the report was adopted.

The county auditor was instructed to issue a warrant for $800 in favor of the Diebold Safe & Lock company in payment for the balance due on the burglar proof safe in the treasurer's office.

The claims presented by Christian C. Lokken and T. Smeby for $25 each for damages incurred by reason of laying out the Erskine county road, were rejected.

The application of C. S. Richardson, et al., for a bridge across ditch No. 7 in the town of Farley was laid over for want of funds applicable for the purpose.

The following bills were audited and allowed, viz:

Grove Park township, expenses in smallpox cases under quarantine	$ 91.30
Fosston village, same	18.75
W. E. Rowe, printing briefs and expenses paid	18.00
C. T. Lanman, printing and stationery	299.65

John B Remley, witness fees	4.12
E. J. Sullivan, boarding prisoners	170.66
Dr. C. E. Dampier, medical services (2 bills)	11.80
G. W. Eastmen, services as commissioner	54.80
Chas. W. Mc Carthy, services as commisioner (4 bills) ..	48.70
T. T. Morken, services as commissioner	29.6[illegible]
K. O. Bratvold, services as commissioner	22.80
Remi Fortier, services as commissioner (2 bills)	64.80

The following bills were laid over until the next meeting: C. E. Hurst, (3 bills); Frank Mageen and G. S. Chesterman, (2 bills). Bills of H. C. Berg, Mrs. E. J. Sullivan, Wm. Norman, were referred back for correction and bills of Frank James, Thos. Gray, Joseph Sawyer, Alex Knudson and W. D. Russell were rejected.

FARM LAND WANTED.

I can furnish a few desirable purchasers for land at rock bottom prices. Parties having "snaps" should call on or write Attorney R. M. Hayes, Crookston, Minn. Office over Merchants National Bank.

MINNESOTA SLIGHTED

SO SAYS SENATOR CLAPP AND DEMANDS CORRECTION.

Washington, May 21.—Senator Clapp has addressed a statement to Secretary Gage, to the fact that Minnesota is not receiving her share in appointments under the civil service rules. Senator Clapp points that Minnesota has a strong list for the departmental service in various branches, and at the same time the state is not receiving its share of the appointments. "We would appreciate the opportunity to have an equality in the public service," is the way Senator Clapp mildly approaches the subject.

The senator's request will be looked into. It will result about the same as an investigation with Congressman Heatwole started some time ago. Mr. Heatwole made a very vigorous and thorough campaign. He secured the name and department of every Minnesota employe in the classified service. It developed that there were upwards of sixty persons accredited to the state who have not resided there for more than twenty years, and who really have no business or political affiliation there. Many were appointed in the days of Alexander Ramsey's senatorial service. They are under civil service protection, and so long as their records are good cannot be superceded. Heatwole made personal protest one day to cabinet officers.

"We have many young and very capable persons on the eligible list from Minnesota," said Heatwole, "and we desire to have them certified from the civil service bureau."

"Certainly, whenever there is a vacancy in your quota."

"Well, how to create a vacancy is the question," said Heatwole.

"Only by resignation, dismissal or death," was the urbane reply from the official.

Heatwole is then said to have made the famous retort, which Amos Cummings afterwards quoted in a speech in the house. "Well, whoever heard of a resignation; you never dismiss anybody and nobody ever dies who is on the classified service."

THEY WILL BE HERE

ST. HILAIRE ORGANIZES A FIRE CO. WITH 40 MEMBERS.

St. Hilaire at last has a full-fledged fire company. Ed Morrissey, of this city, who returned from there last Friday informs the Journal that during his stay at St. Hilaire a firemen's organization was perfected with a membership of forty. The new company of fire fighters is composed of the best material of the town and Al Jones, formerly of the Crookston fire department, was chosen as foreman. The boys have made application for admission to membership in the state firemen's association, and has also selected a full delegation to represent their department in the state firemen's convention in this city June 11, 12 and 13. Besides the regular delegation, St. Hilaire will be fairly well represented by private citizens at the coming meeting here.

INSANITY INCREASE

ASSUMES ALARMING PROPORTIONS.

The increase of insanity is becoming almost alarming in some of the northern counties of the state, and it has become a daily occurrence to see the sheriff of one or the other of these counties pass through here with patients for the insane asylum at Fergus Falls.

The latest victim to be taken to the hospital is a laborer from Stephen named Oscar Carlson, about 45 years of age and unmarried. He has a hobby and believes the whole universe a concert hall, and insists on singing at any place or whenever the spirits move him to do so.

He was taken to Fergus Thursday night by Sheriff Forsberg of Marshall county, who was assisted in his task by Emil Glaas of Stephen

GRADUATION EXERCISES.

News (Thief River Falls.) Prof. James A. Wilson is making extensive preparations for the graduating of a class of about twenty students from the grammar department into the high school. The event will take place on Friday evening, May 31, and it is the intention to have the exercises in the Odd Fellows hall. A teacher of state reputation will be here to deliver the commencement day address, and a musical program will be rendered. This will be the first time in the history of Thief River Falls that exercises of this nature will be held here, and we hope it will mark an epoch when more interest is taken in the public schools by the people residing here.

ANNOUNCEMENT.

I have associated with me as partner, James H. Maybury, an attorney at law, admitted to practice in all the courts in the state. The firm of Steenerson & Maybury are doing a general business in law, loans, real estate and insurance. My former patrons, friends and acquaintances will find either Mr. Maybury or myself in our office at all times, prepared to transact such business as they may leave with us.

—Elias Steenerson.

R & G CORSETS NEVER STRETCH

The moderately straight R & G No. 397 was and is the corset of comfort with the essence of style. It is straight enough for the prevailing vogue and curved enough to conform to healthful anatomical lines. In 1900 we were unable to fully meet the demand for straight-front goods and unwilling to resort to any makeshift to meet the conditions. At present, however, considerable additions to our factory facilities enable us to keep the trade supplied with real straight-front corsets at retail prices from $1.00 to $2.50, and also our 397, 197, Empire and other popular numbers. There are over seventy styles and sizes of R & G Corsets—a corset to fit every figure. R & G Corsets are the corsets that do not stretch. Every hairbreadth of stretch is taken out of the goods by means of steam-heated iron forms. This gives a permanency to the right shape and form that will stay in it until the last day you wear it. Every R & G Corset is sold with the understanding that it must give satisfaction to the wearer, or the dealer will supply a new one free of cost. If your dealer hasn't it, send us his name and we will see that you are supplied with what you want.

Weekly Reports From the Journal's Corps of News Gatherers.

ADA

T. P. W. Bowman left Tuesday morning for Alberta, Canada.

Mrs. Zan Farley of Crookson visited with J. V. Campbell last week.

Senator O. H. Myran was up from St. Paul Thursday, returning in the evening. J. E. Hobnan left Thursday night for a few day's visit with his folks in Otter Tail county.

Sam Olson made a business trip to the Twin Cities last week and returned Saturday morning.

Iver Thompson has sold his farm and expects to move out to the coast and make his future home there.

B. C. Brockhoff came down from Hallock Friday evening to take in the dance and returned Saturday morning.

The 17 de Mai dance given by the orchestra at Gilbertson's hall Thursday evening was well attended and a good time is reported.

T. F. Brooten, who has been visiting his folks down in the southern part of the state for a couple of weeks, returned Sunday morning.

Ada will have a summer school this summer with the following teachers: Prof. Butler, conductor, and Miss Gertrude Enderle and Mrs. Shroyer as assistants.

Miss Carrie Rege left Thursday night for her home in Norway. Her health has been failing for some time and she expects that the change of climate will probably help her.

Yoger & Bussle opened up their saloon in the Gaetke block last Wednesday, and the Ludke Bros. opened up another saloon in the Lofgren building beside the bank Saturday.

H. A. Helgeson, who has been engaged as bookeeper at the First National Bank, left Saturday morning for Cando, N. D., where he has acepted a position as assistant cashier in a bank.

BEMIDJI

The extensive addition to the Hotel Markham is being rapidly pushed to completion, and it will be ready for occupancy before the tournament days.

Both the Great Northern and Northern Pacific roads are hauling logs out by rail in large quantities, giving employment to a large number of men. Further north the logs are being floated to market.

Several business houses are being erected and many cosy residences. J. J. Gable, formerly of Crookston, is building a very fine residence near the city hall, one that would be a credit to any town.

A building that was recently removed to make room for the Hotel Markham improvements and which was placed between the postoffice and the Pioneer office and left sitting upon stilts, took a sudden lurch Monday evening and careened over against the postoffice building. No particular damage was sustained, however.

Pleasure parties are beginning to visit this famous summer resort, and ere long hundreds of people will be here to spend a portion of the summer—and why should they not? If more of you plodders after lucre would cut loose from business cares and come out here for a few days you would derive more benefit than you can imagine—but, then, I'm no doctor and can not legally prescribe for you.

The terrible excitement that has existed here since last Saturday night is gradually waning, and at the present time our ever alive people are beginning to turn their attention to the Northern Minnesota Firemen's Tournament that is to convene here in June, the week following the State Tournament in your city. The local department expect to send a delegation to Crookston that will be a credit to our city and hope that your folks will reciprocate.

A Grand Forks and East Grand Forks party, six in number, were here since last Sunday noon and came very nearly depopulating Bemidji of its finny tribe, having succeeded in catching in the neighborhood of a thousand fish of all descriptions and varieties, excluding minnows—but Judge Tim Sullivan is not to blame. They had their "picture tooked," fish and all, and your corespondent has one in hispossession that he intends to send to "Recreation" in order that they may be advertised as the boss fish hogs of the Northwest. It was fish they were after and Tim said in the near future the entire party would have "brains to let." I hope that the people of the two cities that flank the roaring Red will not be so mean as to say the nimrods caught a single fish with a silver hook, for that would be a base fabrication.

CARMAN

Mrs. R. Franklin has returned home from a visit at Devils Lake.

Mrs. H. Sizer has been quite ill but we are glad to say she is now better.

Mrs. H. J. Nicholson is on the gain and will soon be able to be out again.

Mrs. W. W. Brown is spending the week visiting her parents at East Grand Forks.

C. A. Meyer is having a large demand for wall paper which he is agent for.

There was a big dance at the residence of Mr. Bondway Monday evening. About twenty-five couples were in attendance and everyone had a good time.

Mrs. Ralston, of Warren, daughter of Mr. and Mrs. Phillips, is visiting here this week. Mrs. Ralston has just returned from California where she has spent the past six months and she says the coast is the only place to live.

LENGBY

A representative of the Journal visited Lengby Monday.

O. M. Olson was a business passenger to Bagley Thursday.

Memorial day will be observed here by closing the schools.

Quite a number of the farmers around here are seeding flax.

Miss May Darling will hold service in Lengby next Sunday at 1 p. m.

Frank Healy, an old soldier of the civil war, visited with comrades here Sunday.

Mr. and Mrs. George Welte of Bagley visited with Mr. and Mrs. Anton Welte Sunday.

Mrs. E. H. Noel was visiting her daughter, Mrs. W. Luchan, the past week at Rosebud.

A lawn party will be held next Saturday by some of the members of the Congregational church at Chas. Hilliard's place.

The ladies society of the Synod church meets with Mr. and Mrs. C. J. Lillo next Thursday.

A few young lads of the brickyard crew attended an ice cream party in Brandsvold Sunday.

The dance in Argall hall Saturday evening was well attended and a good time was reported.

A few young people of Lengby were over to Sand Hill lake Sunday to a Good Templar picnic.

The brick yard crew and a few other of Lengby's lively young men took in the excursion to Bemidji.

Representatives of the Synod church will hold their annual creed meeting at the church in Lengby May 29 to 31.

Mr. and Mrs. Ed Enger who have been visiting with their relations, M. Larson's of the Hotel Lengby, left for home Thursday.

KEYWEST

R. P. Skarstad still continues the work of beautifying his grounds.

A. Armstrong and family were callers in Keywest Monday.

Miss Minnie Buchanan, who spent Sunday at home, returned to Fisher Monday morning.

Harry Hanna passed through Keywest Monday enroute south to resume his farming operations on Mr. Krueger's farm.

Miss Hannah Stein transacted business at Keywest Monday.

Joe Rodgers returned Sunday to resume farm operations and brought along his better half. Joe don't like a bachelor's hall life, not one bit.

DUGDALE

Camp & Rickey intend to take a trip to Buffalo and investigate the exposition.

A. O. Anderson has moved his barn and blacksmith shop into the old townsite of Dugdale.

Mrs. James Carroll is very ill and Dr. Mc Eachran of Mc Intosh was called by telephone to attend her.

The foundation for the new town hall is now completed and bids for the erection of the hall will be received.

Camp & Rickey have sold several harrows and buggies and will have a car load of harvesters, horse rakes and mowers soon.

Mrs. Sarah Anderson has bought Camp & Oehler's old store building and intends to start a millinery store and dressmaking parlor.

Wheat Buyer A. Moen assisted his wife into the train the other day, and while securing a seat for her the train started. He hastened to jump off, but struck on the corner of the platform and was rendered senseless, in which condition he remained for some time. Mr. A. O. Anderson took him to his home and cared for him the best he could, and he has now nearly recovered.

CLIMAX

Mrs. Grubb, who represents the W. C. T. U., spent Monday in town.

Miss Thompson left for her home in Alexandria, Minn., last Saturday.

Miss Moen and Miss Anna Stromstad of Shelly were in Climax on Monday.

Mrs. F. C. Taft and Miss Emma Satermo came down from Donaldson to attend the funeral of their grandfather which was held last Friday.

Mrs. E. J. Eide and son Maurice left for Rushford, Minn., on a visit with relatives last Wednesday.

The public school closed last week. Teachers for the coming year have not yet been engaged.

Ed. Evenson has returned from Fosston and having disposed of his business there he expects to make Climax his future home.

Joel Johnson and family of Caledonia, N. D., visited with her sister, Mrs. Jonn Braseth, over Sunday.

It is reported that several cases of smallpox exist in the vicinity of Neby.

Mr. and Mrs. K. O. Ostby drove to Shelly Sunday, visiting with O. Brohaug. Miss Brohaug, our music teacher, accompanied him.

Last Saturday morning as the 17d Mai dance at Belmont was nearly at an end a fight took place between Knute Broke a prominent farmer and a certain working man, named Bert Syverson, which came very nearly ending the life of the latter. After a short struggle between the combatants Syverson received a large wound across the throat, cutting some of the larger blood vessels. The wounded man was placed on the floor and one man had presence of mind enough to compress the bleeding veins by holding his hand tightly over them until medical aid could be obtained from Climax, thus saving him from certain death. The man has been in a very critical condition, but is now improving and thought now to be out of danger. No arrests were made but we understand that the parties settled the affair by mutual consent out of court.

MENTOR

Farmers here have completed the seeding of other grain and are now busy with their flax.

Banker Scovell moved into his office Saturday.

Editor Egley and wife of Erskine spent Monday in town.

Messrs. Rapan, Anderson and Erickson spent several days at Maple Lake last week

Banker Scovell has bought the Sletten place in Woodside.

Mr. Engleking is back from the Blackduck country where he holds down a valuable claim.

A baby girl was born to Mr. and Mrs. Wm. Tiee last Friday. Dr. Olson reports mother and child as doing well.

Mr. Dwyer of Crookston spent Monday in town.

The road overseer is busy grading the Maple Lake road, and in a day or two it will be as smooth as the finest city drive.

Mrs. Joseph Tagley left for Fisher Saturday, and will be away two or three weeks visiting relatives.

Jos. Tagley opened up the finest stock of summer goods ever brought to Mentor this week.

SLETTEN

Seeding is about over and the crop is coming up finely.

The Bethel Lutheran church congregation has purchased a new organ for their church.

It was rather warm here for May last week, being 90 in the shade for a couple of days.

Nels Larson and family left last week for their claim in the newly opened towns south of Bagley.

The Sletten Mercantile Co. received a new stock of ladies, gents and childrens shoes last week.

A social hop was held at Chas. Laugor's place last Saturday night. An enjoyable time was had by all present.

Hans Haugan drove to Windsor last Monday where he is going to make improvements on his claim. His family will remove there in about a month.

J. M. Langseth is instructing a singing classat the school house near M. Christenson's place every Sunday. Quite a number of our young people are attending.

DONALDSON

Axel Miller wheeled down to Stephen Tuesday.

Herman Miller will send and get a pair of Indian clubs.

Emery Davis has started to canvas for the Plano Mfg. Co.

Six men of Davis' quit work last Monday for some reason.

Everybody is looking at the ditching machine work nowadays. Even Alf Rowe took a ride out there.

E. N. Davis went out to Rosean to hire some more working hands Monday.

F. C. Taft has accepted the agency for the Mc Cormick machinery.

Anton Hallberg has been employed by F. C. Taft & Co. as clerk in their well equipped store.

T. C. Hickey moved his house back two blocks and will erect a new dwelling where the old one was located.

A herd of bronchos stopped here over night last Monday. The owners succeeded in selling a few around here.

K.J. Lind has discharged his duties as store clerk and will commence canvassing for the Plano Mfg. Co. in the near future.

It is rumored here that Donaldson will play Hallock a game of ball in the near future. The next game will be at Warren.

Mrs. F. C. Taft and her sister, Miss Satermo, took the train for Climax last Wednesday evening to attend the funeral of their grandfather at that place.

Erik Hoglund was badly disappointed in not being able to get to the Green settlement for which he started three days ago. He broke his wheel half way out there.

Misses Nichols and Shepherd visited over night at the latter's residence. They wentout on their wheels and on coming back in the morning one chain was broken from the bicycle and they were obliged to walk the rest of the distance, being about five miles from town.

The new New Era grader for the town of Davis arrived here last Monday, and Chairman Tvete was down looking the thing over. It is a "Jim Dandy" and land will be worth $25 an acre here after it has been used for about two years.

Somebody was up in a box car the other night carrying away some articles, but by a fortunate circumstance the work was stopped by the party who had more right to them than the one who was at work. A pretty badly scared fellow he was when apprehended.

STEPHEN

Geo. R. Roberts returned from Warroad Thursday.

James Mc Farlane is having a new foundation placed under his residence.

C. K. Stockland's new foundry is now in full blast. It will give employment to some six men.

Stephen will have two new banks in the near future, in both of which local capital will be invested.

The home of Mr. and Mrs. W. B. Russling was made happy last week by the arrival of a fine ten pound boy.

The married men and single men will play a matched game of ball Friday afternoon. Some rare sport is anticipated.

H. O. Hanson is having his store building raised and generally overhauled. Contractor Malloy has the work in charge.

Thos. Malloy has taken a contract to raise several buildings at Kennedy, and shipped a load of his tools there Monday.

John Wold returned from Warren last week after an absence of several weeks, spent in the hospital there for medical treatment.

There is some talk of the new Farmers — Merchants Elevator Co. purchasing the St. Anthony Co.'s building. A meeting was held Monday by the farmers but no definite action was taken.

At a recent meting of the board of education, the following were elected teachers: Miss Marion Adamson, of St. Cloud; Miss Auna Vettleson, of St. Cloud and Misss Mary Tillotson, of Moorhead. Edmund Franklin was re-elected principal.

The Argyle band assisted by local talent gave an excellent concert at the opera house Friday evening. After the concert a social dance took place for which the Argyle orchestra furnished the music. Quite a number of the fair sex of Argyle added to the pleasure of the occasion by their presence.

The juvenile ball teams of Warren and Stephen crossed bats here Saturday afternoon. The game was a pretty exhibition all through and some brilliant plays which would have done credit to professionals were made, among them a triple play by the Stephen boys. The score stood: Warren, 14; Stephen, 18.

HALSTAD

P. J. Eie of Shelly visited at the Ryun hotel Sunday.

B. J. Ostby of Hendrum shook hands with Halstad friends Sunday.

Postmaster Iverson is sporting a brand new chainless bicycle with coaster brake. It is one of the very latest.

Andrew Nygaard has purchased the feed mill of B. B. Larson on Lake St. Andrew and will convert it into a blacksmith shop.

Drs. Bennitt and Hanson performed a successful operation on John K. Johnson for peritonitis. The patient although weak is doing nicely.

The Halstad and Hendrum nines crossed bats last Sunday at Halstad. The Halstad boys came out victorious, the score being 23 to 17 in their favor.

Married Wednesday, May 22 by Rev. Megrund at the home of the bride's parents, MissJulia Rogeuil, of Caledonia township, Miss Julia Rogeuil, of Caledonia township, hundred guests were invited and a good time was enjoyed. We wish the young couple a long and happy life and abundant financial success.

BIRKHOLZ

Our postmaster is building an addition to the store and postoffice at this place.

A number of our young people are already planing to attend the Western Canada fair at Winipeg July 26 to August2.

Mrs. M. H. Dunning, who has been visiting her daughter, Mrs. S. S. Trickey of Warren, returned to her home at this place the first of the week.

The Manvel base ball team came to this place last Sunday to have a game of ball with the Birkholz boys and carried a long line of "scalps" back to Dakota.

The ball at Woodman hall in Northland on the 17th of May given by Thomas Figenskan was a grand success. When Tom gives a ball we all go as we are sure of a pleasant time.

GARY

Mr. and Mrs. T. Rishoff and Mr. and Mrs. L. Garden were Ada visitors Tuesday.

Mr. and Mrs. H. Lanager of Climax are visiting friends and relatives in Gary and Strand.

Ovedia Frandum has gone to Helberg to spend a couple of weeks with her grandparents.

Mrs. Hinbek from Faith returned from Vuss, N. D., Monday, where she has been visiting with her son Adolph.

Mrs. Johnson from Strand left Saturday evening for southern Minnesota where she was called by the death of her mother.

Farmers in Hubbard Township Discover Grasshoppers

THE PLAGUE IS THREATENING

To Become General in that Section of the Bannerwheat County

Farmers in the southwestern portion of Polk county are threatened this spring with the grasshopper plague, and the destruction of their entire crops.

Knute Aker, one of the foremost and best known farmers in Polk county, came up from his home in Hubbard township Tuesday, and to a Journal reporter stated that the plague has already made itself sufficiently apparent on his farm as to cause grave fears for his crop. He noticed for several days that patches of wheat in his fields were dying off, as though from heat, the stalks wilting and turning yellow.

On last Sunday Halvor Dale, Ole Dale and Jorgen Jorgensen, employes of Mr. Aker, went upon the fields affected for the purpose of ascertaining the cause of trouble. It did not take them long to discover that instead of the supposed heat that caused the dying out of the young growth, it was the genuine locust which had taken possession of the fields.

The locusts are all of a young brood and appear to be only a few days' old, but they have appeared in large numbers, and unless some method is applied for destroying the pest, there is every chance for a general spread of the destructive insects, and great loss to the farmers in that and probably other parts of the county.

Mr. Aker came to this city to ascertain some means by which the plague can be checked, and nothing will be left undone by him to suppress the destructive grasshopper. He is certain that they are of the genuine species and destroy everything in their path when travling.

Vol. XXVI CROOKSTON, MINNESOTA, THURSDAY, MAY 30, 1901 No. 7

BRUTAL MURDER

Charles Barrows Killed James Carvlen near Oberon, N. D.

MURDERER CONFESSES

Carried Body in Wagon Two Days after Committing the Murder.

The nude body of a man who had been killed was found in a gravel pit along the Soo line near Kensal Sunday morning, and a stranger who confessed that he committed the crime was captured by Constable Sandy of Wimbledon, near Rogers, Monday morning. A suit of bloody clothes and a hatchet were found concealed in a tree claim near Wimbledon, where the stranger fed his team and had dinner Sunday.

The prisoner, whose name is Chas. Burrows, claims that he was going to work on the Oberon extension of the Northern Pacific with his team. On the road he had taken a man by the name of Carolen into the rig for a ride and about four miles from Oberon a row was started while the men were at dinner. Burrows claims Carolen attempted to strike him with a knife. In self defense he asserts he struck Carolen with a hatchet. The injured man seemed to be in such pain that Burrows later killed him with two or three more blows, to put him out of his pain.

Burrows then loaded his victim into the wagon and started south, driving through Sheyenne, New Rockford, Kensal, and other towns, till he reached the Soo tracks near Courtenay. He saw the sand pit and conceived the idea of placing the remains of Carolen there, so it would be thought the train struck and killed him.

After disposing of the body, Burrows drove into Barnes county and concealed the hatchet with some bloody clothing. This was found by some men who had seen Burrows in that vicinity, and gave a good description of his outfit, which led to the arrest

The dead man is about fifty years of age

Burrows is about 45 years old and last winter worked in a local livery stable

He is being held at Wimbledon until the arrival of the Benson county authorities

MAPLEBAY STACKERS.

WILL BE ATTACHED TO A MINNEAPOLIS THRESHER.

Crookston had as one of her prominent visitors yesterday, F. E. Kenaston, president of the Minneapolis Threshing Machine company. The object of Mr. Kenaston's trip to Crookston was to look over the plant of the Maplebay Windstacker company, and make a careful study of the workings of the attachment with a view of possibly adopting it as an essential portion of the finished machinery sent out by the Minneapolis company.

The conditions met the expectation and approval of Mr. Kenaston, as is proven by the fact that he contracted for a very large number of stackers that will be shipped to Minneapolis, made a part of the machines that are being turned out by the thresher company, and given a test in field work.

Should this prove as satisfactory as it has in all previous trials, it is not unlikely that the Minneapolis company will adopt the Maplebay stacker for its entire output next year.

It is the intention of Mr. Kenaston to send a portion of the stackers to the southwest at once, where they will be introduced in a section wherein they have heretofore been but little known. The Minneapolis Thresher company has had so many calls for the Maplebay stacker that it is almost a necessity for it to adopt it in order to satisfy the growing demands of the trade.

STORIES OF THE RAIL.

MISCELLANEOUS ITEMS FROM VARIOUS SOURCES.

The Great Northern has just placed an order for thirty locomotives from the Rogers' Locomotive works of Boston, twenty from the Brooks locomotive works and ten from the Cooke locomotive works.

—o—

The Northern Pacific lines in Manitoba have been taken over by the provincial government and injunction proceedings are thereby forestalled. President Mellen of the Northrn Pacific will issue an order to all employes outlining the change in the status of the Manitoba lines. The hurried action of the government in the matter has put an end to legal proceedings The lines will now pass under the control of the McKenzie-Mawn company, that built and is operating the road that runs across the northern boundary of Manitoba.

—o—

The Great Northern coal chutes and cages with five cars of loaded coal, 500 tons, were totally destroyed by fire at Hillyard, Wash., Tuesday. The loss is $125,000, presumably insured. The fire stopped traffic five hours on the Great Northern and Spokane Falls & Northern.

—o—

A push car loaded with 48 boxes of dynamite was struck by a Great Northern freight near Skyhomish. A terrific explosion followed. The engine was hurled some distance up the mountain side, three freight cars were demolished and about 500 feet of track torn up. A steam shovel standing near was reduced to scrap iron. Engineer McGronty was seriously hurt.

—o—

After ten years' service with the N. P., as superintendent of this division, during which Superintendent Vanderslice has had headquarters at Winnipeg, a change has been made and hereafter the division headquarters will be located at East Grand Forks. This will place the superintendent near the middle of the territory and make it more convenient to handle the business, besides increasing the importance of East Grand Forks as a railway point.

—o—

The Northern Pacific made a fast run Sunday with 250 traveling men returning from the convention at Fargo to Minneapolis. The fast time was registered between Wadena and Detroit, a distance of 8 miles, which was covered in exactly 7 minutes. The entire distance run is 212 miles, the time for which, including delays and stops was five and a quarter hours, an average of about 46.9 miles. The actual running time was better than 53 miles an hour, and but for the bursting of an air brake pipe, a magnificent record would have been established.

—o—

A peculiar accident happened Tuesday to Engineer Kingsley of the west bound Northern Pacific limited passenger train. When going through Cleveland at a high rate of speed his right arm, which was stretched out of the cab window, struck a mail sack suspended in the air. The blow broke his arm and a physician, who was on the train, bound it up. Kingsley pluckily took the train through to Mandan, the end of the division, about 90 miles from Cleveland. He was sent to Brainerd for treatment.

DOWIE ON TRIAL.

BEFORE GRAND JURY—TAKING OF TESTIMONY BEGUN.

Chicago, May 29.—Yesterday the grand jury took up the case of John Alexander Dowie, Deacon Judd and the other members of Zion, held by the coroner's jury for the death of Mrs. Judd, and will hear testimony continuously every afternoon during the week, if necessary, until some decision is reached.

All the witnesses who testified before the coroner's jury have been subpoenaed, and in addition Dr. Ludwig Hektoen, who had charge of the autopsy at the cemetery, and Undertaker Haggard will appear and give their evidence.

Another death of a Zionite occurred Monday night, this time at the residence of Deaconess Bratsch, one of the women held in the case of Mrs. Judd. The name of the victim is Thos. Steele. He came here several months ago suffering with consumption, and applied for admission to Zion home last week. The health department is investigating the death, and inquiring into the circumstances under which a certificate was issued by the doctor

MURDEROUS ASSAULT

MADE IN COURT ROOM BY INFURIATED FATHER.

Cherokee, Ia., May 29.—Vergil Sawville, 19 years old, was nearly strangled to death in the court of Justice Gillette by George Lent, whose daughter the young man was accused of outraging. The father would have killed him had not the authorities rushed to the assistance of the prisoner.

YELLOW FEVER SERUM

DISCOVERED WHICH IS SURE PROTECTION.

Dr. Angel Bellinzaghi, of New York whose experiments with yellow fever serum obtained last year the officia recognition of the Mexican government, announces through the New York Herald that he has found an "Active vaccine" which he believes will insure absolute, permanent immunity from the scourge.

FENCE POSTS FOR SALE.

They are good ones, and the price is right. Vance & Stone.

A 3 DAYS PROGRAM

Firemen's Convention to be Held in this City June 11, 12 and 23.

ADDRESSES BY MEN OF NOTE

And Many Exciting Athletic Contests Will be Had.--Will be Lots of Fun.

The program for the firemen's convention to be held in this city the 11th, 12th and 18th of June, has now been prepared and is as follows. The liberal purses hung up and the large number of contestants who will be present is a guarantee that the contests will be of an exciting and interesting character:

TUESDAY, JUNE 11.

Service Wet Test race for purse of $100.

Between teams consisting of 16 men each from various departments.

Band concert in the evening, with foot races and other athletic sports as special features.

WEDNESDAY, JUNE 12.

Call to Order, 9 a. m.

Address—City Attorney A. R. Holston.

Regular order of business.

Adjournment.

1 p. m.—Ladder climbing contest, $25.00.

Coupling contests, $25.00.

2 p.m .—Convention called to order.

Regular order of business.

4 p. m.—Hub and hub races for purse of $100.

9 p. m.—Grand illuminated parade. All firemen expected to be in line.

Business floats.

Civic societies.

G. A. R. Post.

Sons of Veterans.

Spanish American War heroes.

THURSDAY, JUNE 13.

Address—Jas. H. Maybnry.

Regular order of business.

Election of Officers.

New business.

Farewell Address—Hon. R. J. Montague.

Crookston bids you come again.

We are Semper Paratus.

CROOKSTON WINS

WARREN EASILY DEFEATED BY THE HOME TEAM.

A fair sized crowd gathered at the base ball park Friday afternoon to see the local high school team defeat the Warren high school boys by a score of 13 to 6.

The game was fast from start to finish, but the Warren club was outclassed at every stage of the game. The three base hits by Dodds and Bennewitz, and the pitching of Bradish were special features of the game. Following is the score:

WARREN.

		R.
Beunewitz,	C.	8
Prosser,	P.	0
Tiedt	1 B.	8
Beach,	C. F.	1
Mattson,	L. F.	0
Loughridge	2 B.	1
Dady,	R. F.	0
Jerrue,	3 B.	0
Beardmore,	S. S.	0
		6

CROOKSTON.

Dahl,	R. F.	1
Handy,	L. F.	2
Dodds,	C. F.	2
Erickson,	S. S.	3
Maloney,	C.	2
Morin,	3 B.	1
Fournet,	2 B.	1
Martin,	1 B.	1
Bradish	P.	0
		18

Score by innings:

Warren . . . . 3 0 1 1 0 1 0 0 0—6

Crookston . . . 1 2 2 8 2 1 1 1 0—18

THIEF RIVER GAME.

IT WAS A GOOD EXHIBITION IN SPITE OF ERRORS.

The members of the Crookston ball team returned from Thief River Falls Monday in a very jubilant frame of mind. Victory was their's, and they didn't care who knew it.

The game on the whole was a good example of the national sport, and some brilliant plays were made by both teams, while some were not so scintillating. The struggle throughout was marked by good feeling, and the Crookston boys have nothing but good words to say regarding their treatment at the hands of the boys at the Upper Falls.

Ronesh connected with the leather for a home run, and also made a two base hit. Alling also cracked out a two bagger, as did Erickson, and all the other players did fair stick work. Murphy, on second, had frequent opportunities to assist Winslow, who was catching, and Pitcher Brekke, and accepted them all. Brekke in the box struck out 14 men, the Thief River Falls twirler fanning ten of the Crookston players.

The score by innings reads this way:

Crookston . . . . 3 0 0 4 0 1 0 0 1—9

Thief River . . . . 0 0 0 0 3 1 0 8 0—7

OUR BOYS WIN AGAIN.

SCORE STOOD 9 TO 7 IN FAVOR OF CROOKSTON.

As we go to press we are advised by special wire message that the game at Thief River Falls closed at 8:30, with the result as above stated, 9 for Crookston, 7 for Thief River Falls.

The game was a good one, but was without special incident, though some exceedingly good plays were made. The score by innings was as follows:

Crookston . . . 3 0 0 4 0 1 0 0 1—9

T. R. Falls . . . 0 0 0 0 3 1 0 3 0—7

THE DANDELION PEST.

The dandelion pest is insidiously establishing itself everywhere, crowding into the lawns and usurping them to the exclusion of the grass with great rapidity from year to year. The most serious problem in connection with its extermination is its toleration at the roadsides and vacant lots everywhere, thus propogating seeds by the million which are carried everywhere by the wind and deposited thickly in the grass on the lawns, to germinate and tantalize their owners with their yellow blossoms. There seems to have been no royal road to their extermination yet discovered. Col. Liggett, director of the experimental station at St. Anthony Park, who was written to concerning the matter, said in reply:

"In regard to dandelions, I can tell you what Prof. Green has done on the lawns here at the station, and he has been fairly successful with the treatment. He uses a little spade, say two inches across, made very sharp, fastened to a handle about three feet long. In the spring time when the dandelions are in bloom ,a young boy takes this spade and goes over the lawn, cutting deep so as to cut the roots off. This, of course, takes a good deal of time, and it seems as though the treatment is everlasting. That is, you must keep at it forever, but after about three seasons most of the dandelions have disappeared."

PERPETUAL MOTION

FAILURE LEADS MAN TO TAKE HIS OWN LIFE.

New York, May 25.—The police, after an investigation, say that Basilo Sahih, a Syrian, 24 years of age, shot himself through the heart because of the repeated failures of the "perpetual motion" machines which he contrived. To perfect a machine that would contain its own power and that would run perpetually was his hobby. It had been the subject of his dreams for three years. Sahih came here three years ago from Aloppo, where his father, Abdullah Sahih, is a wealthy merchant. His purpose in coming here was to perfect his education, and at the time of his death he was a student in one of the technical schools of Columbia university. Before coming to this country Basilo had attended college, and he spoke English.

CREAM LAW IS VALID.

The state law requiring cream sold to test 20 per cent butter fat, is upheld by the supreme court in a case appealed by the Crescent Creamery company of St. Paul, as follows:

State of Minnesota, respondent, vs. Crescent Creamery company, appellant.

Section 7002, G. S. 1894, which prohibits the sale of cream that contains less than 20 per cent of fat, is a valid exercise of the police power and constitutional. Judgment affirmed.

—If you wish to renew your loan, or take up balance on your contract for deed, see Ole Tiegen, Crookston. tf

DULUTH PAVILION

And Power House Destroyed by Fire Tuesday. Morning.

BLAZING CAR RUNS AWAY

And is Dashed to Pieces at Foot of Incline on Superior Street.

Duluth, Minn., May 29.—The pavilion on the hill top at Duluth, 600 feet above the level of Lake Superior, was entirely destroyed by fire yesterday together with the power house, from which the incline railway was operated. The fire broke out in the coal bunkers of the power house about 7 o'clock. It was a frame building, and it was but a few moments before it was enveloped in flames. There is no water supply on the hill top, and the fire took its own course without interruption. In a few moments the pavilion was a mass of flames. It was a timber structure about 250 feet long and 100 feet wide, two stories in height with a high roof surmounted by a tower, and was as dry as powder and burned quickly and with tremendous heat.

An exciting incident occurred after the fire had been burning about an hour. The incline is operated by a large cable, and one car stands at the bottom while the other is at the top. The car at the top caught fire, and finally the cable burned through. Down the incline the car shot, a streak of flame, traveling the ten blocks in a few seconds' time. It struck the bottom 600 feet below and everything above the wheels crashed through the gates and out to the center of Superior street. Many people at the bottom cleared out of the way by two men, who appreciated the danger.

The pavilion represented an investment of about $150,000. The machinery in the power house was heavy and expensive and the loss on it will be large. It cost $75,000 to install it, and the loss will aggregate in all probability $60,000; the total insurance is $18,500.

NEW INVENTION

INCREASES POWER OF GASOLINE ENGINE.

Howard, S. D., May 25.—Martin Hayland, a blacksmith at Fedota, in the western part of Miner county, has invented a gasoline engine which promises to make his fortune and revolutionize light motive power. It is an engine with four cylinders arranged tandem, each automatically fed, compressed and exploded, the explosions being timed to keep the piston head continually under pressure of explosive force on both the forward and backward movement.

In the old engine the piston is driven to one end of the cylinder by explosive force, and carried back by the reserve power of the balance wheel. Mr. Hayland's invention greatly increases the power of the engine, while it reduces the weight. An engine of sufficient power to run a power press in a country printing office can be carried into the back room by one man, when not in use.

MINGER'S BODY FOUND.

WEIGHTED AND SHOT IN THE BREAST.

St. Paul, May 28.—The body of Henry Mingers, who killed his brother in law, Frank Greipel , in the latter's home, 645 South Smith avenue, St. Paul, last Sunday week, was found in Duncan's lake on the Mendota road, about six miles from that city, yesterday morning. There was a bullet hole in the left breast and a 50 pound granite rock was attached to the body by means of a wire rope. Two letters were also found on the bank.

HOPPERS GALORE.

ST. VINCENT FARMERS UP AGAINST THE REAL THING.

St. Vincent, Minn., May 28.—P. Walton, a large grain grower of the boundary county, says that some wheat fields in his locality are swarming with grasshoppers. Mr. Walton's fields are infected. The insects are found in new plowings also.

WE IMPORT POTATOES.

The custom house records show that 155,861 bushels of potatoes were imported in the year ending June 30, 1900. This included 72,780 bushels from Bermuda. The importation from Germany was 25,948 bushels. France sent 352 bushels and the Chinese empire contributed 668 bushels. There are certain dishes which are popular with the Chinese in which potatoes are largely used, and the proper flavor cannot be produced, the Chinaman thinks, unless potatoes from his native land are used. The 668 bushels from the Chinese empire and 170 sent from Hong Kong were probably used in making that particular dish.

In the six months ending Dec. 31, 1900, there was imported from Germany 27,795 bushels of potatoes, valued at 11,897. The import duty is 25 cents a bushel. The German potatoes sent to the United States are of a small variety, and reach this port usually in September or October.They are used exclusively in the preparation of potato salad. The potato is oily and moist, and may be sliced evenly. The American potatoes become dry when boiled and are likely to break when sliced, thus making the salad mushy and uneven. Only a small part of the importation finds its way into private kitchens. The potatoes are bought by the dealers in German delicatessen, who make the salad and sell it to the consumers.

The custom house statistics show, also, that in the year ending June 30, 1900, pickles and sauce to the value of $306,223 were imported, of which the United Kingdom sent $218,206 worth, the Chinese empire $30,199 worth, and Japan $14,368 worth. Vegetables in their natural state, exclusive of potatoes, valued at $28,879, were imported from China last year.

NEW BANK UP RIVER.

M. O. Sortedahl, banker, real estate hustler and all around boomer, drove in frmo Red Lake Falls Tuesday and at midnight was still busy arranging the details of a sale that means big money for the purchaser. He was closeted with Architect Strassburger for an hour in the morning looking over the plans of a new building that will grace a prominent location at the Lower Falls, and that will be occupied by Mr. Sortedahl's bank. He returned Wednesday via Euclid, where he closed a deal for a piece of farm property.

A STEAM PLOW.

Martin Swanson, living west of the city on the south side of the river, is making a success ofthe plan of steam plowing. He has attached three gang plows to his traction engine and succeeded Tuesday in turning twenty acres of stubble. He will increase the capacity of the machine by attaching another plow and an Acme harrow, and the whole work of plowing thirty acres a day will cost less than horse feed.

POSTAL EXAMINATION.

The United States Civil Service Commission announces that on June 22, 1901, an examination will be held in this city for the positions of clerk and carrier in the postoffice service.

All persons who have been examined for the position of clerk or carrier within the past year and failed to pass may be re-examined upon filing new applications in due time.

The nature of the examination is a test of practical, general intelligence, and of adaptability in postoffice work. The age limitations for this examination are as follows:

Clerk, not less than 18 years.

Carrier, between 21 and 40 years.

Applicants for mail clerk and carrier must have the medical certificate in Form 101 executed. Applicants for carrier must be at least 5 feet 4 inches in height, and weigh not less than 125 pounds. Female applicants are not required to have this certificate executed.

This examination is open to all citizens of the United States who may desire to enter the service, and who comply with the requirements. All such persons are invited to apply, but attention is invited to the fact that from those certified the department usually selects for appointment eligibles who are residents of the district in which the vacancies exist. Applicants will be examined, graded and certified with entire impartiality and wholly without regard to any consideration save their ability as shown by the grade attained in the examination.

For application blank (Form 101) full instructions, specimen examination questions, and information relative to the duties and salaries of the different positions, application should be made to the undersigned.

Applications must be on file with the secretary of the local board before the hour of closing business on June 15, 1901. —B. F. Monroe, Secretary Postal Board.

MORE SMALLPOX.

The report is current in the city today that another case of smallpox has developed at the residence of Robert Smith, in the town of Fairfax, the quarantine upon which was only recently raised. It appears that during the time which the quarantine of the place was supposed to be rigidly respected, Mr. A. J. Price of Kittson was taking his dinners there, and he also is now down with the dreaded disease. The case at the Smith place is that of a man in Mr. Smith's employ.

EXCITED MOOSE

Kidnapped Small Child and Swam across Blackduck Lake.

TERRIFIED BUT HELPLESS

The Parents Witnessed the Incident but Later Rescued the Child.

Blackduck, Minn., May 28—A fishing party at Blackduck lake had a novel experience, which nearly resulted in a tragedy.

A wild moose, chased by dogs, got tangled up in the anchor rope of a boat containing a little girl, and before the parents could interfere the moose dragged the boat and its contents into the water.

The party consisted of Mr. and Mrs. Geo. Johnson, who are engaged in the confectionery business here, and their 3 year old daughter, Emma. They had just returned to shore from a fishing trip and were making the necessary preparations to start for home.

The father had gone a few yards away to cut a switch upon which to string the fish.

The mother was playfully pulling the boat back and forth in the water by means of the anchor rope for the amusement of the little girl, who was standing up in the back end of the boat.

A full grown moose dashed from the brush directly upon them, got tangled up in the anchor rope, and before the excited parents could interfere had the boat and all into the water.

No other boat was at hand and the father did not dare to shoot lest he might injure the child.

In vain did the animal struggle to free itself from its burden, and in its efforts nearly upset the boat.

Presently, as if by determined premeditation, with its great head high above the water, it started out on a straight course directly across the lake to what is known as Johnson's point, a distance of about two miles.

In the meantime the terrified parents had obtained another boat and together with a party of other fishermen gave chase.

They saw the moose land on the opposite shore, where it freed itself from its burden and quickly disappeared. Save for a soaking, the child was unharmed and not even frightened.

A CLIMAX FIRE

WAS EXTINGUISHED BEFORD IT BECAME GENERAL

Climax, Minn., May 24.—The sharp notes of the fire bell caused the citizens of Climax quite an excitement yesterday shortly after noon. Smoke was seen to come from the roof around the chimney of A. Steenerson's store building and it was only a short time before the flames broke through the roof. It seemed almost certain that the business portion of the town was doomed to destruction, as quite a high wind blew from the north which carried the flames across the street and to the adjacent buildings.

Thes light rain this morning had some tendency to check the flames and the fire did not make very rapid headway, although the building was a two story frame structure. It was some time before the firemen could get up steam enough to start the pump at the fire hall, owing to some misunderstanding of the engine, but when it finally got started the flames were soon under control. Not, however, until Mr. Steenerson's entire household goods were burned. Most of the dry goods and groceries of the large double store had been carried out into the street.

The loss on the stock cannot at this time be ascertained but it is estimated at about one half; insurance, $8,000. It may be possible to repair the building. It was covered by insurance. The postoffice which was located in the stor was saved.

The Climax fire department demonstrated their efficiency as fire fighters and only for the valiant service they rendered, the loss would have been far more serious.

LOST HIS OUTFIT

IN THE CLEARWATER, BUT RECOVERED HIS COAT.

Dr. Tessier, of Red Lake Falls, had an unpleasant and expensive experience last Sunday which up to this time does not appear in the published records of daily occurrences.

The genial doctor resided in this city a few years ago and has many friends here who are still interested in his affairs.

Last Sunday while out on professional business, he found himself confronted by the Clearwater river at a point called LaComb's crossing, where the bridge, which had become unsafe, was being replaced by a new one, not yet sufficiently far advanced for service.

At the ford the current seemed to be rather swift, and the water forbiddingly high. His suspicions were so far aroused that he sought counsel of the people residing nearest the crossing, and was assured by them that it was all right, and other teams had recently crossed safely. His confidence was by this advice sufficiently restored to induce him to make the venture, and he plunged in. He had not gone far, however, before he wished himself back on dry land. But the only practical way out of the difficulty was to push ahead. Higher and higher rose the water around the buggy and on the horses' sides, until the latter were carried off their feet entirely and began to swim, and the doctor found himself standing up on the seat to save his feet from a wetting.

The gallant horses met their task bravely, however, and kept their course steadily toward the farther shore, which was safely reached, but at a point where the bank was quite steep, and in scaling it the doctor's cases of surgical instruments and medicines, and his grip and buffalo coat were all precipitated into the river. As the coat floated on the surface, he was enabled to recover it at a point a quarter of a mile down the stream, but the other items of property have been charged up to profit and loss in the doctor's ledger.

COMMENCEMENT EXERCISES.

Of the Crookston High School Tomorrow Evening.

The eleventh annual comencement exercises of the Crookston high school will be held in the Grand Opera house in this city next Friday night. At that time the following program will be rendered:

Music . . . . New Hail Columbia
High School Chorus.
Invocation . . . .
Rev. Floyd A. Lawson.
Salutatory . . . .
Bulah A. Richardson.
Oration . . . . Our Natianality
Paul H. Wilkinson.
Class Poem . . . . Vergessen Uns Nicht
Eliza J. McGuire.
Monograph . . Beginnings of Minnesota
Mary E. Wyand.
Storiette . . . . An Idyl af Norway
Lois L. Latta.
Octette . . . . . . The Moon is Beaming
Misses McAskill, LeBlanc, Brunner, Locken, Messrs. Obesterman, Davies, Brosseau, Rapin.
Cornedietta . . . Ye New Time School
Dramatis Personae: Ye Teacher, Agnes Cromb; Ye trustees, Jennie G. McLaren, Mary E. Millette; Ye Scholars, Class of 1901.
Class Sentiment . . . .
. . . . Channings Symphony
Elva A. Bates.
Quartette . . . . . The Green and White
Misses Bates, Cronkhite, Childs, Richardson.
Comedietta . . . . Ye New Time School
Emily A. Millette.
History Lesson . . . . . Class af 1901
Physical Culture Drill . . Class af 1901
Sextette . . . . Forsaken
Misses McAskill, Cronkhite, Locken, Bates, Childs, Richardson.
Parody . . . Reminiscences of School
. . . . Daya
Ruberta J. Childs.
Valedictory . . . .
Christian F. Dahl.
Presentation of Diplomas . . . .
Mr. A. A. Miller.
Music . . . . Good Night
High Schol Chorus.
Benediction . . . .
Rev. G. A. Quammen.

The following is the list of graduates:

Paul Harris Wilkinson, Mary E. Wyand, Lois Lora Latta, Elva Adeline Bates, Bulah Adaline Richardson, William McMahill Shannon, Charles Herbert Clements, Eliza Jean McGuire, Mary Elmira Millette, Agnes Cromb, Edward Maloney, Christian Frederick Dahl, Jennie Gray McLaren, Ruberta Julia Childs, Emma Alice Cronkhite and Emily Alice Millette.

This is the largest class that has ever graduated from the Crookstan high school.

A SCHOOL ELECTION.

A special election is to be held in Thief River Falls next Saturday to determine whether or not district No. 57, lying on the east side of the village, and district No. 107, lying on the west side of the village, shall unite and form one independent city school district, similar to that of other places of like size and importance. As an independent district, the city schools will receive the sum of $1,000 annually from the state, instead of $300, as at present, and, furthermore, it will permit a uniform grading af the schools, which is not possible under the present arrangement. The east side is holding out for an equal representation on the school board, if the unification is effected, and, as the west side is agreeable to the proposition, there is no doubt that three directors will be elected fram each side of the river. A number of excellent names have been proposed for school directors, among which may be mentioned H. E. Mussey, B. Christianson, S. V. Bailey, C. E. Winslow, A. B. Helgeson and Horace Bagley from the east side, and Carl Kretzschmar, C. L. Dobner, Martin Evenson, Ira C. Richardson, from the west side. Everybody should turn out and vate to put the city schools on a city basis. The ladies can all vote on this proposition, and this will cut a big figure in the result.

Inasmuch as no organized opposition to the proposition is reparted, it is altogether probable it will carry. Such movement will certainly make a higher educational standard possible than under present arrangements.

"Stop that cough right away with Mull's Lightning Cough Cure. It heals disease of throat and lungs. It's pure and good far children. 25c. For sale by S. A. Wallace.

DECORATION DAY

Program now Perfected. Committees Met Last night.

PARADE AND EXERCISES

At the Cemetery. Music and Addresses. Schools will Participate.

The various committees upon whom the duty of arranging the memorial program devolved, met last night and agreed upon the following as the order of parade and exercises at the cemetery:

ORDDR OF PARADE.

The parade, in charge of Chas. Jefferson and aides, Chas. Hitchcack and J. E. Sullivan, will be formed in the following order:

Platoon of police.
Crookston band.
Col. Cobham Post G. A. R.
Women's Relief Corps.
Minnesota volunteers, Spanish-American war.
Mayor, orator and clergymen in carriages.
Choir in carriages.
Crookston fire department.
Ancient Order of United Warkmen.
Modern Woodmen of American.
Children of city public schools.
Citizens in carriages.

The procession will be farmed at 1:30 p. m. and will move at 1:45 sharp. This does not mean 2 o'clock. The procession will form on Broadway with head of the procession at the city hall. The school children will assemble at the Central high school building at 1 o'clock and form in line and join the parade at the corner of Broadway and Robert street. The line of march will be from Broadway west on Fletcher to Main street north, on Main to Sixth and thence to the cemetery.

ORDER OF EXERCISES.

Decorationof soldiers' graves by Col. Cobham Post No. 90, assisted by Women's Relief Corps, school children and citizens.

Dedication of soldiers' burial places.
Music by the band.
Prayer, Rev. Fisher.
Music, choir.
Address, Mayor N. Campbell.
Reading memorial orders and exercises, Col. Cobham Post, No. 90.
Music by the band.
Oration, by Rev. F. L. Lawsan.
Music, Choir.
Benediction, Rev. Hufnagle.

School children are requested to carry flowers.

Citizens donating flowers will please deliver them at G. A. R. hall before noon on Decoration day.

HILL MAKES $10,000 DONATION.

MADE BY J. J. HILL TO REBUILD JACKSONVILLE.

New York, May 27.—A stock company to rebuild Jacksonville is what seems probable at the present time, although the company does not contemplate owning the city.

Senator Call of Jacksonville hopes to organize a corporation for the purpose of lending money to persons who wish to build or rebuild in the ruined city.

These plans the senator has submitted to J. J. Hill, the railroad magnate, who was so impressed that he offered the senator his personal check for $10,000 to be used in whatever way it was thought best. Senator Call's plan is to form a corporate association under the laws of New York or New Jersey. It is planned to issue bonds, a portion of the proceeds from their sale to be set aside as a sinking fund.

It is Senator Call's idea that money be loaned only for rebuilding purposes and in amounts not to exceed an extreme limit of $5,000 in one loan, thus giving to the fund extensive circulation.

LAND DECISION

A VISIT TO LAND ONCE IN SIX MONTHS NOT SUFFICIENT.

Last September Gust Anderson, through his attorney, Taylor Crum, of Fargo, instituted a contest case against one Francis McCarty, for a valuable quarter section of land in Clay county, just across the river, before the United States Crookston land office district.

The testimony was taken before the clerk of court at Moorhead; the case was argued before the register and receiver at Crookston. The contest was sustained by the officials at Crookston and an appeal was taken by Mr. Perley of Moorhead to the commissioner of the general land office at Washington. Subsequently Mr. McCarty died and his heirs intervened. The matter has been before the commissioner af the general land office at Washingtan since that time.

Mr. Crum received notice Friday that the decision af the Crookstan land office has been affirmed. Mr. Crum stated to a Call reporter that the McCarty heirs would have appartunity to appeal to the secretary of the interior, but that up to date his client, Gust Anderson, was a winner.

Mr. McCarty had undertaken, as it appears from the opinion af the commissioner af the general land office, ta hald government land by making accasional visits every six months; but the department at Washingtan holds that this is not sufficient.

So far Crum and his client are ahead in the deal. The land in dispute is near Glyndon, and is valuable.—Farga Morning Call.

PICNIC AT HALSTAD.

The farmers of Halstad and tributary townships have arranged far a grand picnic to be held in Brandt's grove, a quarter of a mile west af the village, June 6. In the cardial invitation by the committee, published in the Halstad Reporter, announcement is made as fallaws:

"We have provided for an appropriate program with short talks, and music, vocal and instrumental. The Hon. John W. Aretander, the well known Minneapolis lawyer, orator and evangelist will speak in the forenoon in the English language and in the afternoon in Norwegian. The Halstad band has been engaged for the day and different choirs will be present ta sing. Not to forget the dinntr. You are our guests and we will endeavor to make the dinner feature also satisfactory."

A SUDDEN DEATH.

SUSPICION ATTACHES IN A CASE AT EAST GRAND FORKS.

Coroner Chesterman was summoned to East Grand Forks last Monday night to examine into the cause af the death of Lewis Baker, but returned without holding an inquest.

Baker was under bondsto appear far trial at the June term of court, and answer to a charge of larceny. He has lived at East Grand Forks four or five years and has recently been closely associated with one Chas. C. Kiland. A few days ago he was reported ill, but being one of a class of saloon loungers, without any fixed abiding place, little attention was paid to him. Yesterday he was found dead, and the authorities, fearing foul play, or that he had made way with himself, rather than to stand trial, decided to call the coroner. The result of the examination developed the fact that heart disease caused his death. Baker was 36 years of age. He has a brother living at Nerstrand, Minn., who passed through Crookston today en route to East Grand Forks, and who will care for and bury the remains.

CENSUS STATISTICS

WILL BE PUBLISHED IN COMPACT FORM BY DIVISIONS

Washington, May 24.—Director of Census Merriam said yesterday: "We expect to issue a monograph soon giving in compact form the population by divisions of the United States. This will be the first official bound volume of the Twelfth census. It will be followed during the season by bound reports on the four leading subjects of this census, viz.:

"Population in detail, two volumes; manufactories, three volumes; agriculture, two volumes; vital statistics, two volumes.

"We have decided not to issue a compendium as has heretofore been th custom, but instead will publish a statistical abstract of the entire census, embodying in compact form all the condensed information."

AUCTION SALE

SALE OF 600 HEAD OF THOROUGHBREDSHROPSHIRE SHEEP AND OTHER STOCK AND FARM MACHINERY.

Having sold his farm, Ernst Mueller will sell at public auction, on Sec. 10, township of Russia, Polk county, all stock, implements and machinery. Stock includes six hundred head of thoroughbred Shropshire sheep, a fine lot of registered Shropshire rams, 10 head of horses and 9 head of cattle.

Sale takes place at 10 a'clock an Monday, June 3, 1901. Everything sold without reserve. For particulars see hand bills.

"Pleasant Dreams"

Cries the young maid to her mother, as she retires to rest. The mother smiles, but sighs. She knows that the pains that rack her will not stop for darkness, and that if she sleeps her dreams will only be echoes of the sufferings of the day.

Why not sleep soundly and rise refreshed at morning, with strength and courage for the day's duties? Weak, nervous women, sufferers from backache, bearing-down pains, and other womanly ailments, have found a perfect cure in Dr. Pierce's Favorite Prescription. It heals the womanly diseases which cause the pains and nervousness. It makes weak women strong and sick women well.

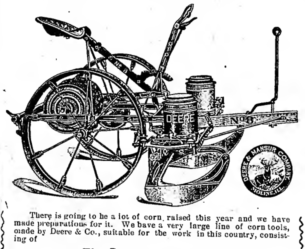
"I deem it my duty to express my heartfelt gratitude for having been the means, under Providence, of restoring me to health," writes Mrs. B. H. Munn, of Springhill, Leon Co., Fla. "For nearly two years I suffered from female weakness so I could not stand on my feet any length of time; could scarcely walk at all. Appetite was much impaired; I had bearing-down sensations; can't express how badly I *did* feel. Had tried several kinds of medicine which did me little or no good. At last decided to try Dr. Pierce's Favorite Prescription. I had not taken all of two bottles before I saw it was benefiting me, so I continued to take it until I had taken seven bottles, when I felt entirely cured. Did not feel a touch of my old complaint. It has been over a year since I took your medicine, and I can truthfully say that my health has been better for the last year than it had been for four years previously.

"You may publish this as a testimonial."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent *free* on receipt of 21 one-cent stamps to pay expense of mailing *only*. Address Dr. R. V. Pierce, Buffalo, N. Y.

The Question of Corn Raising

Is a very important one. You can raise a large amount of feed on a small amount of ground.



There is going to be a lot of corn raised this year and we have made preparations for it. We have a very large line of corn tools, made by Deere & Co., suitable for the work in this country, consisting of

The Deere Corn Planter

and a large line of riding and walking cultivators. Will be glad to quote prices if interested, or send copy of our booklet "Corn Raising in Northern Minnesota," on request.

Merit Always Wins.

Larsen & Carpenter,
CROOKSTON, MINN.

Stores also at Fosston, McIntosh and Beltrami, Minn.

SEE THAT COLLAR?

Well, when you examine it you will know there is only one laundry in this town that can put such an exquisite color and faultless finish on it, and we modestly announce that it is done at the Crookston Steam Laundry. How to launder a shirt, collar or cuff properly is an art that we understand and which we always impress on our work.

Crookston Steam Laundry, C. D. BILLINGS Proprietor.....

EXPERIMENT FARM

Committee Appointed by Prairie Grange Visit the Farm and Report.

CAREFUL, THOROUGH WORK

Is Being Done in all Lines under the Management of Prof. T. A. Hoverstad.

At its last meeting the newly organized Prairie Grange of this city appointed a committee to visit the Experiment Station at this place and make report of their investigations. This committee performed the duties thus assigned them, and we publish below their report, which is very creditable both to the committee and to Manager Hoverstad:

To the Officers and Members of the Prairie Grange:

We, the undersigned committee appointed to examine and report on the condition of the Northwestern State Experiment Station at Crookston, respectfully submit the following:

The committee visited the farm May 18, and were received and shown over the building the grounds by Prof. Hoverstad. We first took a look at the horses. The general work stock consists of Percherons and grades with some drivers of the Hackney or Coach type, some very promising colts from the cross of Percheron and trotting strains, show the possibilities of raising the high priced carriage and driving horse for which there seems to be such a large demand. One high bred Hambletonian is kept for following this line of breeding. Some draft bred colts of promise were also seen. The horses were all under feeding experiments and kept in yards and barn to weigh feed.

The cattle consist of Short Horns and grades and are of the beef type. As the St. Anthony Park station gives so much attention to dairying, it is thought best to give the largest place to beef in the cattle line here. Two steers, with which are being conducted breeding experiments, show fine proportions and large daily gains. The herd will be a fine basis for raising grade and full blood animals for the various feeding tests which we hope to see in operation in due time.

In the poultry line there are some fine specimens of Astotie geese of very large size, a fine flock of Pekin ducks, also a wild brant which had been so favorably impressed with the location as to prefer it to the long journey to the north. Some fine bronze turkeys were also noted. In the chicken line they have White and Barred Plymouth Rocks, Light Brahmas and Cornish Indian Games. Three incubators were in use, but as they had not been in operation long enough to hatch, we could not judge of their success. Records of the cost of running are carefully kept and will be reported in bulletins.

In the line of small fruits, that amount of success has not been attained that would have been had the location been better, as all the high ground seems to be very strongly mixed with alkali, the bad effects of which is very apparent. The gooseberries, raspberries, currants, etc., are very promising. The Turner, Marlborough, London and Philadelphia raspberries, Victoria, North Star and Long Bunch Holland currants seem to be well adapted to this climate. Plums and apples in the open are not a success, but in the timber plantations some fine plums of both select native and tame varieties were laden with blossoms. New Ulm is one of the most promising and the Compass cherry, a cross between a tame cherry and a plum, is also very hardy. The Sand cherry and Buffalo berry were doing finely. We noted some seedlings of the Pierns Bocata, the most northern grown specimen of apple known, from which Prof. Hoverstad hopes to make a start toward developing an apple for this country. Evergreens, white and red cedar, spruce and arbor vitae were doing finely, also Buckthorn and Wild Olive for hedges, besides numerous ornamental and other timber trees of our native grown varieties. This shows that by proper planting, so that hardy varieties are used to protect the fruit and more tender shade trees, that our varieties are greatly multiplied. Special attention is being given to the test of melons, tomatoes and celery, splendid plants of which were being set out. A plat of sweet corn and another of potatoes were devoted to a variety test. The Mercer flint and a variety of Dent from Meator were advised for grain, and Minnesota's "13" for fodder corn. The field crops of grain were not examined, as they were not sufficiently grown. Plats of grass of various kinds of seedlings of plums and apples were seen, as a constant endeavor is made to develop new varieties adapted to the country. Several plats of Artemesia, a rapid growing, hardy shrub used as a protection for young trees and nursery plantations and gardens, were noted. We did not see any strawberry plants, and if none are planted, we would urge this as one of the most promising and hardy of our small fruits.

It is a matter of utmost regret that a more favorable location was not selected for the station. That which is not wet, seems to be, much of it, alkali. We would recommend that the management take steps to have a competent engineer lay out a system of drainage that will thoroughly drain the farm and have it put in operation at the earliest moment, and that all new buildings be placed on stone or brick foundations. We understand that a cattle barn will be built, and would urge that a hog house and a stock of hogs be maintained. Inasmuch as there is a stock of Short Horn cattle, and the proximity of a herd of Herefords, we would suggest that when more cattle are purchased, the merits of the Galloway and Aberdeen Angus be considered. That if the finances warrant, a Percheron stallion be bought. That in the interest of good roads, the road on the farm or alongside be made into what could be considered a model for our highway overseers to copy. Since our prairie hay crop is a condition of the past, special attention is given to experiments with fodder corn, oats, hay, millet and other substitutes.

Recognizing that as an object lesson of what can be grown and how our farm homes can be made beautiful and our stock improved, we urge that every farmer should make a special effort to visit and look over the farm, and believe it would also be of interest to their wives to see the poultry and garden departments with this idea in mind, and that it may not be an interference with the plans of work, we would suggest that superintendent set apart one day, if necessary, each week, and provide a guide to explain the work and subjects aimed at. We most heartily endorse the idea of a live stock school during the month of June, and believe it would be the beginning of a school that would develop into one the equal of that maintained at St. Anthony Park. To accomplish this requires the united efforts of all the farmers of this part of the state. Will our brother farmers join us in this work, which will be a fit accompaniment to the work of our State Grange in pushing the agricultural school to its present magnificent position, of which every Minnesota farmer is so justly proud.

Mindful that our report is getting lengthy, we would urge that this, or some other committee, be sent to report on the field crops and conditions when they are matured.

In view of the undesirable location making it impossible to do anything during the wet season, and the destruction of the barn by lightning, we feel that Prof. Hoverstad has, under the discouraging circumstances, made a good showing, and in his work should have our hearty assistance and support, all of which is respectfully submitted by

—G. W. Eastman,
—E. E. Haaaa,
—Ole Christiansen,
—James P. Marcam,
Committee.

COUNTY DIVISION

PERHAM PEOPLE WANT TO DIVIDE OTTER TAIL.

Fergus Falls, Minn., May 23.—Perham people are starting a movement to divide Otter Tail county, and if they find sentiment sufficiently strong will call for a vote at the coming general election. Otter Tail county consists of 62 townships, and is the fourth county in the state in point of population. It is by no means a new county, however, and the expense of copying the records will be one of the strongest arguments against division.

The divisionists are headed by Senator M. J. Daly, who resides in Perham, and their plan is to submit propositions to divide the county into four counties. Under the peculiar law now in force, this would mean the submission of four propositions and each voter could vote on only one of them at a time. The division-by-four plan would probably mean county seats at Henning and Pelican Rapids, and the Perham people hope to enlist the cooperation of these villages.

An effort was made to change the law last winter and have county division submitted on a straight vote, but Senator Daly succeeded in defeating it. The Perham divisionists have appointed committees to visit Henning and Pelican Rapids to see if sentiment can be aroused in those villages, and will then circulate petitions calling for a vote.

GOLF ASSOCIATION.

WAS FORMED AT FARGO LAST SATURDAY.

Representatives of golf clubs in North Dakota, Minnesota and Manitoba met at the Metropole in Fargo Saturday and effected a preliminary organization of the Northwestern Golf association. The following officers were elected:

President: John Birkholz of Wahkiakum club, of Grand Forks.

Vice President: C. E. Nilsen of the Jamestown club.

Secretary-Treas.: G. H. Phelps of the Fargo club.

One director will be chosen from each of the clubs comprising the association, to be elected by the respective clubs.

The association will doubtless arrange for a tournament and series of matches during the coming summer.

IT SAVED HIS LEG.

P. A. Danforth, of LaGrange, Ga., suffered for six months with a frightful running sore on his leg, but writes that Bucklen's Arnica Salve wholly cured it in five days. For Ulcers, Wounds, Piles, it's the best salve in the world. Cure guaranteed. Only 25c. Sold by A. G. Anderson.

FOUND HIS TRAIL

But Failed to Locate their Man. Jacob Bassanela Still Dodging.

JOSEPH NOT HEARD FROM

Seems to have Dropped Entirely out of Sight Without Leaving any Trace.

Officers Sullivan and Blue returned Sunday morning from a three days' drive south and west of Grand Forks in search of some trace of the Bossanella brothers, the murderers who escaped from the Grand Forks county jail last Tuesday night, and Officer Sullivan says that he found the first trace of Jacob Bassanella, and there is no doubt in his mind that the man on whose trail they were for two days is the right party.

At the home of Mrs. Thompson, who lives near Thompson, they were informed that a man answering the description of Jacob Bassanella was given supper there Wednesday night, and was offered a chance to sleep in the barn, and was told he could have some quilts to use. He declined the offer and continued his way, saying that he must hurry.

Friday afternoon, rather late in the day, John McDonald, a prominent farmer living half a mile east of Cummings, was accosted by a man whom he is positive was Jacob Bassanella. He was working at the barn when the fellow appeared and asked him for something to eat. McDonald questioned him as to where he had come from, and the stranger said that he had been sleeping all day and the night previous in a barn on the McDonald place, which was used as a storage room only.

The stranger was given something to eat and as he was leaving the house Mrs. McDonald remarked that he looked a great deal like the picture of Jacob Bassanella. Mr. McDonald looked up a paper containing the pictures of the brothers and all determined that he was undoubtedly the man. Mr. McDonald ordered his horse saddled and rode to Cummings as fast as his horse could carry him, and caught the stranger as he was skulking through the lumber yard, headed for the Great Northern depot. McDonald notified the marshal of the town, but says the latter refused to enter the lumber yard, saying that the supposed murderer might have a gun in his pocket. Meanwhile the Great Northern passenger train for Fargo pulled in and the fugitive made for the blind baggage on the run just as the train started to pull out. McDonald followed, leading his horse, and grabbed for the man just as he leaped on the train, but failed to get him. He told the marshal to wire the authorities at Hillsboro to watch for Jake, but instead the marshal wired the sheriff at Grand Forks, and before the latter could get a message to Hillsboro, the train had passed that point and all efforts to find where the man had left the train have proved fruitless thus far. He seems to have been swallowed up bodily, as not the slightest clue can be found since the fellow boarded the train at Cummings. Officer Sullivan says there is not the least doubt but the man was Jacob Bassanella.

AS THEY VIEWED IT.

THE PRESS ALSO GIVES ACCURATE REPORT OF GAME.

About the hottest specimen of the national game that has been put up in this vicinity took place last Monday at Crookston, and our home team lost a game, which was played in league form, by a score of 2 to 3. Both aggregations were doing excellent work, and the row of goose eggs which decorates the score is enough to gladden the heart of the fan. Neither team succeeded in getting a man over the plate till the last half of the fourth, when one lonely Crookston man circumnavigated the diamond and scored first blood. The Thief River Falls crowd promptly went them one better, and registered two scores in the fifth. After this the score keeper had nothing to put in his little book until the last half of the ninth, when, with two men out, Crookston took a brace and, by bunching hits, got two men over the plate and won the game. The Crookston papers are loud in their praise of the gentlemanly conduct and strong ball playing of our boys, and, on the whole, the game was highly satisfactory. Either next Monday or Memorial day the return game will be played here, and the boys expect to polish off the visitors in their turn.—Press, Thief River Falls.

LITERARY NOTE.

Wheat speculation, love and business are the motives of a great serial story by Merwin-Webster, authors of the Short Line War, which will be begun in the Saturday evening Post of May 25. Ex-President Cleveland will contribute to the issue of June 1 an able paper on The Waste of Public Money. In this article Mr. Cleveland sounds a warning note against National extravagance and the criminally reckless expenditure of public money.

Polk County Journal,

BY N. S. GORDON.

Subscription $1.50 per year in advance

Entered at the postoffice at Crookston, Minnesota, as second-class matter.

TO OUR READERS.

Nothing is too good for the readers of the Journal. We have succeeded in placing in their hands the cleanest, brightest, newsiest sheet in the valley, and we propose to increase its attractiveness in every possible manner.

The Crookston Daily Journal entered upon its existence nearly a year ago with the determination to give to the people of Crookston and vicinity the best daily newspaper published in the valley. Not that we were sanguine enough to believe we could with every issue from the start reach this standard, but this was the ideal we then set up, and toward the attainment of which our thought and our purpose has steadily turned. Entering the field without previous experience in the publication of a daily newspaper, it was of course to be expected that many needs would be developed which were not foreseen, and which must be supplied before we could attain our cherished ideal. We are happy to say that our efforts are gradually meeting with the hoped for success. And each success attained gives assurance of greater success in the future. We have announced from time to time the additions of improved machinery we have made in our composing and press rooms, and we are gratified to find that the public has shown their appreciation of our efforts to give it service by an increase of patronage. We are now very much gratified to be able to announce that we have secured the services of Mr. F. L. Durand, who will enter upon his duties as city editor of the Daily Journal tomorrow morning. Mr. Durand is well and favorably known in this city and throughout the Red River valley, and will need no introduction to our readers.

He has long been a resident of this city, is a thorough going republican in political principles, and his extensive acquaintance with the people and local conditions, together with his natural and acquired habit of close observation, unquestionably constitute the best combination of fitness for reportorial work possessed by anyone in the field of northwestern journalism. We are sure our readers will appreciate our efforts to serve them, and expect as a result of this acquisition to the Journal staff a large addition to our subscription list.

The St. Paul Dispatch says of Prof. Otto Lugger, whose death occurred last Tuesday, "It is not Minnesota only that sustains a loss in the death of Prof. Lugger, but the agricultural and horticultural interests of the entire country to whose aid, in their perpetual warfare with the insect kingdom, he gave his services and rare abilities, and in whose service he contracted the disease which has terminated fatally. He was of that class of men who, without ostentation, without notoriety, unknown to the mass whose eyes are caught by the names that seek publicity, yet render their fellows great service by their quiet, persistent intelligent work along lines promotive of the general welfare. Of this class Prof. Lugger was a type, plain, simple, unpretentious, having like Agassiz, "no time to make money," absorbed heart and mind, in the work to which he gave his life. The state owes much to this simple man who was great in his sphere. Those of us who can recall the devastation wrought by the locusts thirty years ago, and know how he waged campaigns against the advance swarms of these destructive pests and thus prevented their development into armies that would have swept the fields as bare of vegetation as did those of the seventies, can appreciate what his value was to the state. The chinch bug is no longer the terror of the grain fields that it was before he came to make and distribute cultures of the fungus that destroyed the bug. Less valuable only because of the relatively less magnitude of the interests were his services along the same preventive lines to the horticulturalists of this and other states. It is not only that a good man and a good citizen goes prematurely out from among us, but a man has gone who was a master in his vocation and who gave to the public his best."

Secretary George D. Rogers of the St. Paul Chamber of Commerce sizes up the crop situation as follows: "The conditions in the northwest are excellent for everything from the Jim river east in both the Dakotas and Minnesota. The growth is even, and while not especially rank, it is as full and strong as it ought to be at this season Without any serious backset the indications are for a large crop. The crop acreage in my judgment, for all grains is approximately 10 per cent. above the seeded acreage of last year. I would say that wheat is some 5 per cent. above last year in acreage, with corn more than 5 per cent in excess of last year, and the prospect is for a large acreage of flax, fully equal to last year's acreage, which was large. west of the Jim river in the northwestern part of South Dakota and in the Missouri river district of North Dakota, they had heavy frosts during the recent cold spell, and need rain badly." In this immediate locality however, the crop conditions are much more backward than is indicated, the soaking rains of last fall having prevented plowing at that time, and the spring rains having delayed work still further.

CORN AS A CROP.

The matter of raising corn is attracting considerable attention among the North Dakota farmers, as well as on this side of the Red river. We take the following clipping from the Grand Forks Herald, in regard to it:

"George H. Wilder says the farmers in this vicinity are sowing more corn this season than ever before. He says that last year Angus McCallum sowed about 30 acres, and as a result had all kinds of fodder for his cattle, something that the neighbors did not have as a rule. This year, however, they all intend to bank against another short hay crop and are sowing a good acreage of corn for fodder so that they will have plenty of fodder, no matter whether the hay is scarce of plentiful. In this connection a well known farmer said that he believed it to be a good thing for the farmers to get in the habit of sowing 25 or 30 acres of corn each year, and possibly more, as the fodder that was raised was valuable and that there was no crop that cleaned the land to such an extent as a corn crop that had been well cultivated, and that invariably a fine crop is raised on corn land the following year, as the land has been thoroughly cultivated and cleaned of foul weeds."

In the Industrial number of Collier's Weekly is commenced a "Diary of the Presidential Town" compiled from the notes of a cabinet officer, with a series of pictures by the Weekly's staff photographer, James A. Hare. The diary is to be continued from week to week until a full report of the tour is completed. It will prove intensely interesting reading, and the illustrations which are well brought out, are very emphatic suggestions of the great interest felt everywhere on the route of the excursion, in getting a glimpse of the popular president of the United States. This enterprising Weekly is profusely illustrated and is emphatically an up-to-date publication.

The occasional disastrous results of the unanimity rule in jury verdicts has attracted earnest attention and careful consideration in many of the states and a number of states have modified the rule authorizing a verdict of differing fractional majorities. A verdict agreed upon by three fourths of a jury is permitted in Nevada, South Dakota, Texas and Washington. In Montana two thirds of the jury can render a verdict in civil cases and in criminal cases not amounting to a felony. In Idaho a verdict rendered by five sixths of the jury is sufficient in all cases. The Utah constitution provides that a felony less than murder is triable by a jury of eight men. Full reports of the operation of these innovations would be instructive.

If anything were wanting to completely and absolutely demonstrate the permanency of the reign of prosperity, it was supplied in the great New York stock cyclone of May 9. If anything on earth could have disturbed the country and started a panic it would have been that. But it came and went, and there were thousands of business men throughout the country who do not read the papers carefully who never knew it had happened. Indeed, there are probably very few who realized the magnitude of the event. It didn't touch them, and so they paid no attention to it.

The First National bank of Owatonna has recently inaugurated a very efficient system of protection. Alarm connection with the central telephone office has been made, and also with the firemen's quarters, and one of the trusted employes of the bank is a regular bookkeeper, commences work at 10 o'clock in the evening, occupying the time until 4 o'clock in the morning at work on the books. It is predicted that this plan will be copied by other banking institutions in the near future.

The Taylors Falls Journal says: Senator Ryder, of East Grand Forks, Minn., prolonged his stay in St. Paul until the police took him in charge. The best men are not always state senators. Far from it.

We concede the truth of this observation, but under the operation of the new primary law we hope the voters of the Ninth district will see to it that in the future none but the best and most able men are delegated with the power to represent us.

Geo. Weatherhead, son of the editor of the Ada Herald, himself a newspaper man, is in worse luck than the man who owned shares of N. P. stock, and was away fishing the day it touched $100 per. Last New Years his paper, the Hunter Tribune, was burned out and he gathered together a couple of chases, a shooting stick and a small quantity of type and removed to Kindred, only to be burned out again Tuesday.

The Crookston police have had a man in jail there since Sunday evening that refuses to talk or write. He is a little beyond middle age and appears to be half starved. Index. (Ada)

The above is all right except that the man doesn't appear to be half starved, has not yet reached middle age, does not refuse to talk or write, and the police have not had him in jail.

Myran and Sharpe, Calkins and Ryder—Republican candidates for congress. What strange bedfellows politics does make.—Ada Herald.

Why not add Grindeland, Comstock and Valentine and then picture Joris all by his lonesome sitting on the fence watching the boys wrestle for the nomination that means an election.—Index. (Ada)

FROM NEAR AND FAR.

Zephyrs Wafted Through Pine Cones and Across Prairies.

The members of the band are preparing to keep cooler during the practice evenings than they have during past years, and have had an electric fan placed in the room.

The Fergus Falls militia company has disbanded and the uniforms are being sold off to bands, fire departments, the Salvation Army, or any one who wants them cheap.

A man out in the pine country went into three places in Tenstrike and couldn't get a drink of water. Somebody ought to have shown him the way to Gull Lake or piloted him into a swamp.

A neighbor's chimney tumbled onto the roof of Bro. Hannaford's sanctum sanctorum at Virginia the other day, and scared him 'most to death. He imagined the "tin horn" element was making its promised raid.

A peculiar accident befell Howard Anway, of Walker. He was struck by lightning, and was unconscious for three hours. He came to his senses only to find himself deprived of speech. The affliction is thought to be only temporary.

A fire started to cremate the winter's accumulation of dead horses out at Blackduck, spread to some of the timber adjoining the dump and a column of natives, with a "scare head," had to make a hustle to keep it from adding to the visible supply of dead and down pine.

A hypnotist is loose down at Fergus Falls and is heading this way. Anent his work, the Fergus Falls Journal allows as how the spectacle of putting a man to sleep hypnotically and displaying him in a show window is not altogether pleasing; in fact it is rather disgusting and it goes to the length of saying that it should be stopped by the authorities

NOTES FROM EXCHANGES

The News. (Thief River Falls)—Owing to the increase in the amount of business transacted by the Thief River Falls postoffice, Ira C. Richardson has had his salary increased from $1,200 to $1,300.

St. Hilaire Spectator: Representative Rapp is up and around walking the streets daily and at the present rate of gaining in health, in two months time he will be as healthy and robust as he was ten years ago.

—Morning Call, Fargo: A South Dakota man has struck a great combination in his well. It flows enough water for all uses on the farm, and enough to light and heat the house, with a surplus sufficient to run a populist campaign orator.

The News. (Thief River Falls): The prospects for a good crop in this section have improved a great deal in the past few weeks, the dry weather having made it possible for the farmers to sow their grain, and it is coming up in excellent shape. More oats, barley and flax will be raised in this section than ever before.

Fertile Journal: N. S. Hegnes, cashier of the First National Bank, returned to Fertile Tuesday morning, and J. F. Thompson, president of the First National Bank, arrived in the village Wednesday morning. They inform the Journal that the appearance of the Citizens' Bank upon the scene will not interfere with their plans in the least, and that the First National will be ready for business in a few days.

—Roseau County Times: Fremont Bondurant, of this county, has been appointed by the grain and warehouse commission a deputy state grain weigher. Mr. Bondurant has been a resident of the county since 1894, coming here from Alexandria, where his parents reside. He was a candidate for county treasurer on the republican ticket in 1898, and has always been a consistent republican. The appointment is one that will meet the approval of the faithful, although the anti-Berg men had a man picked out for the position. The appointment of Mr. Bondurant is due to efforts of Hon. Albert Berg and his friends as opposed to the faction who fought him in the late campaign. It demonstrates that Albert has a pull, "already yet, so soon."

Minneapolis Journal: The Norman Herald (dem.) declares for J. C. Norby for congress in the Ninth district. The Herald also hints that Senator Myran's declaration for Grindeland as against his neighbor, W. W. Calkins, shows that the republican leaders of Norman county do not love each other as they should.

The fact is, Calkins is not likely to be a candidate. Norman and Marshall counties work together pretty well, and by way of returning past favors, Norman county politicians will support Grindeland. The latter will also have considerable strength in Polk county, especially if no candidate appears from that section.

The nationality question will not cut much figure in the contest between Grindeland and Comstock. There are a few townships in the north, settled by native born Scandinavians, where Grindeland's name would be an advantage, but for the most part the Red River valley has shown itself free from such clannishness. Scandinavians have not run any better against Eddy than Americans. The contest will be a matter of location and personal following.

CASS LAKE SENTIMENT.

The Cass Lake Times indulges in a bit of moralizing over the comparative morality of Bemidji and Cass Lake, as follows:

"The Bemidji Pioneer seems to think, and take comfort in the thought, that Cass Lake, in a moral and social point of view, is much the worse of the two. It may be true, and if so we rejoice with the Pioneer in Bemidji's improvement. Have patience Bro. Greeley, these conditions will not always last; by the time you have spent as many winters on the frontier as we have, you will have learned to take things as they come. You can't make a whistle out of a pig's tail, and 'tis useless to try to govern a new town by the methods governing the old ones; towns, like boys, must have time to scatter their wild oats—if they sow them early in the history of their existence, the crop will ripen and be ready for the sickle before the frosts of winter of discontent cuts them down. As a general rule, towns are no better than the people who inhabit them desire them to be. If it is the desire of a majority of the inhabitants of a new town that a wide open policy, gambling and variety theatres contribute to the general welfare (and that attribute is usually measured by a monetary yard stick.) the authorities will find some means to evade the letter, if not the spirit of the law, and a wide and open policy is the result, Cass Lake is now measuring the disposition of its people; we are in that nascent state where experiment and cut and try is the rule. Give us a little time and we will come out of the mire and wash up and be good."

VICIOUS OSTRICH

ATTACKS KEEPER WHO ENTERS HIS CAGE.

Cincinnati, May 25.—There was an exciting time at the "Zoo" Tuesday when Henry Thompson, a keeper, attempted to clean out the winter quarters of the big male ostrich prepatory to moving him to his summer pen.

Thompson entered the cage, carefully closing the door behind him. With a hiss like a steam exhaust the ostrich rushed at the keeper kicking him viciously. Thompson backed into a corner and fought the bird with a shovel. The bird's legs have sufficient strength to kill a horse, and many times they came very near the keeper in vicious thrusts. Thompson thrust the shovel blade against the bird's long neck and kept it at a distance, all the while lustily calling for help. A tarpaulin was thrown over the immense fowl finally and Thompson was dragged out of the cage completely exhausted.

HAZING MUST CEASE

OR WEST POINT ACADEMY WILL BE CLOSED FOR AWHILE.

Indianapolis, May 25.—Congressman Chas. B. Landis, of the Ninth Indiana district, today said that if the hazing evil at West Point could not be suppressed, the military academy would be closed for three or four years. Landis is a member of the West Point board of visitors.

"I heartily endorse the action of the board of officers of West Point in dismissing five cadets for indulging in hazing," said Landis. "This practice of hazing must be eradicated even if we have to go to the extremity of closing the academy's doors. Congress is in humor to do just such a thing as that and unless the young men learn to behave themselves the academy will be closed long enough to stamp out his hazing evil."

BOTTLE FOUND AT SEA

CONTAINED MESSAGE FROM A SINKING STEAMER.

London, May 25.—A bottle which was picked up at Granton Thursday contained a massage saying that the steamer Croft, with all hands, was sinking in mid-Atlantic. The British steamer Croft, of the Arrow line laden with grain and general merchandise, sailed from New York January 25, 1899, for Leith and Dundee, with a crew of 25 men, and was never again heard of. She has long since been posted as missing at Lloyds.

HOG CHOLERA CURE.

An Illinois farmer who raises about two hundred hogs a year, says he has lost none in ten or twelve years from cholera, while they have died all around him. He thinks the disease is started by too many worms in the intestines, particularly the small ones. He fills a barrel with water and with shelled or car corn, then adds half a box of lye and allows it to soak over night. Enough lye is used to turn the corn yellow. The hogs are fed all they will eat of it for two or three days. He starts feeding them this as soon as any of the hogs begin to cough.—Orange Judd Farmer.

—A Nebraska paper says that a musical cigarette box is the latest thing out. Every time you open the box and take a cigarette out it plays "Nearer My God to Thee."

WANTED—Agents for a wholesale house in Chicago. Send $5 guarantee for a costly outfit. G. T. Gagen, Mgr. Western Depot, Crookston, Minn.

KINDRED SCORCHED

Fire Destroyed Twenty Two Buildings in North Dakota Town.

LOSS AGGREGATES $100,000

Less Than One Third that Amount of Insurance Carried.

Kindred, N. D., May 29.—Kindred was visited by a destructive conflagration at an early hour yesterday morning. Fire was discovered in the butcher shop and from there the flames spread rapidly and consumed nearly all the buildings in three business blocks.

Those burned out were: Johnson livery; Olaf Trom, blacksmith; M. Rubel, meats; C. J. Rustad, maculuery; Geo. Weatherhead, printing; A Hanson, hotel. From the hotel the flames leaped across the street to the west, burning the Kindred state bank, Ole Trom, store; T. H. Narveson, barber shop; Peter Anderson, carpenter shop; Geo. Halland, office.

The fire then crossed the street to the north, burning R. Evingson's general store and postoffice, C. J. Myhre's hardware store and machinery house. Ben Anderson's jewelry store, L. T. Bergh's confectionery store and house hold goods, the Johnson sisters' millinery store and F. L. Richards' house hold goods.

Twenty two buildings were burned and the loss on structures and contents will easily aggregate $100,000, with less than one third insurance.

There was no fire protection and no water supply and it was only by heroic efforts that the remaining portion of the town was saved. The women were out in full force and lent material assistance in saving goods and buildings

The citizens worked hard to protect the property and their efforts at saving some of the merchandise was fairly successful. A great deal of matter was carried out, though some of it was badly damaged.

Evingson, Myhra and Rustad are heaviest losers.

The fire falls doubly on Editor Weatherhead, of the Kindred Tribune who was burned out at Hunter a few months ago. He removed here and had just gotten nicely started in business. His paper will be issued this week just as if nothing had happened.

All the burned district will be rebuilt with brick.

DUNN KNEW HIM.

The quick Irish wit of State Auditor "Bob" Dunn took a shot at a prominent lumberman at the state land sales that aroused a sudden laugh. In going over that land that was being sold the state auditor struck a piece that had quite a bit of pine on it. He was not selling pine, however, so he passed over that section.

There was demand that he put it on the market, however, as several lumbermen were there especially to bid on it. Mr. Dunn stuck to his refusal.

"Oh, come on!" said the prominent lumberman above mentioned. "Just try a forty of it, and if you don't like the way it goes you can pull it back."

"Oh, go on!" said the state auditor. "If I sold you a forty you'd cut the whole section."

The crowd laughed at this sally. When the laughter was over the state auditor continued:

"Oh, I'm on to you fellows! I've known people to log for several winters on the same forty."

REV. HUTTON DECLINED.

The Brainerd Dispatch says: "Some days ago Rev. M. L. Hutton of Warren, Minn., was extended a call by the First Congregational church of this city to become its pastor. Rev. Hutton had conducted services here two Sundays and pleased all, and it was known that he desired the position. However, on Wednesday, Mr. S. L. Bean received a letter from the gentleman saying he was compelled to decline for private reasons, unknown at the time the call was extended. This action will be deeply regretted by many members of the congregation, who believed he would have made a most acceptable pastor."

JADAM FOR CONGRESS.

Jadam Bede has already shied his congressional caster into the arena, this time in the new Eighth district. There's no downing a good man always, and the Times predicts that it will read Congressman Bede on and after Jan. 1, 1903.—Preston Times.

And when Mr. Bede gets into congress Minnesota will get more prominence in newspaper reports than ever before. No one is better able to create material for a story every day than he, and the correspondents will do the rest.—Grant County Review.

A teacher at Le Sueur, Minn., asked a class to write an essay on "The Result of Laziness," and one of the bright but lazy boys in the class handed in his composition on a blank sheet of paper.

A Dairying Proposition

does not go badly with that of raising No. 1 Hard Wheat. Both are satisfactory in the Great Agricultural districts of Manitoba, Assiniboia, Alberta and Saskatchewan. Most favored districts in Western Canada.

Mixed Farming is an assured success.

Every condition is favorable. Schools, Churches, Railways, Climate meet every requirement.

By letters from settlers we find after a few years' residence, one man who came to Western Canada with $75, is now worth $10,000, another who brought $1,000 is now worth $50,000, another who came with barely enough money to buy a team, is now worth $20,000, and so on.

These lands are the most valuable on the continent. Railroad and other lands at low figures adjoin Free Homestead Lands. For fuller information, maps, pamphlets, etc., address F. Pedley, Superintendent of Immigration, Ottawa, Canada, or to

B. DAVIES,

MADE FATHER WHIP CHILD.

Findlay, Ohio, May 25.—The national society for the prevention of cruelty to children has instructed its attorney here to bring proceedings against Mayor Watson of this city. Watson caused the father of 7 year old Amos Watson, to whip the child in police court, the child having confessed to stealing from a store.

FOSSTON SCHOOL CLOSING.

The conclusion of the spring term and with it the end of the school year will be observed at the Fosston public school with fitting exercises on Friday evening next, May 31, for which occasion an interesting program has been arranged. Although the program has not yet been fully arranged for publication, it is safe to predict that it will be both instructive and entertaining. A class of 18 scholars will take part, each having a particular place upon the program, and Rev. H. P. Fisher, of Crookston, who has a noted reputation as a lecturer, has consented to be present and address the gathering.—Thirteen Towns.

ELECTRIC FARMING.

The uses of electricity are daily enlarging. It seems some Russian scientists have been making interesting experiments in the effect of electricity in horticulture, or, as they term it, "electroculture." It has been proved that electrified seed germinates more rapidly than others, and also by burying in the one zinc plate and one copper plate, placed vertically and connected by a wire, that potatoes and other roots grown in the electrified space thus secured produce about three times the crop that others do in similar soil close by, but without the electricity. It is also applied to the ripening process and found to be successful.—Duluth Herald.

PROTECT YOUR FURS

By using CEDAR ANTI-MOTH BAGS. Size 24x36 inches. GUARANTEED VERMIN PROOF. Neither Miller, Moth nor Mouse will go near them.

Bags are strongly impregnated with Odor of Cedar (odor lasts as long as bag.) Send post paid on receipt of $1. Agents wanted. Manufactured by Frink & Reynolds, 32 E. Fairfield av., St. Paul, Minn.

MORTGAGE FORECLOSURE SALE.

Default having been made in the payment of the sum of four hundred and five dollars, which is claimed to be due and is due at the date of this notice upon a certain mortgage, duly executed and delivered by Samuel J. Cunningham and Louis E. Cunningham, his wife, mortgagors, to The Security Trust Company, mortgagee, bearing date the 9th day of December, 1891, and with a power of sale therein contained duly recorded in the office of the register of deeds in and for the county of Polk and state of Minnesota, on the 17th day of December, 1891, at 2:35 o'clock p. m., in book 50 of mortgages, on page 152.

Which said mortgage, together with the debt secured thereby, was duly assigned by said Security Trust Company, mortgagee, to Julia W. Powers by written assignment dated the 9th day of December, 1891, and recorded in the office of said register of deeds, on the 4th day of February, 1892, at 9:40 o'clock a. m., in book 56 of mortgages, on page 573.

Which said mortgage, together with said debt secured thereby, was duly assigned by said Julia W. Powers, the assignee and holder thereof, to William C. Haney, by written assignment dated the first day of May, 1901, and recorded on the 23rd day of May, 1901, at 11 o'clock a. m., in book 99 of mortgages, on page 609-610, in the office of said register of deeds, and no action or proceeding having been instituted, at law or otherwise, to recover the debt secured by said mortgage, or any part thereof.

Now, therefore, notice is hereby given, that by virtue of the power of sale contained in said mortgage, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, viz:

Lot four in section thirty-three, in township one hundred and fifty, of range forty-six, containing 44 acres, more or less (Lot 4, Sec. 33, in Twp. 150, of R. 46.) in Polk county and state of Minnesota, with the hereditaments and appurtenances; which sale will be made by the sheriff of said Polk county, at the front door of the court house, in the city of Crookston, in said county and state, on the 18th day of July, 1901, at ten o'clock a. m., of that day, at public vendue, to the highest bidder for cash, to pay said debt of four hundred and five dollars, and interest, and the taxes, if any, on said premises, and twenty-five dollars, attorney's fees, as stipulated in and by said mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Dated May 29th, A. D. 1901.

—William C. Haney,
Assignee of Mortgagee.

—Samuel Morrison and
—R. J. Montague,
Attorneys for Assignee. 5-13

CITY AND VICINITY

—Ed Gallagher wears a broad smile today. A baby boy came to brighten his home Sunday morning.

—M. R. Brown has gone out on the Dakota line of the Great Northern to look after the stock shipments.

—E. B. Ballou and family came down from Euclid and spent Sunday in the city attending the memorial services, and returned home in the evening.

—John Kirsch is spending a few days at Turtle River, out beyond Bemidji, holding a fish pole with one hand and getting out the Turtle River Pine Tree with the other.

—Henry Ewert, for more than two years proprietor of the Park hotel at Ada, has sold out his business in the Norman county capital and contemplates moving to St. Hilaire, where he will again embark in business.

—Ben Strawbridge's friends here are pleased to note the fact that he has been made a member of the Cass Lake school board, and is othrwise taking an interest in the rising generation—witch is hopeful—in a bachelor like Ben.

—Harry Stair and his partner. Mr. Steberg. decided to do a turn at fishing Monday, and as a result each caught a catfish that weighed umptysteen pounds, and measured oofty inches, as shown by the measurements taken by Engineer Lawson.

H. R. Nolan of this city was down in the town of Liberty, in this county, a few days ago and while there met a young farmer who had just caught 13 young wolves. The beasts were all alive, and the boy may conclude to start a wolf farm.

—The City band at Grand Forks has disbanded after a hard winter's practice. Prof. Hall has taken its best players, and with the remnants of the old K. P band is developing a band that will again rank with the organization they had years ago.

—A new two story hotel is being erected at Lengby, Minn., and Mr. J. Owen, of McIntosh, will be the new proprietor. The building is about 70 feet long and 28 feet wide, and when completed will make an excelent hotel for the little town of Lengby.

—Ed Lanctot, Sr., is down at Ada visiting with his son Fred, who is in the jewelry business there. This is Mr. Lanctot's quiet time on the farm and he embraces the opportunty to visit the boys, who are successfully conducting business in various lines.

—A. Marks, a Grand Forks dye man was looking through the pockets of a suit of clothes he received from Dan Sullivan, and found a handsome diamond brooch and two fine diamond studs. Mr. Sullivan had forgotten where he had left the diamonds and had it not been for the honesty of Mr. Marks, would never have seen them

—Editor Phil Kaufer, of the Red Lake Falls Gazette, reached Crookston Tuesday via the N. P. line and made a close connection with the stage leaving for home. He has been looking over creamery conditions in southern Minnesota with a view to their possible application at the lower falls, and has put in some time looking after private matters.

—Elias Steenerson has just purchased 33 acres of land adjoining his farm in the town of Climax, for the snug sum of $1,000, or $33.33 per acre. While this may appear a high price for land in this part of northern Minnesota, Mr. Steenerson considers tha deal a good bargain, and as he is an experienced real estate man, it would seem that dirt was rapidly rising in value.

—Miss Doel, who has been to Dulath for medical treatment. returned yesfor medical treatment returned Monday. While at work in Miss Bassett's millinery parlors Miss Doell had been in the habit of biting off sprigs of the flowers with which she was trimming, and as a result had poisoned her lips and throat. She is fast recovering her usual health.

—A Chabot, of the New York store, is wearing a smile which would create envy among monarchs of European countries. It is not because of the immense sales that are daily made at his mammoth estsblishment, nor because of the fine crop weather which at present prevails. An heir, handsome as papa, arrived at the Chabot home this noon, and that is what gladdens his heart and causes the smile.

—Banner (Argyle)—Our own genial David Coutts, the wheat buyer for the St. Anthony & Dakota Elevator Co., struck "pay dirt" the other day by receiving an appointment in the grain inspection department at Duluth. He will leave for his new field of labor the first part of June, and while his many friends are rejoicing over his good luck in receiving the appointment, they are at the same time regretting that David will no longer make Argyle his home.

—Times (Cass Lake)—The whole country about Cass and contiguous lakes is now one mammoth flower bed. Wherever there is a spot clear enough for the blueberry bush, or the strawberry vine to get root, there will be found the dainty hued bugle flower of the former and the bell flower of the latter, in places covering the ground with a mat of nature's loveliness. Unless a killing frost or prolonged drouth occurs, the crop of all kinds of wild fruit this season will be the largest in many years. By the first of June we may pick strawberries and as soon as the 15th of June wa may fill our pails with the succulent blueberry.

—Fisher Bulletin: Marshal Wabster was proudly telling Tuesday of how his good wife presented him with a beautiful daughter, which finished out three pairs, equally divided. Mother and daughter are doing nicely.

—Little Falls Transcript: Not much has been heard of Towne since he went to the Beaumont oil fields in Texas. There are gushers thera that spout up 70,000 an hour, so Charley is slightly outclassed.

—Fisher Bulletin: The Crookston kids came here last Saturday (18th) and beat our juniors in a game of base ball to the tune of 15 to 10. At times the game was exciting, and some good plays were made, but the visitors were too much for the home boys.

—Fred Flanders has exhausted tha local supply of land hunters at Warren and came down Monday to secure a score or so of new men to whom he could sell quarter sections of Marshall county soil, such as Flanders & Wood handle. He got what he waa after, as he always does, and went on down to the Twin Cities for further trophies.

—Fred Levine, 7 years old, and Thomas Tupper, 10 years old, were found guilty in Judge Gearey's court at Moorhead last Saturday of stealing a pocketbook belonging to the family of Charles Lyons of the Minneapolis house. The punishment and disposition of the boys is now a question for Judge Pollock to decide. The youngsters have been before the court before.

—Tax paying seems to be a favorite occupation these days, and among those who were in the city Tuesday attending to duty in that line, one of the best of 'em is Wm. Flemming of Mallory, whose broad acres are among those best handled to a profit of all that lie in that garden spot of the valley. While here Mr. Flemming purchased some additions to his fine stock.

—Halstad Reporter: When Charley Ward wrote that hog editorial last week he accomplished something of which literary Ada may well and justly feel proud. It takes both education and literary genius to write anything so lofty; so full of terse and irrefutable argument; so resplendent with beautiful metaphor. Beautiful thoughts beautifully spoken. Charley you're a poet and don't know it.

—J. B. Roome has decided that this is the proper time of year for him to take his annual outing, and accordingly he turned eastward Tuesday. Every spring Mr. Roome goes out into the Blackduck region and spends a month enjoying life far from the haunts of men, where he can fish and hunt to his heart's content. The experiences gained brighten the remainder of the year, and give him something to tell his friends about after the fishing season is fairly on here.

—A meeting of the Presbyterial society of the Red River Valley Presbytery, is being held at Euclid this week and is attended by a large number from various points. Among those from Crookston are Mesdames Collins, Davies, Wilde, and Miss Huggard. Mrs. Irysh, of Fergus Falls, and Rev. and Mrs. Holzinger, of Fisher, are also among those who joined the party that left Crookston Tuesday. The deliberations of the day were given up to the subject of home missions.

—D. H. Fisk, who is reckoned as the best looking attorney at the bar in Beltrami county, not forgetting the fact that Frank Street and P. J. Russell are there too—came down last Monday to get a court order in some litigation for a client, and did the business in time to reach home again Tuesday. Mr. Fisk has built a pretty home on the shore of Lake Bemidji, and will be joined by his wife and daughter, who will reside there in future.

—Red River Review: Seven hundred soldiers of Fort Sheridan managed to spend $3,000 in the saloons in the neighboring towns the day following last pay day, and this has been taken as a text for many wails against the anti-canteen law. The fact that a majority of the soldiers stationed at the fort was given leave of absence just on that day would naturally lead anyone familiar with army life to guess that this wae exactly what the officers intended to have occur.

—The attention of tha general public is called to the advertisement of the firm of Colbertson & Allen, that appears in today's issue of the Journal. The members of the new hardware institution have come to Crookston and launched their bark on the channel of trade, and wishing tha people to know this, have wisely decided to advertise through the best circulating medium in the valley. The Journal assures anyone who has occasion to buy in the line of hardware, that the firm of Colbertson & Allen are thoroughly reliable and their goods are right. both as to price and quality.

—President Morris, of the Firemen's association, makes a request that can be easily complied with by the people, that will add largely to tha effect of the parade to be given the second night of the firemen's convention, and in which all who can comply should feel it a duty to do so. It is that owners of private carriages shall appear in the parade, decorated with flowers, bunting, flags, or in any other manner that the owners may decide. This would add considerably to the beauty and effect of the event, and the suggestion should be adopted and worked out by at least fifty owners of private rigs.

Estrayed, sorrel broncho, about 6 years old, with small rupture on left side. Finder report to Brown Bros., Fisher, Minn.

—Angus McDonald, tha slayer of "Bulldog" Regan, had a preliminary hearing before Justice Oliver at Walker and was held on tha charge of manslaughter.

—Rev.Dr. Dodds, of this city, presiding elder of the Crookston district of tha Methodist church, has been engaged to deliver tha Memorial day address at Cass Lake.

—Major Edwards, of Fargo, in a line of fine drawn sarcasm: The travelling men behaved themselves nicely while in Fargo. Many of them had their wives along.'

—Perley, down the Halstad line, is feeling good. The Modern Woodmen are to build a new hall, and they're to have one of Prof. Hoverstad's famous institutes early in June.

The Great Northern will this year run a special train to Fargo on the occasion of the annual fire festival on June 7th, leaving here over the Halstad line at 7:15 in the morning, and returning will leave Fargo after tha fireworks and parade. Fare and one-third for the round trip.

Geo. E. Sutton, well known to the Maple Lake colony, and recently manager of a boat line at Bemidji, spent the night here. Mr. Sutton has operated extensively in the baking business, is turning out 1,500 loaves of bread per day, and has been establishing agencies for its sale along the lina east from Crookston.

Years ago Fred Lanctot, who has a host of friends in Crookston, went against a hard times business proposition at Ada, and came out second best. He now seeks through the courts to clear the old deal off the hooks as he is doing business again, and making a success of it. The case is before the U. S court at Fergus, and Fred's well wishers here will be glad to see him again enter a course where it is clear sailing, with no breakers ahead.

—Don't suffer from Dyspepsia and Stomach trouble; when you're tired of "cure all" remedies try Mull's Pioneer Stomach and Dyspepsia Cure. A dollar draft in each $1.00 box guarantees a cure.

LET'S ALL GO TO FERTILE.

The field day that will be observed at Fertile by the Red River Valley Athletic association June 8, is being prepared for by Crookston track sharps, and they propose to get their share of the prizes. An excursion will be run, and the fare will be 68 cents for the round trip, in case the number of tickets sold aggregate 150. Tha events cover the entire field of athletics, and will all be very interesting As many as can possibly go should do so, and encourage the representatives of Crookston schools. The Journal will publish a full program on Friday.

McKENZIE IS FREE

Was Pardoned by President McKinly on Recommendation of Atty. Gen. Knox.

COMPLIANCE WITH ORDER

Of Court Purged Him of Contempt, and His Pardon Followed.

Washington, May 27.—President McKinley has pardoned Alex McKenzie, now confined in jail at Oakland, Cal., for contempt of the circuit court of appeals for the Ninth circuit. Attorney General Knox Friday made a report by wire to President McKinley that the court favored clemency as soon as Mr. McKenzie had been purged from contempt. That night a telegram from Judge Morrow stated that Mr. McKenzie had fully complied with the order of the circuit court of appeals by turning over to the defendants the remaining property which came into his hands as receiver in the cases in which he stands committed for contempt. Thereupon Attorney General Knox sent an additional telegram to President McKinley advising the quick and unconditional pardon of Mr. McKenzie. Upon receipt of the president's telegram notifying him the pardon had been granted, the attorney general wired instructions to the jailer at Oakland to immediately release the prisoner.

McKenzie, who had been appointed receiver of a number of gold mines in Alaska, by Judge Noyes of the district court of Alaska, refused to turn over certain gold dust, the products of the mines, when ordered to do so by the circuit court of appeals at San Francisco. He previously, by order of the court, had returned to the defendants all of the property which had come into his possession, except this gold dust. For his failure to turn this latter over he was imprisoned for contempt of court. McKenzie claimed that he was following the advice of his counsel. The amount involved was over $100,000.

ON THE WAY HOME.

MRS. McKINLEY IS GRATIFYINGLY CONVALESCENT.

San Francisco, May 27.—President McKinley, accompanied by his wife and members of his cabinet, started for Washington at 10 a. m. yesterday.

Special precautions had been taken to prevent any annoyance while the president and his wife were being driven to the ferry. Their carriage was closed and curtains lowered. A route had been chosen to secure perfect comfort for Mrs. McKinley. The party were taken to Oakland on a special boat. Dr. Rixey accompanied the president and his wife in the carriage from the house at Clay and Laguna streets to the special train at Oakland Mole, and was at the side of Mrs. McKinley constantly. The two trained nurses who have attended the patient in this city, will also go to Washington with her.

After leaving Sacramento, a slow run will be made all the way over the division, and, should no mishap occur, the train should arrive in Ogden Sunday afternoon about 3 o'clock.

The train will then be turned over to the Union Pacific officials, and the run to Omaha will be on faster time. From Omaha to Chicago the presidential party will run over the Chicago & Northwestern. The Pennsylvania railroad is selected as the route to Washington from Chicago.

TESTED A CARTRIDGE.

WITH EMPHATIC AND FATAL RESULTS.

Alvin, the 7 year old son of E. Arneson, of East Grand Forks, was the victim of a severe accident Saturday afternoon, but fortunately the result did not prove as serious as was at first expected. This little fellow found a pistol cartridge lying around somewhere and proceeded to see how much pounding it would stand. About the third time he struck it with a hammer the thing exploded, and either the bullet or part of the shell struck the little fellow in the forehead and inflicted a bad cut from which the blood flowed freely, but which did not prove otherwise at all serious. The accident should be a warning to other youngsters to let loaded cartridges and shells alone, and to older folks that such things should not be left lying around where little ones could get hold of them.

WISCONSIN BANK ROBBED.

THIEVES USED NITROGLYCERINE AND GOT $30,000.

Mineral Point, Wis., May 27.—The First National bank of this city was robbed Saturday, the robbers getting away with $30,000 or more, mostly currency. The loss is fully covered by insurance.

Entrance was effected through the shingled roof of the building, which is a one story structure, thence from the attic to the vault by digging away the arched brick. From the inside the vault door was forced open and a so called burglar proof safe was blown open with nitroglycerine.

Everything indicates that everything had been carefully planned in advance. Officers are scouring the immediate country and the wires are kept busy, but as yet there is no clue. Business will be interrupted but temporarily.

A reward of $1,000 is offered for the arrest of the guilty men. It is thought that the robbery was committed by two suspicious characters who were seen across the street from the bank a month ago, at which time it is supposed they planned the affair. As there are no night trains out of Mineral Point, it is thought that the robbers came from a nearby town and later drove back and caught a train which took them to one of the small towns on the Mississippi, where they are now hiding.

The large amount of cash was to be used in paying off the miners and laborers. The robbers probably timed their visit to a day when they knew the funds would be large.

PRESIDENT WARNED

ASSASSINATION WILL BE ATTEMPTED IN JUNE.

New York, May 25.—Gustav Meyer, the youngest astronomer and astrologer in America, who lives in Hoboken, wired President McKinley in San Francisco as follows: "Your wife will live, but guard yourself against assassins during June."

Meyer foretold the election of Mr. McKinley in the stars when Mr. Bryan's electric light and fireworks made Madison Square Garden a blaze of glory, and received a cordial letter from the president's private secretary thanking him. Said the youthful astrologer:

"Mind you, I don't say outright that the president will be assassinated in June. The stars don't tell that he will actually be killed, but they go a mighty long way toward showing that an attempt will be made upon Mr. McKinley's life, and it is nothing but prudence to notify him of this, which I have done by wire."

Meyer predicts that Mrs. McKinley will live at least until next February, March or April, but that she will have another severe attack of illness.

DOWIE RESPONSIBLE

FOR DEATH OF MRS. JUDD IN CHICAGO.

Chicago, May 25.—John Alexander Dowie, "overseer of the Christian Catholic church," was arrested here pursuant to the action of the coroner's jury, which has declared him "criminally responsible" for the death of Mrs. Emma Lucy Judd. H. Worthington Judd, a disciple of Dowie and husband of the alleged victim, was also arrested, having appeared at the criminal court building in company with Dowie. Both men were taken before Judge Tuley, who admitted them to bail. Henrika Bratsch and Mary B. Spiecher, "maternity" nurses, who are said to have attended Mrs. Judd, were arrested last night and later released on bonds.

Mrs. Judd died last week at Dowie's Zion, after 16 hours of suffering. Her infant also died and on expert medical testimony before the coroner that the ordinary treatment given by medical practitioners would have saved her life easily, Judd, the two nurses and Dowie are now held to await the action of the grand jury.

For Dowie and Judd bonds were fixed at $10,000 each, while the women were released on sureties of $500 each.

VETERANS' REUNION

FIRST MINNESOTA AT WATERVILLE JUNE 18.

The gallant veterans of the old First Minnesota Volunteer Infantry association and their families are anticipating a gallant time at the 34th annual reunion at Waterville, June 21.

The program has been compiled by Secretary R. A. Plumer, of Minneapolis. The occasion will be of special significance, as it is the 40th anniversary of t heday the gallant First left the state to go to the front. The Cannon River valley district encampment of the G. A. R. will also meet at Waterville June 18, 19, 20 and 21.

THE GLORIOUS FOURTH

COMMITTEES ANNOUNCED FOR ITS OBSERVANCE.

Fireworks: J. R. Rasmussen, G. A. Dunlevy.

Printing: Wm. Anglim, L. Ellington, Chas. Westerberg.

Decoration: C. C. Bowen, Ed Peterson ,H. L. Falk.

EVEN SOLOMON.

The band boys turned out in their brand new bright red uniforms last Monday evening, says the Thief River Falls Press, and Solomon, in all his glory, was a back number. The boys are doing good work this summer and deserve the praise and support of the citizens.

—Fine photographs in all styles from $1 to $20 per dozen at Skrivseth's art studio, near Commercial hotel, Broadway.

SPORTING MISCELLANY.

Items of Incidental Interest to Lovers of Sport.

There is no place in Minnesota where the fishing is better than in the lakes of Beltrami county. Bass and pike are abundant and the sportsman who goes to any of the deep water lakes of that region will return with fish stories for his friends that are founded upon fact. A number of Crookston people are planning trips out east for the coming weeks.

—o—

There is plenty of evidence that base ball is not of recent origin. The devil was the first coacher, says a retired base ball editor. He coached Eve when she stole first. Adam stole second. When Isaac met Rebecca at the well she was walking with a pitcher. Sampson struck out a good many times when he beat the Philistines. Moses made his first run when he slew the Egyptians. Cain made a base hit when he slew Abel. Abraham made a sacrifice. The prodigal made a home run. David was a long distance thrower and Moses shut out the Egyptians at the Red sea.

—o—

Fish Warden Fullerton made a discovery while at Cass Lake which will be of exceptional interest to anglers looking for gamy fish. He found that the blue fin whitefish, not supposed to be natives of the waters and scarcely looked for out of the great lakes, is to be found at Cass Lake this year. The fish is almost identical with the Lake Superior whitefish, having the distinguished bump on its nose. The warden and his party caught four pike at Cass Lake whose aggregate weight was 36 pounds. One weighed 11 pounds one 7 and the other two between 7 and 11 pounds.

-o-

Fargo Call: The general public should not be too free in criticizing the local ball teams. They will put up as good a quality of ball as the patronage of the games will warrant. You cannot expect hundred dollar ball for fifty dollar salaries. Gives the boys your patronage and support and they will give you good ball.

This is one of the suggestions that is as true of Crookston as it is of Fargo. The tendency on the part of spectators of games is to hold the players to the standard of those in the league. This is not right, and is discouraging to the players. We must expect that defeat will come at times, and give the Crookston players credit for all the good work they do as individual players.

DENOUNCES FADS

CHICAGO MAN SAYS FADS INDICATE DEGENERACY.

Chicago, May 25.—According to Prof. Frederick Starr, the noted anthropologist of the University of Chicago, a man who parts his hair in the middle, displays unmistakable evidence of a degenerate instinct in his nature. The professor made this declaration to his class at the university in a lecture, in which he warned the students against latter day fads, such as wearing shirt waists and tatooing their persons.

These customs he branded as indications of degenerncy of our modern civilization. His remarks caused quite a stir among the young men of his class, several of whom are prominent athletes of the university and comb their hair in the approved foot ball fashion.

"Parting the hair in the middle, the new shirt waist for men and tatooing the person are evidences of the alarming and growing degeneracy of our modern civilization," said the professor in the course of a lecture on tatooing. "No normal person will indulge in any of these habits. These things are not criminal in themselves, but if a person parts his hair in the middle, or tatoos his body, or wears one of these new shirt waists, it is pretty good evidence that there is a degenerate streak in his nature."

ORDER TO EXAMINE ACCOUNTS.

STATE OF MINNESOTA, COUNTY OF Polk—ss.

In Probate Court, Special Term, May 21st, 1901.

In the matter of the estate of Emilie A. Jennings, deceased.

On reading and filing the petition of I. U. Jennings, administrator of the estate of Emilie A. Jennings, deceased, representing, among other things, that he has fully administered said estate, and praying that a time and place be fixed for examining and allowing the account of his administration, and for the assignment of the residue of said estate to the parties entitled thereto by law.

It is ordered, that said account be examined, and petition be heard by this court on Friday, the 14th day of June, A. D. 1901, at 10 o'clock a. m., at the Probate office in Crookston, in said county.

And it is further ordered, that notice thereof be given to all persons interested, by publishing this order once in each week for three successive weeks prior to said day of hearing, in the Polk County Journal, a weekly newspaper, printed and published at Crookston, in said county.

Dated at Crookston, the 21st day of May, A. D. 1901.

By the Court,
—Ole E. Hagen,
Judge of Probate.

LAXAKOLA
THE GREAT TONIC LAXATIVE

If you have sour stomach, indigestion, biliousness, constipation, bad breath, dizziness, inactive liver, heartburn, kidney troubles, backache, loss of appetite, insomnia, lack of energy, bad blood, blotched or muddy skin, or any symptoms and disorders which tell the story of bad bowels and an impaired digestive system, Laxakola Will Cure You.

It will clean out the bowels, stimulate the liver and kidneys, strengthen the mucous membranes of the stomach, purify your blood and put you "on your feet" again. Your appetite will return, your bowels move regularly, your liver and kidneys cease to trouble you, your skin will clear and freshen and you will feel the old time energy and buoyancy.

Mothers seeking the proper medicine to give their little ones for constipation, diarrhea, colic and similar troubles, will find Laxakola an ideal medicine for children. It keeps their bowels regular without pain or griping, acts as a general tonic, assists nature, aids digestion, relieves restlessness, clears the coated tongue, reduces fever, causes refreshing, restful sleep and makes them well, happy and hearty. ☞ *Children like it and ask for it.*

For Sale by F. H. HILLARD & SON
CITY DRUG STORE.

Laxakola is not only the most efficient of family remedies, but the most economical, because it combines two medicines, viz: laxative and tonic, and at one price, 25c or 50c. At druggists. Send for free sample to THE LAXAKOLA CO., 132 Nassau Street, N. Y., and mention the name of your druggist. ☞ We will express to any address on receipt of 50c. in stamps or post note, all charges prepaid, a large Family size bottle of Laxakola, sufficient to last for a long time.

FATAL ACCIDENT

Member of Hunting Party Shot and Instantly Killed by Fellow Hunter.

CARELESS SHOT BY SOUND

Has Fatal Results. Fossum, Norman County, the scene of the Tragedy.

Last Sunday on the farm of Ed. Peterson, in the town of Fossum, near the line of the White Earth reservation, an accident occurred through the carelessness of a hunter named Mike Gorwick, which cost Theodore Belfye his life.

A buck and a doe fawn ran across the farm and attracted the attention of Theodore Belfye, Mike Gorvick and Frank Lique, who immediately secured their guns and started in pursuit:

The animals soon disappeared in the bushes, and the pursuing hunters followed them, separating a short distance to be sure and prevent the escape of the game. After proceeding a short distance with eyes and ears strained to discover the object of his pursuit, Gorwick heard a slight noise among the ushes, which was so remote from the last point at which he had seen his comrades, that it did not occur to him as possible that either of them was the cause of the moving bushes, but jumping to the conclusion that it must be one of the animals he was looking for, he drew up his gun and with unerring aim shot at the spot from which the sound came, and shot Belfye through the abdomen with immediately fatal results. No arrests have been made. All the men are resident farmers, and no suspicion of intended crime exists in the minds of those who are acquainted with the parties.

EX-GOVERNOR TANNER DEAD

FORMER GOVERNOR OF ILLINOIS DIES SUDDENLY

Springfield, Ill., May 24.—Former Governor John Riley Tanner died suddenly at 2:45 yesterday afternoon at the Leland hotel in this city from rheumatism of the heart.

Governor Tanner had been confined to his room since his return from Chicago, last Sunday. Rheumatism of the left side developed but the case was not considered in the least serious. He felt much worse yesterday afternoon and Dr. J. N. Dixon was called about 2:30. He found the governor dying.

Tanner had various offices besides that of governor, the principal ones being member of the Illinois house, United States marshal of the southern district of Illinois, state treasurer and assistant at the United States sub-treasury at Chicago. For many years he was a member of the Republican state central committee and chairman of that body. He was a candidate for United States senator against Senator Cullom.

ARE HUNTING MOOSE

INDIANS AT THIEF RIVER FALLS MONOPOLIZE GAME.

Thief River Falls, Minn., May 25—Cruisers returning from the Red lakes report wholesale slaughter by Indians of moose in the territory [illegible] reservation. Tamarac river is the principal scene of operations and canoes are coming down daily to the lake loaded with carcasses of moose and deer.

The game laws in regard to the killing of moose by whites are so strict and so rigidly enforced that the Indians have a monopoly of the shooting, and will, at the present rate of destruction, soon exterminate this species of game in the Red Lake country.

There is a general demand here that the game and fish commission take immediate steps to prevent illegal shooting by Indians or confess themselves unable to protect the big game

This vicinity will soon be all agog over an ultra sensational divorce case which is being worked up with the greatest secrecy and which will be presented at the next session of the district court.

The first ball game of the season will be played here Monday between the local ball tossers and the Crookston team.

STILL SPREADING.

SMALLPOX INCREASING IN ALL PARTS OF THE STATE.

Unless strenuous efforts are made by physicians and local health authorities throughout Minnesota, there is likely to be an increase of smallpox. The report of the state board of health shows that 1,161 new cases have been reported since April 22, 476 more new cases than were reported in the previous month and 472 more new case than were reported during the month ending March 25

The report shows that the range of the disease is more widespread. New cases are reported for 64 counties compared with 59 counties in the previous month. New cases are reported from 163 localities, compared with 105 localities in the preceding month.

Dr. Bracken, secretary of the state board of health, attributes the spread of the disease to two causes. Many physicians have refused to recognize the disease as smallpox and have taken no precautions to check its spread. Many physicians, and especially local health authorities, he says, have been negligent in their treatment of the disease, and have failed effectually to quarantine infected persons and districts.

Duluth, as usual, has the largest number of cases, and this month reports 103 new cases, as compared with 77 last month. Minneapolis, which reported 42 new cases last month, is second with 99 new cases. St. Paul reports 17 new cases for the month, as compared with 13 for the previous month.

During the 30 days ending May 24, Bemidji reported 16 new cases, Blackduck 14, Brainerd 16, Crookston 16 and East Grand Forks 10.

NEW BUSINESS BLOCK

CHRISTIANSON & STRANDER COMMENCE NEW BUILDING

Christianson & Strander commenced the work of excavation for a new business block this morning. It is to be situated on lot south of the Crookston hotel and will be 25 by 50 feet in size, two stories high and built of brick. The first story will be occupied by the proprietors as an abstract office, and the entire second floor will be occupied by the local telephone exchange. The plans for the building are now nearly completed, and bids for the construction will soon be considered and contracts let. It will be a tasty and substantial building and add much to the appearance of that part of the city.

MINNESOTA CLAIMS

AGAINST WAR DEPT. ARE BEING PRESSED AT WASHINGTON.

Washington, May 23.—Former Adjutant General Geo. C. Lambert is here pressing for immediate payment of the claims of the state of Minnesota against the war department.

The reason for early action in these claims is that the recent session of the legislature made a substantial appropriation for the National Guard for improving grounds at Lake City, which includes a system of water works.

This appropriation was conditioned on the allowance and payment by the government of the claims of the state incurred during the Spanish-American war, and is to be paid from the amounts allowed.

Gen. Lambert, being thoroughly posted in all details, has been sent to hasten consideration and action. He has succeeded in having one claim made "special," which means that it will be settled soon.

This is the date of this muster in as United States volunteers, which has been paid to the individual soldiers by the state, and is to be reimbursed by the war department.

It amounts to over $22,000. In addition there is a balance of $47,000 due the state for supplies and equipment furnished the volunteers.

WILL VISIT OUR CITY

LAND COMMISSIONER HERMAN WILL BE HERE IN JUNE

Washington, May 24.—Binger Herman, commissioner of the general land office, will make his annual trip West next month. The commissioner said that it was his purpose to visit the Duluth and Crookston land offices and also to spend a day or two in St. Paul.

It seems to be settled that Herman is to retain his position, since he has secured the personal backing of Senator Mitchell. Had it not been for Herman's candidacy for senator before the Oregon legislature, Mitchell would not have been elected. Herman made a shrewd move in deadlocking the legislature and making Mitchell's election possible. The latter, who has served eighteen years in the senate, is a strong man, and the administration will need him. Hence he is in a position to ask and obtain Hermann's appointment.

FOUND A SOAP MINE

DEPOSIT IN AN OLD STOCK PASTURE IN WYOMING.

Cheyenne, Wyo., May 23.—Wyoming will furnish all the soap needed for other purposes than toilet, and will furnish it from her soil. A deposit of whitish material in composite form containing just enough sulphates, potash and pumice to give the gritty essential has been discovered five miles west of New Castle, in the northwestern part of Wyoming. The deposit lies in a fissure and dips into the ground like a vein of mineral. The vein, so-called, is 15 to 18 feet wide and runs the length of a quarter section, which for twenty years was used as a stock pasture. Next week a building fitted with machinery that will cut the slabs of mineral soap into sizes for commercial use will cover a portion of the ground.

OLD SOLDIER'S EXPERIENCE.

M. M. Austin, a civil war veteran, of Winchester, Ind, writes: "My wife was sick a long time in spite of good doctor's treatment, but was wholly cured by Dr. King's New Life Pills, which worked wonders for her health." They always do. Try them. Only 25 cents at A. G. Anderson's drug store.

MORE KIDNAPPING.

This Time the Twelve Year Old Daughter of Edison the Wizard is Threatened.

LARGE MONEY IS DEMANDED

As Price of Her Exemption.—Menlo Park Now Being Carefully Guarded.

New York, May 27.—Little Madeline Edison, the pretty 12 year old daughter of Thomas A. Edison, the wizard of Menlo Park, is the latest proposed victim of kidnappers.

It is learned that Mr. Edison about two weeks ago received a letter in which a demand was made for a very large sum of money to be placed in a lonely spot in the Orange mountains. The result of a refusal to comply with the demand was to be that at the earliest opportunity Madeline, the youngest of the family and her father's especial pet, would be kidnapped and held for ransom in many times the sum first demanded.

That some serious peril threatened the Edison family is shown from the fact that for two weeks past Menlo Park has been carefully guarded. For two weeks now several detectives have been hard at work in the vicinity of Menlo Park. Two of them have made their headquarters at the Central Hotel in Orange and have taken turns in standing watch and ward over the residence of the wizard.

Partial confirmation of the truth or the story is given by the strange demeanor of Mrs. Edison when she was seen by a reporter. On being asked whether it was true that a demand had been made to kidnap one of the children, Mrs. Edison appeared to be greatly agitated and finally refused to either confirm or deny the story. Her manner left the impression that the story was only too well founded.

Mr. Edison himself affected to make light of the matter and exclaimed: "Oh, there's nothing in that at all," at the same time making no specific denial that he had received a threatening letter.

The grounds of the Edison mansion, which stands on a lofty knoll surrounded by dense shrubbery, fairly bristled with guards last night. A dozen men armed with rifles and accompanied by several dogs patroled the grounds under command of Chief Watchman Nimand. Two reporters who attempted to visit the house were halted at 150 yards from the front door. A shrill whistle which was repeated from sentry to sentry showed that a complete cordon guards encircled the house. The officers said they were on guard for kidnappers. They said Mr. Edison had received a letter threatening to steal his child unless a reward was paid.

HUNDRED THOUSAND

FOR HAMLINE UNIVERSITY—J. J. HILL GAVE $50,000.

Through the liberality of James J Hill, president of the Great Northern road, M. G. Morton, of Winona, and other friends of the institution, the Hamline university has secured a $100,000 endowment. The money was secured through the instrumentality of President G. H. Bridgeman.

Some time ago Mr. Hill made a pledge of $50,000 on condition that a certain amount be raised as a permanent endowment for the university. Later he promised to give one half of that amount for the purpose of securing $100,000, a part of the larger endowment. M. G. Morton, whose endowment was $30,000 gives his half of that sum towards the $100,000 now secured.

The other friends of the institution so encouraged have rallied to the university's support, and have subscribed nobly to the appeals of the president, so that the trustees are now enabled to add to the productive endowment of Hamline the noble sum of $100,000.

It is still proposed to complete the original effort, and toward the larger sum expected $40,000 has been pledged, $25,000 from Mr. Hill and $15,000 from Mr. Morton.

President Bridgeman said yesterday that every cent of the $100,000 was raised in Minnesota.

Three years ago the university had an indebtedness of $36,000, which was raised by Mr. Hill contributing $20,000.

A LARGE FARM DEAL.

An unusually extensive transfer of farm property (for this locality, where so few large single holding exist) has been settled within the past week, the Bank of Fosston bringing about the exchange, in which L. W. Larson, of this place, parts with the Rosebud stock farm for a consideration of $6,000. This well known farm, consisting of 320 acres, is one of the choicest tracts of land in this section of the country. The purchaser, Ole M. Johnson of Granite Falls, will continue to carry it on as a stock farm, and with this object will not only secure the cattle already on the place, but intend to bring a number of choice blooded specimens from Granite Falls. The farm in question is well adapted to either stock or grain raising.—Thirteen Towns.

Old hunters say The MARLIN has so many things to commend it. The top of the action is always closed, the mechanism the most simple, the finish elegant, the form attractive. It seems to throw its bullets a little more accurately and plant them with a little more force than any other rifle. For deer take a 38-55 or 30-30. 120-page catalog, 300 illustrations, colored cover by Remington, for 3 stamps.

Weekly Reports from the Journal's Corps of News Gatherers.

BIRKHOLZ

Elmer Stevens of Warren was a pleasant caller at this place Sunday.

Miss Mory Chappell, of Centerville, N. D., visited at the postoffice last Friday.

There will be a Woodmen ball at the hal at Snake, Minn., on June 1 big crowd is expected.

The Royal Neighbors surprised the Woodmen at the hall in Northlond Wednesday evening. Fine refreshments were served and everyone had a pleasant time.

Tom Dalen got a swift ball under the eye at the bal game Sunday afternoon. It did not knock him down but he wears a black eye in consequence. We are all sorry it happened.

ST. VINCENT

Mrs. H. D. Mc Kay of Pembina and Miss Mc Kay of Minneapolis passed through St. Vincent last week for a visit with friends at Argyle ond Warren.

Mrs. J. A. Noyes and little daughter were visiting at Warren last week.

Mrs. Wm. Buckley of Crookston is visiting her this week.

Our hustling land agent, Arthur Hutchins, sold another farm last week. He says that he has a number of fine pieces left that he can sell at any prices way down.

Our grain fields and gardens are beginning to shaw the need of rain.

Hanson & Thedorf are remodeling Arthur Hutchins' house.

Contractor Cameron is fast drawing the new Forester's hall to campletion. When done it wil be quite an addition to Front street.

KNUTE

Seeding is nearly done out here.

Axel Miller's machine won't work quite regularly.

Mr. Cslhom sold his farm to Knud Uggen, receiving $4,225 for it.

Burt Morna was up from Maplebay last Sunday and returned the same day.

Mr. Asmundson from Garden was up and visited at Mr. Jensen's last Monday.

Knud Markenson of Woodside sold both his farms for $4,500. He moved out last week.

Thomas Jorgenson and Arshel Jorgenson are going to grub for Tom Morna a while this summer.

G. Abrahamson's plans to go to Virginia and Lake of the Woods and take a pine claim have been changed.

G. Anderson moved out of the house on the Sampson form last week. He rented the extra house of Mr. Bradley.

Mr. Abrahamson bought K. Roling's farm for $1,800. Mr. Rollag is going to move out in the fal or next spring.

The old gentleman, Mr. Magnusson, who lives on the west side of Lake Sarah, is said to be nearly gone. He has a cow that stands there without food. The old man can not milk her or anything. He gets a kind of fits and lies senseless for many hours at a time.

DONALDSON

Peter Lund visited Crookston the other week.

Henry Stone was a visitor from Stephen here Sunday.

Miss May Solem went to Drayton, N. D., Monday.

Miss Mary Kilfoyl visited home between trains Saturday.

Everybody was up to Davis' on choir practice last Saturday.

Charley Bengston, the liveryman in Kennedy, was in our town Monday.

H. M Moberg and A. Bakke went t Hallock Monday.

Franz Youngren, our bananza farmer east of here, was in town Monday.

Herman Miller went to Kennedy Friday evening to take in the play given there.

Miss Nettie Shepherd and Henry Stone went out home on their bycicles Sunday evening.

Axel Miller, K. J. Lind and three of those energetic ditchers took a ride down to Stephen Sunday.

Four hundred acres of land are being broken up and seeded to flax five miles northeast of here.

Mrs. Miller went to Stephen Saturday to make a visit with her daughter, Mrs Sanderson of that place.

C. A. Aafedt hiked to Drayton, N. D., Saturday evening and returned Monday morning a pretty tired looking chap.

John Amecher returned from St. Paul Wednesday where he left his little girl for medical treatment in the hospital.

A new ditching machine will arrive here or at Stephen Friday to help the others who are here already with their good work.

A. N. Rowe is fully equipped with a full line of fruits and such as is required to furnish a restaurant, so give him o call.

Martin Hennum, our local hardware man, is treating his store building to a new coat of paint, with J. H. Bowe as painter.

A. Rost was seen in our town Monday last. He biked it up from Stephen, and was nearly exhausted, as the heat was intense that day.

The Blomsness and Lund families were down to the Red River fishing last Sunday, in which Erik Hoglund was the leading character.

Born to Mr. and Mrs. E. A. Kindler, a baby boy, Saturday night. Everyone concerned is doing well. Mrs. Gronerude attended as physician.

J. G. Whittemore went to Crookston Saturday evening and from there he will go to Thief River Falls, where he will umpire a game of ball.

Tom Meloye from Stephen came up Monday and went out east to O. J. Tvete's farm to raise the dwelling house and put a new foundation under it.

Some young fellows were down at J. J Lind's last Sunday evening practicing the new Minneapolis and St. Paul dance, which they performed to perfection.

A gasoline engine will take the place of the horse pawer used in the Independent Elevator company's house here, And. Nilson being the boss of the job.

The Donaldson boys went to Hallock Saturday with the intention of beating them at a game of boll, but they were sadly disappointed when they came back.

MAPLEBAY

A large number of visitors were at the Bay Sunday.

A. Wade, with family and friends from Dugdale, were Sunday visitors here.

Mrs. R. G. Spence, who spent last week in Fertile visiting with friends, returned Sunday.

Mrs. J. Ball and children, of Beltrami, visited with Mrs. D. O. Wik the first of the week.

P. B. Hunter drove to Rindal last week.

W. L. Gaylord with family and friends visited here Sunday.

N. S. Byington, the wheat buyer at Beltrami, visited with P. W. Horton and family Saturday and Sunday.

L. Iverson, A. Moen and Arthur Anderson wheeled to Crookston last week and spent a few days visiting with friends there.

CARMAN

Little Johnnie Hughes is quite ill with the measles, but we hope he will soon be better again.

Miss Barbara Mungal from East Grand Forks is visiting her sister, Mrs. W. W. Brown of the Berlin.

Mrs. Elmer Johnson and family expect to leave for Washington soon, where Mr. Johnson went some time ago. He says he don't want any more of Carman.

H. R. Phillips has just received a present of a handsome colt, four years old, given him by a friend. Henry is lucky, he can go in style now when he gets behind his 2:30 pacer.

H. T. Nicholson and family are moving to Breckenridge where they will make their future home. We are very sorry to lose them from our midst. They were the best of neighbors, but our best wishes go with them wherever they cast their lot.

NIELSVILLE

Miss Carrie Nelson left Monday evening for her home in Lac Qui Parle county.

Nels Mnus transacted business at Crookston Monday.

E. C. Oustad is talking Piano to the farmers nowadays.

Ole S. Brekke is staying at Crookston helping the Crookston nine to play ball.

Olaf Paulsrud is hustling business for the Milwaukee Harvester Co. at Fertine for a few days.

Miss Sanderson of Hendrum visited with Miss Annie Spokell at the latter's home over Sunday.

Arthur Beed of Pennsylvania arrived last week for an extended visit with relatives at the Hayes' farm.

Miss Lucy Kolden was a passenger on Tuesday evening's train form Crookston, the high school which she was attending having closed.

John Svenson, our popular painter, is kept busy these days painting in town. He has just finished painting Miss Tronnes' millinery store.

Syvert Thompson arrived from Bygland Saturday to visit his sisters, Misses Mary and Julia Thompson who are teaching near Nielsville. He left for home Sunday.

Miss Tilda Melsness arrived from Grand Forks a week ago last Monday. She will help her brother, C. C. Melsness, at his office for a couple of weeks.

LENGBY

Miss Nettie Dove took a trip to Fosston Sunday.

J. N. Omnn went to McIntosh Sunday, returning Monday.

The furniture purchased for the Synod church arrived from Iowa Monday.

P. A. Sederburg did business at Big Bend one day last week.

Herbert Hilliard is building a fine frame house near the depot.

Julius and Carl Frederickson wheeled to Fosston and back Saturday forenoon.

John Stave is building a fine frame house. S. B. Peterson is doing the fancy work.

Rev. Leehard of the Swedish Synod church in Columbia took the Flyer for Fosston Sunday.

Inge Skjegstad caught a pickerel in Spring lake one day last week which weighed 25 pounds.

Julius Frederickson will give a dance in Argall hall Saturday evening. Good music will be furnished. All are invited to come.

Joe Dove and K. Hilliard have been spending a few days hauling lumber from a saw mill near Bagley. Joe intends to build a house some time in the near future.

Mr. and Mrs. N. O. Nelson left for Fosston Saturday, from where they went to Brandsvold to visit with their folks. Mr. Nelson returned Monday, while Mrs. Nelson remained for a longer visit.

Mr. and Mrs. C. J. Lillo and little sons Waldemar and Walter drove to Lillo postoffice, Red Lake county, Saturday, and visited with Mr. and Mrs. M. Lillo, and returned here Monday. They report that farmers are busy seeding in that vicinity.

McINTOSH.

Alex Thompson was in town Tuesday.

John Petterson left for Crookston Monday.

Joe Mandt returned from Fosston Tuesday.

J. S. Rosholt returned from Lakota, N. D., Thursday.

E. P. Hoel and family returned from Fosston Monday.

Miss Vinnie Narvesan visited with her parents at Erskine Sunday.

Peter Tennefoss returned Tuesday from a business trip down the line.

Mrs. John Hyford and son Seth returned to Gully Friday after a weeks' visit with friends here.

ADA

Will Lee spent Sunday with friends at Twin Valley.

F. Moffatt and son Rollin visited at Hendrum Sunday.

Ed Lanetot of Crookston spent Friday with his son Fred.

Miss Alta Patterson spent Sunday at Beltrami visiting the Fultons.

Jacob Farseth and family of Halstad spent Sunday with the Smeruds.

Iver Thompson and family left Tuesday morning for Oregon where they expect to make their future home.

Memorial services were held at the Congregational church Sunday. Mrs. Park preached the memorial sermon.

Edith Forseth, aged eleven years, died Sunday morning of diptheria. Mrs. Forseth is reported to be ill of the same disease.

Theodore Lenny has bought the lots adjoining C. C. Allen's on the south side and is going to erect a dwelling house thereon.

Emil Kleoty returned to Ada Monday.

Senator Myran and wife came up from St. Paul Tuesday morning and spent a couple of days here.

A few loads of fresh hay cut this year have already been exhibited on the Ada hay market. This is rather early for fresh hay, but it is nevertheless the fact.

Henry Larson spent Sunday with his wife at Grand Forks, who is at the hospital at that place undergoing medical treatment.

This hot weather makes the farmers sigh for rain which is a thing badly needed here.

Quite a number of land seekers have been here lately and a number of them have invested in Norman county real estate. Most of those who are looking for land come from Iowa and Southern Minnesota.

CLIMAX

Mrs. Albert Jahr of Shelly was a Climax caller on Monday.

Mrs. Nellie Spokell is visting her folks in North Dakota this week.

Conrad Larsoh of Halstad is visiting his brother, L. S. Larson.

Dr. and Mrs. J. S. Kjelland of Crookston visited with relatives here over Sunday.

Charley Ness living one half mile from town is ver sick and not expected to live long.

Born to Mr. and Mrs. Watson on Saturday a boy and heir. All parties concerned are doing well.

A. H. Johnson of Mayville, N. D., is in town looking after same of his real estate interests here.

Mr. and Mrs. Martinson and Ed and Ole Evenson drove to Hillsboro Sunday, returning the same day.

Andrew Steenersan has now moved into Charley Nelson's house where he will live until he is able to build a house.

The seven year old san of Ole Pedersan living on the Dakota side suffered a bad fracture of his leg last Friday. The young boy fell under the wheel of a gang plow while it was in motion. Dr. Johnson, who set the limb, thinks it will come out all right in time.

Mr. and Mrs. S. H. Johnsan expect to leave on Saturday for an extended visit in St. Paul and Winona. Dr. Kjelland of Croakston will take his ploce, at least a part of the time, while he is away.

FAVORS EDDYISM

SO REPORTED OF ENGLAND'S KING AND QUEEN.

London, May 25.—Christian science has invaded the royal household of England. At least this is the assertion of Modern Society, a society journal, the current issue of which says that Queen Alexandria is favorably disposed to the teachings of Mrs. Eddy, with whose works she is familiar.

The king himself is also an interested student of "Science and Health" says this journal. He has been deeply impressed with the ideas of Mrs. Eddy and attempts to draw all his friends into a discussion of the subject. He is not yet convinced, but he is strongly interested. The publication of these reports is causing much comment in London society.

WHAT LITTLE FALLS THINKS.

It is fortunate that the Little Falls firemen have sent some good listeners as delegates to the Crookston convention. Following is the list of those who are down on the program for addresses: President Tom Morris, Gov. Van Sant, Mayor Campbell, State Auditor Dunn, Attorney General Douglass, Andy Stephens, Mayor Tillotson of Moorhead, Hon. Halvor Steenerson, Jas. H. Mayhury and R. J. Montague. Then Remi Marotte is there, running a hotel with a first class bar, open all night; and Charley Kiewel owns the brewery.—Little Falls Transcript.

FIRE CRACKER ACCIDENT.

—Says the Marshall County Banner (Argyle)—While Mrs. Clothier was attending church Sunday evening, one of her sons, 6 years old, found an explosive in the form of a shot gun shell. Thinking he had found a large giant fire cracker, he quickly got a match. Holding the supposed fire cracker in one hand and a fuse stick in the other, he touched it off and in an instant an explosion did its deadly work, tearing the boy's right hand. He will lose three fingers.

SHUDDERS AT HIS PAST.

"I recall now with horror," says Mail Carrier Burnett Mann, of Levanna, O., "my three years of suffering from Kidney trouble, I was hardly ever free from dull aches or acute pains in my back. To stoop or lift mail sacks made me groan. I felt tired and worn out, about ready to give up, when I began the use of Electric Bitters, but six bottles completely cured me and made me feel like a new man." They're unrivalled to regulate Stomach, Liver, Kidney and Bowels. Perfect satisfaction guaranteed by A. G. Anderson. Only 50 cents.

JUD THREATENS TO PRAY.

Jud LaMoure, the North Dakota stateman, capitalist, merchant prince and political manger, passed through Crookston last night en route to Fargo, where there was a man whom he said wanted to see him. He complained that the northern tier of counties is sadly in need of rain, and intimated that if it didn't come soon he would be compelled to begin praying for it himself. There has been a belief prevalent that Jud wasn't on speaking terms with the authorities, but perchance he has been basely slandered.

A PESSIMISTIC VIEW.

OF SPAIN'S FUTURE TAKEN BY ADMIRAL CERVERA.

Madrid, May 27.—Speaking before the naval congress Friday on the subject, whether or not Spain should be a naval power, Admiral Cervera expressed fears of the disintegration of Spain into a number of small states.

"I do not wish," he said, "that the interests of the navy should predominate at the expense of the other interests of the country; but, observing, as I do, what is going on at the present day, I am afraid Spain may become like the Italy of the middle ages."

AN OLD RESIDENT.

At 9 o'clock Monday at his home in the township of Kertsonville, occurred the death of J. B. Sauve, one of the oldest settlers in that portion of the county. Nearly three years ago Mr. Sauve fell from a load of hay and received injuries from which he never fully recovered. On Sunday he was stricken with brain trouble that manifested itself in convulsions, which continued until his death. The funeral was held from the Gentilly church at 10 o'clock Wednesday. Mr. Sauve was born at St. Timothy, P. Q., and was 57 years old at the time of his death. He is survived by one daughter, Mrs. Chas. Thomas of this city.

HANNA JOINED G. A. R.

Cleveland, Ohio, May 25.—Senator M. A. Hanna is now a full fledged Grand Army of the Republic man. He was formally mustered into Memorial post, Cleveland, Thursday night, together with 18 other candidates, with solemn and impressive ceremonies, and in the presence of a large audience. The audience was made up of representative Grand Army of the Republic men of Cleveland, and posts from all over the state sent delegates to witness the ceremony. An informal reception followed. His title is now colonel, as he was appointed on the staff of the state commander.

ONE HUNDRED KILLED.

London, May 25.—An explosion occurred yesterday morning at the Universal colliery at Senghenydd, in the Rhonda valley. About 100 men were in the pit at the time of the disaster, and there is little hope of saving the lives of any of them.

The rescuers are working with the greatest difficulty owing to the lack of air. Five bodies have been recovered. The wreckage of the pit is complete, almost precluding hope that the imprisoned men can have survived. There are 78 miners missing.

"Stop that cough right away with Mull's Lightning Cough Cure. It heals disease of throat and lungs. It's pure and good for children. 25c. For sale by S. A. Wallace.

MAPLE LAKE SHIPPING.

C. C. Strander has purchased the sailboat "Xint," that is acknowledged to be the swiftest sailer on Maple Lake, and that was formerly the property of Ohney Bros. The latter are now building a steam boat that will be placed in commission soon, and that will be a source of revenue to them and an accommodation to the lake resorters during the season. Max Ericsson is negotiating for the purchase of a steam launch that will add to the enjoyment of himself and intimate friends, who enjoy life at the lakeside.

MULE HUMPED HIMSELF.

Jos. Winfield's team put the run to themselves today, and driverless, dashed up Second street, climbing the bank and colliding with the Episcopal church. One of the front wheels was left by the wayside, but the team proceeded and reached the street through a back alley. Continuing, they traveled a while before reaching Main street, where Jerry Ronesh, the swift center fielder of the Crookston ball team, got into the game. He ran along with the procession a block or so, and then seizing the bridle of one of the animals, steered him against the rear elevation of a mule that was tethered behind a prairie schooner. The mule simply humped himself once, Ronesh slid for home plate, and game was called.

AUCTION SALE

SALE OF 600 HEAD OF THOROUGHBRED SHROPSHIRE SHEEP AND OTHER STOCK AND FARM MACHINERY.

Having sold his farm, Ernst Mueller will sell at public auction, on Sec. 10, township of Russia, Polk county, all stock, implements and machinery. Stock includes six hundred head of thoroughbred Shropshire sheep, a fine lot of registered Shropshire rams, 10 head of horses and 9 head of cattle.

Sale takes place at 10 o'clock on Monday, June 3, 1901. Everything sold without reserve. For particulars see hand bills.

OUR FROGS IN DEMAND

GOPHER STATE FROGS TO BE SHIPPED TO CALIFORNIA.

The superiority of Minnesota's products is being proven every day, and now it is the frog of the Gopher state which has been declared better than that of any other part of the country.

F. L. Cottle, of San Jose, Cal, is proprietor of a frog farm. He formerly lived in St. Paul, but by experience he has found that the California frog is too small and his legs are not large enough for epicureans. So he has decided to import Minnesota frogs, and he expects to reap a harvest.

ROYAL
Baking Powder

Makes the bread more healthful.

Safeguards the food against alum.

Alum baking powders are the greatest menacers to health of the present day.

ROYAL BAKING POWDER CO., NEW YORK.

FARGO RECRUITING STATION.

Fargo is to have a United States army recruiting station in the very near future, as the following letter received by Mayor Johnson will explain:

"War Department, Adjutant General's Office, Washington, May 21, 1901.

Hon. J. A. Johnson, Mayor, Fargo, N. D., Dear Sir:—I have the honor to acknowledge the receipt of your communication of the 20th ultimo relative to the opening of a recruiting station at Fargo, N. D., and in reply to inform you that authority has been given to the recruiting officer at St. Paul, Minn., to cause a temporary recruiting station to be opened at Fargo about June 1, to be conducted by his assistant, Captain W. T. Wilder, 11th Infantry. Very respectfully,

—John A. Johnson,
Assistant Adjutant General.

MARRIED

BURKLAND-CHRISTIANSON.

At the Methodist parsonage in this city this morning, at 8 o'clock, occurred the marriage of Miss Clara M. Christianson to Mr. A. L. Burkland, both of Crookston, Rev. Floyd A. Lawson officiating. Mr. Burkland is connected with the Journal office force. The happy couple left on the train for St. Hilaire, where they will visit with friends for a few days, and on their return will be domiciled in rooms in the Vance block. The Journal extends its hearty congratulations.

MINNESOTA HISTORICAL SOCIETY.

RARE OPPORTUNITY

To Secure Choice Farms Now Under High Cultivation

FERTILITY IS UNEXCELLED

Convenient Transportation---Artesian Water---Low Prices Low Rate of Interest

A few further facts in regard to the famous Lockhart farm, of which we made mention some days ago, may be of interest to our readers. This celebrated farm consists of seven full sections, viz: 15, 16, 19, 20, 21, 27 and 29, and one half of section 17, all in township 146, range 46, in Norman county. The Great Northern railroad runs through this farm for a distance of three miles, and upon its line are two elevators of 40,000 bushels capacity each. Practically all of the land except section 19, which has been used as a pasture, is under a high state of cultivation, and is now covered with a promising crop.

Mr. J. D. McPhee, who has superintended the management of this farm for many years past, is a very thorough, painstaking, practical farmer, and has given to the work his best care and judgment. From this it will be seen that the farm is not a run down farm, overgrown with weeds, but is, as already stated, under the highest degree of cultivation, and entirely free from weeds.

The quality of the land is probably unexcelled by any in the Red River valley, being of deep, rich, black soil, with a clay subsoil.

It lies within the area of the artesian basin of the west, and is well supplied with artesian wells, which furnish an abundant supply of clear, sparkling, soft water, not excelled for purity anywhere in the United States. Taken all in all, for lands which are in condition to return an immediate income to the purchasers, the opportunity now offered to homeseekers by the present owners of these lands, the John Grove Land company, is a rare one.

It is to be sub-divided into quarter section farms and sold separately on easy terms of five years' time, at only 5 per cent interest on the deferred payments. The price ranges from $20 to $25 per acre, except in case of those tracts upon which the buildings are located. Roads are located on all section lines, and most of them are already graded, furnishing all necessary drainage for the lands. Opportunity for a colony of 24 families is here presented (one and one half sections only upon which the main part of the buildings are located being withheld from the sub-division scheme) to settle in close proximity with each other. But whether taken by a colony or by individuals, this rare chance to obtain choice lands at bedrock prices will not long remain open.

THE HOPPER DOZER

ADVOCATED AS BEST MEANS OF CATCHING LOCUST.

Fargo Call: Grasshoppers are reported quite numerous and very destructive in several localities of the state and also in Minnesota. Their appearance is not entirely unlooked for and both Prof. Waldron of the Agricultural college and Prof. Lugger, late of the College of Agriculture of Minnesota, repeatedly warned the farmers last season to plow up all stubble ground where they deposited their eggs last fall. Now that they are making their appearance in large numbers, it is of the utmost importance that effective measures be adopted at once to destroy them, or they will work great damage to the growing crops. Not only this, but if allowed to multiply, another season may witness a grasshopper scourge such as North Dakota has never heretofore witnessed. Farmers living in the locality where the hoppers are troublesome can well afford to join in with their neighbors and aid in destroying the insects.

The hopper dozer seems to be the only effective device for catching them. This consists of a shallow trough built on runners to be dragged close to the ground. It should be 16 feet long with one horse hitched at each end and dragged through the grain infected by the hoppers. The trough is to be filled nearly full of water, with a small quantity of kerosene added, enough to form a substantial film of oil over the surface. At the rear of the trough and extending up about three feet there should be stretched a canvass. The hoppers will jump against the canvass, and falling into the oil and water, die immediately. With such a device a swath of 16 feet wide can be worked and several bushels caught per hour. These dozers should be run close to the ground, and the horses should be hitched at the ends, so that the hopper will not be disturbed until the trough is close upon them.

BUTTE IS SLIDING

OPENING FISSURES ARE AROUSING FEARS OF CITIZENS.

Butte, Mont., June 4.—The strange sliding movement of the city of Butte, which has been noticeable at intervals for several years, has again manifested itself by five large cracks in the earth in different sections of the city.

The largest fissure occurs on West Galena street, where a crack 12 inches wide and of considerable length and depth has appeared. Three of the openings occur on the west side of the town and two on the east side.

There is no caving, but a distinct parting of the earth and the granite walls can easily be seen in them. The gas and water companies have much trouble on account of the strange movement, which frequently breaks their underground pipes.

City Engineer Rickenbach says the engineering department of the city encounters the same trouble, as elevations and bench marks in certain parts of the city are constantly changing. This is particularly true of the section west of Main street and north of Broadway where the marks have been known to shift to the extent of a foot in a very short space of time. What is causing the strange phenomenon is not known, but its continuance is beginning to cause much alarm among the citizens of Butte.

AFTER 44 YEARS

REMAINS OF INDIANS HUNG BY MOB ARE UNEARTHED.

Little Falls, Minn., June 4.—A large crowd gathered Sunday at the place where the three Indians were buried, about a mile north of this city, to get relics from the remains. After a long search and lots of digging the remains were located, and those in search of relics were successful. Among the relics secured, besides the bones of the dead Indians, were the shackles that were left on them when they were buried, a flint stone, used in the early days instead of matches, and also a 50 cent piece with some peculiar Indian marks on it. Nearly all the outfit will be kept by the Old Settlers' association.

The story of the hanging of the three Indians, as told by the old settlers, is as follows:

The Indians killed a German peddler at Old Crow Wing station. One of the squaws who saw the deed came to the city and told the citizens what had been done and the Indians were put under arrest and an officer started for Fort Snelling with them. However, before they had gotten far, a mob was organized here who followed them and brought them back. At Swan river the three Indians were given a good supper and taken to a place about a mile from this city and hanged. This being the only lynching that has ever occurred in the history of the city, it marks quite a historical event in the history of the county.

JAMES FORD ARRESTED

AT ST. CLOUD CHARGED WITH MURDER AT BEMIDJI.

James Ford was arrested at the Northern Pacific restaurant at St. Cloud Sunday forenoon by Sheriff Schiplin and Sheriff Tanner, of Little Falls. The arrest was made at the instance of Sheriff Bailey of Bemidji, who claims that Ford is wanted there, on the charge of manslaughter. Two years ago it is claimed that Ford struck a man with a plate, making wounds that resulted in his death. Ford denies the charge and says that at the time of the Bemidji killing he was at Aitkin. He was taken to Little Falls and from there to Bemidji.

Ford was arrested at Little Falls Thursday night after a fight with a man named Broadwater. A man who happened to see Ford, at once stated that he was the man wanted at Bemidji. The authorities there were notified, but were slow in replying to the telegram, and on Saturday Ford was released. Saturday night a telegram was received asking that Ford be held and his arrest followed at St. Cloud as stated.

Ford and Broadwater were employed by the Minneapolis & Rum River Boom company, and went to Little Falls last week from St. Cloud.

OLD SOLDIER'S EXPERIENCE.

M. M. Austin, a civil war veteran, of Winchester, Ind, writes: "My wife was sick a long time in spite of good doctor's treatment, but was wholly cured by Dr. King's New Life Pills, which worked wonders for her health." They always do. Try them. Only 25 cents at A. G. Anderson's drug store.

WHOOPING IT UP

The Firemen's Convention is Being Boomed all Over The State.

SEVEN BANDS ARE COMING

The Question of Accommodating the Crowds is now on the Live Wire.

Indications don't count any more. It is now a certainty that the audience at the firemen's convention will be enormous. From every quarter comes assurance of this, and the question that is now agitating the minds of the committees is that of providing suitable accommodations for the visitors.

There will be no trouble in feeding them, but there is apt to be a shortage of sleeping quarters. The hotels are now taxed almost to their limit by the orders for rooms received in advance, and some of them have secured outside suites that are being fitted up with beds. A large number of cots have been secured which will help out the matter very largely.

The special train that will be run from St. Paul on the Great Northern, as well as the regular trains on that road and on the Northern Pacific will bring the southern and central Minnesota delegates and their friends. These will be added to very largely by the hosts from the northern counties, whence in many instances whole departments are coming.

The features of the convention days are being carefully worked up, and the parade on Wednesday night will eclipse all previous efforts in the past. Preparations to this end are in active progress, floats are being prepared, companies drilled, fireworks have been ordered and many unique and startling attractions secured.

Secretary Johnstone, who is visiting the departments through the northern part of the state, returned Saturday night from points on the St. Vincent line, bringing reports of enthusiasm at all places visited. Seven bands will be present to enliven the occasion. The last to announce itself is the Stephen band, that will be in uniform like those worn by the firemen from that village, thus making a striking appearance and advertising that stirring village to good effect. Hallock, Thief River, Bemidji, Ada and other points will also send bands.

Today Secretary Johnstone started on a trip over the Northern Pacific line to stir up enthusiasm among the cities of St. Cloud, Little Falls, Brainerd and intervening points.

THE MONTH'S TRANSFERS

EXCELLENT SHOWING TO BACK UP CLAIMS OF LAND BOOMERS

The records of real estate transfers, as shown by the records taken from the books of Christianson & Strander, show that there is no abatement in the demand for Polk county lands. The past month shows an increase of nearly 100 per cent, both in the number of acres sold and in the consideration received.

The statement for the past month is as follows:

Lands:	
Number of transfers	139
Acres	22,287.50
Consideration	$263,042.05
Lots:	
Number of transfers	46
Number of lots	70
Consideration	$ 21,379.50

For the corresponding month last year the figures were as follows:

Lands:	
Number of transfers	66
Acres	13,486
Consideration	$141,002.45
Lots:	
Number of transfers	43
Number of lots	75
Consideration	$ 22,248.48

HERE'S THE LIST.

OF THOSE WHO CAN READ LAND TITLES CLEAR.

The land office Tuesday received patents for the following named settlers, who have proven to the satisfaction of Uncle Sam that they have complied with the requirements of the homestead laws:

Ole P. Nygaard, Gustav Hansen Stae, Ferdinand Rose, Sven Larsson, Andred Rustad, John Lindquist, Geo. A. Sylten, Anton Homalka, Thomas Rowe, Axel Olson, Christen Severson, Ole Olson Dasgaa, heirs of; Jons Daniel Nordvald, August Bandimere, Chas. Bonnander, Anton Anderson, Martin O. Anderson, Ole Westberg, Henry Bakkla, Thos. E. Gallagher, Ole A. Koupellen, Jane White, Henry Henming, Kunte Hansson, Wilhelmin Just, Nick Pettersou, Martia A. Kompelleu, Johannes A. Sveum, Tom Olson Maunum, Christian L. Hagen, Emily Alme, Jeremiah Hogan.

HAY KNIFE AND GUN

BROUGHT INTO DISCUSSION ABOUT HIRED MAN'S PAY.

Wednesday a warrant was issued by Judge McLean for the arrest of Robert Cook. The synopsis of the preceding chapters in the story runs like this:

One Robert Cook has labored for N. B. Soper, of the town of Andover, for some time. Realizing that the time for the firemen's convention was at hand, Mr. Cook decided that he ought to have some money to spend on that occasion and he suggested to Mr. Soper that a check for his wages to date would be considerable of an accommodation.

When it came to a decision as to just the amount covered by the term wages to date, it was discovered that the opinions of the two differed widely. A discussion thereupon arose and waxed very warm, notwithstanding the cooling and dampening effects of the atmosphere.

Finally Cook declared that if it became absolutely necessary he would shylock the change out of Mr. Soper's flesh, and he went to get a hay knife to make the statement more impressive. Mr. Soper is a man who makes the most of his opportunities and the delay gave him enough time to arm himself and confront Cook with a gun upon his return.

Keeping his man covered while he harnessed a horse, the Andover farmer came to town and swore out a warrant as above stated. The story will be concluded tomorrow.

NO EXTRA SESSION

CONGRESSMEN WILL NOT DRAW EXTRA MILEAGE.

Washington, June 5.—The cabinet today decided unanimously that existing conditions do not warrant the calling of an extra session of congress this summer.

Secretary Root and Attorney General Knox both rendered legal opinions to the effect that the authority to govern the Philippines in the president by the Spooner amendment was sufficient.

These opinions were concurred in by all the members of the cabinet. The decision of the cabinet was announced after the cabinet meeting in the following statement issued by Secretary Cortelyou:

"The president has decided that existing conditions do not require or warrant calling congress together during the present summer or making any change in the policy hitherto pursued and announced in regard to the Philippine islands."

WILL BUILD A RAILROAD.

LINE FROM SOLWAY TO TAP THE WALKER PINE HOLDINGS.

S. C. Bagley, who has contracted for the logging of more of the northern Minnesota pine in the Red Lake district than any other living man, was here on a business trip late Saturday. He is now operating in the country near Bemidji and supplying the T. B. Walker mills with the tall timber.

In order to reach the large body of pine owned by the Walker interests, it has been decided to build a line of railroad south from Solway into the Itasca country. This is now being surveyed by a force under Mr. Walker's veteran cruiser and surveyor, F. J. Kline, and construction will be commenced as soon as the location is decided upon.

The road will be 18 miles long and will not only serve as a logging spur, but will eventually assist materially in developing the country. It is the intention to have the rails laid and the line in operation in time to bring out the logs that will be cut during the coming logging season.

HAD A COPPER BOTTOM

BOILER IN WHICH FEAST WAS COOKED WAS POISONOUS.

Parker, S. D., June 5.—Over 50 people are sick, some dangerously, from having eaten pressed chicken at the high school banquet last week. The chickens were boiled in the tin boiler with copper bottom on Wednesday. It was first thought that the sickness was due to ice cream or the beef tongue. Nearly all are taken with chills, fainting spells and severe diarrhoea. The doctors have been kept on a rush since 12 o'clock Saturday night. Prof. J. R. Byers and Mrs. Parkston, it is feared, may not recover.

A. De Lacey Wood is jollying Winona—says it is the "Queen City." What's he going to call the paper—and will it be for or "feminst" Tawney.

MASS MEETING

Of the Farmers Held at the Court House Monday to Listen to Exposition of

THE FARMERS GRANGE

And of Successes Already Achieved Through Organization by Able Speakers

In pursuance of a call issued for a mass meeting of those interested in the grange movement, such meeting was held at the court house Monday. The meeting was called to order by Master Fortier of the Gentilly grange, and on motion duly made and seconded he was elected as chairman of the meeting, and G. W. Eastman was elected secretary. The general purpose of the meeting was to awaken an interest in the grange movement, by giving information in regard to its purpose, aims and accomplishments.

The meeting having been organized as above stated, Mrs. S. G. Baird, of Edina Mills, Minn., master of the state grange, addressed the meeting, taking up briefly the original purpose for which the grange was organized, and telling of its progress and work.

The grange has a grand record of usefulness in nearly every state in the union. It has secured the establishment of the rural free mail delivery, and has secured liberal appropriations from congress for that purpose. And this work had been largely accomplished by the efforts of Aaron Jones of South Bend, Ind., master of the National Grange. And it was because of the fact that he represented more than half a million farmers in making the request. And congress could not deny a demand coming with so much emphasis. She spoke of the fact that the grange has an influence which reaches beyond the range of the farmers' clubs, which, though of local benefit, could not have any widespread benefit. Her address was quite brief, but so pleasing in its matter and in its delivery that it was highly enjoyed by all her hearers.

Thos. T. Smith, of St. Paul, past master of the state grange and now chairman of the executive committee of the state grange, was next introduced. He spoke of the educational purpose of the grange, and explained how this purpose is fulfilled, and of the advantages derived from its fulfillment.

Individual effort can accomplish little in this day of the world, as compared with combined effort. He spoke of the reduction of the price of the sewing machine being largely through the influence of the organized effort of the grange, to persuade congress to pass laws preventing the extension of patents when they had once expired.

A similar work was accomplished in securing the reduction in the price of harvesting machinery. Mr. Smith's was a very pleasant and profitable presentation of the work of the grange on the line mentioned.

Aaron Jones of South Bend, Ind., worthy master of the National Grange was then introduced.

Mr. Jones is a very pleasing and ready speaker, with a faculty for directness in presenting what he has to say, which is rarely excelled.

He spoke of the distribution of wealth in 1850; 5,200,000,000 was owned by the farmers, and only a little over $3,000,000,000 by all other combined industries.

Seventy per cent of the annual production of wealth was by the farmers, and only 30 per cent by all other industries. But 48 years later the farmers had only 24 per cent of the wealth. And he believed it indicated unmistakably that there was a screw loose somewhere.

The grange makes no warfare upon any other industry. It wished them all prosperity and success.

But he demanded such a distribution of the wealth of the country that when financial depression visits the country its burden shall rest equally upon them all.

He commended the Great Northern railroad for the work it had accomplished in building up the country and developing it, and eulogized the completeness of its equipment. But this road took a part of the farms belonging to the farmers of the valley, at a price which was fixed by appraisers without the consent of the owners.

But when it was ready to carry the grain it demanded a price for its transportation which was unreasonable, and why should it be permitted to demand such a price without the farmers' consent?

He spoke of the enormous sums of money which rightfully belonged to the farmers, who were by such extortionate rates of freight transferred to the pockets of the other fellows. And he had faith that at the next session of congress, through the influence of the National Grange and the help of God, laws would be passed which would do justice to the farmers of the country.

He spoke of the necessity of organization on the part of the farmers to enable them to fix the prices of their own products, as manufacturers and producers in every other line controlled the price of their products.

That other industries would soon go to pieces if they consented to accept such prices as their customers would consent to give them, as the farmers do, and it was only through organization that the farmers could secure the chance to fix their own prices, but that through organization it can be done.

The highest purpose of the grange is not to raise stock and grain, but to build up noble manhood and womanhood among the farmers, and give them a broader and better opportunity in life. And that this can surely be accomplished through the influence of the grange. It brings neighbors closer together, and into a more intimate acquaintance with each other cultivating charity for each, and establishing a broader, deeper sympathy between them.

The advantages of the free rural mail delivery were spoken of, and that through the efforts of the grange during last year $3,500,000 were secured for that object.

It stands to the credit of the order that the grange was the first organization to place our wives and our daughters and our sisters on an equal plane of honor in its work.

His remarks were well received and opportunity was given for any one desiring to ask questions.

After the close of Mr. Jones' speech Mrs. Baird asked the privilege of making the closing address which was accorded her, and she spoke again very eloquently advocating the merits of the grange movement, and explaining more fully the work the state grange is doing.

A. J. Sauve, of the Gentilly grange, reported that encouraging progress was being made in their work.

J. P. Marcum, of the Prairie Grange responded to a call, and made a very commendable speech which called forth hearty applause.

G. W. Eastman also made some stirring remarks deploring the meagre attendance, and inviting all farmers to join the Prairie Grange. A rising vote was then taken thanking Worthy Master Jones for his attendance and for his explanation of grange work, which was responded to unanimously.

HERE'S A HORSE.

AND NONE BETTER BRED EVER TURNED A SWIFT MILE.

The smoothest piece of horse flesh that ever stepped the streets of the city ahead of wheels was brought from Hamline last week by Robert Purvis. It is Hal Rattler, a beautiful black trotting stallion with a record of 2:17, although his track work has never been of the thorough sort that would develop the possibilities in his trim sinewy legs.

The horse is one of a number of speedy animals that George Purvis acquired, and during the past winter has been kept with a string of fast horses at Hamline. There is no greater lover of the beautiful in horse flesh than the younger Mr. Purvis, and he has been able to gratify his desire to purchase Hal Rattler, and add him to the list of desirable sires of fast horses in northern Minnesota.

Horsemen will be interested in the following pedigree of Hal Rattler:

Sired by Rockdale Hal by Tom Hal, sire of Hal Pointer, 2:04; Little Brown Jug, 2:07¼; Brown Hal, 2:10, sire of Hal Dillard, 2:04¾; Hal Braden, 2:08¼; Star Pointer, 1:59, the fastest record ever made.

His dam was Lilly Rose, 2:14¾, by Macedonian by Hambletonian, by Abdallah, Grand Dam Valley Rose by Idole, by Mambrino Chief, Hal Rattler's great grand sire. Edwin Forrest, sire of Bay Woodford, sire of Black Princess, the dam of Rockdale Hal; was sire of the grand dam of Nancy Hanks, 2:01¼.

Mambrino Chief, the sire of Idole, grand sire of Lilly Rose, was sire of Pilot, the sire of Pilot Medium, sire of Nancy Hanks, so that by both sire and dam there flows in the veins of Hal Rattler a close strain of the same blood as that of the great queen of the turf, and he is still closer related as will be seen by the following, to the unapproachable king of the race track, Star Pointer:

Abdallah, the great grand sire of Lilly Rose, the dam of Hal Pointer, was grand sire of Maud S., Jay Eye See and Sunol.

Bullard Magazine cameras are the best the market furnishes and heads the list, and we have medium priced down to the Cyclone which is among the cheapest of reliable instruments. Call and see them at the Journal office.

THOSE GRADUATES

Covered Themselves with Glory—Their Teachers with Credit Delighted their Friends

AN INTERESTING PROGRAM

Was Rendered at the Commencement Exercises by the Sixteen Graduates

The eleventh annual commencement exercises of the Crookston high school were held at the Grand opera house last evening.

As the hour approached at which it had been announced the curtain would rise, an enthusiastic and expectant audience gathered, of sufficient size to use to its limit the capacity of the house. Our citizens are, as well they may be, deeply interested in all matters pertaining to the welfare of our schools, and do not fail to manifest their interest by general attendance at all commencement exercises. The curtain rose promptly at 8:30 and disclosed a scene of resplendent beauty. The stage decorations eclipsed anything in that line which have ever delighted the eyes of a Crookston audience. Miss Winter, who superintended the decoration, and the juniors who did the work, are entitled to credit for no small degree of artistic skill.

There appeared to have been no attempt to dazzle the eye, but rather to adorn in a consistency of arrangement which at once suggested the idea (unrecognized though it might be) of comfortable beauty and contented luxuriousness.

Liberally proportioned wreaths of vivid green with generous interspersion of large white lilies stretched across the front of the stage. From overhead hung a profusion of vines. In front at the front hung the class motto, "Greater Things Await Us," the letters formed of green fastened upon a white background, thus displaying at once the motto and the colors adopted by the class.

The stage scenery and furniture harmonized well with each other, and altogether the effect was exceptionally fine.

As the curtain rose Miss Emma Locken sounded upon the piano the signal for the appearance of the chorus class, and they marched in from either side, taking their places with grace and precision, to the number of about fifty.

They rendered "New Hail Columbia" in a manner that very properly called forth unqualified applause from the house.

The invocation by Rev. Floyd A. Lawson which followed was appropriate to the occasion and of becoming brevity. The program as arranged was rigidly followed in detail from beginning to end.

In the salutatory, Miss Bulah Richardson set a good example for the subsequent participants, by a deliberate, clear enunciation which could be distinctly heard even in the remotest parts of the house. This example was faithfully followed, and every number was given in such a way that no part of it was lost by the large audience.

Paul Williamson's oration upon the subject, "Our Nationality," was well thought out and well presented.

Miss Eliza McGuire, who recited the class poem very happily, relieved it of much of the mystery with which the subject (Vergessen Uns Nicht) given on program, invested it in the minds of some of us who are unfortunately handicapped by less favorable school advantages in the days of our youth.

The "Beginning of Minnesota" was the subject of a very able but condensed review of our state's beginning and growth by Miss Mary Wyand.

"An Idyl of Norway" was a charming little storiette by Miss Lois Latta, in the denouement of which cupid did effective work, and the happy couple are supposed to have lived happily ever after in "the land of the midnight sun."

"The Moon is Beaming," rendered by an octette of voices, was delightfully fine.

The comedietta, "Ye New Time School," in which Miss Agnes Cromb acted as "ye teacher," Misses Jennie McLaren and Mary Millette as "ye trustees," and the class of 1901 as "ye scholars," was a happily conceived and well rendered number, in which opportunity was given for historical obituaries of each other by the different members of the class, and one after another responses were made which had more or less pertinency in each instance, and were full of wit and humor.

Miss Elva Bates delivered the class sentiment in a charming manner and elicited a full meed of applause from the audience.

"The Green and White," rendered by the quartette, Misses Bates, Cronkhite, Childs and Richardson, was a charming number and gave much pleasure.

The monologue, "Sohrab and Rustum," by Miss Emily Millette, was rendered very distinctly and in a pleasing way, which brought out the pathos of the situation at its close very effectively.

The parody, "Reminiscences of School Days," by Miss Ruberta Childs was a happily arranged medley of parody of parts of different poems, each of which contained some reminiscent allusion either grave or humorous, to the school experiences of the class. In both literary execution, application and rendering, it was certainly a credit to its author.

The valedictory by Christian F. Dahl was a very masterly effort, and will stand favorable comparison with any of the commencement valedictories.

It may be mentioned here that all members of the graduating class had a part more or less lengthy in the history lesson, of which mention has already been made, each part having been so handled as to be above criticism, but we make special comment only on those who bore a special part on the program.

The physical culture drill was participated in by the entire graduating class, and was a very pleasing spectacular production, the execution of which was in piano time under Miss Emma Locken's skillful management, and the music and movements were in perfect time, calling forth unqualified commendations from the audience.

The second part of this exercise was particularly pleasing. It was conducted by the young ladies of the class, all of whom were dressd in white dresses, "just too lovely for anything."

One of them occupied a position in the center of a circle formed by the other ten, and attached to a wide green ribbon which circled her shoulders, were other ribbons of green and white alternately, the other end of each being held by one of the young ladies. In time with the piano, the ten young ladies went through a variety of fantastically graceful motions, circling around the center and back again, presenting to the audience a display of graceful motion and flashing colors, as they wove about the center one a web of their class colors, and again unwound it, which for spectacular effect was perhaps the most brilliant success of the evening.

The promptness and accuracy with which the program was carried out, as well as the perfection of rendering in every part reflect great credit upon the superintendent, principal and the teachers of the school, for the care and thoroughness of both the previous and special training for the occasion.

The presentation of the diplomas was done by A. A. Miller, president of the school board, and was prefaced by a brief but interesting and exceedingly appropriate address, filled with helpful, important and practical suggestions to the class. One special point he made was upon the importance of care and thoroughness in the little duties of life, as essential to success in the world. After the presentation the chorus sang "Good Night," and the benediction was pronounced by Rev. G. A. Quammen.

Taken all in all, it is generally conceded that the event excelled all previous commencement exercises which have been held in the city.

Many beautiful bouquets awaited the members of the class and were presented to them amid the congratulations of their friends after the close of the exercises.

The graduating class was composed of sixteen members, whose names are given as follows:

Paul Harris Wilkinson.
Mary E. Wyand.
Lois Lora Latta.
Elva Adeline Bates.
Bulah Adeline Richardson.
William McMabill Shannon.
Charles Herbert Clements.
Eliza Jean McGuire.
Mary Elmire Millette.
Agnes Cromb.
Edward Maloney.
Christian Frederick Dahl.
Jennie Gray McLaren.
Ruberta Julia Childs.
Emma Alice Cronkhite.
Emily Alice Millette.

DROWNED IN RED RIVER

A GRAND FORKS MAN MEETS DEATH IN THE STREAM.

Bert McVeety, aged 17 years, was drowned at Grand Forks Saturday afternoon in the presence of a number of friends who were unable to offer him any assistance, as his body never came to the surface after being drawn under by a whirlpool.

He had gone to the river with a number of friends, who all went in for a swim. After they had been in the water for some time, McVeety and Tom Sherlein started to skirt a whirlpool which is about 25 feet from the shore. The latter was by the side of McVeety and asked him if he could make it all right and McVeety answered, "Yes, I guess so." At this his companion swam on ahead for a few strokes and looking back over his shoulder to see how McVeety was getting on saw that the unfortunate boy had gone down. He turned about and swam back over the place where his companion had disappeared, but the body was never seen again.

The deceased was employed at the Hotel Dakotah, and was well liked by all his friends. His mother resides at Graceville, Minn., and his father who is traveling for a machine firm was at Devils Lake at the time of the accident.

Continued search for the body, in which dynamite was used, resulted in its recovery Sunday afternoon.

TRANSFER IS MADE

Crookston Telephone Company's Plant Passes to Iron Range System.

WAS COMPLETED TODAY

New Company will make Extensive Improvements in Local Conditions.

President A. B. Kerlin and Secretary C. W. Baumbach, of the Iron Range Telephone company, the new corporation that has purchased the Crookston telephone exchange, arrived in the city Saturday and have spent the day arranging the details of the formal transfer of the property.

Hereafter the new company will be accountable for the management the property, and it is a part of its plan to proceed at the earliest possible date with improvements that will materially add to the present service being given the subscribers.

For the present there will likely be no change in the local force. Mr. Walsh will for a time remain as the active head of the company, and when a change is made, he, through his knowledge of the local situation, and the fact that he is a stockholder in the company, will be a valued advisor. The present efficient office force will be retained and added to as the capacity of the plant is increased.

President Kerlin informs the Journal that it is the intention of the company to occupy the new offices in the building being erected by Christianson & Strander, as soon as they are ready, and that a new switch board, that shall combine all that is down to date in the matter of superiority and excellence, will be installed. The system will be improved by the placing in of new poles, several carloads of the long cedar giants having arrived from Washington this week, and all else will be done that will place the Crookston exchange on a footing equal to that of any city in the state.

The company is at present actively engaged in extending its business in the Iron Range country, and has a force of men installing a system at Hibbing. The iron country will be connected with Duluth by a long distance line, and as soon as possible the work of improving the capacity of the system in Crookston will be commenced.

It is the intention of the company to take over the lines in the valley from the Northwestern Telephone Exchange company, at least that portion of them east of the Red river, and one of the earliest long distance lines to be built is a connection with Fargo down the Halstad branch, and an extension to Ada and Norman county points.

The ultimate intention of the company will be to string a line across the pine region from the Red River valley to the head of the lakes, and this will give it control of the telephone business throughout the pine region, and form a trunk line that will be fed by the business of the various branches that will radiate through the new districts that are developing.

Mr. Kerlin has had a wide experience in building, promoting and managing telephone lines. One of these is the Northern Minnesota Telephone company, from Sauk Centre to Park Rapids, that was last year extended to Akeley, and that will be built to Cass Lake this year. This has passed into the hands of D. N. Tallman, who controls a large amount of lines in the state and in South Dakota. Mr. Kerlin is devoting his energies to promoting the Iron Range company.

The Journal is pleased to note the fact that new capital is being invested in the city, and that it will be expended in developing one of the city's utilities to a higher degree of usefulness.

THREE BIG ESTATES.

CLOSED TO THE SATISFACTION OF HEIRS.

Three estates of more than the usual importance have been recently closed in Judge Hagen's court here. They were the estates of Knut Berget, Bernt J. Muns and Mary Louise Munn.

The Berget estate is one of the largest ever probated in the county. It involved farm property located on the river six miles west of the city, which is valued at upwards of $30,900. In the settlement O. K. Berget, deputy clerk of court, and his mother, who resides on the property, virtually receive the entire estate.

Bernt J. Muus was at one time the best known Scandinavian preacher in the state of Minnesota, and his property was valued at an amount which it took six figures to express. Owing to a dispute over church doctrines, Mr. Muns withdrew from the ministry, and taking most of his property with him, went back to live in Norway. He died about a year ago and the estate closed yesterday covered that portion of the property which he owned at the time of his death, in Polk county, and of which his son, Nils Muus, of Neillsville, has been acting as executor.

The estate of Mrs. Munn included considerable property in and about this city.

GET YOUR ABSTRACTS
—OF—
STAIR & STEBERG.

Our abstracts show mortgage foreclosures, judgments and other proceedings affecting title, in detail; so that it is not necessary to make a trip to the court house to examine records after examining title abstracted by us. We claim SUPERIORITY IN VALUE OF OUR WORK, and only ask a trial to convince anyone of the merits of this claim. We make a specialty of conveyancing and perfecting titles. If you have a farm to sell, list it with us.

The Looking Glass

It is said by many authors that costiveness is the looking glass of all other diseases. If this is correct it is of the highest importance for every person to know the best mode for its treatment. Dr. Seth Arnold's Anti-Billious Pills are an old and reliable remedy for Biliousness and Constipation. Price 25 cents per bottle.

For sale by A. G. Anderson, druggist.

Now!
Fill the bottles with HIRES.
Drink it *now*. Every glassful contributes to good health. Purifies the blood, clears the complexion, makes rosy cheeks. Make it at home

5 gallons 25 cents. Dealers, write for big offer.

Charles E. Hires Company, Malvern, Pa.

Hires Rootbeer

CONSTIPATION
the frequent cause of Appendicitis and many other serious ills should never be neglected. The objection to the usual cathartic remedies is their costive reaction which increases constipation instead of curing it. PARKER'S GINGER TONIC is the proper remedy. It acts on the Liver, and when used as directed, permanently removes the constipation. 50 cts. & $1.00 at all Druggists.

PUT HIM OFF AT BUFFALO.

Dr. Holte left on Saturday for a month's trip to the east. The doctor will make his first stop in Minneapolis, where he will attend the national convention of medical men, which begins its sessions there tomorrow. He will then spend a few days seeing the big Pan-American show and finish with a three weeks' post graduate course in surgery, either in New York or Chicago. During his absence his office will be closed, and the work at the hospital will be looked after by the other physicians of the city.

BUSY LAND OFFICIALS.

The United States land office gets out a statement for May that is a creditable edition to the boom literature of the valley. The homestead entries number 217 and the final proofs 135. The cash entries aggregate 51, and the total receipts for the month are $9,085.95. This is nearly double the cash received in May, 1900, when the figures were $4,662.32. During that month the entries numbered 152, the final proofs taken 75, and the cash entries numbered 9.

CELEBRATED ANNIVERSARY

A wedding celebration in honor of the marriage of Mr. and Mrs. Emil Peterson was held Sunday afternoon at the residence of the former's parents, Mr. and Mrs. Edward Peterson, four miles west of the city on the banks of the Red Lake river.

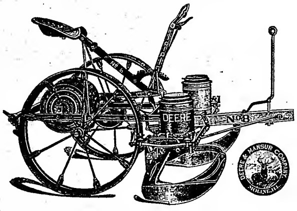
A bounteous feast of good things loaded the tables that were spread in the grove in which the house nestles, that was partaken of by guests numbering nearly a hundred. The afternoon was spent in pleasant social intercourse on the lawn or in strolling through the groves along the river bank.

FENCE POSTS FOR SALE.

They are good ones, and the price is right. Vance & Stone.

The Question of Corn Raising

Is a very important one. You can raise a large amount of feed on a small amount of ground.



There is going to be a lot of corn raised this year and we have made preparations for it. We have a very large line of corn tools, made by Deere & Co., suitable for the work in this country, consisting of

The Deere Corn Planter

and a large line of riding and walking cultivators. Will be glad to quote prices if interested, or send copy of our booklet "Corn Raising in Northern Minnesota," on request.

Merit Always Wins.

Larsen & Carpenter,
CROOKSTON, MINN.

Stores also at Fosston, McIntosh and Beltrami, Minn.

The Riverside Dairy

Offers to the people of Crookston the purest milk, the richest cream, and the best butter to be had in all Minnesota at the lowest prices compatible with conservative business management. Our milk route lies right past your door, delivering twice each day. Call on our driver, or through telephone No. 12 for anything in this line. Don't eat your bread without butter so long as you can get Riverside at present prices.

OUR DEAD HEROES

Held in Kindly Rememberance by Their Surviving Comrades and the W. R. C.

MEMORIAL ANNIVERSARY

Honored by Loyal Citizens, Civic Societies, School Children, Oration---Rev. Lawson

Thursday dawned bright and clear with a most deliciously enjoyable temperature and just enough of a breeze to relieve the atmosphere of any approach to stagnation. As the sun mounted toward the zenith, however, and his rays became more vertical, the temperature also rose steadily and for a few hours in the middle part of the day it was frequently charged by those who took occasion to refer to it at all as being hot.

But aside from the heat from the sun and the dusty condition of the road to the cemetery, the day was an ideal one for the purpose for which it was dedicated.

The ladies of the W. R. C., ever on the alert to devise and perform some act which demonstrates their love for the patriots of the civil war, through whose self sacrificing devotion and loyalty the Union was saved from disintegration, prepared a sumptuos dinner to which all the old soldiers and their families were invited.

The occasion in this respect was one of immense satisfaction to the old comrades, who always appreciate very highly every opportunity for meeting with each other, and also of enjoying the hospitality of the W. R. C., whose culinary skill and loving efforts to serve them in the past, have become so inseparably connected with the memories of this anniversary. After the dinner was over a roster of the old soldiers who were present and a record of their army connection was made and is given herewith at the close of this article.

At 1:30, p. m., the procession was formed and line of march to the cemetery begun. The Crookston band headed the procession and contributed their share of inspiration toward averting the weariness of the march. The Crookston fire department, the members of the A. O. U. W. lodge and a large number of school children formed a part of the procession. The city officials, the orator of the day, ladies of the W. R. C., and those of the old soldiers who would accept of transportation were furnished conveyances, and a long procession of carriages, with a still longer procession of pedestrians, wended its way to the city of the dead, where silently sleep fifteen of the soldiers of the civil war, and one of the victims of the late Spanish-American war, a list of whose names is as follows:

Frank Valley, formerly of Company L., 33rd Regiment, Wis., H. A.

H. E. Cooke, formerly of Company F., 1st Regiment, New York Cavalry, and Company A, 161st Regiment, New York Cavalry.

Elling Knutson, formerly of Company D., 2nd Regiment, Minnesota Cavalry.

William Kistenmacher, formerly of Company F., 3rd Regiment, Minnesota Infantry.

Joseph Netzer formerly of Company K., 8th Regiment, Minnesota Infantry.

C. F. Spendley, formerly of Company E., 1st Minnesota H. Art.

Louis Zang, formerly of Company B., 2nd Michigan Infantry.

August Walters, formerly of Company C., 9th Wisconsin Infantry.

George T. Mead, formerly of Company A., 14th Wisconsin Infantry.

Charles Bruce, formerly of Company K., 15th Wisconsin Infantry.

Archie Patterson, Company I., 14th Minnesota Infantry, Spanish-American war

Chas. W. Wright, Company A., 12th Wis. Infantry.

Sam McKee, Laurie Nelson, D. McClellan and A. J. Streeter, no record of army connection.

The ladies had provided a supply of flowers and as the members of the Grand Army post entered the cemetery, they were escorted around to the different soldier graves respectively one after another, each one of which was in turn decorated with flowers, and honored with a salute.

This ceremony being completed, short dedicatory services, consisting, reading a scripture lesson, and the Lord's prayer recited in concert, followed by the benediction by Rev. H. M. Green, were held at the spot which has been set apart by the Cemetery association as a soldiers' burial ground.

This plat is in the northern part of the cemetery, and consists of four blocks lying together in a square form and constituting a sufficient area for the burial of thirty-two soldiers, two of whom are already buried there. The ladies of the W. R. C. have become responsible for the adornment and care of this plat, and will in the near future put it in as good condition as possible and surround it with a hedge.

The program of the memorial services was then taken up, A. R Holston acting as chairman. The audience was much disappointed to find that the band which had been assigned three numbers on the program had evidently tired of waiting and were not on hand to respond to the call upon them. Their absence was a sore disappointment to their would be hearers, who had anticipated much pleasure from the delicious music which they have acquired such a reputation for rendering.

Chairman Holston explained their absence by saying that they had gone to witness the ball game, which had not been arranged for by the Grand Army or by the committee of arrangements, and which was being conducted in violation of the law, though perhaps this fact was unknown to its projectors.

The choir did their best to atone for the absence of the band however and rendered three beautiful pieces, "Sleep on Brave Heart," "The Boys of the Old Brigade," and "Cover Them Over." Rev. H. M. Green delivered the invocation.

Mayor N. Campbell delivered a very brief but appropriate address of welcome, and paid tribute to the memory of the patriots whose graves were strewn with flowers in honor of their heroic deeds.

Adjutant T. A. Harris read the usual orders, Comrade McLean delivered a few remarks of welcome to visitors in behalf of the post, and Chairman Holston then introduced the speaker of the occasion, Rev. F. A. Lawson.

Mr. Lawson's address gave evidence of having been very carefully prepared and was a very able oration and delivered in the forceful and eloquent style which has come to be recognized as characteristic of the speaker. He paid eloquent tribute to the soldiers of the civil war.

He said, "Let us remember that the strife waged in those thrilling years was a strife between forces evenly matched. It was a conflict of the gods. It was Greek meeting Greek. Power pitted against power. It was not courage against cowardice, intelligence against weakness. Had it been, the war would have ended sooner than it did.

It was brother against brother, courage against courage, endurance against endurance. Think of the tremendous struggle that has made immortal that little town of Gettysburg, when on July from 1st to 4th, the best blood of America fought with every ounce of endurance which each man possessed. Hark to the signal gun, and then the reverberating roar as from each gun there flashed the sheet of flame and the hissing shot was poured in an awful torrent on either side of the squares of men. See over yonder ridge that bursting line of Confederates, as the Union men sweep upon them. What care they for shot or death? On, on, until the charging line reels and curls and rolls like a sea wave broken by the winds of the skies, while the whole army to the right and left holds its breath wondering if the crater will give way.

Oh! what an awful charge was that. Hand to hand, officers and men, rank distinctions forgotten, leaders swept away, whole companies mowed down. But the Union men waver not. National integrity is in the balance. Every man becomes a Sheridan in his own right. At last the Confederates waver. Pickett with his army falls back, his columns are broken, the Unionists have sapped the life blood of the Confederates and struck them a blow from which they never recovered."

He spoke of the rapidly diminishing number of the survivors of the war, and said that the "hands of their posterity will not tire of the work" of decorating the graves and perpetuating the memories of the brave men.

He also paid tribute to "the boys of '98 of the Spanish-American war—the boys of today. The boys who went forth as did their fathers in behalf of a downtrodden people. The boys who showed themselves worthy to be the sons of their heroic sires."

The address was listened to throughout with rapt attention by the large multitude of hearers who went there with a proper appreciation of the occasion. One serious interference which existed was several groups of noisy children who had not received proper instruction at home as to what constitutes self respect as well as respect for others, and several other group of adults—mostly ladies who improved the opportunity to talk and gossip in tones so loud as to be a serious annoyance to the speaker, as well as those who desired to hear him.

On their return to the hall, the old soldiers found the ladies again on hand with a further supply of toothsome and re freshing viands which were partaken of with appreciation and relish.

The occasion taken all in all was one which will be long remembered by those who participated in it.

The names of soldiers present and participating are as follows:

GEO. M. SWIFT, Company E., 50th N. Y. Volunteer Eng.

WM. H. WEAVER, Company E., 7th Mich. Cavalry.

CHAS. WARING, Company I., 47th Wisconsin Volunteers.

CHAS. FRETT, Company F., 169th N. Y. Volunteers.

GOMER EVANS, Company D., 117th N. Y. Volunteers.

EZEKIEL KIMPTON, Company K., 34th Mass. Volunteers.

A. O. DANIELS, Company D., 46th Wis. Infantry.

A. M. CHILDS, Company F., 30th Wis. Volunteers.

C. H. JEFFERSON, Company L, 21st Ia. Volunteers.

GEO. H. HOLT, Company K., 17th Maine Volunteers.

Before closing the meeting of the G. A. R. post last evening the following resolution was adopted:

Resolved, that the thanks of Col. Cobham Post, No. 90, G. A. R., be, and are hereby extended to the citizens of Crookston for the universal interest taken by them in making the Memorial exercises of today so great a success; to the chorus for the most excellent music furnished; to Revs. H. M. Green, Floyd A. Lawson and Francis Hufnagel for their able contributions to the occasion in the way of orations and prayer; to the merchants of the city for their respect evidenced in closing their places of business, and to all who in any manner aided in this, the most successful observance of Decoration day that the city of Crookston has ever made.

—John Gleason,
—John McLean,
Committee.

MORE GRASSHOPPERS.

THEY ARE FULFILLING PROF. LUGGER'S PREDICTION.

Reports from another locality show that grasshoppers have made their appearance and are doing business. This time it is the vicinity of McIntosh, and they are said to very numerous at various points in eastern Polk.

The town of Hill River is the sorest afflicted, farmers from several points in that township have reported great numbers of the pest hatching out in their fields and there is no doubt of their genuineness. They are the destructive Rocky Mountain locust species.

At many points they have already hatched out in sufficient numbers to do material damage, and the young hoppers are also working havoc on farms but a short distance from McIntosh. This locality, as well as in southeastern Polk and northwestern Norman was visited by Prof. Lugger last fall and he predicted that unless the fields were plowed then they would appear in destructive numbers this year.

TWO JUNE WEDDINGS.

THE GROOMS ARE PROMINENT YOUNG MEN OF THE CITY.

June, the month of roses, has been chosen as the time when two very interesting wedding events will be solemnized, in which Crookston people will feel more than passing interest, the grooms in both instances having spent nearly or quite their whole lives in this city.

Invitations are out announcing the marriage of Mr. George Walsh to Miss Ethel Chandler of Minneapolis, the date being June 6th. The bride to be has, during recent years, been a member of Crookston's society circles, and will be heartily welcomed back to make her home here.

On the same date at the bride's home in Warren, Miss Lena Taralseth will be united in marriage to Mr. Edward Mossefin, another one of Crookston's bright young men who has entered upon a successful business career here and whose friends are as numerous as his acquaintances. The bride-elect is the daughter of K. J. Taralseth, the leading merchant of Warren, and through frequent visits to Crookston the young lady has formed many social ties that will make her home coming here very pleasant. The Journal extends congratulations and best wishes in advance.

NO SMALLPOX THERE.

Mr. A. J. Price, the Kittson wheat buyer, was in the city today and called at the Journal to deny the report that he or any member of his family had been afflicted with smallpox, as was rumored about the city. He had taken his dinner with the Smith family near Kittson up to near the time their home was quarantined, but he escaped the disease and has no fear of an outbreak in his family.

FOUGHT FOR HIS LIFE.

"My father and sister both died of consumption," writes J. T. Weatherwax, of Wyandotte, Mich., "and I was saved from the same frightful fate only by Dr. King's New Discovery. An attack of pneumonia left an obstinate cough and very severe lung trouble, which an excellent doctor could not help, but a few months' use of this wonderful medicine made me as well as ever and I gained much in weight." Infallible for Coughs, Colds and all Throat and Lung troubles. Trial bottles free. Guaranteed bottles 50c and $1.00 at A. G. Anderson's.

Entered at the postoffice at Crookston, Minnesota, as second-class matter.

Wouldn't this jar you? The fruit jar manufacturers are away behind in their orders.

It has remained for the state of Minnesota to give to the nation the best it ever had in a new direction, a director of the census whose record for accomplishing work is unequalled.

The Fargo Call, always down to date in every respect,newsy, crisp and brilliant,has instituted a cartoon service that adds another excellent feature to its appearance. Bert of the Minneapolis Journal furnishes the pictures which assures the best, which is what the Call is looking for all the time.

We are not only expanding our markets, but we are expanding our territory. The policy of the United States has always been to keep what it originally started with, and hold all it honorably gets. We refused to divide our original possessions, and we will be the last to desert our new possessions.

An extra session of congress may be necessary to settle the Philippine question, left hanging in the air by the supreme court's decision. As it appears now, free trade with the Philippines exists and will continue to do so until congress prescribes duties, unless it will be held that the Spooner law, passed by the last congress, delegating to the president power to govern the Philippines, gives him authority to establish a tariff against them. If this is so, no extra session will be necessary to bar the free trade seemingly brought about by the supreme court's decision.

Another disgraceful affair among young men who are attending an advanced educational institution for the supposed purpose and object of obligingly suggestive to a thoroughly in-them for efficiency in life's work is reported from Cedar Falls, Iowa. Ben Parker, president of the junior high school class, was kidnapped by the seniors, taken to the woods and painted. He was returned to the school and a fight immedately followed between the two classes. In the melee the large plate glass door of the building was smashed. The frequency of these occurrences, many of them of a very serious nature, and as far as we have been able to observe, most if not all of the prominent participants being young men who boast of being American born citizens, is startlingly suggestive to a thoughtfully inclined person of the tendency toward degeneracy in the conception of the proper standard of American citizenship by our American youth. Drastic measures should at once be adopted by all our advanced educational institutions with the determined purpose of banishing such practices, and giving the youth of our country a more exalted idea of their responsibility to the nation and to the state.

The official finding made by the board of inquiry appointed to investigate the recent mutiny at the military academy at West Point, and the punishment inflicted in the several cases, has been given out. Eighty-three students were found guilty of mutiny, and fifty-seven of them received sentences of punishment. All the participants are reduced to the ranks, five were dismissed from the academy, six were suspended without pay until April 1, 1902, thirty-one are to be confined in barracks and area until next encampment, reduced to the ranks and suffer punishment tours three days a week, including time of encampment, and thirteen are to be confined to barracks and serve punishment tours until June 9. With the report came an order from the secretary of war making the punishment for hazing or bracing summary expulsion from the academy. This action will commend itself to all fair-minded people throughout the country, who realize the importance of maintaining the discipline of the institution. The disclosures in regard to existing conditions, which were made by the investigation of the case of Cadet Booz, created a public sentiment which demanded a correction of these demoralized conditions, and this demand must be granted.

The old soldiers in parade Thursday and at the memorial serivces constituted a very forcible reminder of the fact that the Grand Army of the Republic in its individual and special purpose of furnishing a bond of fraternity between the surviving heroes of the civil war, will ere many years be a thing of the past, and future generations will know of it only as a matter of history, even as the war itself which furnished its membership will also be a matter of history. The rapid encroachments of the passing years on the strength and vigor of these old veterans, the years of whose vigorous young manhood was given to the service of their country, their rapidly whitening heads, their furrowing faces and gradually enfeebled steps are constant reminders of the service they rendered, and of the fact that they are entitled to the best the country can do for them in their declining years. Year by year their numbers are growing less and soon the last one will have passed over the river. We believe they ought, each one, whether so far enfeebled by age and disease as to be unable to earn a livelihood for himself or not, to receive a pension of a substantial (not extravagant) amount to enable them to secure a reasonable share of the comforts of life, beyond the demands of actual necessity, and that congress should take action in this direction at an early day, at its next session.

A ton of dynamite and a hundred kegs of powder let go down in Missouri last week and blew a steamboat clear over into Kentucky.

The dispatch says that two laborers who were aboard the boat are missing. They probably hadn't come down when the dispatch was sent.

Normal graduates may teach in high schools of the state—the high school board having receded from its position that only university graduates be chosen. President A. T. Ankeny, of the normal board, informed the public of the board's action in presenting the diplomas at the Winona normal commencement.

At last it has been discovered what the Lord made the vermiform appendix for. He intended it for a happy home for microbes, parasites and other intestinal inhabitants.

In Iowa the other day a coroner found a parasite ten inches long which insisted on holding down a claim on a man's vermiform appendix so strenuously that the man gave up and died.

It pays some people to be handy around when royalty is having an increase in the family. Queen Helena of Italy celebrated the month of roses by giving birth to a daughter on Saturday. The infant's nurse, besides receiving liberal pay and pension, will get $2,000 with the baby's first tooth, another $2,000 when the child is able to speak and a similar sum when the little princess walks unsupported.

A man's head wrapped up in an old coat was found near St. Louis last week with an old rusty razor lying near, and the coroner's jury returned a verdict of suicide. After cutting his head off, the wretch probably walked to the river and drowned himself. He should have picked up his head in his teeth and carried it along with him and thus saved the expense of an inquest.

Hallock is one of the prettiest, brightest most progressive jewels that stud the bright green prairies and are strung on the strand woven by the Great Northern railway through the upper Valley.

Her trade center is all hustle and business and her residence portion is becoming a bower of shade trees, the old buildings being newly painted and new houses are nestling amid green lawns.

If a stranger comes along with a load of fanning mills, or a bunch of lightning rods, and wants to store them in your barn "for a short time only," as the house for which he is working has suddenly called him in, just let him put them there and sign a receipt for the goods, so the stranger can show the house where the goods are. Soon after you will be notified in time where to find your note when it is due. You will then be the owner of the goods and can dispose of them at your own price, says an exchange.

We last week published a dispatch from Cheyenne, Wyo., in regard to a soap deposit which has been discovered in the northwestern part of Wyoming. We are now in receipt of a sample of the soap in question, sent to us by our old time friend, A. B. Allen of the Jackson Republican, which he states he secured ten years ago while journeying through Wyoming. The sample will be thoroughly tested upon our office devil, and if it demonstrates sufficient cleaning qualities to succeed with him, we shall feel that we can recommend it unqualifiedly.

The Bemidji Pioneer tells how a double tragedy was averted there last week by too much liquor. A man saturated himself with pine cone juice and went to a house of gilt frame where he found a woman who had wiggled her head from side to side every night and taken Rocky Mountain Tea, and was trying to be beautiful, according to the advertisement. He slashed her a few with a razor, then went out on the back steps and tackled his own jugular. He was so full he fell asleep over the job, and is now in a hospital instead of the potter's field.

THE GRANGE MOVEMENT.

The attendance at the grange meeting Monday was not as large as the cause merited, either on the part of the farmers or of our business men. The purpose of the grange movement is one of great merit, and is an honest one in the direction of ameliorating the conditions of the farmers and making for them the possibility of higher, broader lives, as well as enabling them to better their financial conditions. The farm is the foundation of our wealth, and anything which tends ameliorate the conditions of the farmer should be enthusiastically encouraged by all business men. The aim of the grange is to bring the farmers and their wives and sons and daughters together at frequent intervals for the purpose of cultivating between them the fullest bond of sympathy, encourage them in intellectual development, and the fullest education possible, especially along lines of practical importance to them in their life work, and at the same time enable them to utilize to the best advantage all the opportunties possible, for their pecuniary benefit, both by increased yields, larger prices and economy of management. And the Journal desires to contribute its full share toward the success of this purpose, through the grange and through every other possible agency.

The broader the intelligence and the more noble the purpose of the agricultural classes, the better it will be for our country.

According to advices which reach the interior department it will be some time before the tangle which has resulted from the timber operations on the Chippewa reservation in Minnesota during the past winter shall be straightened out and a final report made to the department by Captain Mercer, the agent at Leech Lake. The troubles with the White Earth Indians in regard to the measurement of the timber cut on their reservation have occupied the attention of Agent Mercer and several other officials of the Indian service for several weeks, but the prospects now are that the difficulties will be settled. According to the advices of the officials more than $80,000 has been exacted from the operators on the various reservations as penalties, charged for the cutting of green timber under the rules of the dead and down timber operations. The results of the experience of the department during the past season makes it highly probable that no more timber operations will be permitted until congress legislates on the subject.

The Minneapolis Times paragrapher in going over conditions up north says: Otter Tail county is wagging with excitement over the question of county division. M. J. Daly is stirring up the question in the Perham Enterprise, and held a meeting recently in his office to devise ways and means. Partisans of county division claim that with sixty-two townships, the county is too unwieldy, and that it is a hardship for a man to go eighty miles to pay taxes. Fergus Falls will fight division to a finish, and Elmer Adams in the Journal is preaching against it almost daily. The farmers generally seem opposed to division on account of the extra expense it would entail.

The Journal is in receipt of the annual catalogue of Carleton college at Northfield, Minn. The year's report shows the very flourishing condition in that well known institution. Carleton college was founded by the Minnesota Congregationalists at Northfield in 1866. Its grounds embrace 65 acres, it has seven buildings, a library of 16,000 volumes and 366 students.

Their observatory is one of the most complete in the country, it publishes an astronomical magazine and furnishes time to 13,000 miles of railroad. During the year the college endowment has been increased $150,000 by gifts of friends of the institution.

It is a matter of surprise that while the growth of every Minnesota village has been steady and not to exceed half a dozen instances are known where there has been a falling off in population, the cities in North Dakota are showing up with heavy losses, as indicated by the reduction in the salaries of postmasters, one of the surest tests. This seems to apply, too, in the best portion of the state. The cities of Fessenden, Grafton, Larimore, New Rockford, Northwood and St. Thomas all show a reduction in salary of the postmaster.

The Hallock News has discovered that the shrewd, calculating politician is again abroad putting up his schemes for coming events. Political success now requires the utmost vigilance, if you expect to win and he who lags behind in the race at the beginning is usually found in the rear at the final outcome. So if any of our people expect to run for a state or county office at the general election in 1902, they must brush up the political musket, lay in a generous stock of ammunition (mostly blank cartridges) and go into the contest, to win at all hazards.

The Commercial West publishes a very neat little write-up of Crookston accompanied by a few half tone cuts of our public buildings and local views which are well worked up and show up well from an artistic point of view. The write-up is a very concise but clear presentation of a few of the business enterprises of the city.

SUMMONS.

State of Minnesota, County of Polk—ss.

In District Court, Fourteenth Judicial District.

Stanley L. Collins, plaintiff, vs. The City of Crookston and James Kennedy, defendants.

The State of Minnesota, to the above named defendants.

You and each of you are hereby summoned and required to answer the complaint of the plaintiff in the above entitled action, which said complaint has been filed and now is on file in the office of the Clerk of the District Court, county and state aforesaid, and to serve a copy of your answer to the said complaint upon the subscriber at his office in the Rickett block, in the city of Crookston, Polk county, Minnesota, within twenty days after the service of this summon upon you, exclusive of the day of such service; and if you fail to answer the said complaint within the time aforesaid, the plaintiff will have the amount he is entitled to recover ascertained by the court, or under its direction, and will take judgment against you and each of you for the amount so ascertained, besides the costs and disbursements of this action.

G. A. E. FINLAYSON,
Attorney for Plaintiff, Crookston, Minnesota. Rooms 32-33 Rickett blk.

To James Kennedy, Esq., Fargo, N. Dakota.

Crookston, Minn., April 11, 1901. 1-9

CASCARINE AT ALL DRUGGISTS.

Cures biliousness, constipation and dyspepsia or money refunded. 50c. Sample and book on diet and cure sent for ten cents in stamps. Rea Bros. & Co., Minneapolis, Minn.

The New Ninth.

The people of eastern Marshall county are felicitating themselves over the improvement that will be made in the roads in a couple of townships in the eastern portion of that county. Senator Grindeland secured an appropriation of $400 from the last legislature that will be used to better certain highways that have heretofore been impassable and that will enable the residents of that remote district to get into close touch with their business center. This is but one of the commendable acts for which the people up north are praising Senator Grindeland

The Minneapolis Journal says that Ezra Valentine of Breckenridge is not a spectacular sort of an individual, but one of the men who make everything move that they take hold of. Valentine has been for several years a member of the drainage commission, and has personally superintended the reclaiming of much swamp land in the Red River valley. Under the law, this commission built the ditches, and the counties then had to stand the cost of keeping them in repair, as directed by the commission. The last legislature started a new drainage scheme, but the old commission still looks after the old ditches. No money was appropriated, however, to pay the engineer for the inspection. Mr. Valentine, when he heard of it, declared they would be inspected anyway. An engineer will be employed this summer to go over all the old ditches and notify the county board that repairs are needed. Mr. Valentine will pay the engineer out of his own pocket.

The little man from Breckenridge has given strict orders that nothing should be said about this public spirited action. In fact, it has been a profound secret. He asked the governor not to appoint him on the drainage board this year, as people might think he was bidding for notoriety and political capital. The governor remarked that the man who paid the freight ought to have something to say on the board, and made Valentine chairman The other two members are P. H. Konzen of Hallock and M. R. Brown of Crookston.

Minneapolis Tribune: If anyone may judge by newspaper talk, the lines in the Ninth district may yet be drawn between Comstock and Grindeland for congress,as they are the most discussed of the numerous possibilities. The Moorhead Independent asserts that "the candidacy of Hon. S. G. Comstock for the republican nomination for congress is meeting with favor all over the Ninth district. It is universally conceded that he is the best man for the position, and the friends of other candidates admit that Mr. Comstock could do more for the district than any other man. Is not that the strongest argument that could possibly be used in favor of nominating Mr. Comstock?"

While the Norman Index opines the "Senator Myran's declaration favoring the nomination of Andrew Grindeland of Warren, for congress, when sifted down, means that Norman county and the counties north of Polk will combine their influence against that of Polk and settle on either Grindeland or Calkins. Polk county, from a political standpoint, has been out of favor with its neighbors for some time"

SUMMONS.

State of Minnesota, County of Polk.
In District Court, Fourteenth Judicial District.
Town of Reis, Plaintiff. vs. James J. Carey, Defendant.
The state of Minnesota to the above named defendant:

You are hereby summoned and required to answer the complaint of the plaintiff in the above entitled action, a copy of which complaint is on file in the office of the Clerk of Court in Polk County, Minnesota, and to serve a copy of your answer to the said complaint, on the subscribers at their office in the city of Crookston, Polk County, Minnesota, within twenty days after the service of this summons upon you, exclusive of the day of such service; and if you fail to answer the said complaint within the time aforesaid, the plaintiff in this action will have the amount he is entitled to recover ascertained by the court or under its direction, and take judgment against you for the amount so ascertained, together with the costs and disbursements of this action.

In District Court, Fourteenth Judicial District.

Mollie Bodle, plaintiff, vs. Eugine Bodle, defendant.

THE STATE OF MINNESOTA, TO THE ABOVE NAMED DEFENDANT:

You are hereby summoned and required to answer the complaint of the plaintiff in the above entitled action, which said complaint has been filed and is now on file in the office of the Clerk of the District Court in and for said County of Polk, in the State of Minnesota, and to serve a copy of your answer to the said complaint upon the subscriber at his office in the Rickett Block, in the City of Crookston, Polk County, Minnesota, within thirty days after the service of this summons upon you, exclusive of the day of such service; and if you fail to answer the said complaint within the time aforesaid, the plaintiff will apply to the Court for the relief demanded in said complaint.

Dated April 27, 1901.

—G. A. E. FINLAYSON,
Attorney for Plaintiff, Crookston, Minnesota. Rooms 32-33 Rickett Block.

ORDER TO EXAMINE ACCOUNTS.

STATE OF MINNESOTA, COUNTY OF Polk—ss.

In Probate Court, Special Term, May 21st, 1901.

In the matter of the estate of Emilie A. Jennings, deceased.

On reading and filing the petition of I. U. Jennings, administrator of the estate of Emilie A. Jennings, deceased, representing, among other things, that he has fully administered said estate, and praying that a time and place be fixed for examining and allowing the account of his administration, and for the assignment of the residue of said estate to the parties entitled thereto by law.

It is ordered, that said account be examined, and petition be heard by this court on Friday, the 14th day of June, A. D. 1901, at 10 o'clock a. m., at the Probate office in Crookston, in said county.

And it is further ordered, that notice thereof be given to all persons interested, by publishing this order once in each week for three successive weeks prior to said day of hearing, in the Polk County Journal, a weekly newspaper, printed and published at Crookston, in said county.

Dated at Crookston, the 21st day of May, A. D. 1901.

By the Court,
—Ole E. Hagen,
Judge of Probate.
7-9

NOTICE FOR PUBLICATION.

DEPARTMENT OF THE INTERIOR, Land Office at Crookston, Minn, May 18, 1901.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the Register and Receiver of the U. S. Land Office at Crookston, Minn., on July 5th, 1901, viz:

Ole P. Sessaas, H. E. 15979, for the E½ SW¼ and lots 6 and 7, Sec. 6, Tp. 147 N., R. 45 W.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz:

Louis, B. Haftorson, of Fertile, Minn.
Ole N. Torvestad, of Fertile, Minn.
Hans M. Holmvek, of Beltrami, Minn.
Ole B. Bolstad, of Fertile, Minn.

—Sylvester Peterson,
Register.

CITY AND VICINITY

Mrs. Forbea is visiting friends in Fergus Falls.

Miss Kate Martin has returned to her school work near Warren.

Mrs. W. F. Peterson has gone on a visit to her former home in Warreo.

—If you wish to renew your loan, or take up balance on your contract for deed, see Ole Tiegen, Crookston. tf

The old court house is on rollers and sliding down hill toward its final resting place in the rear of the Larsea & Carpenter property .

Will Skiner, the veteran Fisherite, has come to Crookston and will busy himself assisting the local force of builders during the summer.

Miss Fannie Jodoin left Sunday for her home at St. Cloud. She was accompanied by Mrs. E. J. Keating, who will remain for a visit at her former home.

Mrs. P. Kirsch of Argyle was an over Sunday guest in the family of M. E. Kirsch left Sunday night for Port Washington, Wis., on a visit to her parents.

Miss Lois Latta, one of the graduates, was presented by her parents with a very handsome graduation present in the form of a gold watch and chain.

—The farmers around McIntosh are working their cows nights in an effort to supply raw material for the new creamery which began operations there the past week.

Among the teachers who have completed their year's work and are leaving for their vacations is Miss Elizabeth O'Brien, who left Saturday night for her home at St. Cloud.

A. E. Brush, the Angus agriculturist passed through the city Saturday enroute to Hamline to be present at the graduation of his son, who has completed the course at Macalester.

Col. Rasmussen, John Moorhead and Oscar Erickson drove to Maple Lake on Saturday and enjoyed an outing as guests of Bert Anderson. Did they have a good time? You know it.

George H. Tripp, prominent in township and school management in Crove Park, will be one of the twelve to settle many of the criminal and civil suits at the present term of court.

Henry Schermer is in line with the other grass widowers now, his wife having gone on a visit to her former home in Wright county. She was accompanied by Mrs. Henry Lingholm.

Miss Sue Low left last night for Minneapolis to be present at the marriage of her friends, Miss Chandler and Mr. Walsh. She will remain until May 10. and w... visit other acquaintances while absent.

In the general boom Mentor is having a considerable shake-up. Postmaster Messelt will enlarge and remodel the building recently vacated by Will Bain and occupy it with his stock of general merchandise.

Dr. and Mrs. Dampier left Sunday for a week's visit to the Twin Cities. While there the doctor will attend the doctors' convention which is now in session, and renew acquaintances with other physicians of the state.

Ezekiel Kempton, 86 years of age, one of the boys who followed the flag in 61-65 was in from Mentor before the pension examining board on Wednesday and remained to be present at the Memorial day services.

—A. P. Kirsch, on the Duluth line run, says "the hill" in Duluth looks very bare since the burning of the pavilion. He says it is very doubtful if it will ever be rebuilt, as the pavilion and the incline railway have never been a paying proposition.

Judge McLean, who has acquired such an enviable reputation as a skillful manufacturer of marital knots last Saturday made another couple happy at his office, by pronouncing Erick Sampson and Julia Kittelsen, both of Polk county, man and wife.

The young ladies of the Octavia club are preparing for a very pleasant outing. They have rented the Streeter cottage at Maple Lake and will spend a week there under the chaperonage of Mrs. George C. Wilde and Mrs. H. B. Finch.

Those new helmets give the mail carriers a striking appearance , and will add to their comfort during the heated weather. The boys have, however, turned down the proposition to adopt the shirt waist as a part of their uniform.

Two boxes, each containing a very lively swarm of bees, were a part of the express matter received Monday morning. They were from Minneapolis and will go to Ed Hunt, who already has a large number of swarms making prize honey for him out in Louisville.

—The magnitude of the fruit business in the city of Crookston is not generally appreciated. Some idea of it may be gained from the fact that the Finch-Smith Co. yesterday unloading a car load of strawberries received from Hood River, Oregon.

Fisher people are out for a celebration of the Fourth of July, and parties over from there yesterday expressed the opinion that Crookston people are inclined to ask too much of the outsiders in the way of attendance at their celebrations this year. They think that with the firemen's convention and the race meet in July, this city should give way to others on the celebration question. The feeling is shared by other places in the county that always look forward to entertaining the people in their vicinity at their own celebrations.

—Fine photographs in all styles from $1 to $20 per dozen at Skrivseth's art studio, near Commercial hotel, Broadway.

Readers of the Journal will recall that a damage suit was begun by John Sharpstein of Fargo against the G. N. for damages as a result of the loss of an arm while in the company's employ. The documents have been signed whereby the case is settled out of court, and while it is not known just how much Mr. Sharpstein received from the company, it is said he is very well pleased with the amount.

SHUDDERS AT HIS PAST.

"I recall now with horror," says Mail Carrier Burnett Mann, of Levanna, O., "my three years of suffering from Kidney trouble. I was hardly ever free from dull aches or acute pains in my back. To stoop or lift mail sacks made me groan. I felt tired and worn out, about ready to give up, when I began the use of Electric Bitters, but six bottles completely cured me and made me feel like a new man." They're unrivalled to regulate Stomach, Liver, Kidney and Bowels. Perfect satisfaction guaranteed by A. G. Anderson. Only 50 cents.

GENTILLY STOCK RAISING.

Jos. Laframboise, long recognized as one of the solid farmers of the Gentilly district, is improving his stock and one of his latest moves in that direction is the purchase of an addition to his dairy herd, of a pure bred Swiss bull, purchased from Lewis Fontaine. Last fall Mr. Laframboise decided to commence breeding angora goats, and has refused $10 each for two kids recently dropped, the mother having cost him but $9.

A GOOD THING.

German Syrup is the special prescription of Dr. A. Boschee, a celebrated German Physician, and is acknowledged to be one of the most fortunate discoveries in Medicine. It quickly cures Coughs, Colds and all Lung troubles of the severest nature, removing, as it does, the cause of the affection and leaving the parts in a strong and healthy condition. It is not an experimental medicine, but has stood the test of years giving satisfaction in every case, which its rapidly increasing sale every season confirms. Two million bottles sold annually. Boschee's German Syrup was introduced in the United States in 1868, and is now sold in every town and village in the civilized world. Three doses will relieve any ordinary cough. Price 75 cents. Get Green's Prize Almanac. F. H. Hillard & Son. 2

FOR RAPID TRANSIT.

Alexander E. Orr, president of the Rapid Transit commission of New York, has succeeded in securing the passage of the Brooklyn East River tunnel bill, and it has received the signature of Mayor VanWyck of New York. This ends what has been quite a severe struggle, and gives victory to the promoters of the measure. Mr. Orr, to whose persistent advocacy of the scheme its success is largely due, is an uncle of Mrs. Will Arnold of Jerome's addition, is very wealthy and is a member of the executive board of the New York Life Insurance company. He is spoken of as a probable candidate for the mayoralty of New York at the next election.

P. A. Danforth, of LaGrange, Ga., suffered for six months with a frightful running sore on his leg, but writes that Bucklen's Arnica Salve wholly cured it in five days. For Ulcers, Wounds, Piles, it's the best salve in the world. Cure guaranteed. Only 25c. Sold by A. G. Anderson.

The C·O·D

IT'S VERY EASY

It's the easiest thing in the world for a wise man who has never made a success to call a successful man a fool.

A customer came in "The C. O. D." yesterday morning and spent two hours selecting a suit of clothes for himself. After looking at the quality, construction, finish, style and price, he says: "Just lay this suit to one side and I'll look around, and if I don't find something better, you'll see me here again." He returned and after a second examination, says: "I'll take that suit!" After the suit was paid for the salesman says; "Did you find anything that would compare with this suit?" "Yes" says the customer, "as far as quality goes I found about the same thing, but they wanted two dollars and fifty cents more for the suit. I says I can buy that same suit for $10 that you ask me $12.50 for." "Perhaps you can, but the firm who sells a suit of clothes like that for $10 are a set of fools. They could get $12.50 for it just as easy as $10 and make a dollar. We're not doing business for love." Selling good clothing cheap is easy, if you know how.

We'd like to show you this same suit that most stores sell for $12.50. It is all wool, elegantly tailored, perfect fitting. Ask the salesman to show you our suits at - - - $10.00

FROM NEAR AND FAR.

Zephyrs Wafted Through Pine Cones and Across Prairies.

Tenstrike is to have a sash and door factory.

Progressive euchre has broken out down in St. Cloud, and right during the June days, too.

The salary of the postmaster at Barnesville has been tilted a hundred. This, together with the rain, pleases him.

A settler away up in Roseau county is experimenting in corn culture, and may succeed. Who knows? Anyway here's luck.

There's only 600 feet of mud in the bottom of the artesian well at Oakes, N. D., and plans are being made to clean it out.

The Clay county jail holds 32 prisoners at present and there are still some people down there who haven't been pinched but ought to be.

Peter Bardessimo, of Buhl, is probably glad that he left $40 with his mother at Hibbing. He was held up and robbed of $3 just after leaving home.

A man out at Bismarck fired off a lot of cannon crackers when he heard the president had pardoned Alex Mc Kenzie—which shows how some men take things to heart.

Some one saw a sea-serpent in Longyear lake, near the town of Chisholm. The town is said to enclose a sty for nine blind pigs, and you know what the pigs do to snakes?

The sawmill of Andrew Vickstrom at Malung Roseau county was totally destroyed by fire on Monday together with about 150,000 shingles. The loss is severe as he carried no insurance.

Friends at East Grand Forks have received a letter from the asylum authorities at Fergus Falls stating that Peter O'Brien, recently sent to the asylum was not improving and if anything he was a little worse.

Prof. Anderson of Fisher intended to be on the safe side last Saturday when he went the picnic and left his watch and money in his room, but when he returned the stuff was off, so to speak some one had played swipes.

Jim Kennedy of Fargo secured the contract for putting down the gas mains in that city. He's a home man and that means the employment of home labor, the money is spent here, happiness reigns, and that is the way to do business.

On the farm of Gabe Zimmerman, north of Wadena, is a mineral spring. A sample of the water has been sent to the state board of health for analysis. The Wadena folks wouldn't even use the stuff as "chasers" until it was vouched for.

Mrs. W. A. Carney a fortune teller, was jailed at Wadena, having been brought back from Park Rapids for a one dollar board bill. She demanded a jury trial, got it and was sustained in her refusal to pay, on account of annoyances suffered while at the hotel.

President Vail of Tenstrike's council, got to engineering the work on a well the village was sinking, and had himself let down to the bottom of the hole. Pretty soon the fellows up top heard some hard breathing and hastily did a job of circular work that brought Vail to the surface, stiff as a printing office towel. They pumped the gas out of him and were careful thereafter.

Some boozy woozys went from Cass Lake over to the Island and during their roystering let their camp fire get away and add to the supply of dead and down pine. Some Indian police established a bucket brigade and extinguished it. Judge Ives warns the gang that the island is Indian country and that whiskey is tabooed there.

EIGHT MEN KILLED

BY POWDER EXPLOSION IN A COPPER MINE.

Iron Mountain, Mich., June 5.—Eight men were killed at the seventh level of the Ludington shaft, Chapin mine, at 2 o'clock yesterday morning by an explosion and suffocation from fumes of the burning powder.

All the men in that part of the mine are dead, so that the exact cause of the burning of the powder may never be known. All of the men were married but one. Following is the list of the victims:

- ANTONIO FARNETTI,
- JOHN AIMONE,
- JOSEPH PASSIRI,
- JOHN MALINO,
- LOUIS TASSI,
- JOHN BERTELLI,
- RINALDO AMASINO,
- A POLANDER, unknown.

Some thirty children are rendered fatherless by the accident. Only one man was disfigured, as if by the explosion, and he but slightly; the others were completely covered by black powder soot. The men were using a powder thawing machine and it is thought they neglected to supply it with powder. The machine becoming red hot, it set fire to the dynamite and the men were stricken down by the deadly fumes before they could escape. The town is in mourning and work at the mine is at a standstill.

DEER RIVER HOTEL BURNED

MAN LOST HIS LIFE IN EFFORT TO SAVE FRIEND.

Deer River, Minn., June 5.—This city was visited by a fire late Monday afternoon that cost a human life. Within twenty minutes after the fire had been discovered in the Hotel Quig nothing was left of the building but a heap of ashes.

The hotel was a large frame structure, valued at $10,000, and was the oldest building in town. For years it had been operated by J. A. Quig. A few minutes after the fire was discovered Teddy Maloy entered the building to look for a friend whom he thought was sleeping in one of the rooms. He was doubtless overcome by the smoke and heat, as he never came out. It was found later that the man whom Maloy went in to save was not in the building at all. Maloy was a Canadian, his home being at Toronto. The hotel was insured for $2,500.

WHERE FISHING IS GOOD.

T. M. George, the Hallock banker, and Rev. L. P. Franklin, who keeps the people of Hallock in the straight and narrow way of right living, not a difficult task among such good people, were with us over night and Tuesday left for Bemidji. There they were be taken in charge by Dr. Foster, who knows the haunts of the big round pike and the lightning bass, and who has fixed their teeth up into good biting trim. The party will camp out for a week, and collect a line of fish stories and large appetites that will astonish their friends up country.

DROWNED AT LARIMORE.

Tidings have been received of a very sad drowning accident which occurred Sunday afternoon at Larimore. It appears that two young men, Walter Shrank and Wm. Olin, made a trip to Turtle River, a few miles north of Larimore. They decided to go in bathing, with the result that Walter Shrank lost his life. The young man was a good swimmer, and it is supposed that he was seized with a cramp, as he only appeared once after it was seen that he was in trouble.

MORTGAGE FORECLOSURE SALE.

Default having been made in the payment of the sum of four hundred and five dollars, which is claimed to be due and is due at the date of this notice upon a certain mortgage, duly executed and delivered by Samuel J. Cunningham and Louie E. Cunningham, his wife, mortgagors, to the Security Trust Company, mortgagee, bearing date the 9th day of December, 1891, and with a power of sale therein contained duly recorded in the office of the register of deeds in and for the county of Polk and state of Minnesota, on the 17th day of December, 1891, at 2:35 o'clock p. m., in book 50 of mortgages, on page 152.

Which said mortgage, together with the debt secured thereby, was duly assigned by said Security Trust Company, mortgagee, to Julia W. Powers by written assignment dated the 9th day of December, 1891, and recorded in the office of said register of deeds, on the 4th day of February, 1892, at 9:40 o'clock a. m., in book 56 of mortgages, on page 573.

Which said mortgage, together with said debt secured thereby, was duly assigned by said Julia W. Powers, the assignee and holder thereof, to William C. Haney, by written assignment dated the first day of May, 1901, and recorded on the 23rd day of May, 1901, at 11 o'clock a. m., in book 99 of mortgages, on page 609-610, in the office of said register of deeds, and no action or proceeding having been instituted, at law or otherwise, to recover the debt secured by said mortgage, or any part thereof.

Now, therefore, notice is hereby given, that by virtue of the power of sale contained in said mortgage, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, viz:

Lot four in section thirty-three, in township one hundred and fifty, of range forty-six, containing 44 acres, more or less (Lot 4, Sec. 33, in Twp. 150, of R. 46,) in Polk county and state of Minnesota, with the hereditaments and appurtenances; which sale will be made by the sheriff of said Polk county, at the front door of the court house, in the city of Crookston, in said county and state, on the 13th day of July, 1901, at ten o'clock a. m., of that day, at public vendue, to the highest bidder for cash, to pay said debt of four hundred and five dollars, and interest, and the taxes, if any, on said premises, and twenty-five dollars, attorney's fees, as stipulated in and by said mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Dated May 29th, A. D. 1901.

—William C. Haney,
Assignee of Mortgagee.

—Samuel Morrison and
—R. J. Montague,
Attorneys for Assignee. 8-13

INSTITUTE CORPS

Composed of Men of Ability and Wide Observation in Each Department.

EXPERIENCE NOT THEORIES

Will Furnish the Foundation for Institute Work at Every Session.

We are in receipt of the following facts in regard to the proposed work of the farmer's institutes which will be held at various points during the present summer. It will readily be seen that these meetings will be of inestimable value to all who attend them, and should be well patronized. The announcement comes from Dr. Curryer, and is as follows:

The Institute force will be composed of John Gould, Aurora Station, Ohio, a man of national reputation in farmers' institute work. He will represent the dairyman's cow, illustrated with 14 large colored paintings, representing the different types, winter life of the dairy cow, stable comfort for the cow, silo building and filling, the value of ensilage as a part of the winter ration for profit, value of the corn plant as a winter food in the northwest. John Gould has a great fund of information that can be used to advantage by those who go to hear him. He is a genial "good fellow" whom it is good to meet and none will regret their attendance at the institute for what they can get out of his work.

Dr. C. D. Smead of Logan, N. Y., has been conductor of farmers' institutes in that state for 11 years, and is regarded as the stockmen and farmers' friend in that work throughout New York. He is the veterinary editor of the National Stockman. He has a very wide range of personal experience along the lines the farmers of the northwest are in need of. His talks on the preservation of the health of our farm animals of all kinds, their treatment when sick and how to make balanced rations for the work they have to do, is of such vast importance that no one interested in stock, or even in any of the farm stock products, can afford to miss this valuable man's work at the farmers' institute. Dr. Smead is a farmer and sheep raiser, as well as a busy veterinarian in the treatment of all the farm animals, from the chicken to the horse. It is well worth a day's time and a long ride to see and hear Dr. Smead.

Prof. T. H. Hoverstad, superintendent of the Crookston Experiment Station, will take up corn culture in the north, rotation of crops, seed selection and the destruction of smut, horse culture ,etc. Prof. Hoverstad is conversant with the conditions of the Red river farmers and their interest in the development of the country. He feels responsible for the character of work to be done in a great measure, and is anxious to do everything possible towards mprovement in the agriculture and stock of the northwest.

Mr. A. A. Barherree, place and topics not yet forwarded.

Every business man in the section where the state farmers' institutes are held is just as much interested in the farmer, as it is through his farmer customers that he gets his share of this appropriation, by experienced men coming among them with suggestions that will enable the farmers to raise better crops, grow better stock, enable the farmers to select the stock best suited to their conditions, and in many ways aid them in their own assistance for better surrounding conditions.

Such men as John Gould and Dr. C. D. Smead should be used to the best possible advantage while they are in thes tate, and not a farmer or those interested in farms or stock can under almost under any circumstance afford to miss this opportunity, as we have no "string on them," and it may be the last chance to get their valuable experience. It is all free. Get the word to everyone. Get your neighbors out to this institute, and neither you nor they will ever regret it. It is, or may be the opportunity of a lifetime. Just one day in a place, but let us be sure we have used it to the very best advantage. Success in life is in taking advantage of circumstances. "Git a plenty while you are gettin', says I."

After we have told you who you will see and hear at the institute, we now tell you that if for no other reason, every farmer in your region or country should be there, to get one of those valuable books to be given away at the close of the forenoon session. This is something to take home for daily reference in the farm work, and care of stock as well as in the household. Yours for success.

SHEEP HUSBANDRY.

IN MINNESOTA IS THE TITLE OF A BOOK BY PROF. SHAW

This useful little book is from the pen of Prof. Shaw, in charge of the Animal Husbandry department at the University of Minnesota. It was written, as theauthor states in the preface, in the hope that it may prove helpful to the farmers. It embraces some 216 pages, is nicely bound in cloth and is handsomely illustrated. It covers in the simplest language the whole ground relating to sheep husbandry, as adapted to Minnesota conditions, and as Minnesota conditions are virtually the same as in all the Northwest, the book is equally applicable to all that area. It treats of every phase of sheep husbandry, as adapted to the conditions of the farm, from the birth of the lamb until it is ready for the block. The individual who follows the instructions contained therein will follow a safe guide, even though previously acquainted with sheep husbandry. The book is published and distributed under the auspices of the Minnesota Livestock Breeders' Association. The first edition of 3,000 copies was soon exhausted. The legislature of Minnesota, at its last session, authorized the publication of a second edition of 10,000 copies It was written by the author without compensation and is dedicated to the farmers of the state. A copy will be sent to any farmer in Minnesota who forwards 7 cents for postage. Anyone outside of Minnesota can obtain a copy by forwarding 25 cents to the Minnesota Live Stock Breeders' Association. Address Prof. Thos. Shaw, Sec'y., St Anthony Park Minn.

ALL IS SERENE.

STRIFE OVER N. P. MANAGEMENT IS AT AN END.

New York, June 1.—Conflicting interests in the Northern Pacific railroad have reached a final amicable agreement upon all matters of disagreement and their future relations to the property. There had been no announcement of the terms of the new compact, which ends the most remarkable financial battle in the records of Wall street, and none of the details have been made public. The following statement went out on the ticker:

"It is officially announced that an understanding has been reached between Northern Pacific and Union Pacific interests under which composition of the Northern Pacific board will be left in the hands of J. P. Morgan, certain names having already been suggested, which will especially be recognized as representation of common interests. It is expected that complete and permanent harmony will result under the plan adopted between all the interests involved."

One of the stories heard after the announcement that peace had been declared was that at least two Northern Pacific directors would enter the Union Pacific board and that equal representation would be given to the latter road in the directorate of the first named.

A WICKED ONE

THE STAR RUNAWAY OF THE SEASON.

Mr. Albertson, a farmer living northwest of the city, drove his high spirited team to town Monday attached to a top buggy. When passing the Central hotel the bridle on one of the horses came off, and the team becoming frightened, began to run. They dashed down roadway at a terrific rate of speed and the spectators held their breath in full expectation of seeing the buggy overturned. Albertson, the only occupant, dashed to the ground when the team reached the end of the street and had to turn.

In an almost miraculous manner the buggy remained right side up, and the turn was made in safety. When half way across the bridge the harness broke and the team became detached from the buggy.

The vehicle took a short turn, running into the rig belonging to Commissioner Eastman. Mrs. Eastman, who was in the second buggy, was very badly frightened, but the two rigs were untangled with little damage to either.

Albertson's horses dashed straight ahead up the twenty foot railway grade, and were stopped on the top by Stephen Patterson.

ED TAKES THE JOB

AS TEMPORARY MANAGER OF LOCAL TELEPHONES.

Ed. Walsh, Jr., has been named by President Kerlin, of the Iron Range Telephone company, as temporary manager of the local system.

The choice falls upon a young man who has become practical in the line of applied electricity and the management of telephone business through experience gained here, and is an excellent one.

As stated in the Journal on Saturday the local force of obliging operators will not be changed for the present, and if the interests of the company are considered, they will be continued indefinitely.

TO BE DEPORTED.

N. D. CELESTIALS MUST RETURN TO FLOWERY KINGDOM.

Fargo, N. D., May 31.—Judge Amidon of the United States court has ordered the deportation of Fung Hen, Fung Chew and Lee Kee, three celestials who came across the international boundary line to Portal some three weeks ago. The Chinamen claimed to have formerly resided at Pittsburg, and had the testimony of some people identifying them. They failed, however, to secure the proper evidence from their alleged partners in the smoky city, and will be returned to tha flowery kingdom. They are much depressed over the decision of the court and assert that their partners refuse to aid them, so they would be able to secure all their property.

GOT $500 DAMAGES.

Fargo, N. D. June 1.—Ole T. Assen won out both in the United States and state supreme court this week. Some time ago the overseers of public highways in Noble township, in this county, turned a ditch across Assen's farm. The water did a great deal of damage and Assen plugged up the culvert. He was enjoined by Judge Pollock, but repeated the performance and was fined for contempt. The supreme court decided in his favor on the appeal. During the week he has had another case against the road overseers for damages in the United States court, and the jury awarded him over 500 damages.

FIRE AT THE FORKS

The Linseed Oil Mill Burned by an Incendiary Last Night.

THE TOTAL LOSS IS $35,000

Fiercest Conflagration in the History of the City. Firemen Severely Scorched.

Grand Forks, May 31.—The Grand Forks Linseed Oil Mill, owned by John Bannon, was totally destroyed by fire about 10:30 last evening.

The fire was one of the fiercest in the history of the city and all attempts on the part of the fire department were futile as far as checking the flames were concerned, and it was with great difficult that surrounding property was saved.

Mr. Bannon and several of the men were in the office when the fire started, discussing some business matters prior to his departure for Dayton, O., where he was to have purchased four additional presses to double the capacity of the mill for the next season's run. The fire was noticed before it had gained much headway, and started under the wagon driveway on the side of the building next to the street.

It was seen at a glance that nothing could save the plant owing to the nature of its contents, coupled with the fact that the outside was like tinder and everyhing in the mill was oil soaked. Heat was terrific after the oil tanks back of the mill caught fire, and the flames shot hundreds of feet in the air.

Mr. Bannon is satisfied that the fire was of incendiary origin, as there had been no fire under the boiler for several days, as the mill had been closed down until the next crop of flax was on the market. What makes Mr. Bannon more certain of this is that three other attempts have been made in the past to fire the plant, one but a few weeks ago, when some one had piled a number of empty oil barrels against the west side of the mill and set them on fire, but some Great Northern men noticed the blaze in time to extinguish it.

The owner had spent thousands of dollars in getting the mill in the best possible shape and equipping it with the very latest machinery, some of which was just being installed, the latter being a clarifying apparatus.

As to whether the mill will be rebuilt or not Mr. Bannon was not in a position to state last night, and nothing in this direction can be determined for some time.

Mr. Bannon places his loss on the plant at $25,000.

Loss on 13,000 gallons of oil at 60 cents per gallon, $7,800.

And in addition to this there were about 2,500 bushels of flax in the bins, making the total loss something like $35,000, with an insurance of about two thirds that sum; $8,000 of the insurance was cancelled by the insurance companies after the last attempt to burn the mill.

At 3 o'clock this morning after the firemen left the scene of the blaze and returned to the fire hall, they presented a sorry sight. The faces of all the members of the regular fire department were frightfully blistered by the intense heat and some of them will be laid up for several days. Several of the volunteers were badly blistered about the arms and face. One of the white horses was so badly scorched that he may lose an eye.

FROM NEAR AND FAR.

Zephyrs Wafted Through Pine Cones and Across Prairies.

Brainerd has let a contract for the erection of a new nine thousand dollar school house.

Conductor Cox had a leg broken Saturday by a flying pulley while loading a train with logs at Bemidji.

Hendrum is out after incorporation, the people believing they can secure more improvements under that plan.

A horse thief got in his work at Fargo the other night, taking a valuable horse belonging to James Crum, the groceryman.

The three year old son of Gus Carlson of Hallock, while playing with his sister, overturned a barrel of ice which fell upon him, crushing in his skull.

Editor King of McIntosh umpired a game of ball the other day between McIntosh and Fosston, and the Thirteen Towns intimates that he doesn't know three strikes from a back stop.

Red Lake Falls is going after a Masonic lodge. They have secured a goat and a few more get together every week and practice on each other. They expect to institute a lodge within a few weeks.

The Hallock News tells about three young ladies who were seen riding bareback a mile east of that village one day last week. Don't make any mistake now,—the horses not the girls were bare backed.

Editor Egley says there is work for the sanitary board yet to do at Erskine, incidentally mentioning a few manure piles in the back alleys and a dead dog lying on the bank of the lake which that body has overlooked.

The junk dealers on both sides of the Ruby where the river forks, are to be prosecuted for buying the brass fittings from C. A. Lystad's launch that were stolen by small boys. This form of encouraging vice should be discontinued.

Alex Van Praag, the irrepressible, is loose up in the north country again with his German dialect stores and his glad hand for the secret society boys. Alex is at the head of Odd Fellowship in this state and aspires to become the leader of the A. O. U. W.

Mrs. Sophia Grubb of Kansas, National vice president of the W. C. T. U., spoke on "Carrie Nation and her Methods" at the M. E. church last Friday and the Press says the local jag bazaars are still doing business at the old stand in Thief River Falls.

The Fessenden, N. D., paper tells how Attorney Foos hurled a cataclysm of Ciceronian invective at the defendant, and the Grand Forks Herald says a man ought not to be permitted to throw things like that in court. Some innocent bystander might be hit.

A militia company is about the most difficult proposition to handle that any city in the northwest has to deal with. The Grand Forks company is wanted for an attraction at Fargo's fire festival, and the members who cannot go will please turn in their uniform, says the captain.

Oscar Olson, who has been absent from home for a year, returned to Fosston last week and brought a case of diptheria with him.

Another case of smallpox has broken out there, too, which keeps the board of health from becoming ennuied.

Thief River is such a warm proposition that the sidewalk in front of Editor Smiley's sanctum got a blaze on itself one day last week. The acting fire engine balked, the second assistant chief got busy with a pail of water and the insurance companies avoided a loss.

A Finlander out at Bemidji stabbed one of the female inmates in a 'free and easy" resort on tenderloin row, and then cut his own throat. He was taken to the hospital. The news paragrapher has an idea that it would have been better for the community if he had gone to the graveyard.

Down at Hendrum Anton Duckleth tried leading a cow by tying it to the seat post of his bicycle the other day. The bovine did not appreciate the new invention as well as she ought to—and after giving Anton a chase that ought to qualify him for entering the 4th of July bicycle races, managed to reduce the value of the bicycle several dollars.

Some months ago John Sharpstein of Fargo was working as a brakeman on the Great Northern between Grand Forks and Duluth. While attempting to make repairs under a car, under orders, the train was started and he lost a foot. He instituted a suit for $20,000 and a settlement has just been effected for $4,150 He is a young man and will use a portion of the money in educating himself for some profession.

Up in Red Lake county, town of Sanders, a man named Fred Hanson got into the habit of getting the blues, and to jolly himself up a bit acquired the habit of thumping his wife. She began a suit for divorce and he had her brought before the insanity board. The neighbors stayed by the woman, proved she was sound in the attic and enjoined Hanson from disposing of any property until she got a whack at it.

A Ulen man has solved the problem of preventing the ravages of the worm which has done so much damage to the shade trees in the upper country during the past two years. He fastens a sheet of tanglefoot fly paper about the trunk near the ground, and when the worm decides that greens are in season and goes up to look for a lunch, he strikes the fly paper and goes no farther. The man of ideas now sits in the shade and feels happy while his neighbors stare at the sun through naked branches and wait for a second crop of leaves.

—Don't suffer from Dyspepsia and Stomach trouble; when you're tired of "cure all" remedies try Mull's Pioneer Stomach and Dyspepsia Cure. A dollar draft in each $1.00 box guarantees a cure.

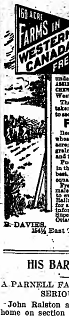
GONE TO NORWAY.

A party of three left Crookston Thursday, who will spend a year visiting among the scenes of their childhood in Norway. They are Hogen R. Locken and Miss Randi Wennevold of this city and Miss Gertrude Grodahl of Grand Forks. They will go direct to Christiansund, and anticipate a pleasant year.

CASCARINE AT ALL DRUGGISTS.
Cures biliousness, constipation and dyspepsia or money refunded. 50c. Sample and book on diet and cure sent for ten cents in stamps. Rea Bros. & Co., Minneapolis, Minn.

—Always kill it quickly. Any kind of pain. Mull's Lightning Pain Killer. No opiates, guaranteed pure. 25c. It's a wonder.

The Reason Why



160 ACRE FARMS IN WESTERN CANADA FREE

20,000,000 ACRES of the BEST GRAIN GROWING and GRAZING LANDS on the continent are being offered FREE is that settlement of these vast areas is required by the Government of the Dominion of Canada.

Location near lines of railroad already built or under construction in MANITOBA, ASSINIBOIA, ALBERTA and SASKATCHEWAN, most favored districts in Western Canada.

Thousands of Americans have taken advantage of the offer made to secure

Free Homes.

Deep soil, well watered, wooded, wheat averages 25 to 40 bushels per acre; oats 60 to 100 bushels, and other grains in proportion. Cattle thrive and fatten on the native grasses.

Fuel abundant, climate healthiest in the world, social conditions the best. Educational advantages unequalled. Taxation nominal.

Free Farms of 160 acres to every male of eighteen years of age, and to every female head of a family. Railroad and Government Lands for sale at low prices. For fuller information apply to F. Pedley, Superintendent of Immigration, Ottawa, Canada, or to

B. DAVIES, 154½ East Third St., St. Paul Minn.

HIS BARN BURNED.

A PARNELL FARMER SUFFERS A SERIOUS LOSS.

John Ralston and wife left their home on section 32, town of Parnell, Thursday, to come to Crookston and attend the Memorial day exercises. After coming half the distance, about three miles, Mrs. Ralston happened to glance back toward the house, and noticed a large volume of smoke ascending from the direction whence they had come. Mr. Ralston at first believed it to be on some of the neighbors' premises, and hoping to render some assistance, they turned back.

Before going far they realized that they themselves were to be the losers, and that it was Mr. Ralston's fine new barn that was furnishing flame food. Hastening as rapidly as possible they reached home only to realize that the building with all its contents was a total loss.

The barn was 24x42, two stories high, and the contents burned make the total loss about $900, which is a severe blow to Mr. Ralston at this time, as he has but recently opened the farm. Half his seed oats, his feed, a fine three year old colt, one cow, two sets of sleighs, a buggy, his outfit of farm harness, and considerable machinery are among the articles consumed.

Insurance to the amount of $100 had been written on the building, $200 on the horses and $50 on cows. A fourteen year old daughter had been left at home, and with her a four year old son. When the fire was discovered by the girl, the barn was wrapped in flames and she is at a loss to determine the origin of the fire.

27 INDICTMENTS

Fargo, N. D., June 1.—Twenty-seven indictments were found by the United States grand jury, which has adjourned. The majority of the cases were of minor importance for violating the prohibitory and timber trespass laws. It is understood several of the fraudulent homestead entries were investigated. One or two important indictments are said to have been found.

FINDS MONEY IN HENS.

An Illinois woman is conducting a poultry business which yields her $60 per month, besides supplying her large family with eggs and chickens. A cleverly designed "scratching yard" is a feature of her henery, which compelling the hens to work for their food in winter, seems to account in part for her marked success.

"Stop that cough right away with Mull's Lightning Cough Cure. It heals disease of throat and lungs. It's pure and good for children. 25c. For sale by S. A. Wallace.

S. L. Collins,
Livery and Feed Stables

Horses bought and sold on commission. Everything neat and nobby. Feeding a specialty.

POLK COUNTY WINS

Supreme Court says Red Lake County must Ante in the Division Game.

CASE STUBBORNLY FOUGHT

By the Attorneys for Both Contestants--Decision Reversed, Case Ended.

The supreme court of the state of Minnesota in a decision handed down Friday by Justice Lovely, has decided the question as to the division of the debt between Polk and Red Lake counties, existing at the time Red Lake was set off. The substance of such decision is favorable to the contention of Polk county, and the opinion is a reversal of the judgment of the trial court.

When Red Lake county was created from a portion of Polk, the total bonded and floating indebtedness of the county amounted to $94,342.57.

The general law covering the case was in effect, that when a new county was thus set off, that it was responsible for its share of all indebtedness of the county, less the value of the county buildings, the proportion to be based upon the assessed valuation of property in the new and old counties.

The appraised value of Polk county buildings in 1896 was $32,000, leaving a debt of $62,342.57, of which Red Lake county's share was $11,245.62.

Polk demanded that Red Lake levy taxes to meet its share of this debt, and Red Lake took no notice of the demand. In order to compel payment Polk began mandamus proceedings.

In the trial in the lower court Judge Watts held that Polk county must pay the indebtedness to the value of $32,000, due first on county buildings, and the balance of the indebtedness to be paid to the holders thereof as it became due by both counties, in proportions of assessed valuation at the time the new county was created; that the new county was liable not to the old county, but to the holders of the indebtedness for its proportion; that the old county could not maintain an action to compel the new county to levy a tax to pay any portion of such indebtedness.

The supreme court in reversing holds that Red Lake county must pay their proportion, $11,245.62, and the interest since 1896, as it comes due, to Polk county.

This case was conducted through the lower courts by A. R. Holston, who at that time was the county attorney, who was ably assised by Martin O'Brien. The brief for the supreme court was collaborated by the present county attorney, W. E. Rowe, and Attorney Martin O'Brien.

A NEW PASTOR.

WILL MINISTER TO CONGREGATION OF BAPTIST CHURCH

The Baptist Church society has tendered a call to Rev. I. Allen Corbett, now of the University Divinity school of Chicago, and from which he is about to graduate, by which he will assume the pastorate of their church. He writes that he will be unable to enter upon the work before June 23, at which time he will be present and preach his first sermon. Mr. Corbett is a single man, 33 years of age, and is just now completing his ninth year of consecutive student life in preparation for the ministry at various theological institutions. During the summer vacations of these years he has held pastorate relations with various churches, and is given very flattering recommendations by those who have been acquainted with his work. The church building, which is now undergoing repairs, will again be ready for occupancy by the date above mentioned, but meanwhile no further public services will be held there.

500 HUMAN SKULLS.

FOUND ON A FARM IN CANADA. WHOSE WERE THEY?

Toronto, June 1—On the farm of Andrew Bean at Jordan, Ont., there has just been plowed over 500 human skeletons No record in history accounts for such a find. There is no account of a battle in that neighborhood, Skulls are found from that of an infant to the fully developed one of the adult, so it must have been a whole village destroyed by some ruthless enemy. But who were they? There was no settlement of white people there to be destroyed, and before the advent of the white men, two great tribes of Indians—the Hurons on the west and the Iroquois on the east—had agreed by treaty to recognize this territory between the two great lakes from Niagara, extending westward about 40 miles, as neutral territory. Before that they had warred over this section but as neither could hold possession, there was no village of either tribe to account for such a wholesale slaughter as this has been.

SOLDIER'S LIFE SUITS TAUSAN.

Geo. Tausan, well known in Crookston, now a member of the Third regulars on duty in the Philippines, is closing a three months' furlough with his parents at Warren. George went out with his regiment in 1899 as a short-term man and re-enlisted for three years. He is learning Spanish and may stay after his term expires and make a fortune in some of the openings offered there. The duties of soldiers now are largely of a police nature, and consist in supervising the work of the native police, to whom most of the work is being transferred as rapidly as possible.

RAIL NOTES.

Work on the depot at Turtle River, out east, has commenced, and an agent will be installed next week, after which date freight trains will run to that point.

Another logging train went to smash last week 35 miles south of Bemidji on the B. & N. M. track, and the wreck was not cleared away in time for the passenger to get there before seven o'clock the next morning. But the mail and north bound passengers were brought up on a freight train the night before.

The Halvorson & Richards company, which has some of the largest railroad contracts in the Northwest this season, has raised wages on the surfacing work on the Brainerd & Northern extension from Bemidji to Big Falls from $1.75 to $2.00 per day. It is the highest paid in the northwest for this class of work. The Halvorson & Richards company is not only requiring men for railroad work north of Bemidji, but has a contract for 23 miles of new road from St. Croix Falls northward toward the head of the lake, to be built this year. The company has just secured another contract for 60 miles of new track for the Soo line in the Dakotas.

INHALED FLAME

WHILE ATTEMPTING TO SAVE HIS STOCK AND MAY DIE.

Battle Lake, June 3.—A disastrous fire occurred in our village Saturday afternoon. Charlie Sherman, who had been working on the road, came home, unhitched his horses and put them into the barn. He noticed smoke issuing from some hay near the front entrance and called to the house for help, but before he could get water the barn caught fire. He then tried to get the horses out, but could not get them through the flames. The heat became so intense that he had to get out of a back window and leave his horses to their fate. His clothes were all afire, and he was badly burned about the head, neck and shoulders. His hands were so badly burned that the skin came off like a pair of gloves. Dr. Jones not being at home, the poor boy had to endure the most intense angony until a physician arrived. He was put under heavy opiates and everything possible done for him, but it is feared that he has inhaled some of the flames.

The fire soon reached Mr. Colehour's barn, ice house and other buildings, which were all burned to the ground. A cow of Mr. Colehour's was also burned.

RAISED MONEY ORDERS

DEVILS LAKE GIRL DOES JIM THE PENMAN ACT

Fargo, June 3.—Ethel Hartness was before Judge Amidon Saturday charged with having raised postoffice money orders on the Minnewankan postoffice. She was arraigned before the U. S. court and pleaded guilty as charged and was bound over to the Devils Lake term of court in bonds of $500. She was unable to furnish the bonds and was committed to the Benson county jail to await trial. It is said that the woman purchased two money orders at Minnewaukan, one for 25 cents and the other for 30 cents. She then erased the long lines drawn by the postmaster in each of the orders and wrote $75 on the order for 25 cents and $99 on the order for 30 cents, raising them the amounts in dollars. She sent one of the orders to T. M. Roberts of the Minneapolis Supply house in payment for a bill of goods and the other to a St. Paul bank asking that the bank send her a draft for the amount. Inspector Drake of the postoffice department worked out the case. It is the opinion of some of the officers that the woman is not quite balanced mentally, as the work was that of a novice, and from the woman's behavior it is thought she is demented.

A NARROW MARGIN

THE DULUTH TRAIN ESCAPES A SERIOUS WRECK.

Frank Benoit, who handles the mail on the Duluth line, passed through the city Saturday with a scared look on his face and his hair still standing. On the trip east the evening previous while crossing the high trestle between Superior and Duluth, the train came up standing without warning, and Frank described a graceful curve through the air and lit on his head in the corner of the car. Restoring his equilibrium, he opened the door and discovered that the front truck of the tender had left the rails and was within eight inches of the end of the ties, when the halt was made. Had it gone off, the mail car would have followed, and the balance of the train would have piled on top. It was a close call from drowning or being crushed to death, and Mr. Benoit had a scare coming.

GAS EXPLOSION

Wrecked Big Building in St. Paul Saturday Causing Serious Loss

15 LIVES ENDANGERED

But no Fatalities Occurred--Was Caused by Gasoline Fumes

With a noise that could be heard for blocks, an explosion demolished the 3-story brick building at 55 and 57 Indiana Avenue West, St. Paul, Saturday afternoon.

The walls and roof of the structure shivered, and a portion of the roof collapsed at the rear. The concussion blew off the top of a gasoline tank containing one hundred gallons, and a fierce fire originated. Before the blaze was extinguished, property valued at $10,000 was destroyed. During the explosion the lives of 15 persons, three of them young women, were endangered.

The building where the explosion occurred is occupied by the Northwestern Dyeing, Cleaning & Finishing company. The trouble is thought to have been caused by the accumulation of gas from the clothes in the air tight dyeing room. Gasoline is used in the cleaning process.

As the employes were prepared to leave their work at the end of the day the terrific concussion took place, shaking the building and alarming the neighborhood for blocks around. William Wack was nearest the dye room and he was thrown against a wall, but recovered in time to make his escape and send in the alarm. The other persons in the establishment quickly made their exit, and none were injured.

The flames raged furiously and in a short time the walls, which had been shaken by the explosion, fell to the ground, augmenting the fire which spread to two adjoining frame dwellings. The heat was so intense that the department had great difficulty in contending with the common enemy, and the tenants were unable to save their goods.

For hours the inflammable gasoline in the tank continued to burn. It was fortunate that the top was blown off or a more terrific explosion would have occurred when the contents of the tank ignited.

Frank Rochex, a member of the unfortunate firm, left his watch and vest in the building. He says that the company will resume business at once in temporary quarters. The loss to the firm is almost covered by an insurance of $9,500. One of the degree teams of a Modern Woodman camp had 15 suits in the building, but they were saved.

WITH THE DEAD

MORTUARY MENTION IN CITY AND COUNTRY.

Pearl, the infant daughter of John Bergum, died Saturday night, measles being the cause of death. The funeral occurred at 2o'clock Tuesday.

Frank, the little 4 months' old son of William Miller died Sunday night, whooping cough being the cause of death. The funeral was held from the home at 3 o'clock Monday afternoon.

Mr. and Mrs. N. Peterson, living a short distance from the city, mourn the death of a little son, who died Sunday from the effects of a severe case of whooping cough.

Joseph Kloety, the boy who was ruptured while at Thief River Falls with the base ball team Monday, died at Bethesda hospital Sunday night. His father, E. J. Kloety, took the remains to Ada Monday night. Funeral services were held there Tuesday.

Daniel, the 3 year old son of E. E. Lommen died Sunday afternoon at 1 o'clock. The child was taken sick Friday, but for the first day or two the family thought that the little one was coming down with measles, and did not regard it as a serious case. Dr. Just, when called, pronounced it a case of spinal meningitis, and although everything possible was done, the boy became rapidly worse. The funeral services were held at the Scandinavian Methodist church at 2 o'clock Tuesday. The body was interred at the Union cemetery, four miles west of the city.

HUNG FIVE, HORSE STEALING.

Susanville, Cal., June 1.—At Lookout, Modere county, Calvin Hall, his three sons and a young man living with Hall, were arrested for horse stealing.

Thursday night the five men were taken from custody by a mob of about fifty persons and all were hanged.

Hall was a man of considerable intelligence. His wife was a squaw.

FOR SALE—A good seven room house and lot for sale, No. 311 Fourth street, near the N. P. depot. Also a small barn. Those wishing to purchase will do well to call on Mrs. H. E. Cooke at once and get price, as she expects to return east soon. She can be found at the residence of F. W. Hall, 228 Houston ave. D1 W1

"Pleasant Dreams"

Cries the young maid to her mother, as she retires to rest. The mother smiles, but sighs. She knows that the pains that rack her will not stop for darkness, and that if she sleeps her dreams will only be echoes of the sufferings of the day.

Why not sleep soundly and rise refreshed at morning, with strength and courage for the day's duties? Weak, nervous women, sufferers from backache, bearing-down pains, and other womanly ailments, have found a perfect cure in Dr. Pierce's Favorite Prescription. It heals the womanly diseases which cause the pains and nervousness. It makes weak women strong and sick women well.

"I deem it my duty to express my heartfelt gratitude for having been the means, under Providence, of restoring me to health," writes Mrs. B. H. Munn, of Springhill, Leon Co., Fla. "For nearly two years I suffered from female weakness so I could not stand on my feet any length of time; could scarcely walk at all. Appetite was much impaired; I had bearing-down sensations; can't express how badly I *did* feel. Had tried several kinds of medicine which did me little or no good. At last decided to try Dr. Pierce's Favorite Prescription. I had not taken all of two bottles before I saw it was benefiting me, so I continued to take it until I had taken seven bottles, when I felt entirely cured. Did not feel a touch of my old complaint. It has been over a year since I took your medicine, and I can truthfully say that my health has been better for the last year than it had been for four years previously. "You may publish this as a testimonial."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent *free* on receipt of 21 one-cent stamps to pay expense of mailing *only*. Address Dr. R. V. Pierce, Buffalo, N. Y.

LAXAKOLA
THE GREAT TONIC LAXATIVE

If you have sour stomach, indigestion, biliousness, constipation, bad breath, dizziness, inactive liver, heartburn, kidney troubles, backache, loss of appetite, insomnia, lack of energy, bad blood, blotched or muddy skin, or any symptoms and disorders which tell the story of bad bowels and an impaired digestive system, **Laxakola Will Cure You.**

It will clean out the bowels, stimulate the liver and kidneys, strengthen the mucous membranes of the stomach, purify your blood and put you "on your feet" again. Your appetite will return, your bowels move regularly, your liver and kidneys cease to trouble you, your skin will clear and freshen and you will feel the old time energy and buoyancy.

Mothers seeking the proper medicine to give their little ones for constipation, diarrhea, colic and similar troubles, will find Laxakola an ideal medicine for children. It keeps their bowels regular without pain or griping, acts as a general tonic, assists nature, aids digestion, relieves restlessness, clears the coated tongue, reduces fever, causes refreshing, restful sleep and makes them well, happy and hearty. ☞ *Children like it and ask for it.*

For Sale by F. H. HILLARD & SON
CITY DRUG STORE.

Laxakola is not only the most efficient of family remedies, but the most economical, because it combines two medicines, viz: laxative and tonic, and at one price, 25c. or 50c. At druggists. Send for free sample to THE LAXAKOLA CO., 132 Nassau Street, N. Y., and mention the name of your druggist. ☞ We will express to any address on receipt of 50c. in stamps or post note, all charges prepaid, a large Family size bottle of Laxakola, sufficient to last for a long time

Around the Country.

Weekly Reports From the Journal's Corps of News Gatherers.

GABY.

Mr. and Mrs. Jones spent Sunday at Ada.

Editor Rishoff and P. E. Schnistad were Fertile visitors Monday.

Editor Knappen of Fertile was observed on our streets Sunday.

Miss Sarah Iverson visited with friends and relatives at Twin Valley Saturday and Sunday.

Rev. Elstenson, who has been sick for some time, went down to Minneapolis Saturday for medical aid.

Mrs. John Lien went down to Ulen last Saturday, where she will spend the week visiting with relatives.

The Green Meadow nine played the Gary nine on the latter's grounds last Sunday. The Gary nine were the winners.

Ed Witasek had the misfortune to break his leg in a runaway while hauling lumber. Dr. Meighen set the broken limb, and took him to Bethesda hospital in Crookston.

Reverends Lien and Hole and several of the members of the Strand congregation went down to Hitterdal Monday to attend the "Kredsmode," which is being held there this week.

ST. VINCENT.

Alex Gamble, Jr., has left for his home at Boulder, Col.

A large delegation from here attended Hallock's big show the 30th.

Our ball team met defeat at the hands of the county capitol's crack nine.

Rev. Flesher and family drove to Hamilton, N. D., on Decoration day.

The much needed rain is with us and our farmers are consequently happy.

C. J. McCullom of Hallock was shaking hands with his St. Vincent friends last Wednesday.

The I. O. F. are now comfortably housed in their own hall. They expect to dedicate their hall on the evening of June 12.

Dep. Col. J. J. Thompson of Pine Creek passed through here this week enroute to Warroad to assist with the work at that port.

P. A. Le Masurier, who has been ailing more or less the past year, is now very dangerously ill. The physicians pronounce his trouble to be cancer. His friends have practically given up all hope of his recovery.

WARREN.

Miss Adams took her departure Monday evening.

Olga Bloomsmith spent Thursday in Crookston.

Miss Brill came down from Stephen Friday night.

The Argyle band furnished music Decoration day.

Mr. Brady of Stephen was a Warren visitor Saturday.

Miss Cora Peck wheeled down from Argyle last Thursday.

Miss Helen Franklin came down from Argyle Friday night.

Miss Josephine Cormier of Argyle visited friends in the city Friday.

Miss Haven left Saturday night for her home in the southern part of the state.

Walter Robertson and Enos Nutt of Argyle were visitors in the city Thursday.

Wm. Box returned Saturday morning from a visit with relatives in Chicago and Iowa.

The many friends of Rev. Hutton are glad to learn that he has decided to stay in Warren until the end of the year.

A farewell party will be given Miss Jennie Searles Tuesday night. She will leave in a few days to join her parents in their new home in Washington.

Rev. Hutton will deliver a lecture at the opera house Friday night, after which ice cream and cake will be served. The proceeds will go to the S. A. S.

Today at the home of the bride's parents occurred the marriage of Miss Lena Taralseth and Mr. Mossefin of Crookston. Also the marriage of Miss Emma Erickson and Jack Lindquist. Both couples are well and favorably known and have a host of friends who join in wishing them a long and happy wedded life.

Our school closed last Friday with quite an entertaining exhibition, given by the pupils of the different grades, and it was very highly appreciated by our citizens. The way each pupil had mastered his or her part of the program showed very plainly that they had received the proper training. The exhibition was given in the opera house which was crowded to its utmost capacity. At night, the graduating exercises were carried out in grand style, managed by Prof. Angus and his corps of teachers, assisted by the board of education. There were five graduates, as follows: Ella Brady, Synneva Grindeland, Genevieve Searle, Monrad Gison and Fred Eneix. Each of the graduates favored the audience with an essay which they mastered to perfection. Grand music was furnished at intervals by some of the best musicians in the city. W. F. Powell, president of the board of education, presented the diplomas to the graduates, at the same time delivering a grand and touching speech. Miss Genevieve Searle has been offered a year's scholarship free in three of the best universities in the state on account of her high standing. Warren can proudly boast of having one of the best graded schools in the state.

MALLORY.

Willie Bain Sundayed at Euclid.

Miss Pearl Coulter was at Grand Forks Friday.

Mrs. Frank Jarvis drove to Grand Forks Friday.

C. R. and Robert Coulter drove to Crookston Monday.

Miss Etta Coulter is visiting her cousin, Miss Pearl Coulter

Miss Eva Rogers and Wilbur Coulter drove to Key West Sunday.

Mesdames Coulter and Bowen were Grand Forks shoppers Monday.

Miss Maud McVeety, of Grand Forks, visited her parents over Sunday.

Mrs. Bose McMahan and Miss Bessie Packard were at Bemidji Sunday.

Dave Fleming, E. Erickson and Jas. Campbell wheeled to Grand Forks Sunday.

Mr. and Mrs. D. B. Ferguson visited friends in Grafton the latter part of the week.

S. H. Ingberg finished his school duties Friday and left for his home at Hendrum on Monday.

C. L. Coulter's new house is about completed and will be ready for occupancy in a few days.

The remains of Bertie McVeety, who was drowned at Grand Forks Saturday, were laid to rest in the Marais cemetery Tuesday afternoon.

MAPLEBAY.

M. Gronvold has moved his family to Crookston.

Mrs. H. O. Wik has moved into the Gronvold residence.

Knute Olson has a new row boat ready for use this summer.

A number from here took in the field day exercises at Fertile Monday.

C. Chalmers, A. Wade and J. Matheson with their families spent Sunday at the bay.

Wm. Klinger came out from Crookston and visited Saturday and Sunday with his family.

C. Nelson visited at home from Saturday till Monday, returning to Crookston Monday morning.

Mr. and Mrs. H. A. Bakken entertained E. B. Gustafson and family of Fertile Saturday and Sunday.

Rev. S. E. Gdland left Monday for Willmar and will join his family in a visit to relatives and friends before returning.

SLETTEN.

John O. Johnson and wife of Bagley are visiting with friends and relatives for a few days.

Ingebret Thorson left last Tuesday, going with team to Devils Lake, N. D., where he expects to stay for some time.

H. H. Haugan returned from Winsor Friday. He will move with his family to his claim there the latter part of the week.

Landseekers have been quite numerous around here this spring and some have used their opportunity and invested in choice farm lands.

O. N. Nilson of this place cut about three tons of hay on the meadow here Thursday of last week. This is quite early haying for this country. However, the grass is over two feet high.

The parsons of the United Lutheran churches in this vicinity held a meeting commencing the 30th and ending Sunday, June 2, at the Bethel church. Quite a number of visitors and others were attending.

ADA.

Florence Andrist returned from St. Paul last Sunday morning.

Miss Thacker left last Friday night for her home at Glenwood.

Misses Moffatt and Wilson were over from Twin Valley Thursday.

Everybody is wearing a smile since this rain came and crops look nice.

G. L. Thorpe returned from Iowa last Friday morning, where he had been visiting friends.

Mr. Lentgi's family arrived from Red Wing Sunday morning. They have rented the building just vacated by Mr. Brooten.

The concert given by the Cadet band Thursday night was well attended and a real success. The boys netted about $60.

I. B. Severtson was elected delegate to represent the I. S. W. A. lodge of this place at the head convention at Superior the latter part of July.

T. T. Brooten has rented the Park hotel and assumed charge of it Saturday, an now it is Landlord Brooten instead of Register of Deeds Brooten.

Memorial day was observed here by the usual exercises. The procession formed at the fire hall at 1:30, and consisted of the Ada Cadet band, members of the G. A. R. post, members of the Woodmen and Yeomen and citizens and carriages, and marched to the cemetery. W. B. Chesley and A. G. Gerber were the officers of the day.

Joe Kleoty, who was injured in a ball game up at Thief River Falls, and afterwards underwent an operation at Crookston, died at that place Monday morning. The remains were brought here for burial Monday night. The funeral took place Wednesday forenoon from the Catholic church. He was about twenty years of age and had spent most of his life at this place. He was at one time a member of the Modern Woodmen but had withdrawn from the order a few months ago.

ARGYLE.

Victor Tiedt spent Sunday at Crookston.

Dan Robertson tarried over night at Crookston Friday.

Miss Munsfield of Warren is visiting at the home of John Hunter.

Mrs. James Scott spent several days visiting with friends at Euclid.

Mrs. B. S. Buckingham spent the week visiting relatives at Crookston.

Miss Minnie Keye attended commencement exercises at Warren Friday evening.

Mrs. Chas. Segerstrom, who spent several weeks at Seattle, returned to her home last week.

Mr. and Mrs. C. J. Arneson are rejoicing over the arrival of a daughter since Saturday night. Cigars are in order.

Mrs. Wm. Cronkhite and daughter Grace attended commencement exercises at Crookston. Miss Emma Cronkhite was a graduate.

Mr. and Mrs. T. L. Bennewitz and family, also Mr. and Mrs. J. W. McKay and son, spent Memorial day at Warren, the guests of Mrs. H. Bennewitz.

The teachers of our public school, having finished their eight month's term of school, returned to their homes in different parts of this state Friday evening.

Mrs. W. E. Bowe and son of Crookston are visiting with relatives here this week.

Mrs. P. Kirsch and younger son left Saturday evening for an extended visit with relatives at Milwaukee.

Mrs. Sophia Grub, the national W. C. T. U. lecturer, of Kasson, spoke to large audiences on three evenings at the Methodist church, June 2, 3 and 4. She also held parlor meetings Monday and Tuesday afternoons.

ST. HILAIRE.

Hon. Chas. G. Rapp is on the gain.

Miss Mary Quande was down from Thief River Falls Sunday.

Miss Laura Betts returned to her home at Litchfield Friday last.

Dr. Argue, the Red Lake Falls dentist, was in town Monday and Tuesday doing dental work.

Miss Kyle left for Crookston Saturday, where she will spend her vacation from school duties.

We understand that the Brink brothers will take charge of the Markham hotel and bar the 10th of June.

John Forseen arrived home last week from St. Paul, where he underwent an operation for appendicitis.

J. J. Soll severed his connection with the Spectator Monday last and will hereafter engage in other business.

Miss Ellen Brady, who has been teaching school here for the past year, returned to her home at Red Lake Falls Saturday last.

Chas. Latta, formerly of the People's Press, of Crookston, arrived in the city Monday to take editorial charge of the Spectator.

Adolph Hall spent a day or two at Thief River Falls last week helping out the Press force, while one of their typos was on the sick list.

The Thief River Falls band boys came down Sunday to visit with the St. Hilaire band boys. During the afternoon, our people were favored with music by both bands. The upper Falls band returned in the evening well pleased with their visit here.

The Lumber company lost one of their best teams last Saturday night by drowning. Being too close to the bank, they were precipitated into the water below, and before help could arrive to detach them from the cart they were hitched to, they became exhausted and drowned.

MENTOR.

J. E. Tice left for Crookston Monday to serve on the grand jury.

Steve Quesnell is erecting a very fine residence on his farm north of town.

Rev. J. Brynjulfson left last week for his old home in Kansas for an extended visit.

John Bohn has bought a span of Hambletonian drivers from Mr. Engleking to use on his Maple Lake bus.

The long looked for rain arrived Monday afternoon and continued all day Tuesday, and the farmers are all happy.

The Mentor base ball nine went to Poplar River last Sunday and played a game with the local team. The score was 12 to 27 in favor of Mentor.

The following people have arrived and are encamped at Maple Lake: B. Anderson, A. Rapin, S. Rosenthal, C. L. Lough and Dr. Akern and more are expected in a few days.

The several congregations of the United Lutheran church held two day's services here last week, which were very largely attended by people from far and near. The following ministers were in attendance: Revs. Reinertson, Wilkie, Rofsdal, Kolstoe and Sanlund.

ERSKINE.

Born to Mr. and Mrs. Finaand Saturday, a boy.

Loren Dillon is visiting with old friends at Fertile.

G. Stenson went east on the Sunday morning train.

Mr. and Mrs. A. Egley of the Echo spent Sunday at the Hub.

P. Rolsum sent three of his car movers to the Buffalo exposition last Monday.

Mrs. A. C. Bratro received a draft for $2,000 from the Woodmen camp on May 31st.

The next show company will be at Erskine Friday and Saturday night, June 7 and 8.

Druggist Borch and family of McIntosh passed through our town Sunday bound for an outing at Maplebay.

Mrs. Strube, Miss Dargan and Mr. Dargan, Jr., are spending a few days visiting with Mr. and Mrs. W. J. Dargan.

Gunder Thomson's residence was visited Sunday night by sneak thieves, but a butcher knife and a sad iron in the hands of Gunder put the intruders to flight.

The house belonging to P. A. Mark, six miles south of Erskine, burned to the ground last Wednesday morning with all its contents. The fire started from the stovepipe.

ELDRED.

O. E. Jevning is at present employed at Tornquist, Stortroen & Co.'s, Climax.

Mrs. C. A. Monson returned Monday from a week's visit with her parents at Nehy.

C. Monson and son have fifteen forties of meadow for sale, which is of the best hay land in the country.

Rev. H. P. Fisher will preach here on Monday evening the 10th. You are all requested to come.

Monday night's rain has satisfied the fields around here and the indications are excellent for a good crop.

The Woodmen camp will give a dance here on the 14th inst. All are cordially invited to attend. A grand time is expected.

Who dares offer any excuse for not having the creamery in full operation? A year was taken to make preparations for what would have been done sooner and better in the usual way. Who is to blame? We don't care. Get it started, that's all we ask.—A Farmer.

BIRKHOLZ.

S. S. Trickey and family were visiting at this place on Sunday.

Miss Annie Donohue of Centreville, N. D., visited at the postoffice last Friday.

A cousin of the Misses Dalen, from Grant county, is visiting her relatives at this place.

Miss Lena Dalen, who has been attending school at Argyle for the past year, is home for a vacation.

The dance at Snake on Saturday evening was attended by several couple from this place. All report a jolly time.

Johnnie spends his Sunday evenings on the Dakota side of the river, and says it "seems more like New York." Oh, Johnnie!

Several parties from Grand Forks have been patroling Red river lately looking for the prisoners who broke jail not long since. Different people claim to have seen them, but the officers failed to capture anyone.

LENGBY.

There will be a meeting at the Synod church next Sunday at 11 a. m.

The tile mill is now running every day and tiles are being pushed out rapidly.

The ladies' society of the Synod church meets with Mrs. C. Molstad Wednesday, June 12.

We had quite a good rain Monday night and Tuesday which will start everything to growing nicely again.

S. S. Stadsvold and Lewis Lohn of Fosston came over to their brick and tile plant here Wednesday of last week.

Mr. and Mrs. George Welte and little son Clarence of Bagley drove over to visit with Mr. Fredrickson's Sunday.

The creed meeting held at the Synod church was attended by more people than any meeting held before at Lengby of any kind for many days. Rev. Sathre of Fosston, Rev. Nesseth of Lengby, Rev. Norman of Leon, Rev. Clausen of Bemidji and Rev. Oppegaard of McIntosh were present and a large number of each of their congregations, chosen delegates and members, came from far and near. It was one of the most interesting events that has occurred at that place and it will long be remembered by those who took part in it.

DONALDSON.

Axel Miller was threshing flax last Sunday.

Ole Myre was a pleasant visitor here last week.

Martin Lund just started in seeding Monday.

Herb Shepherd returned from the woods Monday morning.

F. C. Taft is building a butter house. Now for the warm weather.

Glenn Grovan came up from Stephen Monday and went on east of here.

A. Nelson and A. F. Hallberg made Kennedy a flying visit Thursday.

F. C. Taft and J. G. Whittemore went east to Pelan Sunday looking up some land.

K. J. Lind and Landlord Hallberg took in the sights of Kennedy Saturday evening.

The gasoline engine is being installed in the Independent Elevator company's office.

Tom Nichols, our new liveryman, is busily engaged hauling stuff to the dumping ground.

George Hallberg went out west Thursday in search of some wolves, but returned empty handed.

Axel Miller went down to his farm last week to put his separator in shape for threshing flax.

Mr. and Mrs. F. C. Taft visited Hallock on the 30th; also Miss Satermo and J. G. Whittemore.

K. J. Lind and Erik Hoglund went to Stephen Thursday, with Blomsness' trotter as their locomotive.

Len Craig of Stephen passed through town Sunday enroute for Laughlin's, where he is often seen to go.

T. C. Hickey recently sold his quarter section of land, but has purchased another right south of here at a bargain.

Henry Stone of Stephen came up on the Wednesday Flyer and went to Hallock the next day, accompanied by his best girl.

The Hallock base ball team is certainly afraid to give us a return game on our grounds, as we have asked them twice to come.

Swan Myre went down to Crookston Saturday to see the catarrh specialist, as he is afflicted with that disease. He returned Monday after having an operation performed.

HALSTAD.

J. G. Nygaard hiked over to Ada last Friday.

Mr. and Mrs. Carl Sulerud of Gary visited with C. K. Semling over Sunday.

Oscar Hoga returned last Monday from Culbertson, Montana, and is at present staying with B. B. Larson.

A number of people surprised J. C. Sulerud at his farm three miles north of town last Sunday and a good time is reported.

Mr. and Mrs. H. Johnson of Spring Grove visited with Oscar Henderson of this place over Sunday, while on their way to Portland, Oregon.

The Halstad nine and the Caledonia nine crossed bats on the Halstad diamond last Friday, and twelve innings were played. The score stood 9 to 10 in favor of Caledonia.

GENTILLY.

David Corbin has taken the contract to dig a cellar for the priest.

Joseph Plante of Gentilly has commenced the building of Toussant Brull's house.

Monday the Gentilly Dairy association shipped a big load of cheese to Crookston.

Mrs. Beloni Menard has a little daughter, which is her 22nd child. Mr. Rabi of Washington was godfather and Mrs. Beloni Menard of Red Lake Falls was godmother.

Mr. and Mrs. Sam Charron are the happy parents of a daughter, who was born to them last Sunday. Joseph Lahonte and Agnes Patneaude are its godfather and godmother.

THE MASONIC QUARTET

MINNEAPOLIS' FAMOUS MUSICAL AGGREGATION.

President Tom Morris is wearing a cheer up air, all due to the fact that he has received the assurance of the Masonic quartet, the famous aggregation of Minneapolis singers, as a feature that will enliven the social and business sessions of the forthcoming convention.

The members have much desired to attend the big Shrine meeting to be held in Kansas City on the same date, as 500 of the Minneapolis Shriners will go on the trip, but President Morris claimed the fulfillment of a promise made a year ago, and they will be in Crookston.

This of itself is a stellar attraction and those who have had the pleasure of hearing the famous quartet at any of the meetings in the Twin Cities, where they are always a drawing card, will appreciate the satisfaction felt by President Morris in securing its attendance.

PROTECT YOUR FURS

By using CEDAR ANTI-MOTH BAGS. Size 24x36 inches. GUARANTEED VERMIN PROOF. Neither Miller, Moth nor Mouse will go near them.

Bags are strongly impregnated with Odor of Cedar (odor lasts as long as bag.) Send post paid on receipt of $1. Agents wanted. Manufactured by Frink & Reynolds, 32 E. Fairfield av., St. Paul, Minn.

ROYAL Baking Powder

Makes the bread more healthful.

Safeguards the food against alum.

Alum baking powders are the greatest menacers to health of the present day.

ROYAL BAKING POWDER CO., NEW YORK.

GENTILLY CHEESE FACTORY

IS NOW BEING WORKED TO THE LIMIT.

The Gentilly Dairy association is giving a good exhibition of a successful institution, carefully managed and backed by a progressive lot of farmers. It is turning out a quality of cheese that maintains the high reputation it has won in the state and in Wisconsin, and every pound made is contracted for in advance.

The management has been so successful in enlisting the support of the farmers that the receipts of the mill have averaged upwards of 6,000 daily of late, and some days the amount received was in excess of the capacity of the institution, and a few times the farmers have been compelled to take their milk back home.

The management has decided to increase the capacity of the plant and has purchased a new press and the necessary vats and other appliances, which Mr. Verity, the expert cheese maker, hopes to have installed and ready for operation within a week, so that in future he can take care of all the milk that is offered.

IRONING MADE EASY.

Dry the starched articles perfectly, then dip them in a pail of boiling water and pass them through the wringer twice. They may then be ironed at once, or they may be rolled up in a dry cloth. The fabric may be ironed with greater ease after being dampened in this way than when sprinkled in the usual manner. Turpentine in starch gives an added whiteness and lustre to the ironed article. Use one tablespoonful to a quart of starch.—June Ladies' Home Journal.

An attack of heart trouble prostrated F. H. Hilliard while in his store yesterday afternoon. Dr. W. H. Smith was present when the attack occurred and Mr. Hilliard was taken home an hour later. All will be pleased to learn that he is much improved today.

New York Department Store.

A SPECIAL BARGAIN MOVEMENT

That will create a wide-spread interest with every one desiring to save money on their purchases. Astonishing when you see the goods and hear the prices we are quoting. The fact is we live up to every item and price quoted.

ASK TO SEE the new things in Ladies' Shirt Waists from 35c up.

5c A Fine Quality Corded Dimity 5c
Valued at 8c per yard, while they last, per yard............

8c 36-Inch Percales, 8c
In light and dark patterns, regular 12½c quality, special, yd..

12½c Crash Skirting, 30 to 36 in. Wide. 12½c
Never sold for less than 20c a yard; will be sold for per yard............
JUST A LITTLE WHILE.

44c All Wool Scotch Suiting, 44c
36 inches wide, makes fine summer skirts and suits, 59c value, now per yard............

If you have had trouble in getting comfortable shoes ask our Shoe man to fit you with a pair of PINGREE shoes and then you'll wear a good shoe with a smile.

THE FIRE FIGHTERS

Have Held Posssession of Crookston for Three Days

GOVERNOR S. R. VAN SANT

Delivered Stirring Address Before the Convention Yesterday

The firemen's convention has been the all absorbing event of the week in Crookston.

The streets have been crowded all the time, and a jollier lot of men never hit the pike for a good time. Well behaved in every instance, sober, polite, gentlemanly, but full of fun their style of hilarity was commendable and contagious.

The hotels were taxed to accommodate the guests, but they were all cared for without difficulty, though many slept in cots. Every visitor in the city is praising the local firemen and Crookston people in general for their success in entertaining the crowd, and the hearty good will everywhere expressed.

Wednesday was the most important day of the session. Rain Tuesday night was not so serious in effect as was feared. It damaged the decorations, but Wednesday morning broke reasonably clear and the streets dried up so that by noon the city was in its normal condition.

A large delegation headed by a guard of honor composed of Col. Cobham post G.A.R., escorted by the band met the Great Northern train upon which Gov. Van Sant arrived. He breakfasted at the residence of A. D. Stephens and spent the early hours looking over the state experiment station. The party consisted of several leading citizens and a number of the visiting delegates, and all were deeply interested in the work being done there under Supt. Hoverstad.

After a selection by the Crookston band at the opening of the convention, A. D. Brown of Pipestone stepped forward and presented President Morris with a beautiful gavel made of red pipestone, of which there is an extensive quarry in the vicinity of the city he is here to represent, and from which it takes its name. He made a neat little presentation speech in which he referred to the fact that this red stone is held sacred by the Indians and that they utilize it in manufacturing their pipes of peace and for other uses. He asked that it be accepted in behalf of the Pipestone fire department and be kept as a token of esteem.

President Morris accepted the gift and in a brief response promised to treasure it as sacredly as the Indians do the quarry from which it was taken.

The Masonic quartette were then called on for a selection and the vociferous greeting they received as soon as they appeared on the stage was an emphatic indication of the esteem in which they are held by the convention. They were recalled twice before they succeeded in satisfying the audience and the order of business could be proceeded with.

Another selection was given by the band, after which Attorney Holston, who was on the program for an address at this point, was called for, but not being present the convention took up other business.

The call was read by Secretary Strong. President Morris announced that the committee on credentials had been hung up all night but had now been discovered, and that a representative member would be exhibited. At this instant a well stuffed dummy was lowered from among the stage flies in view of the audience, and E. M. Twiford promptly announced that it was R. C. Phillips of Northfield. The episode caused some merriment and was well appreciated.

Chairman Twiford explained in behalf of the credentials committee that they had been hung up all night and that it was the fault of the credentials themselves. That the list of delegates as it would now be presented was largely guess work. He thought firemen were intelligent men but he concluded that most of the credentials had been written with a worn out fire nozzle.

R. C. Phillips then read the list of names, as they had been guessed out by the committee, and quite a number of corrections were made.

The calling of the delegates names occupied the time until nearly noon.

The legislative and other committees made reports but nothing of general interest was developed in them.

Th topics which had been previously assigned to different departments for discussion at the convention were taken up, and responded to so far as the parties who had them were prepared to do so and the others were deferred, to be taken up at a future sessions. Some excellent volunteer papers on various topics were presuted.

The principal feature of the afternoon session was the speech of Gov. Van Sant.

In introducing Governor S. R. Van Sant to the convention, President Morris, said that one year ago in the city of Winona at the time he was honored by election to the presidency of the association, Captain Van Sant had promised him that if he was elected governor of the state of Minnesota, he would be present at the convention here. This promise he had now fulfilled and was here to address the convention.

The Governor in acknowledging the introduction said that the president had stated facts, but had not explained all the conditions under which that promise was made.

That the facts were that President Morris had called upon him at about two o'clock in the morning and was accompanied by what was known as the Masonic quartette. They sung a good many songs, and finally the promise in question was made on condition that he be allowed to go back to bed.

Addressing himself to the firemen, he said that he had the highest admiration for their heroism and bravery. That because of their vigilance and bravery, we sleep the sounder. He said that today the firemen are abreast of the times. In the earlier days he was proud to be a fireman, but feared that in these days he would not be able to keep up with the machine.

Minnesota was compared with other states in point of area, its timber, agriculture, iron and soil, it excelled all others.

Especially in point of healthfulness, Minnesota ozone is famous the world over. Minesota is now establishing its right to a new name. The term of Gopher state is being exchanged for that of the bread and butter state.

Our butter has always taken first prize everywhere. We live in a progressive age. And this state of Minnesota is to become the empire state of the Union, and he believed the child is already born who will see its population reach five millions. That in the character of its population Minnesota can not be surpassed, and that the audience he was addressing was a worthy sample.

He paid a high tribute to the bravery and heroism of Minesota's women, giving various illustrations of it.

We regret we have not room to give his speech in fuller detail.

The large audience which filled the hous to its capacity was held spellbound by the governor's easy, eloquent delivery, and hung upon his words from beginning to end, and at its close as well as at frequent intervals during its delivery, they applauded with great enthusiasm.

It is safe to say that the governor lost none of his well earned popularity in the state by his appearance before this convention.

But one point he made should not be overlooked. It was the tribute he paid to moral bravery. It was done in an impressive way and unquestionably expressed sincerely his estimate of this important matter.

Following the governor, A. R. Holston was caled on and spoke for about half an hour during which time he met with his usual success in interesting and delighting his audience.

Captain Maybury of the Crookston running team proved too hard a combination for the Bemidji and Hallock teams to compete with successfully and first place in both of yesterday's big races went to the local laddies by a good safe margin.

They were the Association wet test and the work and ladder races, with $100 purses hung up at the end of each one of them, $65 going to the winner and $35 to the second.

The nature of the events made it necessary that only one team run at a time, so the teams took turns at the same apparatus and the places were awarded on the time showing made.

In the Association wet test, the teams of 16 men each ran 100 yards with the carts, unreeled the hose, connected with a hydrant, broke connections in the hose, attached a nozzle and turned on a stream.

The Bemidji team was the first to do the trick. They made a good run but were slow in getting on the nozzle and getting water. Their time was 51 seconds.

Crookston made a beautiful run, a successful break of the coupling and attached the nozzle in record breaking time and although they waited nearly ten seconds for water, completed the operation in 35 seconds.

Hallock allowed their reel to get away with them and the hose caught, jerking it away from the men at the hydrant which put them out of the running.

In the hook and ladder race, there is a 150 yard run with the trucks, raising the 30 foot ladder and getting a man to the top. The time on this was much closer. Bemidji made a pretty run and got a man to the top in 35 seconds. Crookston followed and despite a slight slip in raising the ladder did the trick in 32 seconds. Hallock, too, had a little hard luck with the ladder and secured the last place with a record of 36 seconds.

Crookston boys won first place in all of yesterday's events, as they did the day before.

The coupling contest was won by Fred Haris in 4¼ seconds, which is ¼ second under the association record. Anton Peterson of Hallock was second.

In the ladder climbing contest T. H. Boyer, of Crookston, and J. DeMars, of Hallock, tied. Time, 7¾ seconds. Crookston won in running off the tie.

The hub and hub race of 200 yards was won by Crookston in 22 seconds, breaking the world's record.

The parade which occurred last evening and of which we cannot make extended mention for lack of room, was the finest ever witnessed in the city, and elicited unbounded commendation from the vast crowds which witnessed it. The wind up of the convention is being held today, but most of the delegates have returned to their homes.

The list of delegates as shown by the report of the credential's committee is as follows:

Albert Lea,—Albert Lea Engine Co., W. C. Mitchell, chief, C. W. Turnbull, Edward Knutson. Albert Lea Hose Co., W. C. Mitchell, chief, Charles Turnbull, Charles Sorenson. Hook & Ladder Co., Robert Anderson, A. S. Hayes.

Anoka,—Protection Hook and Ladder Co., W. E. Wilberg, chief, A. Barton, Charles Peterson. Engine Co. No. 1, H. C. Lohel, Douglas Hall.

Ada,—C. H. Brown, chief, Sam Olson. Fred Andrist

Argyle,—T. O. Lizee, chief, C. J. Robertson, Allan Boyer.

Alexandria,—Chemical and Hose Co. No. 2, Fred C. Apple, Joseph Swenson

Austin,—Austin Hose Co. No. 1 Thomas Mann, chief, Charles Beeman, Ed Elwood. Austin Hose Co. No. 2, M. J. Mayer, C. J. McNally

Ashby,—Edward T. Rishrudt, George Peterson.

Aitkin,—E. P. Duffy.

Bemidji,—R. H. Collar, assistant

Brainerd,—Hope Hose Company, chief, Earl Gell, John McTaggart. H. Bennett, chief, James P. Wise, Peter Wolvert. Liberty Hose Co. No. 3, Henry Behner, Joseph Witzel. Hose Co. No. 2, Rory Hall, L. C. Weeks.

Benson,—F. C. Thornton, chief, H. P. McConnell, Thomas H. Donnely.

Blue Earth City,—L. L. Willmist, chief, Harry C. Linghum, George M. Kaupp.

Brandon,—Jacob Gamble, chief, P. J. Seidlinger, Emel Larson.

Crookston,—Albert G. Harris, assistant chief, Thomas R. Johnstone, Chas. Hitchcock.

Cloquet,—Frank Elm, chief, Frank Smith, David Moses.

Canby,—Alvin Sandvin, chief.

Como,—H. L. Morton, chief, F. A. Higgins, D. B. Ross.

Eden Valley,—W. F. Gasper, chief.

East Grand Forks,—John Kane, chief, P. V. Murry C. L. Cumming.

Elmore,—S. C. Moore, chief.

Fertile,—Charles Tschida, chief, J. A. Gregorson, Charles Ross.

Faribault,—E. Kelly, chief.

Fosston,—George Houghtaling, chief, J. H. Soen, G. C. Gulrud.

Fairmont,—William Sule, chief, R. Cros, W. Wilbert.

Granite Falls,—Jacob J. Knudson, Ole Hartwick.

Gaylord,—George Kruger, chief, W. G. Commick, Henry Deterling.

Glenwood,—J. J. Wallace, chief, B. O. Wollan.

Grand Rapids,—John D. Deshan, chief.

Hutchinson,—John Hurdele, chief, Charles Heller, Tom Liner.

Hallock,—N. G. Elleastrom, chief, Chas. Dure, A. Simonson.

Heron Lake,—C. H. Cabot, chief, F. E. Day, Fred Butler.

Sauk Centre,—Clipper Hose Co., G. L. Ingram, chief, Anthon Niles, Geo. Cummings. Acme Hose Co. No. 1, Ed Bennett, Tom Fickers.

Stillwater,—Relief Association, Geo. Rogenton, W. O. Haskill. Fire Department, J. F. Volz, chief.

South St. Paul,—Engine Co. No. 1, J. J. McCormick, chief, H. M. Uline, R. T. Clegg. Engine Co. No. 2, P. P. Wines, George Wakeman. Relief Association, Duncan Ferguson, John J. Diblin. St. Paul Relief, Gilbert M. Shaw, David Y. Sheavine, Adolph Betz.

Stephen,—Henry Durand, chief, Wm. Hendrick, C. F. Johnson.

Shakopee,—A. J. Philipps, assistant chief.

St. Hilaire,—A. R. Jones, chief, A. McNabb, O. Fellman.

Sauk Centre,—Aetna Hook and Ladder, G. L. Ingram, chief, Raymond Dean, John F. Diamond.

St. Cloud,—Relief, Lewis A. Broell, William Thielman, Louis A. Mosburger, chief.

Springfield,—George Ross, chief, Walter Blockman.

Little Falls,—George Emder, chief, R. S. Morris, F. D. Stewart. Chemical No. 2, O. J. Moe, George Cooms. Hose Co. No. 2, E. G. Anderson, Henry Beutfelt. Hose Co. No. 3, William Haverty, William Haug. Hook and Ladder No. 1, J. W. Jones, C. H. Grist. Chemical No. 1, John Ray, H. A. Ryder.

Le Sueur,—H. T. Emken, chief, Ed Brown, Lewis Kast.

Litchfield,— A. C. Taugor, chief, R. Wolff.

Lake City,—Hose No. 1, Joe Wise, chief, W. Hewitt, John Adolph. Hose No. 2, Will Adolph.

Wadena,—John M. Zimmerman, chief, Edward Wagner.

Graceville,—Theo. McLaughlin, chief.

Plainview,—Fred Earding.

Pipestone,—W. J. Armstrong, chief, James O. Levey, A. D. Brown.

Tracy,—Chas. Turnell, chief, B. F. Hughes, A. H. Rowlsnd.

Owatonna,—Relief, E. M. Twiford, chief, Richard Jahruss, Frank Cartwright. Hook and Ladder Co., Wm. Herrian, Emil Wiecherski.

New Richland,—Anton Martinson, chief, Carl Newgard, Fred Hecker.

Melrose,—Relief Association, Jos. Kleber.

New Prague,—F. S. Vanasek, F. A. Jelinek.

Cloquet,—Frank Elm, chief, Wm. Heasley, Joe Longton.

Pelican Rapids,—C. R. Frazee, chief, Herman Slatten.

Perham,—Herman Schmidt, R. G. Claydon.

Alexandria,—Fire Dept., J. H. Sterns, asst. chief. Hook & Ladder Co. No. 1, Wm. Van Dyke, Ernest Kasson. Chemical Hose No. 1, A. W. Jern, J. E. Jern.

New Ulm,—Henry Engel, chief, Otto Seller, L. Vogel. Hose Co. No. 3, Herman Nagle, Fred Brnst. Fire Co. No. 1, Chas. Toherer, Fred Pfaende.

Moorhead,—Eagle Hose Co. No. 1, A. J. Wright, chief, (delegate at large) Chas Groffee, Sam'l N. Zebley. Key City Hook and Ladder Co., E. J. Melande, Pete Lund. Moorhead Relief Association, R. G. Johnson, John Prentice.

Melrose,—M. Burton, first assistant chief, W. J. Stock.

Mankato,—A. D. Beach, chief, (delegate at large.)

Marshall,—Albert Volk, chief, (delegate at large.)

Rush City,—P. W. Smith, chief, (Eng. delegate at large,) Dominick McGuire, Henry Sanders.

Royalton,—Hook and Ladder Co. No. 1, H. W. Galley.

Perham,—John Kukowski, H. J. Bauck.

Lyle,—George Robertson, chief, (delegate at large,) Gilbert Ferris.

Fergus Falls,—Geo. E. Beardsley, chief, (delegate at large,) Al Westberg, D. Prentiss.

Rochester,—Hose Co. No. 2, John Boylhart, chief, (delegate at large,) Chas. McQuillan. Hook and Ladder Co. No. 2, Eugen Schwarz.

Rochester,—John Fitch, William Cudmore.

Red Wing,—C. J. Welch, chief, (delegate at large,) C. H. Fleckman, W. W. Gross.

Royalton,—Eng. Co. No. 1, Fred McGonagle, chief, (delegate at large.) William Roller.

Wells,—Ed Hayes, chief, (delegate at large,) J. O. Hanson.

Willmar,—Toot Lake Eng. Co., Ollie Lindquist, chief, (delegate at large,) Wm. O. Johnson, Swan Larson. Willmar Hook and Ladder Co. No. 1, Jonas Lindquist, Nils P. Nilson.

Winona,—Relief Association, Martin Dooney, Michael O'Dea.

Zumbrota,—Royal Hose Co., Alf Colling, chief eng., (delegate at large,) E. V. Ranhorter. Hook and Ladder Co., L. J. Korstad.

Waeoma,—H. Osterfeld, chief, (delegate at large,)

Waseca,—Relief Association, Fred Clayton, chief, (delegate at large,) C. A. Smith, Thomas Davis.

Kennedy,—C. J. Berg, chief, (delegate at large,) Ole Myre, Nels Prink.

Verndale,—Theo. Tinklepaugh.

Osakis,—Paul Hermon, chief.

CONFESSED ADULTRESS

E. G. FORKS WOMAN WHO WAS MIXED IN THE HECK CASE.

On Monday morning Officer Quigley arrested Mrs. Chas. Beaver and Rhinehart Erickson for adultery in one of the rooms over a saloon on De Mers avenue in East Grand Forks.

The two were arraigned yesterday before Judge Sullivan. Mrs. Beaver entered a plea of guilty and was bound over to the December grand jury and was brought to Crookston this morning and lodged in the county jail. Erickson entered a plea of not guilty and his case was continued to Saturday next.

Mrs. Beaver is somewhat notorious as the woman who was arrested at the time of the murder of Chas. M. Heck, at East Grand Forks, six weeks ago. Although seen with Heck the night before his death, nothing was proven against her, and the manner of his death is still a mystery.

FARM LAND WANTED.

I can furnish a few desirable purchasers for land at rock bottom prices. Parties having "snaps" should call on or write Attorney R. M. Hayes, Crookston, Minn. Office over Merchants National Bank.

A black horse, about 5 or 6 years old came to my place in the town of Hubbard about the middle of May. Owner can have same by proving property and paying charges for keeping and advertising. Mrs. O. Tollifson.

Uncle Jo's Column

I am glad the big farms round here are bein divided up into smaller farms. It will be a good thing for the country to have a family on every quarter section. It's an awful sight more sociable that way, and then with these big farms where one crew does all the work, they are always transients that nine chances out of ten will just work for a few months and then draw their wages, blow a part of them into the saloons, and carry the rest away out of the country with them. And that kind of business don't help the schools or the churches or the improvement of the country in any way.

* * *

Then it don't help the merchants of the place either. The provisions that are needed are generally ordered down below and are shipped in here, and so is the machinery, and most everything else that is needed. Of course, it was rather hard on some of these big farmers that didn't make them pay and had to quit on that account, because they was a losin money, but it was a good thing for the rest of the country all right. These big farmers don't seem to be much help to a country anyway. The most they do for it is to dodge out of payin' taxes as much as they can.

* * *

I guess that Lockhrt farm that the John Grove Land company bought has been taken care of the best of any of the big farms. Jack McPhee is one of these men that will have things done all right if they're done at all. He won't have anything but good, steady men at work for him, and he makes his men sign a contract that they won't drink whiskey or use tobacco while they work there, and if they do they forfeit their contract. This gives him a better class of men, and he gets his work done in better shape than most of em. I was a little surprised when I heard about them contracts, but one of the boys was tellin me about em, and I guess they are all right.

* * *

I think the exercises we had on Decoration day were first rate. But I couldn't help noticin' that the old boys steps some of em are gittin weaker every year. They've got grit though, and when Comrade Jefferson came round and told the boys that any of em that wanted to could ride from the foot of the hill out to the cemetery, Comrade Davies seemed to be real put out about it and told him if he came 'round there agin talkin' about the old soldiers wantin to ride he'd snatch him bald headed. But I noticed some of em rode just the same.

* * *

There was one thing up there to the exercises I didn't like a little bit. There was two or three groups of children at different places in the crowd among the folks that wanted to hear the speeches, that kept talkin so loud you couldn't hardly hear yourself think. I like children all right but they ought to learn there are times when they ought to keep still. But then there was grown women that seemed to think they wouldn't have any other chance to tell each other a whole lot of talk, and that there weren't any other place than right there in that crowd close to the speaker to tell it. I thought here was some other place where they could do their visitin and I wanted to just tell em so.

* * *

I guess Mr. Holston ought to go and take lessons of that High school girl that winks to tell which her right hand is. Up there Decoration day he thought the folks looked kind of thirsty and he tried to tell em where to git a drink of ice water, and he got pretty well mixed up, and when he got through he left it all wrong after all. He said its "to your right hand and our left," meanin his own, and it was right the other way all the time. Maybe that winkin rule wouldn't work with Mr. Holston though. Perhaps he can wink his left hand eye just as well as he can the right hand one.

* * *

I've been thinkin how hard the Devil tries to git people to think they are only just a part of the great mass, and if their lives average up with the crowd they're all right. But I tell you that's an awful mistake. We can't divide our responsibility up that way. We've each one got to stand for ourselves, and we ought to understand that in spite of the Devil's sophistry, our lives don't mix up with the lives of the crowd a bit more than oil mixes with water. You may try as hard as you like to mix your actions up with the action of the crowd, and then try to strike an average by dividing the total quantity by the number engaged in it, your actions will still gather by themselves, and stand as the measure of your accountability in the matter.

* * *

There's another way the Devil fools folks. He gits em to thinkin if everybody else does certain things its all right for them to do it too. And all that has to be done to make a thing right is to make it popular. He tells em if a majority of folks endorse a thing its all right. And somehow he's got a way of talkin about it that sounds all right to some folks, and they seem to believe it, and let him lead em right along. The fact is, he's got a cinch on the great majority, and as long as he can git folks to believe the majority test is the real test of right and wrong, he'll hold em in his clutches and keep his flock together.

* * *

I was up to the graduation exercises the other night and I was real glad I went. I don't know when I've really enjoyed a performance better than I did that. I'm always interested in the young folks any way, and when I see such a fine lot of young folks as that graduating class was, just startin out in life with a good foundation laid for a preparation, and their hearts fired with a noble purpose to make the world better, I wish I was young agin and startin in with em. Those girls were all dressed in real pretty white dresses, and they looked awful sweet in em, too. There was eleven of the girls and only five of the boys. Somehow the boys seem to be lettin the girls git ahead of em all the time. It seems to me as if the boys most of 'em have got too narrow ideas about the value of education. They don't stick to the school as they ought to. The mania for makin money gits hold of em too soon, and they attach too much importance to the old adage that "a bird in the hand is worth two in the bush." And too many of em think that a little money to spend today and git some fun out of is worth more than education that will qualify em to make the world better in the future is. And while the few boys that graduate from the High school, and then persist in gittin a higher education, show up kind of lonesome like among the larger number of girls, I always honor em for stickin to it.

JOE BASSANELLA

IS REARRESTED AND PLEADS GUILTY TO MURDER.

Joseph Bassanella was captured Sunday near Malta, Montana, and Sheriff Collina arrived in Grand Forks with his prisoner this morning. The officers have been hot on his trail for railroad man brought word to the city that Joe Bassanella had been seen near Glasgow by a cattle herder. The story told by the herder was that one morning about ten days ago as he was riding about on the range near Glasgow, about eight miles from that place, he came upon a man lying in the grass asleep. He awakened him and asked him what was the matter, and Bassanella said he was almost famished and asked the herder for something to eat. The herder told him that he would give him all he wanted if he would come to Glasgow, but Joseph said that he did not want to g into any of the towns nor to any of the ranches, and when asked why he told his entire story, admitting that he was Joseph Bassanella, told the herder that he had killed Axel Anderson, that he had been arrested with his brother the same day and that later the two had escaped. He said that he had stolen Mayor Dinnie's horse and rode it as far as Larimore, where he had tied it in the woods and pushed west on foot, traveling during the nights and keeping in hiding in the day time. The herder took him to a shack, where he was given what he wished to eat and afterwards left for the west. The herder went to Glasgow and informed the officers, who notified the Grand Forks authorities.

He was captured near Malta by another cowboy who had seen his picture in the Grand Forks Herald.

Yesterday in Grand Forks he was arraigned and changed his plea from not guilty to guilty of the murder of Axel Anderson. Judge Fisk announced that a jury would be drawn to determine the sentence, which will be the gallows or life imprisonment.

HALLOCK VS CROOKSTON

CROOKSTON WINS BY A SCORE OF FOUR TO FIVE.

Hallock and Crookston crossed bats on the ball field Tuesday afternoon. The Hallock boys had strengthened their team with some salaried players and the game was a hot one from start to finish.

The line up of teams was as follows: Hallock: Davis, c.; McLeod, p.; Kemp, 1 b.; Lane 2 b.; Smith 3 b.; Alley, s s; Dure, c f; Moore, rf; Thompson l f.

Crookston: Winslow, c; Bradish, p; Silk, 1 b; Lyon, 2 b; Erickson, s s; Allen, 3 b; O. Brekke, r f; Ronish, c f; Lucken, l f.

Crookston won by a score of 5 to 4. Bradish pitched a great game, striking out 15 men.

The first three innings were rather ragged and all of the scoring, except one run which Crookston secured in the eighth, was done then. Hallock scored in two innings.

ACROSS THE LINE

Manitoba Invaded by the Land Boomes From Minnesota

HUNDRED THOUSAND ACRES

Speculators Operating Around Crookston Cut in Up North

Minnesota men have organized a land company in the privince of Manitoba, and have purchased 100,000 acres of farming land in the Red River Valley to sell to settlers.

The last issue of the Manitoba Gazette, published at Winnipeg, contains notice of the application of the Dominion Land and Colonization company, limited, for letters patent of incorporation under the Manitoba joint stock companies act.

The object of the company is to purchase and dispose of lands in Canada. The capital stock is $300,000. The incorporators and first or provincial directors of the company are well known Minnesota men. They are as follows:

C. A. Robertson, general manager Minnesota Land and Colonization company, St. Paul; F. E. Kenaston, president Minneapolis Threshing Machine company, Minneapolis; S. A. Harris, president National Bank of Commerce, Minneapolis ;F. B. Lynch, assistant general manager Minnesota Land and Colonization company, St. Paul; J. O. Wood, secretary Minnesota Land and Colonization company, St. Paul; F. G. Barrows, banker, Fergus Falls, Minn; James A. Brown, attorney at law, Fergus Falls, Minn.

The land is all wild, but of good quality and accessible to the Canadian Pacific, Great Northern and Canada Northern roads. It all lies between Winnipeg and the Minnesota line. Mr. Robertson said this morning:

"The boom in farming has hardly struck Manitoba, and as a result good land is selling there for half what it will bring on this side of the line. We will open an office in Winnipeg as soon as we have secured our charter, and we will maintain a branch in St. Paul, with the office of the Minnesota Land and Colonization company."

RECORDS FOR IT

STEADY GROWTH IN BUSINESS OF COUNTY OFFICERS.

The upward trend of every kind of business makes continued progress. This is not always in the same ratio but so long as there is a gain the balance is on the right side. The records of the office of Register of Deeds Christianson show a healthy increase over those of a year ago, although there is nothing phenomenal in them. Here they are in detail:

May, 1901.			
Deeds	219	Fees	$212.50
Mortgages	122	..	160.75
Satisfactions	116	..	62.00
Patents	29		23.00
Misc.	128	..	104.50
Total		..	$568.25

EXTENDING ITS LINE

MINNESOTA & MONTANA CATTLE CO. TALKING SHEEP.

The directors of the Minnesota & Montana Cattle company held a meeting in this city Saturday and discussed matters relative to the management of the ranch property out west.

Among those present were F. L. Young, of Fisher; J. B. Messner and J. B. Meyers, of Climax; J. N. Bain, of Culbertson, Mont.: A .Eckern. K. O. Slette and B. B. Larson of Halstad.

The reports presented were satisfactory to the stockholders, and they are considering the proposition to vary their holdings by the addition of several thousand head of sheep.

The company has a thousand head of cattle on its 900 acre ranch near Culbertson, Mont., and the open country thereabouts gives it a range covering many thousands of acres.

THE BLIND SEE

A PATIENT PRAISES LORD FOR MODERN SCIENCE.

John Leveque is a happy man today. Years ago, even before Louis Fontame came to Crookston to live, Mr. Leveque was the village blacksmith, but during recent years he has lived at Red Lake Falls.

Cataracts grew over his eyes and shut out the light. During recent years he has spent a fortune and submitted to four operations for relief from blindness, surgeons in Montreal, Winnipeg, St. Paul and Duluth having vainly tried to restore the sight.

One of the eyes is probably past redemption, but Dr. Morley was consulted and decided that the sight of the other might possibly be restored, and he operated today, successfully removing the crystalline lens.

Mr. Leveque for the first time in years saw clearly, and was so overjoyed that it was with difficulty that he could be restrained from doing what might injure his chances for complete restoration. It will be necessary for the eye to remain bandaged a few days, after which Dr. Morley assures him that he will be able to see for the remainder of his days.

LICENSED TO WED

COURT CLERK HANDS OUT BUNDLES OF HAPPINESS.

June has always been recognized as the month when mating is in order. The records of the office of Clerk of Court Lommen show increased activity in this direction. Following are the names of those who have secured the necessary papers that makes them eligible to matrimony:

Erick Sampson to Julia Kittelson, Roome.

John P. Sather to Clara A. Gunderson, Eden.

Wilmer Raymond, Brandon, Douglas county, to Miss Marie Aspelin, Lenghy.

Thos. Crandell, Fertile, to Miss Hilda Carlson, Crookston.

Ole H. Person to Laura Lundgren.

Christian Christianson, Lessor, to Olava Larson, Hill River.

Wm. Bramer to Lizzie Ollenroth, Fosston.

Wm. H. Amos, St. Hilaire, to Miss Maggie McEachran, Crookston.

A PRETTY COMPLIMENT

TENDERED LADY SOON TO BE A CROOKSTON RESIDENT.

Among recent comers to the city who will make this their home in future is Mr. Beckstead, who fills an important position in the Great Northern shops. The family has resided at Grand Forks, where Mr. Beckstead has been prominent in church circles. In announcing the anticipated departure from there, the Grand Forks Herald says:

"The ladies of the Baptist church gave a delightful farewell social at the home of Mrs. Harry Tuttle in honor of Mrs. Beckstead, who is soon to leave for Crookston. After refreshments were served Mrs. Griffith spoke in a few well chosen words of how Mrs. Beckstead would be missed. Then came a shower of linen in the form of handkerchiefs of every description, some of them being beautiful hand work done by the ladies themselves. The choir also presented her with a beautiful silver pitcher and mug. The ladies regret very much the departure of Mrs. Beckstead, as her place in the choir will be a hard one to fill.

CLOSE FOR THE NITCHIE.

The railway boys have all kinds of experiences out in the pine country. Yesterday while whirling along near Deer River the train came to a halt so suddenly as to plaster everybody up against the seat in front of him. John Kirsch hit the grit and went ahead to help the engineer pull a drunken Indian off the track, an action which the Aborigine would have had little interest in had the engineer been tardy in applying the brakes. The redskin objected to having his slumbers disturbed and put up a fight, and the boys had to wrap his jaglets around a tamarac tree and get Harry Welch, the accommodating brakeman, to hold the ends until the train passed.

BASS ON MAPLE KAKE.

Mr. and Mrs. S. Rosenthal returned last night from their summer cottage at Maple Lake, where they have spent the past week. They have been making some extensive improvements and are now prepared to enjoy their summer outing with more than the usual degree of comfort. Sam says the fishing there is the best it has been in years. The perch are biting batter than ever and the big fat fellows come after the bait in the manner that pleases the heart of an angler. The bass that were placed in the lake as "fingerlings" two years ago have grown to be ten inches long, and Mr. Rosenthal caught one that weighed two pounds.

A BEAUTIFUL HOME.

Contractor Frank Mageau, with his customary hustle, is pushing the work on Ernest Rolsch's elegant new residence on South Ash street. The building is enclosed and plastering will be done next week. A sightly tower will surmount the structure, and the general effect will do credit to the skill of Architect Strassburger, while the finish and completeness of detail is being looked after in Mr. Mageau's usual careful manner. When completed Mr. Rolsch will have one of the handsomest homes, located in a very fashionable quarter of the city.

THE DOCTOR GOES EAST.

Dr. Boles quietly slipped out of town last night, his destination being his former home in Clinton, Ont. His intimate bachelor friends scarcely knew of his intended departure, and now they are guessing on the meaning thereof. It is rumored that he will forsake the bachelor circle, and that upon his return there will be a Mrs. Dr. Boles, who will be a charming addition to the circle of the young married set.

FENCE POSTS FOR SALE.

They are good ones, and the price is right. Vance & Stone.

LOOKING UP BONDS.

BRAINERD TO BE DEFENDANT IN $40,000 SUIT.

A short time ago Mayor Halstad of Brainerd received a communication from a Chicago gentleman by the name of S. A. Kean, who represents the Central New York Trust company in a very important matter, which relates to the city of Brainerd.

Mr. Kean writes to the mayor to inquire regarding a bunch of bonds held by the trust company of New York. The bonds were issued by the old Brainerd Water, Light & Power company and he wrote to know what the city was going to do about the matter. The instrument was issued to C. F. Kindred, W. E. Seeley and Frank Elvidge by the Water, Light & Power company some time prior to 1888. In that year the company relinquished their rights and the bonds became worthless.

Mr. Kean was notified by letter that the bonds are worthless, but wrote back referring to a certain ordinance covering the matter printed on the back of the instrument.

The matter was brought up at the council meeting recently but nothing was done and the whole thing was referred to the city attorney. He is investigating the matter as to the liability of the city in the matter. There are some technical questions which may cause to be instituted a suit which may be of long standing. The total amount of the bonds held by the Central Trust company is $40,000, and they are going to try and have the city held responsible for this amount.

NOT GUILTY.

SAY THEY DIDN'T DO THINGS CREDITED TO THEM BY THE G.J.

Another damage suit against the Northern Pacific occupied the attention of the district court Monday. Thos. Johnson, who resides near Fertile, claims that his land has been damaged by an overflow of water which a Northern Pacific ditch occasioned.

The prisoners indicted by the last grand jury were arraigned before the court this morning and all entered pleas of not guilty. They were five in number. Three, Pat Lynch, Jos. Sempfast and Geo. Sargent, were indicted for grand larceny on a wheat stealing case near Key West.

Harvey Katzenmeyer said that he was not guilty of forgery as charged in the indictment and Joseph Beauchamp denied the fact that he was guilty of assault in the first degree as the indictment found him.

IS CRITICALLY ILL

MRS. McKINLEY'S CONDITION IS VERY PRECARIOUS.

Washington, June 8.—There is no truth in the report that Mrs. McKinley is unconscious and in a comatose condition. Neither is a fact that the physicians are keeping her under the influence of chloral and other sleep-producing drugs. Mrs. McKinley is very weak and there is no effort to disguise the fact that she is critically ill. No one presumes to predict the outcome. With the wonderful rallying power which she has shown it is said she may live days, months, or even years. It is not impossible that she may become practically a well woman though none are so sanguine now as to predict such an outcome. In her present condition it is said she may have a relapse and drop off at any time. But at present Mrs. McKinley is conscious and recognized Mr. McKinley and others who are permitted to see her.

BACK FROM MANILA.

G. A. Peterson, 45th regiment band, U. S. volunteers, recently returned from the Philippines, spent a few hours in Crookston Monday enroute to St. Hilaire, where his parents now live, having moved there from North Dakota since he enlisted. Sergeant Peterson has acquired a fund of anecdote that is intensely interesting, not the least so being the account of the wrecking of the saloon in San Francisco, in which the discharged soldiers were being drugged and robbed as shown in last week's dispatches. The St. Hilaire soldier was in on the work and is proud of it, as it was retributive justice.

OLD RESIDENT PASSES ON.

The death of Thomas Ryan occurred at five o'clock Saturday morning, after a long illness. Deceased came to the Valley in 1879, and since that time has resided on the farm three miles east of East Grand Forks on Red Lake river. He was well known throughout the entire valley and had many warm friends who will be grieved to hear of his death. He leaves five children, the youngest of whom is but a little over three years of age and the oldest twelve. His wife died about two years ago. The funeral was conducted from the Sacred Heart church today.

WORK ON JUDGMENT RECORD.

J. E. Ford of Red Lake Falls is in the city spending a couple of weeks transcribing the judgment record of this county or as much of it as applies to Red Lake. The transcribing of these records is in accordance with an act passed by the last legislature and henceforth the certificate of the Red Lake county clerk will be sufficient as to judgment.

INDIAN TROUBLES

Being Caused by Burning of Village on Lands Claimed by White Man

SHERIFF MUST ANSWER SUIT

For Damages---Civil Prosecution Substituted for Weapons of Warfare

There has been trouble on the Mille Lacs Indian reservation and it is probable that heavy suits will follow. It is claimed that some weeks ago Sheriff Claggett of Mille Lacs county visited the Indian village of Isle and ordered the Indians off the land covered by the village on the theory that the land belonged to a white man. The Indians were given until May 11 to move, but they disregarded the order and May 26 the sheriff again appeared and after giving the Indians a day in which to move their effects, set fire to the buildings. It is said that some fifty bark houses and log shacks were burned by the sheriff.

The younger Indians were bent on making an armed resistance and some of them started to get their guns to shoot down the sheriff and his deputies, but the older men gave wise counsel, and it prevailed. Later the young men were brought home off the drives and a council was held Monday of this week and the Indian who killed the settler Magnussen some years ago counselled an outbreak. Instead, however, of beginning hostilities, it has now been decided to bring a civil action against the sheriff for damages, and a letter has been written to the commissioner of Indian affairs at Washington asking him to take action for them. Under the Indian appropriation act of 1894 the Indians have the right to begin the actions in the U. S. circuit court to obtain title to the land without taking the long way via the land office.

Chief May-jwou-ay-be is the chief who is credited with suppressing the threatened outbreak.—St. Cloud Journal Press.

STILL THRESHING

A MARSHALL COUNTY FIELD OF FLAX OUT OF THE SHOCK.

The resources of the Red River Valley are becoming more and more apparent every day. Last Sunday, as a sort of pastime, or recreation, the Miller boys steamed up their threshing rig, invited a number of neighbors over to Frank Krowlowski's place and proceeded to thresh out a field of flax that had stood in the shock all winter. When it froze up last fall the shocks were standing in water up to the bands. But just the same, the boys threshed out 100 bushels of No. 1 flax for which they received $1.38 per bushel. The great mistake this country made was in threshing at all last year. The grain that is threshed out now is well cured, grades well and threshes easy. No need to lose a kernel.—Stephen Leader.

OIL AT WINNIPEG

THE GENUINE ARTICLE — PURCHASE OPTIONS IN DEMAND.

Winnipeg, Man., June 8.—Natural oil has been discovered in Springfield municipality, four miles northeast of Winnipeg.

H. Hudson, a farmer, while digging a well, found an oily liquid, a quantity of which he had analyzed. So encouraging was the report that he sent a sample to Chicago, with the result that two experts from that city were quickly on the scene.

Large tracts in the neighborhood have been leased with the option of purchase. The conditions are said to be exactly the same as those at Petrolia, Ont.

ON THE FROST LINE

GARDEN PLANTS SCORCHED—FIELD CROPS ESCAPED.

The temperature, which was uncomfortably low all day Thursday, fell during the night until it encroached on the frost limits; and here in the city, by the government thermometer, registered at 31 degrees. A stiff breeze, which continued all night long, undoubtedly contributed somewhat to avert frost damage. In the gardens most sheltered and lying close to the river, no traces of frost effects are visible, notwithstanding the walks were white at daybreak, and until the sun was well started on his day's journey. In some portions of the city ice of considerable strength formed on water. In gardens north of the city all tender vegetation was killed.

Reports made by farmers from various directions visiting the city since are somewhat conflicting, but from them all we think it safe to predict that wheat and oats are not injured. Flax that is just coming up seems to have suffered more or less severely, and no doubt in some places is killed. Flax of a larger growth is not so susceptible to frost influence and appears to have escaped injury.

The rainfall at this point for the past week exceeds that of any other point in the valley, of which we have reports, being 1.78 inches. At Moorhead it is reported at 1.64 inches, and at Devils Lake they were favored with 1.60 inches.

It is presumed that at Grand Forks and other small places between here and Devils Lake the amount would be approximately the same. The ground is now thoroughly saturated and no fears of drouth effects need be feared this season.

GOING AFTER IT

RED LAKE FALLS WANTS THE NEXT TOURNAMENT.

Red Lake Falls is going after the next years Firemen's Tournament association. It will be held at Bemidji this year, and the live boys at the Lower Falls are good fellows from the headwaters of the creek have decided to interview the citizens and business men to ascertain what amount can be raised for the tournament in their city next year. If sufficient funds are guaranteed, the delegates will go after it with every chance of winning out, as the election of F. A. Grady as vice-president last year virtually gives them the president and tournament next year if they desire it, and this will depend wholly upon the liberality of the donations of the business men. The expense in properly carrying out one of the tournaments is anywhere from $900 to $1,200 and the boys do not feel equal to the occasion without the guaranteed support of the citizens.

STILL AFTER THEM

THE BASSENALLAS THOUGHT TO BE IN MONTANA.

Word has reached Grand Forks to the effect that a young man, supposed to be Joseph Bassenalla, had been seen making his way westward on a number of occasions. The party was apparently acting in a suspicious manner and took pains not to be seen. It is stated that the latter part of last week, he had stolen a horse and was thought to be still going west, but keeping as far as possible from all towns and cities. Monday evening Deputy Sheriff Walsh left for the district from which a number of reports have been received, and will follow up every clue which contains any likelihood of leading to the discovery of the escaped murderers. Since he left nothing has been heard from him, but this is thought to have resulted from his having left the line of railroad and engaged in following up a fresh clue.

SOCIAL AMENITIES

AS THEY EXIST OUT IN THE PINES AT TENSTRIKE.

The following breezy wedding notice from the Tenstrike Tribune will interest the Journal readers, many of whom know the groom, who by the way is near the 70 year limit in age.

"Richard D. Blake and Christiann B. Crandall, of Dysart, were united in the holy bonds of matrimony last Friday evening. Justice of the Peace Frederick A. Brown, of Blackduck, pronounced the words which made the happy couple one. M. A. Clark was groomsman while E. G. Robinson acted as bridesmaid in the absence of the female gender. Only a few guests were present, among them being Banker Oberg, of Blackduck, who played the wedding march, Just Tell Them That You Saw Me.

"After the ceremony, Mr. Clark sang a few choice selections, viz: I'm Tired Now and Sleepy Too, How Hoolihan Held the Fuse and other sentimental songs. After a short speech by Mr. Brown, Mr. Oberg rendered that beautiful melody, I'd Leave My Happy Home for You and Mr. Robinson followed with a recitation of Byron's vision of judgment. Then followed a number of entrancing songs by the groom, and the happy couple dropped into the arms of Morpheus."

A SEWER SYSTEM

THIEF RIVER FALLS WILL PUT ONE IN THIS SUMMER.

At a meeting of the city council held Monday evening the matter of putting in a system of sewerage was thoroughly discussed and it was the opinion that steps should be at once taken to further this matter. A civil engineer will be employed to establish grades and estimate the cost of the work, and at least a portion of the system will be built before it freezes up next fall. While Thief River Falls has a good natural drainage, a system of sewerage is badly needed.—Thief River Falls News.

SHROPSHIRE PURCHASE.

Ex-Representative W. A. Marin attended the auction sale held by Ernest Miller at Russia last Monday and purchased a flock of 560 grade Shropshires, 25 full blood ewes and 5 thoroughbred rams. He will resell this stock in small lots, if desired by purchasers, or will add them to his fine flock on his farm in the town of Onstad. Mr. Marin has great confidence in good sheep as a money maker for the farmer.

OLD SOLDIER'S EXPERIENCE.

M. M. Austin, a civil war veteran, of Winchester, Ind, writes: "My wife was sick a long time in spite of good doctor's treatment, but was wholly cured by Dr. King's New Life Pills, which worked wonders for her health." They always do. Try them. Only 25 cents at A. G. Anderson's drug store.

WHEAT 38 INCHES HIGH

SAMPLE FROM MARSHALL COUNTY HEADED OUT.

When H. H. Hurlburt, who is doing good work in placing settlers on quarter sections of valley lands, gets down into Iowa with some samples of wheat and clover that he gathered Friday in Marshall county, he is likely to be up against it in a manner that will make him wish he had strengthened his exhibit with some affidavits.

Mr. Hurlburt is a reliable man to everyone, yet even his old acquaintances will have their credulity taxed when he shows up down there with a sample of wheat that measures 38 inches from root to leaf tip, many of the stalks being in full head, and tells the people that he gathered the sample in the upper Red River valley.

When he produces a sample of red clover in full blossom, the juicy stalks measuring 30 inches in length, to add to the effect produced by the wheat, it will be a clincher.

Yet, Mr. Hurlburt has gone down into Iowa with just such an exhibit, and he secured both Friday while driving through the country west of Stephen, in Marshall county. The wheat was gathered from a quantity that grew scattered along the grade between the wheel track and the ditch. It is self sown, of course, and grew from a seed dropped from the wagon of some passing farmer. It grew in profusion, was scattered along a mile of the route traversed and is a convincing evidence of the fertility of the soil and the possibilities of the seasons in the Red River valley.

INSTITUTE AT FISHER

CORPS OF INSTRUCTORS HELD A SUCCESSFUL MEET.

Fisher people and the farmers from the surrounding country attended a very interesting and instructive farmer's institute today, that was addressed by the corps of instructors that are making a successful effort among the valley farmers on this line during June.

The attendance was large and the audience thoroughly aroused in interest to all the proceedings. The corps of instructors includes Dr. C. D. Smead of New York, A. A. Barerree of Nova Scotia, John Gould of Ohio and Supt. Hoverstud.

Scientific farming was discussed in all its branches, and particular attention was given to the creamery interests and to stock raising.

A PATTERN STRAWBERRY.

Cashier Ellington, of the Scandia-American bank, has been turning his attention to horticulture to some extent, and to prove that his efforts in this direction have not altogether failed, he has on exhibition today a ripe strawberry which measures one and one half inches in length and three inches in circumference. It is the first native Crookstonite of its kind we have seen this season and it is a fat, lusty looking fellow, with a very toothsome, delicious countenance that is calculated to set a person's mouth watering. Mr. Ellington's bed (strawberry) is well covered with growing berries and he took special pains with this first one to secure a worthy pattern for its successors.

TABOR WANTS CREAMERY.

John Stepan, the leading merchant and also the representative of the United States postal department at the village of Tabor, who was in town last week, reports that Tabor is becoming awakened to her need of a creamery in order to be in line with the rest of the valley, and they have just started in to learn the first letters of the creamery alphabet. We predict they will persist in their purpose until they master the whole creamery nomenclature.

THE BELGIAN HARE CRAZE.

It is only a few months since the papers all through the country were booming the Belgian hare, and advertising its propagation with great emphasis. The Journal then published a warning against the fad, and predicted a revulsion of sentiment in regard to its popularity. We now scan our exchanges in vain for some word in its favor.

Many of the papers are now denouncing the animals as pests. The San Francisco Examiner, among the number, is devoting pages to this purpose, and predicts that within a few years these prolific pests will swarm the state at an expense of millions of dollars to the agriculturist and both the California state board of horticulture and the national department of agriculture are lifting voices in warning. With the subsidence of the craze for buying Belgian hares, many of the animals are being turned loose to work for themselves.

In Australia three English rabbits were set loose thirty years ago. Within fifteen years they had so multiplied as to overrun the country. Millions of dollars were spent in the effort to subdue the pest. The plague was practically overcome, but it is likely to recur at any time unless great vigilance is used.

The Examiner wants the federal government to prohibit the further importation of hares and to prohibit interstate commerce in them. It also asks the state legislature to put some restrictions on their culture, requiring owners to give evidence that they can and will keep them under control and prevent their escape. To show how excited the Examiner has become over the matter, the paper goes into mathematics in this way. It says:

"Starting with say just 1,000 of the wayward little beasts that the board of horticulture vouches for as turned loose, in ten years we will have 10,000,000,000,000. With ten trillions of rabbits on our hands, human life on the coast here would be narrowed to a single, absorbing interest, and international politics and the passion for empire would dwindle to a careless jest."

THE BRITISH CENSUS.

The British census has recently been completed and it shows that the present population of England, Ireland and Wales is 36,982,262, divided as follows: England and Wales, 32,525,716; Ireland, 4,456,546. In 1891 the population of England and Wales was 29,002,525; Ireland, 4,704,750. The population of Ireland has been falling since 1841, when the figures were 8,175,124.

The chief interest in the British census centers in that of London, which promises to remain the world's metropolis for the indefinite future. The administrative county of London, which includes 29 metropolitan boroughs, now contains 4,536,034 people. The nucleus borough known as the "City of London" has a population of only 26,908. The outer ring of the suburbs of the enormous municipality has a population of 2,042,750, making the total population of Greater London 6,578,784. The significance of this census return can be better comprehended when attention is called to the fact that Greater London today has a greater population than that of the combined American cities of Greater New York (3,437,202), Chicago (1,698,575) Philadelphia (1,293,697) and Rochester, N. Y., (133,859.) The administrative county of London had a population of 958,782 at the beginning of the last century. County boroughs whose population is in excess of 500,000 are Liverpool, 685,276; Manchester 543,930, and Birmingham, 522,182. Huddersfield alone among the great industrial centers of England has sustained a slight loss (412) in ten years.

A paragrapher well says children should be repeatedly warned not to nibble any plants or berries while out in the fields or woods. It is even better to go farther and not handle plants or vines. The department of agriculture finds on investigation that many poisonous plants and growths are indigenous to the United States. Many of them are familiar, and their malignant properties have been heretofore unsuspected. The safest rule is one that is entirely prohibitory, so far as chewing leaves or blooms of any plants, wild or cultivated. That common plant, the lily of the valley, carries a strong poison in leaf and flower, if either is eaten. A safe general rule is to put no leaf or bloom in the mouth, and even too generous inhalation is unwise. The charm of blossom and foliage can be enjoyed to the full without contact with the face and lips.

Senator Depew, that inimitable wit and and after-dinner jollier, says the president should be given a third term, "because he has no opposition, no enemies and hardly any criticism." This is a good jolly, but it will hardly be taken seriously by Mr. McKinley or the country at large. A few of the imperialism howlers will undoubtedly find in it an excuse for columns of shudders and terrors at the imperialistic tendencies of the republican leaders, but Mr. Depew has been known too long as a joker to have this taken in earnest. Senator Depew at a banquet in the east introduced President Northrup as the "cyclone of the west," and Mr. Northrup summed up the western opinion of the senator by saying that out there Mr. Depew was regarded as an authority on wind.

"Twenty years ago," says the Indianapolis Journal, "the man who would have predicted that in 1901 Americans would absorb a portion of a British loan or could loan money to European governments would have been suspected of unsound mind."

There is no need to go back any such length of time as 20 years to find a period when a man would have been suspected of being crazy if he had predicted the wonderful prosperity which the country is enjoying in this year of grace 1901. How about the years from 1893 to 1896? It didn't look very likely during those years that we would be lending money to foreign governments by the beginning of the new century. Even the most sanguine of those who were confident that the people of the country would discard free trade at the earliest opportunity dared not hope for such a revolution in affairs as has come. Our experience in past years gave conclusive evidence to the thinking mind that the restoration of our protective policy would bring back prosperity, but only the most ardent optimist could have dreamed of such overwhelming prosperity as has resulted from protective legislation. However, overwhelming prosperity is here, and that is the main thing; and the only two things to be done are, first, enjoy it, and, second, to keep it by holding fast to the policy which has brought it to pass.—American Economist.

The startling information is received from Washington that there are 23 cases of leprosy in Minnesota, 15 in North Dakota and 2 in South Dakota. It has been known for some time that there were numerous cases of leprosy in the United States, but the officials at the marine hospital have been greatly surprised and alarmed over the answers being received from the inquiries recently sent out to city and county physicians and health officers. So far as known, about 300 cases exist, and it is thought that really there are over a thousand. Most of the Minnesota cases are among the Scandinavians who live in the rural settlements. The fact is also noticed that in almost every instance the person affected is a foreigner. The disease is most prevalent in Louisiana, where it is thought it was brought by foreigners. The department having the cases in charge will compile the statistics received, and it is understood an effort will be made during the next congress to have money appropriated for the erection of one or two hospitals for lepers.

It is a matter of general congratulation that the prosperity and resources of Minnesota will be adequately shown at the Pan-American exposition at Buffalo and that our building and exhibits will be commensurate with the greatness of this state. H. P. Hall, one of the members of the Minnesota commission, has returned from Buffalo, where the contract was let for the Minnesota building. The latter will cost $10,000 which will leave $20,000 for the exhibits. Special effort will be made to have a representative display of our agricultural and dairy industries. It is interesting to note in this connection that the Ohio legislature appropriated a like amount, $30,000, for a display at the exposition, but their commission decided to put it all into a building, and leave nothing for exhibits—but then Ohio hasn't so much to show as Minnesota.

It now looks as though the Bassanella brothers were safely out of the reach of pursuit and capture. There is a question whether anyone else than Sheriff Collins of Grand Forks, from whom they escaped, cares very much about their recapture unless it be some one who seeks to earn the reward offered. It was as much by accident as anything else that the murder was committed in Grand Forks county, and the murdered man seems to have been but little known. The county will escape the expense of a trial if they aren't caught, yet the obligation to punish crime is there just the same.

Bemidji never makes a move without moving both feet. The postoffice department recently increased the salary of Mrs. Kaiser, the stamp kisser, and in order to place it in line with the rate of progress made by the village, it had to be set $300 ahead, and is now $1,800 per year. Bemidji can claim the distinction of being the only place in the state showing that rate of increase, and the only place under the village form of government where the salary reaches that figure.

That was an impressive ceremony of Memorial day at the Boston navy yard, under the supervision of the Daughters of 1812, when school children cast flowers upon the water "in memory of all buried at sea." It was the suggestion of the Boston Sunday Journal, and is destined to be accepted as a Memorial day feature all along both seaboards of America.

The Twin Valley Times, in advertising Crookston's big convention to be held next week, calls it a farmer's tournament. The farmers will be present in large numbers and will be royally entertained, but the firemen will be the real thing.

Millers of Minneapolis are trying to recover from the government over $20,000 which they have paid as a result of the war revenue law. They claim the law owes them a rebate but it will be several months before a decision will be reached.

The last issue of the Warren Sheaf was a special high school commencement number, and printed entirely at home. Two pages are devoted to a complete report of the commencement exercises, and some very finely worked up cuts adorn them. The Warren high school class form the subject of one cut; Prof. Angus, principal of the school, another; while Warren's high school building occupies a conspicuous position on another page. The graduation essays are given in full, and speak well for the training the class has received, being articles of much merit in each case. The Sheaf and its subject matter together are a flattering testimonial of the high character of Warren's school and the enterprise of her citizens.

A London dispatch says that J. P. Morgan is arranging for the establishment of a great Anglo-American bank with a capital of $1,000,000,000. It is said that it is proposed to abolish all the principal financial agencies and banks engaged in Anglo-American business. The proposed institution, it is said, is intended to be the principal agency for the already vast and rapidly growing banking transactions between Europe and America. Mr. Morgan is understood to have associated with him in the stupendous undertaking not only the principal capitalists who aided in the organization of the United States Steel corporation, but also the Rothschilds.

W. E. Davis, a bright paragrapher in the Minneapolis Journal, voicing Iowa sentiment as expressed to him, says: "Arrivals from Iowa say that the spirit of discontent is getting in that state. Reports of bright crop prospects in Minnesota, together with the advertisements of land that can be had at reasonable prices, is making hundreds of Iowa farmers anxious to get in on the ground floor of the land market in this state. A big movement from Iowa is sure this fall, and much of the land in northern Minnesota now waiting for the settler will be taken by them."

It would appear to require more than a mere newspaper report to convince the public that two women could have been publicly whipped with cowhides in the city hall at Suffolk, Va. That any town in a state so celebrated for the chivalry of its men as Virginia could descend to such treatment even to women of bad repute passes comprehension. It seems certainly a greater degree of degeneracy in the one who applied the lash and witnessed the flogging than could have been charged against the unfortunate victims.

Attorney General Douglas has begun an action to wind up the business of the American Mining Investment Co., the Kettle Curlew Mining Co., and kindred concerns on the ground that they are frauds of the first water, that they never owned anything except a few worthless options and have been paying dividends out of the proceeds of the sale of stock instead of from profits on mining. The companies are capitalized at half a billion dollars. It is said that the company has collected $150,000 during the few years of its existence.

The Turtle River Pine Tree tells how "Doc" Jones was down around Gray's camp one day last week and came very near throwing his arms around a young deer he saw near the camp. That's easy, a fellow down on south Ash street actually succeeded in throwing his arms around a young dear. He aimed for her waist, however, and she got busy in the same way around his neck.

The populistic Norwegian weekly, the Arbeidsmanden of Fertile, which has been trying to stem the oncoming tide of republicanism, has given up the struggle for existence and adjourned sine die. Editor Bakken is reported as having taken to the woods, where he will probably devote his time to cultivating an appreciation of prosperity conditions, under republican management.

An Indiana man opened a jackpot with a counterfeit dollar recently, and a jury in the U. S. court said it was all right, and no penalty attached. But in Montana a man opened one with a bowie knife and the coroner's jury decided that to help bury the corpse was the least he could do.

The Fertile Journal, which under Editor Knappen's management has taken its place in the front rank of country newspapers, has just entered upon its fifteenth volume. It is richly entitled to the generous support which it is receiving at the hands of the Fertilites.

The Bemidji Pioneer continues in its good work of reading out of the city the tinhorns, gamblers and dive-keepers. It wants to protect the visitors who attend their firemen's tournament next week, and show the world that they have other resources than con-games. Good act.

For the first time in its history, Canada is preparing to erect a mint and coin their own gold, silver and bronze. They will also erect an assay office on the Pacific coast.

President McKinley might teach Bryan how to open his mouth without putting his foot into it—that is, if Bryan really cared to learn.—Jersey City Journal.

A blind calf is on free exhibition at East Grand Forks, and a lot of blind pigs may be seen at several points in North Dakota.

Two business men were holding a conversation on the street corner the other day, when a lad about fifteen passed by and one of the men remarked: "That's a bright boy, I am watching him. If he gets through another year or so without contracting any bad habits so prevalent among the sixteen year old boys in town, I know where he will get the offer of a mighty good position." The boys should remember that they are continually watched by the business men. The boy who is studious, industrious, prompt, energetic and reliable is preparing the way for a good position for somebody. There are not enough such young men to meet the constant demand.—Ex.

The report of the commissioner of pensions, brought up to date shows that there have been 43,874 claims filed on account of the recent war with Spain. There have been granted 2,309 pensions to invalids, and 1,156 to widows and dependents on account of this war. Such a number of claims seem entirely out of reason. If there was any probability of their being granted it would be as well for the government to provide a pension for every soldier who enlists and save the expense of the pension bureau. It grows more and more evident why the pension attorneys want to see Commissioner Evans removed.

General Samuel Pearson of the Boer army, who has been in New Orleans in connection with the effort to have the traffic to South Africa in mules prevented, says: "It is a surprise to me that ships that ply between New Orleans and Cape Town, where they load and unload, and which place is affected with the bubonic plague, are permitted by the United States custom officials at New Orleans to enter its port without any examination whatsoever. You are bound under the circumstances to sooner or later face bubonic plague in New Orleans."

The Delano Gazette serves notice that the editors have done the advertising for candidates for office free for about long enough, and under the new election law, it will be necessary for candidates to be known over the country before the primaries are held, and it is thought that about ten cents a line for single notices of candidacy is the thing. This will give the printers a little chance for cash, and the more candidates and the longer their stories the more ready cash for the printers.

Some idea of the size of Texas may be obtained from the statement that the entire population of the globe, 1,400,000,000 people, divided into families of five persons each, could be located in Texas, each family with an half acre lot, and there would still remain 70,000,000 vacant half acre lots. If this estimate is correct, the world is far from being overpopulated at the present time.

Walker has a new attorney, John W. Carl, who has proven that the aboriginal blood may be sent coursing through educated veins. Mr. Carl is as much Indian as white man but in college life he has ranked with the average of his classes, and has maintained an excellent standing in all college athletics.

The pension roll on June 30, 1000, contained 993,529 names, not including those of 52,095 children or minors under sixteen years of age, that are paid on the widow's certificates. Since that date there have been added to the roll 43,397 names, while, in addition, there have been issued 50,680 certificates for increases, rerating and accrued pensions. During the period 466 original pensions were for services prior to the civil war; 35,308 were for account of the civil war. The original pensions on account of the war with Spain aggregated 3,524, while there were restored to the rolls 4,100 names that had been dropped or suspended for various causes. The total number of claims filed to date for account of the war with Spain has been 43,874, and it is interesting to learn, on the authority of the commissioner of pensions, that many of these applicants have reenlisted in the army for service in the Philippines.

Wm. Epworth, a workman in the Grand Forks Lumber company's mill at East Grand Forks, was brought to the city Sunday night and taken to the hospital for care and treatment. Mr. Epworth had the misfortune on Saturday to get his leg severely injured in a portion of the machinery known as the slasher, with the result that it is seriously mangled.

PROTECT YOUR FURS

By using CEDAR ANTI-MOTH BAGS. Size 24x36 inches. GUARANTEED VERMIN PROOF. Neither Miller, Moth nor Mouse will go near them.

NOTICE FOR PUBLICATION.

DEPARTMENT OF THE INTERIOR, Land Office at Crookston, Minn, May 13, 1901.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the Register and Receiver of the U. S. Land Office at Crookston, Minn., on July 5th, 1901, viz:

Ole P. Sessass, H. E. 15979, for the E½ SW¼ and lots 6 and 7, Sec. 6, Tp. 147 N., R. 45 W.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz:

—Louis B. Haftorson, of Fertile, Minn.
Ola N. Tarvestad, of Fertile, Minn.
Hans M. Holmvek, of Beltrami, Minn.
Ole B. Bolstad, of Fertile, Minn.

—Sylvester Peterson, Register.

7-12

The New Ninth.

Editor Bell of the Roseau Times met P. H. Konzen recently while the Hallock statesman was on a visit over in the Lake of the Woods country, and the result is that the Times launches this vigorous congressional boom for the man in the northern tier.

"In Mr. Konzen, we may be permitted to say, that Hallock, one of the most enterprising cities in the Red River Valley, has a representative and enthusiastic citizen, who never loses sight of home interest. Mr. Konzen is the paternal pet of the business men of Hallock and is respected because he is a man. Politically, Mr. Konzen is a Republican of a character beyond dispute and the Times would not be surprised to see him a candidate for nomination for congress on the republican ticket. It is possible, however, that 'community of interest,' as at present obtains with the railroad companies, may extend to the election of representatives in congress and in that case the 'community of interest' may select a man of vote getting power without regard to qualification. Should the present management of the Times be in control in 1902 its voice will be heard in advocacy of the election of a man of the people."

Fertile Journal: Hans Johnson, deputy revenue collector for this district, was down from Crookston last Tuesday. Mr. Johnson 's just now grooming a favorite for congressman in the new Ninth, but requested us not to mention any names, so "mums the word." How mysterious! Oh, the suspense of waiting.

Relieve thy suffering Bro. Knappen. Hans stands for Halvor, sometimes called the "Pine Tree of the North." —Ada Index.

Editor Paradis in the Midway News says Senator Ryder is another example of why it is the country cuts a sore figure in the legislature as compared with the cities.

Thereat Bro. Stevens of the Warren Register cuts in this way: "Really Bro. Paradis, we don't quite grasp the point. Doubtless you mean 'sorry,' instead of 'sore,' but even after that amendment to the above we still grope in darkness. In the first place, the country did not cut a 'sorry figure' in the last legislature; and, in the next place, Ryder should not be charged up to the country, as he was only a sort of carpet bagger in Polk county, a political adventurer who came there from St. Paul but a short time before his election to the state senate. Had Ryder not been vouched for by former St. Paul associates, the Republicans of Polk county would never have taken him up. In the third place, will the News tell us what sort of a figure Tim Sheehan and some of the other city chaps cut in the legislature?"

The papers over west are wasting a lot of space these days setting forth the claims of their respective friends to congressional honors in the new Ninth district. Don't overlook the fact Beltrami county may have something to say when the proper time comes. —Bemidji News.

Two dark horses are looming up in the field of congressional candidates in the new Ninth district. Polk county has kept remarkably still on the subject, but the impression prevails in other parts of the district that Halvor Steenerson will in due time enter the race with the backing of Crookston. Steenerson is a strong campaigner, and is well known all over the Red River Valley. His candidacy would split up Grindeland's strength to a considerable extent.

The other favorite son hails from Beltrami county. He is W. F. Street, the county attorney, who recently leaped into fame by beating the big lumber companies in the Beltrami county tax case. The Bemidji Pioneer gives it out that if Street can be induced to enter the race, he will be presented by Beltrami county as her choice for congress. It is understood that Street would like to try for the state senate instead. Beltrami has been recently attached to the Red River Valley counties, and when it comes to a congressional fight, would be a 100 to 1 shot; but stranger things have happened, with a big field of candidates. Street would stand a much better chance, however, if he were to go after the seat in the senate now held by Ole Myran.

The situation as to candidates for congress in the Ninth now stands as follows:

Actualities—A. Grindeland, Warren; S. G. Comstock, Moorhead.

Possibilities—Ezra Valentine, Breckenridge; W. W. Calkins, Ada; Halvor Steenerson, Crookston; W. F. Street, Bemidji.

SUMMONS.

STATE OF MINNESOTA, COUNTY OF Polk—ss.

In District Court, Fourteenth Judicial District.

Mollie Bodie, plaintiff, vs. Eugine Bodie, defendant.

THE STATE OF MINNESOTA, TO THE ABOVE NAMED DEFENDANT:

You are hereby summoned and required to answer the complaint of the plaintiff in the above entitled action, which said complaint has been filed and is now on file in the office of the Clerk of the District Court in and for said County of Polk, in the State of Minnesota, and to serve a copy of your answer to the said complaint upon the subscriber at his office in the Rickett Block, in the City of Crookston, Polk County, Minnesota, within thirty days after the service of this summons upon you, exclusive of the day of such service; and if you fail to answer the said complaint within the time aforesaid, the plaintiff will apply to the Court for the relief demanded in said complaint.

Dated April 27, 1901.

—G. A. E. FINLAYSON,
Attorney for Plaintiff, Crookston, Minnesota. Rooms 32-33 Rickett Block.

SHERIFF'S SALE.

By virtue of an execution, issued out of and under the seal of the district court, in and for the county of Polk and state of Minnesota, upon a judgment rendered and docketed in the said court on the 12th day of April, A. D. 1901, in an action wherein The McCormick Harvesting Machine Co., a corporation, is plaintiff, and William L. Davies is defendant, in favor of the said plaintiff and against the said defendant, for the sum of Five Hundred Forty-seven and 32-100 ($547..32) dollars, which execution was directed and delivered to me as sheriff in and for the said county of Polk, I have this 11th day of May, A. D. 1901, levied upon all the right, title and interest of the said defendant William L. Davies in and to the following described real property situated in the county of Polk and state of Minnesota, to-wit:

The southwest quarter of the southwest quarter, the northeast quarter of the southwest quarter, and the southeast quarter of the southwest quarter, of section number sixteen, township one hundred fifty-three, range number forty-seven.

Notice is hereby given that I, the undersigned as sheriff aforesaid will sell the above described real property to the highest bidder for cash at public auction at front door of the court house, in the city of Crookston, in the county of Polk and state of Minnesota, on Friday, the 19th day of July, A. D. 1901, at ten o'clock a. m., of that day, to satisfy the said execution together with the interest and costs thereon.

Dated June 5th, A. D. 1901.

—D. J. SULLIVAN,
Sheriff of Polk County, Minn.

—A. A. MILLER,
Attorney for Plaintiff.

9—15

SHERIFF'S SALE.

By virtue of an execution, issued out of and under the seal of the district court, in and for the county of Polk and state of Minnesota, upon a judgment rendered and docketed in the said court on the 12th day of April, A. D. 1901, in an action wherein The McCormick Harvesting Machine Co., a corporation, is plaintiff, and William L. Davies is defendant, in favor of the said plaintiff and against the said defendant for the sum of Two Hundred Twenty-one and 40-100 ($221.40), dollars, which execution was directed and delivered to me as sheriff in and for the said county of Polk, I have this 11th day of May, A. D. 1901, levied upon all the right, title and interest of the said defendant William L. Davies in and to the following described real property situated in the county of Polk and state of Minnesota, to-wit:

The southwest quarter of the southwest quarter, the northeast quarter of the southwest quarter, and the southeast quarter of the southwest quarter of section number sixteen (16), township number one hundred fifty-three (153), range number forty-seven (47.)

Notice is hereby given that I, the undersigned, as sheriff aforesaid, will sell the above described real property to the highest bidder for cash at public auction at front door of the court house, in the city of Crookston, in the county of Polk and state of Minnesota, on Friday, the 19th day of July, A. D. 1901, at ten o'clock a. m., of that day, to satisfy the said execution together with the interest and costs thereon.

Dated June 5th, A. D. 1901.

—E. J. SULLIVAN.
Sheriff of Polk County, Minn.

—A. A. MILLER,
Attorney for Plaintiff.

9—15

MORTGAGE FORECLOSURE SALE.

Default having been made in the payment of the sum of four hundred and five dollars, which is claimed to be due and is due at the date of this notice upon a certain mortgage, duly executed and delivered by Samuel J. Cunningham and Louie E. Cunningham, his wife, mortgagors, to the Security Trust Company, mortgagee, bearing date the 9th day of December, 1891, and with a power of sale therein contained duly recorded in the office of the register of deeds in and for the county of Polk and state of Minnesota, on the 17th day of December, 1891, at 2:35 o'clock p. m., in book 50 of mortgages, on page 152.

Which said mortgage, together with the debt secured thereby, was duly assigned by said Security Trust Company, mortgagee, to Julia W. Powers by written assignment dated the 9th day of December, 1891, and recorded in the office of said register of deeds, on the 4th day of February, 1892, at 9:40 o'clock a. m., in book 56 of mortgages, on page 573.

Which said mortgage, together with said debt secured thereby, was duly assigned by said Julia W. Powers, the assignee and holder thereof, to William C. Haney, by written assignment dated the first day of May, 1901, and recorded on the 23rd day of May, 1901, at 11 o'clock a. m., in book 99 of mortgages, on page 609-610, in the office of said register of deeds, and no action or proceeding having been instituted, at law or otherwise, to recover the debt secured by said mortgage, or any part thereof.

Now, therefore, notice is hereby given, that by virtue of the power of sale contained in said mortgage, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, viz:

Lot four in section thirty-three, in township one hundred and fifty, of range forty-six, containing 44 acres, more or less (Lot 4, Sec. 33, in Twp. 150, of R. 46,) in Polk county and state of Minnesota, with the hereditaments and appurtenances; which sale will be made by the sheriff of said Polk county, at the front door of the court house, in the city of Crookston, in said county and state, on the 13th day of July, 1901, at ten o'clock a. m., of that day, at public vendue, to the highest bidder for cash, to pay said debt of four hundred and five dollars, and interest, and the taxes, if any, on said premises, and twenty-five dollars, attorney's fees, as stipulated in and by said mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Dated May 29th, A. D. 1901.

—William C. Haney,
Assignee of Mortgagee.

—Samuel Morrison and
—R. J. Montague,
Attorneys for Assignee.

8-18

SUMMONS.

State of Minnesota, County of Polk—ss.

In District Court, Fourteenth Judicial District.

Stanley L. Collins, plaintiff, vs. The City of Crookston and James Kennedy, defendants.

The State of Minnesota, to the above named defendants.

You and each of you are hereby summoned and required to answer the complaint of the plaintiff in the above entitled action, which said complaint has been filed and now is on file in the office of the Clerk of the District Court, county and state aforesaid, and to serve a copy of your answer to the said complaint upon the subscriber at his office in the Rickett block, in the city of Crookston, Polk county, Minnesota, within twenty days after the service of this summon upon you, exclusive of the day of such service; and if you fail to answer the said complaint within the time aforesaid, the plaintiff will have the amount he is entitled to recover ascertained by the court, or under its direction, and will take judgment against you and each of you for the amount so ascertained, besides the costs and disbursements of this action.

G. A. E. FINLAYSON,
Attorney for Plaintiff, Crookston, Minnesota. Rooms 32-33 Rickett blk.

To James Kennedy, Esq., Fargo, N. Dakota.

Crookston, Minn., April 11, 1901. 1-9

CITY AND VICINITY

—If you wish to renew your loan, or take up balance on your contract for deed, see Ole Tiegen, Crookston. tf

Miss Margaret Sullivan, of the Fifth ward, has returned from McIntosh, near where she is teaching school.

—Fine photographs in all styles from $1 to $20 per dozen at Skrivseth's art studio, near Commercial hotel, Broadway.

Wm. Anglim and Emil Himmelsbach have been appointed appraisers of the estate of the late Mrs. Samuel Marin of Oastad.

While J. W. Brown, the Warren attorney, was in the city the early part of last week, he had the misfortune to lose a pocketbook containing upwards of $65 in cash.

Iver H. Mjoln, who came to Vineland away back in the seventies, before the township was named, is one of those summoned to do jury duty during the current term of court.

The Northern Pacific railroad is said to have 26 more cars than any other railroad in the world, and it wasn't rolling stock that they were buying so hard the other day, either.

The friends of Miss Josie Lally, who has for weeks been suffering from inflammatory rheumatism, are pleased to learn of her continued improvement, which is slow but steady.

N.P.Stone & Co.Friday sold a Flour City gas engine and an Aultman & Taylor separator to some Climax parties. This is the first threshing outfit sent out of the city this season.

Mrs. C. U. Nolan left Friday for a visit with her friend, Mrs. Dr. Pratt of Ulen, preparatory to joining her husband who has gone to Arkansas to superintend a division of the Cotton Belt line.

The Halstad creamery will soon be ready for business. Farmers in the vicinity of the creamery are canvassing the western part of the county for milch cows and are bound to make the venture a success from the start.

Milburn Griffiths leaves this week for St. Catherine, Ont., to be gone three months, and perhaps longer. Mr. Griffiths has made Crookston his home for two years and has made many friends who will sincerely regret his departure.

Friends of Miss Ada Still, of the corps of teachers in this city, will regret to learn that she has been called upon to mourn the death of her brother George, aged 22 years, which occurred at Moorhead on Tuesday, of last week, the cause being smallpox.

Chas. Vines' beautiful little three year old twin boys are very seriously sick with lung fever. The sickness in each case commenced with the measles, and then assumed its present form. Serious fears are entertained that they will not recover.

Miss Helen Densmore, who made many friends here during the year she spent as the guest of her sister, Mrs. M. Losey, Jr., was married on Wednesday at her home in Chicago, and is now Mrs. Salvage. The newly married pair are now visiting with Crookston friends.

Rev. and Mrs. F. W. Frazer returned Saturday morning from an eastern trip, during which Mr. Fraser attended the National Presbyterian Assembly, tarrying en route home at Indianapolis, where he officiated at the marriage of Miss Cooper, a sister of Mrs. Fraser.

Andrew Carlson, the enterprising proprietor of the West hotel, is again improving his property. This time it is an addition to the rear of the hotel building, a part of the lower floor of which will be used as a kitchen and the upper part to increase the lodging capacity of the house.

Among the land lookers who are here from southern Minnesota, Louis Rock, of Edgerton, is one of those who have been able to secure some good property, having purchased the Warneke farm in Fairfax. Mr. Rock is up on his second trip and intends to add to his real property holdings.

Misses Nora and Mary Walstad and Thora Hagen returned home Friday from Moorhead, where they have been attending the state normal school, from which the Misses Walstad graduated. Owing to the enforced absence of Miss Hagen during the illness of her mother, Miss Hagen will take up some extra work before graduating.

Prof. J. C. Childs, who has just completed a very successful year's teaching in the Fargo high school, returned this morning and will spend his summer vacation at home. As an indication of the way they appreciate his services in Fargo, the board of education re-elected him for another year with an increase of $10 per month, without any solicitation to do so.

Supt. Hoverstad ran over from Fisher Saturday and found time to tell the Journal of the enthusiasm that prevailed at the institute held there Friday. The farmers were out in large numbers and the spirit shown was altogether satisfactory. Profs. Smead and Gould were greatly pleased with the conditions. The corps of instructors were at East Grand Forks Saturday.

Martin Mossefin returned Friday from Warren, where he assisted as best man at the marriage of his cousin, Ed Mossefin and Miss Tarelseth. The example set is one that Martin intends to follow at the earliest possible date. Mr. Mossefin bears his honors as state finance keeper of the grand lodge of Maccabees with becoming modesty, yet with a feeling pride in the fact that he landed something for Crookston.

—Say, want the best corn planter on earth? Check rower and drill. A bargain. See that Tiger, Cooper at Fisher.

J. A. McConkey, the Fergus Falls grocer, is having lots of fun fighting the flour trust. He is selling flour, and lots of it, at $1.75 per barrel.

Editor Butler of Bagley says that wild berries will be plentiful in that locality this season. Wild strawberries are already being harvested.

Editor Semling of Halstad drove up into Polk county last week and found prairie grass two feet high and it has grown six inches a day ever since.

Ole Erickson, who lives out at Bagley, has been west and got an interest in the salmon fisheries on the Washington and Alaska coast, and will get into the game out there.

The Thirteen Towns office has turned out an elegant job of colored posters calling the crowd to the race meet and Fourth of July celebration, and Bro. Foss says, your'e welcome to em.

For the two weeks ending June 3, there were 449 cases of smallpox reported in Minnesota. That is about 100 less cases than for the previous fortnight.

Nels Hawkinson, the popular travelling representative of Wright, Barrett & Stilwall, won a $10 prize at the Fargo festival, and sent it as a present to the Children's Home. Nice boy that Nels.

That Lenghy brick yard, under the management of Col. Stadsvold and Lewis Lohn, is turning out some fine drain tile, and will soon be able to supply the demand for the entire upper country.

The next time a fire starts out at Bagley, it won't have any show. The village has purchased a new fire engine and complete apparatus, warranted to throw three streams in four directions at one time.

The Fergus gun club, consisting of four of the Dewey boys and Thos. Agern, went against five of the crack clubs of the state including those from the Twin citie and captured the inter-state trophy, a handsome cap. This happened at Wheaton last week.

Congressman Marshall has perfected arrangements with the interior department whereby the abandoned military reservation in Pembina county will be sold in October. There are about 2,000 acres of land and some good buildings to be sold for not less than the appraised value.

Roseau's county attorney, R. H. Medicraft on his way through the other day made the following report on Roseau conditions: "Just watch us—we are the people and will be respected. New settlers are pouring in by the hundrd, everybody is proving up on their land, crops are looking fine, the world is ours."

The "Nubs of News" man on the Grand Forks Herald thinks that some of the metropolitan papers are running to ragtime in the matter of heads. He counted up the other day and found that the front page of one of the Minneapolis papers presented its readers with no less than eighteen distinct and separate kinds of heads.

Miss Oliva Brivik of Thief River Falls is visiting her sister, Miss Sarah Brivick.

Norwood Davies, the hustling city editor of the Grand Forks Herald, spent Sunday here as the guest of his parents.

Captain Eck is entertaining his brother-in-law, C. Ogrell of West Superior, who arrived yesterday, for a brief visit.

Katherine, the oldest daughter of Mr. and Mrs. J. W. Wheeler, is uncomfortably ill, and the physicians have pronounced her case typhoid fever.

Mrs. E. D. Barness of Fosston passed through Crookston Saturday night bound for Albert Lea to see her aged mother, who is not expected to survive but a short time.

Among the city's visitors during the convention is Frank G. Hall, one of the best all'round newspaper men that ever wrote a local or set a stick of type in the northern country. Mr. Hall once worked on the Crookston Journal, which accounts for the fine reputation he has made.

The C·O·D

Bring Along Ten Dollars

and have your mind set on getting fully $12.50 worth for that is the real value of these $10 suits which we are going to sell this week. You know the C. O. D's. guarantee of reliable clothing and good values with every suit. We know we can save you money. Coats, round or square cut and regular shape. Trousers cut up in style.

We show an enormous line of famous shirts--all made from imported Anderson's Madras--plain or pleated bosoms--we can suit anyone in the showing--from $2.00 to

$1.00 and $1

We show this season the largest line of underwear ever handled by us--all the new shades--blue, pink; ecru and fast black. We have these in Balbriggans and in ribbed goods.

25c, 50c, 75c, $1.00

We have just received a case of fancy Hosiery, blue, black and helio grounds with different stripes, regular 20 cent values, this week

10 cents

Brick laying has begun upon the elegant office building being erected by Christianson & Strander next to the Crookston Hotel.

County Attorney Grady came down from Red Lake Falls to represent that city's fire department and add dignity to the gathering.

Mrs. Len West of Grand Forks, who is occupying a cottage at Maple Lake, is reported to have a light attack of smallpox. Dr. Darling of Mentor is in attendance.

Grand Forks hed nineteen graduates in the high school. Fargo had twenty-seven. That's about the relative proportion— in lots of things— barring base ball, says Major Edwards.

A. H. Bennett, chief of the Brainerd fire department, is city circulator on the Daily Dispatch, recently started there, and made the Journal a fraternal call. Bennett is the sort that sets the subscription list ahead in bunches of four hundred a week.

Mr. A. D. Beach, chief of the Mankato fire department was attending the convention this week. He is one of the royal good fellows that any of his acquaintances will not hesitate to vouch for, and among them he numbers our old, old friend, Dr. J. C. Curryer, whose letter of introduction furnished him a passport to anything in the Journal office.

Among the young lady graduates who were here Saturday returning home from the Moorhead normal were Misses Florence Fink of Cass Lake, Charlotte Dure, Hallock, and Ingeborg Espeseth of Erskine.

Mrs. Andrew Sture, who has spent the past month visiting the family of C. E. Lindberg, and among her many other friends here and at Wylie, left Saturday night, returning to her home at Centre City, down in Pine county.

The fruitfulness of the pine country is attested by a fine sample lot of ripe new strawberries sent to the Journal by Col. Roland H. Hartley of Cass Lake. The openings out east are full of short cake timber just like the sample, ripe, round, red and luscious.

L. A. Gooler came in from over west Saturday and will remain in Crookston doing a turn to make the firemen's gathering here more successful for some of his friends. Mr. Gooler is prospering in the law, land and loan business out at Devils Lake, and there

A box containing fifteen Belgian hares was with the express that went to St. Hilaire on the Saturday train. They were billed to Rev. J. T. Hammond, and though in pretty close quarters, were apparently cheerful and lively little critters, and with any kind of luck Mr. Hammond should have Belgian hares to sell to the Indians by fall.

Mrs. Mackin and Miss Fox, who have been conducting fashionable dressmaking parlors in the city, have closed their business and left on Saturday night for Minneapolis. It is said that there are sore hearts among some dealers who have extended credit to them.

L. O. Dalt, J. M. Armstrong and Floyd Day, all members of this year's graduating class at the School of Medicine at the university, were in the city Monday. They compose a party to carry on the work of the state zoological survey and will spend a fortnight in eastern Marshall county.

Dr. Geo. Convrette left Sunday for St. Paul, where he will submit to an examination by the state board of dental examination for license to practice his profession in this state. The doctor has decided to locate in Fosston and will swing his sign to the breeze soon after his return.

AMOS--McEACHREN

Delightful Wedding Event at the Residence of Hugh R. Robertson

OCCURRED THIS AFTERNOON

Popular Young Business Man Takes a Bonnie Scotch Bride.

One year ago the first of this present month, there arrived in this city a fair Scotch lassie direct from her home in Scotland, Miss Maggie Mc Eachran, who came for a visit with her sister, Mrs. Hugh Robertson. At the time of her arrival, Mr. Wm. H. Amos, a young man of many sterling qualities, was employed in a position of honor and trust in the office of the Crookston & St. Hilaire Lumber Co. Both these young people were staunch and loyal members of the same church, and both were "heart whole and fancy free." In the progress of events, they soon met each other and as subsequent events have proved, Cupid, the omnipresent little god of love, was near at hand, and soon had control of the situation. The passing days fanned the flame of love until it culminated today in the incident which our reporter relates as follows:

This afternoon at the residence of Hugh R. Robertson occurred one of the prettiest weddings that has ever taken place in this city. Miss Maggie McEachran of this city was united in marriage to William H. Amos of St. Hilaire, Rev. Fenwick Frazer performing the ceremony. About forty-five guests were in attendance. The beautiful parlor of the Robertson residence was elegantly decorated with wreaths of green, cut flowers and house plants.

A great festoon of smilax festooned the alcove, which the bride and groom occupied during the ceremony; and a delightful abundance of roses, lilies of the valley and other beautiful flowers scattered lavishly through the room, upon the piano and every other available resting place, permeating every corner with their delightful fragrance, furnished a vision of beauty long to be remembered by the assembled guests. As the hour appointed for the ceremony arrived, Miss Gertie Gleason took her place at the paino, and amid the beautiful strains of the wedding march from Lohengrin, the bridal party descended the stairs and entering the room took their position under the festooned arch of smilax and flowers.

The bride was beautifully attired in a dress of white silk mulle, over white silk, with a long trail, and wore the regulation bride's vail of white decked with delicate lilies of the valley, and carrying in her hand a boquet of bride's roses. Miss Rae Wilkinson, Miss Nellie Haney, and the Misses Charlotte and Ethel Robertson officiated as bridesmaids, and F. E. Mc Gregor as groomsman.

Miss Wilkinson wore a beautiful silk tissue dress of pale pink, with hand embroidered yoke and fichu, with white ribbon in the neck and belt.

Miss Haney's costume was of white over pink silk.

The ceremony was conducted by Rev. Mr. Frazer according to the ritual of the Presbyterian church, with a ring. During the ceremony the bridel couple kneeled upon an oblong hassocku beautifully upholstered in white. After the momentous words pronouncing the happy couple man and wife were said, Miss Gleason delighted the company with Mendelssohn's wedding march in her usual inimitable way, and congratulations and friendly wishes followed.

A delightful lunch of light refreshments was then served.

Many beautiful gifts were displayed, among which was an elegant easy chair, which was presented by the office employes with whom the groom had been associated while employed here in the city.

A beautiful sterling silver tea serviceme and several generous sized checks from friends and relatives of the bride at her former home, to be cashed and invested at pleasure, were also among the pleasant token of good will.

The groom, who was formerly employed in the office of the Red River Lumber company at this place, but now superintending the Crookston & St. Hilaire Lumber Co.'s business at the latter place, is a young man of sterling character, and possesses the confidence and respect of his employers and all his acquaintances. The bride is a sister of Mrs. Hugh Robertson and came to this city direct from her native place at Bothwell, near Glasgow, Scotland, a year ago. During her stay here she has endeared herself to all who have been fortunate enough to form her acquaintance, and she will be sorely missed from the circle of church workers with whom she has been very actively connected during her residence here.

The Journal wishes to extend its congratulations and best wishes for the future happiness of the newly wedded pair.

DEFECTIVE PAGE

LESS SMALLPOX

Minnesota Shows up Better in the Board of Health's Last Fortnightly Report

PITTED PUSTULAR PEST

Is Gradually Yielding to the Efforts Made to Insure Vaccination

The fortnightly report of the state board of health shows that smallpox in Minnesota, which reached threatening proportions a fortnight ago, is checked and on the wane. During the two weeks 449 new cases were reported, compared with 1,161 new cases for the month ending May 20.

The extent of the territory afflicted with the disease is also considerably decreased. New cases are reported from forty-five counties, compared with sixty-four counties during the previous month. Only eighty communities report new cases, eighty-three communities less than reported new cases during the month ending May 20.

Only ten communities report more than ten cases, as compared with twenty-six communities during the month ending May 20. Oneka township, Washington county, which made no report last month, heads the list with ninety-one new cases. Minneapolis which last month reported ninety-nine new cases is second with thirty-five new cases. Leaf Mountain township, Otter Tail county, which made no report last month, reports twenty-nine new cases. Bemidji reports twelve new cases, as compared with sixteen the previous month. Watertown reports fourteen new cases, the same as last month. Poplar township, Cass county, which reports sixteen new cases; Cosmos township, Meeker county, which reports seventeen new cases, and Terrebonne township, Red Lake county, which reports twenty-three new cases, made no report last month. Faribault reports fourteen new cases, fifteen less than were reported the preceding month.

St. Paul reports only seven new cases, compared with seventeen for the month ending May 20.

GOVERNOR GETS BUSY

GOVERNOR WHITE MAY OFFER REWARD FOR BASSENALLAS.

Governor White of North Dakota has requested that the evidence in the case against the Bassenalla brothers be forwarded to him at once, in order that he might be in a position to determine whether or not there would be a reasonable chance of convicting them should they be apprehended. If he considers that the evidence is sufficiently conclusive against them he will without doubt offer a reward for their apprehension at an early date and this will materially strengthen the chances of their being apprehended, as officers as well as others who are not at the present time directly interested in locating them will then have some incentive for making a most thorough search for the escaped prisoners. No fear is felt but what they will be rearrested in time, but it is desired that they be brought back at a very early date in order that they may be tried at the present term of the district court, or at the term which will open next Monday, as there will be no jury term for some time after that in Grand Forks county, unless it is summoned especially for them, which would put the state to additional expense.

NOT ENCOURAGING

FACTS AS TO MRS. McKINLEY'S AILMENT GIVEN OUT AT LAST.

Washington, June 10.—Mrs. McKinley's physicians have issued the following bulletin:

"Mrs. McKinley's illness has been blood infection resulting from periostitis of the index finger (bone felon) which began in Los Angeles and which was promptly treated by incision. The subsequent condition of exhaustion was due to the same blood infection aggravated with severe diarrhea. She improved, however, and was brought home in comfort and without loss of strength. The principal cause of anxiety in the case since her arrival in Washington has been acute endocarditis (inflamation of the lining membrane of the heart, involving the mitral valve, the result of blood infection. The disease does not appear to be progressive and there has been improvement in the diarrhea and her general condition. Mrs. McKinley's case at the present time presents a more cheerful aspect.

FORTUNATE OLD TRUNK.

NEW HAVEN DRUMMER FINDS $250,000 WORTH OF BONDS.

New Haven, Conn., June 10.—Wm. Warner, a drummer of New Haven, has just unearthed a fortune in a peculiar fashion. While rummaging through an old hair cloth trunk, the property of a relative, he unearthed a packet of letters. Thinking them a bunch of sentimental effusions, the work of his father, Warner stuffed them into his grip and packed up his sample cases for a trip. While seated in the smoker he untied the package and great was his surprise on finding them bonds of an early issue of the New York, New Haven & Hartford railroad, with great parcels of stock of both the Adams and United States Express companies. Arriving in Hartford, Warner hastened to a brokerage firm, where he found he had some $48,000 of accrued interest coming to him, as well as property valued at $250,000.

FLAG DAY JUNE 14.

GOVERNOR VAN SANT ISSUES A PROCLAMATION.

Governor Van Sant Saturday issued the following Flag Day proclamation:

"The American flag is universally recognized as the emblem of liberty and justice. Beneath its fold, wherever it floats, brave and loyal American hearts beat with pride and devotion. To the oppressed of every land it affords the inspiration of hope for relief and better conditions. To each of our citizens it vouchsafes individual liberty and protection to personal and property rights. The fire of patriotism never burned more brightly in the American heart than today. It is eminently proper that an opportunity be afforded to unitedly show our regard for the stars and stripes and our love for our common country at large. An approved custom has arisen of appointing a day upon which the flag is displayed upon public buildings, private residences and business houses. I accord with this commendable custom,

"I, Samuel R. Van Sant, as governor of the state of Minnesota, do hereby designate Friday, June 14, A. D. 1901, as Flag Day, and heartily recommend a general display of old glory throughout the day. Let our national banner be in evidence upon all public buildings, factories, farm houses and city residences.

"In testimony whereof I have hereunto set my hand and caused the great seal of the state to be hereto affixed, at the capitol, in the city of St. Paul, this 8th day of June, A. D. 1901."

This is the first time the day has ever been observed in the state.

A TELEPHONE LINE

PROPOSED TO CONNECT OUTLYING TOWNS WITH FOSSTON.

Thirteen Towns: Andrew Kvien of the Fosston Telephone company leaves tomorrow morning to call upon citizens in the towns of Gully, Winsor and other places along the proposed new branch telephone line, to interest them if possible in the building of a toll line from Fosston to extend through these places and possibly others.

In order to enter upon this extensive work it is necessary to procure the interest and assistance of the farmers and business men along this route, at least so far as to be willing to assist him in the construction work. In the putting up of a telephone line, the cost of getting the poles needed along the route is a heavy item for the company, while if the people along the line are willing to provide them they will greatly assist in bringing about this desirable connection with the outside world.

SAD CATASTROPHE.

MOTHER AND CHILD BURNED TO DEATH IN IDAHO.

The wife and youngest son of Rev. J. T. Osborn of Hailey, Idaho, perished in a fire which destroyed their home at midnight May 27. Mr. Olson, who is a brother of L. Olson, editor of the Red River Valley News, published at Glyndon, Minn., was absent from home at the time and the fire is supposed to have caught from the parlor stove. As the mother and child were sleeping upstairs, they were not aroused in time to make their escape.

BEAR WAS CURIOUS

ABOUT THE FAMILY CELLAR AND GOT HIMSELF KILLED.

Bagley Independent: A. P. Moen is fast gaining the reputation of being a crack bear hunter, having killed another black monster last Monday which weighed 339 pounds. Mr. Bruin was helping himself to sweet cream and butter which had been placed in a shallow hole in the ground, when his bearship was discovered by Mr. Moen who promptly dispatched him with a chunk of lead. The hide has been shipped to St. Paul and some of the meat can be had at the meat market.

WILL REBUILD THE OIL MILL.

John Bannon, proprietor of the oil mill recently burned at Grand Forks, has made a satisfactory settlement with the insurance companies, receiving $13,800 insurance on his plant and $6,000 on stock. Work was at once begun clearing up the debris, and the announcement is made that a new mill be built as soon as possible, and will be finished in time to handle this year's crop. Mr. Bannon has not yet decided on a site, but has several in view. The East Grand Forks people are endeavoring to induce him to locate on that side of the river.

"Stop that cough right away with Mull's Lightning Cough Cure. It heals diseases of throat and lungs. It's pure and good for children. 25c. For sale by S. A. Wallace.

In Ten Lines.

A crew of five carpenters commenced work on the depot Monday. It is to have a stone foundation and will stand on the west side of the track below the hill. It has been rumored that the company will put in car shops here, and make this a division point.—Turtle River Pine Tree.

The Gary Graphic says the Gary creamery received 20,712 pounds of milk last week Monday from which it churned 900 pounds of good butter the same day. The increase in milk patronage has necessitated putting in another large separator and a churn with capacity of 450 gallons will have to be put in soon.

There was a gun play in the Owl saloon Friday night in which the character in the star role fired twice without getting any action, and while trying to reload the revolver shot himself through the hand, which gave his adversary an opening of which he took advantage, putting the gun man out of the game with a cast iron spittoon. It took a doctor four hours to bring him to, and he now carries his hand in a sling and his head in a plaster Paris cast.—Bemidji News.

INTESTINES NO GOOD.

BUT HARMFUL, SO SAYS PARIS PHYSICIAN.

Paris, June 10.—Prof. Metschnekoff, of the Pasteur institute, delivered a sensational lecture upon some recent operations in a Paris hospital, in which he ascertained the large intestine is not only entirely useless, but positively harmful. He said that observation had demonstrated that not less than 45 species of dangerous microbes were there domiciled, and that to them most of our diseases are due. Besides, he said, this small intestine was much too long, a yard and a half being amply sufficient, as was proved in cases where, after stabs, patients had been reduced to that allowance without discomfort thereafter. Lately, said the lecturer, Dr. Ruggi, the celebrated Italian surgeon, was compelled to open an 8 year old boy thrice in succession, removing long pieces of the intestinal tube each time, until three yards and a half were substracted, and today the child was doing well. A severed intestine can be spliced easily. Prof. Metschnekoff also cited the case of a woman recently deprived of her stomach by Dr. Pozzi, and now healthy and growing fat.

AN UNANSWERABLE ARGUMENT.

For some time after general prosperity throughout the country was recognized by the standard commercial authorities, as well as the business world, the deeply partisan anti-administration organs were trying to impress upon the people that this prosperity was only apparent, but in no sense genuine. Business progress, however, was continued, until now the weak attempt to cry down prosperity has been abandoned and these partisan organs are assuring their constituency that the present good times are in no wise due to the republican tariff policy and the present administration. The fact that the country is now enjoying almost unprecedented prosperity while under the last democratic administration there was a paralysis of business, is an unanswerable argument for the present policy. There is no apparent desire on the part of the people to test the question by further experiments while present business conditions prevail. Free trade and free silver surely will not make the country more prosperous. The democratic partisans certainly have a hard row to hoe in an attempt to find an issue.—Northfield Vt., News.

PLEASING DELUSIONS.

"Present prosperity is a delusion or at least ephemeral," says William J. Bryan in a late interview. That's so, life is uncertain, death is sure, riches have wings, it's sure to be cloudy some day, but notwithstanding all this these little delusions, like 5-cent hogs, hundred dollar horses, twenty dollar calves, ten cent cotton and twenty-five cent wool, are such pleasing delusions that the majority of people are ready to cry: "Please delude us some more."—Clinton (Mo.) Republican.

LIGHTNING FATALITY.

Cedar Falls, June 7.—During a hail storm Wednesday night near Littleton lightning struck the school house and fatally injured Paul Roberts, a pupil, and the teacher, Jano Harvey. Seven other pupils were burned, but not fatally.

A GOOD THING.

German Syrup is the special prescription of Dr. A. Boschee, a celebrated German Physician, and is acknowledged to be one of the most fortunate discoveries in Medicine. It quickly cures Coughs, Colds and all Lung troubles of the severest nature, removing, as it does, the cause of the affection and leaving the parts in a strong and healthy condition. It is not an experimental medicine, but has stood the test of years giving satisfaction in every case, which its rapidly increasing sale every season confirms. Two million bottles sold annually. Boschee's German Syrup was introduced in the United States in 1868, and is now sold in every town and village in the civilized world. Three doses will relieve any ordinary cough. Price 75 cents. Get Green's Prize Almanac. F. H. Hillard & Son, 2

A Competence

is assured the industrious settler on the WHEAT AND GRAZING LANDS of Western Canada. Should you have a friend settled in Manitoba, Assiniboia, Saskatchewan or Alberta, write to him and ascertain what are his views of the country.

Thousands of Americans have settled there within the past four years and the universal verdict is that all are well satisfied. The

FREE HOMESTEAD LANDS

adjoin lands that may be purchased from the Government or railway. In a few years they will yield the pains-taking farmer a competence for himself and family. The climate healthful, fuel plentiful, taxes nominal, yield of wheat and other grains phenomenal, prices for produce excellent.

Railways, schools, churches, etc., convenient.

Write for full particulars, maps, pamphlets, letters from settlers, etc., to F. Pedley, Superintendent of Immigration, Ottawa, Canada, or to

B. DAVIES,
154½ East Third St St. Paul Minn.

FLYING MACHINE.

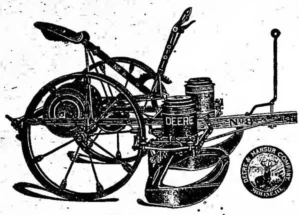
TESTED IN GLASGOW SHIPYARD SUCCESSFULLY.

London, June 10.—Great secrecy has been observed by Denny Bros., the builders of Shamrock II., in the construction of a flying machine for Senors Bagara, father and son. The trials which were held early Saturday morning on the grounds of Helensiee house are stated to have been successful. The machine rose steadily and demonstrated the accuracy of the principle of its construction, but the motive power was inadequate. The mechanism is somewhat on the style adopted by Sutor of Zurich. It has a pedal arrangement which was adopted after repeated experiment in preference to a petroleum engine. The machine is 40 feet from tip to tip of the wings. The weight of the machine with that of two men, a driver and steerer, is about 800 pounds.

SHUDDERS AT HIS PAST.

"I recall now with horror," says Mail Carrier Burnett Mann, of Levanna, O., "my three years of suffering from Kidney trouble. I was hardly ever free from dull aches or acute pains in my back. To stoop or lift mail sacks made me groan. I felt tired and worn out, about ready to give up, when I began the use of Electric Bitters, but six bottles completely cured me and made me feel like a new man." They're unrivaled to regulate Stomach, Liver, Kidney and Bowels. Perfect satisfaction guaranteed by A. G. Anderson. Only 50 cents.

Bullard Magazine cameras are the best the market furnishes and heads the list, and we have medium priced down to the Cyclone which is among the cheapest of reliable instruments. Call and see them at the Journal office.



The Question of Corn Raising

Is a very important one. You can raise a large amount of feed on a small amount of ground.

There is going to be a lot of corn raised this year and we have made preparations for it. We have a very large line of corn tools, made by Deere & Co., suitable for the work in this country, consisting of

The Deere Corn Planter

and a large line of riding and walking cultivators. Will be glad to quote prices if interested, or send copy of our booklet "Corn Raising in Northern Minnesota," on request.

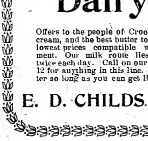
The Riverside Dairy

Offers to the people of Crookston the purest milk, the richest cream, and the best butter to be had in all Minnesota at the lowest prices compatible with conservative business management. Our milk route lies right past your door, delivering twice each day. Call on our driver, or through telephone No. 12 for anything in this line. Don't eat your bread without butter so long as you can get Riverside at present prices.

E. D. CHILDS CO., Crookston.



Spring Renovations

are in order now, and a good coat of paint on houses, barns, fences, etc., will not only beautify your property but preserve it and make it in accord at this season with spring blossoms and sunshine. We will furnish you with superior paints in rich colors, durable and economical.

C. C. BOWEN.

JUDGING BY APPEARANCES of course, everybody does that, and laundry work can't be judged any other way. Everything subjected to our artistic treatment comes out as clean as a polished surface, as clear as a crystal and as bright as a Summer's day. Articles washed properly last twice as long, and look twenty times better than goods badly laundered. We make cheap fabrics masquerade for something better.

Crookston Steam Laundry, C. D. BILLINGS, Proprietor.....

KILLED AND EATEN

Such Was the Fate of a Party Engaged in South Sea Expedition

ALL BUT ONE WERE VICTIMS

A Doctor Alone Was Spared. Band of Cannibals Numbered Eighty

Berlin, June 7.—Details have been received of the massacre of the first German South Sea expedition on the Cannibal Island of St. Matthias. All were killed and eaten except Dr. Heinroth.

The Colonial Zeitung, the official organ of the German Colonial society, furnishes details of the massacre. It seems that the vessel which carried the expedition to the island of Matthias left after a few days for Herbertsch, New Britain, to get fresh supplies. During its absence the savages who had hitherto appeared friendly, although known to be rabid cannibals, planned to kill and rob the Danish party.

The plot was carried out one morning while the members of the expedition, who had a body guard of forty drilled papuans, were cleaning their rifles, which they had taken apart. Suddenly 80 of the islanders broke from the bushes, raising fierce war cries and brandishing spears with which they stabbed to death the leader of the party, Dr. Meneken, and his secretary, Herr Carro, and a white soldier who was asleep under a tent. Dr. Heinroth empties his revolver into his assailants, while the bodyguard in the meantime retired to boats with the wounded and Dr. Heinroth, leaving the dead. The boats put off to another island not far distant, where the expeditionary vessel rescued them. Subsequently the survivors returned to the island of Matthias, where they found that the bodies had been devoured and the camp absolutely looted.

SAYS ITS. CONTAGIOUS

CONSUMPTION SO DECIDED BY SURVEYOR GENERAL.

Washington, June 7.—Tuberculosis of the lungs has been officially declared by Surgeon General Wyman of the marine special service to be a "dangerous contagious disease" within the meaning of the law excluding immigrants suffering from such diseases, and orders have been sent to all immigration officials directing the deportation of all immigrants having this disease.

It is recognized by the immigration officials that it would be very difficult to detect tuberculosis in its incipient stages, but every means possible is to be adopted to reduce to a minimum the number of consumptives brought into this country. The medical inspection of immigrants is made by officers of the marine special service at the immigrant stations.

In addition to this the state department will instruct American consuls at all points from which immigrants come to the United States to have the medical examination which is made before the immigrants are allowed to go aboard the steamer include examination for consumption.

CAPITALISTIC GREED

DIVIDENDS ARE BUILT UP AT COST OF CHILDREN'S LIVES.

New York, June 7.—Direct responsibility for the condition of child labor existing in Southern mills is charged by an English woman, who has been investigating the subject for Samuel Gompers, to capitalists and mill owners in New York and other Northern cities.

The woman is Miss Irene A. Ashby, who recently visited Alabama and other southern states on a tour of investigation.

She says: "I found that in many mills in Alabama and Georgia one-half of the operatives were children, in some cases the percentage running as low as six or seven. Their ages range from 5 to 12 and of course beyond.

"The mill owners and proprietors said in extenuation that they had taken people from their little farms, where they were living in conditions of the utmost poverty and brought them together in communities and made of them industrial people.

"But the children I saw living on the little farms had bright cheeks and round limbs, while those I saw in the mills were haggard and wan.

"Having seen these conditions as they exist today throughout the South, I went to the capital of Alabama and with others tried to get bills through the legislature prohibiting the employment of child labor—baby labor—in mills.

"We learned that all had been cut and dried before us.

"We had the bill introduced. In answer they put up the manager of a mill, entirely controlled by Northern labor, a mill that had moved to the South from the heart of New England.

"The representative they had before the legislature was a Northern man. In rebuttal he spoke of the lace curtains in the windows of his operatives, of their neat houses, but never a word of child labor.

"The bill was defeated.

"We learned later that it was the truth that the new South is depending upon the capital of the North to bring about the industrial development and boom that has been so long impending. In defeating the bill, they cried 'do nothing that is going to hurt the industrial development of the South.'

The North has said to the South:

"'We will bring our capital, but you must allow us to take advantage of the labor movement as we find it. We must have your child labor.'

"So dividends are built up out of the sacrificed lives of babies. There are men living here who are known in the North as philanthropists who earn their incomes through the employment of babies in their Southern investments."

TO RESTORE CANTEEN

EFFORTS ARE BEING MADE TOWARD THIS END.

Washington, June 7.—The determination of the war department to secure a repeal of the anti-canteen law at the next session of congress is admitted by Assistant Secretary Sanger. Col. Sanger has personally taken charge of the reports of post commandants, not alone in the United States, but in Porto Rico and the Philippines, and of all letters from medical officers appertaining to the conduct of soldiers under the new conditions. He will put them into a volume that is to be printed and distributed among members of congress at the earliest possible date.

Civil authorities of communities in the vicinity of army posts are being called upon for statements showing the conditions existing before and after the repeal of the canteen law, so far as they apply to soldiers. The department has not had to write to civil officers in some parts of the country to obtain the information that is wanted for the enlightenment of congress. Letters condemning the new conditions and urging return to the canteen have been received from many quarters accompanied nearly always with descriptions of orgies indulged in by soldiers to the detriment of the good names of communities concerned.

Fort Sheridan, near Chicago, Fort Leavenworth, Kan., and the Presideo, Cal., have thus far furnished the most startling testimony, according to the department, in favor of the restoration of the canteen. A most significant feature of the compilation that Colonel Sanger is preparing will be hundreds of letters from non-commissioned officers and men declaring unequivocally in favor of the canteen. The department feels certain that congress will deal with the subject from a standpoint of fairness, for at least one hundred members of congress have indicated that it is their intention to vote for the repeal of the present law.

LINCOLN'S REMAINS

ARE NOT PROPERLY PROTECTED FROM BODY SNATCHERS.

Chicago, June 7.—The Inter-Ocean today prints a story saying that the recent interment of the remains of Abraham Lincoln at Springfield, Ills., has been done in such a manner as to leave them in a measure at the mercy of body snatchers, and that steps are to be taken at once, at the instance of Robert T. Lincoln, to have the body placed as in the former monument, under a huge block of cement, where it will be out of the reach of any attempt at molestation.

Mr. Lincoln some time ago gained the idea that the remains of his father were not properly secured against possible desecration by body-snatchers and determined to make an investigation on his own account. He went to Springfield in the disguise of a working man and spent much time in and around the new monument. He came to the conclusion that the present location of the body left it in a measure at the mercy of anybody who should desire to carry it away, particularly as there was no watchman around the monument at night. He will take steps at once to have the matter remedied, and have the body placed so that it will hereafter be secure from any interference what ever.

HORRIBLE CRIME.

Toledo, O., June 7.—Leroy Grove, the 16 year old son of a prosperous farmer living near Napoleon, stabbed his sister, aged 24, to the heart, killing her instantly. He then strangled his 13 year old brother to death and firing the barn, ran in and shot himself through the temple. The tragedy occurred just after midnight. His charred body was found yesterday morning. It is supposed he was insane, made so by reading novels of the Jesse James stripe.

FOUGHT FOR HIS LIFE.

"My father and sister both died of consumption," writes J. T. Weatherwax, of Wyandotte, Mich., "and I was saved from the same frightful fate only by Dr. King's New Discovery. An attack of pneumonia left an obstinate cough and very severe lung trouble, which an excellent doctor could not help, but a few months' use of this wonderful medicine made me as well as ever and I gained much in weight." Infallible for Coughs, Colds and all Throat and Lung troubles. Trial bottles free. Guaranteed bottles 50c and $1.00 at A. G. Anderson's.

CAUGHT ON THE RUN

The persistency of the Salvation Army girl is commendable even though one doesn't always yield to the request for donations. Sitting in the lobby of the Crookston the other night were several men discussing land values, crop prospects, etc., when one of the blue bonnetted lassies entered selling War Crys. One or two purchased but far the greater number excused themselves on one pretext or another. After a sale closed by the remark "Praise the Lord!" she tackled L. D. Marshall, who in answer to the usual question said "not tonight, I haven't any money." "Oh! bless God! said she and passed to Howard Wall, who was so busy enjoying the look on the face of Minnesota's chief grain inspector that the proposition failed for once to make any impression on him.

He is a prominent business man of the city, not too old to remember the days when he used to "style up," with an idea of the effect produced thereby, and who is living over his life in contemplation of and sympathy with a son who is taking creditable marks at a well known eastern university.

Of striking personal appearance and a careful dresser himself, his fancy was attracted by a light spring suit displayed in Ruettell's elegant store window. Prompted by fatherly pride and a desire to please the college man, he purchased the suit and a half dozen neckties, just to make it strenuous, paid the express to Ann Arbor, and spent a week in pleasant anticipation of the vote of thanks and congratulations on his good taste which he knew would come by the first mail after the dry goods reached their destination.

Here is the letter:

Dear Father: I got the suit and ties this afternoon. Both were much needed. The suit fits perfectly and it is quite a novelty; there is only one like it in town—a colored gentleman from Paw Paw, Mich., wears that one. I have not quite decided whether to be head waiter in a minstrel show or head waiter at Mackinaw Island with my new suit. But on the square darker suits are the fashion this spring down east.

One fellow offered me $8 for this suit and I had a good notion to take him up. He is a medic and wants to wear something to cheer him up while in the dissecting room; but he was a little afraid that it might wake the dead; I told him that they would go ino a trance again after one look. I wore it on Broadway this afternoon and I heard several fellows remark "that must be some English swell." Farther on I met two very pretty girls. I looked unconcerned, or tried to, to convey the idea that this grandeur was an every day affair with me but caught the remark, "Mame! isn't it a dream!"—all of which goes to show that a man should not criticise his wife's taste as to the quality of his Christmas box of cigars.

BURNED TO DEATH

SIX YEAR OLD LAD CAUGHT BY BLAZE OF BRUSH FIRE.

A horrible fate befell Willie, the six year old son of Charles Reinke, a German farmer living some seven miles from Albany village, Minn., late on Thursday afternoon. The father was engaged in burning brush in his field and had gone across a forty acre field from the fire to attend to other duties. His little four year old son ran breathless to him with the startling declaration that "Willie is burning." The father hastened to the scene of the fire to find Willie burned to a crisp. His clothing had caught from the brush fire and he had met a horrible death. He was barefooted and his feet were the only unburned parts of his little body.

HE'S A MANITOBA SHERIFF.

Peter Cram, father of Mrs. G. S. Chesterman and Bob and Peter Cram Jr., arrived Saturday from Pilot Mound, Man., and will remain in Uncle Sam's domain until he gets a line on how Pete and Bob are behaving, has a bit of a time with his grand children and notes the manner in which Judge Watts conducts court. The latter is a subject in which Mr. Crom has a peculiar interest, through the fact that he has for [illegible] sheriff of the county in which he resides.

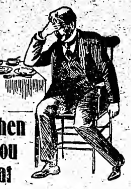
The announcement of the change is made in the postmaster at Argyle, and as heretofore stated, B. S. Buckingham, brother of A. A. Buckingham, is the lucky man.

NOTES FROM EXCHANGES.

Minneapolis Journal: "These rains mean that more Iowa people will come to Minnesota to purchase land," said E. M. Walsh of Crookston. "Northern Minnesota lands have been in big demand this year by the people of the Hawkeye state. The crop appears to be a sure thing now, and I look for a big movement in lands this fall. Large pieces of Red River valley lands have been sold during the past three months to persons who expect to bring settlers to Minnesota. Crookston is a growing city and will show her heels to several very pretentious northwestern towns during the next few years."

PILE AND SCROFULA CURE—FREE.

Sure cure, quick relief; sample treatment of Red Cross Pile and Fistula Cure and book mailed free. Rea Bros. & Co., Minneapolis, Minn.



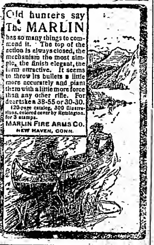
When You Eat

Do you have a feeling of undue fullness in the stomach, belchings, or sour or bitter risings? These are but a few of the symptoms of the diseased stomach.

The worst thing which can be done for the stomach in such a case is to take some tablet or powder which merely gives temporary relief from discomfort. The best thing to do is to begin the cure of the disease by beginning the use of Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. It makes the "weak" stomach strong, and puts the body in a condition of vigorous health.

"I was troubled a long time with dyspepsia, torpid liver, and constipation," writes Mrs. Julia E. Deal, of Ostwalt, Iredell Co., N. C. "Could scarcely eat anything at all; would have attacks of pain something like colic, and sometimes it seemed as though I could not live. I wrote to Dr. R. V. Pierce, stating my condition, and in a few days received a kind letter of advice, telling me to use Dr. Pierce's Golden Medical Discovery. I took four bottles, and one vial of Dr. Pierce's Pellets, and now I can eat anything I want and it don't hurt me. I have not been in bed a day since I took your 'Golden Medical Discovery,' and I have not since felt any symptoms of disease. I have not taken any medicine in twelve months."

Dr. Pierce's Pleasant Pellets cure constipation.



Old hunters say The MARLIN has so many things to commend it. The top of the action is always closed, the mechanism the most simple, the finish elegant, the form attractive. It seems to throw its bullets a little more accurately and plant them with a little more force than any other rifle. For deer take a 38-55 or 30-30.

120-page catalog, 300 illustrations, colored cover by Remington, for 3 stamps.

LAXAKOLA
THE GREAT TONIC LAXATIVE

If you have sour stomach, indigestion, biliousness, constipation, bad breath, dizziness, inactive liver, heartburn, kidney troubles, backache, loss of appetite, insomnia, lack of energy, bad blood, blotched or muddy skin, or any symptoms and disorders which tell the story of bad bowels and an impaired digestive system, Laxakola Will Cure You.

It will clean out the bowels, stimulate the liver and kidneys, strengthen the mucous membranes of the stomach, purify your blood and put you "on your feet" again. Your appetite will return, your bowels move regularly, your liver and kidneys cease to trouble you, your skin will clear and freshen and you will feel the old time energy and buoyancy.

Mothers seeking the proper medicine to give their little ones for constipation, diarrhea, colic and similar troubles, will find Laxakola an ideal medicine for children. It keeps their bowels regular without pain or griping, acts as a general tonic, assists nature, aids digestion, relieves restlessness, clears the coated tongue, reduces fever, causes refreshing, restful sleep and makes them well, happy and hearty. ☞ *Children like it and ask for it.*

For Sale by F. H. HILLARD & SON
CITY DRUG STORE.

Laxakola is not only the most efficient of family remedies, but the most economical, because it combines two medicines, viz: laxative and tonic, and at one price, 25c. or 50c. At druggists. Send for free sample to THE LAXAKOLA CO., 132 Nassau Street, N. Y., and mention the name of your druggist. We will express to any address on receipt of 50c. in stamps or post note, all charges prepaid, a large family size bottle of Laxakola, sufficient to last for a long time.

Around the Country.

Weekly Reports From the Journal's Corps of News Gatherers.

BIRKHOLZ.

Miss Ida Loken has returned from Grand Forks.

Robert Patterson is visiting at J. Anderson's.

Miss Clara Anderson is home from Grand Forks where she spent the winter.

The Birkholz base ball club did not meet on Sunday, as the roads were too muddy.

Jack Grim postponed his big ball to be held at Northland, last week, until June 14.

It rains nearly every day here and the farmers say too much moisture; quite a different story since the last of May.

ELDRED.

Knute Kleve, Jr., was in the village on Tuesday. Call again Knut.

Ibsen Ramsey of Ada is spending a short vacation with relatives in town.

Our base ball team will play one of the Crookston teams on Sunday next.

J. E. Elg is building a substantial machine shed on his farm. Hans Lerum has the building contract.

D. E. Sasseen of Fargo is spending a few days with the machine firm here in the interest of Peerless threshers.

The sermon preached by Rev. Fisher on Monday was very interesting. We regret to state that only a few availed themselves of the opportunity to hear him.

FISHER

Jacob Eckel and family spent Sunday in Grand Forks.

About thirty people from here took in the excursion to Bemidji.

The upper room in the school picnicked last Saturday in Krostue park.

Gunder Krostue and Prof. Anderson attended the fire festival at Fargo last week.

Mrs. Church of Conway, N. D., is here visiting her mother and father, Mr. and Mrs. James Brownlee.

Mrs. Robert Rose and her sister Miss Jessie Sweet spent Saturday and Sunday here visiting relatives.

Rev. and Mrs. Cooke started last week for a trip to their claim but were forced to return on account of bad roads.

Miss Emily Nessel, who has been sick for the past two weeks, we are glad to say is now able to be about again able to be about and will return home in a few days.

HALSTAD.

The district lodge I. O. G. T. met here last Friday.

Editor Semling boarded the train Monday for Minneapolis.

James Larson left Monday for Buffalo expecting to be back in two weeks.

Robert Lee is building a dwelling house on the banks of Red river for Tobias Swanson.

Judge Moen of Ada was in town Friday attending the I. O. G. T. convention. The Judge is the D. C. T. of the order.

Mr. and Mrs. Oscar Henderson went to Crookston Monday. Mrs. Henderson was taken to Bethesda hospital to be treated for typhoid fever.

Those who went to St. Paul to attend the convention of the M. W. A. were Lars Bergh, Arnt Opgrand, L. Martinson, Hans Braseth, Bill Dowery and Pet Hauske

The Halstad boys went to Hendrum last Sunday to have a game of base ball, but when they got there found the grounds too wet, so the game was postponed, to come off in the future.

MAPLEBAY.

Wm. Tatro drove to Fertile Saturday.

Mr. and Mrs. H. Lolan of Dugdale visited at the Bay Sunday.

D. U. Conklin spent Sunday at the Bay visiting friends, and returned to Crookston Monday morning.

Rev. N. E. Wikre is attending the annual meeting of the United Lutheran church this week.

Wm. Tatro will give an opening dance at the Bay Saturday evening, June 15. All are invited to attend.

Martin Hanson and wife of Alabama, who have spent the past month here visiting relatives, left for Nebraska Monday, where they will make their future home.

D. D. Horton and family and P. W. Horton left Tuesday for St. Paul where they will spend a few days with the Woodmen. They will visit Buffalo and Canada before returning.

Everybody is invited to attend the picnic at Alfred Johnson's place one-half mile east of Maplebay on June 24th. Hon. E. E. Lobeck will be present and deliver an address, also Rev. S. E. Odlaud and others. Good music has been engaged. The new steamboat will make hourly trips for those who wish to take in the pleasures of the lake, and there will be row boats for those who wish to fish.

ANGUS.

G. Clover spent Saturday in Argyle on business.

Mrs. J. M. Palmer spent Monday in Warren.

Mrs. D. H. Miller was a Grand Forks visitor Saturday.

The Misses Heuery of Grand Forks came over to attend the dance.

J. F. Montgomery and F. Garlock spent Thursday evening in Crookston.

F. Garlock spent a few days at Walnut Grove, Minn., his former home, this week.

Albert Brush came up on Friday's train for St. Paul to spend the summer on the farm.

Misses Luellie Shaw and Ettie Brady came down from Warren Friday evening to attend the dance.

The dance in the M. W. A. hall was not very well attended Friday evening, but all report a good time.

J. M. Palmer and J. A. Strobel took the train Monday night for Crookston at which place they served on the grand jury.

Mr. and Mrs. J. S. Cowden boarded the train Friday night for St. Paul to attend the Woodmen convention and from there will leave for Wisconsin for a month's visit at their old home.

Mrs. F. Stroble and son A. F. and daughter Maggie and Effie Hummer drove up northeast of Warren for a visit with Mr. Hummer's family Sunday and were accompanied on their way home by Mrs. Hummer and her son Otis, who came down to visit with friends.

LENGBY.

W. L. Hilliard is out east peddling potatoes.

Julius Fredrickson made a trip to Fosston Friday.

Ole H. Johnson was at Fosston on business Thursday.

Fishing is good and the boys are getting lots of them on the spoon hooks.

Mrs. N. O. Nelson, who has been visiting in Brandsvold, returned home Friday.

The strawberries are commencing to get ripe and plenty of them are to be found.

The roadmasters are after every one to work on the road out this way nowadays.

O. K. Ringstad and O. M. Olson took the passenger train for Fosston Sunday evening.

The dance held at N. O. Stenborg's Saturday evening was a good one and the dancers report a good time.

Ed Emerson wants his friends to know that he can give some pointers on handling a team hauling cord wood.

Some of our young men took the train for Fosston Sunday evening. They were in luck in getting their pass before they came home.

The One Ring show passed here Sunday on their way to Fosston where they stopped till Monday, going from there to Crookston.

John Lohdin commenced the building of a fine dwelling house on his farm near Lengby. M. M. Olson is helping him do the carpenter work.

Rev. Whobaso, the Indian minister at Rice River took the train for Cass Lake Monday where he goes to spend a few days with the Brothers and to tell them how to be good.

WARREN.

Lou Cross spent Friday night in Crookston.

Mr. Green came down from Stephen Friday night.

The carpenters have begun work on Dr. Frank's house.

Frank Cline has been on the sick list for a few days.

W. J. Brown came back from Crookston Saturday morning.

Miss Olga Blomsness spent Thursday night in Crookston.

County Attorney Carr came down from Stephen Friday night.

The lecture at the opera house Friday night was quite well attended.

Tuesday morning's train brought in quite a number of land seekers.

Luciel Shaw and Etta Brady attended the dance at Angus Friday night.

Dr. Wattam and son Willie returned home Saturday morning from St. Paul

Charley Sandberg and Charley Wess took the train for Crookston Monday night.

Mrs. Dahl and daughter of Crookston attended the Taralseth-Mossefin wedding.

The W. C. T. U. ladies served ice cream and cake at the old court house Saturday night.

Mrs. Whitney and daughter arrived Friday from Wisconsin and are visiting friends in the city.

Mrs. Jeroy and Miss Cora Jerrue left Saturday night for a visit with relatives in Wisconsin. Mrs. Jeroy's health has been failing for some time and it is hoped the change will benefit her.

ADA.

Hans Holden went to Fargo Tuesday to transact business.

Miss Gertie Eenderle left Sunday night for her home in St. Cloud.

F. W. Barlow of Albert Lea visited his sister, Mrs. F. O. Weygeant, Tuesday.

Mrs. Geo. E. Stempf left Tuesday for a visit with relatives at Benson, Minn.

Miss Benna Rognlie of Halstad spent Sunday visiting with Miss Dora Gaetke.

D. F. Miller has bought the new Weatherhead house and moved in there Tuesday.

Mrs. H. V. De Guinon came up from St. Cloud Sunday morning to remain for some time.

Mr. Barlow contemplates erecting another two story brick building here this summer.

Mr. and Mrs. H. L. Larson left Saturday night for St. Paul where Mrs. Larson will undergo an operation.

The Misses Howard, Donahue and Thacker left last week for their respective homes in the southern part of the state.

The grasshoppers are reported to be very numerous around here and considerable anxiety is felt by the farmers.

Among those taking in the fire festival at Fargo last week were L. A. Lofthus, Frank Stuart and Walter Moffatt.

Mr. and Mrs. Julius Pleth came down from St. Hilaire last week to be present at the graduating exercises of the high school.

N. T. Moen and Jesse Barness left Monday night for Taylors Falls, where they will attend the grand lodge of the Minn. I. O. G. T.

Chas. Day spent a few days in the cities last week on business connected with his laundry, which is just about completed and will start up next week.

J. D. Mason, who has been attending the Moorhead normal the past year, returned to Ada Saturday morning and is again engaged in Jake Volland's land office.

Chauncey Jenkins came up from Ulen Tuesday morning and left the same evening Chau. has again moved his family down there and will reside there in the future.

The Ada high school turned out their first graduating class last week. Four received their diplomas. They were: Herbert Andrews, Lewis Mackie, Walter Coren and Eva Rostad.

DONALDSON.

J. G. Whittemore left Thursday for Benson, Minn.

Rev. Heagan was here last Sunday addressing a very large audience.

McAllister was up Monday looking after his ditching machine.

J. G. Whittemore is the proud owner of a double barrel gun and a dog.

Whittemore thinks he can play pedro, but everybody else thinks he can't.

A enjoyable little hop was had at Geo. Seeger's residence last Friday evening.

E. J. Cummings is sick in bed at present. Dr. Whetstone is attending the case.

Conrad Miller is doing the rabbit act—hopping about as the result of stepping on a rusty nail.

The dropping of handkerchiefs was the game played out doors here last Sunday by the young folks.

Anyone wishing to know the explanation of boneless ham need only to inquire of Ernest Miller to find out.

T. C. Hickey is back and forth between Stephen and Hallock these days transacting some land business.

Mrs. Emery Davis went to Argyle Friday where she intends to seek medical aid at the hands of Dr. Whetstone.

Wm. Hess came up from Stephen Wednesday and went back to his claim in the Bemidji regions the same day.

A. Nelson says that T. W. Dargan is somewhat nervous when they get to the top of the elevator which they are painting.

George Clark and wife came up from Stephen last Friday and went out to Geo. Seeger's where they furnished music for the dancers.

Mrs Solem got her $1,000 check as insurance money on her deceased husband's life, he having been insured in the Woodmen lodge at this place.

Edith Hams returned from Grafton last Monday, after taking a trip to Wylie, and is here safe and sound, accompanied by another young lady by the name of Laura Olson.

Otto Ryder, one of the most prominent farmers in the country are just putting the finishing touches to his new and comfortable dwelling house. He will have one of the finest buildings in the county erected by a farmer. I like your style of farming, Mr. Ryden.

Magnus Olson had the misfortune to come in too close contact with his colt's hoofs the other night. He got his nose pretty badly smashed and was lucky in not getting his eyes hurt.

O. J. Mulvey and family left here Thursday for Nebraska where they will visit for some time, and after a month's vacation he will return here to resume his duties as depot agent.

ST. VINCENT.

Laura and Arnanda Heard were visiting at Northcote last week.

Mr. Mortimore is dangerously ill with typhoid fever.

Theodore Brown's youngest child died very suddenly last Sunday.

George LeMasurier has moved into his new cottage, one of the neatest homes in town, and is consequently happy.

Children's day was duly observed by the M. E. Sundy school last Sabbath evening. Much credit is due the teachers for the success of the occasion.

W. N. Gamble, John Duff and Harry Russell were the St. Vincentites that boarded the special Tuesday morning for Crookston.

August Kruse was transacting business at Hallock Tuesday.

Mrs. Duff is in Hallock this week attending the W. C. T. U. meeting.

The Joe River people held their annual picnic in Finney's grove Tuesday. The village people who attended report a good time.

Mrs. McKenzie, of Winnipeg, is visiting Mr. Cowan's people.

KITTSON.

Two cars of baled hay were shipped to S. C. Johnson of Crookston last week.

E. T. Newhouse shipped part of a car of seed of flax to Dakota last week.

Miss Louise Smith is visiting Ed Robert's family for a few days.

Joe Brown and Cyrus Sweet wheeled in from Fisher a week ago Sunday to see how Bob Rose's family were getting along.

Mr. Albert Helmich has a crew of men working on his new barn. He is putting in a stone and cement floor.

Miss Hattie Motizko left Monday morning for Grand Forks, where she has secured employment.

John Erwin, our former section foreman, who moved to Glyndon this spring, has moved his family back to Kittson and they are living in old Mr. St. George's house.

We are rejoicing that the Smith and Rose families are out of quarantine and a big ice cream blow out is contemplated between the two families this week. None but the quarantined are invited except A. J. Price and family, and they are requested to bring the card that appeared in the Crookston Journal in order to have the pass word.

—C. R. Martin, who controls the destines of the Beltrami County News, and who is one of the most efficient and irrepressible boomers Bemidji ever had, came in last night to get a piece of the convention, and to give the delegates and all in attendance here an urgent invitation to attend the Northern Minnesota Firemen's Tournament to be held at Bemidji next week. If persistent effort counts Bemidji should be full of people next week.

Otto Munch arrived from Ennis, Texas, Sunday on a visit to the family of Mrs. Wm. Munch. Mr. Munch left home while the family was living at Red Lake Falls nearly twenty years ago, and has visited his home but once since. He is prospering as a dealer in food supplies and brought with him a considerable quantity of fruit and vegetables that are so far ahead of the season here as to be luxuries.

LOW RATES TO BUFFALO EXPOSITION.

Via the Nickel Plate Road. Three through daily trains with vestibuled sleeping cars and excellent dining car service, meals being served on the American Club Meals plan, ranging in price from 35 cents to $1.00. Chicago Depot, VanBuren St. and Pacific Ave., on Elevated Loop.

Write John Y. Callahan, General Agent, 111 Adams St., Chicago, for full information and beautifully illustrated descriptive folder of the exposition buildings and grounds.

FROM NEAR AND FAR.

Zephyrs Wafted Through Pine Cones and Across Prairies.

Alfred Burtrum, for whom the village of Burtrum in Todd county was named, died recently in Montana.

Brainerd is booming. The new buildings now in course of construction will be worth, when finished, $500,000.

Mayor Boyd of St. Cloud has revoked the liquor license of A. Lindenberg, who, it is alleged, kept his bar open after hours.

Grand Rapids will have a special election to determine whether or not the village will buy the electric light plant for $11,000.

A new beer keg has been invented with an ice chamber in the center and the inventor has been offered $15,000 for his patent.

The east end of the Cable mill dam at Fergus Falls was washed out. Two flour mills and two factories will have to shut down temporarily.

There was a fire down on Gus Luke's place in Norman county the other day Gus hasn't any more barn now than a pine country squatter.

John Hanson, of Bottineau was killed by lightning Monday night and his horse was killed under him. He was thrown 43 feet from the horse.

The Cass Lake council has appropriated $150 to uniform its fire department and has authorized the purchase of a steam fire alarm whistle.

Rush City June brides of 1896 and their husbands held a reunion at the home of Mrs. Henry Meyer, one of them. There were five couples present.

The Fond du Lac Indian reservation may be opened for settlers. The Citizen's Association will take the matter up with Congressman Morris, when he returns.

Richardton had a forty-eight hour prayer meeting for rain—and when the showers didn't come promptly—the blind pigs closed up—and the town was made dryer than ever.

Another man at Red Lake Falls has pimpled out in pustules, and the authorities thought St. Hilaire should put up for his keep—but the other fellows had poor eyesight.

That building boom at Fertile is one of the healthiest infants in the Valley, and the brick blocks and pretty, new houses are growing up there like mushrooms, only more durable.

Minnesotans are music lovers and the "band boys" favorite sons. Grand Rapids falls in line with a donation of $250 to buy instruments for a band that will be organized there.

On Saturday evening one of the St. Hilaire Lumber Company's mill had the misfortune to drive too close to the river bank. A slip, and a splash and the company lost a team worth about $350.

A sixteen year old girl of Hoff, Stevens county, is dying as a result of a druggist's carelessness in compounding a prescription. A deadly poison was substituted for one of the ingredients.

East Grand Forks has an additon to its number of attorneys. The new one is Harrison A. Brown of St. Paul, and he is said to know all about torts, special pleadings and things like that.

At Leota, near Edgerton, a farmer named Drysta found among the latest baby pigs in his pens, one resembling an elephant, having a trunk, large ears and feet shaped like those of the circus favorite.

It doesn't do for a St. Cloud alderman to sit in his seat and say "not voting." One of the members was recently fined $5 by the common council for refusing to vote on an ordinance regulating saloons.

Byron J. Moshier of Stillwater, a popular former knight of the grip, who has warm friends in every village in the state, is ill at Stillwater, occasioned by a fall from a ladder. Mr. Mosier was surveyor general of logs and lumber under the last state administration.

On Tuesday while Nels A. Horvik was engaged in grubbing on the farm of Knute Tysse, just east of Fertile, he was struck on the back and shoulder by a falling tree and quite badly injured. Horvik was at once brought to town and his injuries were looked after by Dr. Nelson.—Fertile Journal.

Richard Westra, who has been confined in the county jail at Fergus, on a charge of shooting and wounding a neighbor in a quarrel over some logs, was taken to Wadena for trial the first of the week. He was indicted for assault in the first degree, and was sentenced to two years in Stillwater.

That man Pleth, who is doing the leading land business at St. Hilaire, is the right sort. The Thief River band went down there Sunday, played some of its loveliest "don't you care" style of music and on Monday the leader had a nice fat $25 check to place in the band's exchequer with Mr. Pleth's name at the business end of it.

EDDY PERSISTENT

Succeeds in Interesting Secretary Hitchcock in Minnesota Matters

AN INSPECTOR ORDERED

To Negotiate a Treaty For Cession of Eleven Reservation Towns

Washington, June 11,—Congressman Eddy today secured the promise of the secretary of the interior that he would send an Indian inspector to negotiate with the Red Lake Indians for the cession of eleven townships in Marshall and Red Lake counties. Whatever agreement is entered into with the inspector must be ratified by congress. The bulk of the land in question is in Red Lake county.

This will be welcome news for the people of the Valley, and will bring great rejoicing to the people of Thief River Falls in particular who took the initiative in the mater of the opening as should the towns be opened the territory wil be directly tributary to that city.

FAKE RANGE PEDDLERS.

It would seem as though it ought to be unnecessary to give any further warning to newspaper readers than they have already received in regard to patronizing the traveling peddlers of cooking ranges, who are going through the country representing that the ranges they are selling are better in quality and lower in price than any others in the market. But the fact that these fake peddlers are still actively in the business is sufficient evidence that gullible victims are still plenty. We take it, however, that these victims are not among the Journal readers, or they would have too much intelligence to be so easily duped. But still we want to warn our readers that there are three of these gentlemen making a canvass of the surrounding country, and we would advise that preparation be made for them by a supply of good stout clubs, and that they be kept moving in the road. If you want a good range patronize your local stove dealers and get a guaranty of what you buy and save money at the same time. When you give these traveling fakirs your order, you do not know what trouble you are geting into.

This is the season of the year when the farmer's wife takes things easy and enjoys life, says an Exchange. She gets up at four p. m. and gets breakfast for six hungry men. After getting six or seven children ready for school, she feeds the chickens, gathers the eggs and hitches up a broncho and drives to town and exchanges them for groceries. She manages to get home in time to split wood and cook dinner for the "men folks."

After dinner she has nothing to do but mend clothes for the kids, prepare for the washing next day, fill the mangers with hay for the men, so they can eat their supper quickly to allow her time to get ten cows milked and the dishes washed before she does the family churning for the following day. By good luck she retires from 11 to 1 o'clock and if she is not of a nervous disposition she can sleep until 4 a. m.

No one should fail to tip his hat to the farmer's wife; she is deserving of all the good things in this life.

NO THIRD TERM

THE PRESIDENT EFFECTUALLY STOPS ALL FOOLISH TALK.

Washington, June 12.—The following statement was given out at the white house:

"I regret that the suggestion of a third term has been made. I doubt whether I am called upon to give it notice. But there are now questions of the gravest importance bfore the administration and the country and their just consideration should not be prejudiced in the public mind by even the suspicion of a thought of a third term. In view therefore, of the reiteration of the suggestion of it, I will say now, once and for all, expressing a long settled conviction that I not only am not and will not be a candidate for a third term, but would not accept a nomination for it, if it were tendered me.

"My only ambition is to serve through my second term to the acceptance of my countrymen, whose generous confidence I so deeply appreciate and then with them to do my duty in the ranks of private citizenship.

—William McKinley.

Executive Mansion, Washington, June 10, 1901.

This statement was submitted at last night's meeting of the cabinet, which had been informally called together. It met with hearty approval. There was unanimous concurrence in the belief that public discussion if allowed to go would not only place the president in a false light before the country, but would arouse antagonism and seriously embarass the administration in the solution of the great questions before it.

MINNESOTA CYCLONE

GETS IN ITS WORK AT ADRIAN.—PLENTY HOT IN CHICAGO.

Adran, Minn., June 12.—Yesterday a tornado struck this town and swept a strip about 3,000 feet wide. Charles Abbott's house was turned around and all the fences and side walks in the block caried away. The cupola on the Jones residence was torn off, the roof carried away, and the barns and out buildings blown to pieces. William Morris' house was wrecked and Sam Jones' barn was blown over and a valuable horse killed. The barns of Fragher Bros., W. Kilpatrick and W. H. Prideaux were razed. The big Klondike barn was moved from its foundation. The furniture store of George Logros, the restaurant of Mrs. Peterson, hardware store of C. A. Sands, the Esser meat market and Roenig's jewelry store were smashed to pieces. Telephone and electric light wires are scattered over the streets and hundreds of fine shade trees are prostrate. The damage will aggregate many thousands of dollars. There were no fatalities.

MANY PROSTRATIONS.

Chicago, June 12.—This city yesterday experienced the highest temperature of the year, 89 degrees, and at the same time the humidity was extremely heavy, reaching 72. There were many prostrations from heat.

FOUND DEAD

A MAN LIVES TWO DAYS AFTER JOINING WOODMEN.

Louis O. Engstrom, a laborer, was found dead about two miles from Blackduck by a party of surveyors Monday afternoon. Mr. Engstrom had been initiated into the Modern Woodmen lodge Saturday night, and received his insurance policy for $1,000, which was found in his pocket. The policy is payable to his father, Ole Engstrom, of French Lake, Minn. There are no marks of violence on the body. A post mortem will be held.

PROSPEROUS IN SOUTH POLK.

The village of Beltrami is hustling about considerable down in southern Polk. The new Farmers' Elevator is nearly completed and the creamery is in a state of active eruption turning out a quality of golden butter that is due to take first prize at the state fair. The first shipment from the institution was made yesterday and consisted of 1,500 pounds, that was marketed at a top price. New business houses are ~~going up~~, pretty homes are being built in the village and the farming community surrounding the town is prospering as shown by the many improvements being made in the buildings.

Mike Dagan, once a roadmaster on the St. Hilaire line of the G. N. died suddenly at Bemidji yesterday. His brother, Thos. Dugan of this city, went out this morning after the remains, which will be shipped to Austin, Minn., for interment.

COUNTY COM'S MET

In Adjourned Session June 11 and Took Up Unfinished Matters

FULL REPORT OF BUSINESS

Village of Beltrami May Incorporate---Sundry Bills Allowed

Pursuant to adjournment, the board of commissioners of Polk county met in adjourned session June 11th, 1901, with members Bratvold, Eastman, Fortier and Morken present.

The reading of the records of the last preceding meeting was on motion dispensed with.

A hearing was had upon the petition of Dreng Grundyson, et al, asking for the formation of a new school district to be composed of sections 22; the nw¼, sec. 21; the ne¼, sec. 21; the se¼, sec. 21; the w½, sw¼, sec. 13 and nw¼, sec. 13; sec. 15; sec. 14; sw¼, sec. 16; se¼, sec 16; ne¼, sec 16; the sw¼, sec. 23; nw¼, sec. 23; ne¼, sec 23 and the w½, se¼ and se¼ of se¼, sec. 23, T. 147, R. 41, and on motion the prayer of the petitioner was granted; order made accordingly, and the district given the number 261.

A request by Dr. A. C. Rogers, superintendent for Minnesota school for feeble minded, for transportation for Joseph Tichey, Jr., from Faribault to his home at Tabor Tp. and back, was on motion denied.

The following resolution offered by Com. Eastman was on motion adopted:

Whereas, the legislature of 1897 by title 24 did appropriate $350.00 to aid in the construction of a certain ditch through the towns of Tabor and Northland to the Marais, with W. Lemen, Frank Kolars and W. A. Campion as a committee to expend the same, and as the said W. A. Campion has since died, be it resolved that T. T. Morken be appointed to act in his place on said committee.

The following resolution offered by Com. Bratvold was on motion adopted:

In the matter of the application of Anse Baarnaas for the refundment of taxes erroneously paid on ne¼ of ne¼, sec. 18, tp. 149, range 45 for the years 1885 and 1886, title to said land at that time being vested in the U. S. government, and was therefore exempt from taxation, be it therefore resolved, that the action taken by this board in the matter on the 15th day of May, 1901, be reconsidered and said application granted.

The following resolution offered by Com. Fortier was on motion adopted:

Resolved that Mr. Dominique Le Blanc of the town of Kerstonville be allowed to draw the amount of $44.00 in payment of a bridge across the Gentilly-Kerstonville ditch No. 15, provided he signs a release to the county for same to the county auditor.

Application of Jno. Cameron for correction of personal property assessment in the township of Grove Park for the year 1900 assessment, and refundment of taxes paid, was on motion granted, subject to the approval of the state auditor.

A bond given by P. H. Thoreson, as principal, and Ole T. Burkind and Ole J. Walden, as sureties, to the board of commissioners in a bastardy case was approved, and bond and contract placed on file.

The following resolution offered by Com. Fortier was on motion adopted:

Resolved that the county auditor be and is hereby instructed to issue his warrant in favor of Marin & Nolan for the sum of $295.80, being payment in full for Valley bridge, as per contract.

The following resolution offered by Com. Fortier was on motion adopted:

Resolved, that the county auditor be and is hereby instructed to issue his warrant in favor of Nels H. Egeland for the sum of $149.40, being payment in full for the construction of a pile bridge across Hill river in the town of Hill River as per contract.

Mr. K. O. Bratvold submitted the following report, which was on motion adopted:

Crookston, Minn., June 12, 1901.

To the Honorable Board of County Commissioners, Polk County, Minn.

Your committee appointed to inspect the bridge built across the Hill river in the town of Hill River, would respectfully report that I have examined said work and find it satisfactory, and would recommend that same be paid for according to contract.

On motion board adjourned to meet at 9 o'clock a. m. tomorrow.

June 13th. Board reconvened pursuant to adjournment with all members present.

The following resolution offered by Com. McCarty was on motion adopted:

Resolved that the county auditor be and is hereby instructed to issue his warrant in the following amounts to the following named parties, and paid out of the general fund of the county, and said amounts to be charged to ditch fund No. 17, as soon as said fund is established:

O. A. Thoreson, as viewer,	$31.20
C. Houston, as viewer,	25.30
T. B. Landserk, as viewer	33.90
O. L. Hamery, engineer,	60.00
Geo. L. Hamery, assistant engineer,	4.00
Gustav Henderson, chainman	7.00
August Raff, assistant,	11.00

Provided, however, that if said fund is not created, the bondsmen of ditch No. 17, will be held for the payments of above funds.

The following resolution offered by Com. Eastman was on motion adopted:

In the matter of the application of K. O. Flakne and others for the incorporation of the town of Beltrami, under the name of the village of Beltrami, including therein sections 16 and 21, in township 147, north of range 46 west, in Polk county, Minnesota.

A petition having been presented to the board of county commissioners of Polk county, Minnesota, by thirty of the resident electors upon the land above described for the incorporation of the town of Beltrami, under the name of the village of Beltrami, and the board having examined said petition and having found the same conformable to law and in due form, it is hereby resolved that the said petition be and same is hereby granted; and it is hereby further resolved that H. B. Bodd, K. O. Flakne and David Fulton be and they are hereby appointed the inspectors, who shall preside and act as such at the election upon the question of said incorporation, which said election is hereby set for the 22nd day of July, 1901, at the store of Iver Johnson in said town of Beltrami, which said election shall be held on said day between the hours of 9 o'clock in the forenoon of said day and 5 o'clock in the afternoon of said day and the polls shall be open during all of the said time.

The following resolution was on motion adopted:

In the matter of the petition of Paul Hendrickson and others, praying for the establishment of a drainage ditch from a point at the northeast corner of section 2 township 153, north of range 49 west, in Polk county, Minnesota, thence running west on line between townships 154 and 153, range 49, and continuing on line between township 154, range 50, and township 153, range 50, to a point at or near the center of the line between the sw¼ of sec. 34, twp. 154, range 50 and the nw¼ of sec. 3, tp. 153, range 50, thence running in a northwesterly direction, following the course of a certain lake to a point at or near the northeast corner of the nw¼, sec. 28, township 154, range 50 to a point where said line intersects Red River of the North, said point being the terminus of the said ditch.

The petition of the said Paul Hendrickson and others having been filed in the office of the county auditor of said Polk county, and the board of county commissioners being satisfied that the county auditor of said county has in all things complied with the law with relation to the giving, posting and service of the notice of the filing of such petition and the publication thereof, and a bond having been given by the petitioners as required by law, and said petition being in due and proper form, it is hereby

Resolved that Johannes Beim of the village of Fosston, Polk county, Minnesota, be and he hereby is appointed the engineer to make the survey of the said proposed drainage ditch as required by law.

The following resolution offered by Com. Fortier was on motion adopted:

Resolved, that the resolution passed at a former meeting of this board instructing the auditor to issue his warrant in favor of Gross Construction Co., for the sum of $47.60, be reconsidered, for the reason that payment for certain jobs of repairing on court house has not been paid by said Gross Construction Co, and the above amount be retained until said work is paid by said Gross Construction Co.

The following report was on motion accepted:

To the Honorable Board of County Commissioners, Polk county, Minnesota:

As a committee appointed at the meeting held May 15th., 1901, I hereby report that the bridge at East Grand Forks has been repaired by J. McIlraight, as per contract, and recommend that the county auditor be instructed to issue his warrant for the sum of $100.00 to the said J. McIlraight, being the amount due him according to contract.

Respectfully submitted,
T. T. MORKEN, Committee.

The Road and Bridge committee submitted the following report, which was on motion accepted:

To the Honorable Board of County Commissioners of Polk County, Minnesota:

We the undersigned members of the Road and Bridge committee, who have examined the bridge built over Sand Hill river at Valley by Marin & Nolan, would respectfully report that we find all the timber of the proper grade and quality, and all work done in accordance with the understanding had between the builder and the county board at the last meeting, with the exception of the foot of the arch, which is drift bolted instead of being bolted, and we would recommend that the bridge be accepted and paid for according to agreement.

G. W. EASTMAN,
REMI FORTIER,
Road and Bridge Committee.

The application of K. A. Hoffard, et al, asking for an appropriation of $150.00 to aid in the construction of a road in the town of Russia was on motion rejected.

The application of James M. Palmer, town clerk, asking for an appropriation of $300.00 to aid in repairing bridges and culverts in the town of Angus was on motion rejected.

The following bills were audited and allowed:

Red Lake county, bills paid in the insanity case of Elizabeth Berg.	$ 76.34
Crookston Telephone Co., rent of phones	15.55
Andrew Spokeli, witness fees	1.14
J. A. Ralston, constable fees	11.55
C. E. Horst, justice fees (4 bills)	18.65
John McLeon, justice fees (3 bills)	10.35
St. Gabriel's hospital, care of Albert Becker	30.00
L. E. Larson, hardware for court house	5.25
A. R. Holston, attorney's fees	100.00
Carl Riedesel, merchandise for jail	5.75
A. M. Gray, services as county surveyor	21.05

Remi Fortier, services as commissioner	29.20

The following bills were laid over: Arne Gunderson, L. A. Nelson, Dr. Theo. Bratrud, Frank Magean, William Borch, Fred S. Syverson, Andrew Olson and Village of Fosston.

The following bills were referred back for correction: Wm. Norman, G. S. Chesterman, Dr. A. McEachran and town of Rels.

The following bills were rejected: Frank Mageau and S. J. Axdahl.

On motion the board adjourned sine die.
JOHN PETTERSON,
Clerk of the Board.

FIRE AT FARIBAULT

RESULTED IN DESTRUCTION OF A $40,000 CHURCH.

Faribault, Minn., June 18.—The Roman Catholic church of the Immaculate Conception burned Monday morning. It was valued at $40,000 and was a handsome building. The insurance is $11,000. The vestments and interior decorations were valued at over $3,000 and are a total loss. The cause of the fire is unknown, but it may have started from electric wires. The church was built in 1857.

A WEDDING IN PROSPECT.

Friends in Crookston have been bidden to the wedding of Miss Minnie Quigley of East Grand Forks to Mr. Norwood L. Davies, that will occur June 26 at the Sacred Heart church at East Grand Forks. The bride is the accomplished daughter of Mr. and Mrs. Hugh Quigley and has many friends in Crookston. The groom is a rising young newspaper man of Grand Forks, his parents being Mr. and Mrs. W. L. Davies of this city. They will reside at 418 Walnut street, Grand Forks, and be at home to friends after August 15.

Uncle Jo's Column

I was readin' in the paper the other day about the crows down there in Wisconsin gettin' so wise they light on the backs of the lambs and they peck the tender spots on their heads until they lay 'em out as stiff as one of Lucky O'Brien's petrifactions, and then they eat their brains out. That story may be all right, but I almost think I've got a right to have a few misgivings over it anyway.

That firemen's convention went off pretty well, and I think our Tom Morris arranged it real nice That was a real interestin' parade from beginning to end. That white company was the prettiest thing in it, though. They had a fine lookin' captain too; she was a dandy. The old soldiers were there and they made quite a fine showing. I noticed Comrade Jack Goodwin in the procession. He was marching along as straight as a gun barrel and his head thrown back and eyes front in regulation style. And it made me think of the time when he was in the army and he and Mose Goodnow was out foragin' and they captured some honey, and put it in an unmentionable piece of crockery they got hold of some where and carried it along in that until they got it all used up.

I was real sorry to see some of our young men runnin' them wheels of fortune, though. They really looked as if they felt a little guilty over it too. I don't know whether they made much money out of 'em or not. But I don't know as it makes much difference whether they did or not, it wasn't a good thing for 'em either way. It's a bad thing for a young man to get an idea into his head that he is entitled to a living out of the other folks, even if they ain't very bright and are willin' to throw their money away.

It's really very strange that people will support so many fakes. I guess Barnum was about right when he said folks liked to be humbugged. The way folks patronized that wild girl show that was here, and Lucky O'Brien's petrifactions, that are made out of cement, a caution. Really, Lucky is a genius, and it's almost worth the price he charges to look up his petrifactions and see what a good job he turns out, and wonder how he does it. I think that first one that was buried up there at Warren was a little the best one of the lot, and that one made the most trouble of any of 'em, too. I guess that was the only cement image that ever behaved so bad as to get into jail. But I believe I'd stick to the blockboard business if I was in Lucky's place. I think that's a genuine good article.

My, but ain't Mayberry got a pair of swift legs though? He don't really look that way, but he's got it in him just the same. The idea of a man gettin' his legs over two hundred yards of ground in twenty seconds, almost sets my rheumatism to work. I'm awful glad I don't have to do that, anyway.

I guess Judge Hogen must be rather proud of hisself and the way he's layin' hisself out to please the people. He's bound to make other folks understand the probate judge can't be monkeyed with, too. I guess he wants folks to spell his name all in capitals by the way he treats the public. They tell me he won't even go to the telephone any more when he's called for. If folks want anything of him they must go to him. Of course, that gives him a better chance to look 'em over and size 'em up to see whether they voted for him or not. The folks that don't vote for him needn't expect any favors of him anyway.

I've about made up my mind that Judge Hogen thinks imperialism is a pretty good thing when the right man is on the throne. And he thinks the right man is on the throne there in the probate office, and that the folks that wanted a good man for probate judge instead of him, have got to be made so sorry they'll whoop it up for him next time. But if he wasn't so narrow, between the eyes he'd understand that it won't make him any friends to treat 'em the way he does. Any man that takes advantage of the chance being in a public office gives him to wreak vengeance on folks he wants to punish for personal grievances ain't usually wanted next time the voters have a chance to express themselves.

I've been watchin' that canteen controversy pretty close for quite a while and it's turned out, or they're tryin' to make it turn out just as I thought they would. All these officers that wanted to keep the canteen just plan to make it look as if it was a good thing to have. And when the boys get their pay they turn a whole lot of 'em loose, and tell 'em not to go and get drunk, and then they give 'em a wink out of the left eye, and the boys see what they mean, and, it ain't to be wondered at that there's a whole lot of em get drunk and make things hot. Then the officers see to it that all the papers tell about how much worse things are than they used to be, and try to make everybody think that all the soldiers were as good as kittens when they had the canteen.

Everybody knows that the best law in the world is never a success when the men who are responsible for its being enforced are determined to make it show up as a failure. And its always easy to make anything look like a failure to other people when you are determined to do so, and can get the newspapers to help you do it. When they'll give the no-canteen plan a good fair chance, and let the conditions be investigated by men that are fair minded and unprejudiced, I'll be willing to accept their report as to which way is the best for the boys.

COLORADO'S ENERGY

TO BE UTILIZED IN GENERATING ELECTRICITY.

It is now proposed to utilize the power of the Colorado river, which tears its way through the Grand canyon with force enough to move the machinery of a thousand mills. For many months hydraulic engineers have been studying the project, and they have just made a report.

They declare in 150 miles of the river's course a dozen times more electric energy can be secured than is taken from Niagara Falls. Part of the canyon is in the forest reserve, and it also passes through several Indian reservations. If the government's consent can be secured, it is intended to install this summer a plant of sufficient size to furnish electrical power to cities, towns and mining camps within comparatively easy reach of the Colorado, and then to increase the scope of the company until all of Arizona and most of the lower part of California can be supplied from the canyon torrent.

If success attends the plans of the company, one of the chief results will be the placing in operation of many mines of value which have long been idle because of lack of power. The plans of the company include the furnishing of motive power and light to all the cities within reach, and to electric railways. It is proposed to build an electric line along the rim of the canyon for a distance of fifteen miles, the better to enable tourists to view the wonders of the great chasm.—New York Sun.

BAD STORM OVER WEST

TREES TORN UP AND TORRENTS OF WATER FELL.

G. T. Hogen, of the Vesterheimen, just returned from a trip in western Polk and says there was a severe storm near Mallory Saturday evening and a very heavy rain storm there at the same time. Several trees were torn up by the roots near the residence of Robert Coulter, and two of them were hurled against the house with great violence, but no serious damage was done. Mr. Hagen says that in the town of Bygland, where he has been for the past few days, the wheat is simply immense and that he measured some of it which was 36 inches high. He says that the crops generally are looking very fine, and that if nothing happens them between now and fall the farmers of the Red River valley will have full granaries.

THE ADA CONFERENCE

OF CONGREGATIONALISTS IS IN SESSION THIS WEEK.

Besides those mentioned elsewhere, the delegates who left last night for the Ada conference of good people, were Mrs. Corrie Cooke and Misses Ida Stone, Bessie Clements and L. M. Bassett. Owing to the unavoidable absence of Rev. G. R. Merrill, home missionary of the state, the meeting will be presided over by Rev. C. E. Fellows, who spent a portion of yesterday in the city. Among the prominent divines who will be present are R. P. Herrick of Minneapolis and Dr. J. H. Morley, president of the Fargo college, who was formerly superintendent of home missions for Minnesota. Rev. H. P. Fisher and A. A. Miller of this city are down for discussions on important topics. The conference will remain in session two days.

HALSTAD.

Cornelius Skibstad boarded the train Wednesday morning for Bemidji.

Mrs. Olaus Oseth left Monday for Perley, where she will visit for a few days.

Mr. and Mrs. P. J. Bergquist of Fargo visited with the Jermstad's over Sunday.

Miss Olga Hanske left Monday for Bemidji for a short visit with friends and relatives.

Mrs. L. S. Larson of Climax is visiting this week with Mr. and Mrs. Andrew Ness.

Mrs. B. Martinson left last Saturday for Bemidji, where she will visit with her sister, Mrs. B. T. Venn.

Oscar Henderson left Wednesday morning for Crookston to visit his wife who is in Bethesda hospital.

Mr. and Mrs. Joe Hunter returned Monday from Grand Forks, where they have been visiting with Mr. Hunter's parents.

R. L. Hauge and A. S. Hafland left last Monday for Thief River Falls where they expect to purchase some land.

DRAINAGE BOARD

Commissioners in Charge of the State Ditches Organized

IN CROOKSTON LAST NIGHT

Elected Officers and Passed Resolutions Concerning Work

The drainage commission, consisting of Ezra Valentine of Breckenridge, P. H. Konzen of Hallock and M. R. Brown of this city, appointed by Gov. Van Sant to have charge of the drainage work done by the state, met at the Hotel Crookston last night.

The board organized by making Mr. Valentine president, Mr. Konzen secretary, and Mr. Brown treasurer.

Following are the official proceedings:

Minutes of the meeting of the State Drainage Board, held at Crookston, Minn., on Monday, June 17th, 1901, at 7:30 p. m., as per call previously issued:

Meeting called to order by Hon. Ezra G. Valentine, all members present. Upon motion of P. H. Konzen, seconded by M. R. Brown, Hon. Ezra G. Valentine was elected president of the board. Upon motion P. H. Konzen was elected secretary of said board, and Mr. M. R. Brown treasurer. Hon. Ezra G. Valentine then presented the following communication to the board:

"To the Honorable Board of Drainage Commissioners of the State of Minnesota: Gentlemen—Your board, created by the laws of Minnesota, approved April 23, 1897, has most important duties to perform, chief of which is to inspect and cause to be kept in good condition, all drainage ditches of this state, constructed pursuant to chapter 221, general laws of 1893, and chapter 164, general laws of 1895. These ditches are located in the counties comprising the Red River Valley of the North in Minnesota, and cost nearly $200,000. They could not be duplicated today for a quarter of a million of dollars. The right of way for these ditches (or more correctly speaking, drainage canals) was deeded to the state and these ditches are the property of the state, and it is the duty of the state, under the law now in force, to see to it that this very valuable property is kept in a good state of repair. These ditches have accomplished much more than was expected at the beginning. They have saved many times their cost since they were finished, and have converted hundreds of thousands of practically worthless territory into valuable farm lands. No ditch could be constructed that would need no attention to keep it in good condition. These state ditches are no exception. While they were constructed with the greatest care and skill, yet they need to be looked after from year to year. I know that some of them now need attention and, doubtless, all of them require more or less in the way of repairs. I was greatly surprised and disappointed that the last legislature failed in one of its duties, in that it did not make the appropriation of $1,000 asked for, for the next two years to defray the expenses of your board while engaged in the performance of your duties, the chief of which expenses will be the compensation of a competent civil engineer to make the inspections of these ditches, and report to your board. Such an appropriation was, in my judgment, of much more importance to the people of the Red River valley than the appropriation which was passed, giving $50,000 to be used in draining state lands throughout the state, a small portion of which lands, comparatively speaking, are located in said counties of the valley. It is of little use to construct new ditches, if those already constructed are permitted to become useless for want of proper care. Having been actively engaged in this great work of drainage in this valley for the past fifteen years and knowing the value of it to the people of the valley, I now desire to do all I am able to prevent the eventual ruin of this very valuable property from lack of proper attention. I beg, therefore, the privilege of donating for the use of your board, what the state of Minnesota has failed to appropriate, that the board may thus be enabled to carry on the work for which it was created, and I hereby place at your disposal the amount required for this purpose, subject to your acceptance.

Very respectfully yours,
—Ezra G. Valentine.

Moved by M. R. Brown, seconded by P. H. Konzen, that the donation of Hon. Ezra G. Valentine be accepted in the spirit in which it was made, and in accordance with his wishes. Carried.

Upon motion of P. H. Konzen, seconded by M. R. Brown, the thanks of this board were extended Hon. Ezra G. Valentine for this generous donation to the state. Upon motion the board then adjourned to meet at the Hotel Crookston on Tuesday, June 18, 1901, at 8 o'clock a. m.

—P. H. Konzen, Sec'y.

Crookston, Minn., June 18, 1901.

Board met pursuant to adjournment. All members present. Minutes of the previous meeting were read and approved.

On motion, the following resolution was adopted:

Resolved, that in order to facilitate the work of this board, the territory in which the state ditches are located be divided into three districts, and that the supervision, in the first instance, of the ditches in each district be given to the individual members of the board as follows: To P. H. Konzen, the ditches located in the counties of Kittson and Marshall; to M. R. Brown the ditches located in the counties of Polk and Norman, and to Ezra G. Valentine the ditches located in the counties of Clay, Wilkin, Grant and Traverse, and that any communication relating to needed repairs, etc., of a ditch, be referred to that member of the board having special charge of such ditch, provided, however, that no final action be taken on any such matters until concurred in by a majority of the board in regular session.

On motion the president and treasurer were empowered to employ as soon as may be, a competent civil engineer to inspect the state ditches and make report to this board at a future meeting.

Adjourned to meet on call of the president. —P. H. Konzen, Sec.

BANK REORGANIZED

ST. HILAIRE INSTITUTION ON A NEW BASIS.

The private bank of Hanaay & Co., of St. Hilaire, has been a successful institution from the day it was started, and Mr. J. K. Hanaay, the local manager, has won the confidence of the people of Red Lake county by his business ability and acumen.

In order to keep pace with the development of the country, he has decided to increase the stock of the institution and to enlist in the business some local capital. The stock has been increased to $10,000, and the institution organized under the state banking law, several of the leading men of St. Hilaire, together with Mr. L. Ellington of this city having become interested, and a large increase in business will naturally result.

Mr. Hanaay is on the list of officers as president, N. Hanaay is cashier, and the two, with Mr. Ellington, are directors.

A VICIOUS TARANTULA

BIT A ST. PAUL FRUIT PEDDLER YESTERDAY.

John Hirschman, a Jewish peddler of bananas, was bitten by a tarantula yesterday in St. Paul. His arm was infected by the bite. He was taken to the office of Police Surgeon Gillfillan. Hirschman suffered the most intense pain, and the doctor is of the opinion that only the most drastic treatment can avert serious results.

Hirschman lives at 155 East Indiana avenue. He was cutting a bunch of bananas apart when suddenly the tarantula appeared. Before he could get his hand away the spider had caught the tip of his left index finger. Hirschman had to pull the tarantula away with his right hand. He dropped it to the sidewalk and it disappeared.

At Horrigan Bros., David W. Horrigan yesterday narrowly escaped a similar accident. While selecting a bunch of bananas in the basement, he found a tarantula within two inches of his hand. He caught it, using a pair of gloves. The tarantula was the largest that has been seen in commission row.

CARMAN.

Wm. Arnold is about to build an addition to his house.

Carman was favored with a visit from some of our city council.

Carman is on the quiet now and everybody is looking for better times.

Thos. Loughleed is getting ready to build his new saloon building next to the Berlin hotel.

H. R. Phillips is thinking of entering his colt in the races which will be held here the 4th of July.

We are glad to welcome Mr. and Mrs. Beckstad to our midst, they having moved from Grand Forks to live here. They will remain with us permanently.

The Carman C. C. club is going right along under the management of President Phillips. Jim is a hustler and business will not go to sleep when he is around.

VETERANS DYING.

Veterans of the First Minnesota Volunteer Infantry association are fast disappearing from the ranks. According to the report of Secretary R. A. Plummer death has claimed 16 members since the last annual meeting of the association at Red Wing, June 20, 1900.

NEW INSTITUTION

Added to the Thriving Business Circles of the Queen City

MANUFACTURED MARBLE

And Granite is the Line---Will Mark Resting Places of the Dead

A new manufacturing business has been added to the list of those that are making Crookston famous and that are extending the scope of country that is being supplied by the various commodities handled from this city, until it now covers not only the northern portion of Minnesota, but North Dakota as well, and reaches out through Montana to the base of the Rockies.

The name of the new company is the Crookston Marble & Granite works, and the style of the firm is Jack, Nesne & Richards, all of whom are residents of Crookston and will be actively engaged in making the business a success.

In the management of the new firm Mr. W. R. Jack will have charge of the sales department, the corps of canvassers and the general conduct of the business. Mr. Jack is well known in the city, having been a resident here during the past three years.

The manufacturing department will be in charge of Mr. A. J. Richards, one of the most competent tracers, designers, polishers and finishers in marble that ever carved a letter or designed a monument.

Mr. H. Nesne is well known as the hustling manager of the Robertson Lumber company's business here. He will contribute to the capital of the new firm and will add his ripe business experience to the efforts of his partners, but this will in no wise interfere with his active management of his present line of business.

The Crookston Marble & Granite works will occupy the building on North Broadway, two doors north of Monroe's blacksmith shop. Three car loads of material have been ordered, and will arrive here by the time the company is fully prepared to begin business.

Three canvassers have already been placed in the field, and the new firm begins business under very favorable auspices. With practical, level-headed business men such as Messrs. Jack, Nesne and Richards are known to be, and th broad field, it goes without saying that the Crookston Marble & Granite works will be a paying proposition from the day it opens for business.

SMOKE AND WATER LOSS

BAD FIRE IN M'KINNON BLOCK SATURDAY MORNING.

At 4:30 a. m. Saturday the alarm summoned the boys of the fire department to the Finch-Smith company's large wholesale grocery store, where they found a terrific fire in complete possession of the small room on the second floor, in which their peanut roaster was located, and already making rapid headway on the other side of the partition in the main storage room. Several lines of hose were very promptly laid, and as soon as the requisite pressure was furnished from the power house streams of water were poured in upon the flames. It was at first thought by many that the entire inside of this story of the building was in flames, and that it would be impossible to prevent the complete destruction of the block. But our firemen maintained their reputation as invincible fire fighters, and after a short, but vigorous struggle, it became evident that the boys were meeting with their usual success, and the flames gradually subsided.

But meanwhile the immense stock of goods which completely filled the entire floor of the large room had sustained a heavy damage by the dense smoke and the hundreds of barrels of water with which they were flooded.

The cause of the fire is explained in this way. Harry Roberts, the night watchman, was engaged in roasting peanuts, as it was his duty to do, and had a roaster full of them about half cooked, when he discovered that a quantity of gasoline had in some way escaped and had ignited on the floor. His first thought was to detach the gasoline tank and carry it out doors before an explosion occurred. But he found that be could not do this and turned to escape from the flames, which by this time had caught in a pile of paper bags and mounted to the ceiling. Just as he reached the door there was an explosion, presumably of the tank, and then the flames were close behind him as he passed out of the door and down stairs. With commendable presence of mind he ran directly to the city hall and sounded the alarm as stated.

In experimenting with the tank he had severely burned one of his hands, but escaped without other injury.

The amount of damage sustained is of course altogether a matter of guess work thus far, but is estimated at from $12,000 to $18,000 on the stock, and perhaps $600 to $1,000 on the building, all of which is fully covered in insurance. The Finch-Smith company carry about $60,000 worth of stock, which is insured to the extent of $35,000.

They are today doing business filling orders from goods now arriving and from those which are not damaged, of which there are of course a large amount, so their business will suffer no serious interruption.

But with a less efficient fire and water service, the result would have been far more disastrous than it was.

NOT ONE RUN IN

THE DELEGATES BEHAVED TO A MAN.

A better behaved crowd never struck the city than was present at the fireman's convention. But 5 arrests have been made, and not in a single case was the victim a fireman. The cases, in all but one instance, were plain drunks and disorderlies, and they were given a few days on the street gang.

The other arrest was one which was made on a warrant sworn out for assault by George Gill and was served on John Mack, "the boy wonder." There is a standing offer of $20 posted for anyone who can lift the 130 pounder when he doesn't want to let him. Gill claimed he succeeded in getting him off the ground. The boy said he didn't, and a discussion ensued which waxed warmer and warmer, until they came to blows. They were separated. Gill got out a warrant and Judge McLean let the wonder off on payment of costs.

LALLY WINS OUT

A JURY AWARDS HIM $1,299 IN HIS SUIT.

The case of M. J. Lally vs. the Crookston Lumber company, on trial Friday, in which suit was brought to recover the value of services rendered on a contract that it was alleged defendant had violated, resulted in a verdict for Mr. Lally, the jury giving him a verdict for $1,299.

The case of Dr. Kirk vs. estate of J. S. Murray for medical services resulted in a verdict for the plaintiff for $49.00.

Geo. Sargent, indicted for grand larceny, and Harry Katzenmeyer for forgery, changed their plea to guilty and were given sentences of one year each, Sargent in the pen and Katzenmeyer in the reformatory.

LIKES HIS NEW HOME.

J. P. Bullan, who recently went to North Yakima, Wash., with his family after many years' residence in the town of Onstad, has written to friends in the city and reports that everything in that locality is in an extremely promising condition. He is on land that is supposed to depend entirely upon irrigation for moisture, but says several nice showers have fallen, and his crops have not been irrigated this season. Two stalks of Alfalfa were enclosed which stretch out over five feet in length. All varieties of fruit trees are laden with fruit to such an extent as to make it necessary to pick off a large percentage of it. And the fruit growers are now going over trees a second time engaged in this work. His prune trees are well filled with fruit, which is now larger than plums. He is delighted with the climate, the city from which he is distant only about a mile, its people, and the prospects generally.

LOST HIS BADGE.

John Kukowski, a Perham hardware dealer and a delegate to the firemen's convention, writes Secretary Johnstone for a favor. He lost his delegate's badge enroute home and requests Secretary Johnstone to favor him with another. The writer says: "I wouldn't have taken $10 for the badge. I had a grand time in your town; left there happy as a lord, and will always remember the Crookston people for the whole-souled, jolly good fellows every one voted them to be." Knkowski got another badge.

—Don't suffer from Dyspepsia and Stomach trouble; when you're tired of "cure all" remedies try Mull's Pioneer Stomach and Dyspepsia Cure. A dollar draft in each $1.00 box guarantees a cure.

THE BEMIDJI BAND.

One of the best musical organizations heard in the Woodmen's parade in St. Paul Thursday was the Bemidji band. It contains twenty-one pieces, with J. L. Reynolds drum major and John Spear leader. It had the right of line of the Minnesota division and made a great hit all along the route. The Bemidji band has been organized but six months. It was in the Minneapolis parade last night and late in the afternoon serenaded the Journal.

BULLHEADS IN DEMAND.

Minneapolis is acquiring the taste for bullheads. This fish has attained such wonderful popularity there within the past few weeks that local dealers have trouble in finding enough to supply the demand. Just what has happened to overcome popular prejudice against this species, which has always been regarded a "hobo" of the finny tribe, is not known, but the people with the fish taste want them. Crappies are also selling well.

CASCARINE AT ALL DRUGGISTS.

Cures biliousness, constipation and dyspepsia or money refunded. 50c. Sample and book on diet and cure sent for ten cents in stamps. Rea Bros. & Co., Minneapolis, Minn.

—Say, want the best corn planter on earth? Check rower and drill. A bargain. See that Tiger, Cooper at Fisher.

A FATAL BULLET

Terminated Life of Mrs. John Desjardins at Shevlin Yesterday

THOUGHTLESS HANDLING

Of a Target Rifle by a Son Speeded the Messenger of Death

Mrs. Desjardins, wife of John Desjardins, a former resident of Crookston, was accidentally shot and killed at her home near Shevlin Thursday).

A telegram was received here at 6 o'clock that night bringing the news, which was a great shock to her many friends. The facts in the case are as follows:

Mr. Desjardins, who is engaged in the mercantile business at Shevlin, recently purchased a farm near that village, and the family had removed thereto for the summer. Late yesterday while Mrs. Desjardins and her oldest son, Sam, aged 13 years, were together in the bedroom, the lad picked up a 22-calibre rifle, and while examining it the gun was discharged, the ball penetrating his mother's heart, death resulting instantly.

The family consisted of the parents, a son aged 11, beside the unfortunate lad who did the shooting, and a daughter, Miss Mamie, who has been engaged in teaching in Polk county, and who terminated a visit in this city and returned to Shevlin on Tuesday. The entire family is prostrated with grief at the horrible accident.

Mrs. Desjardins was a member of Christ church in this city, and was a consistent Christian, and a model wife and mother. She had endeared herself to a large circle of acquaintances here and the deepest sorrow is in the hearts of all who knew her. Mrs. W. F. Arnold left for Shevlin this morning to be with the family until after the funeral, which will occur tomorrow at 2 p. m. The interment will be made at the farm home.

A RUNNING TEAM

THAT CONTAINS SOME VERY FAST RUNNERS.

Few people realize what a remarkable running team the Crookston firemen have, and what a wonderful record they have made during the past meet. The fact that the team has won first money in every event and that world's records have been clipped, is not due to chance, but to the fact that we have had the men and they have done careful and scientific training.

To James H. Maybury, the captain of the team, more than anyone else, is due the success. Mr. Maybury has had the benefit of careful training by the best trainers in the United States, and what he has not learned about the subject during his seven years of racing experience, while he attended the Wisconsin and Minnesota universities, and while he was with Chicago athletic associations, is not worth knowing.

The training which Mr. Maybury has given the Crookston boys has been very different from that which they have been subjected to in previous years. They have never been worked hard enough to fatigue them in the least. They have been given from 15 to 30 minutes light work each evening, they have never been allowed to run as far as 100 yards at their greatest speed but once, and that was when they were selecting the team and wished to find just what each man could do.

The training consisted of light regular work, 50 yard dashes, and longer distances at moderate speed, practice in getting the proper stride, starting and in general learning how to run.

Mr. Maybnry holds the world's amateur records for distances from 100 yards up to 220 yards. His 100 yard record is 9 4-5 seconds, and the 220 yard record is 21 2-5. This is two-fifths of a second faster than the best professional record.

Mr. Joe Boyer is a runner whom not more than three or four men in the United States can beat. He does a hundred yards in 10 seconds flat, a time which has not been equaled in any of the western college track meets this year.

"Ike" Simmons has developed into a very fast man and his work this year gives promise of great things.

Walter Stone, Albert Baratte, Joe Mandt and Henry Barr are all men who can make the riffle in less than 11 seconds, while Fred Harris, Ed Walsh, Carause, Lana and Enbald Couvrette are all men who can push that time mighty hard, if not beat it.

The boys have all done remarkable work, and Crookston is ready to back them against the world.

EARLY WHEAT.

John Scott, of Fertile, sent to Mr. Purvis today a sample of wheat from a field sown the 23rd of April. It is an excellent stand and well headed out, the heads measuring five inches in length and filled right up to the point. The sample has been submitted to the Journal and there can be no question as to the grain, which is strong and healthy.

HORSE ON TOM

THE FIREMEN DO A LITTLE APPRECIATING.

The fire department at a special meeting held Saturday decided upon an act that does credit to every member, and is a fitting mark of appreciation of the work done by Chief Morris in connection with the convention.

The matter was discussed without attracting the attention of Chief Morris, and a committee consisting of O. A. Hitchcock, J. H. Maybury and W. P. Stone was appointed to carry out the wishes of the members.

Saturday the committee drove up in front of Chief Morris' place of business riding behind one of the finest specimens of horse flesh to be purchased in the city, called Mr. Morris out to admire it, which he did, praising it without stint, whereupon Mr. Maybury remarked, "glad you like him; he's your's."

Tom looked a few things but said very little for a few seconds, until he fully realized that he owned a horse. The animal is a fine large dapple gray, and was purchased from O. H. Bjoin.

APPRECIATED BESTOWALS.

Rev. Father Grandchamp is greatly pleased with the generous response being made by friends outside St. Ann's congregation to the opportunity given to aid in raising funds for the elegant new church building. Beside many smaller amounts, a check for $25 has been received from G. S. Chesterman, and twenty gallons of high grade paint is a donation from S. A. Wallace and L. Filiatrault.

PIPESTONE MENTION.

The prominent mention that has been made of the city of Pipestone in connection with convention matters, has led to some enquiries in regard to it. The delegates here were a wide awake lot, and lost no opportunity to cultivate a good impression of their city's importance.

They claim now a population of over 3,000, and have all the modern municipal facilities. They are going to observe the glorious Fourth of July by a fitting celebration, one feature of which is to be the unveiling of a soldier's monument. This monument is being manufactured by their mayor, L. H. Moore, who is a skillful sculptor. It is to be 18 feet in height and rests upon four bases, upon the sides of which are to be inscribed the names of all the soldiers of every class who ever lived in the county. This involves the use of over 3,000 letters.

A beautiful court house, now in process of construction, which is to cost about $70,000, is also spoken of by the delegates with evident pride. It is built of pink and light jasper, and ornamented with pillars and slabs of polished granite, and will be completed about November 1.

The Pipestone boys came near claiming that their city is the finest in the state but had to except Crookston.

Bullard Magazine cameras are the best the market furnishes and heads the list, and we have medium priced down to the Cyclone which is among the cheapest of reliable instruments. Call and see them at the Journal office.

A THOROUGH ONE

Geological Survey Will Be Made of Entire Dakota Side of Red River Valley

GOVERNMENT AND STATE

Will Divide Cost--A Move in the Matter of Controlling Floods

Washington, June 14.—The geological survey will make a reconnoissance of the entire Red River valley during the present summer, with a view to learning the character of the lands and of their mineral deposits, where such exist, but more especially to acquire knowledge of the water supply, floods and rainfall of that region. Last year investigations were conducted in the vicinity of Fargo. The investigations of the present summer will extend northward from the middle of Cass county, through Traill, Grand Forks, Walsh and Pembina counties to the border line:

The results of the examination will be set forth on a series of topographic maps to be prepared during the ensuing winter. One series of these maps will show the location of the various soils, another the minerals, a third the various growths of timber, but the most interesting of them will show the water supply, both surface and subterranean. This map is somewhat of a novelty in the work of the survey, and is intended to show at a glance the amount of discharge of the streams, the capacity of the lakes, and also the depth at which water may be found in drilling for wells. This feature has proven beneficial in states where it has been tried. It not only shows the approximate depth to which artesian wells must be sunk to reach water, but shows the height above sea level to which this water will rise without pumping. A general idea is also given of the extent of the subterranean waters, their volume, as well as their distribution.

The party to work in the Red River valley will be in charge of a specialist with such assistance as is necessary. The state of North Dakota is to bear half the expense of making this investigation and the general government the remainder.

LIFE IMPRISONMENT

WAS THE VERDICT OF THE JURY IN THE BASSANELLA CASE.

The case of the state against Joseph Bassanella who plead guilty to the charge of murder in the first degree for the killing of a man by the name of Axel Anderson in a stock car near Grand Forks last May, was given to the jury at Grand Forks at 11:30 Saturday morning for them to decide whether he should spend the remainder of his days in prison or be hung. The jury returned to the court room at about noon with a verdict that he be sentenced to life imprisonment.

When the verdict of the jury had been announced Bassanella was apparently overjoyed and thanked each of the jurymen and shook them by the hand. He had expected that they would sentence him to be hung.

Sheriff Collins took the doomed man to the state penitentiary at Bismarck last night, and a large portion of the citizens went to the depot to witness his departure.

DEPOT WAS STRUCK

BY LIGHTNING AT STAPLES ON SATURDAY NIGHT.

Staples, June 17.—During a heavy electric storm which passed over this section Saturday night the Northern Pacific depot at this place was struck by lightning and a part of the roof torn off. The heavy telegraph cable leading into the main building was damaged and almost all of the wires were damaged. Linemen and telegraphers are at work and are getting things in shape to handle the business. The damage will not exceed $200, it is thought, in additon to the damage done the telegraphic apparatus. No one was injured by the lightning. Heavy rains fell all over this vicinity for two hours.

SOFT SPOTS IN TRACK

MAKE TROUBLE ON ST. HILAIRE AND MOORHEAD LINES.

The trip made by Supts. Gruber and Jenks over the St. Hilaire line last week proves to have been for the purpose of inspecting the condition of the cut near the northern limits of Red Lake Falls.

During the period of heavy rains the banks on either side of the grade at that point slide onto the grade and cover the track, sometimes to the depth of a foot or more, preventing the passage of trains. The cut is deep and the lower stratum is a sort of soapy clay that has always given trouble in this manner since the road was constructed, a fact that has put the company to thousands of dollars expense.

The recent heavy rains have also softened the track on the Halstad line so that caution is necessary in running the heavy freight trains over that branch, and it is found impossible to make the usual schedule time.

The company will proceed at once to remedy the defects.

CONVENTION ECHOES

HEARD FROM POINTS IN NORTH-PART OF THE STATE.

Eric Anderson, one of the firemen delegates who returned from Crookston Thursday night, declares that the Crookston people made a successful effort to properly entertain their guests.—Thief River Falls News.

We are glad the firemen delegates have all returned, and we are also content that the Crookston convention didn't last any longer.—Little Falls Transcript.

Chief A. J. Wright: The Moorhead firemen came home in a body from Crookston last evening. The least we can say is that we were royally entertained and had a splendd time. Mayor Campbell and Chief Morris are certainly princes as entertainers and were ably assisted by citizens and other members of the fire department. I feel safe is saying that the boys will long remember their visit to Crookston and the state firemen's convention.

The fire laddies returned from the Crookston fire tournament Thursday with nothing but hurrahs and highest praises for Crookston for the "right way" in which they had been entertained while there. The boys made a fine appearance in the parade and so conducted themselves generally as to win many flattering compliments. —Marshall County Leader.

The Bemidji fire department running team returned today from the state firemen's convention at Crookston, having taken second prizes in the following events: Service wet test, hook and ladder service test and the hub and hub race. Everything passed off nice and easy barring the accident in connection with the ladder climbing contest, John Oliver of Bemidji sustained quite severe injuries by a fall from a 24-foot ladder.

The boys are well pleased with the entertainment provided and treatment received at the hands of the Crookston people, and vote Crookston the best town on earth for sport, barring Bemidji.—Beltrami County News.

The Moorhead firemen, who attended the state convention at Crokston this week, returned on the Moorhead Northern train last night. They report the best time ever, and say the people of Crookston did everything possible to make the visit of the firemen pleasant.—Moorhead Independent.

PROF. SQUIRES RESIGNS

GRAND FORKS LOSES A GOOD MAN TO MICHIGAN.

General regret is felt over the announcement that Prof. Vernon P. Squires has resigned the chair of English language and literature at the University of North Dakota, and has announced that he has accepted a position as a member of the faculty of the state university of Michigan at Kalamozoo, Mich. Over the loss of Prof. Squires the university faculty and students feel that one is departing deal of good. He has been a hard and conscientious worker who has a future before him that will make the institution proud to be able to say that at one time he was a member of the faculty of the University of North Dakota.

Prof. Squires is well known and has many warm friends in Crookston.

OLD SOLDIER'S EXPERIENCE.

M. M. Austin, a civil war veteran, of Winchester, Ind, writes: "My wife was sick a long time in spite of good doctor's treatment, but was wholly cured by Dr. King's New Life Pills, which worked wonders for her health." They always do. Try them. Only 25 cents at A. G. Anderson's drug store.

CHANGE IN NAME

IS ASSUMED BY THE FOSSTON ELEVATOR COMPANY.

The Farmers' Elevator Co. is the name by which the new company, reorganized from the Farmers' Alliance Elevator Co., now defunct, will be known. It will be organized under the state laws and the business connected therewith conducted under strict business principles. This means that the new company will undoubtedly be a success.

The Farmers' Elevator Company, of Fosston, Minn., will be capitalized at $10,000, in 1,000 shares of $10 each, which will now be issued, the blanks for same being already printed.—Thirteen Towns.

FOUGHT FOR HIS LIFE.

"My father and sister both died of consumption," writes J. T. Weatherwax, of Wyandotte, Mich., "and I was saved from the same frightful fate only by Dr. King's New Discovery. An attack of pneumonia left an obstinate cough and very severe lung trouble, which an excellent doctor could not help, but a few months' use of this wonderful medicine made me as well as ever and I gained much in weight." Infallible for Coughs, Colds and all Throat and Lung troubles. Trial bottles free. Guaranteed bottles 50c and $1.00 at A. G. Anderson's.

DECKER RETURNS

The Crookston Officer Who Made Such a Fine Record in the Philippines

BRAVERY WINS PROMOTION

And Superior Officers Ask That He be Made Colonel of Regulars

Stewart M. Decker, former captain of Company L., of the Minnesota volunteers, and more recently first lieutenant of Company G., of the 34th U. S. volunteers, reached Crookston yesterday morning and has been the busiest man in Crookston ever since. The number of hand shakes he has received would have taxed the strength of any other than Capt. Decker.

Crookston has just cause to feel proud of the record he has made during his soldiering in the Philippines, reflecting as it does a great degree of credit upon the city from which he was appointed.

Captain Decker was mustered out at San Francisco in April and as he was about to start for Crookston received a dispatch from his brother, A. H. Decker, who is interested in the Texas oil region, which turned his attention there, and he has spent the past two months in the midst of the frenzy of the greatest speculative craze that now exists on the continent.

Capain Decker has acquired some interests in Texas that will receive his attention later but that are not at present pressing. In the meantime he has come to spend a few days with friends in Crookston, after which he will proceed to the home of his mother in Marietta, Ohio, for a stay. He will visit Washington before again turning his face toward the Lone Star state, and while at the national capital will call the attention of Secretary Root of the war office to the fact that his application to promotion to the rank of captain has lain unnoticed in the files of the war office, and that the recommendations that back it are of a character that merit attention.

The modesty of Captain Decker prevents him from expatiating over-freely upon the part he has taken in the various campaigns in which he has figured as a commanding officer. To the Journal, however, he showed some recommendations to the war department from his commanding officer and from others high in command, that leave no doubt in the minds of any who read them that the past borne by him was no inconsiderable portion of the work of subjugating the Island of Luzon. He has achieved as high distinction as any man in the volunteer service through his bravery, for which it has been recommended by his commanding officer, Major Penn, that he be brevetted a captain, a major and a lieutenant colonel in the regular army.

The brave acts of Captain Decker, in command of the scouts sent ahead of the party that was assigned to rescue Lieut. Gilmore and his men, is the subject of these recommendations. Several of the high military officials testify that Lieut. Decker acted with unusual bravery in preventing serious consequence to the rescuing party. Fear was a word of which he did not know the meaning, yet he exercised the precaution and calm judgment that was necessary to protect the li of the men that were dependent upon his plans and resources.

Captain Decker brings with him from Luzon many interesting and valuable relics that recall to him the days of his campaigning and the habits and customs of the peculiar people among whom he has been soldiering.

WIDEN THE CUTS

G. N. HAS BEGUN IMPROVING THE CASS LAKE LINE.

The Great Northern has began extensive improvement operations on the Cass Lake line. The cuts will be widened at all points commencing with the one at Benoit, and after this is done the entire track will be ballasted anew.

A steam shovel has been placed in the Benoit gravel pit and is doing active work loading two construction trains that are under charge of Conductors Mayer and Conn.

Master Mechanic Martin has fitted up extra large locomotives for the work and it will be vigorously prosecuted.

Supts. Gruber and Williamson are out on the line today on a special trip to direct the efforts of the crews. The work contemplated will require the greater portion of the summer to perform, and when finished will place the Duluth line between Cass Lake and Crookston in shape to add to the comfort of passengers and to increase the possibility of heavier freight hauls.

P. A. Danforth, of LaGrange, Ga., suffered for six months with a frightful running sore on his leg, but writes that Bucklen's Arnica Salve wholly cured it in five days. For Ulcers, Wounds, Piles, it's the best salve in the world. Cure guaranteed. Only 25c. Sold by A. G. Anderson.

CONVENTION REVIEW.

The state firemen's convention has come and gone, and it seems eminently fitting to take a brief backward view of its incidents and its results, as well as of the purpose and aim of these annual gatherings of the state's fire guardians.

A very vague idea has prevailed heretofore in the minds of many as to the advantages expected from these associations. And many, we believe, have regarded the object of them as being mainly to get together and have a good time. But having observed carefully the proceedings in each session of the meetings, the presentation of the various topics that have been brought up in them, we are convinced that a higher purpose than sociability and hilarity dominates.

One fact that has impressed itself on our minds is that the firemen of today are animated by a higher purpose than was dominant with them twenty years ago. Their ranks are freer from individuals who are destitute of self respect, and whose sole aim is to have a hilarious time.

The firemen of today throughout the state are men of determined, self sacrificing bravery, who, judging by those who visited our city, have sufficient self respect to demean themselves with gentlemanly propriety. No instance of drunkeness or rowdyism among them has come to our notice. Whatever of this occurred was among other visitors, and not among the firemen. And we discovered among them a very plain tendency toward an elevation of thought and purpose and toward an increasing efficiency in their work.

We believe this purpose was to some extent subserved and strengthened by the work of the convention here.

Another advantage which resulted from the gathering was that the distance between the remote parts of the state is seemingly shortened. It has to some extent brought not only our fire department, but our citizens generally in closer elbow touch with other portions of the state, which in itself is an important result.

It has to some extent developed our disposition to hospitality.

It has stimulated a deeper interest in, and sympathy with, our own firemen in their work.

It has brought Crookston and her advantages more conspicuously before the people in other parts of the state.

And with this brief review of only a few of the conspicuous results of the convention, we wish to say that on the whole, we believe the thanks of the community are due to those of our fire boys who were instrumental in bringing the convention to our city.

The Journal desires to extend to Chief Morris and his corps of assistants here, as well as to the visiting delegates from all parts of the state, its hearty congratulations on the success of the late convention.

OUR KNUTE NELSON.

There is no more placid, benevolent looking man in congress than our Scandinavian senator, Knute Nelson, of Minnesota, says a Washington correspondent of the New York Post. With his ruddy complexion, his neatly trimmed whiskers, and twinkling gray eyes, he is a picture of rural contentment. He is short, thickset, and wears uniformly a turned down collar and black Prince Albert coat. He is the proper figure to pass the collection plate in a church with no mortgage.

When things go to suit him, Mr. Nelson is amiable and mild voiced as the south wind; when they begin to go otherwise he is—well, decidedly different. Since he has been in Washington he has been demure enough, but politicians from the northwest tell of exciting things which happened when he was governor of Minnesota. The clerks and secretaries who were about him at that time were almost in fear of their lives, for they doubted if he would stop at anything. They tell you how at one time he threw off his coat and started to throw a man out of the window, being prevented only by the interference of Tams Bixby, and others who were present. If a messenger or clerk had the temrity to messenger or clerk had the termity to would have to stand against the wall and take a running fire of "language," each discharge being louder and more expressive than its predecessor. When the governor's English vocabulary ran low he could recall a few Norse phrases—large, octagonal ones, such as Thor employs when he hits his thumb with a hammer. They tell of a colored messenger who blundered into the sanctum on one of these inauspicious occasions: when he emerged his hair was straight, and his skin was bleached to a pale yellow.

ANENT THE R. R. COMMISSION.

Touching upon what it designates as an evident desire of the majority of the members of the state railway and warehouse commission to restore the outrageous freight tariffs which were formerly in force on the iron range roads, the Minneapolis Journal says:

"Speaking regarding this matter, a Minneapolis member of the lower house of the legislature said:

"'If the railway commissioners have the nerve to restore the old prohibitive tariffs, which serve only to crush out the independent mine owners and thereby depress the value of the most valuable iron district in the known world to all save the Carnegies and the Rockefellers, you can depend upon it that the legislature will take summary action. Personally I believe that the state would suffer little loss if the railway and warehouse department of the state government was entirely abolished, but that would be, perhaps, too radical a method of dealing with the case. I will promise you, however, that if the commissioners do restore the old rate and thus show an intent to ignore the rights of the people of that section of the state, I will introduce and push with all my power a bill to cut the rate squarely in two, and I will wager $100 that the bill would pass by an overwhelming majority.'"

The June report of the agricultural dedepartment says that the prospect is uncommonly good for wheat. Winter wheat is pretty well out of danger, as the harvesting has begun in the lower latitudes and is working slowly north. The "indicated" crop is 409,811,000 bushels against 330,890,712 last year and 379,813,291 in the banner season of 1898. Spring wheat is still liable to vicissitudes of drought, Hessian flies, and such like, and last year the hope of June was disappointed in September. Still, we have a right to figure on present prospects, and they are good. The "indicated" wheat is 274,000,000 and the actual yield last year was 191,338,793 and that of 1898, 295,335,414. Taking things as they promise now our total wheat crop will be 683,871,000, against 522,229,505 last year and 675,148,705, which exceeded all records, three years ago.

The entire revenue of the United States government from custom duties on food, liquors and tobaccos last year was $93,766,005. Of this total sugar, molasses and confectionery paid $57,741,823; tobacco, $14,382,206; liquors, $8,427,410; fruits and nuts, $5,228,426; vegetables, $1,042,629; fish, $1,027,830. British custom duties on food amounted to $106,767,000, and this year, aided by the sugar duties, will amount to about $122,000,000, or $28,000,000 in excess of the revenue raised from corresponding sources by our national government. The principal items in the British list are: Tobacco and snuff, $55,000,000; liquors, $27,584,000; tea, $20,000,000, coffee and chicory, $1,200,000; cocoa, $1,000,000; raisins, $1,000,000.

Northern Pacific agents are authorized to purchase cattle and sheep in Montana and deliver them to farmers on a share basis. The new plan is highly appreciated by the Russian, Swedish and Norwegian homeseekers, who have gone into North Dakota in recent years and taken up farms. They are unusually thrifty, careful of their stock and eager to improve their property. Stock is given them, the owners taking from one third to one half the net profits as their share of the original investment. The farmers utilize the stock in whatever way lends to the most profit and get a chance to start herds of their own through their assistance.

The London Daily Telegram said a few days ago: America has superseded our agriculture, beaten our coal output, left us far behind in the manufacture of steel and iron, and has passed us at last in the total volume of exports." In other words, commercial, industrial and financial supremacy has passed from Europe to the United States, and we have become not only a world power by virtue of our territorial acquisitions, but the preponderant world power by virtue of our vast natural resources and the skill and energy of our people in every line of activity. And this is only the beginning.

Cut this out and paste it upon the window casing in your kitchen, now that the gasoline stove season is well on, and tell the servant girl to read it every morning right after family worship. If you have a gasoline fire, throw flour on it or meal or sand. Never water. Flour, meal or sand will put the fire right out. Water only spreads it.

An Omaha reformer created quite a sensation the other day by standing on one of the fashionable promenades of that city and passing out to all the ladies who went by a card bearing the impertinent legend:

"Who is taking care of home and babies while you gad the streets,"

Down at Brown's Valley a farmers' institute was recently held and every farmer attending the morning session was given a free ticket to dinner, which could be had at any of the hotels or restaurants of the city. This courtesy was extended by the citizens of the village. It was a good thing to have done.

Three young men of Sylvan Grove, Kansas, were fined $10 each for playing poker in a box car and the Grand Forks Herald says: "That was right. In a town of such a poetic name and presumptive pastoral environments certainly a better place could have been found to play a game of draw."

One man is furnishing free the teams at work in preparing the track and other features at Hibbing's new Park. Another is furnishing food to men and teams without compensation. Such public spirit can not fail to win and is not uncommon in the range town.

The government crop report announces that the spring wheat acreage has been increased 1,200,000, or 6.4. This, with the high average of the crop conditions, make a big yield probable.

THE THIRD TERM IDEA.

The amount of discussion that has been indulged in by the press all over the country, over the question of President McKinley's candidacy for the presidency for a third term, has seemed to us as bordering closely upon silliness. We would not say a word to convey the idea that we place a low estimate upon the efficiency of the service he has and is rendering the country in his official capacity in so fully guiding the ship of state, and so successfully solving the great problems which have confronted him. We concede no advantage to anyone in the way of confidence in his honesty of purpose, and his ability to successfully meet and overcome all difficulties. But we are not willing to believe that he is the only statesman we have who has the ability and the disposition to maintain and carry forward to completion the measures and policies which have thus far been so successful in bringing conditions of prosperity to our country. And the third term idea has at all times, when it has been suggested so promptly, aroused such a strong oppositon of sentiment, that it has come to be understood that it is un-American in its principle. It is suggestive of hero worship in its spirit. We delight to honor our heroes, and give them their full meed of praise. But the American heart revolts at the thought of worshiping humanity. And we are glad to note that Mr. McKinley himself has justified the confidence we had in him, and has come out in an unqualified declaration that he is not, and will not be a candidate for a third term. It is to his credit that he has done so.

Cass Lake business men have organized a commercial club and they are shoulder to shoulder for the prosperity of that city along all lines that will tend to its upbuilding. That's proper. Now let's see them work out all possible in the way of success. It will mean an individual outlay of money, many times, for the public good. Often it involves an expenditure from which others wil profit at a distant date. But it is a good thing, a city builder, a country developer, and a live agency—when it is a live organization—for the advancement of any community. Its members must, however, be prepared to give liberally of their time, must often prefer its demands to those of personal business, and must be everlastingly prepared to push any project or proposition that makes for the public good. Above all things they must stand together. It must be a community of interest in all that the phrase implies, and each must encourage the other by doing his share of the work in hand or prospective. The unsuccessful chambers of commerce and boards of trade are those that fail to get a quorum out of three successive meetings.

Bryan has spoken on the third term matter, and the country can again draw a breath, after carefully loosening up on its suspenders. His Commoner this week will speak of the third term idea in part as follows:

"A third term is a small innovation compared with the changes that have already been effected; but it is in perfect harmony with colonial ideas. In the last campaign the republicans claimed that the Filipinos were encouraged by the prospects of a change in administration. The same argument can be made at any time when a state of war exists anywhere in the empire, and a state of war generally does exist somewhere in an empire. Imperialism would not be tolerated but for the spirit of commercialism which is abroad in the land, and commercialism, equal with imperialism, proclaims against frequent elections. When you admit the principle of imperialism, those who are placed in charge of the government will be able to enlarge upon the principle until all of the truths once supposed to be self-evident are denied and silenced."

That ought to convince anyone.

Persons who have been in the habit of turning their tame frogs loose in the waters of the pond which adorns the west-end of Kittson avenue are requested to discontinue the practice, as the roaring of the beasts disturbs the slumbers of the residents in that vicinity and grates harshly on the ears of the Great Northern trainmen who are compelled to make up trains in that vicinity.—Grand Forks Herald.

We would suggest the passage of a frog curfew ordinance to our neighbors across the line, to remedy the difficulty.

Banker McMillan of Hannah, N. D., is quoted in the Grand Forks Herald as saying that not 50 per cent of the flax early sown will make a crop, owing to the fact that a worm somewhat similar to the cabbage worm attacks the grain just under the ground as soon as it is sprouted and completely destroys the stalk. In one field of 150 acres viewed, he says there is not 20 acres of grain. The rains will now stop further work of the worm.

There seems to be a radical difference of opinion between the two papers out at Bemidji over the moral tone of that city. The Pioneer thinks gambling and general wide-openness should be curbed, and the News says the Pioneer's attitude is in direct line with a series of knocks against the administration men of the city and adds: "Beware of the dog that bites the hand that feeds it."

Editor Hagen, of the Vesterheimen, writes his heaviest editorials under the inspiration of a gramaphone, which he has substituted for a pipe, and the scheme seems to work all right.

UNITED STATES LAND OFFICE,

Crookston, Minnesota.

Notice of intention to make proof of right to purchase, under the 5th section of the act of Congress, approved March 3, 1887.

Robert J. Montague, of Crookston, Minnesota, having on June 11, 1901, filed in this office his application to purchase, under the 5th section of the Act of Congress, approved March 3, 1887; lot Four of section Thirty-three, in township One Hundred and Fifty North, of range Forty-six West of the Fifth principal meridian, in Polk county, Minnesota, and filed in connection with said application his affadavit in support of his right to purchase the said land, and asking that the St. Paul, Minneapolis and Manitoba Railway company and one Edwin F. Kelly, who is living upon and claiming some right to the said land, under the homestead laws of the United States, be cited to appear and show cause, if any they have, or objections to the submissions of such proofs or consummation of title to the said lands by him, in the manner in said application proposed, and asking that a time be set when he might appear with his witnesses before this office and make proofs of his right to purchase the said land and consummate his title thereto. Said Robert J. Montague offers to make such proof by himself and by the following named witnesses:

James Greenhalgh, postoffice, Crookston, Minnesota.

Joseph Gauche, postoffice, Crookston, Minnesota.

William Watts, postoffice, Crookston, Minnesota.

E. C. Davis, postoffice, Crookston, Minnesota.

Albert J. Lachapelle, postoffice, Red Lake Falls, Minnesota.

James Staddard, postoffice, Land Dept., Great Northern Railway Company, St. Paul, Minnesota.

And by the records of this land office, and of the office of the register of deeds of Polk county, Minnesota, and by other documentary evidence and especially by a contract executed by the St. Paul, Minneapolis and Manitoba Railway Company, dated January 27, 1881, to one Ozora P. Stearns, and by the books and records and vouchers of the said railway company, and certain contracts and assignments and deeds by said Ozora P. Stearns and his assigns and grantees under him; and the right of said Robert J. Montague is claimed under and by virtue of said contract made January 27, 1881, by said railway company to said Ozora P. Stearns, of which contract and all rights thereunder the said Robert J. Montague claims to be the assignee, holder and owner.

Notice is hereby given, that said proofs in support of the claim of said Robert J. Montague to purchase said land will be made before the register and receiver of the United States land office at Crookston, Minnesota, on August 6, 1901, at ten o'clock a. m. of that day; and the said St. Paul, Minneapolis and Manitoba Railway Company, and the said Edwin F. Kelly, and all other persons interested, are hereby cited to appear before said register and receiver at the time and place above named, and show cause, if any there be, or any objections which they may have, to the making of said proofs and consummation of title to the said lands by the said Robert J. Montague, in the manner in said application proposed.

Dated June 18, 1901.

MORTGAGE FORECLOSURE SALE.

Default having been made in the payment of the sum of four hundred and five dollars, which is claimed to be due and is due at the date of this notice upon a certain mortgage, duly executed and delivered by Samuel J. Cunningham and Louie E. Cunningham, his wife, mortgagors, to the Security Trust Company, mortgagee, bearing date the 8th day of December, 1891, and with a power of sale therein contained duly recorded in the office of the register of deeds in and for the county of Polk and state of Minnesota, on the 17th day of December, 1891, at 2:35 o'clock p. m., in book 50 of mortgages, on page 132.

Which said mortgage, together with the debt secured thereby, was duly assigned by said Security Trust Company, mortgagee, to Julia W. Powers by written assignment dated the 9th day of December, 1891, and recorded in the office of said register of deeds, on the 4th day of February, 1892, at 9:40 o'clock a. m., in book 56 of mortgages, on page 578.

Which said mortgage, together with said debt secured thereby, was duly assigned by said Julia W. Powers, the assignee and holder thereof, to William C. Haney, by written assignment dated the first day of May, 1901, and recorded on the 23rd day of May, 1901, at 11 o'clock a. m., in book 99 of mortgages, on page 609-610, in the office of said register of deeds, and no action or proceeding having been instituted, at law or otherwise, to recover the debt secured by said mortgage, or any part thereof.

Now, therefore, notice is hereby given, that by virtue of the power of sale contained in said mortgage, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, viz:

Lot four in section thirty-three, in township one hundred and fifty, of range forty-six, containing 44 acres, more or less (Lot 4, Sec. 33, in Twp. 150, of R. 46,) in Polk county and state of Minnesota, with the hereditaments and appurtenances; which sale will be made by the sheriff of said Polk county, at the front door of the court house, in the city of Crookston, in said county and state, on the 13th day of July, 1901, at ten o'clock a. m., of that day, at public vendue, to the highest bidder for cash, to pay said debt of four hundred and five dollars, and interest, and the taxes, if any, on said premises, and twenty-five dollars, attorney's fees, as stipulated in and by said mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Dated May 29th, A. D. 1901.

—William C. Haney,
Assignee of Mortgagee.

—Samuel Morrison and
—R. J. Montague,
Attorneys for Assignee. 8-13

IN BANKRUPTCY.

IN THE DISTRICT COURT OF THE United States for the District of Minnesota, Sixth Division.

In the matter of Alvin Newland, Bankrupt.

To the creditors of Alvin Newland of Crookston, in the county of Polk, in said District, bankrupt.

Notice is hereby given that on the 13th day of June, A. D. 1901, the said Alvin Newland was duly adjudicated bankrupt, and that the first meeting of his creditors will be held at the office of the undersigned referee in bankruptcy, at the city of Crookston, in the county of Polk, in said district, on the 3rd day of July, A. D. 1901, at 10 o'clock in the forenoon, at which time the said creditors may attend, prove claims, appoint a trustee, examine the bankrupt and transact such other business as may properly come before said meeting.

Dated June 13th, A. D. 1901.

—OLE J. VAULE,
Referee in Bankruptcy.

—L. E. GOSSMAN,
Attorney for Bankrupt.

FARM LAND WANTED.

I can furnish a few desirable purchasers for land at rock bottom prices. Parties having "snaps" should call on or write Attorney R. M. Hayes, Crookston, Minn. Office over Merchants National Bank.

SHERIFF'S SALE.

By virtue of an execution, issued out of and under the seal of the district court, in and for the county of Polk and state of Minnesota, upon a judgment rendered and docketed in the said court on the 12th day of April, A. D. 1901, in an action wherein The McCormick Harvesting Machine Co., a corporation, is plaintiff, and William L. Davies is defendant, in favor of the said plaintiff and against the said defendant, for the sum of Five Hundred Forty-seven and 32-100 ($547..32) dollars, which execution was directed and delivered to me as sheriff in and for the said county of Polk, I have this 11th day of May, A. D. 1901, levied upon all the right, title and interest of the said defendant William L. Davies in and to the following described real property situated in the county of Polk and state of Minnesota, to-wit:

The southwest quarter of the southwest quarter, the northeast quarter of the southwest quarter, and the southeast quarter of the southwest quarter of section number sixteen, township one hundred fifty-three, range number forty-seven.

Notice is hereby given that I, the undersigned as sheriff aforesaid will sell the above described real property to the highest bidder for cash at public auction at front door of the court house, in the city of Crookston, in the county of Polk and state of Minnesota, on Friday, the 19th day of July, A. D. 1901, at ten o'clock a. m., of that day, to satisfy the said execution together with the interest and costs thereon.

Dated June 5th, A. D. 1901.

—E. J. SULLIVAN,
Sheriff of Polk County, Minn.

—A. A. MILLER,
Attorney for Plaintiff.

Everything in patterns and fashion books. We sell Standard Patterns only.

A. CHABOT, PROP.

CITY AND VICINITY

John Gilpin has been granted a pension. He was a resident of Hallock, not the London town man.

—Fine photographs in all styles from $1 to $20 per dozen at Skrivseth's art studio, near Commercial hotel, Broadway.

The Erskine Echo has heard rumors to the effect that Bob Purvis is to open a land office out there, and asserts that there's plenty of room.

For bottom prices and quick shipment, corn, oats, ground feed, wood and lignite coal, address L. B. Gibbs, Grand Forks, N. D. Also northwestern agent Pillsbury's Best Flour.

A message from Albert Lea Saturday brought the sad intelligence of the death of Thorval Olsen of consumption. Mr. Olsen was a cousin of Register of Deeds Kolden and Mrs. Andrew Elken of this city.

The Great Northern will sell tickets to St. Paul June 18th and 19th, account of the I. O. O. F. and Rebekah Assembly June 19th and 20th. Rate $11.70 for round trip, good to return last train June 22nd. See agent.

A black horse, about 5 or 6 years old came to my place in the town of Hubbard about the middle of May. Owner can have same by proving property and paying charges for keeping and advertising. Mrs. O. Tollifson.

Conductor Evans and wife have arrived from Barnesville and have secured apartments in the McKinnon block, where they will reside during the summer. Mrs. Evans' sister, Miss Clara Mueller, accompanies them.

For Grand Lodge meeting, I. O. O. F., at St. Paul June 19th and 20th, the Northern Pacific Railway will sell round trip tickets at one and one third fare for the round trip. Tickets on sale June 18th and 19th, limited to return June 22nd.

Art Ferguson, one of the Hallock firemen, purchased a new suit of clothes just before leaving for home Friday, and while awaiting the arrival of the train turned to speak to a friend, when some one who was flying light in the matter of baggage swiped the togs.

The Crookston Furniture company has decided to cut prices during the next three weeks to make room for a large stock which Mr. Woodham has carefully selected while east. The cut will put bedroom sets, tables, couches, etc., at 20 per cent lower than the regular price. They are still continuing the wall paper close out.

Michael Byrne, a resident of western Polk, thought that the township road laid out through his part of the town of Bygland was not formed strictly according to Gunter, so that when people driving over it began to bark his shade trees, he decided to stop it, and begun suit for $100 damages against the township. The jury in Judge Watts' court Monday decided while the road was illegally laid out, the damage was nominal, and Byrne was given a verdict of one cent.

Bridgie Broadaxe: Bill Johnson, who owns a claim over on Catamount creek, had a narrow squeak for his life last week. He was coming down the river in a boat after dark with a lantern, when he suddenly heard a large sized noise in the woods, a splash in the water, and the next thing he knew he was treading water while a big bull moose was making kindling wood of the boat. Bill is thinking of starting suit against the game warden for the value of his boat. He says Fullerton must keep his blamed old moose to home or he will do some of them harm.

A young cyclone backed up over Eldred and proceeded to make things lively for that thriving little vallage for a while Saturday night. It turned loose in the St. Anthony & Dakota Lumber company's yard which Percy Bancroft, a former resident of Crookston, manages, and carried boards and planks up into the air and delivered them around town wherever a vacant lot suggested that improvements were in order. One three inch plank was driven through a plate glass window and the residents of the town were kept busy dodging shingles and falling pieces of timber. To make things more exciting some one pulled the plug out of the celestial water reservoir and the rain fell so fast that it is reported that some of the monuments were floated out of the cemetery.

REV. FRANK FRAZER MARRIED.

Cards were received by friends of the groom in Crookston announcing the marriage of Rev. Frank Leonard Frazer to Miss Ethel May Young, which occurred at Langholm, Caraquet, New Brunswick. Mr. Frazer was for several years pastor of the Presbyterian church of this city and has a host of friends here, all of whom join the Journal in extending congratulations and wishing him all the happiness he deserves. Mr. and Mrs. Frazer will be at home after June 20th at Luverne, Minn., where Mr. Frazer now occupies the pulpit of the Presbyterian church.

HE REPRESENTS HALLOCK.

G. Goodman came down Monday wearing one of the Hallock firemen's suits and joined those who left next morning bound for Bemidji. The team from up north decided that the state of its finances would not admit of its going to Bemidji in a body. Mr. Goodman took his shot gun along, and as he is one of the quick trigger fellows, will doubtless get the "dead bird" call as frequently as any of them while the shooting tournament is on.

The C·O·D

.. The Popular Store ..

There's nothing exclusive about the C. O. D. No preference as to customers, no distinction between people, no dividing line of any kind. Our stock is large and varied enough to suit all people in all walks of life. Our qualities include the whole gamit of price. Certainly this is "the popular store."

We call particular attention to our big and bright line of $10 business suits for men and young men. The materials include serges in steel, blue and black, Scotch mixtures, velour finished cassimeres and worsted cheviots in attractive colorings and pleasing patterns.

Cultivators and Weeders

Is very attractive. We have John Deer's latest riding cultivator and the Hallock weeder, both of them, tools that it will pay to buy and use.

Of course we have the usual full line of Deering harvesting machinery for grass or grain. Their Ideal ball bearing mowers and hay rakes lead the world. Our prices are right too.

Merit Always Wins.

Larsen & Carpenter,
CROOKSTON, MINN.

Stores also at Fosston, McIntosh and Beltrami, Minn.

An ice cream social will be given by the Epworth League of the Methodist church Thursday night, on the lawn in front of Rev. L. Dodd's residence on South Broadway.

The Crookston Employment Agency has opened for registration at 206 S. Main street. Anyone seeking employment or anyone in need of help should call on me. A pawn broker's office is being managed in connection. G. J. Rolfstad.

Miss Margaret McKinnon and Miss Alma Fontaine are anticipating the pleasure of seeing the Crookston ball players defeat their opponents at Hallock tomorrow, and will assist to that end by their charming presence in lieu of a more vigorous style of "rooting."

J. H. Stair, of the firm of Stair & Stiberg, abstracters, has purchased three lots on Spendley street and will at once begin the erection of a modern residence thereon.

A party consisting of Messrs. and Mesdames M. Ericsson, A. F. George and Miss Irma George have gone to Cass Lake to spend a few days as the guests of J. H. Strawbridge and wife. While away they will do some expert fishing, and will likely enjoy a day or two of the sports at Bemidji.

TRAINING SCHOOL

FOR TEACHERS TO COMMENCE JULY 8 AT CROOKSTON.

Notice is hereby given that the seventh annual session of the State Training School for teachers will be held at Crookston, beginning July 8, and will continue four weeks. At the close of the school, state teachers' examinations will be held, beginning August 5.

The school will be conducted by Hon. J. H. Lewis, ex-state superintendent of public instruction, who will be assisted by an able corps of instructors.

Classes will be organized in all the common branches, and review work will be done in the higher branches for those who desire to take the examination for first grade certificates.

You are requested to bring such text books as you may have.

Teachers requiring me to secure them boarding places should write me before the school commences.

Although we have been favored in securing a conductor who has not only gained a state reputation as an instructor, but has held the highest position in the profession; yet each appointment has been made with a view to securing specialists in the several lines of work.

In view of these facts, each teacher and every person who expects to teach should take advantage of this opportunity to put in a month's work and be the better prepared the coming year for the important duties of their chosen profession.

—THOMAS CASEY,
County Superintendent of Schools.

Gary, too, is in line, although late, with a case of the prevailing pest, and the president of the village has ordered every one to be vaccinated.

TRAP SHOOTERS

Are Invited to Attend the Fourth Annual Tournament in Crookston

TWO DAYS OF RARE SPORT

For Which Good Prizes are Offered---Dates Are June 27 and 28

The Crookston Gun club is sending out the announcement of its fourth annual amateur tournament, which has just been issued from the Journal presses.

The tournament dates are June 27 and 28, and there will be ten 15-bird events shot each day, with an entrance fee of $1.50 for each man, and $15 added money in each, making a total of $300 added money, which is a larger amount than is offered in any of the shoots in this part of the northwest this year. Beside hese the usual sweepstakes will be made up, to give variety and add interest to the tournament.

The interest now being taken in the sport of trap shooting is greater than ever before and the indications are that the leading shooters from all over the northwest will be preseat. Secretary Finlayson is sending out the elegant announcements to every man in this section of the northwest who has faced a trap during the past three years, and shooters will be here from the Twin Cities, Winnipeg, Duluth and all points between.

The Crookston Gun club has always fulfilled its promises, and has a record that will attract sportsmen and trap shooters from a wide range of country.

MAY DIVIDENDS

ON THE PHILLIPS CORN DEAL BEING SENT OUT.

Chicago, June 17.—Checks for approximately $1,000,000 were sent out by the Geo. H. Phillips company Saturday to points variously situated between Maine and Mexico.

The disbursement was in the nature of a dividend on the celebrated May corn deal, the pool account having been written up to 48 cents, this being the average price which the leader of the campaign has been able to figure out up to this time.

These checks go to about three hundred individuals, who had an interest in the pool of about 15,000,000 bushels of corn.

The lowest man got in at 39⅞ cents. The average profits so far determined is 8 cents per bushel.

This may be increased when the cash corn now on hand in various positions is disposed of, or there may be no further profit.

It will depend entirely on the state of the market when the cash corn is sold.

The largest individual interest in the pool was 500,000 bushels, and the smallest 5,000 bushels.

MANILA'S POPULATION

RESULT OF CENSUS RECENTLY TAKEN — HEALTH MATTERS.

Washington, June 17—Manila papers received at he war department contain articles of more or less importance concerning that city and the Philippines.

The Manila Times gives the result of a census taken by Lieut. H. L. Gilchrist for the board of health, completed about he first of May. This census gives the population of Manila at 244,932, divided as follows:

Filipinos, 181,361; Chinese, 51,567; Americans, 8,562; Spaniards, 2,382; other nationalities, 960. The figures do not include men belonging to the United States army. There are 18,463 buildings in the city, of which 3,739 are good, 1,135 bad, 1,472 small and 12,117 classed as shacks.

A sensational story is published to the effect that a Chinese contractor has been feeding his employes on glandered horses, which is said to account for the spread of considerable sickness in the vicinity of Manila.

The board of health of Manila is endeavoring to obtain information which will enable it to take measures to prevent the spread of cattle diseases in the island, as such diseases have proved very detrimental to the natives of the islands.

IMPORTANT DECISION

CHILDREN MUST BE GIVEN MEDICAL TREATMENT.

Chicago, June 13.—Children of Christian Scientists and of believers in "mind" cure, "faith" cure and "divine" healing, will hereafter be committed for medical treatment to various institutions.

Such was the decision made Tuesday by Judge Tuthill, of the Cook county court, in commenting on the case of Joseph Chamberlain, who, while suffering from a shrunken leg, was taken out of the custody of his mother, a Christian Scientist, and committed to the cripples' home. According to the views of Judge Tuthill, adults are entitled to use faith cure or anything else to combat disease. Children, however, according to his idea, must have medical attention whenever it is needed. When parents refuse to have their children treated when they are long suffering, Judge Tuthill holds that it is time for the authorities to step in and commit them to institutions suitable for the care of children.

SPORTING NEWS

The shoot held by the East Grand Forks gun club Friday last resulted in the badge being placed on the lapel of Tom Jarvis' coat, he having made 23 out of a possible 25. The medal being shot for was presented by Bert Seymour of the East Grand Forks Courier.

The managers of all the clubs in the North Dakota Amateur Base Ball association have received a letter from the St. Paul Dispatch to the effect that the Dispatch would offer a very fine pennant to the winning team at the end of the season. The Dispatch has one of the breeziest base ball editors of any paper coming to the northwest and will give the fans some great reading in that line during the base ball season. The pictures of all the teams in the league will be run in the Dispatch within the next few weeks.

SATURDAY'S BALL GAMES.

National League:
Pittsburg, 1, Boston 0.
Chicago 9, New York 2.
Cincinnati 4, Philadelphia 5.
St. Louis 2, Brooklyn 3.
American League:
Boston 12, Detroit 4
Washington 3, Cleveland 5.
Others postponed.
Western League:
St. Paul 8, Omaha 4.
Minneapolis 4, Des Moines 1.
Colorado Springs 4, St. Joseph 0.
Denver 3, Kansas City 1.

Ed Jess, an old time ball player, who was a member of the Crookston team that won championship honors five years ago has secured a position at Cass Lake. He will assist the management of the local team there in securing new players and getting the club into shape to more successfully cope with visiting organizations. Ed thoroughly understands the game and will, when he gets into condition, be a valuable man to the locals. He plays ball all the time when in a game and his head is the most active part of him; therein lies the secret of his success.

COFFERDAM GAVE WAY

EXCAVATIONS FOR PULP MILL AT GRAND RAPIDS FLOODED.

Grand Rapids, Minn., June 15.—The Mississippi yesterday morning broke through the cofferdam used to keep the water out of the excavation for the foundation of the new pulp mill here. The damage will be heavy, as it will be necessary to make extensive repairs before the excavation can be pumped out. In the meantime all work on the masonry must be suspended. Had the dam held 24 hours longer the accident would have been of small consequence.

The district court of Itasca county has adjourned, though the grand jury is still sitting. Judge Olenehan will receive the report of the grand jury on Monday. A sensation is promised, as officials of the village are said to be short in their accounts.

LUNATIC'S AWFUL DEED

KILLS DAUGHTER AND WOUNDS THE FATHER.

Blue Earth, Minn., June 17.—The family of John B. Poirer, residing six miles west of this city, were attacked Saturday morning by Charles Simon, supposed to be a maniac. Sophia Poirier, the 17-year old daughter, was fatally stabbed and Mr. Poirier was badly cut before he succeeded in disarming his assailant. Simon was armed with a knife and a sharp pointed iron rod seven inches long. This he drove through the body of the girl. Simon was arrested. He has worked on the section here but was a stranger to the family of his victims.

"Stop that cough right away with Mull's Lightning Cough Cure. It heals disease of throat and lungs. It's pure and good for children. 25c. For sale by S. A. Wallace.

GOOD WORD FOR HIM.

"There's no town in the country that has water power superior to Red Lake Falls," said T. La Bissionere of that place, to a Minneapolis Journal representative. "Red Lake Falls is now one of the principle towns in the northern part of the state. We intend to make it better by locating industries there. A flax fiber mill is being considered by the business men. Red Lake county is prosperous and county division has proven very satisfactory to our people."

SHUDDERS AT HIS PAST.

"I recall now with horror," says Mail Carrier Burnett Mann, of Levanna, O., "my three years of suffering from Kidney trouble. I was hardly ever free from dull aches or acute pains in my back. To stoop or lift mail sacks made me groan. I felt tired and worn out, about ready to give up, when I began the use of Electric Bitters, but six bottles completely cured me and made me feel like a new man." They're unrivalled to regulate Stomach, Liver, Kidney and Bowels. Perfect satisfaction guaranteed by A. G. Anderson. Only 50 cents.

SKILLET OF LARD

Took on Too Hot a Glow and Frank Sutter's House is Gone Up

'TWAS LOCATED IN FANNY

Nothing Was Saved But the Clothing Worn and Some Bedding

News reached the city today that the farm house belonging to Frank Sutter, living in the town of Fanny, had burned. Mr. Sutter and his man are living alone and this morning the men began breakfast, started a fire, put on a skillet of lard and went out to the barn to do the chores while things were heating up. The grease in some way caught fire, and communicated to the wall and the first warning Mr. Sutter received was the sight of smoke issuing from the windows. He ran to the house, but a few minutes' work proved that the fire was beyond control.

The building burned to the ground, and with the exception of some of the bed clothing and the clothing the men had on, nothing was saved. The loss is about $750, with $250 insurance.

ANOTHER VICTIM

DOWIEISM FATALITY LIST STILL GROWING.

Janesville, Wis., June 13.—Mrs. H. C. Pendleton, living with her husband near Allen's Grove, died at her home Monday night in child birth, unattended by anyone but a Dowie deacon and elder. An autopsy was held by Drs. Jones and Campbell, who said the woman could have been saved had physicians been called. The coroner's jury found that the woman came to her death from gross neglect and wilful negligence on the part of her husband, H. C. Pendleton, Mrs. John H. Sayres and Deacon Mary C. Specher, and recommended that they be held. Justice Ames refuses to issue warrants, on the ground that the offense is not covered by the statutes.

GOOD ADVICE.

The most miserable beings in the world are those suffering from Dyspepsia and Liver Complaint. More than 75 per cent of the people in the United States are afflicted with these two diseases and their effects, such as Sour Stomach, Sick Headache, Habitual Costiveness Palpitation of the Heart, Heartburn, Water-brash Gnawing and burning pains at the Pit of the Stomach, Yellow Skin, Coated Tongue and Disagreeable Taste in the Mouth, Coming up of Food after eating, Low Spirits, Etc. Go to your druggist and get a bottle of August Flower for 75 cents. Two doses will relieve you. Try it. Get Green's Prize Almanac. F. H. Hillard & Son.

LOW RATES TO BUFFALO EXPOSITION.

Via the Nickel Plate Road. Three through daily trains with vestibuled sleeping cars and excellent dining car service, meals being served on the American Club Meals plan, ranging in price from 35 cents to $1.00. Chicago Depot, VanBuren St. and Pacific Ave., on Elevated Loop.

Write John Y. Callahan, General Agent, 111 Adams St., Chicago, for full information and beautifully illustrated descriptive folder of the exposition buildings and grounds.

A LONG JOURNEY.

Kansas City, June 17.—Arthur Stanley Metcalf, walking from Boston to San Francisco on a wager of $1,000 that he will reach the Golden Gate by Dec. 15 next, arrived here Saturday and is a month ahead of schedule.

Two Years Ago

You were advised, IF A RENTER, a Farmer's son (unable, owing to high values of land, to secure a farm near your old home), or a farmer burdened with taxation, heavy mortgages, impoverished soil or failure of crops, to secure a

FREE 160 Acre Homestead

IN MANITOBA, ASSINIBOIA, SASKATCHEWAN OR ALBERTA, the GRAIN and GRAZING DISTRICTS of FERTILE WESTERN CANADA.

The experience of those who acted upon the advice is so gratifying that the advice is now repeated, and the offer of a free farm to every male over eighteen years of age and every female head of a family is made. Railways, markets, schools, churches, etc., convenient. Climate healthiest in the world, soil the best. Write for railroad rates, maps, pamphlets, letters from settlers, etc., to F. Pedley, Superintendent of Immigration, Ottawa, Canada, or to

B. DAVIES,
154½ East Third St., St. Paul Minn.

IT'S REAL SPOOKY

EAST GRAND FORKS PEOPLE GET TO SEEING THINGS.

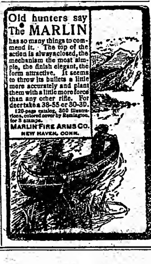
Considerable excitement has been caused in East Grand Forks by the reports of a number of people residing on lower Water street, to the effect that about 10 o'clock each night for a number of days past a weird figure has been seen as though clothed in a mist like garment, passing down the lane that leads past the Charles Beaver residence. The story goes that the apparition comes from the woods each night, and seems to float toward the river until it reaches the Beaver residence, where it pauses, sometimes entering the place for a few moments and sometimes simply stopping in front of the door and pointing toward the house with its ghastly fingers, then gathering its misty garment about it, upon which it is said there are spots of blood, it floats on down the road and disappears in the river near the spot where the body of Chas. Heck was found a few months ago. Some of the people have become so interested in the matter that it is said a watch will be kept along the haunted path for a few nights to see what his ghostship is trying to get at.—Grand Forks Herald.

MOEN IS GRAND CHIEF

A SHELLEY MAN IS HIGH JINKS OF GOOD TEMPLARS.

N. T. Moen, a prominent temperance worker of Norman county, whose home is at Shelley, was elected Grand Worthy Chief Templar of the state grand lodge of that order that closed its sessions at Taylor's Falls Saturday. The county was further honored by the choice of J. J. Kikkie of Ada as electoral superintendent.

Resolutions for an increase of the salaries of grand chief and grand secretary were adopted. There was a heated debate over the proposition that no subordinate lodge be allowed to have or permit dances or card playing in halls which it owned or controlled, but it was laid on the table.



Old hunters say The MARLIN has so many things to commend it. The top of the action is always closed, the mechanism the most simple, the finish elegant, the form attractive. It seems to throw its bullets a little more accurately and plant them with a little more force than any other rifle. For deer take a 38-55 or 30-30. 120-page catalog, 300 illustrations, colored cover by Remington, for 3 stamps.
MARLIN FIRE ARMS CO.
NEW HAVEN, CONN.

The Riverside Dairy

Offers to the people of Crookston the purest milk, the richest cream, and the best butter to be had in all Minnesota at the lowest prices compatible with conservative business management. Our milk route lies right past your door, delivering twice each day. Call on our driver, or through telephone No. 12 for anything in this line. Don't eat your bread without butter so long as you can get Riverside at present prices.

E. D. CHILDS CO., Crookston.

JUDGING BY APPEARANCES of course, everybody does that, an laundry work can't be judged any other way. Everything subjected to our artistic treatment comes out as clean as a polished surface, as clear as a crystal and as bright as a Summer's day. Articles washed properly last twice as long, and look twenty times better than goods badly laundered. We make cheap fabrics masquerade for something better.

RAILROAD NOTES

The railroads in the Southwest from Texas to California are adopting crude oil for fuel on locomotives. The great production of oil in those two states has made it by far the cheapest fuel.

Wadena Tribune: The N. P. is preparing to make some change in the course of the Buffalo river at Winnipeg Junction. The track crosses the river twice there in about half a mile, and the proposed change will keep the river on the north side. The work will take nearly all summer.

The Great Northern has secured a contract for twenty-five carloads of structural steel, billed from Philadelphia to San Francisco, in the face of the best efforts of the Southern Pacific connecting lines. The rate at which the business was contracted is not known, but traffic men say it must have been a good one. As the Great Northern secured several train loads of fruit destined for eastern points early in the season, it is evident that it regards California traffic as a good thing.

The Great Northern railway has commenced work on an extension of its line from Bottineau to a point 12 miles west, where a new town, to be known as Souris, N. D., will be established. This new piece of railway will be a much needed accommodation to the great number of settlers who have recently taken up lands west of the Turtle mountains and in the Mouse River valley in Bottineau county. The country contains a large area of rich agricultural lands. It is expected that the extension will be operated by the time the crop is ready to mov.

WOMAN TO THE FRONT

IN THE LEGAL PROFESSION AS WELL AS ELSEWHERE.

New York, June 14.—Mrs. Fanny H. Carpenter, a lawyer, has the distinction of having won in the New York court of appeals, now sitting in Buffalo, the first case ever won by a woman in that court. Almost coincident with this honor comes her election as president of the Woman's Lawyers' club. The case was that of La Tourette vs. La Tourette, in which a husband repudiated a gift of property to his wife. The lawyers in whose handa the case for the wife was placed refused to appeal it from the lower courts, considering it a forlorn hope. Mrs. Carpenter carried it to success, and is the second woman to argue a case before the court of appeals. Mrs. Carpenter is the wife of Philip Carpenter, also a lawyer, and shares her offices with him.

ONLY FOUR DAYS

TO CROSS THE ATLANTIC IN NEW STEAMSHIPS.

Montreal, June 14.—The first steps for the inauguration of a fast steamship service between Sydney, Cape Breton and Southampton, England, have been taken. H. M. Whitney of Boston has given the contract for three fast steamships which will ba put on the service as soon as ready. The vessels are intended to make the passage from Southampton to Sydney in four days. It is claimed that by the new service it will be possible to land passengers in Chicago in the sama time as it now takes to get to New York.

DROVE 300 MILES

WOMAN MAKES A LONESOME JOUNEY CLAIM HUNTING.

Blackduck Times: A short time ago a gentleman from Minneapolis stated that a lady of that place was going to start out for Blackduck in a buggy. The idea was so absurd that it only created amusement, as at the time it was all a man could do to walk in, let alone getting in in a buggy.

But Tuesday noon a lady came driving into town in a carriage, which caused some consternation. It proved to be Mrs. Fox, who had driven alone from Minneapolis to this place, and was on her way to Bridgie, in which neighborhood she expected to find a claim. She had a number of adventures, but none more thrilling than when sha got off the right road and was lost on a dark and stormy night in the woods near Park Rapids. She turned the horse loose, fastened up the buggy blinds, hung a blanket in front and calmly remained till morning, in the midst of a terrific thunder storm. When she started on her way in the morning, she found that she was within a short distance of farm houses, and did not feel more at ease, when informed that a number of wolves were in the locality where she camped, and which the farmers had been trying for some tima to kill.

IRELAND HONORED

ARCHBISHOP WILL BE GIVEN DEGREE OF DOCTOR.

New Haven, Conn., June 14.—Tha report that Yale has offered the degree of doctor of laws to Archbishop Ireland seems correct, despite the refusal of the authorities of tha university to affirm or deny it. President Hadley said yesterday:

"It would be an unseemly proceeding to tha university to discuss such matters. I decline to make any statement."

On what seems good authority in Catholic circles, it is learned that the degree was offered and will be accepted.

This is said to be the first time the honor has been conferred on a Catholic clergyman in the history of the institution.

Archbishop Ireland said that beyond the press reports he knew nothing about the rumor that the degree of LL. D. would be conferred upon him by Yale university.

FIFTY BUFFALOS

HERD OF THE DUPREE ESTATE CHANGES HANDS.

Pierre, S. D., June 14.—"Scotty" Philip has purchased from tha Dupree estate its entire buffalo herd, which is one of the few herds of such animals yet in existence. The herd is composed of about fifty full bloods and several half bloods. They ara the offspring of a pair of buffalo captured by Fred Dupree several years ago when it became evident that tha animals were about to be wiped out, and they have been roaming on the Sheyenne river ever since that time. Mr. Philip is preparing a large pasture for them a short distance from Fort Pierre, and will bring them down from their present range about the 1st of July.

EDDY COMING WEST

WILL DELIVER A 4TH OF JULY ORATION OUT WEST.

Washington, June 14.—Representative Eddy and wife returned here yesterday from a visit to the Buffalo exposition and they will stay hers until the 20th inst., and then start west. Mrs. Eddy and children will go to the home of her parents in Illinois, and Mr. Eddy will go to Minnesota and proceed to Washington state, where he is to deliver a Fourth of July address at a gathering of Modern Woodmen. Mr. and Mrs. Eddy have taken a home on Capitol Hill for the next session of congress and will return early in the fall.

RAPID INCREASE

NINE CHILDREN IN 3 YEARS RECORD OF N. Y. WOMAN.

Mme. Desboges, formerly Harriet Lancaster, of New York, the other day gave birth to triplets. This is the third time that the same thing has happened to her. She was married exactly three years and three months ago and has nine children and all boys and healthy. The father joyfully hopes that the next arrival will complete the dozen and break the record. Harriet Lancaster studied painting in New York until she was 18. Then she went to Lancaster and married three years later. M. Desboges is an architect. Mme. Desboges herself continued to paint, but when she saw how her family was growing she abandoned her art to devote her whola time to her children.

CORN KING PHILLIPS

TALKS A FEW LINES ON CORN CORNERS.

Minneapolis, June 14.—A limited number of members of the National Farmers' alliance listened to a short address last night by "Corn King" Phillips of Chicago, at the West hotel. His address dealt principally with corn and corn "corners." He said:

"Tax the farmer a cent a bushel on his corn crop and with the money build elevators in which to store a hundred million bushels of corn and pay 40 cents, the Chicago basis, for it, and the world will pay tha sama price. There is not so much of it that we need worry about an extra large crop or two. With the government ready to pay 40 cents for it, the farmer can borrow 30 cents from his county bank if he needs money, and carry the surplus for several years if need be."

WILL TAX GOLD MINES

TO MEET EXPENSE OF SOUTH AFRICAN WAR.

London, June 15.—The British government has decided to levy $250,000,000 on the Transvaal gold mines to pay half the cost of the war.

Sir David Barbour, formerly finance minister for India, who was commissioned to report upon the taxable ability of this property, advised Colonial Secretary Chamberlain to levy $175,000,000, but Mr. Chamberlain, after consulting with Lord Milner, increased the amount as stated.

The report is looked forward to here with the greatest interest in political and official circles. The recommendation, when it becomes public here, is certain to cause consternation among the Kaffir stockholders, who fancied that the idea of taxing mines, which are mostly owned in England, had been abandoned. As these mines were the underlying cause of the war, many have demanded that their owners ba made to bear a large share at least of its heavy burden.

BEES AFTER BEER.

A large swarm of bees left their haunts at a bee farm near Fort Snelling Saturday morning and flew into St. Paul. They finally alighted on a beer sign in front of a Wabasha street saloon, and quickly attracted the attention of a crowd. O. W. Walters, who lives at 19 West Tenth street, with the assistance of the bartender, captured them in two large cracker boxes, but suffered several stings.

—Always kill it quickly. Any kind of pain. Mull's Lightning Pain Killer. No opiates, guaranteed pure. 25c. It's a wonder.

PRESIDENT McKINLEY

AS HE IS VIEWED BY THE FIRST LADY OF THE LAND.

"Ah, no one can know him because to appreciate him one must know him as I do. And I am not speaking now of Major McKinley as the president. I am speaking of him as my husband. If any one could know what it is to have a wife sick, complaining, always an invalid for twenty-five years, seldom a day well, and yet never a word of unkindness has ever passed his lips; he is just the same tender, thoughtful, kind gentleman I knew when first he came and sought my hand.

"I know him because I am his wife, and it is my proudest pleasure to say this, not because he is the president, but because he is my husband.

"I wish that I could have seen him yesterday; I love to see him among the people whom he loves to serve so faithfully. But I read his speeches this morning. I read all his speeches. I only wish that I could help him as I should.

"He is so kind, so good, so patient. He gives me all the time he can; he never forgets me, no matter how busy he is. But I will be glad when ha is out of public life; I did not want him to run a second time. I thought he had done enough for the country, and now I know that he has done enough, and when this term expires he will come home and we will settle down quietly and he will belong to me."

INVITED TO BLACK HILLS.

Washington, June 17.—Accompanied by Commissioner Herrman, of the general land office, Mr. Wm. S. Warner, of the Black Hills Pioneer society, called at the White House Saturday and presented to the president an invitation to attend the quarter centennial of the first settlement of the Black Hills to be held at Deadwood from July 3 to 7. The invitation was engrossed upon a gold tablet. The president declined with regrets.

ENGLISH SPARROWS

ARE NUMEROUS AND TROUBLESOME IN DULUTH.

The work of painting the iron work in the interior of the union depot train shed in Duluth has been attended with some interesting experiences by the workmen under the lofty roof, 80 feet from the floor. There are hundreds of English sparrows that make the train shed their home in spring, summer and fall, and they nest there. Supt. Bell of the union depot has done everything he can think of to drive the sparrows out of the train shed, but without success. They are a great nuisance, he says, but the birds are multiplying in Duluth and if he should destroy every bird that is accustomed to make its headquarters in the train shed, it would be but a week or so before there would be a new supply.

EIGHT PARDONS

GRANTED BY PRESIDENT OUT OF ELEVEN APPLICATIONS.

Washington, June 17.—The president Saturday disposed of 11 applications for pardon. He denied two, granted one pardon to restore civil rights and granted pardons and commutations in eight cases.

Among those pardoned was James H. Greenwood, who pleaded guilty to embezzling postoffice money order funds while postmaster at Goldfield, Colo., and was sentenced to pay a fine og $643 and to imprisonment for six months in jail at Denver.

The attorney general recommended pardon because "it was clearly shown that there was no intention on the part of the prisoner to defraud the government.

SHORT CROP OF FEATHERS.

Sanborn Enterprise: George Carl, who is an enthusiastic sportsman and a close observer when it comes to matters concerning field sports, has noticed a remarkable scarcity of young prairie chickens and ducks since tha heavy rains and frost of a few days ago. He has seen a number of young ducks lying dead along the lake and slough shores, and has also noted with regret the absence of ducks with broods and prairie hens with young within the past few days, they being very numerous previous to the heavy rains which ended in a hard freeze on June 7. He is at a loss to account for the disappearance of young ducks and grouse, but is inclined to attribute it to the excess of moisture, or to the freeze or to the combination of both causes.

LEAGUE CONVENTION

AT MOORHEAD CLOSED SUNDAY NIGHT—LIST OF OFFICERS.

Moorhead, June 17.—The three days' session of tha St. Cloud District Epworth League convention closed last night. There were nearly one hundred delegates present and much interest was manifested in the work.

Rev. Geo. E. Tindale of Frazee was elected delegate to the international convention to be held in San Francisco. Bishop Joyce of Minneapolis being detained by illness, the sermon yesterday morning was preached by Rev. F. E. Tindale.

The following officers were elected Saturday afternoon and installed by Dr. Dodds, presiding elder of the district: President, Hans Bugge, Fergus Falls; first vice president, Rev. W. E. J. Gratz, Detroit; second vice president, Mrs. Welter, Crookston; third vice president, Prof. J. A. Van Dyke, Alexandria; fourth vice president, Miss Mina Olin, Wadena; secretary, Rev. Tyndall, Frazee; treasurer, W. B. Auxer, Moorhead; district junior superintendent, Miss Covell Bemidji.

The next annual convention will be held at Bemidji in June, 1902.

It Makes Weak Women Strong.

"I suffered from female weakness for five months," writes Miss Belle Hedrick, of Nye, Putnam Co., W. Va. "I was treated by a good physician but he did me no good. I wrote to *Dr. R. V. Pierce, Buffalo, N. Y.*, for advice, which I received, telling me to take his 'FAVORITE PRESCRIPTION.' When I had used the medicine a month my health was much improved. It has continued to improve until now I can work at almost all kinds of house-work. I had scarcely any appetite, but it is all right now. Have gained several pounds in weight. I would advise all who suffer from chronic diseases to write to Dr. Pierce."

It Makes Sick Women Well

KILLED BY LIGHTNING

DEATH OF A FARMER WHILE AT WORK IN HIS FIELD.

Mankato, Minn., June 17.—James Seawright, a farmer living near Garden City, was struck by lightning during a storm, dying a few minutes later. Seawright and son were in a corn field, the son cultivating and the father hoeing. The bolt of lightning struck Seawright's head and set his shirt on fire. With his hand he seized the shirt and extinguished the fire, but was dead when the son reached his side. The son escaped uninjured.

HEALTH HINTS.

When you are well, let yourself alone; you can never be better than well.

The almost universal cause of dyspepsia is eating too fast, too often and too much.

Never take a cold bath while tired, nor less than two hours after a regular meal.

Sameness of food is a great drawback to health. for natura craves a variety of elements.

That man lives longest who wisely divides the acceptance of lifa between brain and muscle.

Never eat when you are not hungry, nor drink when you are not thirsty; it imposes on nature.

To be well is an attainabla blessing—the uniform result of self-denial, temperance and an industrious life.

Either cold feet or constipated bowels attend a large majority of human ailments the cure of which would be effected by the removal of the cause.

The three great elementary principles of every healthy community, as well as individuals are pure air, perfect cleanliness and well-cooked food.

Go to bed at a regular hour, leave it as soon as you waka up and do not sleep a minute in the day time. This will give you all the sleep your system requires.

Earl Douglas, of Medford, Minn., walked off with the class of '77 university fellowship in biology at Princeton this year. It carries $500 a year.

The Wanke Herald, away out in the town of Johnson, is the nawest thing in the way of a peper in the county. I. D. Converse is the man who writes "we" on it.

The contract for the construction of the new public building at Fergus Falls will not be let until next spring. Up-to-date sketch plans are being made, but complete drawings will not be ready for three or four months.

The last issue of the Northfield News has an itemized account of tha commencement at St. Olaf's college, and the features of Albert Twedten, who represents Crookston at that institution, apear in the group of players on the ball team, where he has done good work this year. Mr. Twedten has returned to Crookston to spend his vacation.

Burlington Route

BY DAYLIGHT ALONG THE MISSISSIPPI

Tha most beautiful river scenery in the world is between St. Paul and Chicago. Our "Scenic Express" leaves Minneapolis 7:30, St. Paul 8:05 a. m, and reaches Winona 11:30, La Crosse 12:14 p. m., Dubuque 3:44, and Chicago at 9:35 p. m. An interesting and comfortable trip.

Ask Your Home Agent to Ticket You by the Burlington.

LAXAKOLA THE GREAT TONIC LAXATIVE

If you have sour stomach, indigestion, biliousness, constipation, bad breath, dizziness, inactive liver, heartburn, kidney troubles, backache, loss of appetite, insomnia, lack of energy, bad blood, blotched or muddy skin, or any symptoms and disorders which tell the story of bad bowels and an impaired digestive system, Laxakola Will Cure You.

It will clean out the bowels, stimulate the liver and kidneys, strengthen the mucous membranes of the stomach, purify your blood and put you "on your feet" again. Your appetite will return, your bowels move regularly, your liver and kidneys cease to trouble you, your skin will clear and freshen and you will feel the old time energy and buoyancy.

Mothers seeking the proper medicine to give their little ones for constipation, diarrhea, colic and similar troubles, will find Laxakola an ideal medicine for children. It keeps their bowels regular without pain or griping, acts as a general tonic, assists nature, aids digestion, relieves restlessness, clears the coated tongue, reduces fever, causes refreshing, restful sleep and makes them well, happy and hearty. ☞ *Children like it and ask for it.*

For Sale by F. H. HILLARD & SON CITY DRUG STORE.

Laxakola is not only the most efficient of family remedies, but the most economical, because it combines two medicines, viz: laxative and tonic, and at one price, 25c. or 50c. At druggists. Send for free sample to THE LAXAKOLA CO., 132 Nassau Street, N. Y., and mention the name of your druggist. ☞ We will express to any address on receipt of 50c. in stamps or post note, all charges prepaid, a large family size bottle of Laxakola, sufficient to last for a long time.

CORRESPONDENTS

DONALDSON.

Thilda Ryden is visiting with her sister at Grand Forks.

George Hallberg and Andrew Morrow are helping the ditchers nowadays.

K. J. Lind visited Crookston and Grand Forks last week returning Friday.

Mr. Windoth is here representing the McCormick Co and cheering up the business some.

Mrs. C. E. Rideout visited with her daughter in Crokston during the firemen's tournament.

Peter Lund boarded the train for Mineapolis Wednesday of last week. He will absent but a few days.

Miss Johnston from Stephen came up on Monday's Flyer and proceed up to E. N. Davis where she will visit for a time.

An enjoyable and well represented hop was held last Friday in T. C. Hickey's building. George Clark of Stephen furnished the music.

Miss Annie Hallberg, who has been employed by S. E. Olson & Co. of Mineapolis for the last two years, returned home last Tuesday looking very good, in spite of the city life.

Axel Miller, George Clark and K. J. Lind boarded the train for Kennedy Saturday. From there they proceeded to the picnic grounds at C. Clauson's, coming home about four o'clock in the morning.

ADA.

Miss Elmore left for her home at St. Paul Thursday night.

Miss Alma Larson of Moorhead is visiting her old chums here.

Editor Solomonson was over from Twin Valley on business Monday.

Mrs. Ed Livingston of Northfield, formerly Miss Hatie Myran, is visiting with friends here.

Pat Dullard left Sunday night for St. Paul as a delegate to the state convention of the I. O. O. F.

J. E. Johnson and wife are attending the conference of the United church at Minneapolis this week.

Mrs. Chas. Lofgren is attending the grand lodge of the Rebekahs at St. Paul as a delegate from this place.

Jake Velland is fixing up the old Chas. Brown store for a jewelry shop and book store. Geo. Rocbat has rented the building for that purpose.

The wedding bells are ringing and this time the contracting parties are Henry Gilbertson and Miss Bertina Johnson, both of Hegne township. The wedding occurred at the bride's home Wednesday afternoon.

Among those taking in the firemen's convention at Crookston last week were Mr. and Mrs. F. Moffatt, Mr. and Mrs. F. Andrist, Chas. Brown, Sam Olson, Sam Strand, Geo. Helland and Misses Isa Stewart and Amelia Holden.

The following residences are under construction: Prof. Butler, adjoining S. Peterson's lots; Theodore Tenny, adjoining C. C. Allen's; Jason Weatherhead, south of Tenny's; H. L. Larson in Hampson's Addition; John Merkinson, between Gilbertson's and F. Gaetke's, besides a few others that are already finished.

The Eidsvold No. 48 of I. S. W. A. held election of officers Monday night and elected the following for the ensuing term: M. E. Rorogen, president; A. A. Stee, vice president; W. B. Mellang, instructor; G. Kittleson, secretary; I. R. Sivertson, fin. secretary; L. A. Lofthus, cashier; J. T. Anderson, marshal; Lauritz Anderson, inside guard; Lewis Larson, outside guard: Ole Wanga, trustee for eighteen months.

WARREN.

Mrs. Harry Adams started for Washington Monday night to join her husband, who went ahead some time ago.

Dr. Ed Frank's new house is nearing completion quite fastly, and the Doctor will have a cosy home when it is finished.

Miss Jean June came home Tuesday morning after several months absence. She has been attending school at Red Wing.

Bennett's Big Show pitched their tents here Tuesday for a three day's show, and we think from all appearances they are being well patronized.

Mr. Rosenberg and Mr. Mickelson have gone to Washington with a view to locating there should they find a place that suits them better than the Red River Valley, in which case they will return and remove their families.

Alfred Thomas and wife returned from Washington Tuesday, where they have been since last fall. Mr. Thomas is afflicted with a cancer on his face and went to Washington to seek relief for his ailment, but he is apparently no better than he was when he went away.

It has only been a short time since we heard the farmers complaining about the dry weather, but now they have changed the tune and the cry of "too wet" is all the go. It seems as though some people can not be satisfied anyway. But just the same the prospect for a big crop is excellent, and the hay crop is immense.

ST. VINCENT.

County Supt. Cowan is at home for a visit.

Measles have made their appearance in the village.

Victor Clow and Russell Wright are home from school.

Robert Moncimore died last Friday of typhoid fever. His remains were buried Sunday in the Joe River cemetery.

A crew of Great Northern carpenters is busy removing the company's water tank from its present location on the bank of the river to the round house.

Word has just been brought in that Capt. Cameron, whose home is about six miles up the river, had committed suicide by drowning. No particulars.

Our usually quiet village was disturbed last Wednesday evening by a mix-up among the half breed fraternity. As a result Joe Stranger had a finger bitten off and Barney Kelly is nursing a pair of bad eyes.

P. A. LeMasurier, one of the earliest settlers of St. Vincent, died last Friday after a lingering illness. He had always taken an active interest in any move for the betterment of the village and was held in the highest esteem by his neighbors and friends. The bereaved family have the sympathy of the entire community.

Come Yourself and Bring Your Friends.

FIRE AT HALSTAD

The PV. Elevator Totally Destroyed at an Early Hour Monday Morning

TWO FREIGHT CARS BURN

The Visible Wheat Supply Reduced by Three Thousand Bushels

The early morning hours were made exciting for the Halstad people Monday by the burning of the "PV" elevator at that point. The building and contents are a total loss, and but for the fact that a heavy rain had fallen, other buildings would have gone to swell the figures that represent the property destroyed.

There is a difference of opinion as to the origin of the blaze. The lightning is believed to have struck the building, but the usual talk about tramps setting the fire finds some who account for the blaze in that way.

The building contained 3,000 bushels of wheat, and the efforts of the local fire department were futile to prevent the fire from destroying anything in the building. The Great Northern had two box cars on the siding near the building, and it was impossible, owing to the heat, to run them out of the way and both were destroyed.

CELEBRATION TALK

IS TO BE HEARD EVERYWHERE. GOOD TIME ASSURED.

If you fail to attend the Fourth of July celebration in Crookston, you will miss the event of your lives. This is the warning that is given out by the committee having the festivities in charge, and which they wish the Journal to give to the citizens, and to pass along to the country people.

All arrangements are now complete and the committees are able to announce that there has never been a celebration attempted in this part of the valley that will furnish such a list of attractions as they offer to those who come to Crookston to celebrate.

Don't forget for a minute that this is a two-day affair. No ordinary event that can be pulled off in a single day, but a real, genuine big show, that all will want to attend.

Everything that has ever been heard of in the way of sports will be offered, and the prizes are so liberal that each will be a record breaker. Three bands will be in attendance, base ball games and horse races have been arranged, in addition to the usual program.

The money is in hand, and the fireworks that will be a feature of each evening, have been bought, with which to close the event in a blaze of glory.

THROUGH CAR WINDOW

LEAP TAKEN BY MAN ON N. P. TRAIN SUNDAY.

A man named Christopher Lachoski, en route from St. Paul to Duluth on a Northern Pacific train Sunday, while temporarily deranged, says the Duluth Herald, leaped, feet foremost, through a car window, near Hinckley, while the train was moving at full speed. The train was stopped and the train crew and some of the passengers started back with the intention of picking up the man's body. Rounding the curve they saw Lachoski walking along the track uninjured, the only mark on his person being a cut on the thumb, which he received from the glass as he went through the window. Laschoski was unable to explain the reason for his wild jump, but as he began to recover his senses shortly after returning to the train, it is supposed that the intense heat at St. Paul resulted in his becoming temporarily demented. Lachoski left the train at Willow River, where he has a married daughter living. He recently left New York city and came west for the purpose of visiting relatives.

RURAL FREE DELIVERY

RECENT ILLUSTRATION BY ST. PAUL LADY.

The Pioneer Press says: "At the convention of newspaper circulation agents held in Buffalo last week Fred Johnston of the Pioneer Press was called upon to read a paper on 'Rural Free Delivery,' in the course of which he convulsed the assembly by telling the following are among recent locals experiences.

"A certain citizen of St. Paul, who had secured for himself and family a pleasant summer residence in a suburban village, was surprised on going home one evening to find that his wife had suddenly, without the aid of nurse or doctor, presented him with a fine boy. After he had in a measure recovered from his astonishment, the little woman looked up in his face and archly inquired: 'Is this what they mean by 'free rural mail delivery?' "

A SAD HOME COMING

LADY ALIGHTS FROM TRAIN AND FINDS HUSBAND DEAD.

The Minneapolis Journal relates the following:

"Down at Derry, Ohio," said Fred F. Knappen, who is with the Washburn-Crosby company, "I was the unwilling witness of a heart-rending scene. An old man who had hobbled down to the depot to await the arrival of the Pennsylvania special, informed his acquaintances on the depot platform, with a cheery smile, that he had come to 'welcome ma hum.'

"His eyesight was dim and be stood too close to the edge of the platform. As the big mogul engine pulled into the station the cross beam in front of the pilot struck him with terrific force. His body was whirled aloft like a stick of wood, struck the train shed with a sickening thud, and on the rebound rolled over and over on the station platform. Almost every bone in the old man's body was broken and he was quite dead when picked up. Just then a sweet faced old woman edged her way through the crowd and catching sight of the familiar face, gave a wild, despairing cry and fell prostrate on the dead body."

AGAIN IN BUSINESS

A. O. BUSTERUD HAS DECIDED TO EMBARK IN TRADE.

Arne O. Busterud has decided to re-enter the trade circles of the Crookston business men, and has ordered a stock of hardware, tinner's tools, supplies and materials. As soon as the goods arrive he will open for business and his reputation for right dealing and favorable prices, together with his extensive acquaintance, will insure him a large share of business from the start.

Mr. Busterud expects to open for business by the 15th of July. He has not yet definitely settled the matter of location, but has two rooms in view either of which is well located and will suit his purpose.

SEVERE HAIL STORM

KILLED 200 SHEEP AT SPEARFISH ON SATURDAY.

Spearfish, S. D., June 25.—The heavy hail storm two days ago killed two hundred head of Angora sheep for C. A. Scott on the range north of this city. The loss will be something like $3,000. The damage done to county roads and bridges in Lawrence county, Butte and Meade, and in Crook county over the line in Wyoming will reach a large sum. There is scarcely a bridge left on the larger streams, several of the steel structures having either been carried away entirely or made unsafe for crossing.

NARROW ESCAPE

A FAMILY IN ROSEAU COUNTY MOVED OUT BY WIND.

During the recent storm in Roseau county, a cyclone struck the farm house of C. J. Knutson, a few miles southeast of Pelan, sliding the house about fifty feet and overturning it. Mrs. Knutson and five children and Mrs. Ole Grove and two children were in the house at the time, miraculously escaping death, and as it was they were all more or less bruised. Trees in the path of the storm were twisted out by the roots.

AWARDED THE OFFICE.

St. Cloud, Minn., June 25.—Judge Searle, of the district court, has made an order requiring the county treasurer of Benton county to pay over five months' salary as superintendent of schools to O. F. Trace, who was defeated for the office last fall by Mary Brett. Trace contested her election and was defeated. He then secured affidavits showing that Miss Brett had been born in Ireland and was not eligible to the office. Miss Brett failed to appear and show cause, and the office was made vacant, thus seating Mr. Trace until his successor is elected and has qualified.

DISSOLUTION OF PARTNERSHIP.

Notice is hereby given that the firm and co-partnership of Culbertson & Allen, heretofore engaged in the hardware business at No. 122 Robert street in the City of Crookston, Polk county, Minnesota, has been this day in all things dissolved and terminated. Mr. J. R. Allen, of said firm, has agreed to assume and pay all the liabilities and debts contracted by the firm in the said business and he is to collect, receive and retain all the debts due the said firm.

Dated June 24th, 1901.

—C. J. Culbertson,
—J. R. Allen.

JOS. BEAUCHAMP

Found Guilty of Manslaughter as Charged in the Indictment

SENT TO THE REFORMATORY

For Attempt to Take His Wife's Life. Term of Service Indefinite

The term of court is fulfilling the prediction made that it would last until after the Fourth of July. The jury trials will have to be pushed with vigor, and some of them must be set over, in order to get away with the accumulation of business even in that time.

The criminal cases are on this week. The case against Joseph Beauchamp was called Monday and the time up to 2:30 consumed by the state in putting in its evidence. The defense then called its witnesses, the line pursued being the theory of accidental shooting. County Attorney Rowe was assisted by Attorney Finlayson, while J. H. Maybury and Donat Boyer represented Beauchamp.

The case went to the jury in the afternoon at 4 o'clock, and after two hours' deliberation a verdict was returned, the prisoner being found guilty as charged in the indictment. The jury however, accompanied the verdict with a recommendation of mercy, and a reformatory sentence was passed. This of course is not limited to any particular time, and is regulated as to length by the conduct of the prisoner, and the action of the board of charities and corrections. It is not, however, likely to be less than a five year term that Beauchamp will serve.

Interest centered in the testimony given for the prosecution by the defendant's wife, who was the victim of the shooting. Her evidence was given in a direct manner, and while not particularly strong against the accused, indicated that there might have been a motive for the shooting.

The facts in the case will be readily recalled by the readers of the Journal. Beauchamp came from Duluth and made an effort to persuade his wife to return and live with him. There had been no difficulty between them, and the separation was occasioned by the illness of the husband, who had spent the greater portion of the past year in a hospital. They discussed the matter during the two days that the husband remained here, and the woman said that as soon as he was able to support her she would return to him, but that he was not yet in a position to do so. The afternoon of the day on which he was to return to Duluth they started to walk over from the Fifth ward, where the woman was living with her sister, and as they were passing a box car Beauchamp either accidentally or otherwise fired a shot that penetrated the woman's back. Strange to say, she did not at the time realize that she was hurt, and they continued their stroll until the Carman bridge was reached, where he again produced the revolver, and in fear of her life, the woman wrested it from him and threw it into the river. She then came to a livery stable on this side of the river, secured a hack and was driven home. The husband disappeared, and as the police were not notified of the shooting until late in the evening, he got away, and was arrested in Duluth the following day.

FALL WAS FATAL

ADELBERT S. HAY INSTANTLY KILLED IN NEW HAVEN.

New Haven, Conn., June 25.—Adelbert S. Hay, son of Secretary of State Hay and former consul to Pretoria, was found dead on the sidewalk outside the New Haven house, at 2:30 Sunday morning. He had fallen three stories from a hotel window, and was killed instantly. He was visiting college friends at Yale at the time of his suddendeath.

Hay retired to his room at 1 o'clock after spending the evening with friends in apparently excellent spirits.

At 2:30 a passer-by noticed the body of a prostrate man lying on the sidewalk on the College street side of the hotel. The night clerk of the hotel was immediately summoned and recognized the young man as the one who had registered as Adelbert S. Hay. There was considerable excitement about the hotel and a large body of students and graduates who are here for the commencement exercises soon gathered. A number of Hay's former classmates at Yale positively identified the young man.

It is believed that Hay became ill and went to the window for air, was overcome by a fit of dizziness and fell to the ground below.

Adelbert S. Hay was appointed as consul to Pretoria in December, 1899. The appointment was made after Consul Macrum had left his post and started for the United States without permission from the state department. Young Hay was chosen as his successor because it was desired to have some one in South Africa who was in the personal confidence of the secretary of state. Mr. Hay remained in Pretoria until after the capture of the city by Lord Roberts and acted in behalf of British soldiers who had been captured by the Boers.

HOMING PIGEON RACE

HUNDRED AND FIFTY MILES IN FOUR HOURS.

The Twin City Homing club arranged for a race of pigeons from Worthington to Minneapolis, and the birds were released at the former place at 9:40 Sunday morning. The Minneapolis Tribune gives the following account of it:

"Fred C. May's homing pigeon "Milwaukee" was the plucky victor in yesterday's 150 mile race from Worthington to this city, given under the auspices of the Twin City Homing club. The bird arrived at its Minneapolis loft at 1:40 yesterday afternoon, having been released from Worthington at 9:40 in the morning.

"It was closely followed by J. H. Barton's 'Mark Hanna,' and the crack birds from the lofts of Oliver Brown and August Seiger, of St. Paul, were in their places shortly after.

It was apparent from the wet condition of the birds that they had passed through some rough weather, and the owners learned later that a fierce rain storm was encountered at Le Seuer. There were about 50 birds entered, and they were released by the American Express agent at Worthington, all at the same time.

There was very little difference in time made by the birds, and all the owners are satisfied with the showing their pigeons made. The time is considered very good for the condition of the weather.

CASS LAKE RIPPLES

FISHING WAS NEVER BETTER. CHANGE IN BOAT CO.

Cass Lake, June 25.—(Journal Special Correspondence.)—The fishing season was never better at Cass Lake than this year. All the breeding streams tributary to this beautiful inland ocean seem to have contributed their supply of fish large enough to be gamy, to the supply of the lake, and the catches made this year exceed those of any previous year since this became so popular as a summer resort.

The facilities for enjoying an outing here have been very much improved this year, and when Crookston people are seeking a place where they can take their friends on a pleasure trip, they can always count on being properly cared for at Cass Lake.

The Cass Lake Boat company, of which Conductor J. E. Nelson, the popular Great Northern employe, and James E. Cardie are now the proprietors, Geo. Lydeck having retired, have the most complete outfit of boats and fishing outfit on any of the lakes in the upper country, and anything from a row boat to a house boat is to be had. The company is improving its property and a new dock and boat house will be erected at once at a cost of $3,000.

The city is also improving and the council has ordered a special election to be held on July 16 for the purpose of voting on a proposition to issue negotiable certificates of the village in the sum of $10,000 to build a sewer system.

MINNESOTA TO THE FRONT.

A. P. Kirsch, who has spent ten days with the Minnesota editors at the Pan-American exposition, returned via Grand Forks Tuesday in time to take his run on the mail car on the Duluth line. He looked up from the mail bags long enough in passing through today to say that the people down east were made fully aware of the fact that Minnesota was continually on the map, and that wherever the delegation went the members were received cordially and well treated.

GOOD BALL AT M'INTOSH.

One of the best games which has been played in the eastern part of the county was pulled off in the village of McIntosh Sunday, the home team taking the game from Fosston by a score of 5 to 2. Up to the end of the eighth inning the score stood 2 to 1 in favor of Fosston. The batteries were Wall and Anderson, Fosston, and Bridger and Niolia, McIntosh. Wall struck out 17 men during the game. Bridger is credited with 8 strike-outs.

A BUSINESS CHANGE.

The firm of Culbertson & Allen, which succeeded Thompson & Busterud was Tuesday dissolved by mutual consent, Mr. Culbertson retiring on account of ill health. The business will be continued by Mr. J. R. Allen, who assumes all liabilities and will collect all debts due the firm.

MINNESOTA DAY

At the Buffalo Pan-American Exposition on Tuesday the 18th

WAS FITTINGLY OBSERVED

Buffalo Express Gives Extended Report---Extracts Given Below

From the Buffalo Express report of the Minnesota day exercises at the Pan-American exposition, we take the following extracts:

"In the presence of her governor and other statesmen, her editors, her soldiers and hundreds of other loyal citizens, including many women, the state of Minnesota yesterday proudly received her building at the exposition from the hands of her commissioners. All through the exercises in connection with the dedication of the handsome structure ran that fervent earnest spirit that has been a prime mover in the building up of the west. With such ardor and enthusiasm as was displayed there is little wonder that Minnesota has forged so far ahead of late years.

"The dedication exercises were held in the Temple of Music, beginning at noon. An hour before that the members of the Minnesota Editorial association and their wives and daughters, about 250 in all, and many other Minnesotans began to gather at the Minnesota building. Among the early arrivals who were escorted by the second battalion of the First Minnesota Regiment from the Lincoln Parkway gate were: Gov. S. R. Van Sant and his staff, Alexander McDougall, John Morton and H. P. Hall, the commissioner for Minnesota, were on hand to receive the visitors.

The meeting was formally called to order by Chairman Munro, editor of the Morris Sun, who delivered a short address and introduced Hon. W. L Buchanan, director general of the exposition. His address was followed by one from Alexander McDougall, president of the Minnesota state board of managers, after which Chairman Munro introduced Gov. Van Sant.

The governor received an ovation as he arose. The entire audience stood up, men and women waving American flags. The governor is thickset, with a pleasant countenance. He is an easy speaker."

Other addresses were delivered by Rowland B. Mahony of Buffalo, Mayor Ames of Minneapolis, Representative Stevens of St. Paul, Senator Moses E. Clapp, and by Dr. G. H. Bridgman, of the Hamline university.

In the evening the members of the Minnesota Editorial association gave a banquet at which the guests and hosts numbered about 350, and it is useless to say that Minnesota's claim to national recognition were not neglected.

WEEKLY CROP BULLETIN

ISSUED BY MINNESOTA SECTION OF THE GOV. SERVICE.

The Minnesota weekly crop bulletin, issued by the weather bureau, contains the following summary:

The temperatures during the week have not been unusually high or unusually low. Showers were general on the 20th and 21st, and there were scattered showers on other days as well; these coming so soon after the heavy rains of the night of the 15th have supplied an abundance of moisture. Many correspondents are fearful that continued rains will cause lodging of wheat, oats and barley on rich soils, and bring about conditions favorable for rust, but as yet there are no reports of injury from excessive rainfall, except that in western Polk county some wheat is drowned out and sloughs are so wet as to interfere with gathering wild hay. The late sown grains are generally luxuriant on rich soils, but in some places the early sown wheat is thin and spindling. Where wheat is thin the weeds are growing rapidly. Wheat, oats and barley are beginning to head as far north as Polk county. Potatoes are doing well, and a few are being marketed. Flax is growing rapidly and in Dakota county it is coming into flower. Corn is growing well, though still somewhat backward. Grass, clover and timothy are good in northern and western portions, but in the southeast the growth was shortened by dry weather early in the season. Some clover is being cut, but there has been no good haying weather during the week. Winter rye is beginning to turn color. Hail fell in different parts of the state, but no injury occurred except in the vicinity of Minneapolis, where market gardens suffered a damage of several thousands of dollars on the 17th. The crops on about 400 acres in Sherburne county were injured by hail on the 15th. A native grasshopper is causing injury to crops, mostly flax, in northern counties.

A VOLUNTARY RAISE

GIVEN EMPLOYES IN N. P. SHOPS AT BRAINERD.

This afternoon the hearts of 150 men employed in the motive department of the Northern Pacific in this city were made glad, each one receiving a notice from Master Mechanic Bean that their wages had been advanced voluntarily by the company.

The raise affects all the first class blacksmiths, machinests and boiler makers; some of them having their wages advanced from $2.90 to $3.00 per day, and others getting an advance from $2.95 to $3:00

There were also some few others who received the raise and of course there is a general good feeling prevailing. The fact that the raise comes wholly unexpected and voluntarily on the part of the company makes it the more appreciated by the men.

Each one of the men was given a letter, notifying them of the raise, and it will take effect from the first of the monh.—Brainerd Dispatch.

CHILDREN BURNED

AND MOTHER FATALLY INJURED NEAR ANOKA YESTERDAY.

Anoka, Minn., June 26.—Chas. Cleveland's residence at St. Francis burned last night and his two children, a boy of 4 and a girl of 2, perished. Mrs. Cleveland was horribly burned and may not live. The fire started from a gasoline stove.

TURNS IT OVER TO FARMERS.

Levi Steenerson came up from Climax this morning and invested in a few more quarter sections of land through the Purvis agency. Mr. Steenerson is one of the heaviest purchasers of the season among the individual buyers, and has placed nearly all that he has bought in the hands of actual settlers.

THEY ALL TALK THIS WAY.

Manager Snyder, of the Wiemer Land company, went north this morning with a bunch of buyers, and stopped with his foot on the car step to tell how the Journal advertising columns had sold the grass permits on 800 acres of land for the company this week.

DESTROYED 2,000 ACRES.

Dickinson, N. D., June 26.—Hail destroyed 2,000 acres of wheat around Richardton, 30 miles east of Dickinson Monday night. No insurance.

FOR THE FARMERS

Valuable Suggestions by the Corps of Institute Workers

DIVERSIFIED FARMING

Will Result in Great Improvements in the Conditions

Dr. C. D. Smead of Logan, N. Y., John Gould of Aurora, Ohio, and Albert Barbaree of Guelph, Ont., who are engaged in holding a series of farmers' institutes at different points in the Valley, made the Journal a pleasant call recently during a day of enforced idleness, being unable to reach their appointment at Badger on account of impassible roads.

Dr. Smead has the horse and sheep department of the institute work under his care, and is a specialist of eleven years experience in this line of work.

Mr. Gould is a practical dairyman and has charge of the dairy department of the institute work.

Mr. Barbaree is also a practical dairyman and gives his especial attention to instruction in creamery work and cheese making.

Institutes have already been held at Perley, Halstad, Climax, Fisher, East Grand Forks, Red Lake Falls, St. Hilaire, Hallock and Stephen. This is the first time that these gentlemen have ever visited this part of our state, and they express themselves as delighted with the prospects and conditions existing here.

They report a much better attendance at the institutes than they had expected, and a commendable degree of interest invariably manifested. The farmers seem to be seeking but little information in regard to wheat raising and few questions are asked along this line. But the deepest interest is evidenced in the question of changing from exclusive wheat to diversified agriculture.

To those who settled upon our broad prairies, and were captivated by fascination of what appeared to be an unqualified promise of large crops, high quality and remunerative prices, with the expenditure of only a slight amount of labor, and were lured into investing all their capital and energy in that direction by this glittering prospect, the experience of the past few years has been a series of disappointments, and slowly but surely the truth has forced itself upon them that they have been deluded by a false hope and must change their method of farming if they would accomplish the highest success. These men are now seeking information on how to accomplish the change, and constitute the majority who are in attendance at the various institutes.

One detrimental condition which has attracted the notice of these gentlemen, but which is being now rapidly remedied, is the many large tracts of land which have been held under the control or management of one person or company.

The importance of the creamery industry to the farmers of the Valley is a matter upon which these gentlemen place great stress. With a properly constructed and properly equipped plant, one man and a boy can take care of and manufacture the product of 2,000 cows. The establishment of such plants all over the Valley at frequent locations as the circumstances justify will so far encourage and stimulate stock raising as to result in retaining here and returning to the cultivated acres the rich fertilizing elements contained in the feed which would thus be consumed here, but which is now being shipped east and becomes a rapid contributor to the rapidly accumulating wealth of the dairy farmers there. In former years the farmers in New York and other eastern states pursued the same system of farming as has been prevalent here. But they were forced to a change of method, and though wheat raising was no longer the paramount issue, they found under a better system of managing the land a less area produced a larger yield, so that they still raise as much grain there as before, their wheat crops now invariably yielding 25 to 40 bushels per acre. But if the farmers of the west adopt the wise methods of the eastern farmers, it will compel the latter to look in other directions for the feed and the resultant fertilizer with which the west has been supplying them.

The importance of the sheep industry also occupies a conspicuous position in the thought of these practical gentlemen.

Through their agency the wild mustard pest and many other noxious weeds may be entirely eradicated, while at the same time the land is receiving valuable contributions of fertilizers and the sheep are individually taking on a steadily increasing value.

The horse industry is also of great importance in the estimation of Dr. Smead. The low prices prevailing in the United States in the past few years has attracted the attention of many foreign countries to America as a source of supply, and the exportation of horses is steadily increasing.

In regard to the question of breeds, he expressed the opinion that as a rule the farmers are already supplied with a good foundation stock, but that they should invariably adopt an ideal along the line of the carriage, coach or draft horse, and judiciously breed toward that ideal, always using a thoroughbred sire of individual excellence, and keeping in view with a steady persistency the chosen ideal. In either of the three lines named, judicious perserverance will insure success But he is less interested in breeding for the track, and thinks that is a special line by itself which he does not warmly recommend to the ordinary farmer.

Corn culture also must go hand in hand with stock raising in the opinion of these institute workers, and the study and experiment in regard to varieties and methods of cultivation should engage the attention of our farmers.

A FISH FARMFR

IS RAISING TWO ACRES OF BLACK BASS.

Farmer Josiah Massey is conducting an experiment in fish culture on his farm near Chestertown, says the Baltimore Sun. He calls himself a "fish farmer," and his "fish farm" covers about two acres of clear water. It is alive during these warm spring days with black bass, ranging in size from tiny "fry" to great gamy fellows 12 to 18 inches long. Farmer Massey received 100 small fish last December, one year ago, and from this stock comes his present supply of fine table fish. He dammed a small stream, and in that way has secured his lake of pure, sweet water. The fish are kept from passing out with the flowing water by a large tubular boiler placed on the dam, through which the water flows out. The larger fish cannot pass through, and the enthusiastic fish farmer says that so far as he can see the smaller ones make no effort to follow the current. The fish are fed like turkeys or chickens, on old fashioned Eastern Shore corn pone. They devour the crumbled corn bread ravenously, and swarm to the spot where the feeding is done. Recently Mr. Massey picked the feathers from a large rooster, which had been injured and was unfit for table use, but as an experiment he threw it into the fish pond. The fish attacked the carcass and speedily picked the bones clean.

AMERICAN MACHINERY

MORE POPULAR IN GERMANY THAN ANY OTHER.

Gustav Fisher, special commissioner for the German government, appointed to make a study of agricultural machinery and American agricultural methods, is at the Nicollet, says the Minneapolis Journal. Mr. Fisher is accompanied by Carl Rabe and Oscar Horich, both prominent business men of Berlin.

"American machinery is more popular in Germany than any other," said Mr. Fisher. "Until the advent of the American machines we were buying principally of England, but the Americans produce machines superior to those of England. Germany will undoubtedly increase its manufacture of farm machinery and we are anxious to learn all we can of American makes, but as we have not the wonderful home market that you have here our production will be limited. Your farming here is done on a grand scale. I intend to spend several weeks during harvest in Minnesota, North and South Dakota."

MADE SUPERINTENDENT

ARTHUR BUCKINGHAM TO OVERSEE LINE OF ELEVATORS.

A. A. Buckingham, who during the past two years has been the travelling representative in this portion of Minnesota and the Dakotas of the Ames-Brooks commission house of Duluth, has been offered a position as superintendent of the National Elevator company's houses on the Milwaukee road in South Dakota, and has accepted the place.

Mr. Buckingham's territory will include the lines between Fargo, Ortonville and Aberdeen, and twenty-seven elevator managers will be under his supervision. The head of the concern is G. W. VanDuesen, who is known over the northwest as one of the leading men in handling the wheat product of the country.

The fact that Mr. Buckingham has been selected to manage the business of a large portion of the line of elevators, is a compliment to him, and his friends are pleased with his preferment. He will assume the duties of his new position July 1st, and will make his headquarters at Ortonville.

SMALLPOX SQUELCHED

THE LAST CASE OF THE PEST IS DISMISSED.

For the first time in months the city is entirely free from smallpox. The last case was disinfected and allowed to again mingle freely with other men. The siege has been a long one, and nearly all of the cases have been contracted at other points and brought to Crookston by people coming from other places. The board of health has handled the cases in a manner that reflects great credit upon that body, and the precautions taken have been such as to prevent the wider spread of the disease. The cases have been treated so that not a single death has resulted, and congratulations are due both the board and the citizens over the happy outcome of the unfortunate visitation.

CONE TO ILLINOIS

George Townsend Wanted at Bagley on Serious Charge

LEFT ALLEGED WIFE TO DIE

For Want of Care---Hid Body of Daughter's Infant in Brush Pile

Bagley Independent: On complaint of Edward Gallagher on June 19, Mrs. Lavonia Doran, alias Miss Lavonia Lowell, was arrested for manslaughter, for culpable negligence in providing for and nursng her mother while confined in child birth, her mother having on the 14th of May, 1901, languished and died, by cause of such culpable negligence, and upon examination of the case before Judge Brown it was found that the defendant had been confined prior to her mother, and had given premature birth to a child and the fault of the death of Mrs. Townsend (mother of the defendant) was not caused by willful negligence of the defendant, but was from the negligence of the alleged husband of Mrs. Townsend, for whom a warrant is out. The defendant was discharged and the case dismissed. The skeleton of the prematurely born infant also having been thrown in the brush by George Townsend, instead of having been given decent burial, was found by Peter Gossline, which demanded an investigation by Deputy Coroner Dr. C. G. Forrest, revealing the above facts. Miss Lowell having received tickets from her aunt in Chicago, for herself and two smaller sisters, they were permitted by Justice Brown to leave the state and will take the train next Sunday, thus relieving Beltrami county from further expense in prosecuting and supporting the homeless. The little baby of Mrs. Townsead, deceased, has been adopted by John O. Johnson and wife, living near Bagley, thus providing homes for all. George Townsend evaded the sheriff and when last heard of was in Illinois.

CROOKSTON A WINNER

QUEEN CITY WINS FIRST PLACE AT BEMIDJI.

Crookston took everything in sight at the firemen's tournament at Bemidji Friday. The hoodoo which has been with the boys since their arrival in the pine country took a day off and the boys made the most of their opportunity, taking first place in the three events.

The first of today's races was the service wet test. Crookston took first place with a record of 34 2-5. Bemidji captured second, while Park Rapids got third money.

The hub and hub race, with prizes of $75, $35 and $25, was won by Crookston in 26 seconds flat, Bemidji and Park Rapids getting second and third places respectively.

In the big 100 yard free for all race, Maybury won first place and the $75 purse. Bailey of Bemidji was second. Time, 10 4-5.

HORSE COULDN'T DODGE

QUICK ENOUGH TO GET OUT OF LIGHTNING'S WAY.

During a lull in the storm Friday Gus Gunderson, a well known farmer living in Fanny, decided to lead his horses to water. He towed four of them to the trough, and one got frisky and slipped his halter. The thunder storm burst just at this time and Mr. Gunderson started for the barn with the three other horses. By the time he had tied them up the rain was coming down in torrents and he stopped in the door and mentally resolved that he wouldn't go after the horse then if she floated off.

Just then there was a blinding flash of lightning and the horse fell dead, struck by lightning before his eyes.

The horse was a beautiful grey mare worth $150, and with the exception of a slight scratch on the shoulder, there was not a mark to show the cause of death.

HE LOST AN ARM

EMPLOYE AT BLAOKDUOK SAW MILL IS UNFORTUNATE.

E. Peterson, an employe of the Nelson Bros.' saw mill at Blackduck, had his left arm cut off on the big circular saw at the mill on Thursday. He was down in the pit arranging a belt, when in some manner he stumbled onto the large and rapidly revolving saw. His arm was entirely severed above the elbow, and was hanging in shreds of the clothing when the unfortunate man emerged from the pit and called attention to the accident.

VALUABLE PEARL.

LaCrosse, Wis., June 24.—The largest perfect pearl ever taken out of the Mississippi river was found Saturday by John Umberger and B. D. Stone, two clam fishers residing near the riverside, a few miles below here. The pearl weighs 110 grains and is valued at $5,000.

ORIGINAL INVENTOR

OF THE GOLD BRICK SWINDLE DIED A PAUPER.

The man who devised the gold brick swindle has just died in poverty in an eastern town. He was buried in the potter's field enclosure at public expense and his works have followed him.

Mr. Triplet at the time of his invention was a real estate agent in Chicago and was said to be doing well. He was public spirited and people liked him, but he wanted to get wealthy a little quicker. The idea of getting something for nothing kept a corner in Mr. Triplets mind until one day, in a moment of inspiration, it struck on the gold brick device. He turned out so many of the little counterfeits that he is said to have accumulated a fortune. He sold them to "the trade," who in turn disposed of them to rural bankers and wealthy farmers and merchants who thought they were getting something for nothing too. Many people who did not live in the country snapped them up at good, stiff prices, being willing to take advantage of the other fellow's misfortunes, as they thought. So that many men who were willing to "do" their neighbors found an evil fate waiting on their own steps in the innocent shape of the little brick that glittered but was not gold.

Although Mr. Triplett made so much money he was himself an "easy mark" in other respects and his money flowed out between his fingers like quicksilver. Whatsoever he did, did not prosper and he has now gone hence in a record that would be offensive in a Philadelphia alderman.—Minneapolis Journal.

COUNTRY BUTTER MARKET.

There is an unusual scarcity of butter in many northwestern towns, says the Minneapolis Journal. Country merchants visiting Minneapolis say the shipments of cream to this city to be made into creamery butter is responsible for it. The idea of establishing cream stations for the purchase of cream from the farmers and of shipping it to a central point for manufacture is a new one and is working well The farmer takes it because he realizes a greater profit on cream sold in that manner than on his home made butter. As a result, in place of an over supply of butter, many towns can now secure hardly enough of the home made article to supply the home demand.

It is in June that the country merchant usually begins to growl about the avalanche of butter, good, bad and indifferent, that is brought to his counter. He takes it all, not daring to discriminate between good and bad. The price goes down, down until the farmer's wife imagines that the storekeeper is trying to beat her, and the storekeeper endeavors to find a market for the product of the churn that will enable him "to get out whole." He generally packs it in barrels and jobs it off at a low price as "packing stock." When it makes its reappearance it is labeled good creamery.

With the farmer shipping his cream to Minneapolis all this is changed. Instead of the dealer having more butter than he knows how to dispose of, he is experiencing a butter famine, something that he did not dream of a year ago. In some towns near Minneapolis the housewife has a difficult task in getting enough butter for the table.

BROMUS INERMIS.

Ed Roberts, who resides in the town of Fairfax, brought into our office today a sample of bromus inermis which measures three feet and eight inches. He estimates that the plat from which it was taken will yield three tons to the acre, and that he will be able to cut a second crop of equal weight. This grass, which is usually called Brome grass, frequently grows to a height of five feet, has a fine soft stem and a profusion of fine leaves. Judging by the claims that are made for this grass, it must become exceedingly popular with stock raisers. It is a perennial, has great drouth resisting qualities and yields two crops each year. Mr. Roberts intends to sow another patch of it about the first of July, and expects to reap a good crop from this sowing in the fall.

IT DIDN'T GO.

A young man in Belfast, Me., shot at a flock of wild geese and killed one. When he got it home, he found that it was a tame goose that belonged to a neighbor, but was going away with the wild flock.

A GOOD NIGHT'S SLEEP
would be worth five dollars. How many people we hear say this. Lincoln's Hop and Celery Nerve Tablets have been prepared for just such people as suffer with Nervousness, Sleeplessness, Irritable Feeling and Nervous Dyspepsia. SUPREME COURT

Affirms Judge Watts in the Adams and Cunningham Cases

VERSUS THIEF RIVHR FALLS

Says Verdicts of $3,500 and $2,000 Respectively Must Stand

The supreme court today passed upon a case that is of considerable importance to Thief River Falls, carrying as it does the decision that the taxpayers of that city must be levied upon to pay the sum of $6,000 to satisfy a claim for personal injuries sustained by two of its citizens.

Attorneys Steenerson and Loring today received a message from the clerk of the supreme court at St. Paul notifying them that that body had handed down a decision in the celebrated cases of Adams and Cunningham vs. the city of Thief River Falls, and that it affirmed the lower court, being favorable to the plaintiffs.

The case was tried at the winter term of court in Red Lake county. The plaintiffs, with their husbands, were driving, and at a point near the Great Northern tracks they met with an accident, due, they claimed, to the negligence of the city and railway company, in which they were thrown from their carriage and sustained severe injuries to their persoa.

The action was brought by Mrs. Adams and Mrs. Cunningham against the city and railway company jointly, but the case against the latter was dismissed as to Mrs. Adams. The jury returned a verdict of $5,000 for Mrs. Adams and $4,000 for Mrs. Cunningham. Judge Watts ruled that the amounts were excessive and reduced them to $3,500 and $2,500 respectively. The defendants appealed and the result is as stated, the lower court being affirmed.

The husbands of the plaintiffs have begun cases similar to those just decided, that will likely come up for trial at the next term of court in Red Lake county, unless a compromise is effected. The attorneys in the case were Steenerson & Loring for the plaintiffs, Messrs. Richardson and Matble of Thief River representing the defendant city.

CONG. CONFERENCE

HELD AT ADA LAST WEEK WAS EXCEPTIONALLY HELPFUL.

The annual meeting of the Northern Pacific conference of Congregational churches which was held at Ada Tuesday and Wednesday of last week is reported by those who attended as being exceptionally helpful. It was held in the fine new Congregational church at that place, which was beautifully decorated for the occasion. Among the special features in connection with the meeting was a reception which was held at the elegant home of C. R. Andrews, which was highly enjoyed by those present.

The sermon Tuesday by Rev. R. P. Herrick of Minneapolis, and the address by Rev. J. H. Morley, president of the Fargo college, on Wednesday evening, are especially mentioned as being of unusual interest. The weather during the two days was perfect, and the attendance large. Last evening at the Congregational church the delegates who attended from this city, Rev. H. P. Fisher, Mr. and Mrs. A. A. Miller, and Misses Ida Stone Bessie Clements and Minota Basset, occupied the hour of evening service in making very interesting reports of the meeting.

Wadeno was chosen as the meeting place for the conference next year.

A BAN ON WOMEN'S HATS

PRONOUNCED BY METHODIST CHURCH IN OMAHA.

Omaha, Neb., June 24.—The First Methodist church has put a ban on women's hats, and the official board of that church, at a meeting Friday, passed the following resolution:

"Whereas, the wearing of hats in church by the ladies greatly obstructs the view, causing both inconvenience and annoyance, thereby detracting from the enjoyment of the services, to which all are equally entitled, therefore, be it

"Resolved, that it is the desire of the trustees of this church that at all the public services the ladies remove their hats after entering the pews."

GRAND FORKS JURY

DECIDED FOR DEFENDANT IN A CASE INVOLVING $15,000.

The case of John Shoe vs. John Bannon resulted in a signal victory for the defense at Grand Forks Saturday afternoon after one of the hardest legal battles that has ever been fought in that city. Every inch of the ground was contested.

The plaintiffs in the case sued for $15,000 damages as the result of the loss of a leg by the son of the plaintiff in an accident at the defendant's oil mill last December, and not a stone was left unturned to make as strong a showing as possible. The defense was strong. It asked for a special verdict, fifteen questions being propounded to the jury and all of them were answered in favor of the plaintiff. The victory was decisive and great interest was manifested in the verdict, as the case had been watched from the start very closely by the general public.

In connection with the damage case it should be stated that before the case came up Mr. Bannon offered to educate the boy at his own expense and guarantee him a position when he was fit for it, or settle the matter at once by depositing $500 to the credit of the boy in the bank, and in either case would furnish the unfortunate boy with an artificial limb.

A BIG EXCURSION

BEMIDJI ENTERTAINS ST. CLOUD AND SAUK CENTRE PEOPLE.

The week's festivities at Bemidji were brought to a close Sunday with a line of entertainment given a crowd of upwards of a thousand excursionists who came from St. Cloud and points in the central portion of the state. The crowd filled two trains that were run special, and the day was spent under direction of the committee on enjoyment, that sees to it that no time is wasted by those who go there for an outing.

One of the relishes in the feast of good things offered, was a game of base ball for a purse of $100 that was won by Bemidji, the score being 8 to 2 in favor of the home team. The Bemidji players were strengthened by Locken and Erickson of the Crookston team, and the battery was Ball and McNeil of Grand Forks. The game would likely have resulted in a shutout for St. Cloud but for one error by the short-stop, and the fact that Ball opened the game by hitting four batters in the first inning, which forced a man home.

HIGH CLASS TRAP WORK

BEMIDJI GUN CLUB SCORES AMONG TOP-NOTCH FIGURES.

The Bemidji shooting tournament attracted as much interest as any other feature of the celebration there last week, and some high scores were the order of the meet. Dr. Allen, who shot in every event during the three days made a record of 94 per cent, winning high average. W. E. Rowe of this city got into the game two days, and his record for the events in which he shot was 95 per cent. Had he shot through the tournament there is little doubt that he would have won high average.

J. E. Morrisey managed to extract a day's sport from the tournament and did some equally high class work. He broke into one squad of five, in which 120 out of 125 birds were broken.

THE SUPREME COURT

LANDS MAY BE REDEEMED ON PAYMENT OF SALE PRICE.

In a decision rendered by the supreme court Friday, the court holds that under the forfeited tax law owners of property which has been sold for taxes can redeem it upon payment of the sum for which it was sold and are not compelled to pay the full amount of delinquent taxes. The case came up from Ramsey county and one taxpayer will save $8,000. The syllabus is as follows:

State ex rel. Sylvester Kipp and Orrin Kipp, respondents, vs. Wm. R. Johnson, county auditor of Ramsey county, appellant:

The amount required to redeem from tax sales, pursuant to chapter 332, general laws 1899, is the sum paid at the sale by the purchasers, with interest, and not necessarily the full amount of the taxes, with interest and costs. Judgment affirmed. —Lewis J.

A GOOD THING.

German Syrup is the special prescription of Dr. A. Boschee, a celebrated German Physician, and is acknowledged to be one of the most fortunate discoveries in Medicine. It quickly cures Coughs, Colds and all Lung troubles of the severest nature, removing, as it does, the cause of the affection and leaving the parts in a strong and healthy condition. It is not an experimental medicine, but has stood the test of years giving satisfaction in every case, which its rapidly increasing sale every season confirms. Two million bottles sold annually. Boschee's German Syrup was introduced in the United States in 1868, and is now sold in every town and village in the civilized world. Three doses will relieve any ordinary cough. Price 75 cents. Get Green's Prize Almanac. F. H. Hillard & Son. 2

FORFEITED TAX SALE.

The forfeited tax sale to be held pursuant to the law recently enacted, occupied the attention of the county auditor Monday forenoon. The property offered was almost all on Sampson's addition, and consisted of 125 descriptions that were sold, with the exception of five. The bidding was not very spirited, and the average realized did not exceed 50 per cent of the tax with added interest and penalty.

THE FELLOW WHO FELL.

Bemidji Pioneer: Johnny Oliver of Bemidji, best ladder climber of the local fire department, met with a severe accident during the tournament at Crookston by falling from a thirty foot ladder, which resulted, as he says: "I broke three wrists and sprained four ankles, but it's all in the game." He is comfortably housed at St. Anthony's hospital, where he is sure to be patched up in the most approved manner in the shortest possible time.

LINSEED OIL MILL

Is One of the Possibilities That Crookston May Secure This Year

THE BANNON OIL COMPANY

Will Consider the Project of Locating Here if Properly Induced

Crookston may secure a new industry if she will bid high enough for it.

It is the mills of the North Dakota Linseed Oil company, of which John Bannon of Grand Forks is proprietor.

The company has operated in Grand Forks during the past year, and was recently burned out. Before re-locating the plant it has been considered advisable to look about and see if the company cannot improve on its business headquarters.

Mr. Blichfeldt, who represents Mr. Bannon, was in the city Monday feeling the pulse of the business men relative to the project of establishing the plant here, and it is probable that a special meeting of the council will be called to consider the matter.

The structures contemplated to make the plant successful would necessitate the erection of a main building of brick and steel, two stories in height, 65 by 105 feet, an iron storage room 50 by 50, two and one half stories high, for the steel grain tanks that are now used instead of the elevator system.

The works will employ twenty men night and day during eleven months of the year, beside the office force, and as an example of the benefit derived from the plant, it is asserted that during the past year the company purchased between 80,000 and 90,000 bushels of damaged flax at a price between $1.00 and $1.25 per bushel, that would have been unmarketable under other circumstances.

East Grand Forks has offered the proprietor free water, light and exemption from taxes during ten years if he will locate the plant in that city.

A. DeLACY WOOD

FATHER OF 30 NEWSPAPERS TAKEN TO THE INSANE ASYLUM.

St. Cloud, June 24.—A. De Lacey Wood, who has the reputation of having started more newspapers in Minnesota than any other three men, was taken to Foley the county seat of Benton county Friday afternoon by the sheriff and examined before the judge of probate for insanity. Complaint was made by his mother, who for many years did everything in her power to save her son from intemperance. He was found insane by Judge Bartholomew and committed to Fergus Falls asylum. The sympathy of the community has been with the aged mother for several years past.

A TERRIBLE EXPLOSION

"of a gasoline stove burned a lady here frightfully," writes N. E. Palmer of Kirkman, Ia. "The best doctors couldn't heal the running sore that followed, but Bucklen's Arnica Salve entirely cured her." Infallible for cuts, corns, sores, boils, bruises, skin diseases and Piles. 25c at A. G. Anderson's.

NOVEL USES FOR PEAT WOOD.

Peat wood is adapted perfectly as a material for street paving, being absolutely free from dust, noiseless and exceedingly durable. Natural wood blocks on the other hand do not resist atmospheric influences sufficiently and soon warp. Peat wood is suited also excellently for railroad sleepers. Screws, rivets and nails become fastened therein as firmly as in the best oak.

SEVEN YEARS IN BED.

"Will wonders ever cease?" inquire the friends of Mrs. L. Pease, of Lawrence, Kan. They knew she had been unable to leave her bed in seven years on account of kidney and liver trouble, nervous prostration and general debility; but, "three bottles of Electric Bitters enabled me to walk," she writes, "and in three months I felt like a new person." Women suffering from headache, backache, nervousness, sleeplessness, melancholy, fainting and dizzy spells will find it a priceless blessing. Try it. Satisfaction is guaranteed by A. G. Anderson. Only 50c.

NEW KIND OF A GRAFT.

The Evening World (New York), tells the following:

Fourteen year old Joseph Cambardiel of 187th street and Arthur avenue, born with a deficient eyelid, which prevented him from winking or entirely closing his eye, has had the defect supplied by art. He went to Fordham hospital, where Dr. Higgins cut a piece of skin about an inch square from his left cheek, which he applied to the lad's eyelid. The surgeon in cutting the skin allowed one end of it to remain intact on the cheek to continue the nourishment of the rest of the fragment, which he swung around so as to form an eyelid.

PIE TIMBER PLENTY

AN ENORMOUS BLUEBERRY CROP IS NOW ASSURED OUT EAST.

In almost every locality of the pine woods the blueberry crop will be the largest known for years. When the last frost visited us on May 24, the young berries were as large as bird shot and were not injured, and the copious rains during the last week have brought forward the berries, almost to full size and in a few days we will enjoy the most luscious of all summer fruit. A large berry crop means much to the laboring classes in this region, and thousands of bushels will be gathered during the next two months, to tickle the palates of the denizens of the cities and to enrich the pickers who will be numbered by the thousands.—Cass Lake Voice.

SAVES TWO FROM DEATH.

"Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes Mrs. W. K. Haviland, of Armonk, N. Y., "but, when all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece, who had consumption in an advanced stage, also used this wonderful medicine and today she is perfectly well." Desperate throat and lung diseases yield to Dr. King's New Discovery as to no other medicine on earth. Infallible for coughs and colds. 50c and $1 bottles guaranteed by A. G. Anderson. Trial bottles free.

A PLEASANT TRIP.

A family party consisting of George Q. Erskine and wife and S. W. Vance and wife left over the Northern Pacific last night for the east. They will be joined in Chicago by Mr. and Mrs. Coddington, the latter being a daughter of the Erskines, and together they will go to Buffalo and do the Pan-American exposition. Mr. Vance will remain but two weeks, but the remainder of the party will spend two months visiting in New York state at various points of interest.

Miss Helen Montague has closed her work in the school that she has conducted so successfully during the spring, and returned from East Grand Forks on Saturday.

Entered at the postoffice at Crookston, Minnesota, as second-class matter.

PROF. LUGGER'S SUCCESSOR.

The death of Prof. Lugger, by which a vacancy in the entomological department of the state agricultural college was made, has attracted the attention of scientists throughout the United States, and fifteen applications for appointment to fill the vacancy have been received by Dean Liggett of the college, who, with President Northrop and Gov. Van Sant comprise the committee of the board of regents to whom has been delegated the work of recommending a successor. Dean Liggett is now busily at work tabulating these applications, with the accompanying recommendations, and as the latter number some five hundred, the task is no small one. Dean Liggett will have these applications ready for the consideration of his committee when President Northrop returns from the east about the middle of July.

The new entomologist will doubtless be named before Sept. 1, in order that he may take up his work at the beginning of the college year.

At present the work of the department of entomology is in charge of Prof. E. B. Forbes.Mr. Forbes is a young man of much promise, and is the son of Dr. J. C. Forbes, Illinois' great entomologist. Four years ago he came to Minneapolis and worked for a year as assistant by Prof. Lugger, in which capacity he served the state college for a year. He is familiar with all the work of the department and was especially fitted to take charge where Dr. Lugger left off. At present he is engaged in battling the grasshoppers in northern Minnesota, a work that had for years been conducted under the direction of Dr. Lugger.

MINNESOTA AT THE EXPO.

The dedication of the Minnesota building at the Pan-American exposition occurred Tuesday and the occasion called forth the following editorial utterance from the Buffalo Express:

"When St. Paul and Minneapolis hold a big fair, we speak in advance for special Buffalo day. Nothing else will enable Buffalonians to show their appreciation for the hearty, enthusiastic interest which Minnesota has shown in our fair. The dedication of the Minnesota building yesterday was made an occasion worthy of one of the greatest and most progressive states in the union. It gave evidence of the importance which Minnesota attaches to expositions, and will arouse an interest in Minnesota's exhibits of her industries and resources which will be of lasting benefit. Buffalo thanks Minnesota. We hope the Minnesota visitors are enjoying their trip to the fair as much as Buffalonians enjoy entertaining them."

In the report of the exercises given in the same paper, Commissioner H. P. Hall's address is mentioned in this way:

"A slender old man of medium height advanced to the front of the stage. The lower part of his face was hid with a grayish yellow beard. There was not the slightest suspicion of a smile on his face. In fact, his countenance was set in stern lines and remained so throughout his speech. But he was the wittiest talker of all and kept the audience in a continual uproar of laughter."

Referring to the wheat producing capacity of Minnesota, in the course of his remarks he said:

"When I first began newspaper work in Minnesota, the city of Rochester was styled the Flour City, the spelling indicating the product of wheat. That sceptre long since passed to Minneapolis. Minneapolis is now not only the milling center of this country, but of the world. The capacity of her mills is equal to over 27,000,000 barrels of flour a year, which if placed end to end would extend half way around the world and biennially she could complete Puck's famous girdle of the earth. Her mills have sufficient capacity to produce the flour to make 20,000,000 loaves of bread a day, more than enough to give a loaf of daily bread to every man, woman and child in New York, Pennsylvania and New England. You cannot repeat the Lord's Prayer without giving a top-column, next reading matter advertisement for Minnesota. (Laughter.) Rochester is still styled the "Flour City," but the spelling indicates the botanical plant." (Laughter.)

ANENT JUDGE HAGEN.

The McIntosh Times relates the following:

"Targer Nystue was picked up here yesterday in what was supposed to be a demented condition, but, owing to the refusal of the judge of probate to talk with the village authorities over the 'phone in regard to the matter, he was turned loose and, later, again taken in charge by the township authorities."

And, in an editorial, the same paper touches up the self centered and self patronizing judge who denounces everything that does not pay tribute to Hagen, thusly:

"Judging from the recent production in "Fram," we are compelled to assume that Judge Hagen, who is supposed to engineer the Crookston end of that otherwise respectable sheet, is trying to out-Knappen Knappen as the prince of falsifiers. Knappen poises as editor and proprietor of the "People's Press," an obscure Crookston paper that does the dirty work for the dirtiest gang of falsifiers, dead-beats and hypocrites that ever infested the country, and we are surprised to see even Hagen attempt to out-class him in his own class. It seems, however, from the way they are lying about their betters, that both of them are now straining every nerve to beat the world's record for malicious misrepresentation and downright falsification.

N. D. INSURANCE ITEMS.

North Dakota, where insurance rates are already up pretty near the limit, is threatened with another raise. Insurance operations for several years have been unprofitable there and the companies are beginning to feel that their continued losses can not be due to mere chance. Most of the companies operating there have already sustained losses in excess of what their premium receipts this year will be. The losses this year have been greater than any previous year with the exception of the year of the Fargo conflagration. If this occurred after a number of prosperous years it would cause the insurance companies no concern, but coming on the heels of several years when the companies have operated in that state at an actual loss they feel that it is about time to begin to play even. North Dakota's ratio of loss to premiums for 12 years is 78 per cent. For 16 years Minnesota has a ratio of 58 per cent. For a period of 11 years South Dakota has a ratio of 51 per cent. The insurance companies claim that a loss ratio of 60 per cent means very little profit for the companies after paying the running expenses, including agent's commission, state taxes, inspecting risks and adjusting losses. There are many opinions as to this big percentage of loss in North Dakota. Climatic condition and lack of efficient fire protection have something to do with it. It is probable that carelessness in the construction of buildings incident to a new country and in allowing rubbish to accumulate around the towns is one of the reasons.

Fergus Journal: The supreme court has rendered another decision relative to the forfeited tax sale law of 1899. The court some time ago held that the titles secured under this law were not absolute and now goes further and decides that the original owner of the land sold can step in and redeem for the amount paid by the purchaser at the sale, which was in most cases 50 per cent of the amount of the taxes, penalties and interest assessed against the land. While this will enable the original owners to clear up the titles to their lands on very favorable terms, the good effects of the sale in forcing a lot of back taxes last year can not be undone. The $30,000 paid into Otter Tail county's treasury by Russel Sage alone has been the means of freeing a great many struggling districts from debt and building new school houses in others more favorably situated.

There has been a remarkable transformation scene in the western part of North Dakota in the past two weeks. The great cattle ranges that three weeks ago were brown and sere with stunted grass are now waving with green grass eight to ten inches high, and the winter's hay crop is assured. In addition to this there is ample range food for all cattle, and beef will be shipped to market in prime condition this season. The ranchmen and stock owners were in a more dangerous situation from the drouth than the farmers in the central and eastern part of the state, as with a continuance of the drouth their entire sustenance was gone and there would have been forced sales of stock at a sacrifice.

A circular has been sent out by the treasury department relating to the redemption of documentary and proprietary stamps. Unused documentary and proprietary stamps, issued under the provisions of the "War Revenue Act," approved June 13, 1898, for which the owners have no use, may be redeemed, but in all cases there will be deducted the percentage, if any, allowed the purchaser. Application for the redemption of such stamps should be made to the collector of internal revenue from whom the same were purchased, who will supply the applicant with form 38 and necessary instructions relative to the preparation of his claim.

The total export trade of the United States for the year ending June 30, 1901, will be in the neighborhood of $1,500,000,000, or about $100,000,000 more than in 1900. What this enormous trade means can best be shown by comparison. In 1870 the total of our exports were $302,000,000. They reached the $1,000,000,000 mark in the last year of President Harrison's administration. They were reduced to $800,000,000 in the last year of Grover Cleveland's administration. Since 1896 they have nearly doubled.

St. Cloud has a mayor who is determined to enforce the saloon laws as he finds them without fear or favor. He has just revoked the license of the Grand Central hotel bar because the proprietor kept open until 2:30 a. m. against the law. The saloon was one of the swellest of the town and the proprietor one of the most prominent business men, but that made no difference to the mayor. Probably the other saloonists of that town will have business at home hereafter when 11 o'clock comes.

Mr. Carnegie offered to give Fargo $20,000 for a public library if the city would provide a site and guarantee maintenance. An effort is now being made to persuade the N. P. railroad company to donate the site. And the Grand Forks Herald thinks if some kind hearted person will only put up enough to run the thing the good people of Fargo will doubtless be glad to go in and read the books.

They've organized a Christian Endeavor society at Bemidji. You wouldn't think it, would you? The Crookston firemen didn't think it was Christian, the kind of endeavor they went against.

Those bouquets that are being tossed back and forth between Cass Lake and Bemidji papers are much prettier and sweeter smelling than the editors were throwing at each other a while ago. Then, both towns were "dead tough," now, fraternal good fellowship is the idea, and it is the correct idea.

APPLICATION FOR LICENSE TO SELL INTOXICATING LIQUORS.

To the village council of the village of Climax, in the county of Polk and state of Minnesota:

The undersigned Evenson Bros., hereby make application for a license to be granted them to sell intoxicating liquors for a period of one year from the 9th day of July, 1901. The place where the said business is to be carried on is designated as follows:

Lot (8) eight, block (3) three, in one story frame building in the village of Climax, Polk county, Minn.

Said applicants pray that such license be granted to them pursuant to the ordinance of said village of Climax, and the statutes of said state of Minnesota, in such case made and provided.

Dated at Climax, Minn., June 20th, 1901. —Evenson Bros. 12-14

NOTICE FOR PUBLICATION.

DEPARTMENT OF THE INTERIOR, Land Office at Crookston, Minn, May 13, 1901.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the Register and Receiver of the U. S. Land Office at Crookston, Minn., on July 5th, 1901, viz:

Ole P. Sessaas, H. E. 15979, for the E½ SW¼ and lots 6 and 7, Sec. 6, Tp. 147 N., R. 45 W.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz:

Louis B. Haftorson, of Fertile, Minn.
Ole N. Tarvestad, of Fertile, Minn.
Hans M. Holmvek, of Beltrami, Minn.
Ole B. Bolstad, of Fertile, Minn.

—Sylvester Peterson, Register.

7-12

UNITED STATES LAND OFFICE,

Crookston, Minnesota.

Notice of intention to make proof of right to purchase, under the 5th section of the act of Congress, approved March 3, 1887.

Robert J. Montague, of Crookston, Minnesota, having on June 11, 1901, filed in this office his application to purchase, under the 5th section of the Act of Congress, approved March 3, 1887, lot Four of section Thirty-three, in township One Hundred and Fifty North, of range Forty-six West of the Fifth principal meridian, in Polk county, Minnesota, and filed in connection with said application his affidavit in support of his right to purchase the said land, and asking that the St. Paul, Minneapolis and Manitoba Railway company and one Edwin F. Kelly, who is living upon and claiming some right to the said land, under the homestead laws of the United States, be cited to appear and show cause, if any they have, or objections to the submissions of such proofs or consummation of title to the said lands by him, in the manner in said application proposed, and asking that a time be set when he might appear with his witnesses before this office and make proofs of his right to purchase the said land and consummate his title thereto. Said Robert J. Montague offers to make such proof by himself and by the following named witnesses:

James Greenhalgh, postoffice, Crookston, Minnesota.
Joseph Gauche, postoffice, Crookston, Minnesota.
William Watts, postoffice, Crookston, Minnesota.
E. C. Davis, postoffice, Crookston, Minnesota.
Albert J. Lachapelle, postoffice, Red Lake Falls, Minnesota.
James Stoddard, postoffice, Land Dept., Great Northern Railway Company, St. Paul, Minnesota.

And by the records of this land office, and of the office of the register of deeds of Polk county, Minnesota, and by other documentary evidence and especially by a contract executed by the St. Paul, Minneapolis and Manitoba Railway Company, dated January 27, 1881, to one Ozora P. Stearns, and by the books and records and vouchers of the said railway company, and certain contracts and assignments and deeds by said Ozora P. Stearns and his assigns and grantees under him; and the right of said Robert J. Montague is claimed under and by virtue of said contract made January 27, 1881, by said railway company to said Ozora P. Stearns, of which contract and all rights thereunder the said Robert J. Montague claims to be the assignee, holder and owner.

Notice is hereby given, that said proofs in support of the claim of said Robert J. Montague to purchase said land will be made before the register and receiver of the United States land office at Crookston, Minnesota, on August 6, 1901, at ten o'clock a. m. of that day; and the said St. Paul, Minneapolis and Manitoba Railway Company, and the said Edwin F. Kelly, and all other persons interested, are hereby cited to appear before said register and receiver at the time and place above named, and show cause, if any there be, or any objections which they may have, to the making of said proofs and consummation of title to the said lands by the said Robert J. Montague, in the manner in said application proposed.

Dated June 18, 1901.

SYLVESTER PETERSON, Register.

11-16

MORTGAGE FORECLOSURE SALE.

Default having been made in the payment of the sum of four hundred and five dollars, which is claimed to be due and is due at the date of this notice upon a certain mortgage, duly executed and delivered by Samuel J. Cunningham and Louie E. Cunningham, his wife, mortgagors, to the Security Trust Company, mortgagee, bearing date the 9th day of December, 1891, and with a power of sale therein contained duly recorded in the office of the register of deeds in and for the county of Polk and state of Minnesota, on the 17th day of December, 1891, at 2:35 o'clock p. m., in book 50 of mortgages, on page 152.

Which said mortgage, together with the debt secured thereby, was duly assigned by said Security Trust Company, mortgagee, to Julia W. Powers by written assignment dated the 9th day of December, 1891, and recorded in the office of said register of deeds, on the 4th day of February, 1892, at 9:40 o'clock a. m., in book 56 of mortgages, on page 573.

Which said mortgage, together with said debt secured thereby, was duly assigned by said Julia W. Powers, the assignee and holder thereof, to William C. Haney, by written assignment dated the first day of May, 1901, and recorded on the 23rd day of May, 1901, at 11 o'clock a. m., in book 99 of mortgages, on page 609-610, in the office of said register of deeds, and no action or proceeding having been instituted, at law or otherwise, to recover the debt secured by said mortgage, or any part thereof.

Now, therefore, notice is hereby given, that by virtue of the power of sale contained in said mortgage, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, viz:

Lot four in section thirty-three, in township one hundred and fifty, of range forty-six, containing 44 acres, more or less (Lot 4, Sec. 33, in Twp. 150, of R. 46,) in Polk county and state of Minnesota, with the hereditaments and appurtenances; which sale will be made by the sheriff of said Polk county, at the front door of the court house, in the city of Crookston, in said county and state, on the 13th day of July, 1901, at ten o'clock a. m., of that day, at public vendue, to the highest bidder for cash, to pay said debt of four hundred and five dollars, and interest, and the taxes, if any, on said premises, and twenty-five dollars, attorney's fees, as stipulated in and by said mortgage in case of foreclosure, and the disbursements allowed by law, subject to redemption at any time within one year from the day of sale, as provided by law.

Dated May 29th, A. D. 1901.

—William C. Haney, Assignee of Mortgagee.

—Samuel Morrison and
—R. J. Montague,
Attorneys for Assignee. 8-18

SHERIFF'S SALE.

By virtue of an execution, issued out of and under the seal of the district court, in and for the county of Polk and state of Minnesota, upon a judgment rendered and docketed in the said court on the 12th day of April, A. D. 1901, in an action wherein The McCormick Harvesting Machine Co., a corporation, is plaintiff, and William L. Davies is defendant, in favor of the said plaintiff and against the said defendant, for the sum of Five Hundred Forty-seven and 32-100 ($547.32) dollars, which execution was directed and delivered to me as sheriff in and for the said county of Polk, I have this 11th day of May, A. D. 1901, levied upon all the right, title and interest of the said defendant William L. Davies in and to the following described real property situated in the county of Polk and state of Minnesota, to-wit:

The southwest quarter of the southwest quarter, the northeast quarter of the southwest quarter, and the southeast quarter of the southwest quarter of section number sixteen, township one hundred fifty-three, range number forty-seven.

Notice is hereby given that I, the undersigned as sheriff aforesaid will sell the above described real property to the highest bidder for cash at public auction at front door of the court house, in the city of Crookston, in the county of Polk and state of Minnesota, on Friday, the 19th day of July, A. D. 1901, at ten o'clock a. m., of that day, to satisfy the said execution together with the interest and costs thereon.

Dated June 5th, A. D. 1901.

—E. J. SULLIVAN,
Sheriff of Polk County, Minn.

—A. A. MILLER,
Attorney for Plaintiff.

9-15

SHERIFF'S SALE.

By virtue of an execution, issued out of and under the seal of the district court, in and for the county of Polk and state of Minnesota, upon a judgment rendered and docketed in the said court on the 12th day of April, A. D. 1901, in an action wherein The McCormick Harvesting Machine Co., a corporation, is plaintiff, and William L. Davies is defendant, in favor of the said plaintiff and against the said defendant for the sum of Two Hundred Twenty-one and 40-100 ($221.40), dollars, which execution was directed and delivered to me as sheriff in and for the said county of Polk, I have this 11th day of May, A. D. 1901, levied upon all the right, title and interest of the said defendant William L. Davies in and to the following described real property situated in the county of Polk and state of Minnesota, to-wit:

The southwest quarter of the southwest quarter, the northeast quarter of the southwest quarter, and the southeast quarter of the southwest quarter of section number sixteen (16), township number one hundred fifty-three (153), range number forty-seven (47.)

Notice is hereby given that I, the undersigned, as sheriff aforesaid, will sell the above described real property to the highest bidder for cash at public auction at front door of the court house, in the city of Crookston, in the county of Polk and state of Minnesota, on Friday, the 19th day of July, A. D. 1901, at ten o'clock a. m., of that day, to satisfy the said execution together with the interest and costs thereon.

Dated June 5th, A. D. 1901.

—E. J. SULLIVAN,
Sheriff of Polk County, Minn.

—A. A. MILLER,
Attorney for Plaintiff.

Aultman & Taylor Dixie Separator

This machine is a fast thresher. It will clean your grain right. It will save every kernel, and for light running, we will back it against the world.

We also handle the FLOUR CITY GASOLINE ENGINES. Call and inspect our sample rigs.

An elegant line of Buggies, Surreys and Spring Wagons always on hand.

N. P. Stone & Co.
Crookston, Minn.

NOW THEY ARE SORRY.

Deputy Sheriff Barnese came down from Fosston last night, bringing two offenders against the peace and dignity of the state, who will serve ten days in jail for their attempt to down an officer who arrested them. Their names are Mark and James Lampmon, the latter being a horse doctor. They got too gay for the Fosston people, and when a halt was called they objected.

SMALLPOX MORE VIRULENT.

West Superior, Wis., June 26.—Smallpox is making its appearance in this city in a more virulent form. The predictions of the experts that the disease would grow deadly seems to be coming true. While there have been in the neighborhood of 300 cases in this city in the last few months, there has been but one death. The health authorities, however, are beginning to fear the disease more than ever before.

CITY AND VICINITY

Klewel's stock of shoes will be disposed of at auction on Saturday.

Don't forget the auction sale of shoes Saturday at Klewel's. Everything goes.

For nervousness and sleeplessness try Lincoln's Hop and Celery Nerve Tablets. 25c per box.

J. L. Sletteo, the Mentor lumber dealer, did a hurry-up stroke of business here Saturday.

C. J. Culhertson returned this morning from a visit to his family and former home at St. Ansger, Ia.

J. E. Ford, who is copying records at the court house, spent Sunday at his home in Red Lake Falls.

Miss Mabel Kelley, who recently concluded a term of school at Beltrami, has gone to Mentor for a brief visit.

C. P. Thue has been released from the Polk county jail after serving thirty days for swiping a fellow's watch.

—Fine photographs in all styles from $1 to $20 per dozen at Skrivseth's art studio, near Commercial hotel, Broadway.

The Hotel Markham at Bemidji has opened its new addition of fifty rooms. It now has a total capacity of one hundred rooms.

C. C. Bowen has secured the contract of painting the interior of the Valley Roller mills, and is preparing to two-coat it pure white.

Attorney Lee, of Thief River, passed through Saturday night on his way to Milwaukee to consult with the Meehans on a business matter.

"Stop that cough right away with Mull's Lightning Cough Cure. It heals disease of throat and lungs. It's pure and good for children. 25c. For sale by S. A. Wallace.

"Dad" Fulton, whom everyone living at Ada, Beltrami and Mentor knows as a friend was in Tuesday en route to the latter named place on a visit to his son, J. H. Fulton.

FOR BOTTOM PRICES AND QUICK SHIPMENT, CORN, OATS, GROUND FEED, WOOD AND LIGNITE COAL ADDRESS L. B. GIBBS, GRAND FORKS, N. D. ALSO NORTHWESTERN AGENT PILLSBURY'S BEST FLOUR.

Mrs. P. I. Holen, of Argyle, passed through the city Tuesday accompanied by her brothers, Lauritz and Haakon Melgaard, en route to Wisconsin, where they go to attend the wedding of a third brother.

Mrs. Fred Brosean left Sunday night on a trip to Montreal, Canada. She will be followed in about three weeks by Mr. Brosean, and they will visit the Pan-American exposition at Buffalo on their way back.

Will Lycan is making some extensive improvements at the Hotel Crookston. The interior finish will be renewed, and the entire building will be as good as new when the decorators complete their work.

Jas. Meehan, Jr., has begun the making of bricks at Thief River. There is plenty of good clay there, and the matter will be in the nature of an experiment the first year, enough brick being made on the start to build one business block.

Brainerd has discovered that it doesn't owe $40,000 more electric light bonds. These bonds are the same ones that are secured by the mortgage that the city assumed when the plant was brought. The city has been paying interest on that mortgage right along, and recognized the debt.

The admirers of a fine horse are particularly impressed with the style and action of that piece of horse flesh that Frank M. Brown is driving about the city these days. It is a standard bred mare, registered under the name of Cheriphallamont, by Phallamont. Mr. Brown purchased her in Iowa.

W. C. Wood, chairman of the Marshall county board of commissioners, and George W. Peck, a member of the board, were in the city Saturday returning to Warren after a few days spent in examining the condition of the roads in eastern Marshall county.

Thos. Johnstone sheds rain these days from an elegant silk umbrella, the gift of Chief Morris, in token of kind remembrance of pre-convention days when they stood shoulder to shoulder for the success of the firemen's meet.

Benny Steenerson returned this morning from Shattuck, where he has completed his first year's course of study. He was decorated with a badge which designated him as a member of Company C, which won the flag for being the best drilled of the four competing companies.

Major Mix Saturday received a letter from the Masonic lodge of St. Paul inviting him to be present at the election of officers on the 28th of the month, when a reunion of some of the old members of the fraternity will be held. The letter calls attention to the fact that just 40 years ago Mr. Mix was elected treasurer of the St. Paul lodge. There are but four of the officers elected at that time now living, and all expect to attend the reunion.

The C·O·D

..The Popular Store..

There's nothing exclusive about the C. O. D. No preference as to customers, no distinction between people, no dividing line of any kind. Our stock is large and varied enough to suit all people in all walks of life. Our qualities include the whole gamit of price. Certainly this is "the popular store."

We call particular attention to our big and bright line of $10 business suits for men and young men. The materials include serges in steel, blue and black, Scotch mixtures, velour finished cassimeres and worsted cheviots in attractive colorings and pleasing patterns.

The Misses Olive and Katharine Currie passed through the city Saturday en route to their home at Euclid from Faribault, where they have spent the winter at St. Mary's.

—Don't suffer from Dyspepsia and Stomach trouble; when you're tired of "cure all" remedies try Mull's Pioneer Stomach and Dyspepsia Cure. A dollar draft in each $1.00 box guarantees a cure.

Anne Vaag, a restaurant and pool room keeper at Ada, filed a petition in bankruptcy in the United States court at Fergus Falls Saturday, placing his assets at $211, all exempt, and his liabilities at $1,312.15.

In the action brought to contest the validity of the bonds issued by the village of Detroit for the purchase of a $15,000 lighting plant, Judge Baxter has filed a decision sustaining the contention of Harris Richardson, attorney for the taxpayers, that the bonds are invalid.

Banker L. Lamberson, of Warren was a transient here Monday, homebound from Hawley, where he went to attend the funeral of Lewis Hanson, a stockholder in the Warren bank, who has spent the past three years in the vain search for health, and who finally succumbed while in New Mexico.

All who occasionally visit the vicinity of Mentor know George Swift as a hustler of the swiftest variety. Mr. Swift was in the city Friday and brought with him as fine and healthy a sample of wheat as we have seen this year. It is two feet eight inches long and has not yet begun to head out. It was pulled from a 145 acre field and Mr. Swift says that it is only a fair average sample of his grain. He put in all his crop himself, only employing a man for three days' time, and besides that he helped milk twelve cows, separated the cream and made and marketed the butter.

A. E. Brush, of Angus, passed through the city Saturday night en route to Hamline, where he was called by the serious illness of his wife.

Miss Meta Grosbeck entertained her friend Miss 'Gene Lundgren, who has completed a year's school at Climax, and who spent Sunday here en route to her home at Alexandria.

Thos. Harborn, who breeds the finest stock raised in Kittson county, passed through on Saturday enroute below. Before returning he will add to his herd a choice bull from the N. P. Clarke herd at St. Cloud.

Rev. Fathr Theillon was in from Gentilly on Saturday telling his many friends of the general prosperity out his way, and showing the plans for the new parochial residence that is being erected.

Mayor Campbell has named George Purvis and S. W. Vance as delegates to represent Crookston at the Trans-Mississippi Commercial congress, to be held at Cripple Creek, Col., from July 16 to 20.

W. C. Wilson, a Journal subscriber, who has been residing at Lakota, called Tuesday to say he had decided to return to good old Polk county, and wanted the address on his paper changed correspondingly.

That Gary is properly dubbed Butterville was probably never better demonstrated than last Tuesday. On that day 7,820 pounds of butter was shipped out from that place, being only a part of the weekly output of the Gary and Waukon creameries.

Jack Connolly, who for years was a resident of Crookston and an employe of the Great Northern, passed through this morning en route to Grand Forks on a visiting trip that he will lengthen to call on Crookston friends during his stay.

Our Line of . . .

Cultivators and Weeders

Is very attractive. We have John Deer's latest riding cultivator and the Hallock weeder, both of them, tools that it will pay to buy and use.

Of course we have the usual full line of Deering harvesting machinery for grass or grain. Their Ideal ball bearing mowers and hay rakes lead the world. Our prices are right too.

Merit Always Wins.

Larsen & Carpenter,
CROOKSTON, MINN.

Stores also at Fosston, McIntosh and Beltrami, Minn.

Messrs. Paul Evans, of Dover Center, Ed Burke and Mr. Havelin of Blooming Prairie were here Thursday and found time between trains to greet a number of their friends among the Crookston people who came from that section of the state, among whom were Lewis Ellington and A. G. Anderson. Messrs. Burks and Havelin have purchased land in the vicinity of Warren that they will proceed at once to improve.

FARM LAND WANTED.

I can furnish a few desirable purchasers for land at rock bottom prices. Parties having "snaps" should call on or write Attorney R. M. Hayes, Crookston, Minn. Office over Merchants National Bank.

HAY LAND FOR RENT.

In all parts of the county. Call on or address the C. E. Stevens Land Co., Crookston Minn.

The "J. P." base ball club and the girl's basket ball team of Red Lake Falls will go to Fertile on the Fourth, where they expect to wallop the earth with the fans of that place.

W. W. Pritchard, that man that has engineered a deal whereby he has secured control of the stock of the Thief River bank, was in Crookston over night.

Clifford D. McLennan, who sells machinery and land at Angus, and does both successfully, was down over night and sampled the bill of fare at the Palace.

Pelan, a new town up in Roseau county, has two papers already yet so soon. The latest is the Hustler and Harry Sandera is to be held accountable for it. It shows up all right, too.

Sheriff Sampson, of Red Lake county, went to Fergus Falls Friday having in charge Mrs. A. Johnson, who resides near Thief River. For several years the lady has shown a tendency toward insanity and her relatives finally decided that she should be taken to the asylum for treatment.

FROM NEAR AND FAR.

Zephyrs Wafted Through Pine Cones and Across Prairies.

A runaway broncho, owned by A. G. Whitney of St. Cloud, suicided by jumping into the river at Cold Spring.

P. B. Olson, a prominent Renville county farmer, was found dead in an old well on his farm. The suicide theory is advanced.

Editor Foss hasn't heard anything but commendation for Chief Morris, his merry men and Crookston people generally from the Fosston crowd who attended the firemen's meet.

Edword Salveson sold his 240 acre farm, seven miles east of Halstad, to Ed Krohn of Hillsboro, for $26 per acre. Two years ago Mr. Salveson offered the same farm for $20.

Miss Lisla Van Volkenberg, assistant principal in the Red Lake Falls schools last year, was married in Rome Thursday to a Ypsilanti, Mich., school superintendent, whom she met there.

Adelarde Joyal, the French Canadian who on July 13 shot and almost killed his wife at St. Cloud, has been held to the grand jury. They've found evidence that the shooting wasn't accidental.

Editor Knufer thinks that if Arthur Wales, who has been concert touring Red Lake county, would eliminate the vocal numbers from his program and shorten his encores, he would add to its acceptability.

Ellen Ostby went into McIntosh the other day and told Editor Lanman that the wild strawberry crop is something immense this year and that one can easily pick a wooden bucket full in a short time.

D. Gardoer, 93 years old, went to Dodge Centre, Minn., Saturday and got shaved shortly after noon. At 2:30 he was found in a barn with his throat cut and a razor was in his hand, he having committed suicide.

President McKinley is now taking his exercise mostly in the grounds back to the White House. He usually walks for an hour in company with some friend. Controller Dawes is frequently his companion on these perigrinations.

TRAINING SCHOOL

FOR TEACHERS WILL COMMENCE JULY 8 AT CROOKSTON.

Notice is hereby given that the seventh annual session of the State Training School for teachers will be held at Crookston beginning July 8 and will continue four weeks. At the close of the school, state teachers' examinations will be held, beginning August 5.

The school will be conducted by Hon. J. H. Lewis, ex-state superintendent of public instruction, who will be assisted by an able corps of instructors.

Classes will be organized in all the common branches, and review work will be done in the higher branches for those who desire to take the examination for first grade certificates.

You are requested to bring such text books as you may have.

Teachers requiring me to secure them boarding places should write me before the school commences.

Although we have been favored in securing a conductor who has not only gained a state reputation as an instructor, but has held the highest position in the profession; yet each appointment has been made with a view to securing specialists in the several lines of work.

In view of these facts, each teacher and every person who expects to teach should take advantage of this opportunity to put in a month's work and be better prepared the coming year for the important duties of their chosen profession.

—THOMAS CASEY,
County Superintendent of schools.

GREAT BINDING TWINE OFFER.

If you need binder twine for this season's crop, and want the highest grade binder twine made, either Standard, Sisal or Manila, and you want to receive an astonishingly low price offer, an extraordinary inducement for you to send to Chicago for your twine, cut this notice out and mail to SEARS, ROEBUCK & CO., Chicago, Ill., and you will receive by return mail, postpaid, samples of the highest grade Standard, Sisal and Manila, together with a most extraordinary offer, including a special price that will mean a big saving to you.

CASHED A CHECK

That Represents Her Husband's Monthly Earnings and Eloped

THE WIFE OF A FINDLANDER

On the Duluth Line Prefers a Lumberjack to a Section Boss

Grand Rapids, Minn., June 21.—When Jacob Majallo returned to his home at Verna, a siding on the Great Northern road east of this city, last night, he found no waiting wife, no meal prepared and the house dark and gloomy.

It was a case of elopement, and had evidently been planned for some time, as proven by the facts that have since come out.

Majallo is a section hand, and is a Finlander by birth, and lived at Verna. During the summer he has sheltered a lumber jack named Ed. Johnson, who has ingratiated himself into the favor of Mrs. Majallo, and the two planned the elopement. Majallo's pay check for the last month's services arrived yesterday, and like a dutiful husband he turned it over to his wife to pay some bills contracted at the local stores.

As soon as the husband had gone to his day's work, the wife secured the cash on the check and she and Johnson left together, and their whereabouts are known to no one. It is believed they walked to the next station east where they boarded the train for Crookston.

Majallo is inclined to let the guilty couple go their way and says the woman was not much god anyway.

AN EXPOSITION BOOKLET

BEAUTIFUL PRODUCTION FROM THE PAN-AMERICAN.

Here comes another of the beautiful booklets from the Bureau of Publicity of the Pan-American Exposition, Buffalo, N. Y. It consists of 16 pages and a cover in light green. The unique feature of it is the miniature production of the famous poster, "The Spirit of Niagara," which has had a most remarkable demand .The envelope in which the poster booklet is mailed also bears a reproduction of this artistic work. The booklet is a popular picture book, the first page having an engraving of the magnificent Electric Tower, which is 391 feet high and which will form the glorius center piece of the great exposition. On the same page is a miniature of one of the torch bearers which will adorn the wings of the Electric Tower, and beside it a picture of Niagara Falls. The second page shows a picture of the Electricity Building and five other small illustrations, one of them showing the life saving station, where exhibitions will be given daily by a picked crew of ten men during the exposition. The fourth page is devoted to the wonderful displays of government ordnance; the fifth of the Machinery and Transportation Building and four other illustrations of modern machines and vehicles. The center of the booklet shows a birdseye view of the exposition, and gives one some idea of the great extent of the enterprise upon which about $10,000,000 is being expended. The grounds contain 350 acres, being half a mile wide, and a mile and a quarter long. Other pages show horticulture, graphic arts and mines, manufactures and liberal arts, the Music Temple, the Plaza and its beautiful surroundings, the Stadium or athletic field, the agricultural, live stock and ethnology features, and a few of the 30 or 40 ingenious and novel exhibits which promise to make the Midway the most wonderful that has ever been prepared for exposition visitors. The last page shows a ground plan of the exposition, whereon the location of different buildings is indicated. The railroads will make low rates from all parts of the country during the exposition, which opened May 1 and continues six months, and the people of Buffalo are preparing to entertain comfortably the millions who will attend. Anyone desiring a copy of this booklet may have it free by addressing the Pan-American Bureau of Publicity.

MEN AS THEY PASS.

William H. Newman, the new president of the New York Central railroad, began life as a switchman.

Charles M. Schwab has given $25,000 for the erection of a trade school in Weatherly, Pa., the former home of his wife.

Glenn P. McKinley, the speaker of theIdaho house of representatives, is the youngest member of that body, being but 22 years of age, and is a student in the law school of the Idaho university.

Colonel Henry M. Robert of the engineers corps is to be retired this month. He is a West Pointer of the class of '57, and his commission antedates by two years that of any other man in the service.

An Austrian officer, the Marchese Tacoli, declined a challenge on account of religious scruples two years ago. He was not only degraded from his rank, but has been ordered to serve out his time as a private in the ranks.

Gilbert Van Zant of Kansas City claims to be the youngest member of the Grand Army of the Republic. He is only 50 years old, having enlisted in the Seventy-ninth Ohio infantry as a drummer boy at the age of 10 years.

The Hon. Phya Phetchada, who is coming to this country as Siamese envoy, is to have his name changed to Phya Charoun Rajah Maitri as a preliminary honor. And you can't pronounce that name just by sneezing either.

William Barrow, timekeeper at Gillow's cabinet works Lancaster, England, has been in the employ of the firm for 66 years. His father held the keys before him, and the present year crowns "a century of service" by father and son.

While arguing about their respective weights John Sterner and Alfred Bowlby of Toledo made an unusual wager the other day that will not be settled until after their death. The heavier skeleton is to win, and the stakes ($200) are to be awarded to a hospital.

Andrew Carnegie's first gift of a library was to his birthplace of Dumferline, Scotland ($40,000.) He said at the time that it was a good place to begin, because "the first public library the little place ever had was the collection of three weavers, one of whom was my father."

Colonel Francis H. Michler of Lieutenant General Miles' staff, who died recently, was one of the best informed officers of the army. It was largely through his intelligent and energetic efforts that many needed reforms were introduced. In addition to his qualifications as a staff officer, he distinguished himself in the Indian campaigns of the west.

NOVEL PETS.

The latest novelty in the way of pets is the pocket monkey, so called. The little creatures belong to the species known as the marmoset. Their slender bodies are about five inches long and are covered with a soft coat of brown fur. The expressive face—the size of a quarter—is surrounded by a short hood of white or light fur, which has the appearance of an elaborate head dress.

Pocket monkeys can not bear the cold. They like snug little nests, where they cuddle up and keep warm, and while they sleep the tail is wound about the neck like a boa.

They come from the interior of Venezuela, where they live in hollow trunks of immense trees. Small negroes are lowered into the trunks to catch them.

OUR SPONGE INDUSTRY.

Study of the sponge fields of Florida is to be taken up by the general government with a view of developing the industry, which is now considered to a great extent to be neglected, though it employs about 310 vessels and some 2,000 men. Florida is the only portion of the United States producing the better grade of sponges. It is estimated that the present fishing year will supply about $850,000 in commercial value,and the intention is to increase this very much in a year or two. The sponge grounds of the Gulf of Mexico extend from Florida reefs to St. Mark's and for a distance of 15 miles from the shore. The best sponges, in color, texture and size, are indigenous to deep water.

BOUNTIFUL HARVEST IN SIGHT.

In spite of the fact that much of the grain was sown late this year, it now looks as though the harvest in the Red River valley, taking it generally, would be much earlier than usual, and it is even being predicted that the hum of the binder would be heard by the 30th of August. Those who have been in the country more or less for the past week or ten days say that the growth of all grain during that time has been remarkable. Reports from all directions are most favorable and unless something very unexpected happens, the crop this year will top anything we have had in late years.

GOVERNMENT AUTO. LINE.

A regular automobile line has been established by the French government for a distance of 150 miles between the coast and Tananarivo, the capital of Madagascar. Tananarivo is situated at a considerable elevation above the coast, making the average grade about 6 per cent, but notwithstanding this it is intended to make the trip one way in 14 hours. The first automobiles will be shipped from France, but later a factory will be established on the island, where new machines will be built and old ones repaired.

ARTIFICIAL MARBLE.

Manufacturers are actually making marble by the same process by which nature makes it, only in a few weeks instead of a few thousand years. They take a rather soft limestone and chemically permeate it with various coloring matters, which sink into the stone and are not mere surface coloring, as in scagliola. The completed material takes a fine polish, and many of the specimines are of beautiful color and marking.

DIDN'T MARRY FOR MONEY.

The Boston man, who recently married a sickly rich young woman, is happy now, for he got Dr. King's New Life Pills, which restored her to perfect health. Infallible for Jaundice, Biliousness, Malaria, Fever and Ague and all Liver and Stomach troubles. Gentle but effective. Only 25c at A. G. Anderson's drug store.

EDDY EXPLAINS

Why There's But One Rural Free Delivery Route in His District

PROSPERITY IS TO BLAME

Nobody Wants to Take the Jobs at the Salary They Bring

Washington, Jun. 22.—It is a well known fact that there is only one rural free delivery route in the district of Congressman Eddy of Minnesota.

"For fear there are persons who may be so careless as to imagine that I am to blame for the seventh district's not being better supplied with these routes," said Mr. Eddy, "I want to say that the blame rests entirely upon McKinley prosperity. During the hard times I suppose that I could have found thousands of men in the district who were willing to do the work for the pay allowed, $500 per year, and furnish their own team, but since the advent of good times nobody up there seems willing to do the work. The one Seventh district route goes out of Willmar. It has been a great success, and the farmers think more of it every day. The carrier, however, made up his mind that he could not afford to do the work for $500, and served notice to that effect. Nobody could be found to take his place, and so the patrons along the route had to club together and make up a bonus of $100 additional out of their own pockets. In all the district there are only three applications in my possession from men who want these positions. In reality, the pay is considerably more than $500 per year, for the government permits the carriers to deliver bundles to their patrons, and take messages back and forth to and from the merchants of the cities from which the routes go out. It is said that this extra pay brings the total received by each carrier, taking the country as a whole, up to about $2.25 per day."

KISS DEFINITIONS.

Cupids benediction.

Something that had better be avoided.

A cup of nectar from the fountain of purity.

The trail of the serpent o'er the Eden of peace.

A little clover blossom to be plucked by one alone.

A gentle password that admits one to a woman's heart.

A dainty sentinel slain at the barriers, leaving unguarded the gates of love.

A jewel fallen from the hem of Venus caught in the petals of a beautiful flower.

A drop of water to one thirsting in the desert, which refreshes, but makes thirst greater.

HOW ANIMAL WASTE IS USED.

The utilization of animal waste presents an extensive field. In the large pig killing establishments in this country and some in England and Ireland there is literally nothing lost save the squeal. An organization in Paris known as the Society for Promoting the Use of Horseflesh claims to have provided Paris between 1866 and 1881 with 67,809,460 pounds of meat. With us the worn out and dead horses come out from factory yards, the flesh as oil for soapmakers and leather dressers and the bones as oil, fat, glue and fertilizer, to say nothing of the large quantities sold as cat's meat.

POLK GOOD ENOUGH FOR HIM.

Wesley Morris, who recently went to Alberta, N. W. T., to prospect for a location with the idea of opening a stock farm, returned Thursday. Mr. Morris thinks the representations made by the immigration agents regarding that country are far from the actual facts and conditions. He saw nothing to warrant him in exchanging a home in Polk county, where he has all the comforts and conveniences of life, for a tract of land where he would have to live among Doukhobors and Galiacians.

NEW FERRY AT LOUISVILLE.

One of the prettiest drives for Crookston people has been to go up the Red Lake river as far as Louisville and cross at that point, returning via Gentilly. During the past three years the ferry has not been in operation, and except when the water was low and the stream could be forded, the trip was not practicable. Now, however, a new ferry boat is being built and will be ready for business next week. Louisville is improving right along in the way of bridges and ditches.

COTTON PICKED BY MACHINERY

The Rev. William H. Meyers of Sturgis, Ky., has been granted letters of patent on a pneumatic cotton picker for picking cotton out of the bolls in the field. His machine when in operation will sit on an ordinary farm wagon, be furnished power by a light gasoline engine and will pick the cotton from three rows at a time as fast as the team will walk and dump the picked cotton into a second wagon.

Awaiting Settlers

Thousands of FREE rant Homesteads (160 acres) in the Hard Wheat Belt of Manitoba, Assiniboia, Alberta and Saskatchewan (Western Canada.)

Experience shows that the lands of Western Canada are unexcelled for Grain Growing, Mixed Farming and Dairying.

Railroads exist and are projected wherever settlement extends. Schools and churches convenient.

Taxes merely nominal, Climate the Healthiest in the World.

Crops always good, Wheat varying from 25 to 40 bushels to the acre. Oats 60 to 100 bushels, other grains in proportion.

CATTLE RAISING

more profitable than elsewhere on the Continent. Marketing produce at highest prices is particularly easy. Low Figures asked for lands adjoining Free Homestead Lands. Write for pamphlets and copies of letters from settlers and delegates. Address F. Pedley, Superintendent of Immigration, Ottawa, Canada, or to

F. DAVIES,
154½ East Third St., St. Paul Minn.

THE HEAVIEST EVER

A STORM OF WIND AND RAIN SWEPT MOORHEAD LINE.

Passengers on the Halstad line train that arrived Monday had an experience with the weather that they will long remember, and that none care to repeat. A storm that for severity has perhaps never been equaled, swept Norman and Clay counties between 6 and 7 o'clock, during which the rain fell in a manner that resembled rivers on end. The lightning was a prominent feature of the visitation, and the wind during the progress of the storm blew at a frightful rate, equalling anything any of them ever before experienced, except in case of a cyclone.

Between Kragness and Hendrum the train was kept moving at a four mile an hour rate of speed, as it was believed to be safer to keep it moving than to bring it to a dead halt. As it was, the train crew and passengers believed every minute that the cars would be blown into the ditch. Women were terrified and many of the male passengers thoroughly frightened. The rain forced its way into the coaches at all points where there was a possibility of doing so, and brooms were used freely to prevent a flood. The train was upwards of an hour late in arriving here, and Conductor Murray was glad to get through without an accident. The land along the lower portion of the line is almost entirely submerged, and the crop situation has been rendered serious by the storm.

PILE AND FISTULA CURE.

Sample treatment Red Cross Pile and Fistula Cure and book on piles sent free to any address. Rea Bros. & Co., Dept. X, Minneapolis, Minn.

—Always kill it quickly. Any kind of pain. Mull's Lightning Pain Killer. No opiates, guaranteed pure. 25c. It's a wonder.

The Riverside Dairy

Offers to the people of Crookston the purest milk, the richest cream, and the best butter to be had in all Minnesota at the lowest prices compatible with conservative business management. Our milk route lies right past your door, delivering twice each day. Call on our driver, or through telephone No. 12 for anything in this line. Don't eat your bread without butter so long as you can get Riverside at present prices.

E. D. CHILDS CO., Crookston.

JUDGING BY APPEARANCES of course, everybody does that, and laundry work can't be judged any other way. Everything subjected to our artistic treatment comes out as clean as a polished surface, as clear as a crystal and as bright as a Summer's day. Articles washed properly last twice as long, and look twenty times better than goods badly laundered. We make cheap fabrics masquerade for something better.

CUBA'S SCHOOLS

NUMBER HAS INCREASED 100-FOLD IN 8 MONTHS.

Havana, June 20.—Lieut. M. F. Hanna, acting commissioner of schools, has issued a report of the educational facilities of the island. He says the increase in the number of schools, 312 in December, 1899, to 3,313 in August, 1900, necessitated the enactment of a general school law, which has proved to be a great success. It is modeled on the law of Ohio, and can be changed to suit circumstances. Lieut. Hanna speaks highly of the zeal displayed by the boards of education, but says the superintendent and teachers as a body are poorly fitted for their work. This is due to their lack of education. Instead of creating normal schools in Cuba, Mr. Hanna recommends that teachers be selected to go to the United States and pursue a course of study, which, he thinks, would be cheaper and better. At present all the teachers are Cubans. Lieut. Hanna recommends that this course be followed as a rule, but suggests that it would be a good idea to import a few good foreign teachers who would be able to instruct children in a foreign country.

The report says that owing to the small population in some districts, the cost of educating children under the usual plan would be about $10 a month for each child. In regard to discipline, the report says it is only fair. Teachers' salaries are too high. There are few countries where teachers are so well paid as in Cuba, some of them receiving $50 to $75 per month all the year around or from 20 to 81 per cent more than is paid in the United States. The report does not recommend that control of the expenditures shall be given to the boards of education, which are inclined to be extravagant. The state is now paying all the cost of maintaining the schools which now amounts to about $4,000,000 per year, and may soon reach $6,000,000. Lieut. Hanna thinks that the municipalities should begin to pay some of this expense. It may be that the boards are extravagant because they are using state instead of local funds.

CHRISTIAN PEOPLE

WILL SAY AMEN TO THIS SHOW OF RESPECT FOR SUNDAY.

Omaha, Neb., June 20.—Western railroads, which are supposed to look upon Sunday as like unto other days, have taken a stand against unnecessary traveling on the Sabbath day. They have thwarted the intention of the Omaha Commercial club to run excursions from the country on Sunday, proposed to boom the auditorium concerts. The roads say that the building of the new auditorium is undoubtedly a worthy project, but they cannot have their men working more than necessary on Sunday. The excursions were planned over the Burlington, the Union Pacific and the Elkhorn. The general passenger agent of the first road said: "We will not force our men to carry excursion trains on Sunday; they get few enough Sabbaths off as it is. Such expeditions are, in addition, hurtful to the morals of a community. The auditorium must be built some other way."

Nothing is done on Sunday on the Union Pacific line, an official of that road said, except what is absolutely necessary to handle perishable goods and the overland passenger service. All local trains are at a standstill on that day.

LOGGING STEALS

ON INDIAN RESERVATION WILL BE EXPOSED.

Milwaukee, June 21.—Friends of Joseph R. Farr, superintendent of logging on the Indian reservations of the United States, who has been in Washington, returned to Milwaukee yesterday and says he is determined to push the exposure of the alleged illegal cutting of green logs on the reservations to a finish, no matter how many big men are involved.

Further than this, it is said Commissioner Jones is supporting Farr; and that if the alleged rottenness is being covered up, it is not with the aid of that official.

It is not believed in Milwaukee, where both are well known, that they will allow the matter to rest without a full exposure. Farr is in possession of volumes of facts which, it is claimed, will, if used by the government, put a stop to the robbery of the Indians on the pine land reservations that has been going on almost without interruption since 1886,

VISIT FROM OOM PAUL

PEOPLE PREPARING FOR HIM IN AMERICA.

Washington, June 21.—The Boer sympathizers in the United States are making preparations for a visit by Mr. Kruger to this country in the autumn, which was announced some time ago by Montagu White, the Transvaal representative in Washington. C. W. Van der Hoogt, an active Boer sympathizer of Washington who has just returned hers from New York, says a conference of leading pro-Boers was held on Saturday, Sunday and Monday, and that the chairman of the reception committee was chosen. He will be Consul General Pierce of the Orange Free state, whose offics is in New York.

Mr. Van der Hoogt said that Gen. Botha was permitted to communicate by cable with Mr. Kruger on condition that he would try to get Mr. Kruger to agree to certain peace terms favorable to Great Britain, and that the British authorities should see the dispatches. Botha carried out the agreement and Kruger's reply was that independence was the first basis of any terms of peace.

CIVIL GOVERNMENT

TO BE ESTABLISHED IN PHILIPPINES JULY 4.

Washington, June 21.—Civil government will be established in the Philippines on July 4, and Judge Taft will be designated civil governor. He will remain at the head of the Philippine commission, which will be continued. The order creating civil government will be issued by the president through the secretary of war.

Further details regarding the new government are yet to be worked out. The Fourth of July is not selected with a view of having an extraordinary inauguration of the new government, but simply because that is the great American holiday and is deemed by the administration a good day upon which to locate what is believed to be an auspicious event in the history of the Philippines. It is probable that members of the Philippine commission will have charge of the different departments of the government.

PERPETUAL MOTION

BOBS UP AGAIN—A KENOSHA MAN THIS TIME.

Kenosha, Wis., June 22.—Jas. Haller, a Dane residing in the town of Somers claims he has solved the problem of perpetual motion. Thirty years ago he began work on a machine and yesterday he sent a model to the patent office seeking a patent.

Haller says it is impossible for this machine to stop. Eight months ago the machine was started and people who have watched it closely claim it has never lost a second. Up to the present time the motion has been from east to west and not circular, but Haller claims the new model solves the question of circular motion.

Haller is a man of education. The little machine is a wonder so far as workmanship is concerned, all the intricate parts having been whittled out of wood.

BIG METEORITE

FELL AT SONORA, MEX.—SHOCK FELT FORTY MILES.

Tucson, Ariz., June 22.—The largest meteor ever seen in this part of the country fell between the Pueblos of Los Molinas and Altar, in Sonora, Mexico, on June 11 at 1 o'clock in the morning. The meteor was seen by parties in Tucson as it shot toward the southwest. Although the sun was high the meteor illuminated the sky and seemed to have burst at the horizon. El Progresso, a Spanish paper, received in Tucson, contains an article describing the shock at Altar and the terror of the people when the meteor fell. It struck the earth about forty miles from Altar, but the shock was terrific and the people thought it was an earthquake. An exploring party will go out from Altar to try and find the place where the meteor fell.

BROME GRASS IN S. D.

THREE TONS TO ACRE FROM LAST YEAR'S SEEDING.

Pierre, S. D., June 22.—Parties who have been experimenting with Brome grass on the dry prairie are bringing in fine specimens. That which was sown last year made a poor showing, as the thistles secured a start of it, and it was looked down upon as practically a failure. But the same fields started finely this spring, and took the lead of the thistles, and now show a fine growth. Some of the raisers estimate that they can cut three tons to the acre, which is a good showing for hay on the wild prairie. It is only a question of time when stock raisers will have to raise winter feed, and in this grass they have evidently found a fodder plant which will yield heavily and withstand the drouths with which this state is so ofter affected.

FARGO INCORRIGIBLE

ONLY TEN YEARS OLD GETS 11-YEAR SENTENCE.

Fargo, N. D., June 22.—An 11 year sentence in the state reform school is what 10 year old Fred Levin got from Judge Pollock for a birthday present. Levin was classed among the incorrigibles, and had been before the court on two or three occasions. After each warning he would be good a few days and then resume his peculations. Three or four arrests seemed only to make him more daring. In this state reformatory sentences continue usually till those penalized are of age. This makes the boy a sentence of greater length than years he has lived.

TWO FATALLY BURNED

CARELESS USE OF TURPENTINE RESULTS TRAGICALLY.

Pittsburg, Pa., June 21.—A peculiar accident yesterday at Turtle Creek, a suburb of Pittsburg, will result in two deaths. Mrs. Wm. Ferguson undertook to soften a can of furniture polish on the kitchen stove. To facilitate matters she added a half-pint of turpentine. In a second the can was ablaze and Mrs. Ferguson in her efforts to save the house caught up the flaming can, threw it out of the window and struck the 3 year old son of Wm. McWilliams, who was playing on the porch. The child's clothing caught fire and Mrs. Ferguson rushed to his assistance. Both were fatally burned.

BIG IMPROVEMENTS

ARE BEING MADE ON THE ST. A. & D. ELEVATOR.

The St. Anthony & Dakota elevator in this city is to undergo extensive repairs and improvements, which when completed will place the house in a condition where it will stand at the head of the list of conveniently arranged buildings for handling wheat in the Red River valley.

In conversation with Superintendent L. D. Marshall today, that gentleman informed the Journal that the construction crew had already arrived and begun work.

The improvements include placing a stone foundation under the entire building and erecting a new driveway that will be roofed over and enclosed. A new large dump scale will be placed in position, and it will be of the newest improved pattern.

The work has already been begun and the company expects to spend at least $1,000 in the improvement work.

MUDDLED THE LAW

AND OPENED THE DOOR FOR THE ESCAPE OF MURDERERS.

Tacoma, Wash., June 21.—Fourteen convicted murderers are likely to escape punishment because the state legislature last week in special session muddled the statutes relating to capital punishment by repealing the defective Rand law on the day it went into effect, instead of two days before it became operative.

The Rand law repealed the former law on capital punishment and became effective June 12. On the same day the legislature in special session repealed the law. It is now shown that the law will not become effective until Sept. 11, ninety days after its passage, and in the mean time there is no law under which to punish murderers awaiting sentence or any person who may commit a murder between now and September 11.

near and far eecend

FOUND IN COLORADO

REMAINS OF AN ANIMAL SEVENTY FEET LONG.

Grand Junction, Col., June 21.—For the last month Prof. Riggs and party of the Marshall Field Columbian Museum of Chicago have been at work exploring in the vicinity of Fruita, ten miles west of this city, for the remains of prehistoric animals' bones. A day or two ago the party ran across one of the finest specimens of the dinosaurus, which is said to be seventy feet long and fully ten feet high. The bones are being taken from the earth and are in a splendid state of preservation. As soon as they are collected they will be packed carefully and shipped to Chicago, where the monster animal will be mounted.

AN ENTIRE FAMILY

SWEPT OUT OF EXISTENCE BY A CYCLONE IN NEBRASKA.

Omaha, Neb., June 22.—A special to the World-Herald from Naper, Neb., tells of the frightful work of a tornado which visited that vicinity Thursday night, details being obtained late yesterday.

The storm swept down the Keyapaha river Thursday evening at 6 o'clock. Only meagre reports are obtained. One family of several were killed and out of another family of six two were killed and the balance, except the father, fatally injured.

ILLEGAL HOMESTEAD

ENTRIES OCCUPY ATTENTION OF COURT AT FARGO.

Fargo N. D., June 21.—The first of the cases against alleged illegal homestead entries is that of Lindsay Little of Grand Forks, who was arrested and brought before United States court officials on the charge of perjury in proving up on his homestead. He was held under $500 bonds. There are other cases pending and it is said that two or three well known traveling men have asked to withdraw their proofs, fearing prosecution.

RELIC OF THE REVOLUTION.

Burlington, Vt., June 22.—J. G. Falcon, a diver, has visited the spot where the schooner Royal Savage, commanded by Gen. Benedict Arnold, was sunk in 1770 by the British. He found three gun carriages and about thirty cannon balls and shot. Two of the former will be sent to the Smithsonian Institute at Washington and the other has been given to the city of Burlington. The relics were discovered in about thirty feet of water. The carriages are made of wood and iron, the former being now petrified.

A WORK OF ART.

Bandmaster Riggs has sent away one of the splendid pictures of the band taken during the firemen's convention by Mr. Skrievseth, to have a half tone cut made, which will be used on the hand advertising programs that will be gotten up as soon as the cut is received. The picture is an excellent piece of photographic art and a very fine cut will be produced from it.

USES OF FORMALINE.

One of the most remarkable uses of formaline, the new chemical which is a preparation of formaldehyde, is in the preservation of the animals collected by the students of natural history. This chemical not only preserves the form and color true to nature, but it retains the true posture of the subject treated with it.

Women Dread

The disfiguration caused by skin disease, even more than the tormenting irritation which is so commonly associated with it. The use of Dr. Pierce's Golden Medical Discovery generally results in a complete cure of eczema, pimples, eruptions and other forms of disease which have their cause in an impure condition of the blood. "Golden Medical Discovery" absolutely purges the blood of humors and poisons, and so cures the cutaneous diseases which bad blood breeds and feeds.

There is no alcohol in the "Golden Medical Discovery" and it is entirely free from opium, cocaine, and all other narcotics.

"I was troubled with eczema from the crown of my head to the soles of my feet," writes Mrs. Ella Quick, of Cass City, Tuscola Co., Mich. "Could not walk at times, nor wear my shoes. Thought there was no help for me—at least the doctor said there was none. I went to see friends at Christmas time and there heard of the good that Dr. Pierce's Golden Medical Discovery had done for them, and was advised to try it at once. For fear that I might neglect it my friends sent to the village and got a bottle and made me promise that I would take it. I had been getting worse all the time. I took thirteen bottles of the 'Golden Medical Discovery' and ten vials of Dr. Pierce's Pleasant Pellets, and used the 'All Healing Salve,' which made a complete cure. It was slow, but *sure.* I was taking the medicine about eight months.

"I would say to all who read this: Try Dr. Pierce's Golden Medical Discovery before wasting time and money."

Dr. Pierce's Pleasant Pellets assist the action of the "Discovery."

HOTEL ON FIRE

THREE GIRLS ARE BURNED AT WEST SUPERIOR.

West Superior, Wis., June 24.—Fire nearly destroyed the West Superior hotel about 2 o'clock Saturday morning, and caused severe injuries to the employes. Katie Yuro ches, Annie Mackl and Carrie Jensen were badly injured. The first named was carried out of the hotel room by Manager Rossiter, while she was in an unconscious condition, having been overcome by smoke and burns. She may not recover.

The fire started near the switch board just outside of the dining room near the stairway to the servant quarters. This gave it a chance to spread to the upper stories. Through the efforts of Manager Rossiter and Joseph Neil, one of the boarders, the fire on the fourth floor, which was the worst, was checked by the hotel hose. The fire department did good work, but the fire spread so rapidly that had it not been for the work of the hotel employes in getting the hose at work, the entire building would have been destroyed.

The loss will not be over $10,000, with insurance of $100,000. One hundred and fifty people were in the hotel at the time and a pandimonium prevailed. Most of them appeared scantily attired.

FELL 200 FEET

AND WAS UNINJURED—BALLOON BROKE, CAUSING FALL.

Chicago, June 24.—Geo. R. Lawrence fell 200 feet from a broken balloon Friday and struck upon his feet without bruising or scratching himself. The accident was caused by the breaking of a cross bar.

Lawrence struck a web of telegraph wires and was not injured. The balloon continued its upward flight and soon disappeared.

Before the accident happened Mr. Lawrence succeeded in securing four negatives of the stockyards. Two of the four negatives remained unbroken, while the other two are in such a condition the photographer believes they can be developed. About ten thousand people witnessed the ascension and the fall.

If another balloon can be procured Mr. Lawrence will attempt to take a birdseye view of the American derby at Washington park.

CASCARINE AT ALL DRUGGISTS.

Cures biliousness, constipation, dyspepsia, price 50c. Sample and book on diet and cure mailed free. Rea Bros. & Co., Minneapolis.

Burlington Route

BY DAYLIGHT ALONG THE MISSISSIPPI

The most beautiful river scenery in the world is between St. Paul and Chicago. Our "Scenic Express" leaves Minneapolis 7:30, St. Paul 8:05 a. m., and reaches Winona 11:30, La Crosse 12:14 p. m., Dubuque 3:44, and Chicago at 9:35 p. m. An interesting and comfortable trip.

Ask Your Home Agent to Ticket You by the Burlington.

LAXAKOLA

THE GREAT TONIC LAXATIVE

If you have sour stomach, indigestion, biliousness, constipation, bad breath, dizziness, inactive liver, heartburn, kidney troubles, backache, loss of appetite, insomnia, lack of energy, bad blood, blotched or muddy skin, or any symptoms and disorders which tell the story of bad bowels and an impaired digestive system, **Laxakola Will Cure You.**

It will clean out the bowels, stimulate the liver and kidneys, strengthen the mucous membranes of the stomach, purify your blood and put you "on your feet" again. Your appetite will return, your bowels move regularly, your liver and kidneys cease to trouble you, your skin will clear and freshen and you will feel the old time energy and buoyancy.

Mothers seeking the proper medicine to give their little ones for constipation, diarrhea, colic and similar troubles, will find Laxakola an ideal medicine for children. It keeps their bowels regular without pain or griping, acts as a general tonic, assists nature, aids digestion, relieves restlessness, clears the coated tongue, reduces fever, causes refreshing, restful sleep and makes them well, happy and hearty. ☞ *Children like it and ask for it.*

For Sale by F. H. HILLARD & SON
CITY DRUG STORE.

Laxakola is not only the most efficient of family remedies, but the most economical, because it combines two medicines, viz: laxative and tonic, and at one price, 25c. or 50c. At druggists. Send for free sample to THE LAXAKOLA CO., 132 Nassau Street, N. Y., and mention the name of your druggist. ☞ We will express to any address on receipt of 50c. in stamps or post note, all charges prepaid, a large Family size bottle of Laxakola, sufficient to last for a long time.

the scarcity of that article we were unable to supply it. We, however, expect a shower in the course of a month.

A hot game of base ball was played between Crookston and Eldred on Sunday last. The score—well, Eldred expects to get revenge, that's all.

A dance will be given here on the evening of the Fourth; dancing both in the hall and bowery. This will enable you to celebrate to the extent of your patriotism.

W. A. E. Pfaff, of Turtle Lake, Wis., is the butter maker employed by the Creamery association. He expects to have the creamery in operation by the 1st or 2nd of next month. Mr. Pfaff will move his family here in a month or so.

The town board met on Monday last and by the way the pop bottle popped it suggested to us that they were pops. It was a hot day, of course, and we never thought for an instant that the drink was too soft, but one of them did ask for something "softer," and called for rain water, but owing to

DONALDSON.

W. Rideout visited Hallock between trains Thursday.

Peter Lund returned from the Twin Cities Wednesday.

Everybody will go to Kennedy the Fourth, so rumor says.

T. C. Hickey and M. Olson drove up to Hallock last Thursday.

A very nice program of dialogues and speeches was rendered by the scholars.

Everybody went up to Kennedy on Monday to take in the mid-summer picnic held there.

Herman Miller and K. J. Lind are thinking of going to Itasca county after the Fourth.

Misses Ida and Thilda Ryden were very cordially welcomed home Wednesday from their trip to Grand Forks.

T. W. Dargon, who has charge of our new grader, says it is working to the perfect satisfaction of all under his management.

A large crowd witnessed the recapture of one of Hickey's bronchos Monday, that broke loose after being caught in the herd.

A very successful term of school ended at this place Friday. The children and teacher were very much attached to each other.

Mrs. Mumford and Mis. Olson, accompanied by Emery Davis, drove up to Kennedy last Friday from where they returned in excellent shape.

Misses Lindholm and Westerson, of Hallock and Northcote, passed through town en route for Youngrens, from where they came back Monday and returned home on the flyer.

ADA.

I. R. Severtson attended his sister's wedding at Lake Park last Saturday.

Mrs. Victor Moffett and Mrs. Hancock of Hendrum are visiting with the Moffetts this week.

Mrs. Livingston, who has been visiting here the past week, returned to her home at Northfield Saturday night.

A. H. Myran was up from St. Paul Saturday with a lot of land seekers and returned the same evening.

Born, to Mr. and Mrs. L. Hillard on Monday, a 12 pound girl. Both mother and daughter are doing nicely.

Elmer Kulander has severed his connection with Gerber & Johnson and has gone to work for Thorpe Bros.

Miss Mabel Deich returned from Battle Lake Tuesday morning, where she has been visiting for some time.

Nordie Myran came up from Minneapolis Tuesday morning and is going to work in Myran & Holden's store.

Miss Hannah Moffett came over from Twin Valley Sunday evening and visited with her folks a couple of days.

The Ada ball team played the Fertile team Sunday, which resulted in a victory for the Ada boys by a score of 10 to 0.

Aug. Bussie has accepted a position with the Piano Machine company and is busy canvassing and talking machinery.

Theo. Lystad last week let the contract for a two story brick warehouse to be erected back of his store, to H. L. Larson.

The band boys took in the tournament at Hillsboro, N. D., last week and report a good time. Mr. F. Moffett accompanied them.

ERSKINE.

Born, to Mr. and Mrs. O. T. Berge, a ten pound boy.

Mrs. Johnson is visiting her son and family at Bemidji.

A two year old child of H. Carlson died Tuesday morning.

C. Hanson made a business trip to Grand Forks last Wednesday.

Mr. and Mrs. Cronquist and children are visiting in the Twin Cities.

N. Melqhist and G. Thompson took in the excursion to Bemidji last week.

Theo. Torgerson was dawn from his claim on the reservation last Thursday.

Mr. Wilson and Thos. Torgerson are attending the Synod conference at Twin Valley.

Editor Edgley is contemplating the erection of a $2,000 house on his lots in south Erskine.

The ladies of the village are hustling in their plantation uniforms for the little red strawberries.

Nels Erickson is building an addition to Dr. O. H. Olson's house. The doctor no doubt believes in expansion.

Mr. Goodnough, the land man, had several land seekers here last week from southern Minnesota, to look at what he had in the thirteen townships paradise.

The following neighbors turned out and hoed Mrs. Holte's garden one evening last week: C. E. Dillon, Geo. Gjenl. L. Larson, W. J. Dargan, W. Erickson, J. F. Aasved, P. Roisnm.

A patent for a new pump was granted to Mr. O. Brenna of this village. We don't known just what the new scheme is, but it will perhaps pump water from any old hole this summer.

MENTOR.

Miss Anne of Woodside is very sick.

An awning on the Larson restaurant was blown to pieces.

A brother of Nels and Iver Iverson, from Grant county is here on a visit.

Arlie Drinkwine and Joe Morris left for Culbertson, Montana, last Saturday.

A. L. Nelson and Nick Steinede made their regular trip to Maplebay last Saturday evening.

Joseph Tagley shipped two tons of butter to St. Paul markets last week, the largest shipment ever made from Mentor.

Postmaster Messelt received twenty five new post office boxes this week to accommodate the ever increasing patrons of the Mentor office.

LePage's granary was blown down and the large bay window on the Hotel Mentor was blown in. Carpets and furniture were damaged by the fall.

During the storm on Tuesday Bert Compton's team broke loose from where they were tied in front of Joseph Tagley's store and landed in the grove back of Sather's residence north of town.

The steamboat on Maple lake is now running. It is the fastest boat that was ever run on Maple lake. It will cary 100 passengers and make the trip from north end of Maple lake to the bay in fifty minutes without crowding.

J. J. Nelson three miles north of Mentor, had a large machine shed and two other small buildings completely wrecked. Also a large well derrick belonging to Nels Nelson and a large amount of trees and fences were blown down.

LENGBY.

Karl and Julius Frederickson and A. Hinden went to Fosston Sunday.

There will be a dance in Argall hall next Saturday evening. Everybody is welcome.

A dozen or more people represented Lengby and Columbia in Fosston on Saturday.

John Hendrickson and family of Turtle Lake were guests of J. N. Oman Sunday.

Most of the people of Lengby and vicinity will go to the Fosston Fourth of July celebration.

Julius Frederickson was a passenger with the excursionists who went to Bemidji Thursday.

Mrs. Jos. Dove and A. Stove were to the Woodmen hall at Bagley the first part of last week.

The work in the brick and tile yard is at present at a standstill on account of too much rain. The clay is too wet to work.

W. Nyman left for Lake Park via Crookston on Saturday to visit with old acquaintances at that place for some time.

The people of Lengby are having a lively strawberry harvest. The crop is the largest and best we have had for many years.

A. J. Olson, N. O. Nelson and Adolph Frederickson were riding the passenger to Bagley and back Sunday just for pleasure.

The Indians of the White Earth reservation have brought to the market a lot of Senaca root, recently dug on the sand prairies southeast from here.

P. A. Sederberg has been one of the busiest of our traders lately, dealing with customers at home and making regular shipments of meat to other towns.

Rev. Nesseth and O. J. Lommen were attending the conference of the Norwegian Synod congregation, which was held at Fossum, near Rice river, the past week.

There was a small cyclone in the bad lands of the eastern part of Columbia a few days ago. Fences were torn down and sticks and stumps were flying in the air.

P. A. Sederberg is the owner of one of the handsomest wild animals that can be found in the woods here—a young deer—which he bought from an Indian traders a few days ago. The little creature is very tame and is admired by all passers-by.

N. O. Nell and family have moved from the upstairs of Ringstad & Nelson's store into the John Anderson building, recently vacated by Mr. Saterstrom, who is now located at his residence near the depot, while Mr. Nelson with his family occupies the store upstairs.

CLIMAX.

Miss Ema Satermo returned home from Donaldson last Satuday for a short stay.

Born, to Mr. and Mrs. Fred Fenn, a son, on Sunday. All parties concerned are doing well.

Mr. Venge, the Halstad barber, occupied Ralston's barber shop while he was having his vacation.

J. Ralston, John Fossum, and ladies returned last Saturday from a week's visit with friends at Bemidji.

Mrs. T. Sundet and children of Crookston have been spending the week here visiting her sister Mrs. B. Spokeli.

A ball game was played here last Sunday between Climax and Neilsvile with a score of ten to eight in favor of Climax.

Dr. Johnson reports another case of typhoid fever in the vicinity of Shelly, a young son of John C. Evje being the victim.

Next Sunday the Climax band and M. W. A. lodge will give a joint picnic in Satermoe's grove. An interesting program has been prepared for the occasion.

Mrs. B. Rarrick who has been at Portland N. D., since last spring has returned for a few days visit with friends. She expects to return to Portland in a few days.

P. Martenson will open a restaurant in connection with H. Samuelson's saloon in the near future. Mr. Samuelson is having his saloon building repaired and put in shape for it.

Andrew Steenerson has been selling his stock of goods which were damaged by fire at greatly reduced prices, and the people in this vicinity have taken advantage of the opportunity.

The wedding of Elmer Vrau and Miss Lisa Bramseth occurred at the home of the bride's parents Mr. and Mrs. Ole Bramseth, on Saturday. The young couple were the recipients of a number of beautiful presents.

Levi Steenerson has sold his elevator to the Independent Elevator Co., who will increase the capacity for handling all kinds of grain. They expect to replace the old building with a new one before the present crop is harvested.

Mr. and Mrs. Turnquist and children are spending some time at present visiting their relatives at Fosston and Bemidji. Ole Jerlingen is taking Mr. Turnquist's place in the store while he is away.

Peder Jacobson, living near Neilsville, had the misfortune to fall from a load of hay and break three ribs. It was at first feared that it would prove fatal, as Mr. Jacobson is an old man, but at present he is improving, and it is thought he will recover.

MALLORY.

Dave Flemming was a Crookston visitor over Sunday.

Jacob Forkey, C. C. and James Coulter were at Euclid Friday.

Mrs. C. C. Coulter and children are visiting Mrs. Coulter's parents in Grand Forks this week.

Wilbur Coulter and Elmer Erickson were at Grand Forks Monday.

Miss Anna Scott returned to her home at Forest River Thursday.

Ed Link and R. E. Lee attended the dance at Euclid Friday evening

Miss Blanche Baker of Fisher, is visiting at Thos. Lee's this week.

Mr. and Mrs. Dan Hunter of Gary N.D., visited with Mr. and Mrs. Thos. Hunter last week.

Mr. Fremark, of Milton, N. D., has taken charge of the section here and has moved his family into the section house.

The M. W. A. of Mallory will give a grand free dance in their hall Friday evening, the 28th. All are cordially invited.

D. G. Ferguson and J. F. King returned from Bemidji Saturday, having found too much water in that country to get to their claims.

BIFF!
BOOM!
BANG!

THE TIME OF YOUR LIFE IS WHAT YOU WILL HAVE AT THE

Great Celebration

TO BE HELD IN CROOKSTON, THURSDAY AND FRIDAY.....

JULY 4-5

Two days chuck full of fun--something going on all the time. Callithumpian Parade. Evening Parade. Streets Illuminated with Thousands of Colored Electric Lights. Trotting and Running Races. Pony Races.

$200.00

Given away in Prizes for all kinds of Sports and Athletic Contests.

Two Base Ball Games for the Championship of the Valley. Great Display of Fireworks Each Night. Band Concerts by the best bands in the Northwest. Speeches by the Best Orators in the Country.

$2000.00

Will be Spent to make the event the greatest success of any Celebration on record.

P.B. WINSTON DEAD

Passed Away at Hospital in Chicago at 10:30 Yesterday Morning

HEART TROUBLE AND HEAT

Assigned as Cause of Death---Was in Perfect Health the Night Before

Philip B. Winston, the well known railroad contractor of Minneapolis, died at Augustana hospital, Chicago, at 10:30 Manday morning. Mr. Winston was overcome by the heat while on his way to Chicago the night before and he grew rapidly worse after being taken to the hospital. His brother, F. G. Winston, was with him at the time of his death.

Mr. Winston left Minneapolis with his brother for Chicago on an Omaha train Sunday night, apparently in the best of health. On Saturday he remarked to his bookkeeper, Mr. Hill, who had inquired about his health, that he never felt better in his life.

A telegram was received at the office of Winston Brothers in the Globe building from F. G. Winston yesterday afternoon confirming the report of his brother's death. No details were given except that Mr. Winston was taken to Augustana hospital from the train and that he died there at 10:30 yesterday morning. The telegram also contained a request that the news be broken to Mrs. Winston and members of the family.

Mr. Winston was born at Hanover Courthouse, Va., Aug. 12, 1845. He enlisted as a member of Company E, Fifth Virginia cavalry, in 1862, and though then only a boy, he won a first lieutenancy and served as an aide on the staff of Gen. Thomas L. Rosser. In 1872 he went to Meineapolis where he has resided ever since.

Mr. Winston was one of the notable figures in Minnesota politics, in which he has been a leader for many years. In the course of his career in Minneapolis he held many honorable positions, serving in the legislature. He was elected mayor in 1890, serving to the satisfaction of his party and his friends.

On March 30, 1876, Mr. Winston was married to Katherine D. Stevens, daughter of Col. John H. Stevens, the pioneer settler of Minneapolis. They have two children, Philip B., Jr., and Nellie Winston.

WINTNER ACQUITTED

AND GRANITE FALLS PEOPLE ARE INDIGNANT.

The trial of Dr. Wintner at Granite Falls for shooting a gambler, who with his pal had succeeded in deliberately fleecing the accused man out of $200, has been concluded, and the jury brought in a verdict of acquittal.

The verdict, which is thought by many to have been clearly contrary to the evidence, was a good deal of a surprise even to Dr. Wintner's attorney, Frank M. Nye, who, it is said, had hoped to accomplish little more than the saving of the doctor from too severe a sentence. The reason for the verdict is found in Mr. Nye's eloquence. He is said to have had the jury in tears a good part of the time during the closing speech and to have so worked upon their feelings that they were blind to the cold facts of the evidence and therefore let Dr. Wintner go.

At the trial it was shown that on the evening in question the two gamblers had been playing with Wintner and had won about $200 when the latter accused them of swindling him. They laughed in his face, admitted the truth of the charge and asked him what he was going to do about it. They showed him the marks on the cards. They exhibited to him the hand mirror they used. Then the gamblers put on their coats and prepared to leave. In the meantime Wintner had gone into another room and came back with the revolver in hand, having first locked the door. He held the gun to the head of the man now dead, Lenard, and demanded the return of his money. Lenard made a dash for the gun, but missed it and then threw himself through a glass door. The glass caught and held him, and while in that position he received the shots which ended his existence. Wintner then turned to the other man and told him that he had better "fork up," and this demand was immediately complied with.

Wintner is not a bad appearing young fellow. He is the son of a Jewish rabbi of Brooklyn, a finely educated gentleman and has a lovely sister, who was at the trial. The only reason which can be advanced to account for the hostility of the people of Granite Falls toward him is the fact that he dressed more expensively than the other young men about the town, and rather held himself aloof from local society, giving rise to the opinion that he was rather "stuck up."

Great excitement over the acquittal prevails among the people and six of the jurymen are reported to have taken to the woods fearing harsh treatment at the hands of the indignant citizens. Another report was to the effect that the prosecuting attorney in the case had been heard to tell a group of residents of the town that if they desired to "egg" the jurymen, they need have no fear of subsequent trouble from him. The defendant has left Granite Falls and is out of danger for the time being.

PROHIBITION WON

IN THE THREE CORNERED DEBATE AT FERGUS FALLS.

Fergus Falls, Minn., July 2.—The political debate between M. J. Daly, the demo-populist senator from this county, representing the democrats, J. Adam Bede the republicans, and O. W. Stewart of Illinois the prohibitionists, which occurred Saturday, was the most interesting event of the Chautauqua, just closed here. The debate took place in the Lyceum theatre before an immense audience. Daly led with the statement that the people's party had reformed the democratic party; he then repeated the arguments of the last campaign and dwelt particularly on the assertion that the democratic party is the special champion of the constitution and of the rights of the people as opposed to corporate greed.

Bede followed, his style being more serious than usual. He traced the history of expansion, past and present, took an optimistic view of the situation and finally pictured Daly wandering down into the democratic strongholds of the south with a constitution under his arm, only to find that that time honored instrument had been nullified there for several generations.

Stewart, who is a brilliant orator, came next with a scathing arraignment of the two old parties for their record on the liquor question and defied the other speakers to discuss this question before the audience. Daly made a feeble attempt to reply, saying that prohibition was all right in principle, but that it ought to be discussed at the home and fireside. Stewart ridiculed the statement and Daly dropped the prohibition question. Bede, however, took it up and said that the republican party was willing to give prohibition wherever public sentiment demanded it, as instanced in two or three prohibition states.

Nine judges, representing all political parties, announced their decision. Stewart was given first place, Bede second and Daly third.

THE VOLUNTEER ARMY

A THING OF THE PAST—IT WENT OUT OF EXISTENCE SUNDAY.

Washington, July 2.—The volunteer army organized two years ago for service in the Philippines, went out of existence Sunday. It may never be known just how many of the 65,000 volunteers who fought in the Philippines are wrecked for life physically. The muster out rolls will not tell the whole story, because many will be mustered out as well and able bodied upon whom the effects of service in the tropics will tell later. The demands upon the pension office will go further toward revealing the cost of the two years' service of the volunteers.

Army officers say that the personnel of the volunteer army organization was a higher standard than has been known in the United States since the civil war. Sons of some of the best families in the country served in the volunteer regiments. Some of the volunteers who served as privates have been rewarded with commissions in the reorganized army, but disappointment has been the lot of very many more. Besides, many who had been designated for appointment are subject to such severe physical and mental tests as to be unable to qualify.

Figures compiled at the adjutant general's office to June 1 show the deaths from all causes in the Philippines to that date as follows:

Regulars—Officers, 42 ;enlisted men, 1,292.

Volunteers — Officers, 33; enlisted men, 1,217.

Total deaths—Officers, 75; enlisted men, 2,509.

Disease was responsible for the majority of the deaths. Between 200 and 300 soldiers have gone insane as a result of their service in the far east.

RULED BANNON OUT.

John Bannon, proprietor of the linseed oil mill which was burned the latter part of May at Grand Forks, has received word from the Great Northern company that the sidetracks running past the former location of the mill will shortly be removed. This will prevent any intention on the part of Mr. Bannon rebuilding at that point.

MONDAY'S HEAT

Reported From Various Points Beats this Season's Record

DEATHS AND PROSTRATION

Occurred at Numerous Eastern and Southern Cities--It was Terrific

It appears from the weather reports that reach us from the east and south, that we are being highly favored here in the matter of temperature. Yesterday was not excessively hot here, but of about the right temperature for comfort. But at many places the heat was so intense as to cause many deaths and prostrations, as will be seen from the telegrams given below:

—

New York, July 2.—Yesterday was the hottest July 1 on record. At 3:30 in the afternoon the thermometer at the weather office reported 98 degrees, one degree hotter than Sunday. After 3:30 a decline began until at 9 p. m. the thermometer registered 72. The suffering in the city tenement house districts was most intense. As the day grew the deaths and prostrations increased, and although provision was made in hospitals for the emergency, the institutions were scarcely able to cope with the demand upon their energies.

Between the hours of 2 a. m. and midnight there were reported 57 deaths and 141 prostrations in the Boroughs of Manhatan and Bronx.

From midnight to 9 o'clock last night 21 deaths and 36 prostrations had been reported in Brooklyn.

—

Chicago, July 2—Five persons dropped on the streets of Chicago yesterday from excessive heat and 15 others were so badly overcome that they had to be removed to hospitals. A number of the prostrated are in a serious condition and may die. At noon the temperature in the weather bureau in the Auditorium tower was 93, and on the streets over 100. A severe thunder storm at 1 o'clock brought relief and the mercury dropped 20 degrees.

—

Washington July 2.—The hot wave in Washington shows no sign of breaking. At 8 a. m. yesterday the downtown thermometers registered 85 degrees and at 9 o'clock the mercury had climbed up to 92 degrees. This is 7 degrees hotter than it was at 9 o'clock Sunday morning. The weather bureau thermometer at 9:30 yesterday recorded 91. It was 86 at 8 o'clock and the mercury rose to 90 by 9 o'clock. The hot wave is general east of the Rockies and there is no immediate prospect of relief.

At 2 o'clock p. m. the temperature was 100. Twelve prostrations have been reported in 24 hours. One of the victims will die.

—

St. Louis, July 2.—Intense heat continued here yesterday. At 5 a. m. the lowest point reached during the last 24 hours was recorded. The thermometer then registered 80 degrees and two hours later it had risen to 82. There were eight deaths and twelve prostrations Sunday.

—

Cincinnati, July 2.—At 8 a. m. yesterday the mercury was 82 above and 2 to 5 degrees hotter on the street level.

Three deaths and sixteen prostrations were reported yesterday from the heat. At noon the thermometer registered 90.

—

Pittsburg, July 2.—Sunday night was one of the hottest in years, and at 8 o'clock yesterday morning the mercury registered 84 degrees.

Two deaths and eight prostrations were reported up to noon.

A TOUGH CHARACTER

RED LAKE CO. AUTHORITIES COOP A COON TERROR.

Ten days ago there appeared among the residents of the township of Terrebonne, in Red Lake county, a negro, who demanded of the farmers to whose houses he chanced to go supplies of food, and in fact whatever else his fancy desired. He generally secured what he asked for, as his demands were backed up by a show of force. Any ordinary person will give up when a revolver and a long knife are used to back an argument, and the colored gentleman carried both these weapons.

Complaint was lodged with the authorities, and the man, who had gone into hiding, proved a difficult party to catch. He would go to a farm house, get a hand-out, and then take to the woods, and for three days the officers hunted before the capture was made. The man resisted arrest, but was finally secured without any blood being spilled, and is now in jail at Red Lake Falls.

The negro is evidently a bad character. He tells about serving terms of imprisonment in Stillwater and other places and says he was once in for three years on a charge of rape. The man is believed to be an escaped prisoner, and will be held until reports are received from the various places where the records show that a man answering his description is wanted.

WILL GET $2,000

FROM DULUTH STREET RY. CO. FOR DAMAGES.

Mrs. Lizzie Oddie, who was injured several months ago in a street car accident in Duluth, has won her suit for damages against the Duluth Street Railway company. Justice Lovely, of the supreme court, handed down a decision Friday sustaining the order of the lower court in which she was given judgment in the sum of $2,000.

The court held that the city ordinance of Duluth, prohibiting the leaving of horses unhitched in the street was not violated by Mrs. Oddie's brother. When driving with her, he stopped the horse, threw the lines over the dash board and ran up the steps of a church near-by, leaving his sister in the buggy.

The horse was a lively nag, and soon after Mrs. Oddie's brother left the buggy the animal became frightened at the gong of an approaching car. The brother, in answer to his sister's screams, rushed back and caught the horse by the bridle. The animal backed the buggy across the tracks, the street car caught one of the rear wheels and overturned the vehicle, throwing Mrs. Oddie out and injuring her.

RICH NOT HAPPY

CARNEGIE WOULD HAVE HALF OF LIFE OVER AGAIN.

London July 2.—T. P. O'Connor publishes a remarkable conversation which he had with Andrew Carnegie at Skibo. He says:

"As we drove down to the station I was saying how I envied him his wealth. He said: 'I am not really to be envied. How can my wealth help me? I am 60 years old and can not digest my food. I would give you all my millions if you could give me youth and health.'

"Then I shall never forget his next remark. We had driven some yards in silence when Mr. Carnegie suddenly turned and in hushed voice and with bitterness and depth of feeling quite indescribable said: 'If I could make Faust's bargain I would. I would gladly sell anything to have half my life over again.'

"And I saw his hands clench as he spoke."

PROPER SUGGESTIONS

FARMERS IN NORMAN COUNTY ARE WARNED.

The hoppers and a small black beetle are consuming flax near the borders, says the Ada Index. Do not let this portion of your field grow up to weeds and pigeon grass. But disk and sow at once to fodder corn, millet, hungarian or rape. This will bring you two or three tons of forage to the acre. Recollect the high water has depreciated the best grass. Half the grass crop will be consumed by the middle of August. The drought will be general over most of the United States in August and September. Taking conditions there is no reason why these forage crops will not be remunerative besides aid you in carrying over your stock. Sow corn. Do not let a corner or patch grow up to weeds.

TWELVE KILLED

BY ONE BOLT OF LIGHTNING IN CHICAGO YESTERDAY.

Chicago, July 2.—Twelve boys were killed and another probably fatally injured yesterday afternoon by a single bolt of lightning.

The victims were fishing in Lake Michigan at the foot of Montrose boulevard, on the north side.

The fatal bolt struck the pier where they were seated, and all were thrown into the lake.

VIOLENTLY INSANE.

Sheriff Sampson, of Red Lake county, passed through the city Monday en route to Fergus Falls, whither he was conducting Andrew Gunderson, a resident of Thief River Falls, who was violently insane. The man is about 35 years of age, and has on a previous occasion been an inmate of the insane asylum. He was employed as an edger in the lumber mills at the Upper Falls, and a week ago was injured by the bursting of a saw, one of the teeth penetrating his skull above the left temple and injuring his brain. Since that time the man has grown steadily worse, and it was necessary to strap his hands to his sides in order to control him.

A DULUTH LEPER

Commits Suicide Rather Than Suffer a Lingering Death

KNUSETH HANGS HIMSELF

His Native Country Norway Refuses to Permit His Return

Without relatives or friends, and shunned by society in general on account of the dread disease that had permeated his system, Ole Knuseth, 45 years of age and for fourteen years a leper patient, committed suicide by hanging himself at a little farm seventeen miles from Duluth, where he had been placed for keeping. It was a long and brave fight he made for life, but finally discouraged, despondent and almost blind, he decided to end all.

For the past year Knuseth has been under the care of the county and lived at the home of S. Larson on the Howard road. Yesterday noon when dinner was ready he was not at his accustomed place at the table and Mr. Larson sent his small son out to call him. The lad returned in a moment saying he would be in directly. Shortly after, Mr. Larson himself went out to make the search and behind the barn he saw Knuseth hanging from a short piece of rope, his knees and hands touching the ground. He had taken a rope, placed the noose around his neck, fastened the other end to a timber and then sunk to his knees. Mr. Larson hurried to the city and notified Superintendent of Poor A. P. Cook, who in turn told Coroner Boyer. The latter left for the scene in the evening.

The case of Knuseth is an exceedingly sad one, and men with less brave hearts would have wanted to leave the world long ago.

Dr. Eklund knows more about him than anyone else in the city except the people with whom he lived. Knuseth came to this country about 18 years ago. He worked as a laborer, was a sober, industrious fellow and soon had a little of this world's goods laid up for a rainy day, which was not far off. Dr. Eklund, when treating him for typhoid fever, first noticed evidences of leprosy 14 years ago. He showed signs of it on his face and hands. Dr. Eklund had had case a couple of years previous and saw at once what ailment had invaded the fellow's aparently healthy body. However, the sickness did not bother Knuseth until about six years ago, when he had to cease work. His skin began to harden and become rough. He experienced no pain to speak of, but in the nostrils and throat open sores came which caused him no little suffering. Knuseth came here from the leprosy district of Norway, and it was the idea fo Dr. Eklund to send him back there. He worked hard for his patient and about two years ago the state board of charities offered to pay the man's expenses back to Norway, where there is a leper colony. However, the railroads did not care to take him, nor would the Norwegian government, on account of his having sworn allegiance to this country. If the man could have supported himself they would have looked at the matter differently. When it was seen that nothing could be done for the unfortunate, he was put under the care of the county and sent to the farm of S. Larson, who had known him in Norway. He worked about the farm and came to town last about eight months ago. At that time he was nearly blind and could scarcely talk. Dr. Eklund said that he might have lived for years.

AN EXTRA SESSION

OF THE STATE LEGISLATURE IS ASSURED.

There will be an extra session of the legislature next winter. There is no longer any doubt of the fact in well informed circles. Gov. Van Sant has considered all the arguments that have been advanced against an extra session. He has also conferred with members of the tax commission, whose work will furnish the principal employment of the legislature. They have assured him that their report will be made in ample time. Under the law, it has to be printed and sent out by Feb. 1, 1902. The commissioners expect to finish their report and "go to press" by Jan. 1, giving ample time for the printing and distribution to members of the legislature.

Gov. Van Sant gave his personal pledge to some members of the legislature last winter that he would call an extra session in case of an early adjournment. He will keep his word, and without any regret. The extra session will be called some time in February of next year, probably late in the month, in order to give the members plenty of time to digest the tax commission report. It will also be made public in the newspapers, and in a few weeks much can be learned of the popular feeling and opinion.

Much pressure was brought to bear on the governor against an extra session, and the opposition will not cease their efforts yet. Most of the antagonism comes from the iron range railroads and their political friends. Regardless of what the railroad commission does with the iron range roads, there is trouble ahead for them at the next session of the legislature. The land grant and ore rate difficulties will call for legislation, and it is likely to be drastic. This may quite surely be expected of the present legislature, sitting just on the eve of primary elections. The railroads and their political friends realize this, and they have been using every argument against the calling of an extra session. Their efforts are destined to fail, however. Only last week Gov. Van Sant declared quite positively that an extra session would be called.—Minneapolis Journal.

A YOUTHFUL GENIUS

HAS INVENTED A DEVICE FOR FINDING EXACT ANGLES.

Melrose Kopf, a Chicago boy of 14, who lives at No. 5340 Carpenter St., has suddenly become an important figure among architects, draughtsmen, surveyors and mechanical engineers. One of the very hardest problems in mathematics is the determining of exact angles, a matter of urgent necessity in all the professions mentioned. Until Master Kopf came to the front with a handy little device for the finding of degrees or the making of angles, it took an expert draughtsman from one to two hours to make the calculation. This, with Master Kopf's device, is now done in from one to five minutes. The invention consists of a square base of metal, on which is laid out an exact semi-circle, accurately divided into degrees. From the center of the base projects an upright standard, carrying a movable needle, which is controlled by a thumb screw. When a certain degree of angle is wanted the needle is pointed at the mark on the base, and then held in place by tightening the thumb screw. This done, the base is placed on the paper, so the needle points in a straight line from east to west, across the sheet. In doing this the square base is brought on an angle, and, by drawing a line across the two sides, the exact proportions are obtained. Experts who have seen the device say that it is wonderfully simple and an effective piece of mechanism, and express astonishment that it was left for a fourteen year old boy to conceive the idea.

"Of course," said one engineer, "we have had the protractor in use for years, but it is unsatisfactory, while the boy's invention just fills the bill."

Master Kopf has applied for a patent on his invention, and expects to sell it for a good price. He is a pupil at the Oliver Wendell Holmes school, and has a little workshop of his own at his home, where he puts in all his spare time in constructing mechanical tools and toys.—Chicago Inter Ocean.

FATALLY BURNED

ST. PAUL WOMAN A VICTIM OF KEROSENE ACCIDENT.

Mrs. Frank Reiners was probably fatally burned by exploding kerosene at her home, 360 Maple street, St. Paul, Friday afternoon.

She was about o make a fire in the kitchen range to cook supper. Apparently the fire went out, when she picked up the kerosene can and put oil into the range.

The lignite revived the fire, which leaped up to the can. In the explosion that followed Mrs. Reiners was covered with burning oil. She ran into the street a burning mass, where some neighbors came to her assistance. They wrapped her up in blankets, and in this way extinguished the flames.

Mrs. Reiners has been married but a week, and was formerly a resident of Minneapolis.

CHANGE IN DISPATCHERS.

S. O. Fox, who for a number of years has been in charge of the baggage and checked out freight at the Northern Pacific depot, has gone over to the Great Northern, where he will fill the position of night dispatcher, which is made vacant by the resignation of A. J. Johnson, who has filled the position long and acceptably. Mr. Johnson will for a time act as relief agent for the company at Georgetown, and may accept permanent service in that line. Wherever he goes, the best wishes of a host of friends will follow. Mr. Fox is an experienced operator and a man thoroughly in touch with all that is likely to come up in the way of business in a railroad office.

RABIES IN CHICAGO

Peter Cassazza, While Being Taken to the Paiteur Institute.

BREAKS LOOSE ON A TRAIN

And Starts a Lively Panic--One Man Severely Bitten on the Hand.

Chicago, June 28.—While being brought to this city for treatment for what several physicians say is a genuine case of hydrophobia, Peter Cassazza, whose leg had been lacerated by a rat, broke from his guards on a Chicago & Eastern Illinois railroad train, and before he could be overpowered he had bitten two men.

Cassazza's attack was the signal for a panic among other passengers. They knew he was suffering from the rabies, according to the doctor who was with him, and when he suddenly sprang to his feet, barking and snapping like a dog, everybody except the attendants and the train crew tried to escape from the car.

In the rush one man fell in the aisle. Cassazza seized this man's hand as he tried to pull himself to his feet.

Conductor Bailey seized the patient and dragged him from the prostrate man, and in so doing he was bitten upon the wrist. The name of the passenger who was bitten was not obtained.

While Cassazza and his companions were waiting for a train a station employe brought out a hose and began to sprinkle the platform. Cassazza caught sight of the water and immediately went into convulsions. Although the attendants were big men and strong, he seemed to be possessed of superhuman strength and easily threw them off, knocking one of them to the ground. As soon as he was free he ran over to the iron railings which separate the incoming and outgoing passengers, and began to but his head against the pickets.

He continued to bark and shriek at the top of his voice.

Dr. Wm. H. Griswold, of Chicago Heights, who has been attending Cassazza for the past week, is positive it is hydrophobia.

Policeman Richard Hamplin, of the Attrill street police station, who was bitten a dozen times Monday afternoon by a large Newfoundland dog, afflicted with rabies, is critically ill at his home at West Homer street.

DEADLY KISSING BUG

GETS IN ITS WORK WITH FATAL EFFECT IN CONNECTICUT.

Ansonia, Conn., June 28.—As the result of the bite of an insect, said by local doctors to be a kissing bug, Burton Griffin, aged 30, died here Wednesday in great agony.

The case is regarded as a remarkable one, and specialists in blood poisoning who were called in can offer no explanation of it.

Two weeks ago Griffin felt a twinge in his right arm. A large black insect flew off with a buzzing sound, leaving a drop of blood on the arm.

Next day Griffin became very ill. His arm began to swell, and within two days was spread over twice its natural size.

The poison spread rapidly throughout his system. The arm developed gangrene, but as the infection had spread beyond the shoulder it was useless to amputate. At length it turned black and the patient died.

A remarkable fact was that while swollen the arm could be freely bent without increasing the pain. Griffin was in robust health when bitten.

TALKED WITH FRANK

MINNEAPOLIS POLITICIANS SEE 7TH DISTRICT MAN.

Minneapolis Journal: Congressman Frank M. Eddy, who was at the Nicollet last evening was visited during the evening by several local politicians. Mr. Eddy is paying special attention to the opening of the Red Lake reservation. The secretary of the interior has promised to send an agent to confer with the Indians and endeavor to make an agreement for the occasion of this tract. It is expected that Maj. James H. McLaughlin, Indian inspector, will be selected to do this work. If he is successful, the matter will be taken up by the next congress. The tract comprises in all 1,584 acres of fine agricultural land. Mr. Eddy says there is no move being made toward opening the White Earth resrvation. He says that in his opinion Cuba will ultimately be annexed on her own request.

AMERICAN GRAIN

SHIPMENTS TO EUROPE CAUSE CONSTERNATION.

Vienna, June 27.—The Neue Freie Presse announces that Austria has begun to import grain from the United States, and remarks that American agriculture is becoming as dangerous to Europe as American commerce. Several Bohemian mills have ordered wheat and oats from the United States and these cargoes will be unshipped at Hamburg, thence transported to the river Elbe. The first shipment is due at Aussig, in Bohemia, on the Elbe, in a few days. The Neue Freie Presse declares that there is consternation in grain circles over the idea of America sending grain to a country which itself is a grain grower before everything else.

A $50,000 GIFT

FROM AN UNKNOWN DONOR BY A CHICAGO LADY.

Chicago, June 28.—Fifty thousand dollars from an unknown giver has reached the home of Mrs. J. G. Steinfield, wife of a florist, 3024 Wabash avenue. An announcement of the gift, which appeared in the "personal" column of a local paper, which was regarded by Mrs. Steinfield and her husband as a joke, proved correct when a party of men called at the home of the happy recipient of the gift, and after questioning her to some extent, presented her with a package containing a large sum of money. The personal announcement follows:

"Mrs. J. G. Steinfield—You have been very kind to me when I was sick at the home of R.. so please accept this $50,000 and do not seek the giver. Yours respectfully."

Mrs. Steinfield's husband conducts several floral establishments in the city. They are both young.

Mrs. Steinfield, when seen by a reporter, said she did not know whether the gift came from a man or a woman.

STILL PETITIONING

FOR THE PAROLE OF THE YOUNGER BROTHERS.

Geo. M. Bennett, the Minneapolis attorney, called on Gov. Van Sant yesterday morning and presented him with the Younger problem in the shape of a monster petition for the parole of the famous brothers. It is an extension of the old petition which was signed by Senator Davis. The last name on it is that of Archbishop Ireland. Mr. Bennett called on the distinguished prelate yesterday and presented the petition, which was promptly signed.

The petition calls for a pardon, but will be used in the campaign for a parole under the provisions of the Deming law. Mr. Bennett will appear before the board of pardons at their next meeting, July 8, and speak in support of the parole application, which has already been endorsed by the board of prison managers.

A RAVING MANIAC

RAN AWAY WITH HIS ENGINE IN INDIANA.

Evansville, Ind., June 29.—Dan Henyon, an engineer running between here and Louisville on the Texas road, went insane Thursday from the excessive heat and ran away with his engine.

He jumped on his engine in the yards below town two miles and made the run here unaccompanied.

He tore up switches and came near running into a passenger train.

The engineer of the passenger train saw the engine coming, and realizing something was wrong, took to a switch.

WhenHenyon was taken from the cab he was a raving maniac.

THE NEW CANAL AGE.

All over the world there is remarkable activity in canal building. Canada's vast outlay on canals is contemporaneous with yet larger expenditures by European countries.

Our consul at Reichenberg has just reported to the state department the Austrian plans, which he says are practicly assured of adoption, for building an immense net work of canals covering all the provinces of Franz Joseph's empire and connecting them with its main rivers and with the Adriatic, the Black and Baltic seas. The cost of the whole scheme is stated at $15,000,000, or nearly three times as much as it would cost to widen the Erie canal so as to make it navigable by barges 150 feet long, 25 feet wide and with a draught of 10 feet.

In the light of the enormous expenditures for canals either recently made or now making by all the leading commercial countries, the opinion that the time for canals is past seems not to be well founded. It appears instead that we are on the eve of a new commercial era in which canals are to play a larger part than ever.—New York World.

SOLD ADULTERATED LARD.

W. L. Chappell, of Fergus Falls, who is a member of the state dairy and food commission, has spent the past three days in Crookston where he has been examining into some violatious of the law against selling impure foods. While here on a previous visit Mr. Chappell secured samples of several products that were offered for sale, and they were submitted to the state chemist. Some of them, in the line of lard products, were found to be adulterated, and three of the dealers paid fines as a consequence of the state officer's visit.

ILL HEALTH REPORT DENIED.

Rome, June 29.—The report published in Paris that the pope is seriously ill and that Dr. Lapponi, his attending physician, does not leave the pontiff's side, is entirely unfounded. His holiness is in good health and yesterday received in audience the Austrian ambassador to the vatican and a number of other persons.

STATE DRAINAGE

Will Likely be Passed up For This Year---Fund Being Small

SCRAP OVER THE ENGINEER

W. R. Hoag of St. Anthony Park and Geo. Ralph of Crookston the Candidates

St. Paul, July 28.—P. E. Hanson, secretary of state, is trying hard to get a meeting of the new state drainage board, of which he is secretary. Governor Van Sant is chairman and State Auditor Dunn is the third member. The board has a very thankless task on its hands and is not at all anxious to take hold.

Only $25,000 a year was allowed by the legislature for the work of the board, and that will only be "a drop in the bucket" as compared with the amount needed. Every county in the Red River valley has applied for some drainage work, and applications have even been received from Todd, Aitkin and Meeker counties. Some of the main ditches in the Red River valley would cost $6,000 a mile. It is evident that $25,000 will not go very far and that most of the applicants will be disappointed. They will probably make a fight in the next legislature for $100,000 a year.

The commission will hold a preliminary meeting a few days and then take a trip to the Red River country. The members will select an engin er to make the survey and recommend localities where work is to be done. For this position there is a warm rivalry between Prof. W. R. Hoag of the state university and Geo. A. Ralph of Crookston.

It is probable that there will be no construction work done this year. The engineer will make surveys and estimates, and have everything ready for digging the ditches next spring and summer.

TO BLEACH THE NEGRO

A KANSAS PROFESSOR DISCOVERS A WAY.

Denver, Col., June 28.—Since their emancipation has been the dream of the black race that they might change their color, and it appears that their dream will be realized.

Prof. Johnston, of the university of Kansas, who is here, has discovered the means by which he expects to make the negro white.

Prof. Johnston's method consists of inoculating the negro with leucite, a harmless mineral, which is found in the systems of those strange oddities of nature known as Albinos.

Prof. Johnston has discovered that Albinism is the result of a disease; the white blood disease, or leucitis. Leucitis does not affect the general health.

Transmitted to a white skinned person, leucitis checks the deposition of dark pigmenary matter in the cuticle and gives to the skin a pale and sickly hue. Upon the skin of the negro it operates with great difficulty, and, while a colorless skin is the result of its work in a light skinned person, its effect upon the negro is to bleach the skin to a healthy flesh color.

The professor recently worked his discovery upon a negro with success. The negro's eyes did not change color and although his sking bleached, it did not assume the pale color of the Albino.

Prof. Johnston is confident that this discovery will work wonders in the scientific world.

$45,000 HAUL

MADE BY A PICKPOCKET ON AN OMAHA TRAIN.

Mankato, Minn., June 28.—A man named S. Shattuck, on his way to Anoka on the early morning Omaha passenger train, had his pocket picked of $4,500 in drafts shortly before the train reached Mankato yesterday. Two or three pickpockets who were suspected got off the train here and are thought to have gone out on the Great Western excursion to Stillwater.

A gang of pickpockets has been traveling over the Omaha to the Twin Cities for two or three weeks and officials have been trying to locate them. Police along the line have been asked to co-operate.

Mr. Shattuck had been in Iowa and was on his way home. Three men committed the robbery, but Shattuck can give no satisfactory description. One of them, he says, had a red mustache, and the hands of another were covered with freckles.

RED RIVER DRAINAGE

STATE BOARD WILL BEGIN TO INSPECT DITCHES IN JULY.

St. Paul, June 28.—E. G. Valentine, of the Red River Drainage board, was in the city yesterday on his way home from an eastern trip. The state board will begin the inspection of ditches early in July and make what repairs are necessary. Mr. Valentine said that with the exception of those ditches which are dry part of the year, but little repairing will be needed. Some of these partially dry ditches gather weeds and sand which wash down and form bars. The counties in which the ditches have been constructed will bear the expense of repairs.

"I think it would be well for the new state commission to begin surveys for drainage under the laws of last winter as soon as possible," said Mr. Valentine. "The new law provides for the drainage of state lands only. There are about 2,500,000 acres of these lands scattered through twenty-six counties. About one-tenth are located in the Red River Valley."

Teething

Then the baby is most likely nervous, and fretful, and doesn't gain in weight.

Scott's Emulsion

is the best food and medicine for teething babies. They gain from the start.

CARVER-BAGLEY CASE

THE SUPREME COURT DECIDES IN FAVOR OF PLAINTIFF.

The supreme court of the state of Minnesota Friday handed down a decision in the case of Carver Bros. against the Crookston Lumber company, that is of interest to the people who have anything to do with the handling of logs.

Two years ago last winter E. H., O. F., Nathan and Fred Carver contracted to cut and bank a quantity of logs for S. C. Bagley, to be taken from land owned by the Crookston Lumber company.

The following spring a settlement offered was not satisfactory to Carver Bros., and they brough tsuit against Mr. Bagley alleging a balance due of something like $3,000, placing a lien upon the logs for security. The district court gave plaintiff a verdict, and the case was carried up, but returned for modification of the verdict.

The lien held, but meantime the logs had been delivered to the Crookston Lumber company and converted into lumber. A suit was then brought for conversion of the property, and this was decided in favor of plaintiffs, and the defendant company appealed. The supreme court decides that the evidence sustains the verdict, and that the trial court committed no visible errors, so that the verdict will stand. By it the Carver brothers will recover $2,200 and interest for two years.

The case was conducted by A. A. Miller for the plaintiffs, Halvor Steenerson defending. It involved some very close law points, one of which was that the logs should have been sealed in this district, but were passed by the surveyor general of another district, which it was argued was fatal to the contention.

Mr. Miller is being congratulated upon this outcome of the case, as it has become one of state-wide prominence.

THE WISE DUTCH.

While all the great nations of the world are acting like greedy children that blindly grab because they see other children grabbing, Holland is perfecting a plan for expending $38,000,000 in creating a province.

The new province now lies at the bottom of the stormy, dangerous, useless Zuyder Zee. A dike is to be built, the great salt water lake is to be pumped dry and 500,000 acres of fertile land will be annexed to Holland.

This new province is ideal. It meets all the conditions which sane nations insist upon before annexing—it is contiguous to the national domain; it is capable of supporting a population like that of a nation; it offers opportunities for settlement; it calls for no violations of the great race laws which nations are so severely punished for disobeying.

While the great powers are squandering their resources, Holland is adding to hers. While they are providing distant graves for their soldiers, Holland is providing adjacent homes for her peaceful citizens. While they are contracting Holland is expanding.

The Dutch are a little people, yet they are exceeding wise.—New York World.

THE PRUDENT SCOTSMAN

A cautious Scotsman, eighty-five years old, had saved enough to purchase a piece of freehold land upon which he had had his eye for some time. He repaired to the freeholder and opened negotiations for the purchase. The freeholder, however, informed him that for some reason or other he could not part with the freehold, but said he would give him a lease for 999 years. This, he was informed was practically the same thing. "Na, na," said the aged one, shaking his gray head, "time soon rins awa."

GREAT BINDING TWINE OFFER.

If you need binder twine for this season's crop, and want the highest grade binder twine made, either Standard, Sisal or Manila, and you want to receive an astonishingly low price offer, an extraordinary inducement for you to send to Chicago for your twine, cut this notice out and mail to SEARS, ROEBUCK & CO., Chicago, Ill., and you will receive by return mail, postpaid, samples of the highest grade Standard, Sisal and Manila, together with a most extraordinary offer, including a special price that will mean a big saving to you.

THE STATE FAIR

Outlook For a Grand Success--- Best in the History of the Association

THE EXHIBIT OF STOCK

Will be the Biggist Thing in That Line Ever Held in the U. S. This Year

St. Paul, Minnesota, July 1.—Although it lacks something over two months until the time for opening the forty-second annual Minnesota state fair, a great many entries are being received. Both the date and the character of these entries indicate that the display this year will be exceptional. There is every prospect of a fine crop and corresponding prosperity among the farming classes and town and city merchants. This induces would be sellers to exhibit. On the other hand it is obvious that a liberal product of the soil and field will bring forward grains, fruits and animals of the best possible character, such as the farmer and stockman delights in showing.

The presence of the national exhibitions of the American Shorthorn association insures to the Minnesota state fair the largest cattle show ever seen on earth; for in addition to the great concourse of animals exhibited in these special departments every other breed will be well represented, stockmen being anxious of course to make a good showing alongside of the Herefords and Shorthorns. This will draw breeders from all over the United States and Canada, many of them who are not familiar with the resources of Minnesota. It will be an exceptionally good opportunity for advertising the state. Last year Minnesota received a vast amount of advertising from the men who came here to see the Hereford show—men who would not have visited the state for any other reason. They sang the praises of Minnesota far and wide. They were simply astonished at the things they saw. They have talked so much about the state and its advantages that it is morally certain that the crowd of exhibitors and visitors from the east and south will be very large this year; and they will be men of worth and weight too.

This condition of affairs is realized by the state fair managers and they will leave no stone unturned to make the coming fair fully representative of the northwest. The co-operation of exhibitors—both city and country—who have something representative to exhibit, is asked and there seems to be no doubt that it will be freely given. The new agricultural building will afford a splendid place for the display of grains and fruits, and there is likely to be such a display of forestry, minerals, fishes, dairy products, manufactures and raw materials as to convince the world that Minnesota is the richest state in the Union. Above all there will be a display of Minesota's people such as has never been seen before—a mass of happy, prosperous, well fed and well dressed people, who will advertise Minnesota as nothing else could.

In view of the great importance of the fair the special co-operation of the people of the cities is being asked by the fair management. Letters have been sent to many business and professional men and Secretary Randall is receiving many replies of an enthusiastic and encouraging nature.

A BRAND NEW BUG

MAKES ITS APPEARANCE IN CHICAGO FOR FIRST TIME.

Chicago, July 1.—Charles F. Healy, one of the clerks at the Harrison street station, is the first victim of a strange bug that has made its appearance since the heated term commenced.

It has been named by a zoologist the astragalus trichopterous, a suborder of the neuropetra, so called from the fact that it bites the ankle of its victim and is equipped with wings peculier to the neuronia. While sitting at a table playing dominos he felt something bite his left ankle. His left leg immediately became numb, the sensation being much the same as though it was "asleep." Later shooting pains developed, and there was a swelling about the ankle bone. A doctor made an examination of the wound. A little black spot showed where the "anklebug" had made its attack. Healy will recover.

LEFT HIS GOLD

KLONDIKE DISCOVEER SUCCUMBS TO CONSUMPTION.

New York, July 1.—Joseph La Due, the man who founded Dawson City and discovered the Klondike gold fields, and who has been named the "Discoverer of the Klondike Gold Fields," died at his home in Schuyler Falls, New York, last Thursday of consumption. He contracted the disease while prospecting for precious minerals in Alaska. LaDue was 47 years old. He was born in Schuyler Falls. When he was a young man he went west in search of gold, and in the '80's he went to Alaska on a prospecting tour. For 15 years he lived in the county without making any strike of consequence. Then he discovered the Klondike gold fields which made him rich and attracted to Alaska a throng of treasure hunters.

On June 23, 1897, he mapped and founded Dawson City at the mouth of the Klondike, he having been the first man to take up 178 acres of government land at $1.25 per acre. This land he cut up into building lots of 50x100 feet, which were soon selling at $5,000 a lot. In 1897 he returned to the east and on Dec. 15 of that year married Kitty Mason of Schuyler Falls, with whom he had been in love from boyhood. He organized the Joseph Ladue Gold Mining and Development company of Dawson, one of the largest in the trade. Ladue's health began to fail in 1898. He spent last winter in Colorada in the hope that the air would benefit him. He returned to his home less than a month ago.

SHILOH'S VICTIMS

WISCONSIN IS TO ERECT MONUMENTS IN THEIR HONOR.

Madison, Wis., June 29.—Gov. La Follette yesterday appointed the commission provided for by the last legislature to select and locate monuments on Shiloh battlefield for Wisconsin soldiers. Those named are Rockwell E. Osborne, La Crosse; and Captain F. H. Magdeburg, Milwaukee, of the 14th regiment; D. Lloyd Jones, Milwaukee, and David D. James, Richland Center, of the 16th; J. W. Baldrock, Brant, of the 18th.

Hugh Caffrey, a carpenter, was overcome by the heat while at work yesterday and was taken home. He will recover.

Seven hundred farmers and their wives and families visited the university farm and experiment station yesterday, coming from all points within 150 miles, on the second annual excursion of the kind. They were met by Dean Henry and Prof. Moore, and guides were on hand to show them through the different buildings and explain methods of treating stock and growing crops. At noon all lunched on the floor of the big horse barn, where tables were set.

THE MISSING GIRL

WHO CAUSED MUCH ANXIETY IS HOME AGAIN.

Janesville, Wis., June 29—Miss Helen Fifield, for whom the entire country has searched for a week, arrived in Janesville Thursday night. She was found in Buffalo and arrived home in the same costume in which she left a week ago. In answer to questions, she said:

"I don't know when or how I left home. I have no recollection of being in Chicago, and I certainly can't tell how I got to Buffalo. I only know that I am glad to be home with my family and friends again."

WHITE MAN TURNED YELLOW.

Great consternation was felt by the friends of M. A. Hogarty of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, and he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful stomach and liver remedy, and he writes: "After taking two bottles I was wholly cured. A trial proves its matchless merit for all stomach, liver and kidney troubles. Only 50c, sold by A. G. Anderson, druggist.

RESPECT FOR A MEMBER.

The funeral of Carl Ormsrud was held from the Synod church at 2 o'clock p. m. Monday and was largely attended. The church was appropriately decorated for the occasion, and the casket was banked by floral offerings, the choicest obtainable. The Crookston band, of which deceased was a member, attended in uniform and preceded the cortege to the grave, playing a funeral march. The remains were attended to the grave by a large concourse of sorrowing friends.

IT DAZZLES THE WORLD.

No discovery in medicine has ever created one quarter of the excitement that has been caused by Dr. King's New Discovery for consumption. It's severest tests have been on hopeless victims of consumption, pneumonia, hemorrhage, pleurisy and bronchitis, thousands of whom it restored to good health. For Coughs, Colds, Asthma, Croup, Hay Fever, Hoarseness and Whooping Cough it is the quickest, surest cure in the world. It is sold by A. G. Anderson, who guarantees satisfaction or refunds money. Large bottles 50c and $1.00. Trial bottle free.

'TWAS JUST OUT OF THE SHOP.

Tom Nelson has been having his buggy repaired and repainted, and today Alderman Matheson turned it out of his shop as good as new. Nelson started to draw it home by hand this afternoon, and stopped at Magnussen's to get a whip with which to hurry himself along, when Baker Clysdale's horse came along without a driver, collided with the buggy and upset it. It went back to the shop for repairs.

A POOR MILLIONAIRE.

Lately starved in London because he could not digest his food. Early use of Dr. King's New Life Pills would have saved him. They strengthen the stomach, aid digestion, improve appetite. Price 25c. Money back if not satisfied. Sold by A. G. Anderson, druggist.

MPLS. A BANANA CENTER.

It is the boast of Minneapolis fruit men that nearly 1,000 carloads of bananas will be distributed from this city this year. The trade in that fruit this year is breaking all records. Twelve years ago a full carload of bananas had not been received at this point. Last year the trade of Minneapolis had increased to such an extent that 808 carloads were necessary to supply the demand. Fruit men say that Minneapolis buys the best bananas imported. These come from Costa Rica.—Minneapolis Journal.

POPE SERIOUSLY ILL.

Rome, June 29.—The pope is seriously ill. A physician remains constantly at his bedside. Vatican officials fear he is near death.

OUR NATION'S MISSION.

However much we may boast of our greatness as a nation, with however much pride we may point backward over the pathway of the past century, and call attention to the progress that has been made in letters, arts and inventions, there still remains the conspicuous fact that the American type of Christianity has not yet accomplished any phenomenally great success in securing the control and dictating the moral standard of the nation. We are not pessimistic in our views of existing conditions, and do not for one moment waver in our faith that the world is growing better, and that our country is in the van of improvement in the world's morals, as well as in other things. And yet there are some things Americans have not yet learned, which must be thoroughly learned and put into practice before we as a profesesdly Christian nation have any right to a feeling of complacency in regard to the way we have met the responsibilities with which we are invested as a nation by the Supreme Ruler of the univeres.

As a nation we have not yet come to realize as we should, that God reigns, and that it is of the utmost importance that the principles upon which His kingdom is established should be carefully studied and strictly complied with.

We believe it true beyond a doubt that the American nation has been selected by the Divine Ruler as the one to demonstrate to the other nations of the world the superiority of the republican form of government. And still further, we believe that this nation has consigned to it in the Divine economy, a more important part in working out the world's destiny than has been committed to any other nation.

But to meet this responsibility aright and carry forward the work with the promptness we ought, we must learn to substitute the rule of rightness for the rule of expediency which is now so universally applied in national as well as individual affairs.

Expediency has no direct aim or purpose. It is vacillating and variable in its direction, enervating in its influence and destructive to manliness of character in its final result, when applied at a sacrifice of moral principle.

In a republican form of government the action of the executive department in its treatment of moral questions expresses the sum of the thought and purpose of the individuals composing the nation upon such questions. And only to the extent that the individuals composing the nation are influenced and guided by correct conceptions and convinced of the final triumph of truth and the omnipotence of the Divine will, will the American nation be impelled forward in the line of her true destiny.

POLITICAL CHATTER.

Close friends of State Auditor Dunn declare that in spite of his positive assertion that he will not be a candidate again, his name will be on the state ticket next summer. They would prefer to see it in a top-of-column position, but that is out of the question so long as Van Sant is on the running. The prediction is that Dunn will again be a candidate for auditor. Said one of his friends yesterday:

Dunn will add more strength to the ticket than any other one man. Whether he wants it or not, he will be renominated. If Van Sant and Lind run against each other again, we shall need every element of strength we can get, and Dunn will have to take the nomination for the good of the party.

Dunn has already declared himself for Sam Iverson, his chief deputy, who is an avowed candidate. Dunn is said, however, to have expressed disapproval of Iverson's early announcement. He thought it wiser to leave the question of the Dunn candidacy open till later in the day. This would keep out other aspirants until conditions were ripe for the Iverson campaign.

Dunn and Iverson will not both be candidates. There is too good an understanding between them for that. Iverson is the candidate and unless something extraordinary turns up, he will be a candidate until the convention meets. Then if the situation proves mixed, with the field badly divided between Iverson, Halden, Jacobson and other candidates, Dunn's name would be quite sure to appear as the solution.

A. N. Dare said months ago that if Dunn wanted to be governor, he should take another term in the auditor's office, and keep himself before the people. Without doubt Dunn is figuring on the governorship, and if consideration for Van Sant keeps him out of the field next year, he will certainly "bob up" in 1904.

This is the program mapped out by one of the wise ones at the capitol: Van Sant for governor and Dunn for auditor in 1902.

Dunn for governor in 1904. When nominated Dunn would resign the auditorship, and Van Sant would appoint Iverson to fill the vacancy. The other two years of the term would be filled by special election, and being already in the office, Iverson would have the call on the nomination for the unexpired term.—Minneapolis Tribune.

A HAND MORE THAN A LIFE.

A jury in the district court Wednesday gave a verdict for $5,000 to a plaintiff whose hand had been injured while the man was in the employ of a transportation company. Had the plaintiff lost an entire hand the jury might have given him $10,000, if both hands had gone the probable compensation would have been $20,000. An ear added to the loss would probably have brought $5,000 more, and so on. For what might be called cumulative mangling, the injured party might have secured, had he been mangled enough, $50,000. The court might have sustained the verdict, and an appeal would possibly have affirmed the decision.

Yesterday, another jury returned a verdict for $5,000, which is the measure of the value of a human life. The jury that is unhampered in fixing the value of a finger, an ear or an eye, is bound by an ironclad statute against the exercise of its own judgment in fixing the value of a life. The mulct for a member of the human body may be carried to any sum apparently equitable, when estimated in connection with the victim's situation, habits and opportunities. But though he were the father of a dozen children, and well able to take care of them, his orphans must go to the poorhouse if his life be taken, unless his foresight has provided something for them in the way of life insurance, as fortunately was the case in this instance, for the sum the law now allows as the maximum value of a slaughtered human being is $5,000. Here is an opportunity for the law makers of Minnesota to correct an inequality in justice.

Cass Lake Times: Last year's village council of the village of Deer River was indicted by the grand jury at Grand Rapids last week. The crimes for which these worthies were presented is not stated in the dispatches, but enough can be gathered to hazard an opinion, that none of them knew the difference between the property and money belonging to the village and their own. This is an invasion of the rights of the average village councillor, and the grand jury of Itasca county has set an example that may be followed by some of the other counties of the north part of the state. It is high time that the trustees of the villages shall begin to consider that they do not own the moneys of the village treasury and that their duties are not to squander the funds of the village for their and their friend's benefit, but to protect and defend it against all attacks of those who attempt to plunder. We hope these cases will be followed and the parties if guilty will be punished as they deserve.

COMPARISON OF VIEWS.

Mayor Ames of Minneapolis and Archbishop Ireland each made a speech Tuesday, the former before the State Retail Liquor Dealers' association, and the latter before the convention of the Catholic Total Abstinence societies. The Minneapolis Journal calls attention to the diametrically opposed views of the two men as follows:

Said the mayor: The business in which you are engagedis an honorable one, and you are entitled to as much anyone else in the community. (Ap- anyone else i uthe community. (Applause.)

Said the archbishop: Drunkenness is now treated with contempt and the liquor business is without respect.

The diametrically opposed views of the two men require no comment, but we submit that Mayor Ames is wholly in the wrong and gratuitously insults the farmer, the grocer and other useful members of the community when he says the saloon keeper is entitled to as much respect as they are.

A Pennsylvania cow took one of those strange and uncomprehended freaks which are not uncommon with gentle bovines, and walked into a department store in a suburb of Philadelphia the other day. True to her sex she made directly for the ribbon counter, perhaps from some past memory of blue ribbons at the county fair. Here her attention was diverted to a love of a bonnet, near at hand in the millinery department, and her enthusiasm in getting it on her horns disturbed the other lady shoppers. The women clerks were all too busy to attend to the cow and the clerk of the butter and egg department was called in, who gently and deftly adjusted a new thing in butter tubs over the cow's head. Blinded by her own vanity she was led submissively away without any other bargain than the tub.—Minneapolis Times.

The only reason why a bank makes more money than a newspaper is that the banker insists on getting paid for what he does, and he always gets his pay in advance. The newspaper man who conducts his business, as a banker conducts his business, never has to beg for cordwood on subscription, accept alms given by men who advertise only because they want to "support the paper," or buy their way into society with newspaper puffs of social functions. Is there any good reason why newspaper men should not be business men, just like bankers?

The above from the New York Ledger is pertinent everywhere. And to it we will add the question, is there any good reason why people should not expect to deal with the newspaper man on a business basis, as they do with bankers?

St. Peter Free Press: The total amount of claims filed by states and territories for expenses incurred in equipping volunteer troops for the war with Spain was $8,801,927.82, of which $3,824,038.06 remains unpaid. The auditor for the war department says the only reason all the claims have not been paid yet is that irregular methods have been employed by the states and territories in making expenditures in question. He adds that while this has delayed payment that all expenditures vouched for by the proper authorities will eventually be paid but that it is necessarily slow work to straighten out the irregularities.

OUR FINANCIAL STATUS.

Secretary Gage, of the United States treasury, is quoted as saying in reference to the condition of the national finances:

"The general situation is very gratifying. We go into the future with a very strong treasury, ample to meet any unfavorable emergencies with revenues so fairly well established that they may be counted on with a high degree of certainty in meeting the expectations and estimates that have been formed. By the time congress meets we shall be five months into the fiscal year, and the practical working out of the reduced internal revenue taxes which go into effect today will be fairly demonstrated, and we shall be at that time able to correct our estimates of expenditures, if necessary, to accord with the reduction in the cost of maintaining the army."

The editor of the Muscotah (Kan.) Record makes a few announcemnts which he believes will interest his readers, as follows:

"For the first time we were married on Wednesday. We have contemplated this step for a long time, but lack of funds has always prevented, until we finally decided to get married and trust to Providence for the rest. The subscription rates of the Record will remain at the same price. Only the immediate relatives were present at the ceremony. Our views on the money question will remain the same, only we need more of it. Will go to housekeeping in the Asquith home, in Second street."

Herbert Spencer says: "Whatever fosters militarism makes for barbarism; whatever fosters peace makes for civilization. There are two fundamentally opposed principles on which social life may be organized—compulsory co-operation and voluntary co-operation—the one applying coercive institutions, the other free institutions. Just in proportion as militant activity is great does the coercive regime more pervade the whole society. Hence, to oppose militancy is to oppose return toward despotism. My fear is that the retrograde movement will become too strong to be checked by argument or exhortation."

Ellendale Record: News comes from the Red River Valley that grasshoppers are destroying the wheat crop. They are gathering them in with the patent hopper dozer at the rate of about 15 bushels to the acre. We have heard of none here but grashoppers like wheat, and the Valley has been so extensively advertised as the greatest wheat country in the world, that the hoppers have got onto it, hence they went over Dickey and lit down in the wheat ranges of the Valley. They seem more plenty on the Minnesota side of the river than on the Dakota side.

About two minutes by the watch each week after the Union's edition is entirely printed, some fellow will take occasion to tell me of some good news item, and if I had any hair on the top of my head where the hair ought to be, every one would stand on end with righteous indignation. Now I don't care a naughty swear word for items of news after the paper has gone to press, but I do before, and no fellow is a friend of mine who fails to tell me news when it can be used.—Anoka Union.

The above will undoubtedly meet a sympathetic response in every editorial breast.

TheHutchinson Times in its column of solos says: Old Allen of the Battle Lake review disputes the statement made by a doctor that the follicles are not dead on bald heads. The Growler says every doctor who has looked at his head says the follicles are so near dead that his head will ever be a skating rink for flies. The poor man came to this terrible condition by telling too much of the bald and naked truth. Lots of editors are going fast down the road to early baldness for the same reason. The Soloist is thinking of reforming.

A contemporary calls attention to the fact that the American jockey that won the race at the English derby last week was handed a cool $10,000 as his fee while President McKinley labors slavishly for the people a whole year for $50,000. A successful prizefighter will rake in $50,000 for a few stand up and knock downs while the average minister of the gospel gets only $800 or a $1,000 for a whole year's service.

Norman County Index: Polk county has a judge of probate who refuses to recognize a modern convenience like the telephone and people desiring to talk with his honor have to hot-foot it to his office. The public be d—'d must be his motto.

The science of faith cure has advanced in Haawii far beyond its attainments in the United states proper. There the disciples undertake to remove by prayer objectionable officials who are invulnerable to political opposition.

STILL MORE OF 'EM

The Hoppers Have Appeared in Large Numbers in the City

FARMER LIVING IN RUSSIA

Reports the Biggest Catch of the Year, and Plenty Got Away

Portions of the township of Russia are being devastated by grasshoppers, and in some localities they are destroying a large area.

Theodore Noesen was in the city Tuesday and says that on his farm a tract of 160 acres seems doomed already, 60 acres of wheat have been swept clean of all vegetation, and the other crops, such as timothy and barley, are also being cleaned out.

Mr. Noesen says that during two days' work with a dozer he has gathered 12 bushels of hoppers, and the estimate is that ten jump out of the pan to die on the ground for every one captured. The insects are so numerous, said Mr. Noesen, that it is impossible to walk through the field with one's eyes open.

Large numbers of hoppers settled down in the city Tuesday afternoon, and the sidewalks were covered with them. At certain points hundreds of them would fly up in front of a pedestrian while going the length of a block. Those noticed in the city have the red legs and white wings, with dark spots, that indicate the voracious sort.

SENATOR KYLE DEAD

AFTER TEN DAYS' ILLNESS AT HIS HOME IN ABERDEEN.

Aberdeen, S. D., July 2.—Senator James H. Kyle died at 6 o'clock last evening after an illness of ten days' duration. He had rallied, and hopes were entertained of his recovery. He leaves a widow and two children.

James Henderson Kyle was born at Xenia, O., Feb. 24, 1854. He graduated from Oberlin college in the classical course in 1878; prepared for admission to the bar, but afterward entered the Western Theological Seminary, Allegheny, Pa., graduating in 1882, and subsequently engaged for several years in educational and ministerial work in Utah and South Dakota. At the time he entered political life he was financial secretary of Yankton college, Yankton, S. D. Was elected to the state senate as an independent in 1890; was elected to the United States senate to succeed Gideon C. Moody; was re-elected in 1897 as an independent. His term of service would have expired March 3, 1903. During the past two or three years senator Kyle has been found laboring more in harmony with the republican party, with which he at one time affiliated, and for some time he has been considered a republican.

SCHURMER GETS VERDICT

BUT THE AMOUNT IS NOT AS LARGE AS EXPECTED.

The case of Schurmer vs. Long, that was on trial before Judge Watts yesterday, in which the plaintiff sought to recover for a breach of warranty on a team, went to the jury after court called this morning, and remained there until after 4 o'clock. The 12 good men and true had considerable difficulty in setting the scales of justice so that they would balance evenly, but finally decided that the plaintiff had $25 coming his way.

The court took up the case of Nils C. Slungaard vs. Hans J. Laud et al., a suit in ejectment, to recover possession of a piece of land in eastern Polk county. Evidence in this was taken and the court then began consideration of one of the appeal cases from probate court in the matter of the estate of Michael Brady. This occupied the time until the close of the day.

APPLICATION FOR LICENSE TO SELL INTOXICATING LIQUORS.

To the village council of the village of Climax, in the county of Polk and state of Minnesota:

The undersigned Evenson Bros., hereby make application for a license to be granted them to sell intoxicating liquors for a period of one year from the 9th day of July, 1901. The place where the said business is to be carried on is designated as follows:

Lot (8) eight, block (3) three, in one story frame building in the village of Climax, Polk county, Minn.

Said applicants pray that such license be granted to them pursuant to the ordinance of said village of Climax, and the statutes of said state of Minnesota, in such case made and provided.

Dated at Climax, Minn., June 20th, 1901. —Evenson Bros. 12-14

NOTICE FOR PUBLICATION.

DEPARTMENT OF THE INTERIOR, Land Office at Crookston, Minn, May 13, 1901.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the Register and Receiver of the U. S. Land Office at Crookston, Minn., on July 5th, 1901, viz:

Ole P. Sessaas, H. E. 15979, for the E½ SW¼ and lots 6 and 7, Sec. 6, Tp. 147 N., R. 45 W.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz:

Louis, B. Haftorson, of Fertile, Minn.
Ole N. Tarvestad, of Fertile, Minn.
Hans M. Holmvek, of Beltrami, Minn.
Ole B. Bolstad, of Fertile, Minn.

—Sylvester Peterson, Register.

7-12

UNITED STATES LAND OFFICE,

Crookston, Minnesota.

Notice of intention to make proof of right to purchase, under the 5th section of the act of Congress, approved March 3, 1887.

Robert J. Montague, of Crookston, Minnesota, having on June 11, 1901, filed in this office his application to purchase, under the 5th section of the Act of Congress, approved March 3, 1887, lot Four of section Thirty-three, in township One Hundred and Fifty North, of range Forty-six West of the Fifth principal meridian, in Polk county, Minnesota, and filed in connection with said application his affadavit in support of his right to purchase the said land, and asking that the St. Paul, Minneapolis and Manitoba Railway company and one Edwin F. Kelly, who is living upon and claiming some right to the said land, under the homestead laws of the United States, be cited to appear and show cause, if any they have, or objections to the submissions of such proofs or consummation of title to the said lands by him, in the manner in said application proposed, and asking that a time be set when he might appear with his witnesses before this office and make proofs of his right to purchase the said land and consummate his title thereto. Said Robert J. Montague offers to make such proof by himself and by the following named witnesses:

James Greenhalgh, postoffice, Crookston, Minnesota.
Joseph Gauche, postoffice, Crookston, Minnesota.
William Watts, postoffice, Crookston, Minnesota.
E. C. Davis, postoffice, Crookston, Minnesota.
Albert J. Lachapelle, postoffice, Red Lake Falls, Minnesota.
James Stoddard, postoffice, Land Dept., Great Northern Railway Company, St. Paul, Minnesota.

And by the records of this land office, and of the office of the register of deeds of Polk county, Minnesota, and by other documentary evidence and especially by a contract executed by the St. Paul, Minneapolis and Manitoba Railway Company, dated January 27, 1881, to one Ozora P. Stearns, and by the books and records and vouchers of the said reailway company, and certain contracts and assignments and deeds by said Ozora P. Stearns and his assigns and grantees under him; and the right of said Robert J. Montague is claimed under and by virtue of said contract made January 27, 1881, by said railway company to said Ozora P. Stearns, of which contract and all rights thereunder the said Robert J. Montague claims to be the assignee, holder and owner.

Notice is hereby given, that said proofs in support of the claim of said Robert J. Montague to purchase said land will be made before the register and receiver of the United States land office at Crookston, Minnesota, on August 6, 1901, at ten o'clock a. m. of that day; and the said St. Paul, Minneapolis and Manitoba Railway Company, and the said Edwin F. Kelly, and all other persons interested, are hereby cited to appear before said register and receiver at the time and place above named, and show cause, if any there be, or any objections which they may have, to the making of said proofs and consummation of title to the said lands by the said Robert J. Montague, in the manner in said application proposed.

Dated June 18, 1901.

SYLVESTER PETERSON, Register.

11-16

MORTGAGE FORECLOSURE SALE.

Default having been made in the payment of the sum of four hundred and five dollars, which is claimed to be due and is due at the date of this notice upon a certain mortgage, duly executed and delivered by Samuel J. Cunningham and Louie E. Cunningham, his wife, mortgagors, to the Security Trust Company, mortgagee, bearing date the 9th day of December, 1891, and with a power of sale therein contained duly recorded in the office of the register of deeds in and for the county of Polk and state of Minnesota, on the 17th day of December, 1891, at 2:35 o'clock p. m., in book 50 of mortgages, on page 152.

Which said mortgage, together with the debt secured thereby, was duly assigned by said Security Trust Company, mortgagee, to Julia W. Powers by written assignment dated the 9th day of December, 1891, and recorded in the office of said register of deeds, on the 4th day of February, 1892, at 9:40 o'clock a. m., in book 56 of mortgages, on page 373.

Which said mortgage, together with said debt secured thereby, was duly assigned by said Julia W. Powers, the assignee and holder thereof, to William C. Haney, by written assignment dated the first day of May, 1901, and recorded on the 23rd day of May, 1901, at 11 o'clock a. m., in book 99 of mortgages, on page 609-610, in the office of said register of deeds, and no action or proceeding having been instituted, at law or otherwise, to recover the debt secured by said mortgage, or any part thereof.

Now, therefore, notice is hereby given, that by virtue of the power of sale contained in said mortgage, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, viz:

Lot four in section thirty-three, in township one hundred and fifty, of range forty-six, containing 44 acres, more or less (Lot 4, Sec. 33, in Twp. 150, of R. 46,) in Polk county and state of Minnesota, with the hereditaments and appurtenances; which sale will be made by the sheriff of said Polk county, at the front door of the court house, in the city of Crookston, in said county and state, on the 13th day of July, 1901, at ten o'clock a. m., of that day, at public vendue, to the highest bidder for cash, to pay said debt of four hundred and five dollars, and interest, and the taxes, if any, on said premises, and twenty-five dollars, attorney's fees, as stipulated in and by said mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Dated May 29th, A. D. 1901.

—William C. Haney,
Assignee of Mortgagee.

—Samuel Morrison and
—R. J. Montague,
Attorneys for Assignee.

8-13

SHERIFF'S SALE.

By virtue of an execution, issued out of and under the seal of the district court, in and for the county of Polk and state of Minnesota, upon a judgment rendered and docketed in the said court on the 12th day of April, A. D. 1901, in an action wherein The McCormick Harvesting Machine Co., a corporation, is plaintiff, and William L. Davies is defendant, in favor of the said plaintiff and against the said defendant, for the sum of Five Hundred Forty-seven and 32-100 ($547..32) dollars, which execution was directed and delivered to me as sheriff in and for the said county of Polk, I have this 11th day of May, A. D. 1901, levied upon all the right, title and interest of the said defendant William L. Davies in and to the following described real property situated in the county of Polk and state of Minnesota, to-wit:

The southwest quarter of the southwest quarter, the northeast quarter of the southwest quarter, and the southeast quarter of the southwest quarter of section number sixteen, township one hundred fifty-three, range number forty-seven.

Notice is hereby given that I, the undersigned as sheriff aforesaid will sell the above described real property to the highest bidder for cash at public auction at front door of the court house, in the city of Crookston, in the county of Polk and state of Minnesota, on Friday, the 19th day of July, A. D. 1901, at ten o'clock a. m., of that day, to satisfy the said execution together with the interest and costs thereon.

Dated June 5th, A. D. 1901.

—E. J. SULLIVAN,
Sheriff of Polk County, Minn.

—A. A. MILLER,
Attorney for Plaintiff.

9—15

SHERIFF'S SALE.

By virtue of an execution, issued out of and under the seal of the district court, in and for the county of Polk and state of Minnesota, upon a judgment rendered and docketed in the said court on the 12th day of April, A. D. 1901, in an action wherein The McCormick Harvesting Mathe southwest quarter of section number chine Co., a corporotion, is plaintiff, and William L. Davies is defendant, in favor of the said plaintiff and against the said defendant for the sum of Two Hundred Twenty-one and 40-100 ($221.40), dollars, which execution was directed and delivered to me as sheriff in and for the said county of Polk, I have this 11th day of May, A. D. 1901, levied upon all the right, title and interest of the said defendant William L. Davies in and to the following described real property situated in the county of Polk ond state of Minnesota, to-wit:

The southwest quarter of the southwest quarter, the northeast quarter of the southwest quarter, and the southeast quarter of sixteen (16), township number one hundred fifty-three (153), ronge number forty-seven (47.)

Notice is hereby given that I, the undersigned, as sheriff aforesaid, will sell the above described reol property to the highest bidder for cash at public auction at front door of the court house, in the city of Crookston, in the county of Polk and state of Minnesota, on Friday, the 19th day of July, A. D. 1901, at ten o'clock a. m., of that day, to satisfy the said execution together with the interest and costs thereon.

Dated June 5th, A. D. 1901.

—E. J. SULLIVAN,
Sheriff of Polk County, Minn.

—A. A. MILLER,
Attorney for Plaintiff.

Gasoline Threshing Outfits

Farmers, Save Your Money!

BUY A GASOLINE RIG AND PUT YOUR WHEAT IN THE GRANARY FOR THREE CENTS A BUSHEL.

We Handle the Celebrated Flour City Gasoline Engine

It is the simplest engine on the market Any boy can run it. It has a perfect mixing device. The sparker never fails. If you have a Flour City Engine you will never have to wait for power. Four years of successful threshing in the great wheat fields of North Dakota have proved its value to the farmers.

We also handle the Light Running DIXIE SEPARATOR

N. P. Stone & Co.
Crookston, Minn.

CITY AND VICINITY

Wm. Brandt, of Belgium, was one of us Monday.

J. H. Hemphill went to Detroit to spend Sunday.

Charley Latta came in from St. Hilaire to spend Sunday.

C. W. Colbertson left Monday, returning to his former home at St. Ausgar, Ia.

Mrs. Dr. Robertson and daughters are visiting with Mrs. Samuel Hayes at Neilsville.

Dr. and Mrs. Hodgson, of Fisher, returned Monday from a trip to the Pan-American.

Ed. Mossefin and Albert Kleven have returned from their claims in the Red Lake country.

Misses Annie Funk and Pearl Fox returned Monday from a visit with Grand Forks friends.

For nervousness and sleeplessness try Lincoln's Hop and Celery Nerve Tablets. 25c per box.

Among the Ada people registered at the Crookston Monday: L. Roesch and I. P. Roesch and ladies.

The Wagner brothers, Charles, Will and Fred, were down from Buffington transacting business Monday.

C. D. Billings, Chas. Westerberg and F. E. Westerberg went to Grand Forks late Saturday to boom the Fourth.

F. C. Barholz, of Fertile, had business in Crookston on Monday and arrived on the morning train ready for it.

Mr. J. Goodman was here over Sunday as the guest of Miss D. Prudhomme, and proceeded to St. Paul last night.

Miss A. Rocheleau, whose home is at Little Falls, is the guest of Mrs. Marotte, of the Grand Central, this week.

Victor Desautels, once a Crookston boy, now a resident of Grand Forks, was among those who spent Sunday in the city.

—Fine photographs in all styles from $1 to $20 per dozen at Skrivseth's art studio, near Commercial hotel, Broadway.

Miss Osa Clements is entertaining her cousin, Miss Mildred McCabe, of Minneapolis, who will remain for a couple of weeks.

Mr. and Mrs. David Flemming, who were in town on Thursday, left on Saturday for Mallory to make their future home on the groom's farm.

R. B. Shute welcomed the arrival of his wife and mother Sunday, who came up from Minneapolis, where Mrs. R. B. Shute has been visiting during the past month.

Senator Myran of Ada was in the city Sunday, the guest of A. F. George and Sylvester Peterson. The senator is spending a portion of the time in the Twin Cities this summer, but has his eye on the affairs of the valley at all times.

Frank Cadwell is among those who has earned a vacation, and he proposes to take it on an eastern trip. He left his grips at home and started on Saturday for Buffalo, where he will see all that is worth spending time in seeing at the big show.

Sheriff Sullivan has a new boarder in the person of Bona Landande, whom Sheriff Bailey brought down from Bemidji on Saturday to await the action of the grand jury that will convene out east at the next term of court. The charge lodged against him is that of burglary.

Rev. J. T. Bursett, who has had charge of the spiritual welfare of a flock at Berlin, New Hampshire, since severing his connection with the United Lutheran church in this city, has been spending a few days here and left Saturday for the east, tarrying for a day at Fergus Falls. He is pleased with the work in New England, but says the people there lack somewhat of a bustle and push of the westerners.

The attempt of H. C. Hirschy to establish a world's record for breaking 1,000 clay pigeons was completed on Saturday. At the tournaments at Grand Forks, Bemidji and Crookston Mr. Hirschy had broken 960 birds. He proceeded to break forty without a miss and kept up the lick until he had broken 78 without a skip. Out of the thousand Mr. Hirschy failed to break 38 birds. His longest successive run was made at Bemidji, when he broke 165 straight.

James O'Neill, who was for years one of the popular conductors on the northern division of the Great Northern, and who was called into the general offices one day and informed that a promotion was due him, came in Saturday on No. 13, and spent the day getting good words from the railroad boys and all others who know him, on his success as a manager. Mr. O'Neill is now filling the position of assistant superintendent of the Montana division of the Great Northern.

I have used Dr. Seth Arnold's Cough Killer in my family for thirty years—Rev. J. W. Cole, Northampton, Mass.

Don't forget that Mull's Lightning Pain Killer kills all pain instantly. $1,000 offered for its equal. Free from opiates. 25c.

Mrs. J. F. Montgomery came down from Angus on Sunday to welcome home her sister and brother-in-law, Mr. and Mrs. W. P. Murphy.

Mr. and Mrs. J. M. Ball are entertaining Mr. and Mrs. E. A. Blaisdell and Mr. A. Collins, old time friends and neighbors from East Concord, Minn.

Mr. and Mrs. Oscar Lundquist of Argyle, were here Monday, returning from a honeymoon trip, during which they saw the sights at the Pan-American.

Ed. Moeckel, one of the leading men in the mail service on the Great Northern road, was up from St. Paul on Monday a guest of Mr. and Mrs. A. F. George.

Lauritz Melgaard, of Kennedy, passed through the city Monday, returning from Wisconsin, whither he went to attend the wedding of a brother.

Halvor Rasmusen, of Moorhead, is here on a visit to his son, the colonel, and to the family of O. D. Rood, and looking after some matters of private business on the side.

Don't hesitate if you suffer from the tortures of rheumatism. Take Mull's Pioneer Rheumatism Cure. A dollar draft in each $1.00 box; cash it if medicine fails. 25c.

Mr. and Mrs. W. P. Murphy returned Saturday from Eau Claire, Wis., where they have spent their honeymoon days, visiting at the former home of the groom.

Mrs. Morley, who has spent three months as the guest of her son, Dr. Morley, left Monday, returning to her home in the east. She will tarry at Duluth and Ashland en route.

Manager Swensen has been informed that Mr. Walter R. Howell will be sent here to relieve him early in July. The letter does not say where Mr. Howell has heretofore been employed.

FOR BOTTON PRICES AND QUICK SHIPMENT, CORN, OATS, GROUND FEED, WOOD AND LIGNITE COAL ADDRESS L. B. GIBBS, GRAND FORKS, N. D. ALSO NORTHWESTERN AGENT PILLSBURY'S BEST FLOUR.

Editor Gordon, of the Journal, left Saturday, accompanied by Mrs. Gordon for Buffalo. They will tarry for a few days' visit with friends at Three Rivers, Mich., and will be absent a fortnight.

Mr. and Mrs. H. W. Stark, of McIntosh, tarried in the city between trains Monday enroute home from a honeymoon trip. Mr. Stark is one of the newly accredited attorneys at the Polk county bar.

Mrs. Falk arrived from Chicago Monday and will remain during the summer as the guest of her daughter, Mrs. S. Rosenthal. Later in the season Mr. and Mrs. E. W. Wile will join the family at Maple Lake.

Miss Cordelia Caron, who has spent the past year in dressmaking in this city, left Sunday for her home at Faribault, accompanied by her mother who has been a visitor in the city during the past two weeks.

Papers passed Monday in the matter of the lease of the vacant room in the Anderson-Olson block to A. O. Basternd, who will open a hardware store there, instead of in the room under the opera house, as at first reported.

Judge Morrison went to St. Paul on Saturday night and Sundayed with his friends below. He was accompanied on his return by his daughter, Miss Cordelia Morrison, who will spend a portion of her vacation in Crookston.

Carl Habadunk, one of the Norman county farmers, was here to report to F. A. George the condition of things across the line, where the latter has an excellent farm which Mr. Habadunk is managing.

A delegation of Beltramites arrived Monday to give evidence in court trial between two of the people down that way. Among the number were E. W. Johnson, H. M. Holmvick, H. B. Badd, O. N. Olslund and C. J. Gullickson.

Albert Halvorson of Blackduck came down Friday to consult a doctor, as his wife has been quite ill for the past three months. As soon as the roads are passable he will remove her to a location where medical aid can be had.—Bemidji Pioneer.

Mrs. J. W. Ford and her daughter, Mabel passed through the city Monday morning en route for their home in Marshall county, returning from the wedding of Miss Margaret Ford, which occurred at Detroit last week.

R. H. McCoy, manager of the East Grand Forks Lumber company, passed through the city late Monday with a pleased look illuminating his handsome features. It was due to the fact that the log drives are progressing at a rate that insures a record-breaking cut for his lumber factory.

Mrs. W. E. Minkler, of Fisher, was over Monday to attend a meeting of the Eastern Star.

Andrew Walker, who keeps things lined up about Keystone, was in the city Tuesday wearing a cheer-up air.

Miss Stella McIntyre was over from Grand Forks to spend a few days, returning home yesterday.

Judge Holt and wife left for Fosston Tuesday to spend the 4th quietly at the farm home of Mrs. Holt's parents.

G. W. Roberts of Rolette was in town Tuesday telling how the crop outlook in Norman county was never better.

The building recently vacated by Chas. Vine, on Main street, is being fitted up for the Salvation Army barracks.

Manager Peterson reports the arrival at his home of a baby boy, whose weight is a record breaker—14 pounds.

Mrs. John Nuss and Miss Laura Desautels of Grand Forks are visiting Mrs. J. E. O'Brien of this city for a few days.

Misses Evaline and Julia Lillo, who have made their home in Crookston during the past year, left Tuesday for Fosston.

Miss Orpha AnDyke passed through the city Tuesday going to Cass Lake where she will spend a few days enjoying an outing.

Merchant Burke, of Badger, Roseau county, was in town Monday night bound for the Twin Cities on a purchasing expedition.

Miss Alice Gervais, who returned yesterday morning from her school at Minneapolis, is entertaining Miss Ella King of that city.

Mrs. D. H. Fisk, wife of Bemidji's handsome attorney, came in Monday and proceeded to Minneapolis, where she will visit a few weeks.

Jas. B. Kerr, prominent in the legal department of the Northern Pacific road, is in the city attending to some matters in district court.

The Sampson's Addition Fish Eaters added another to their long list of victories Sunday, having beaten the Crookston Kids by a score of 21 to 4.

Mrs. Dr. Robertson returned from Nielsville Tuesday accompaning Mesdames Samuel and James C. Hayes, who are spending the day shopping in the city.

A. E. Kribs, who has a knowledge of the pine country that is second to but few men in the state, was in the city Tuesday looking after some matters of of interest.

The Woodmen's picnic at Euclid which was deferred on account of the rain last week will occur July 18. The full program as before advertised will be rendered.

Mrs. Wm. Marin and daughters, Misses Katie and Mattie, will leave this week for Buffalo, tarrying at Detroit en route, to attend the national educational meeting.

Fred Miller, manager of the St. Hilaire Lumber company, came down last night to meet his wife and daughter, who came up from Minneapolis and will visit with him for a time.

Mrs. C. C. Knappen and Miss Belva Curran have gone to Maple Lake to enjoy a few days of the cooling breezes and the fishing. Mr. Knappen went along to see them comfortably settled.

P. O'Donnell, the man who did the paving at Grand Forks, passed through Crookston Tuesday bound for Duluth. He is at present constructing the Oberon extension of the Great Northern, and doing a good job at it.

E. T. Emerson and wife, of Ada, were here Tuesday en route to Thief River Falls. Mr. Emerson will proceed to the Red Lake country on a voyage of discovery before returning.

The Iverson Sisters have secured a lease of the vacant building at the corner of Broadway and Second street, and will remove their elegant stock of millinery to that location this week.

Al. Jones, who buys wheat and runs the fire department at St. Hilaire, came down Monday to report for duty as a witness in a law suit that will not be pulled off until the latter days of the week.

The marriage of Rev. A. G. Quammen and Miss Tina Hillmen was solemnied at the Synod church Tuesday afternoon, Rev. N. A. Quammen of Christiana, Minn., officiating. The church was beautifully decorated for the occasion.

C. C. Bowen has completed his contract to decorate the altar of St. Mary's church, and the members of that congregation now pride themselves on having the finest altar in the city. The work is highly creditable to the artistic skill of Mr. Bowen.

A. R. Fuller, who has spent the past two months touring southern Minnesota for a wholesale hardware firm, returned home yesterday in time to get into the Fourth of July game. He reports excellent crop conditons throughout the greater portion of his territory.

The remains of Iver Tufte, the young man who died so suddenly Saturday, were taken to Maplebay by his brother in law, Halvor N. Tweden, and were buried Monday, the funeral occurring at the Maple Lake Lutheran church.

Dr. Francis, the Thief River medicine man, was in the city Monday accompanied by his wife, whom he placed on the Duluth train Tuesday. Mrs. Francis will spend a couple of months visiting at her former home in Canada, and will be joined later by the doctor, who will take a post graduate course in New York city.

John Quincy Adams, who used to sell jewelry at Red Lake Falls, but who got into the land business when he discovered that it took no more effort to sell a quarter section than it did to sell a watch, was among those who transacted business in Crookston Monday night.

Mr. and Mrs. A. E. Brush, of Angus, passed through the city Tuesday homebound for Angus. Mrs. Brush has almost entirely recovered from the illness that necessitated the trip made to Hamline by Mr. Brush, a fact that will bring rejoicing to the hearts of all her friends.

FLEMING-KELLY.

At 8:30 o'clock last Thursday evening at the residence of Mr. and Mrs. A.J. Kelly in the town of Crookston occurred the marriage of their daughter, Mabel C. Kelly, to David Fleming of Mallory, Rev. F. L. Fraser officiating. Missese Maude E. Kelly and Bella Fleming officiated as bridesmaids, and Messrs. John Crowley and John Chaplain of Mallory as best men.

About thirty guests were present and the occasion was a delightful one to all taking part. Many beautiful and costly gifts attested the high esteem in which the contracting parties are held by their friends.

The bride is a very estimable young lady, who has received a liberal education in our schools here, and graduated from the high school with the class of '97, and is deservedly popular with her large circle of acquaintances.

The groom is one of Mallory's most industrious and prosperous farmers, and the young couple will make their home at that place. The Journal desires to extend its congratulations with other friends.

A GOOD THING.

German Syrup is the special prescription of Dr. A. Boschee, a celebrated German Physician, and is acknowledged to be one of the most fortunate discoveries in Medicine. It quickly cures Coughs, Colds and all Lung troubles of the severest nature, removing, as it does, the cause of the affection and leaving the parts in a strong and healthy condition. It is not an experimental medicine, but has stood the test of years giving satisfaction in every case, which its rapidly increasing sale every season confirms. Two million bottles sold annually. Boschee's German Syrup was introduced in the United States in 1868, and is now sold in every town and village in the civilized world. Three doses will relieve any ordinary cough. Price 75 cents. Get Green's Prize Almanac. F. H. Hillard & Son. 2

In Ten Lines.

$7,000 PER YEAR.

The practice of deportation of insane aliens saves the state of Minnesota $7,000 a year. During the last biennial period, 106 were deported at a cost of $60.04 each. The average cost to the state of each patient, during life in the hospital, is $200, leaving a net saving in each case of $133.96.

FOUR AT ONE BIRTH.

Mrs. W. H. Burnett, wife of the head miller for F. Jackson & Co.'s flour mills at Jasper, Tenn., has given birth to four children, all of whom are doing nicely. Previous to the advent of these babies Mrs. Burnet gave birth to triplets, then twins. The couple have been married five years and ten children adorn their household.

WEDDED AT THE FALLS.

Friday evening at St. Mary's church, Red Lake Falls, occurred the marriage of Joseph Sally and Miss Ida Koke, both of that city. Rev. Father Ansgar officiated. Miss Mamie McNerthney was bridesmaid and Joseph Koke, groomsman. The church was elaborately decorated with palms and potted plants and the ceremony was witnessed by hundreds of guests.

NO HOPPERS AT CLIMAX.

T. J. Watson, who looks after the comfort of guests at the Climax hotel, was in the city Monday looking after some business matters. He reports business picking up, and prospects brightening in that part of the county. Considerable rain has fallen and some damage will result, but if the present conditions continue, a good crop will be harvested. The hoppers are not destroying anything in that part of the county.

GIRL'S BLOOD KILLS BUGS.

There is a girl in Clyde, this state, as report has it, who if she would go out to service could command fabulous wages. She is death to bugs, mosquitoes, bees and all biting and stinging insects. The instant one bites or stings her it drops dead! Doctors, so it is alleged, say that her condition is due to a peculiar state of the blood caused by having been poisoned at some time by insect bites, acting as an anti-toxin or virus—Utica News.

CLOSE CALL FOR JACOBSON.

Hans Jacobson had a close call from being drowned ten days ago at Perley. Mr. Jacobson and two neighbors had been in town and started home rather late with a team of colts which they were driving. As they came close to the bridge the colts got scared and jumped for the river, the two who had the back seat in the buggy jumped out safely, Jacobson went into the river, but after some struggling escaped with only a few scratches.

THE REAL PROBLEM.

Undoubtedly many a fond father has during this season of school graduations made a discovery similar to the one related in the Washington Star:

"My dear," said the fair girl's father, "I listened to your graduation essay with a great deal of interest."

"Did you?" she rejoined, cooly.

"Yes; and I want to say that I have been doing you an injustice, and that I am sorry for it. I used to think you were worrying about what Susie Simpkins was going to wear, or whether Charley Chumpkins was going to call, when all this time you were pondering on the "Ultimate Destiny of the Human Race."

TOO MUCH EXPOSURE.

Robert Purvis is quite ill of congestion of the lungs and for a time Sunday his condition was most serious. Prompt medical treatment relieved him, however, and while still very badly off, there is every expectation that his case will now progress to a favorable conclusion. Bob has hustled the land business in all sorts of weather during the past two weeks, and the attack is due to exposure.

BRING THE GIRLS, OF COURSE.

The Halstad Cornet Band are engaged to play at Crookston on July 5th' as that city will celebrate in plural form. The boys say they don't like to go up there alone, and wish to bring a crowd of Halstad people with them. We have been requested to make this statement, and do not know whether it is meant especially for the Halstad girls.—Halstad Reporter.

FROM NEAR AND FAR.

Zephyrs Wafted Through Pine Cones and Across Prairies.

St. Cloud has a ladder factory.

Hastings has a new fire department.

Stearns county crops are reported injured by hail.

Foley, armed with a bonus, is hunting a hotel man willing to invest $3,000.

Grand Forks fans get base ball reports by innings when the team is away from home.

There is am an over at Ashland, Wis., whose name is Peel Wood. It doesn't follow that he splits it.

Editor Lanman tells how a McIntosh man has been marketing new potatoes and tells it without laying on a blush.

It is stated that Attorney H. A. Brown, who recently arrived in East Grand Forks to locate there, had over $250 worth of goods stolen from his cars while enroute from his former home at St. Paul. The matter is being thoroughly investigated by the authorities.

Complaints are made about the alleged disregard of the quarantine regulations at the Grand Forks pest house.

An Osakis man was bitten by a tarantula, which was concealed in a bunch of bananas. He is in a serious condition.

Blackduck hasn't produced a sensation for a whole week, and the Head-of-the-Lakes paragraphers are getting worried about it.

The local board of health has put a stop to Fourth of July celebrations at St. Augusta, on account of the prevalence of smallpox.

Lightning in Eau Claire, Wis., hit the animal tent of a circus last week, killing the trick elephant and stunning the entire menagerie.

There is said to be the best crop of mosquitoes this year ever known at Fargo. One Fargo man thinks the yield is about 25 bushels to the acre.

Roseau county commissioners have bonded for $43,000 to pay outstanding orders. The debentures bear 5 per cent interest and were sold in Minneapolis.

The "Kernel's" man in the Forum is authority for the statement that up at Grand Forks they are holding Bassanella pink teas and ice cream patries.

A sad greeting awaits a Bohemian lass now on the ocean on her way to meet her father at Holding, Minn., her only relative. He was found dead of heart disease the other day.

Frank Day says that "a certain pair of lovers in Fairmont are just like potatoes—one minute they are done with each other and the next they are mashed on each other."

Editor Bohannon has severed his connection with the Ten Strike Tribune and the paper came out this week like the closing and opening of two centuries, says the Turtle River Pine Tree.

"Published principally for revenue and incidentally in the interests of patrons, town and state," is the crabbed but truthful motto which appears beneath the headline of the Akeley Independent.

A curious earthen jar was found two and a half feet under the roots of a birch tree at Bemidji. Lo must have hidden his fire water years ago and lost his bearings when he came back for it.

The Fargo Forum, commenting on the recent discovery of a bone yard under a hotel in Grand Forks, suggests in its heading that some of the skeletons over there have gotten out of their closets.

Hary Barr and R. Boyer, who ran with the Crookston team under the names of Krans and "Doc" Boies, were well known sprinters from Hurley, Wis. A number of Bemidji people were well acquainted with them.—Bemidji News.

A meeting was held at Tweet, up in Marshall county, last Saturday afternoon for the purpose of forming an association to build a co-operative creamery. About sixty farmers were present and a permanent organization was effected. A creamery will undoubtedly be built.

The man that knows crops when he sees them says that Monday's storm damaged the grain about Hendrum about 15 per cent. and that there will be a great deal of rust this season on account of the grain being so heavy and too much rain.

The First National bank of Argyle will be opened about July 1, with J. F. Thompson, president, and N. S. Hegnes, cashier, both of Iowa. Contracts have been let for a two story brick building, 25 x 80 feet, the lower floor of which will be occupied by the bank. The capital stock will be $25,000.

Dr. C. M. Stanton of Minneapolis, while boating on Lake Sakotoh, at Waterville, lost his pocketbook, containing $1,500. A thorough search was made during the day without success, but yesterday Charles Rohl and Benjamin Graft found it on the north shore of the lake. They were rewarded with the gift of $500 by the grateful doctor.

Messrs. Mill & Thorstenson, the proprietors of the Columbia hotel at Moorhead, have decided to discontinue the business and the last meal was served at the house at supper time last evening under their management. The reason assigned for its discontinuance was that the hotel was not receiving a paying amount of patronage.

John T. Crawford, janitor in the Hancock school, St. Paul, stabbed himself in the left breast about 7 o'clock Thursday morning, dying almost instantly. After committing the deed he put the knife in a dresser drawer, where it was discovered when the coroner's inquest disclosed the cause of death.

A SUDDEN DEATH

Iver Tufte a Teamster For The Maplebay Wind Stacker Company

DIES WHILE ON THE STREET

Hemorrhage of the Lungs Accounts for the Abrupt Ending of Life

Sudden death came to Iver Tufte while on the street Saturday doing his usual duties.

Mr. Tufte was an employe of the Maplebay Wind Stacker company and had charge of the draying and delivery work. He resumed work on Monday last after a lay-off of several months on account of weak lungs. Manager Felsing told him at the time he was hardly fit for duty, but he asserted that he was all right and could do what was required of him.

While driving from the Northern Pacific depot shortly before noon he suffered a severe hemorrhage of the lungs and fell forward onto the dray. The team continued its course and was stopped by passers-by who assisted the man to the sidewalk, where he breathed his last in a few minutes.

The body was taken to Undertaker Chesterman's and will be held until the relatives can be communicated with. Mr. Tufte was 24 years of age and unmarried. His parents live at Maplebay, and they have been notified.

THE ISTHMAIN CANAL

ADVANTAGES THAT WOULD RESULT FROM ITS CONSTRUCTION.

The easy western water route to the Indies, sought by Columbus, is yet to be laid open. Balboa as he stood on the mountain heights overlooking the Pacific, thought that he was on the brink of the discovery. Hendrik Hudson a century later sailed up the river that bears his name and believed that the secret was his. But the time lock for the opening of the Pacific treasure house was not set for the Fifteenth century nor even for the Nineteenth says the Chautauquan. May it not be set for the new century

Japan needs our southern cotton. The isthmian canal would bring New Orleans 6,000 miles nearer that expanding market. California would no longer send her wheat around the Horn, but would have a European market nearer by 8,000 miles. Much of her fruit would also be forwarded by the same route. The state of Washington has 175,000,000,000 feet of yellow and red fir yet uncut. Oregon has 25,000 square miles of timber land, and the canal would place these forests 10,000 miles nearer the Atlantic. The manufacturers of the Atlantic and Gulf states would have a water route that would bring them 10,000 miles nearer China, Japan and the Pacific islands. Much of this trade would continue to go across the continent by rail, but the more bulky goods must find a cheap water route.

The advantage of the American canal are not to be measured by the savings now possible. Clear headed prophets are looking forward through the new century for vast commercial operations of which the present aggregate, wonderful as it is, is but the beginning. If this country can multiply its trade fifteenfold in a hundred years, what will the end of the century disclose? The new canal is to be built not for a decade nor even a century, but it is to be a perpetual waterway between the world's two mightiest oceans.

MAN'S PARASITES

GOOD AND BAD MICROBES INFEST THE HUMAN FRAME.

"The Flora of Man" may seem at first sight somewhat inexplicable, but it formed the subject of a highly interesting address delivered before the Manchester Literary and Philosophical society by Dr. E. Metchnikoff of the Pasteur Institute, Paris. The lecturer's text was the distribution of microbes—which are "flora" of lower kind—within man's frame. All germs are not disease producing. Many of them are our friends, while some are undoubtedly our foes, and very grim and powerful enemies indeed. For example, it was shown that our domestic system is a territory wherein a large number of microbes disport themselves, many species aiding the digestive processes. One of the most interesting parts of Dr. Metchnikoff's lecture was that in which he detailed how microbes that are harmless when occupying what one might call their natural habitat, become injurious when they pass to another region of the body. Thus it is that, in certain diseases the germs that are innocuous while they reside on the skin surface, produce boils and other ailments when they pass inward and invade what is to them a foreign territory. In the mouth, which is a veritable hothouse as far as the growth of germs is concerned, over thirty species of microbes have been found, and Metchnikoff attributes the rapid healing of wounds in the mouth to the action of these microscopic tenants of ours. Clearly the case of the microbe is much strengthened when we find that its presence is necessary, or, at least, constant, in connection with certain important vital processes.—London Chronicle.

NOVEL EXPERIMENTS

BEING MADE WITH FLIES AND TUBERCULOSIS.

New York, July 1.—Dr. Reynolds, a specialist on tuberculosis, has recently performed an interesting experiment relative to the propagation of consumption. He injected some of the sputum of a consumptive into a rabbit. He caused a number of flies to be placed in a wire trap where there was some of the sputum. Later he shaved off some of the fur of another rabbit and put the rabbit and the flies in a trap together. At the end of ten days the rabbits were dead. Dr. Reynolds said that this would seem to indicate that flies carry tuberculosis. He is not certain that they do, however. He will conduct another experiment. He will take three more rabbits. One he will inoculate. The others he will not. He will put the rabbits with flies. If the well rabbits die, then he will conclude that flies carry the germs of tuberculosis.

TOOK A SIXTY FOOT FALL

AND MIRACULOUSLY ESCAPED WITHOUT INJURY.

La Crosse, Wis., July 1.—What is considerd a miracle occurred at Burns Friday, when A. Rasky, who was placing a hay fork in the eaves of his barn missed his hold and fell head foremost to the floor, over sixty feet below, striking on the back of his head. Instead of being killed, he received only a small scratch on one leg and was not even stunned. Rasky is a believer in spiritualism and declares that the spirits saved him from death.

COURT BRIEFS

TWO MINOR CASES HAVE BEEN UP TODAY.

The case of Nils Johnson vs. A. D. Stephens was concluded Saturday and the jury awarded the plaintiff the sum of $33. The amount sought to recover was $336, alleged commission on a land sale.

The case of the Rosholt-Berg Company vs. Eck brothers and Nesland of McIntosh was next called. The evidence and arguments were concluded at 4 o'clock this afternoon. The suit was on a promissory note for $100, and the jury is still out as the Journal goes to press.

THE GRIM REAPER.

Carl Ormsrud, aged 18, son of Mr. and Mrs. John Ormsrud of South Ash street died early Saturday morning. The news was a shock to all who knew the young man. The cause of death was peritonitis, from which he had been ill during the past week. The danger was not considered so grave as it proved to be, and a proposed operation was deferred until this morning, when a specialist should arrive. The young man died, however, before it could be performed. Deceased was very poular among his acquaintances, was a member of the Crookston band, and during the past two years has been an efficient employe of Mr. Geo. Purvis. The funeral was held Monday afternoon at 2 o'clock from the Synod church.

MISTAKEN IDENTITY.

LeSeuer News: It was a pitiful mistake, an error sad and grim; I waited for the railroad train, the light was low and dim. It came at last and from the car there stepped a dainty dame; and, looking up and down the place, she straight unto me came. "Oh, Jack," she cried, "Oh, dear old Jack!" and kissed me as she spake. Then looked again and frightened cried, "Oh, what a bad mistake!" I said: "Forgive me, maiden fair, for I am not your Jack; and as regards the kiss you gave, I'll straightway give it back." And since that night I've often stood upon the platform dim; but only once in a man's whole life do such things come to him.

DISSOLUTION OF PARTNERSHIP.

Notice is hereby given that the firm and co-partnership of Culbertson & Allen, heretofore engaged in the hardware business at No. 122 Robert street in the City of Crookston, Polk county, Minnesota, has been this day in all things dissolved and terminated. Mr. J. R. Allen, of said firm, has agreed to assume and pay all the liabilities and debts contracted by the firm in the said business and he is to collect, receive and retain all the debts due the said firm.

Dated June 24th, 1901.

—C. J. Culbertson,

FANCY ANIMALS

Purchased by Thomas Harborn to Head His First Class Herd

OF FAMOUS SHORT HORNS

At Northcote Minn.---Unexcelled in Breeding and Individual Merit

Thomas Harborn of Northcote, who went south last week on a stock purchasing mission, returned Tuesday very much elated with his success.

During his absence, he purchased from N. P. Clarke, Bretano 157,088, a four year old Marrs bred Cruickshank bull of the Victoria family which was imported from Scotland last November. He is solid red in color, and is a fine representative of that noted family. Mr. Harborn intends him to head the herd of fine cows which he purchased from John Cooper, proprietor of the Linden Grove stock farm at St. Cloud, a few years ago.

Mr. Harborn also purchased from Mr. Cooper for service on other members of his herd, a young fourteen months old bull, Windom 8th. This is a very fine Cruichshank topped calf from the imported Josephine family, and is very finely bred as well as being an animal of individual excellence. These animals were shipped to Mr. Harborn at Northcote, where they have been placed on his stock farm, and their accession to his herd unquestionably places it at the head of the list of Northern Minnesota shorthorns. Mr. Harborn is without question a connoisseur in the matter of stock breeding, as will become evident to any well posted stock man who makes a careful examination of his herd, which is justly entitled to the wide reputation it is securing for the excellence of its individual members.

And in connection with Mr. Harborn's shorthorn herd, we are impelled to mention also that of our old friend John Cooper, who is a well known breeder of shorthorn cattle and Berkshire hogs at St. Cloud, whose stock was so largely drawn upon by Mr. Harborn for the foundation of his herd. And we wish to emphasize to those of our readers who are turning their attention to the improvement of their stock, or adding to their numbers, the importance of investigating the merits of either of the herds we have mentioned herein as may be most convenient to them.

We have no hesitation in saying, no risk or disappointment will be incurred.

HOME MADE PHILOSOPHY.

In times of peace the politicians sow the seeds of war in the land of greed.

There seems to be a syndicate of thrones to crush out the little weakly nations.

True religion is always the same old thing—a warm love for humanity on earth.

It may be that God anointed kings, but the ointment is beginning to smell pretty rank.

All great men are not good; for the world produces 99 humbugs to one bully fellow.

Riches are demoralizing, say the wise men, but they all like to be demoralized in that way.

The man who doesn't want everybody to be happy on earth, is not fit to live in everybody's heaven.

Gratitude is too expensive for most people, and revenge often kicks the hardest at the but end of the gun.

The worst side of a man is on the outside when he is mad; the worst side of his trousers are out when he is lazy.

If the Twentieth century does as much to wipe out religious superstition as the old one did, sensible Christianity will be possible.

I wish the world would turn from building so many stone churches for God, to building places of love in the hearts of the people.

We are all living out a life sentence. Death is the tunnel through which the prisoners must escape, but no one has seen them come out of 'tother end.

The churches complain that they can't get close to the poor. Let them do as Christ did, and get right down amongst them and share their poverty.

Young man, if you are away from home, and don't feel like writing to mother, don't do it. Some day you will feel like writing to her, but mother will be gone.

The optimist thinks we are going to be perfect by and by, the pessimist thinks we are going to be perfectly awful, but the biggest fool of all is the man who thinks we are already perfect.

KILLED ON THE DIAMOND.

Rockford, Ill., June 29.—While a game of ball was in progress at Monroe Center, twenty miles southeast of this city, lightning killed Morris Carlson, first baseman of one of the teams. The electric bolt knocked down half a dozen other players and a number of spectators, all of whom recovered quickly.

ADVICE TO GIRLS.

Chicago Northwestern: Girl, don't marry a man to get rid of him. Don't marry a man to reform him. Don't marry a man because he keeps asking you. He won't die if you refuse him. Of course, you are a distracting being, and it will be hard for the man to come down to thoughts of a common, ordinary girl after he has had the felicity of admiring you, but he'll live through it. And some day when he finds the woman he really loves, and who loves him, he'll be so grateful to you for having the good sense to refuse him that he'd set up a little altar and burn candles before your photograph if he were not afraid his wife would misunderstand.

PRISON TWINE

Not Popular With the Farmers This Year--Several Reasons Given

PRICE LOWER THAN IN 1900

Warden Reeve Makes Statements of Interest to Farmers on the Subject

As a result of last year's experience with prison twine, many Minnesota farmers, who heretofore got their supply from Stillwater, will this year buy through dealers, says the Minneapolis Journal. In spite of the splendid crop prospects, and low prices, the demand for prison twine is much less than last year. The law does not permit the prison to sell to dealers until after May 1, and this year the demand was so light that Warden Wolfer extended the time one month, selling entirely to farmers all through May. By June only 3,000,000 pounds had been sold out of a total output of nearly 7,000,000.

Prices are low enough. Warden Wolfer is selling sisal at 6½ cents, against 10 cents last year. He made a reduction of half a cent from the very low prices previously announced in January by Warden Reeve. Mixed, or "half and half," is selling for 8 cents. The Manila is all gone and sold for 9¼ cents.

This sudden coolness among farmers toward the prison twine plant is laid mainly at the door of former warden C. McReeve, and his regime, by Henry Feig of Atwater, who was at the capitol today. Mr. Feig is a farmer and represented Kandiyohi county in the house for three terms. He said this morning:

"Last year we bought two car loads of twine at Atwater. This year we have had hard work to get enough orders together for a car load. Many of the farmers seem to prefer to buy from dealers. I think they are making a mistake, but they were very much dissatisfied with the quality of the twine we got last year. We ordered the mixed but were only able to get sisal. I have always done very well with sisal, but last year it was of poor quality and knotty. We had much trouble with it. There must have been mismanagement at the plant.

"Warden McReeve would not allow us to cancel orders on account of crop failure. That made many sore. Warden Wolfer has issued a circular saying he would permit orders to be canceled on account of crop failure, either total or partial. I doubt his authority to do it, under the law, but it is a sensible course, as farmers are not able to pay the notes when they have failure of crops, and the state can always sell the twine. Many were overstocked in that way, on account of the light crop, and have twine on hand. They will buy what more they need from the local dealers, as they need it.

"It is bad policy for the farmers to quit the prison twine. That plant rules the market, not only for Minnesota, but the Dakotas and Wisconsin, and it has saved the farmers of the northwest $5,000,000 a year by keeping prices down. They can get mixed twine this year and I think a more satisfactory quality will be turned out. But dealers will get nearly half of it, and the farmers will have to pay the dealer's profit to get it, just because they have not spoken for the whole output of the plant. If we don't get badly fooled on our crop this year they will need every pound of it."

RESERVATION TIMBER

WILL BE RESCALED TO DETERMINE AMOUNT OF GREEN CUT.

Washington, June 29.—Commissioner Jones of the Indian bureau has decided to go to the bottom of the alleged frauds in the cutting of green timber on the White Earth reservation. To that extent, J. R. Farr of Phillips, general superintendent of logging has won his fight to have the work of the past season on that reservation re-examined. Captain Mercer, Indian agent at Leech Lake, under whose charge the logging operations were conducted, has been notified of the purpose of the department, and in a telegram received at the Indian office Agent Mercer indicated his gratification that the work is to be re-examined.

It appears that a lively dispute was engendered between Agent Mercer and Superintendent Farr in regard to the amount of illegal cutting done on the White Earth reservation, the superintendent claiming that more green timber had been cut by the operators than was accounted for by the persons in charge of the scaling and who are under the direction of Agent Mercer. Before he was ordered to discontinue the scaling of timber alleged to have been cut by trespassers, which is all green timber not authorized to be cut in the making of roads and in securing boom sticks, Superintendent Farr had progressed to such an extent that he claimed to have discovered much more green timber cut than has been reported.

Commissioner Jones and the department officials have been at a loss to know how to provide payment for the rescaling of the timber, but it appears from the order now issued that a way out of the dilemma has been found and that rescaling will be done under the direction of the authorities here and by an entirely new crew, thereby avoiding the controversy which existed between the general superintendent of logging and Agent Mercer.

CAPTAIN DECKER

HONORED BY HIS FELLOW CITIZENS FRIDAY NIGHT.

The presentation exercises occurred at the city hall Friday as announced in the Journal, and a large audience was in attendance.

Mayor Campbell officiated as chairman, and introduced the speakers.

A song by the Crookston quartette was the first number on the program, and was followed by a short speech by Mr. Decker in which he made a formal presentation to the city of the piece of embroidery representing the great seal of the state of Minnesota, which he secured on his way home, while in Japan, and which was made by one of the native ladies. It is really a beautiful work of art, skilfully executed in well harmonized and bright colors. The captain referred briefly to his appreciation of the kindness shown him by the citizens of Crookston, and assured them that the scarf which was presented to him on his departure from the city was brought back unsullied.

Miss Frances Montague was called upon to accept the gift in behalf of the city, and in a neat little speech performed this duty.

Hon. Halvor Steenerson being called on for a speech, told of the circumstances under which Captain Decker was appointed in 1898, to raise a company for the Spanish-American war, and of the evidences on file in the archives of the war department that the captain had justified the confidence reposed in him unanimously by his friends and all the citizens of Crookston.

He also read some very enthusiastic laudations of the captain's bravery, gallantry and judicious performance of every trust committed to him in the service, and making unqualified recommendation for his promotion by his superior officers.

A. D. Stephens spoke of the company of soldiers which was enlisted here, and R. J. Montague spoke of the future of the United States. He also offered a resolution, in substance declaring it to be the sense of the meeting that Captain Decker had fully justified the high opinion of his soldierly qualities, and Crookston's great expectations of him, and that he merited promotion, and so far as possible should be assisted toward this end by the governor of the state, the senators and the delegation in congress. This resolution was enthusiastically and unanimously adopted by a rising vote.

Jay Durad made a very felicitous little speech, referring to the mission of the press in connection with the army, after which the popular captain was called upon for a brief recital of his army experience. This he did very interestingly, to the delight of all present.

The exercises were all highly enjoyed by the large audience, and it must have been very gratifying to Captain Decker as an expression of the high esteem in which he is held here in his home city.

A MID-DAY SOCIAL.

There's no use talking, the grange idea is bound to become popular. It can't help but be so when the members take such an interest in the affairs of the order as those of Prairie Grange are doing.

On Saturday occurred the monthly meeting, and it was well attended. The lady members were out in force and their families were with them. Ice cream, cake and lemonade were served, and their hospitality overflowed until it included their neighbors. At least 200 people partook of the good things spread at the Grand Army hall, and the Journal can testify to the delights of the occasion, both from a social and a gastronomic viewpoint.

HE PROFITED NOT.

A small New York boy touched off a firecracker one day last week, with the result that his face and eyeballs were pitted with powder. As soon as his sufferings were soothed a little, he said to the doctor: "Will I be well by the Fourth of July?" "You surely would never touch another firecracker!" exclaimed his mother. He answered promptly: "Not another with such a short stem." It would be difficult to compact more "human nature" into the space occupied by this boy's remarks. We profit as little from experience as we dare.

SUPT. SELLECK HERE.

Crookston's newly elected school superintendent, W. F. F. Selleck of Austin, spent the day here, and has busied himself today studying the conditions. Mr. Selleck's visit at this time was rather by accident, he being en route home from a trip to western North Dakota, where he owns a tract of land that he was looking after. He has leased a residence on Lincoln avenue and will arrive with his family early in August.

N. Y. WATERWAY

A Move to Construct a Barge Canal Across the State

ALL STATES TO SHARE COST

Northwestern States are Claimed to Favor Such Proposition

Albany, N. Y., June 29.—Mr. Bond, state engineer, is authority for the statement that a few days ago he received a visit from two engineers, who brought him a letter of introduction from Mr. Hay, secretary of state. These gentlemen said the object of their visit was to secure a copy of Mr. Bond's recent report upon the probable cost of constructing a barge canal across this state, and other statistics bearing upon that subject in his possession.

They stated that practically every state in the northwest was in favor of the construction of a larger canal over this state for the sake of lowering the cost of transportation of wheat and other western products to eastern markets. The failure of the canal men of this state last winter however, to come to any agreement upon a plan for canal improvement was discouraging to western shippers, and therefore they now thought an appeal should be made to congress to improve the canals of New York at the expense of every state in the union.

The western engineers said that it was believed west that a 21-foot canal should be built from Buffalo to Lake Ontario and then from Oswego, on Lake Ontario, to the Hudson river. A canal of 21 feet depth would cost about $300,000,000. The United States, the western engineers said would have to undertake it. New York state could not be expected alone to accept such a financial burden.

Further, the western visitors said that before congress met again, in their belief, the congressmen from the states of Indiana, Illinois, Wisconsin, Minnesota, Iowa, South Dakota, Nebraska and North Dakota would come to an agreement upon a policy of canal improvement to be undertaken by the United States government, and that this policy would include a 21-foot canal from Lake Erie to Lake Ontario, and from Lake Ontario to the Hudson river.

LITERARY NOTES

The July Forum is opened by important articles on the political problems of the day. The first by Mr. W. C. Jameson Reid, is "A Plea for the Integrity of China," as against the attempts of European powers to secure its partition for their own advantage. Congressman H. S. Boutell shows the bearing of "The Sale of Texas to Spain" upon the question whether all territory acquired by the government becomes ipso facto "an integral part" of the United States. Other political articles are contributed by Congressman Oscar W. Underwood, who protests against "The Corrupting Power of Public Patronage," and by Walter McArthur, who gives an account of "The Movement for a Shorter Working day." Prof. A. D. F. Hamlin, of Columbia University, offers "A Plea for Architectural Studies" on account of the valuable contribution they make to general culture. Other articles are: "Medical Practice and the Law" by Mr. Champe S. Andrews; "The Ethics of Loot," by Dr. Gilbert Reid; "The Liberal Party, a Menace to English Democracy," by Mrs. Mahood; and "Religious Journalism in England and America," by Herbert W. Horwill.

A Dairying Proposition

does not go badly with that of raising No. 1 Hard Wheat. Both are satisfactory in the Great Agricultural districts of Manitoba, Assiniboia, Alberta and Saskatchewan. Most favored districts in Western Canada.

Mixed Farming is an assured success.

Every condition is favorable. Schools, Churches, Railways, Climate meet every requirement.

By letters from settlers we find after a few years' residence, one man who came to Western Canada with $75, is now worth $10,000; another who brought $1,000 is now worth $50,000, another who came with barely enough money to buy a team, is now worth $20,000, and so on.

These lands are the most valuable on the continent. Railroad and other lands at low figures adjoin Free Homestead Lands. For fuller information, maps, pamphlets, etc., address F. Pedley, Superintendent of Immigration, Ottawa, Canada, or to

B. DAVIES,
154½ East Third St., St. Paul Minn.

FARM LAND WANTED.
I can furnish a few desirable purchasers for land at rock bottom prices. Parties having "snaps" should call on or write Attorney R. M. Hayes, Crookston, Minn. Office over Merchants National Bank.

"Played Out"

Is one of the curious expressions used for *worked* out. Many a woman drops into a chair, in utter weariness "all played out," and wonders why she feels so weak. She has not yet realized that the general health is so intimately related to the local health of the womanly organism, that weakness must follow womanly diseases.

Restoration of the general health invariably follows the use of Dr. Pierce's Favorite Prescription. It regulates the periods, dries weakening drains, heals inflammation and ulceration, and cures female weakness. It tranquilizes the nerves, encourages the appetite and induces refreshing sleep.

There is no substitute for "Favorite Prescription," for there is nothing "just as good" for womanly ills.

"I wish to advise the suffering women of this great land, of the good I have received from Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery,'" writes Mrs. Mary Shappell, of Columbus Grove, Putnam Co., Ohio. "For four years I had been a sufferer from female troubles, and at times was unable to do even the housework for three in the family. I had such pains that I suffered almost death dozens of times, but after taking five bottles of your medicines I can truthfully say that my health was greatly improved. I have a good appetite and am gaining in flesh right along. This spring is the first time in five years that I have done my house cleaning all by myself and without the least fatigue whatever. I hope all suffering women may find relief as I have done.

"My gain in weight has been just ten pounds, and I am still gaining."

Dr. Pierce's Common Sense Medical Adviser, 1008 large pages, paper covers, is sent *free* on receipt of 21 one-cent stamps to pay expense of mailing *only*, or for cloth-bound book, send 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

The New Ninth.

Duluth News-Tribune: There seems to be an uneasy consciousness that Senator Andrew Grindeland is "sawing wood" prevalent in political circles of the ninth.

"Minnesota Politics" in the Minneapolis Journal states that Halvor Steenerson is considering the advisability of entering the congressional race, and that if he does, his candidacy will split Grindeland's strength and give the nomination to the southern end of the district. This looks reasonable.

Duluth News-Tribune: Congressional gossip continues lively in the ninth. Moorhead has pinned its faith to S. G. Comstock, and Breckenridge comes to the fore with Ezra Valentine. Polk county rises to rebuke her neighbors who are grooming local favorites, remarking that Halvor Steenerson will enter the race backed by the big county, and will play havoc with the garnered strength of Senator Andrew Grindeland. Mr. Steenerson is a "mixer," a big, full voiced popular fellow who makes an instant good impression. Mr. Grindeland is quiet and capable, but will not be apt to take voters by storm. W. F. Street is a new and popular candidate and will have the enthusiastic backing of Beltrami county and the northeast section of the district. He may receive a nomination to the senate.

Minneapolis Journal: The best judgment of the ninth district politicians is that next summer will see four congressional candidates in the field—just four and no more. Beginning from the north, the quartet is named as follows:

A. Grindeland, of Warren, Marshall county.

Halvor Steenerson, of Crookston, Polk county.

S. G. Comstock, of Moorhead, Clay county.

Ezra Valentine, of Breckenridge, Wilkin county.

Of these four, Grindeland and Comstock are now candidates. The latter will not admit that he is in the field, but he has been launched by the Moorhead Independent, and is everywhere considered in the race. From all accounts, Valentine and Steenerson are both determined to get into the race, and are only waiting for an opportune moment to shy their castors in the ring.

Otter Tail county comes pretty near holding the key to the situation. The largest county in the district, it will have no candidate, unless Elmer Adams should come out, as has been suggested. Otter Tail cast 3,018 republican votes last year, and with four candidates in the field, could just about name the nominee. Adams has declared that he will be neutral in the primary election contest, but when it comes to a point where he can name the winner, he is likely to take a hand again.

GLANDERS UP NORTH.

Dr. S. D. Brimhall, the state veterinarian, was in the city Friday morning and accompanied Dr. Langevin, of this city, to a point in western Marshall county, where complaint has been made to the state that there are several cases of glanders. Several farmers there own horses that it is said are afflicted with the disease in an aggravated form.

"Stop that cough right away with Mull's Lightning Cough Cure. It heals disease of throat and lungs. It's pure and good for children. 25c. For sale by S. A. Wallace.

Rootbeer

CONSTIPATION
the frequent cause of Appendicitis and many other serious ills should never be neglected. The objection to the usual cathartic remedies is their costive reaction which increases constipation instead of curing it. PARKER'S GINGER TONIC is the proper remedy. It acts on the Liver, and when used as directed, permanently removes the constipation. 50 cts. & $1.00 at all Druggists.

S. L. Collins,
Livery and Feed Stables
Horses bought and sold on commission. Everything neat and nobby. Feeding a specialty.
Crookston Minn,

Always A Source of Extreme Satisfaction

That's what it is to have your rooms beautified by our elegant patterns in wall paper, which seem to have been specially produced for exclusive use in your house. Appropriateness to the apartment and style of furnishing, as natural as the leaves on a tree, is the real charm of wall decoration. Careful selections from our assortment will give ideal choices at a few cents a roll and up.

LAXAKOLA

THE GREAT TONIC LAXATIVE

If you have sour stomach, indigestion, biliousness, constipation, bad breath, dizziness, inactive liver, heartburn, kidney troubles, backache, loss of appetite, insomnia, lack of energy, bad blood, blotched or muddy skin, or any symptoms and disorders which tell the story of bad bowels and an impaired digestive system, **Laxakola Will Cure You.**

It will clean out the bowels, stimulate the liver and kidneys, strengthen the mucous membranes of the stomach, purify your blood and put you "on your feet" again. Your appetite will return, your bowels move regularly, your liver and kidneys cease to trouble you, your skin will clear and freshen and you will feel the old time energy and buoyancy.

Mothors seeking the proper medicine to give their little ones for constipation, diarrhea, colic and similar troubles, will find Laxakola an ideal medicine for children. It keeps their bowels regular without pain or griping, acts as a general tonic, assists nature, aids digestion, relieves restlessness, clears the coated tongue, reduces fever, causes refreshing, restful sleep and makes them well, happy and hearty. ☞ *Children like it and ask for it.*

For Sale by F. H. HILLARD & SON
CITY DRUG STORE.

Laxakola is not only the most efficient of family remedies, but the most economical, because it combines two medicines, viz: laxative and tonic, and at one price, 25c. or 50c. At druggists. Send for free sample to THE LAXAKOLA CO., 132 Nassau Street, N. Y., and mention the name of your druggist. ☞ We will express to any address on receipt of 50c. in stamps or post note, all charges prepaid, a large Family size bottle of Laxakola, sufficient to last for a long time

Around the Country.

Weekly Reports From the Journal's Corps of News Gatherers.

BIRKHOLZ.

Miss Annie Hedlund visited at her home Sunday afternoon.

Sunday school was held at the school house instead of the church on Sunday.

Mrs. S. S. Trickey and daughters Ada and Lottie and the families of B. J. Dunning and M. Doyle visited at W. F. Dunnings on Sunday.

Tom Routley was out on his farm a few days last week pulling weeds in the wheat fields and still there's a few left.

Dr. H. M. Johnson, who is a partner of Dr. Ingstad in Grand Forks, will be at M. Rose Northrup's store in Birkholz each Saturday, where all who need his services can call on him.

Magnus Kleven is dangerously ill with smallpox at his father's home in this place. He closed his school on the Morass Friday evening, being to ill to finish the term. It is reported that 7 or 8 families in that district have cases of the same terrible disease in their homes.

The Fourth of July celebration in James Peterson's grove, six miles north of Grand Forks, and the one that was billed for Peter Olson's grove at this place have been called off, so it will be Crookston, Warren or Big Woods instead. Smallpox is the reason of no celebration at the two first places mentioned.

CLIMAX.

Knudt Swenson is still quite ill with peritonitis.

Miss Meyer of Alexandria, Minn., is visiting her brother, J. B. Meyer.

J. B. Messner sprained his knee last Sunday while waiting on table at the picnic.

T. Nyero and J. Hanson and families of Shelly visited with K. O. Ostby Sunday.

Rev. H. P. Fisher of Crookston delivered a sermon at the church Thursday evening.

Norman Rosholt sold his building now occupied by Evenson Bros. to J. B. Myers on Monday.

Mrs. C. Gilmore has leased the Hendrum House at Hendrum and will open up a first class hotel there July 8. The Commercial hotel at this place will be in charge of Berdin Spokeli.

Albert and Adolph Spokeli returned to Climax last Saturday from Washington state, where they were engaged in business. They disposed of their interests there.

A large crowd of people were present at the picnic given by the Climax band at Satermo's grove Sunday. The attracting feature was the ball game between Buxton and Caledonia, resulting in a score of 27 to 6 in favor of Buxton.

DONALDSON.

Conrad Miller is kept busy breaking bronchos nowadays.

E. Miller and his brother Herman visited Stephen last Saturday.

Erik and Conrad are busy digging and cleaning wells at present.

Mrs. N. E. Davis returned from a long visit in Argyle Saturday.

J. W. Nixon of Grafton, N. D., is a welcome visitor in town now.

Everybody went to Kennedy from here to celebrate the Fourth of July.

Miss Marie Olson and Miss Solem wheeled it across from Drayton Sunday.

Miss Nettie Shepherd and her brother Herbert visited at Greenbush last week.

Hans Lindberg entertained some of the prominent Donaldson folks Sunday.

O. J. Mulvey and family are expected back from their pleasure trip soon.

Chas. Clausen is paying an extended visit to some of his old friends at Marsh Grove.

Mr. McAllister is up here looking after his ditching machine. They had a break down also.

E. N. Davis and his wife took leave of Donaldson for a week's visit with a cousin in North Dakota.

K. J. Lind and Axel Miller went to Stephen last Wednesday to take in the B. B. Bennett show.

Everybody went out to Joungren's farm last Saturday evening, where a pleasant little party was enjoyed.

Mrs. Mumford and Laura Olson, accompanied by Chas. Hams made a trip out into Roseau county last week.

The main wheel on the New Era grader broke down Friday, but another arrived Monday and they at once commenced work again.

The dressmaker shop will be converted into a butcher's stronghold by the 24th of this month. Believe we need both the dressmakers and the butchers at the same time.

It is said that A. N. Rowe will move from his former place of business one block east where there is a new building going up very rapidly.

WARREN.

Fred Flanders went to Hallock Saturday.

Vic and Ray Tiedt came down from Argyle on Monday.

Mrs. O'Connell is visiting friends in the southern part of the state.

Dave and Al. Benzie, of Thief River Falls, have been in the city for a few days.

Miss Lucy Lakin left Tuesday night to spend the Fourth with friends at Waverly.

Mrs. Larson and children returned Thursday from a visit with relatives at Halstad.

The Epworth League will serve dinner and supper at the old court house on the Fourth.

The Cosgrove company drew a full house Saturday night. Those present speak of it as being a very good company.

Wednesday, at the Catholic church at Argyle, occurred the marriage of Miss Josephine Cormier to Mr. Henry Schantzer.

Our street commissioner is putting forth his best efforts now grading the streets and getting them in shape for the Fourth.

Our base ball team went to Hallock last Friday to play the Hallock team, but from what we can learn it was a one sided affair, and the boys came home with very long faces.

Too much rain is the general cry nowadays. We understand there is considerable grain on the low land that is quite badly damaged on account of the wet, but we hope it is not as bad as reported.

Yesterday the Crookston base ball nine came to Warren and played the team here and the result was 11 to 10 in favor of Crookston. It was a very closely contested game and there was some good playing done on both sides.

Mrs. Mickelson died at her home in Warrenton last Wednesday of consumption, and was buried in the Warren cemetery Sunday. Mrs. Mickelson leaves a husband and several children to mourn her departure, and her friends were numerous, as was shown by the large number that followed her to her last resting place.

The First National Bank of Warren was dedicated July 1, and opened its doors to the public with F. Flanders as cashier and Chet. Slee assistant. They received a time lock safe last week and the same was put in Flanders & Wood's place of business, and will remain there until their new building is completed, which perhaps will not be until late in the fall.

ANGUS.

Mr. Strohle drove to Warren Monday.

F. Strohle is busy hauling lumber for a new barn.

Ole Iverson is erecting a residence east of the track.

tracts of land in this section and will make a fine home.

Mr. Hummer and son Clifford were in town Wednesday.

Mr. and Mrs. Brush returned from Hamline Tuesday morning.

Mr. Rose and Mr. Landis took the train for Crookston Monday.

C. D. McLennan went to Crookston Tuesday, returning Wednesday.

Mrs. J. F. Montgomery has returned from a week's visit at Crookston.

Miss Agnes Henry, of Grand Forks, is visiting at the Campion home.

Mrs. A. S. Campion and son Jesse are enjoying the sights at Buffalo.

Wm. Strohle and sister drove to Euclid Monday afternoon on business.

Alfred Vonderbeck drove up from Euclid Monday to call on the Finlaysons.

Robert Shannon has gone to North Dakota to assist his father in contract work.

Miss Hanna recently completed a successful term of school in Tabor township.

Mr. P. Johnson came up from Euclid Thursday to do some mason work for Mr. Stroble.

James Stroble took the train for Crookston Monday evening to return the assessor's book.

Mr. Zimmerman, of Brandtz township, has a fine field of barley all headed out and very thrifty.

Mr. T. Rose took the train Monday evening for South Dakota, to spend the Fourth with his sister.

The Ladies' Missionary society of the Presbyterian church was entertained at the home of Mrs. F. W. Garlock Thursday afternoon.

L. E. Garlock, who has been assisting his brother F. W. in the land business for the past few weeks, left Friday for his home in the southern part of the state to spend the Fourth.

Mr. John Ferguson, of Murray county, recently purchased the old Cross farm, through Garlock & Co., and will move here this fall with his family. The farm is one of the nicest 640 acre

HALSTAD.

Mr. Tom Hall of Kelso, N. D., transacted business in town Monday.

Miss Emma Larson visited with her sister, Mrs. Pete Talge of Ada, over Sunday.

Mr. and Mrs. Iver Lien left last Tuesday for Detroit, Minn., where they will visit with Mr. and Mrs. Tobias Reep.

Born, last Saturday, to Mr. and Mrs. Lars Flogstod, a bouncing baby boy, and Lars, like a good fellow, set up the cigars. Mother and son are doing well.

Miss Tina Holmberg, our popular school teacher, intends to take a trip to the Pacific coast this week, where she will visit with her uncle, J. O. Brottem of Parkland, Wash.

Married, last Wednesday, Rev. Mr. Broodland officiating, at the East Marsh River church, Mr. Joseph Henderson to Miss Josephine Schele. We heartily congratulate the young couple.

Died, last Monday evening of consumption, Miss Ella Lovesness, aged 20 years, daughter of Mr. and Mrs. Engel Lovesness. This is the second girl Mr. Lovesness has lost from this dreaded disease in three years. The funeral will take place Wednesday from the North Marsh River church, Rev. Megrund officiating. The bereaved family have the sympathy of the entire community.

NOTICE.

Farmers having mares that they wish to breed to my horse will please meet the appointments promptly, as the season is getting late and the busy time coming on. —P. H. Wermager.

Get a camera at the Journal office and take your own pictures.

DEATH TO HOPPERS

New Parasite Makes its Appearance and Vanquishes the Pests

CONFIRMS PROF. LUGGER

Who Predicted Their Success in This Line, and Introduced Them

There are good reasons for indulging the hope that the grasshopper devastation is practically at an end. It is reported from various quarters that the voracious hoppers have met their Waterloo and are yielding to the superior force which is sweeping them off by the thousands, more rapidly than the hopper dozer can accomplish the same work.

The first hope in this direction was aroused by reports coming in from the towns of Onstad and Fairfax, where it was said the hoppers seemed to have lost their aggressiveness and were dying off in quantities. An examination showed that small red insects, or parasites, were clinging to the dead hoppers, and those that were not dead were similarly affected.

Later reports from other places in the county indicate that these parasites are becoming very general, and wherever they make their appearance the hoppers are vanquished.

It will be remembered that the late Prof. Lugger reported the discovery of such a parasite, which he alleged would avert any devastation by grasshoppers if they could be introduced among them. And during the last two years or more he had been devoting considerable attention to establishing these parasites at different points in the state. There is no doubt that this effective grasshopper destroyer, that seems now to be operating so efficiently for the safety of the farmers' crops by the destruction of their enemies, are the same that the eminent entomologist introduced and in which he had so much confidence.

CLOSE OF THE SHOOT

KILLING PACE WAS MAINTAINED TO THE LAST.

Perfect weather, a large number of enthusiastic sportsmen and excellent field conditions marked the opening day of the fourth annual tournament of the Crookston Gun club.

The quick trigger men began to arrive Wednesday and the early morning trains on Thursday brought delegates from nearby points.

Grand Forks sent the largest delegation, ten representatives from the gun club of that city coming on Thursday, bringing along as a mascot the club goat, which they hoped would enable each member to make a high score.

Ten 15 bird events were shot each day, and the scores were phenomenally high.

In the last events Friday the shooters at the Gun club tournament kept up the record breaking pace which had been set in the first fifteen events, and the result was a series of scores and averages which has never been anywhere nearly equaled in the northwest.

One squad of five men shot the 19th event without a miss, making 75 straight in a squad shoot.

Mr. Hirschy shot through the entire day and only missed three birds out of the 150.

The remainder of the shooters left for their homes Saturday, and future events given by the gun club will be patronized by them if they are in the country, as they are highly pleased by the manner in which they have been entertained by the Crookston shooters.

The following are the scores made in the several events with the total number of birds killed by each shooter in the two days, with their percentage:

JULIUS IS BACK.

Julius Pleth, who can give the oldest man in the business in Red Lake county three bases and then beat him home on a land sale, returned Tuesday from the east accompanied by Mrs. Pleth, and went to St. Hilaire to see if there was anyone waiting to buy a few sections of land. While away Mr. and Mrs. Pleth have visited in Chicago and viewed the attractions at the Buffalo exposition. The demand for an outlet for the surplus cash in the east enabled Mr. Pleth to bring back a half million dollars that he will loan to the farmers to start stock ranches.

A CLAIM CONTEST.

An interesting case was on Tuesday at the U.S. land office, a contest over a claim at Windsor, in which Nels B. Bolstad, the postmaster and merchant at Gully, contests the right of Wesley Burnham to make final proof on land that he homesteaded. Some tall swearing has been done by the contestant, the result of which will not be known until the matter returns from Washington, where it will be passed upon by the general land office. Mr. Burnham has maintained a residence on his claim during the past two years, but has assisted his father on the farm work on Burnham's creek, at certain seasons of the year.

ACCURATE MEASUREMENT.

After nearly thirty years of constant effort and the expenditure of nearly $500,000, scientists have succeeded in accurately measuring the earth. They learned that its diameter through the equator is 7,926 miles; its height from pole to pole 7,889 miles. The earth therefore is flattened at the poles; and, while this fact has long been asserted, the actual measurement has removed the question from the domain of doubt.

A ROUSING TIME

The Fourth of July in Crookston Will Last Two Days This Year

DON'T FAIL TO REMEMBER

It Will be the Liveliest Season of Sports and Attractions Ever Offered

Preparations for the celebration of the Fourth are about completed, and the plans include all that will make the day interesting, or that will attract crowds and please the people.

It was rumored on Saturday that the band from Grand Forks could not be present, owing to the absence from that city of some of the members. The committee went over west on Saturday and arranged the matter and the Red Men's band of East Grand Forks will be present as stated.

The various amusement features are being carefully looked after and the list of sports are encouraged by big purses that will attract talent of the highest order in each event.

The speakers' stand will likely be erected upon the corner of Robert and Main street, and during the exercises at that point the streets will be roped off to prevent the passage of teams.

The calithumpians will be out in force in the morning parade, and the preparations that are being made for them exceed in detail anything ever before seen here.

The evening parade will be arranged with a view to letting in everything attractive, and with balloon ascensions, and displays of fireworks, will round out the two days of sports in royal fashion.

STEAM SHOVELS BUSY

THE GREAT NORTHERN HUMPING ITSELF.

The Great Northern is pushing the work on the ballasting of its line between this city and Cass Lake. A second steam shovel is being added to the equipment now employed, the first being placed at the Benoit gravel pit, for the purpose of loading gravel for ballast. The one that went into commission today will be placed at Lengby, and will be operated in widening the cut on the line at that point. Another will be placed in a few days, and the work at other points will be commenced and bustled along as rapidly as possible, the intention being to have everything completed by the middle of August.

THE GIRLS OF RED WING.

Red Wing News: The first thing the visitor to Red Wing sees is the Milwaukee station. It does not give a favorable impression.

The next thing he notices is a bevy of young girls. They don't create a favorable impression either.

When the stranger gets away from the railroad tracks he finds that this is the prettiest city in the northwest, putting its worst foot foremost. If he has the privilege of forming the acquaintance of the young girls, he finds they are as nice as can be found anywhere.

But that first impression—if the girls knew how forward they seemed to strangers and how fellows on the road talk about them, they would never, never again hang around the station at train time or patrol the streets in that idle- gum-chewing way.

VICTIM OF LIVE WIRE

MINNEAPOLIS LINEMAN WAS INSTANTLY KILLED.

David Hamley, an inspector for the Northwestern Telephone exchange in Minneapolis, met instantaneous death Saturday morning, as the result of contact with a live wire which he was repairing. Hamley had been sent to make repairs necessitated by the recent storm. He had climbed the telephone pole and was at work when he in some way touched the highly charged wire, and was hurled to the ground. The body was horribly burned and its condition showed that death resulted as soon as the wire was touched.

Mr. Hamley had been in the employ of the Northwestern Telephone exchange for six years. He was a married man.

DEATH IN A TRENCH

TWO RESIDENTS OF DOUGLAS COUNTY PERISH.

Fergus Falls, Minn., July 1.—John Benson and Hjelmer Herbert met with a horrible death in the town of La Grand, Douglas county. They were engaged in digging a deep ditch for the purpose of draining a lake when the loose soil closed in around them and buried them completely.

John G. Nelson, who was passing, made frantic efforts to dig them out with his hands, at the same time calling to Mr. Benson's son, who had been working with them. Other assistance was summoned, but before the earth could be removed both men were dead.

Both were found in an almost upright position. The earth had closed in to the depth of about two feet above their heads.

CALKINS SELLS OUT

ADA ATTORNEY DISPOSES OF HIS PRACTICE.

Ada, Minn., July 1.—Judge W. W. Calkins, Ada's oldest and most prominent attorney, has sold his law practice here to Gray Bros. of Preston, Minn. the new firm to take possession August 1. Mr. Calkins has been prominent in the councils of the republican party in the old Seventh district and his name has been frequently mentioned as a candidate for congress in the new Ninth. The disposal of his business interests is a surprise, and means that he is not a candidate for political honors.

Our Line of . . .

Cultivators and Weeders

Is very attractive. We have John Deer's latest riding cultivator and the Hallock weeder, both of them, tools that it will pay to buy and use.

Of course we have the usual full line of Deering harvesting machinery for grass or grain. Their Ideal ball bearing mowers and hay rakes lead the world. Our prices are right too.

Merit Always Wins.

VOL. XXVI | CROOKSTON, MINNESOTA, THURSDAY, JULY 11, 1901 | No. 14

MINNESOTA HISTORICAL SOCIETY.

THE COUNTY COMS.

Session Just Closed. Very Important Business Accomplished

RECORD OF THREE DAYS

Transactions--New Township Organized--Bridge and Ditch Matters

Official proceedings of the board of County Commissioners of Polk county, Minnesota.

In compliance with legal requirements the board of commissioners of Polk county met in regular session July 8, 1901, with all members present.

The record of the last preceding meeting was read and on motion approved.

The following resolution offered by Commissioner Fortier was on motion adopted:

Whereas the county auditor has required in redemption from the forfeited tax sale of 1900, under instructions of the attorney general, the full amount of the tax judgment and interest, instead of the amount bid at the sale, with accrued interest: and whereas the supreme court of the state has decided that the amount required to redeem is the amount bid in for, with interest to date of redemption, therefore be it resolved that a refunding order be issued to L. E. Gossman by the county auditor for the excess in the redemption from sale of lots 17 and 19, block 30, Traill's addition to East Grand Forks, being the sum of $19.53: and also that refunding orders be issued in all other such cases if any there be.

The following resolution offered by Commissioner Eastman was on motion adopted:

In the matter of furnishing kerosene by Polk county for the destruction of grasshoppers, as by resolution of June 25, 1901. Be it resolved that the county will not furnish kerosene after August 1st, 1901.

The following resolution offered by Commissioner McCarty was on motion adopted:

Resolved that the petition of George Singer, Joseph Shaw et al asking for the organization of township 150, range 39, be and the same is hereby granted. And it is further resolved that said township be given the name, Gully, and that the first town meeting be held at the school house in district No. 257, in said town, on the 27th day of July, A. D., 1901: and that the boundaries of said town be the same as congressional township No. 150, range 39.

On motion board adjourned to meet at 9 o'clock a. m. tomorrow.

July 9th, 1901. Board reconvened pursuant to adjournment with all members present.

The application of Ingebor M. Kleven for the correction of assessment and abatement of taxes for the year 1899 on lots 7 and 8, block 18 and lot 9, block 7, village of Fertile, was on motion referred to the village council in said village for reconsideration.

On motion Commissioners McCarty and Morken were appointed a committee to appear before the city council of Crookston to represent the county in the matter of assessment on lots 7 and 8, block 12, Davis' addition to Crookston, for street improvements.

On motion the application of John Renowang, of the town of Rhinehart, for the abatement of taxes was referred to Commissioner Morken for investigation and report at next meeting.

The road and bridge committee submitted the following report, which was on motion accepted:

To the Honorable Board of County Commissioners of Polk County.

Gentlemen: We the undersigned members of the road and bridge committee would respectfully report that we have examined the bridge built across the Marais in town of Huntsville by John Sanders and would recommend that same be accepted and paid for, as per contract.

G. W. EASTMAN,
CHAS. McCARTY,
REMI FORTIER,
Committee.

The following report was submitted and on motion accepted:

To the Honorable Board of County Commissioners, Polk County.

Gentlemen: We the undersigned members of the ditch committee, having examined the bridges across ditch No. 2 in Esther and Northland built by John Sanders, and would recommend that the same be accepted and paid for as per contract, after deducting value of old material.

G. W. EASTMAN,
T. T. MORKEN,
K. O. BRATVOLD,
Committee.

The following report offered by Commissioner Eastman was on motion adopted:

Resolved that the county auditor be and is hereby instructed to issue his warrant in favor of St. Hilaire Retail Lumber Co. for the sum of Six Hundred Seventy six and two one-hundreth ($676.02) dollars, $600.00 to be drawn on the county revenue fund and $76.02 out of ditch fund No. 2 and deduct same from the amount due John Sanders for building bridges across the Marais in town of Huntsville and two bridges across Tabor ditch.

The following resolution offered by Commissioner Bratvold was on motion adopted:

Resolved that the county auditor be and is hereby instructed to issue his warrant in favor of John J. Sanders for the sum of One Hundred Eighty two and eighty-six one-hundreth ($182.86) dollars, and charge to ditch fund No. 2, being balance due on contract for two bridges built across the Tabor ditch and $600.00 appropriated by Polk county towards building the bridge across the Marais in town of Huntsville.

The following resolution offered by Commissioner McCarty was on motion adopted:

Resolved that the hearing on the petition of J. O. Johnson, et al., for a drainage ditch in the town of Garden, Polk county, known as Garden ditch No. 17, be and is hereby postponed until July 20, 1901, at 10 o'clock a. m.

A petition was presented by James Elkington, M. J. Sullivan, et al., asking to be set off with their land the s½ and nw¼, sec. 31, township 152, range 49, from independent school district No. 3, and attached to independent school district No. 31, and on motion a hearing was granted upon said petition at the meeting of the county board July 29, 1901.

On motion the board adjourned to meet at 9 o'clock a. m. tomorrow.

July 10, 1901. Board reconvened pursuant to adjournment with members Bratvold, Eastman, Fortier and Morken present.

The following resolution offered by Commissioner Fortier was on motion adopted:

Resolved, that the county auditor be and is hereby authorized to issue his warrant in favor of Crookston Furniture Co. for the amount of $65.20, being the amount agreed upon by the court house and jail committee for curtains and wall paper for the court house and jail.

The application of S. Torrison for the correction of assessment and abatement of taxes for the year 1900 against ne¼ sw¼ and lots 2 and 3, section 8, township 150, range 48, was on motion granted subject to the approval of the state auditor.

The petition of Casper Sands for a bridge across Snake river on section 8, town of Sandsville, was on motion referred to the road and bridge committee for investigation and report.

The following resolution offered by Commissioner Eastman was on motion adopted:

Resolved that the road and bridge committee be and is hereby instructed to examine condition of bridges in town of Gentilly, lately damaged by flood, and report to this board.

The following resolution offered by Commissioner Fortier was on motion adopted:

Resolved that the county auditor be and is hereby authorized to issue his warrant in favor of W. E. Rowe in the sum of $11.50, being money advanced by said W. E. Rowe in payment of fees for clerk of supreme court in case of Polk county vs. Red Lake county.

The following bills were referred back for correction: Thore Johnson, Casper Halvorson, S. S. Ness, Dr. P. O. Neraal, A. C. Olds, Wm. Norman, Charley Gustafson, Fred S. Syverson, Arne Gunderson and L. A. Nelson.

The following bills were laid over: E. J. Sullivan.

The following bills were rejected: Dr. G. P. Kirk, William Borch and Dr. Theo. Bratrud.

On motion the board adjourned.

JOHN PETTERSON,
Clerk of the board.

The following bills were audited and allowed:

Mrs. E. J. Sullivan, matron in county jail	$ 91.00
E. J. Sullivan, sheriff's fees	326.17
E. J. Sullivan, boarding prisoners	245.10
Frank Mageau, work on court house	28.71
G. S. Chesterman, fees as coroner	91.10
O. R. Miller, fees as deputy coroner	8.30
Crookston W. W. P. & Light Co., electric light six months	600.00
Crookston W. W. P. & Light Co., water supply for court house and jail to July 1st.	75.00
Crookston W. W. P. & Light Co., fixing lights	11.58
Brown A. Horvick, posting ditch notices	5.00
Andrew Olson, repairing water pipes	3.00
G. A. E. Finlayson, assisting county attorney	75.00
George Singer, services as assessor	34.00
A. G. Bratvold, posting ditch notices	4.05
Mrs. George Hooper, boarding small pox patient	9.00
N. G. Enstrom, supplies to court house	2.50
Ed. P. Monson, assisting janitor	3.00
C. E. Hurst, constable fees	0.30
Iron Range Electric Telephone Co., rent of phones	15.55
A. M. Gray, services as county surveyor	29.45
Walsh & Low, insurance on jail	14.00
People's Furniture Co., window shades, etc.	5.10
B. O. Seymour, printing	228.63
Geo. Sheire, printing training school notices	4.00
Erskine Echo, printing training school notices	4.00
Valley View, printing training school notices	4.00
Pioneer Press Co., office supplies	10.20
Pioneer Press Co., blanks	25.00
Pioneer Press Co., blanks	1.04
Dan McKinnon, meals to jurors	6.50
Joe Allard, meals to jurors	8.25
Chas. Westerberg, meals to jurors	8.25
Dr. C. E. Dampier, medical services	7.00
John Vig, Justice fees	12.00
Thos. Casey, postage and express	9.80
O. O. Christianson, postage	10.00
Dr. A. McEachran, medical services	32,00
Dr. A. McEachran, medical services	40.40
Osmund Olson, boarding smallpox patient	20.00
Town of Reis, expenses in smallpox cases	17.75
F. E. LePage, expenses in smallpox cases	18.75
E. J. Wanke, expenses in smallpox cases	0.00
Chas. Hanson, expenses in smallpox cases	20.00
Town of Sandsville, expenses in smallpox cases	120,00
Village of Fosston, expenses in smallpox cases	74.59
Remi Fortier, services as commissioner	40.40
K. O. Bratvold, services as commissioner	57.40
G. W. Eastman, services as commissioner	32.60
T. T. Morken, services as commissioner	40.60
G. W. Eastman, services as commissioner	32.60
T. T. Morken, services as commissioner	40.60

Uncle Jo's Column

When the Lord first started Adam and Eve out in life he calculated on their keeping in the road to Heaven. And he pointed out the way all right and told 'em that the other road led to Hell. But you see the first part of the names on them two guide boards start off the same, and the Devil come along and he got 'em to think that the left hand road was a shorter cut to the same place the other road led to, and he succeeded in switchin 'em off on to it.

* * *

Well, you see the Lord hadn't intended Adam and Eve or their descendants should ever go to Hell at all. That place was fixed up for the Devil and his followers, and the Lord intended to keep it just for their use. But the Devil wasn't satisfied to have it that way so he got Adam and Eve started on the road to it. But they hadn't gone only a little ways when they found they was on the wrong road, and they was a little ashamed about it, but they couldn't get back on the right road theirselves and the Lord opened a way for 'em to get back.

* * *

I can't really be sure whether Adam and Eve ever got back into the right road or not. But I am sure the other road has been well traveled ever since and it's crowded now. And what beats me is that so many of these people that are traveling the road to Hell expect to keep on for twenty, thirty, forty or perhaps seventy or eighty years, and then when they get right to the station, they hope the Lord will pick 'em up and set 'em down in Heaven. That's the most preposterous idea a man ever had. If a man wants to go to St. Paul he don't get onto the train that's goin north to St. Vincent, but he gets on the one that's goin to St. Paul.. If he got on the train goin north he wouldn't have any idea that the Lord would pick him up and set him down in St. Paul.

* * *

And I don't see why that isn't all right anyway. I don't believe after Maybury gets himself all fixed up that way ready to run a foot race, he'd feel very comfortable if some one would put him in a ball room where everybody was dressed up real nice. He wouldn't feel a bit happy there. And the man that has spent a life time gittin ready for Hell, and refusin to cultivate a taste for things and the people that are in Heaven wouldn't feel a bit happy if he was dropped in there amongst the angels.

* * *

If we want to go to Heaven and enjoy ourselves after we git there, we want to start off in that direction while we can choose for ourselves and git ready so we wil be en rapport with the environment there, as some of these great writers say. I heard a nice sermon about that a while ago. The preacher said that the exercises at the judgment day will consist in just removin all the restraints and each individual will just gravitate to the place he is fitted for. And I think so too.

* * *

I hope the farmers all over the Valley will be wise enough to keep a careful watch about the grasshoppers this year, and follow the instructions the state entomologist gives about plowin the stubble this fall. Prof. Lugger told about the importance of it too, and he made a real careful study of the grasshoppers and their habits, and knew what he was talkin about. So I believe if the farmers will be sure and plow all the stubble this fall they won't be bothered with the hoppers next year. But if they don't plow it this fall there's no tellin how we'll git rid of the hoppers next year.

* * *

It seems to me there's an awful lot of slush in some of the papers sometimes. Now I've notist there's a lot of discussin goin on over the shirt waist question that's all nonsense. I can't see why it aint proper for people to dress accordin to the weather to suit their own comfort, as long as they are modest and decent about it. For my part I had a great deal rather a man would wear a shirt waist when it's real hot weather, than one of those great high collars that makes him stand ontiptoe and stretch hisself when he wants to take the pressure off his ears and rest 'em.

* * *

I am always real sorry for folks that are slaves to fashion and style, and habit and popular opinions, and a whole lot of other things that are just as foolish as they can be. But this high collar fad is the silliest one that I can think of just now. Of course its all proper for a man with a long neck to wear a higher collar than if he had a shorter neck. But when it comes to collars like some of these fellows wear, it seems to me as if they thought all their necks and the lower half of their heads was made for was to cover 'em up with collars.

WHEAT DESTROYED

15,000 ACRES A PREY TO THE FLAMES IN KANSAS.

Great Bend, Kansas, July 9.—Fifteen thousand acres of wheat went up in flames here yesterday. The fire was started by an unknown man throwing a lighted cigar into a field of wheat stubble. Everything was as dry as tinder, and soon a destructive fire was in progress. The inhabitants all left work and exhausted all methods they knew for fighting fire but to no avail, and it was late in the evening before the fire was under control. It is roughly estimated that the loss in wheat will aggregate 300,000 bushels, nearly all of which was in the stack.

NEGRO BANKERS

WILL HOLD A NATIONAL CONVENTION AT BUFFALO

Philadelphia, July 9.—A call has been issued by John Clinton, Jr., president of the First Colored Bank North of this city, for a national convention of negro bankers, to meet at Buffalo Sept. 26-28. This will be the first meeting of its kind ever held in this country.

There are now eight institutions of the kind in this country owned, operated and controlled by negroes. The call is not directed exclusively to negroes engaged in banking, but to representatives of savings funds, building and loan associations, and similar institutions.

CASS LAKE INDIANS

DIVIDE TIME BETWEEN DANCES AND BLUEBERRIES.

Cass Lake, July 9.—Cass Lake Indians to the number of two hundred have been having various kinds of dances since the Fourth of July. They leased the base ball park, charged 15 cents admission, and have been having good times among themselves on the proceeds derived from admissions to their "balls." Chiefs Flatmouth, Bemidji and several other lesser lights have participated in the dances.

The blueberry season being at its height, the Indians derive a good revenue from selling the fruit, and are consequently having a "heap good" time.

SCARCITY OF HELP

IS NOW TROUBLING WISCONSIN FARMERS.

La Crosse, Wis., July 9.—Farmers complain that there is great difficulty in getting help at this time of the year and it is feared that crops may be ruined for want of enough men to properly care for them. The rains have made the grass and weeds grow so fast that nearly all of the time of the regular farm hands is taken up in keeping the potatoes and like products free from them, so that the grains cannot be looked after as well as on dryer years.

STILL HOT IN KANSAS

MONDAY'S TEMPERATURE 108 DEGREES.

Topeka, Kan., July 9.—Yesterday was a day of unprecedented temperatures in Kansas. At Topeka for two hours in the afternoon the mark reached was 104. In Marysville 108 degrees was the record. Fort Scott reports 106 degrees. Reports from numerous Kansas counties last night indicate that the corn crop is practically a failure. Hay is selling at enormous prices and indications point to almost a famine in feed for animals unless rain comes within a day or two.

DRIVEN BY WIND.

Huron, S. D., July 10.—While A. E. Coleman and George W. Nicholl were riding their wheels from Hitchcock to Crandon, they were caught in a wind storm. They were driven by the wind at a terrific speed for two or three miles, gathered up bodily and sent over the prairie several rods, landing in a pasture near a barbed wire fence. Both escaped serious injury, although bruised and scratched.

DOWLING TALKS

Of Political Prospects in the Newly Created Seventh District

RENVILLE REPRESENTATIVE

Passes Through Crookston Enroute to Roseau County on a Visit

Crookston had a distinguished visitor today in the person of Representative M. J. Dowling, who officiated as speaker of the house at the last session of the state legislature. He was on his way from his home in Renville county to Roseau where he owns some real estate which he will look after, and at the same time will take occasion to pay a visit to Mrs. Dowling's sister, Mrs. J. C. Spencer, wife of the auditor of that county.

Mr. Dowling is one of the most popular men, as well as one of the leading politicians of the state. He is prominently mentioned as a candidate for congress in the new Seventh district, and it is confidently expected that he will try conclusions for a nomination with Congressman Frank Eddy when it comes time for the people to again choose their representatives. There are others down there who aspire, in fact, as Mr. Dowling remarked to a Journal representative today, the district is full of statesmen.

"I believe," said the Renville statesman, "that although you have been so good to Frank Eddy up in this part of the state, and have shown him such marked political favors, that he is more popular with us than with you. Anyway, when it came to redistricting, you didn't seem to express your preference strongly enough to keep him in the new Ninth. Frank is a good fellow and has made quite a record in congress, and we think lots of him down our way."

Just here a suspicion of a twinkle came into the left eye of the speaker of the house, as he added: "But that isn't saying that he will be the next candidate for congress from our district."

Speaking of the operation of the primary election law, Mr. Dowling said that it would be the means of acknowledging the power of the press, a matter wherein the editorial thinkers and writers of the state had always been turned down with little else than empty promises.

MONSTER LAND BUSINESS.

Here are the land sales of Geo. Purvis at his Crookston office for the half year ending June 30, 1901, for the Great Northern Railway company alone: January, 3,380 acres; February, 15,200 acres; March, 16,307 acres; April, 10,645 acres; May 8,736 acres; June, 8,378 acres, and as the average price is a little over ten dollars per acre, it will be seen that Mr. Purvis has sold for the Great Northern in six months through his Crookston office alone, railway lands for three quarters of a million dollars. During the same period he has sold improved farms belonging to others aggregating 10,000 acres, for $100,000.

In addition to these sales Mr. Purvis has acted as broker in the sale of several high tracts of land in Minnesota and North Dakota during the last six months. The present month of July, Mr. Purvis says, is going to be his banner month, as his sales for the first week of this month have broken all former records.

SEARCH ABANDONED

TRAIN ROBBERS HAVE APPARENTLY ESCAPED.

Butte, Mont., July 10.—A special from Malta says all hope of capturing the Great Northern train robbers has been abandoned. One by one the men who accompanied the authorities in the chase to the southward have returned, and the general opinion appears to be that the robbers have made good their escape.

The men composing the sheriff's posse sent out from Glasgow have despaired of capturing the men, and the chase has been given up from this end of the line.

Hopes are entertained that the robbers may be apprehended while on their way out of the state by the authorities in the southern counties of Montana. Experienced trailers are firm in the belief that the riders scattered as soon as they were near the southern boundary of the state, and reached the hole-in-the-wall by circuitous routes.

THIS IS DIFFERENT.

Minneapolis, July 10.—A special to the Times from Great Falls, Mont., says:

In Deep Canyon, about 60 miles south of Malta, 15 miles east of Rocky Point, and five miles north of the Missouri river, Sheriff Griffith has at last cornered the Great Northern train robbers. The canyon is a veritable fortress, as it is full of caves, where the robbers can hide and hold at bay an army if need be. This news left the camp of the posse at an early hour on the morning of the 8th.

SEPARATE CELLS

AND TOILET ARTICLES SHOULD BE GIVEN PRISONERS.

In the course of an address before the Interstate sheriff's association held in Chicago recently, Sheriff John Gardner of Green county, Wisconsin, said as follows: "A jail should be so constructed as to provide a separate cell for each person,' he continued. "The cells should be airy and well lighted, equipped with a bath, hot and cold water, a comb and brush, a looking glass, and several interesting and instructive books.

"Give the prisoner a looking glass, so he may see himself, and in that way come to think more of himself. Do not allow social games, for the confinement is not for the purpose of making the prisoner comfortable. Require regularity in the taking of exercise and the taking of meals.

"The system of separate confinement can not be emphasized too strongly. The younger and inexperienced are thus removed from the older and more hardened prisoners, permitting the greater moral effect of a first arrest."

FINE PIECE OF WORK.

One of the finest examples of the printers' art seen in many a day is the official program of the Fourth of July sports that comes to the Journal from the Warren Sheaf office, and is the handiwork of Will Shaughnessy. It is done in two colors and would do credit to the print shops in St. Paul or Chicago.

HOPPER QUESTION

Is Set out at Length in a Bulletin From State Authorities.

THE LACK OF LEGISLATION

Prevents Concerted Action Against Them--Plowing to Exterminate

The Red River Valley all the way from Wilkin county to Kittson county, is suffering from an attack of grasshoppers. The Rocky Mountain locust, or grasshopper, is very generally present, especially in the southern part of the Valley. Much damage, however, is being done in some localities where this species is not present. The distribution over this region is quite general, though the grasshoppers are much worse in spots. At Moorhead and Ada they are present in numbers sufficient to do great damage if conditions favor their work. Fortunately the farmers have been assisted in their work of combatting the insects by two important conditions; one is the cool weather which has restricted the activities and dampened the ardor of the grasshoppers; the other is that the grasshoppers are quite generally parasited by red mites which attach themselves to the animals wings or to the back beneath the wings and there thrive on the substance of the hopper beyond the influence of the weather. In some situations, however, the grasshoppers have cleaned up many acres of young wheat, flax and potatoes. Since the rains many of these fields are recovering, but others are still suffering severe trimming at the edges. It is not uncommon to see great fields as bare as they was before the wheat was sown. As a general thing, however, the grasshoppers have been more of a menace and annoyance than a veritable scourge, but all must admit that the possibilities of the situation are immense, and that it is worthy of the most vigorous treatment.

The damage is mostly being done by two closely related species, the Rocky Mountain locust and the White Mountain locust. Both are migratory; both are destructive, and both may breed in the Red River Valley. They are very much alike in appearance, and it takes an expert to distinguish between the two. The Rocky Mountain locust is a little the larger, and is said to be the more voracious. The destructive abilities of the White Mountain locust and of other native grasshoppers is very generally underestimated. Several times in the history of agriculture in Minnesota it has proven to be very destructive, and where favored by weather conditions may cause great damage. A small flight of grasshoppers was seen last fall to come into Otter Tail county from the west, but almost all the grasshoppers doing damage in Minnesota this year were bred in Minnesota. Other small swarms probably crossed the state line from the Dakotas, where they breed permanently. The Red River valley should be regarded as the eastern limit of the breeding ground of this species.

The Rocky Mountain locust begins egg-laying about the middle of July and usually lays about three egg clusters at intervals of two or three weeks. The whole egg-laying period extends from the middle of July to the middle of September, though most of the eggs are laid in August. The White Mountain locust, which is also present in destructive numbers in the Red River Valley, deposits its eggs considerably later in the season than the Rocky Mountain locust. In fact it may deposit eggs up to the beginning of cold weather. Hence it is clear that the time to plow with the expectation of preventing the eggs from hatching is late in the fall or early in the spring. The number of eggs laid at a time is somewhat variable, but the number is approximately 30, so that the whole number of eggs laid by one female during the season is in the neighborhood of 90. The female grasshopper prefers firm soil rather than a plowed field in which to lay her eggs, and after laying the eggs in the ground, leaves a hole for the exit of the young. Plowing is by far the best remedy we have for the grasshopper difficulty. There is but a single brood of grasshoppers each year, and no mature hoppers live over winter. Hence a single fall plowing insures the destruction of all the grasshoppers present in the land. Both specis of grasshoppers doing damage in the Red River Valley this year prefer solid soil in which to lay eggs. Stubble fields are ideal localitels for this purpose. All stubble fields and other cultivated land should be plowed. Regarding other fields, such as meadows, they may be selected by the grasshoppers as egg-laying grounds especially if the sod be thin. If your neighborhood has been infested with grasshoppers you should carefully examine all your meadows to see if the eggs are present in the surface inch of soil. If in doubt as to whether they are grasshopper eggs send them to the state entomologist, who will tell you at once. In case they are to be found in your meadow it is best that the sod be turned under. If you can not afford to lose the pasture, provide yourself, as soon as the eggs as discovered, with hopper dozers with which to catch the young.

The hopper dozer may be used successfully to catch the very young as well as the winged grasshoppers, and may be run over the grain until it is more than a foot high without breaking it down. After the grasshoppers have matured and laid their eggs we have the best chance of all to stamp out the pest. Grasshopper eggs are laid in the surface inch of the soil. By plowing them under to the depth of five inches the whole trouble is ended so far as the next year's brood is concerned for such of the young as hatch the following spring will not be able to reach the surface. By plowing round and round a field just after the grasshoppers have hatched in the spring a great number may be buried in the furrows, especially in the middle of the field where they will be concentrated in a small area.

In using the dozer a very slight touch of oil will eventually kill the grasshopper. Many succeed in jumping out of the pan, probably as many as 90 per cent, but if they once have been in the oil they die in a few minutes. Five gallons of oil is enough to kill all the grasshoppers that one is likely to catch in a 10-foot hopperdozer during one day. One 14-foot hopperdozer will cover about 10 acres a day. As the grasshoppers crawl up the stalks of wheat in the evening, more can be caught in hopperdozers at this time than earlier in the day. The whole source of this difficulty is the common practice of summer fallowing. Western Minnesota will not outgrow its grasshoppers until it abandons this practice. The idea seems to exist that the soil needs a rest after a wheat crop and it is surely true that a stronger straw is produced by land that has been summer fallowed. Now, just what does this summer fallowing accomplish? On new land the straw is so rank that the grain lodges This is because the soil is so rich in nitrogen. The virgin soil is too rich in nitrogen to produce the strongest wheat straw. The difficulty is to a measure remedied by summer fallowing, which from their more stable compounds, liberates all of the so-called essential elements of fertility; nitrogen, potash and phosphoric acid. Much nitrogen must escape from the soil through denitrification during this process of the summer fallowing. This is all wasted. More humus is lost from the soil during summer fallowing than is used by the crop. The phosphoric acid and potash liberated are not lost from the soil to nearly so great an extent. The result is that after the season of summer fallowing we have in the soil a greater proportionate amount of phosphoric acid and potash in condition to be used by the crop than is natural to the soil. Hence it is better for wheat growing. Now this practice of summer fallowing is an extravagantly expensive one. You lose the use of the land for a year; you expend an amount of labor about equal to that of preparing the land and planting the crop; you dissipate, in the most reckless fashion, the store of nitrogen in the land which makes the Red River valley soil one of the most valuable potentially in the United States, and you rear millions of grasshoppers. Instead of turning the grasshopper eggs under in the fall and adding their valuable substance to your land, you allow the grasshoppers to mature and fly away with your crops. Now how else are we to till this soil for wheat? The problem is an extremely simple one. Raise a crop which demands nitrogen rather than phosphoric acid and potash. Two crops very well suited to this purpose are millet and fodder corn. The idea that this soil, one of the richest in the world, needs a rest is ridiculous. What it needs is judicious cropping, a system that will draw upon the stock of soil fertility in the proportions in which the various elements become available to plants.

The state entomologist has been furnishing assistance to the farmers from the funds set aside by the legislature for the purpose of combatting injurious insects. Though the sum appropriated would be insignificant in case of a general outbreak it has been made to cover quite a large territory in the Red River Valley this season. The state entomologist has made a uniform practice of furnishing kerosene to such farmers as would provide themselves with hopperdozers. The purchase or manufacture of hopperdozers by the farmers is calculated to furnish some assurance that he will use the oil supplied him for the intended purpose. The farmer gets his oil by applying to a county commissioner, selected by the state entomologist as local agent, for an order upon some dealer in oil with whom special arrangements have been made for furnishing oil to the farmers for this purpose. The farmer signs a promise to use the oil for the killing of grasshoppers by means of the hopperdozers and for no other purpose. Oil has been furnished farmers at various points in the counties of Kittson, Marshall, Polk, Norman, Otter Tail, Clay and Wilkin. In Clay county, where the most serious outbreak exists, the whole community is fighting grasshoppers, and they were caught by hundreds of bushels every day during several weeks. In this county there are enough grasshoppers present to completely destroy the crops and to be a menace another year to the whole state. The farmers of this county have, however, taken hold of the proposition in excellent good spirit, and they have the situation well in hand.

It is to be hoped that the county commissioners of all the counties in which damage has been done this year will find it possible to arrange for the supervision of the plowing during the autumn of all stubble fields and other ground in which grasshopper eggs have been laid. This is the most general appearance of the Rocky Mountain locust that has occurred in Minnesota in many years, and the crops of the state must be regarded as in peril until the stubble fields from this year's grain have been plowed. We are very much in need of legislation which will make it possible for competent authorities to compel the plowing of fields in which grasshopper eggs have been laid, for they are veritably seeds of trouble.

E. B. FORBES,
Acting State Entomologist.

PERMANENT EXPO

TO BE ESTABLISHED IN CHICAGO--$400,000.

Chicago, July 8.—Chicago is to have an exposition building. A permit for its construction was taken out Friday by the Garrett Biblical Institute.

It is to be erected at a cost of $400,000, and the officials of the institute expect to realize a permanent revenue on their investment.

The building will be on the Institute's property, on Michigan and Indiana avenues. It will consist of two parts.

The smaller section will be three stories high at 1310 Michigan avenue, to be used for offices by the firms exhibiting.

From this building a covered way will lead across the alley to the exposition building proper, which will have a frontage of 225 feet on Indiana avenue and run back 160 feet to the alley.

As at present planned the first occupants of the building will be manufacturers of furniture and representatives of industries collateral to the furniture manufacturing business.

For several years the furniture makers have held annual expositions in Chicago, but have never had adequate facilities for showing their goods.

These expositions have brought thousands of merchants from all parts of the country to Chicago each year. The displays have been limited to a week.

From the success which attended these expositions grew the idea of a permanent exposition along the same line and the trustees of the Garrett Biblical Institute saw in the idea an opportunity to profitably invest the funds of the institution.

CHANGE OF TIME

ON THE FARGO AND ST. HILAIRE LINES.

The Great Northern time card of the Fargo-St. Vincent and St. Hilaire lines has been changed, and hereafter travelers on those branches will have to hustle a trifle harder to make connections.

The figures that will be read on the clock at this station will look this way: Leaving for St. Hilaire, Thief River Falls and Red Lake Falls at 8:25, returning at 7:10.

Arriving from Fargo at 8:10, instead of 8:15, as has been the case heretofore, the train will await the arrival of the Duluth bound train as usual, and leave at 9:10. The leaving time of the Fargo train has been extended 15 minutes, and hereafter it will go at 7:30 p. m. No other changes are made i nthe schedule at this point.

YOUNGERS HOPE

BOARD OF PARDONS IN SESSION AT ST. PAUL TODAY.

St. Paul, July 8.—Governor Van Sant, Chief Justice Start and Attorney General Douglas, constituting the board of pardons, will this afternoon decide the fates of thirty-six inmates of penal institutions. The calendar is a long one and especially burdensome on account of the Younger case, which will come up for consideration. The board met at two o'clock. The members have already reviewed the papers in each case and have only to hear thes tatements of the attorneys Among the new applications are those of Hoffman, Minot, Hall and Thayer, the Otter Tail county train robbers.

THE PASTOR EN ROUTE.

Advices from Rev. O. Amdalsrud, who will return after a year spent in foreign missionary work, to assume the pastorate of the Synod church in this city, are to the effect that he landed in London on the 18th of June, and as soon as he has reported to the head of the society in Bergen, Norway, he will start for Crookston. His arrival here is expected about the 20th of July

MORRISEY BID THE LOWEST.

The bids for the erection of the new banking house at Warren were opened Friday, but each of the four tenders was considerable above the amount expected, and the contract letting was reserved until a later date. Twelve bids for the steam heating were offered, ranging in amount from $900 to $1,100, and these were also taken under advisement. The bid of J. E. Morrisey was the lowest.

A POOR MILLIONAIRE,

Lately starved in London because he could not digest his food. Early use of Dr. King's New Life Pills would have saved him. They strengthen the stomach, aid digestion, improve appetite. Price 25c. Money back if not satisfied. Sold by A. G. Anderson, druggist.

YOU ARE INVITED

To Attend the Great Drainage Convention to be Held at Fargo

TO MEMORIALIZE CONGRESS

Mayor Johnson Urges Attendance--Rate Will be One and One-third Fare

Mayor Johnson, with his characteristic zeal and energy, is laboring to insure the success of the drainage convention to be held in Fargo next week and publishes a general invitation as follows:

Fargo, N. D., July 4.—To the Citizens of the Northwest: You are invited to participate in a very important meeting to be held in Fargo July 16, 17 and 18. The object of the meeting is to take steps to induce congress to prevent the overflow of the Red river and Red Lake river. United States engineers have made a preliminary survey and in their reports they say that the plan is not only feasible, but the expense is so small that, compared with the damage done in such a flood as in 1897, it is a mere bagatelle. The estimated expense is only about $800,000, while the damage in 1897 was over $3,000,000. I have letters from United States senators, members of congress, as well as members of the legislatures of the two Dakotas and Minnesota, as well as from other prominent men who will attend the meetings and give addresses. All that is necessary is to let the government know what they want and they will get it.

The railroads have agreed to give reduced rates from all points in Minnesota and the two Dakotas and from West Superior, Wis., on the certificate plan. Buy your ticket at full fare, going, taking a receipt from the selling agent, and when you buy your ticket to return, you will get it for one-third of the regular fare. The offer is based on an attendance of not less than 75, who have paid full fare, going. Newspapers in Minnesota and the two Dakotas can do their subscribers no better service than to copy this, which they are respectfully requested to do.

—J. A. Johnson,
Mayor of Fargo, N. D.

A HAND OF FOUR KINGS.

W. W. Eagle, who manages to keep busy at Fertile by attending to the duties of the telephone exchange, a photograph gallery, and running a barber shop, beside singing in the choir on Sunday and umpiring an occasional ball game, found a substitute today and came up to Crookston to see his friends. The Journal acknowledges a call. Mr. Eagle says he now holds the next to the highest possible hand. He calls it four kings, the last one a bouncing 10 pound boy, born Saturday.

COULDN'T PROVE IT.

The police corraled a man who is suspected of swiping a silver ticker from Gullick Austin on Saturday. He gave his name as John Williams, but later on decided that he was William Johnson. He explained that he was so full that either name would suit him and his appearance bore out the statement. He was also so thoroughly saturated that he had no recollection of taking the watch, although the breath of suspicion was almost as strong against him as the booze taint in the atmosphere he exhaled, and that would have convicted him of any crime. The most that could be done was to hold him on the charge of drunkenness, and he settled.

SHE DIDN'T WEAR A MASK.

But her beauty was completely hidden by sores, blotches and pimples, till she used Bucklen's Arnica salve. Then they vanished as will all eruptions, Fever Sores, Boils, Ulcers, Carbuncles and Felons from its use. Infallible for Cuts, Corns, Burns, Scalds and Piles. Cure guaranteed. 25c at A. G. Anderson's.

$25.00 REWARD.

Twenty-five dollars reward to the person who will furnish evidence which will convict the party who stole the undersigned's dog, an English pointer with a slit in left ear, white with small black spots and three large black spots, one on her head, one on her left side and one over her hips and extending onto the tail. Answers to the name of "Jessie."

—G. E. A. Finlayson.

WHITE MAN TURNED YELLOW.

Great consternation was felt by the friends of M. A. Hogarty of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, and he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful stomach and liver remedy, and he writes: "After taking two bottles I was wholly cured. A trial proves its matchless merit for all stomach, liver and kidney troubles. Only 50c, sold by A. G. Anderson, druggist.

KILLED THE MOOSE

Game Warden Stevens Makes a Capture of Four Moose Calves

TOOK 'EM TO THIEF RIVER

And Some Miscreant Got Into the Barn and Cut Their Throats

Deputy Game Warden Stevens has been considerable of a terror to poachers and those who illegally kill game in the Red Lake region, and he has recently had a new experience to add to the list that has accumulated on his various trips.

Early this week he passed through Crookston bound for points in eastern Marshall county. He reached a ranch in the Red Lake country in the course of his travels, and found four moose calves that a party had captured after killing the cow moose. These he confiscated and brought to Thief River, arriving there the night of the Fourth.

The parties from whom the animals were taken had friends in Thief River, and fearing that they would attempt to get away with the evidence, the game warden placed the calves in a barn and watched them until midnight. Thinking longer vigil unnecessary, he went to bed. On arising in the morning he went to the barn and found that some miscreants had entered the barn during the night and cut the throats of the animals. Three of them were dead, but the fourth, it is hoped, was not so seriously injured but that it may recover.

The authorities and people generally who live there denounce the dastardly act, and are doing all possible to ferret out the guilty parties.

BADLY WRECKED

CAR DYNAMITED BY G. N. ROBBERS TAKEN EAST.

The Great Northern baggage car which was the principal stage property at the scene of the hold up in Montana, was attached to Friday night's passenger train bound for St. Paul. It is a beautiful example of the damage three men can accomplish in a short time, provided they are equipped with plenty of dynamite.

Everything except the running gear is a complete wreck; two-thirds of the roof is blown off, the sides are bulged out and perforated here and there where pieces of the safe went through, and the interior looked like a second hand store struck by a cyclone. On the front of the car, just the height of a man shooting from the blind baggage, is a long groove made by a bullet, and the mark left where the powder burned. A steel Winchester ball struck the side rod o the door bending it and then breaking, the fragments penetrated the wood all about. The safe looks about as much like a safe as it does like a coal stove. It was twisted and broken until it is hard to tell which side the door was on. There will be very little salvage for the railroad company.

COURT ADJOURNS

MANY CASES SET OVER TO NEXT TERM.

The last jury case to be tried at the June term of court ended Saturday and the long term is ended. A number of cases were continued till the next term, and between the dates of terms elsewhere, Judge Watts will find his time filled with hearing court cases in chambers. He will open a term of court at Ada on Monday.

Among the cases that have been heard during the latter days of the week was one brought by Carl B. Pederson against Albert H. Kleven, being an action for damages. Plaintiff claims Kleven misrepresented land upon which the latter located a homestead for him. The jury sided with the plaintiff and returned a verdict for $125.

In a similar case brought by Peter L. Berg against Kleven, it was stipulated that the same verdict should apply.

The last case to be tried was an action brought by Nichols & Shepherd to compel Hans J. Peterson to settle for a separator alleged to have been purchased of them.

REMODEL THE GRAND

CROOKSTON'S PLAY HOUSE WILL BE REFITTED.

The Journal is pleased to tell its readers that the Grand opera house is to be thoroughly renovated, refitted with scenery and placed in a condition to be a credit to the city and attractive to theatre goers.

It has been leased by the Walker Theatre company, and hereafter C. P. Walker will assums the management. The house will be added to the theatres in the "Bread Basket Circuit," that are controlled by that company, the other houses being the Winnipeg theatre, Winnipeg; Mstropolitan at Grand Forks, and the Fargo opera house atFargo.

The property has been in the hands af a company largely controlled by eastern capitalists, and the Kirsch brothers have nat been able to secure any concessions from them in the way of repairs. They decided to relinquish the property at the expiration of their lease, and in assuming the management Mr. Walker has arranged for extensive repairs.

The scenery and stage fittings will be renewed throughout, under the direction of Arthur R. Hurtt, one of the foremost scenic painters in the country, and all other changes and improvements will be made that are needed to place the property in presentable condition.

The cost of the work will be abaut $2,000, and when completed Crookston will have one of the finest playhouses of any city of its size in the state. The house will be closed later on in the month, and will remain in the hands of the decorators until completed, which will be late in August ar the first week in September, when it will be opened by a large company and a first class attraction.

To the Journal Mr. Walker said today, that it will be the aim of the management to list a class of attractions that the theatre going public of the city will patronize, and be willing ta encaurage.

The city has not in recent years given encauragement to the house that it would, had the building and stage been placed in proper condition, and the new order of things will result in increased patronage and a better line of attractions.

POSTAL REFORM

MANY PUBLICATIONS BARRED FROM SECOND CLASS.

Washington, July 6.—Postmaster General Smith has decided to debar from second class mail privileges the large class of periodical publications which depend largely on gift enterprises, guessing contests or nominal subscription rates for their circulation. This sweeping reform, designed to put the postal service on a paying basis, is to be ordered next week by a modifications of the postal regulations under existing law.

By the new regulations a vast amount of printed matter that now pays for transmission at the rate of one cent, will be charged eight cents a pound. The second class matter has grown until it now embraces nearly three-fourths of the entire weight of all mail matter handled by the government, yet it brings in a revenue of less than $4,000,000 a year out of the entire postal revenue of more than $110,000,000. While it contains about three-fourths of all the weight, it furnishes only about one-thirtieth of the revenue. To handle and carry the second class matter costs fully $60,000,000 a year above what the government receives for carrying and handling it.

In the revised regulations about to be issued the postmaster general will endeavor to carry out the purpose of congress and of the executive by restoring a stricter enforcement of the law. The new order will not interfere with legitimate newspapers and similar periodicals, but it will cut off the abuse by which numerous publications load down the mails with circulations induced wholly by merchandise offers or guessing contests that are either fraudulent in character or reduce the circulation to nominal rates. It is also likely to cut off trial books, which have secured admission as second class matter. Though promulgated next week, the order will probably not be made operative immediately, in order that publishers may have an opportunity to conform to the new requirements.

ARTICLES FILED

THE LANNING - BROWN-WRIGHT COMPANY INCORPORATE.

Articles of incorporation of the Lanning-Brown-Wright company, successors to the Ray Mercantile company, were filed with the register of deeds Monday. Members of the firm are J. O. Lanning, J. M. Funk, Webster City, Iowa; C. A. Wright, W. S. Brown, G. A. Everest and E. A. Phelps, of Duluth.

J. O. Lanning is president and treasurer, C. A. Wright vice president, and J. R. Reitzinger secretary. The capital stock of the institution is $150,000 and is divided into 1,500 shares of $100 each.

WATER IN THE PINE COUNTRY.

Mark Stoner, the Bemidji surveyar and Blackduck townsite proprietor, came in Friday to do a stroke of business at the U. S. land office, and returned today. He says that the rains have been so heavy that it has compelled the contractors on the new line of railway out of that place to suspend operations, and that there will be no more rails laid until fall.

SITUATION IMPROVED

LESS SMALLPOX IN NORTHWESTERN POLK.

Dr. H. M. Bracken, superintendent of the state board of health, was in East Grand Forks Saturday. He had just completed an investigation of smallpox conditions in northwestern Polk, where the disease has had a serious run in the past six months. Little attention was paid to the disease there for several weeks until it had secured a firm footing, and it was necessary to establish a rigid quarantine to stamp it out. Dr. Bracken says there are still a number of mild cases but the situation now is very favorable to a complete eradication of the contagion within a very short time. He says that throughout the state of Minnesota the disease is fairly well corraled and with proper care there will be no further serious outbreaks. In some cases where a great deal of carelessness prevailed on the start the people have learned a good lesson, one that has cost individuals and the state thousands of dollars, and will not be forgotten by them for years to come.

HOPPERS MIGRATING

APPARENTLY DISCOURAGED BY WET WEATHER.

The farmers and business men of the Red River valley will rejoice that the grasshopper pest which has afflicted this country to a greater or less extent this summer seems to be about ended. The destructive grasshopper is fortunately a migratory insect and after staying in one locality for a certain time he suddenly makes up his mind to move and gets as high in the air as he can and leaves for other fields. When these insects start to fly they go in swarms and often the entire country is clear of them within a few days from the time they start. Those that have been here for the past year seem to have suddenly made up their minds to leave, and today could be seen by the millions flying southeast. All along the streets yesterday people were standing in shady places looking toward the sun, where millions of the hoppers could be seen far up in the air industriously flying to the southeast. Differen theories are advanced as to the reason for their leaving at this time, but the most generally accepted one seems to be that it has been too wet for them here and that they are seeking a dryer place to lay their eggs. Whatever the reason may be, every one in the valley will rejoice if the migration of the grasshopper continue until the country is freed of them.—Moorhead News.

SETTLED IT AS NEIGHBORS SHOULD.

Attorney Holston's pet dog got on too familiar terms with Will Hall's chickens, and after killing half a dozen, Will complained about it. A. R. told him the animal probably needed them for a litter of puppies she was carefully rearing, and then they made a bet as to whether the chickens would outlast the dog. They did, all right, but as the pups are fat enough to sell for sausage meat, Mr. Holston figures he will lose nothing, and so there's no hard feelings over the matter.

PILE AND FISTULA CURE.

Sample treatment Red Cross Pile and Fistula Cure and book on piles sent free to any address. Rea Bros. & Co., Dept. X, Minneapolis, Minn.

L. I. BENOIT'S

DEPARTMENT STORE.

Reliable merchandise at uniformly low prices. We solicit your trade on a purely business basis. We ask for no favors and expect none. We believe in being perfectly straightforward and never knowingly misrepresent an article. The values we give at our counters are the most reliable offered in Crookston. OUR NATIONAL NEED.

Thought is the most powerful force in the universe. It was the Divine thought that created the world, and the infinite variety of life by which it is inhabited It was the Divine thought that created man, breathed into his nostrils the breath of life and endowed him with the power to think. It was the Divine thought that opened the way for man's return to his original estate after having forfeited his birthright by his own voluntary sin, and that provided the possibility of man's complete and perfect happiness both in this and the future life.

It was human thought misguided and misdirected, that overthrew and thwarted the purpose of the Divine thought, and brought misery, degredation and death into the world.

The power to think is what distinguishes between the brute and the man.

The power to think is what constituted the likeness of man to his Creator which is conspicuously mentioned in the account of man's creation.

But thought operating in the direction of error cannot reach the maximum of its power.

Its maximum of force is attained only when educated, developed and exercised in harmony with the thought of God.

When the thought of the world's teeming millions of human beings is brought into harmony with the thought and purpose of God, all difficult problems in social life will have been solved.

And hence the great need of the world, of the nation, of the state, of the municipality, of the individual, is right thought.

The individual citizen is useful or a damage to the community as he thinks right or thinks wrong.

The direction of his thought determines the question whether his influence is good or bad, the capacity of his thought determines the extent of that influence.

What the world needs, then, is right thinking on the part of the inhabitants.

What our nation and our state needs is right thinkers.

What Crookston needs, is right thinking men and women.

Our educational institutions are potent to benefit the world only to the extent that they educate and stimulate their pupils in right thinking.

Brain and heart must both be educated to make good citizens. Quality of thought and capacity of thought together determine the individuals' character and the measure of his usefulness to the community and to the world.

What Crookston needs, therefore, is to restrain and minify the influences that pervert the thought of our youth and stimulates it in the wrong direction, and to encourage and strengthen the influences and agencies that incite and develop right thinking on the part of our youth, if a substantial foundation is to be laid for her future true prosperity.

SUGGESTION TO DAIRYMEN.

A big meeting of southern Minnesota dairymen is to be held at Waseca July 13, under the auspices of the state dairy and food department. Gov. Van Sant will attend, and Prof. T. L. Haecker, of the state agricultural school, will address the dairymen.

If such a meeting is needed and is beneficial to the dairy interests of the southern portion of the state, much more is it needed in the northern portion of the state, where dairying is still in its swaddling clothes. The southern Minnesota dairymen have already achieved wonderful success, and northern Minnesota dairymen, if wise, will study carefully the methods adopted by their successful brethren and copy and improve upon them as far as possible. We suggest, therefore, that a convention of northern Minnesota dairymen be called to meet at Crookston at as early a day as practicable, and that steps be taken to secure the attendance of experienced and successful dairymen in the capacity of advisors.

Men talk of the secret of successful advertising, but it is all very plain. The essentials are to offer what people want at fair prices, and to offer it in a way that will make readers know they want it. The art in writing an advertisement is to speak as the interested and well informed merchant would to a prospective customer.

The hustling city of Bemidji has shown another evidence of its intention to "get there" by having a man who has nerve enough to start a daily paper. Editor C. R. Martin is the man, and Vol. I, No. I, is on the Journal exchange table. The sheet is chock full of news, set forth in the breezy style of that progressive newspaper man. The Journal extends the hand of good fellowship and hopes the venture will be successful from the start.

Fargo Forum: It is estimated that the total expense of a system of canals and reservoirs adequate to mitigate the influence of spring floods along the Red river would be less than $900,000 while the damage by the flood of 1897 is said to have amounted to over $3,000,000, and in other years nearly as much. Which would pay best, to risk future floods or make their recurrence impossible?

During the hot weather last week, the authorities in Boston decided to test the heat absorbing power of the different pavements. They found the average temperature of the wood pavements was 124½, granite blocks showed 115 degrees, asphalt 113 and macadam 102½. The figures were so unexpected that further tests will be made.

COULD STARVE EUROPE.

In a late dispatch from London, Jean De Bloch, the distinguished Russian military expert, is quoted as saying that in the event of a great transoceanic war, the United States could speedily starve Europe. He also says:

"America's future, like that of Germany, lies on the water. Whenever it clashes with a European power the contest will resolve itself immediately into a war of commerce. In my opinion, America will require only a great fleet of fast cruisers in order to terminate hostilities speedily in its favor. The United States can never be dislodged from its position as the greatest provider of Europe's necessities of life. The mere defeat of a European squadron would bring to the United States little advantage, since it has nothing to fear from such an assailant. When American cruisers began systematically to patrol the shores of Europe it would be a matter of weeks or months only when Europe would find it vitally necessary to sue for peace.

"Europe, therefore, has legitimate cause for concern at the expansion of the American navy. If you Americans continue to build first class cruisers, rather than battleships, the time will come when Columbia will literally rule the waves."

THE WATERS OF THE RED.

The proposed plans for the prevention of disastrous floods in the valley of the Nile of America, as Red River of the North has been called, do not seem to be chimerical, says the Minneapolis Journal. They also give promise of serving another purpose, that of assisting navigation in the Mississippi by raising the stage of water in that river.

Without attempting to speak for the engineers it would seem to be feasible to divert much of the flood water of the upper valley of the Red into Traverse and Big Stone lakes, thus using them as reservoirs; from which through the Minnesota river the Mississippi could be replenished through the months of low water.

The carrying out of this plan would restore the Minnesota river to its former respectable proportions, from the mere sluggish creek which it now becomes in dryer years. In the pioneer days this stream boasted of a considerable steamboat traffic, and while no stage of water would ever restore that, the towns and cities that lie along the river would prefer to see it a full-volumed, deep-running stream instead of an insignificant thread of water in the bottom of the old channel.

It will go hard with the "sooner" sportsman who hunts chickens this month or next, if the game warden catches him. The game and fish commission has ordered Executive Agent Fullerton to enforce the law by filling up the state with deputies if need be. Any one caught violating the law is to be punished to the fullest extent. His gun will be confiscated and his dog killed, and he will besides be subject to a fine. The commission decided that such a vigorous action was necessary to curb the growing disposition to disregard the closed season and kill chickens before they are ripe.

APPLICATION FOR LICENSE TO SELL INTOXICATING LIQUORS.

To the village council of the village of Climax, in the county of Polk and state of Minnesota:

The undersigned Evenson Bros., hereby make application for a license to be granted them to sell intoxicating liquors for a period of one year from the 9th day of July, 1901. The place where the said business is to be carried on is designated as follows:

Lot (8) eight, block (3) three, in one story frame building in the village of Climax, Polk county, Minn.

Said applicants pray that such license be granted to them pursuant to the ordinance of said village of Climax, and the statutes of said state of Minnesota, in such case made and provided.

Dated at Climax, Minn., June 20th, 1901. —Evenson Bros. 12-14

UNITED STATES LAND OFFICE,

Crookston, Minnesota.

Notice of intention to make proof of right to purchase, under the 5th section of the act of Congress, approved March 3, 1887.

Robert J. Montague, of Crookston, Minnesota, having on June 11, 1901, filed in this office his application to purchase, under the 5th section of the Act of Congress, approved March 3, 1887, lot Four of section Thirty-three, in township One Hundred and Fifty North, of range Forty-six West of the Fifth principal meridian, in Polk county, Minnesota, and filed in conection with said application his affadavit in support of his right to purchase the said land, and asking that the St. Paul, Minneapolis and Manitoba Railway company and one Edwin F. Kelly, who is living upon and claiming some right to the said land, under the homestead laws of the United States, be cited to appear and show cause, if any they have, or objections to the submissions of such proofs or consummation of title to the said lands by him, in the manner in said application proposed, and asking that a time be set when he might appear with his witnesses before this office and make proofs of his right to purchase the said land and consummate his title thereto. Said Robert J. Montague offers to make such proof by himself and by the following named witnesses:

James Greenhalgh, postoffice, Crookston, Minnesota.

Joseph Gauche, postoffice, Crookston, Minnesota.

William Watts, postoffice, Crookston, Minnesota.

E. C. Davis, postoffice, Crookston, Minnesota.

Albert J. Lachapelle, postoffice, Red Lake Falls, Minnesota.

James Stoddard, postoffice, Land Dept., Great Northern Railway Company, St. Paul, Minnesota.

And by the records of this land office, and of the office of the register of deeds of Polk county, Minnesota, and by other documentary evidence and especially by a contract executed by the St. Paul, Minneapolis and Manitoba Railway Company, dated January 27, 1881, to one Ozora P. Stearns, and by the books and records and vouchers of the said railway company, and certain contracts and assignments and deeds by said Ozora P. Stearns and his assigns and grantees under him; and the right of said Robert J. Montague is claimed under and by virtue of said contract made January 27, 1881, by said railway company to said Ozora P. Stearns, of which contract and all rights thereunder the said Robert J. Montague claims to be the assignee, holder and owner.

Notice is hereby given, that said proofs in support of the claim of said Robert J. Montague to purchase said land will be made before the register and receiver of the United States land office at Crookston, Minnesota, on August 0, 1901, at ten o'clock a. m. of that day; and the said St. Paul, Minneapolis and Manitoba Railway Company, and the said Edwin F. Kelly, and all other persons interested, are hereby cited to appear before said register and receiver at the time and place above named, and show cause, if any there be, or any objections which they may have, to the making of said proofs and consummation of title to the said lands by the said Robert J. Montague, in the manner in said application proposed.

Dated June 18, 1901.

SYLVESTER PETERSON,
Register.

Miss Stockland returned to her home in Stephen Friday after a pleasant visit with Crookston friends.

—Fine photographs in all styles from $1 to $20 per dozen at Skrivseth's art studio, near Commercial hotel, Broadway.

Ben Martin, who left Crookston as a boy several years ago, is back on a visit, a married man and correspondingly happy.

Miss Hilda Waring, who spent last week in the city as the guest of Miss Ida Schraeder, has returned home to Grand Forks.

Last week's heat fatalities in Greater New York are reported at over one thousand, and the prostrations at three times that number.

Don't forget that Mull's Lightning Pain Killer kills all pain instantly. $1,000 offered for its equal. Free from opiates. 25 cents.

Miss Maude Wees, who has spent the past two years taking a course in music at Chatham, Ont., arrived here today, returning to her home at Warren.

Miss Emma Cronkhite, of Warren, was a guest of Crookston friends over Sunday and went home Monday to take up the work in the training school.

Geo. Finlayson's dog has been swiped. If you see a dog with a pedigree long enough to fill two pages and a hungry look, following anybody away, that's Fin's dog.

"Stop that cough right away with Mull's Lightning Cough Cure. It heals disease of throat and lungs. It's pure and good for children. 25c. For sale by S. A. Wallace.

A carload of laborers was shipped in from St. Paul Saturday to be used on the work of improvement being done by the Great Northern between here and Cass Lake.

Don't hesitate if you suffer from the tortures of rheumatism. Take Mull's Pioneer Rheumatism Cure. A dollar draft in each $1.00 box; cash it if medicine fails. 25 cents.

John P. Meehan, one of the younger members of the family that was prominent at Thief River Falls a few years ago, passed through from Milwaukee Monday en route up-river.

F. S. Lycan and E. C. Bates were in from the Forks Monday and made final settlement and formal transfer of the Ray Mercantile company to the Lanning-Brown-Wright company.

Charley Misner has purchased a saddle horse, and proposes to take a line of exercise each morning between the hours of 5 and 7 o'clock that will enable him to enjoy three "squares" each day.

Mrs. R. G. Downer arrived Monday morning from her home at Stanbury, Mo., and will spend a month visiting her parents, Mr. and Mrs. William Martin, who reside in the town of Fanny.

August and Will Himmelsbach and Fred Warneke started for the far west Saturday with a determination to judge the advantages offered to settlers in the land of which such glowing tales are told.

Talk about corn raising! There is a patch on a vacant lot down on Hunter street that has the article tasselled out and ears set. There will be no trouble about this maturing in good shape before frost appears.

The remains of Henry Pernavost were taken through Monday morning from Fergus Falls to Red Lake Falls. A year ago Pernavost went insane and was committed to the asylum, where he died yesterday.

P. J. Kuntz, superintendent of the Owatonna schools, arrived here today accompanied by A. M. Locker of Wabasha, who will assist him in the work of conducting the summer school that opened at Red Lake Falls on Monday.

Judge Grindeland, or Senator Grindeland, as he is now more generally known, passed through the city Friday morning on his way home from Twin Valley, where he yesterday fanned the flames of patriotism by his forensic eloquence.

Cherubin Netzer, who has been employed in the dry goods department of Fontaine & Anglim's store for several years, will leave about the middle of the month to take charge of that branch of O. L. Sateren's department store at Grafton.

Sam Coulter, a special agent for the interior department, who makes Duluth headquarters, was here Monday on his way to the northern borders of the state, where he will appraise the value of the right of way of the Minnesota & Manitoba railway.

Louis O'Brecht and Frank Sutter, of Buffington, were here Tuesday marketing produce.

Miss Nettie Collins is spending a week as the guest of Miss Lucy McPhee of Lockhart.

W. F. Peterson will at once commence the erection of a pretty home on Sampson's addition.

Marcus Johnson was an incomer Tuesday bound for Red Lake Falls, to look after his business interests.

Miss Torena Sandlie, who has many friends in Crookston was married at Erskine Tuesday to August O. Strand.

Owing to the high water, the Dwight flour mills are running by steam, and will continue to do so until the water subsides.

Miss Bessie Hunt, of Red Lake Falls and Miss Wyer of Excelsior, registered at the Crookston Monday, the latter en route to her home.

Mrs. P. L. Renne accompanied her husband up from Fertile Tuesday and proceeded to visit her former home in Hubbard county.

James Evans, a prominent citizen of East Grand Forks, died there Monday of pneumonia. He was 50 years of age and had held positions of trust since his residence there.

Peter Noesen, who has been ill ever since last December, was in the city Tuesday receiving congratulations from friends. He was accompanied by Mrs. Noesen and his son George and daughter, Miss Lena Noesen.

Dr. Holte reports new arrivals in babydom, one at the residence of Lars Volland, in Lowell, where a boy will date his birth from July 8th, and another, a daughter, born to Mr. and Mrs. Ernest Kuhn, who lives in the Fifth ward.

Prof. J. A. Hummel, assistant state chemist at the experiment station, St. Anthony Park, arrived in the city Saturday and will spend a month making a soil survey in this part of the Red River Valley, the purpose of which is to obtain data for a report to be issued in the near future.

Game Warden Stevens passed through Crookston on Saturday night with two of the moose calves that he captured near Germantown, Marshall county, and that escaped the murderous intent of a Thief River Falls scoundrel who managed to cut the throats of three others on Friday night. The animals were taken to St. Paul.

Mr. and Mrs. K. J. Taralseth and family were in the city over Sunday, arriving from Warren. They were the guests of Mr. and Mrs. M. Mossefin of S. Ash street, and left Monday morning for Maple Lake, where Mr. Taralseth owns a cottage. They were accompanied by their daughter, Mrs. Ed. Mossefin, and expect to remain during the greater part of the summer.

The Scandinavian labor organization, Lullo, is preparing for a social and literary program to be given to invited friends on Friday evening.

Harry N. Tomsen, an attorney from New Ulm, and a former partner of ex-Gov. Lind, was here this morning bound for points on the St. Vincent line.

In the advertising columns of today's issue we publish an advertisement announcing a sacrifice sale at O. C. Rood's dry goods store. It contains news for every careful housekeeper and it will pay them to read every word contained therein.

A careful examination of the Journal's advertising columns today will convince our readers that now is the time to make dry goods investments. For instance, just notice the unparalleled bargains offered by A. Chabot. They are made in good faith too, we can assure you.

B. F. Brown, who fills the position of court commissioner at Bagley, spent the night in Crookston and transacted business at the U. S. land office. Mr. Brown reports Bagley as improving steadily, among the new enterprises being a new paper that will be started there in the near future, and for which E. N. Falk, of Hillsboro, N. D., is responsible.

The Journal is not the official paper of Polk county, but it gives to its readers this week the official proceedings of the board of county commissioners, taken at the session held during the past three days. These are complete in every respect, and will appear in the "official" publications of the county in a week or two. This week they are spread abroad over the county as news, free of charge to the taxpayers. Next week they will be ancient history and will cost the taxpayers a couple of hundred dollars.

Moral: If you want the news, read the Journal.

SUMMONS.

State of Minnesota, County of Polk, ss.
In District Court.
Charles Hedquist, plaintiff vs. Wilfred Riel, defendant.
The State of Minnesota to the Above Named Defendant:

You are hereby summoned and required to answer the complaint of the plaintiff in the action above entitled which said complaint is on file in the office of the Clerk of the District Court in and for Polk county, Minnesota, and to serve a copy of your answer to said complaint on the undersigned at his office in the city of Crookston in the county of Polk and state of Minnesota within twenty days after the service of this summons upon you, exclusive of the day of such service, and if you fail to answer the said complaint within the time above specified, the plaintiff herein will apply to the court for the relief demanded in the complaint.

A. A. MILLER,
Attorney for Plaintiff,
14-19 Crookston, Minn.

APPLICATION FOR LICENSE TO SELL INTOXICATING LIQUORS.

To the village council of the village of Climax, in the county of Polk and state of Minnesota:

The undersigned, H. Samuelson, hereby makes application for a license to be granted to him to sell intoxicating liquors for a period of one year from the 13th day of August, 1901, to the 13th day of August, 1902. The place where the said business is to be carried on is designated as follows:

One and one-half story frame building on lot (18) eighteen, block (2) two, in the village of Climax, Polk county, Minn.

Said applicant prays that such license be granted to him pursuant to the ordinance of said village of Climax, Minn., and the statutes of said state of Minnesota, in such case made and provided.

Dated at Climax, Minn., July 8th, 1901.
—H. SAMUELSON.

GOING TO CALIFORNIA.

A party of Beltrami people are here today en route to the coast. The members are Mr. and Mrs. I. B. Welter, T. W. Welter, I. J. Elwood, W. Jones, C. M. Ogaard and Ed. Carveau, and Miss Katie McMillan. Their destination is Glenn county, of which Sacramento is the county seat. Their tickets read to San Francisco and they will make side trips to various localities on the coast. Mr. and Mrs. I. B. Welter will make their future home in California, but the remainder of the party will be absent but a month or six weeks.

WILL OPEN THE ROAD

TOWN OF LOWELL CLAIMS ONE IS BLOCKED.

There is liable to be trouble down in the southeast corner of Lowell township, and a lawsuit is almost in sight already.

The difficulty is about a road that was laid out by the township to connect with the city streets at the second crossing of the railroad tracks south of the Carman bridge. The road was created in 1879, but owing to the loose method of keeping the records in those days it is alleged that the papers telling of the action in the matter have been lost.

Since that time, it is claimed that Bernard Sampson has closed the highway and that some of his buildings fill the place along which it ran.

It is asserted that the township authorities will proceed in the near future to remove the buildings and reopen the street, and Mr. Sampson will likely take the matter into court.

Our Line of . . .

Cultivators and Weeders

Is very attractive. We have John Deer's latest riding cultivator and the Hallock weeder, both of them, tools that it will pay to buy and use.

Of course we have the usual full line of Deering harvesting machinery for grass or grain. Their Ideal ball bearing mowers and hay rakes lead the world. Our prices are right too.

Merit Always Wins.

Larsen & Carpenter,
CROOKSTON, MINN.

A. CHABOT.

OBJECT TO RULING

Made by Commissioner Herman in Regard to Filing Homesteads

IN CROOKSTON LAND DIST.

Hardships Not Required at Other Land Offices--Taken Under Advisement

Washington, July 3.—Land Commissioner Herman has been petitioned by several settlers, and homesteaders, to reverse a ruling recently made by the local land office at Crookston, Minn., relative to lands that have been restored to entry under an act approved June 3, 1896.

This was an act for the relief of settlers who had taken up lands which were afterward decided as belonging to the Northern Pacific railroad in indemnity selections.

The Crookston register and receiver are requiring those settlers who have rights to take up lands on the Red Lake reservation to advertise for six weeks, giving notice of their entry, etc., the same as used to be done several years ago when squatters were more plentiful than they are now.

The settlers demur over this action. They say in their communication, which has just been filed, that it works a hardship upon them. They must first prove up their old claim and have a case well made out, by showing what they did upon their original entry, which was afterwards wiped out under rulings from Washington.

This proof is presented and the sum of $14 in fees and a dollar and a quarter an acre is paid on the new entry, under the provisions of the act above quoted.

They claim that having paid the money, they should be entitled to receipts, instead of having their proposed entry advertised six weeks and necessitating another trip to the land office at Crookston. It is cited that the local officials at the Duluth land office do not require the advertising of the entry, but give a register's and receiver's receipt when the fee and the purchase money is paid.

The act of 1896 was passed for the relief of a number of Minnesota farmers in the northern section of the state and was introduced and put through congress by Senator Nelson and Congressman Eddy.

Commissioner Herman has taken the matter under advisement.

EXPERIMENTAL WORK

IN FARMING TO BE CONDUCTED IN WASHINGTON.

Washington, July 5.—A few years hence one of the great sights of the national capital will be a perfectly appointed farm of 400 acres, with buildings, orchards, truck gardens and grain fields of every kind. All the fruits and vegetables of the United States or other countries which experiments shall prove to be capable of cultivation in this climate will be seen there. Systems of drainage, if necessary, irrigation, model fencing, the most perfect methods of gathering and storing grain, fruits and vegetables will be exhibited.

In addition there will be a home place of six acres, where beautiful lawns, pretty shrubbery in artistic designs and beautiful shade trees will give a lesson in the beautifying of dwellings and their surroundings in the country. To the agriculturists and horticulturists this model farm which will be made and maintained by the department of agriculture, will offer an opportunity for study in every branch of their science. To the general public the farm will offer a beautiful sight. Preliminary work to laying out this model farm has already begun.

TO KEEP FRUIT FRESH

SUCCESSFUL EXPERIMENT WITH HYDROCYANIC GAS.

Washington, July 5.—According to state department advices the German consul general at Sydney reports that the agricultural department of Victoria has recently made experiments with reference to the preservation of fresh fruits. Pears and peaches packed in the ordinary boxes for shipment were subjected to the vapors of hydrocyanic gas. The fruits were then taken out of the boxes and separately wrapped in tissue paper. Some of them were again treated with gas, and the whole lot was packed in a dry room at a temperature of 40 degrees and kept there for seven weeks. When the fruits were taken out they were in excellent preservation, especially those that had been treated with gas a second time. Not only the pears, but the peaches, felt hard to the touch, retained their fresh appearance and showed no decayed spot, as the germs had all been killed by the gas.

OLEO LAW EVADED

CHICAGO FLOODING MILWAUKEE AND DODGING TAX.

Milwaukee, Wis., July 5.—A warrant has been issued for the arrest of F. J. Reimer on a charge of conspiracy to evade the state law imposing a tax of 10 cents per pound on manufactured products colored in imitation of butter. It is alleged that Chicago men have been flooding this market with oleomargarine and evading the paymentof the tax on 10,000 pounds per week.

Inspector Norton J. Field says that shortly after the law was passed the Spring Valley Creamery company, 601 Grand avenue, Chicago, flooded the city with postal cards to be used as orders for their product. It was shipped by the Globe Express company. It was given to Reimer and another driver and by them delivered to the customers. The packages were marked "oleo" so faintly as hardly to be seen and each contained a bill. Where the delivery was made the cover was stripped off the product and the bill stamped paid, so as to obliterate the letters "ima" on the stamp "butter."

There is about 700,000 pounds of this product illegally sold in this state, according to Dairy Commissioner Adams, and this is the first evidence the inspectors have had upon which action could be taken.

CANCER PARASITE

HAS BEEN DISCOVERED BY A GERMAN DOCTOR.

Prof. Max Schuller, M. D., of Berlin, claims to have discovered the cancer parasite.

Prof. Schuller is a surgeon of high renown in his own country, has been practicing surgery since 1869 and has been a lecturer at the Berlin university for 18 years. He published many books on surgery, dealing with scrofula and tuberculosis, but his best known work, written in Latin, appeared about a year ago, under the title of "Polyarthritis Chronica Villosa et Arthitis Deformans."

He is of the opinion that cancer is curable, and that the parasites can be destroyed by remedies injected into the blood. With so much established, no doubt other medical authorities will take up the investigation and determine that point. At all events, people should be warned against the theory that cancer attacks one only as a consequence of hereditary taint. Whenever man or woman suffers from a contusion that doesn't heal readily, let a physician be consulted; the medical men must have ample opportunity for observation and investigation. Every tumor infiltrating the texture where it arises and passing from it into surrounding textures, falls under suspicion of being cancerous.

Cancer is the most malignant malady of the age; it is constantly on the increase. No one is safe from it; it attacks royal families as readily as it does paupers and merchant princes; it is found on land and sea, and threatens to be as widespread as consumption.

GOLD IN WISCONSIN

PROMISING INDICATIONS NEAR NEW RICHMOND.

New Richmond, Wis., July 1.—A contract has been entered into by which Levi Oakes disposes of twenty acres of his farm on the outskirts of the city to a syndicate formed for the purpose of developing the property for gold, the indications of which are thus far very promising.

That the precious metal is there has been known for many years, but the land has never been worked for lack of capital. Very rich ore assays have been received by representatives of prospectors, showing gold in more than paying quantities, with some nickel and silver.

Several prospecting shafts are now going down, and most of the machinery will be in place August 1. It is expected that the ultimate investment will reach $200,000.

BLOW WAS FATAL

INSANE PATIENT KILLS ANOTHER AT FERGUS FALLS.

Fergus Falls, Minn., July 6.—William Cosgrove, a patient from Clay county, was struck by Walter McIntyre, another patient, with a heavy floor brush, at the insane hospital here. The blow struck the back of the neck, breaking the spinal column and causing instant death. Both were chronic cases. McIntyre is an epileptic from Stearns county, and appears to have no idea that he has done any harm.

TEAM STOLEN.

Word was received here last evening that a light driving team was stolen about 7:30 p. m. from a point about two miles north of Fisher. The horses weighed about 900 pound each and were attached to a top buggy. They were seen with two men in the buggy coming toward Grand Forks. One horse was shod on the front feet only, and one had a white strip in the face. The officers are investigating the matter, but up to a late hour last night had received no trace of the stolen outfit.—G. F. Herald.

MONTANA WOOL SOLD.

Helena, Montana, July 6.—Two of the largest sales of Montana wool made this year have just been negotiated. The firm of Jeremiah Williams & Co. of Boston, has purchased the entire wool clip of State Senator B. D. Phillips of Choteau county, 221,000 pounds, for 13 cents per pound, the best price paid in Montana this year. The production of wool in Montana this year is expected to exceed all former records, being 25,000,000 lbs.

That St. Cloud public building still hangs fire. Assistant Secretary of Treasury Taylor failed to reach an agreement with the Davis-Larkin company of Chicago for some changes in the construction and the contract has been abrogated. New proposals will be called for, based on a change from non-fire proof to fire proof construction. The appropriation for this building and site was $68,000.

SPORTING NEWS

Rothesay, July 6.—In a fair trial yesterday and in a smart breeze, Shamrock I beat Shamrock II by over 200 yards, in a three-mile turn to the windward. This is the old yacht's most decisive victory over the cup challenger.

Henley, July 6.—To the disappointment of all Americans at Henley, the Leander Rowing club crew yesterday morning defeated the crew of the University of Pennsylvania in the final heat for the grand challenge cup.

Both crews, at the start, showed no trace of nervousness and were sent away in capital style, the Pennsylvanians rowing 43 to the minute and the Leanders rowing 42. At the end of Temple Island the Americans led by a third of a length. At Fawley, the time was 3 minutes, 25 2-5 seconds, with the Leanders three feet ahead. From there on with a splendid struggle, the Leanders gained inch by inch. The mile was reached in 5 minutes, 15 seconds, with the Leanders half a length ahead, which they increased to three quarters of a length. At Isthmian the Pennsylvanians made a desperate spurt, but it was of no avail and two men weakened perceptibly opposite the grand stand.

SOME PITCHERS KNOCKED OUT.

Saturday afternoon he East Grand Forks Defenders and the Southsiders engaged in a struggle for supremacy on the base ball diamond. Victory perched on the banners of the young athletes of the East Side, the score being 16 to 5. The victors declare the game a red hot one from start to finish and that so terrific was their batting that no less than seven pitchers were put in the box by the Southsiders but even then they were unable to win.

Duluth, Minn., July 8.—The first annual tournament of the Duluth Gun club closed Saturday with a successful two days' shoot. About 40 crack amateur shots from all parts of the northwest were present. J. M. Hughes, Palmyra, Wis., won first place in two days shooting, with a score of 293 out of a possible 300; Hirshey, Minneapolis, second, with a score of 288; Morrison, St. Paul, third, 287; Robbins, Fargo, N. D., and J. C. Marsh, Marshfield, Wis., tied for fourth place, 280.

MARRIAGE BOUNTY

JAPAN GOVERNMENT WILL ENCOURAGE MATRIMONY.

Chicago, July 5.—Maidens in Japan who succeed in interesting young Japanese students long enough to induce them to get married will be rewarded in the near future with matrimonial dowries. The Mikado's government will give them, if the plans of leading Japanese statesmen prove as successful as expected. Secretary Yomma of the Japanese consulate in Chicago is authority for the statement. The announcement was brought out by the published account of a lecture in which Prof. Starr of the University of Chicago made the sensational statement hat the marvelous advance of the Japanese in learning and civilization had proved too rapid and was making people the victims of an epidemic of brain fever that threatened their extinction as a nation.

"Statistics show that students in Japan are affected more by eye troubles from overstudy than by brain fever," said Secretary Yomma. "It is true that our young men are very studious, but our young women are not expected to be scholars. They are encouraged in the cultivation of the feminine graces. It is becoming a fad with some of our statesmen to advocate a liberal marriage bounty for the maiden who proves herself sufficiently fascinating to cause a young man at college to forsake his books long enough to get married."

STORE BURGLARY

COMMITTED IN EAST GRAND FORKS FRIDAY NIGHT.

Sometime during the night the hardware store owned by Capt. Brandt of East Grand Forks was entered by burglars, who made a rich haul.

The goods were such as they could carry easy and convert into money readily, in case they are not caught before they have an opportunity of doing so.

The swag consists of a number of shot guns, rifles and revolvers, and a large number of razors, knives and other articles representing the most value in the smallest form.

The authorities have been notified and Sheriff Sullivan and Chief Creamer are on the lookout for the men on this side of the river. It is not likely that they can escape with the booty, as the quantity of goods taken was considerable.

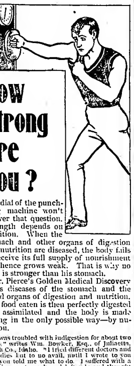
TO PRESERVE EGGS

VASELINE AND LIME WATER BEST AGENTS FOUND.

The Washington correspondent of the Minneapolis Journal says:

The commission merchants of the northwest may be interested in a recent consular report which describes a very successful process for preserving eggs. Consul General Guenther, at Frankfort, says, in describing some experiments made a few weeks ago in Germany:

Four hundred fresh hen's eggs were subjected to the action of different substances for a period of eight months. At the expiration of that time it was found that the eggs which were put into salt brine were all spoiled; that those which had been wrapped in paper were 80 per cent bad, and that a like percentage of those which had been immersed in a mixture of glycerin and salicylic acid were unfit for use. Of the eggs which had been rubbed with salt, or imbedded in bran, or coated with paraffin, 70 per cent were spoiled; of those subjected to a coat of liquid glass, collodion, or varnish, 40 per cent; and of those which had been placed in wood ashes or had been painted with a mixture of liquid glass and boracic acid, or a solution of permangate of potash, only 20 per cent were bad. Almost all the eggs that had been coated with vaseline, or had been placed in lime water, or in a solution of liquid glass, were in good condition.



How Strong Are You?

The dial of the punching machine won't answer that question. Strength depends on nutrition. When the stomach and other organs of digestion and nutrition are diseased, the body fails to receive its full supply of nourishment and hence grows weak. That is why no man is stronger than his stomach.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and the allied organs of digestion and nutrition. The food eaten is then perfectly digested and assimilated and the body is made strong in the only possible way—by nutrition.

"I was troubled with indigestion for about two years," writes Wm. Bowker, Esq., of Juliaetta, Latah Co., Idaho. "I tried different doctors and remedies but to no avail, until I wrote to you and you told me what to do. I suffered with a pain in my stomach and left side and thought that it would kill me. Now I am glad to write this and let you know that I am all right. I can do my work now without pain and I don't have that tired feeling that I used to have. Five bottles of Dr. Pierce's Golden Medical Discovery and two vials of his 'Pleasant Pellets' cured me."

Dr. Pierce's Pleasant Pellets stimulate the liver.

The Reason Why

160 ACRE FARMS IN WESTERN CANADA FREE

20,000,000 ACRES of the BEST GRAIN GROWING and GRAZING LANDS on the continent are being offered FREE is that settlement of these vast areas is required by the Government of the Dominion of Canada.

Location near lines of railroad already built or under construction in MANITOBA, ASSINIBOIA, ALBERTA and SASKATCHEWAN, most favored districts in Western Canada.

Thousands of Americans have taken advantage of the offer made to secure

Free Homes.

Deep soil, well watered, wooded, wheat averages 25 to 40 bushels per acre; oats 60 to 100 bushels, and other grains in proportion. Cattle thrive and fatten on the native grasses.

Fuel abundant, climate healthiest in the world, social conditions the best. Educational advantages unequalled. Taxation nominal.

Free Farms of 160 acres to every male of eighteen years of age, and to every female head of a family. Railroad and Government Lands for sale at low prices. For fuller information apply to F. Pedley, Superintendent of Immigration, Ottawa, Canada, or to

PROFITABLE SCHEME

MICHIGAN MAN MAKES PEARLS IN CLAM SHELLS.

Buchannan, Mich., July 8.—Walter Voorhees, a chemist of this place, has discovered a process of causing beautiful pearls to form in common clam shells. He has been experimenting with the clams for years and recently has exhibited some of the pearls he has developed in clams found in the bed of St. Joseph river. They are as perfect as any ever seen here.

His process lies in inserting a small, hard substance, usually a grain of sand, in a certain part of the clam, and then returning it to the water. There the substance remains from three to five years, when it is removed and the pearl extracted. He has over 2,000 clams which he has treated, and expects soon to have 8,000.

FERTILE vs. M'INTOSH.

The members of the Fertile base ball team spent a few hours her Sunday, returning from McIntosh, where they went and defeated the team in a game at that place by a score of 8 to 2. Editor Knappen was acting as manager, and the defeated players comfort themselves with the statement that he had to draw on Red Lake Falls for help in order to accomplish his purpose.

NOTICE.

Farmers having mares that they wish to breed to my horse will please meet the appointments promptly, as the season is getting late and the busy time coming on. —P. H. Wermager.

Allen, of said firm, has agreed to assume and pay all the liabilities and debts contracted by the firm in the said business and he is to collect, receive and retain all the debts due the said firm.

Dated June 24th, 1901.

—C. J. Culbertson,
—J. R. Allen.

REDUCED RATES TO BUFFALO.

The Northern Pacific Railway company will sell tickets to Buffalo and return account Pan-American Exposition at $33.27 for the round trip. Tickets on sale daily June 15 to Oct.31, inclusive, limit 10 days from date of sale. W. E. Handy, Agent.

TRAIN ROBBERS

Are Still at Liberty in the Fastnesses of the Little Rockies

RUMORED CAPTURE WRONG

Are Recognized by Pinkerton's Detectives as Being Professional Toughs

Helena, Mont., July 6.—A special to the Herald from Glasgow, Valley county, yesterday afternoon, says two posses are in pursuit of the Great Northern train robbers, one posse following the route taken by the robbers and the other taking a cross cut toward the Little Rocky Mountains, to which section it is believed the highwaymen are heading. A ranchman named Walsh met the robbers. They told him to inform the sheriff they were well and happy.

It is believed in Glasgow that if they are in the Little Rocky Mountains, they will not be captured. Nothing is know in Glasgow of the report that the robbers were surrounded and a battle imminent.

St. Paul, July 6.—General Auditor Elliott, of the Great Northern Express company states that the robbers of the train held up at Wagner, Mont., secured $41,500. Of this amount $500 was Great Northern money. The balance was a consignment of currency to the Montana National bank at Helena, Mont. It consisted of printed sheets of bank-notes, three tens and one-twenty on each sheet. But nine of the notes had been signed, but they would easily pass without signature or with forged names. Elliott says the identity of the robbers has been fully established by Pinkerton men sent out from St. Paul, but he refused to make their names public. According to the Pinkerton reports, the men are old hands and have held up trains on other roads.

Information received by the Great Northern office does not verify the report that the bandits have been cornered. Their horses were captured by the posse about 50 miles south of Malta, Mont., but it is believed remounts were secured and the men have escaped to the Little Rockies, where there are numerous hiding places. A picket line will be established about this range, and the authorities hope to capture the men when they come out. A posse of cowboys started from Lewiston for Judith valley, to head off the men should they continue south through the Little Rockies.

Engineer Jones recognized all three men who participated in the hold up. He knows them personally and is with the posse. Although constantly under cover of the robbers' weapons, Jones was cool and took careful notes of the situation. One man, says the engineer, was the leader of a band of robbers that held up and went through a train near the scene of yesterday's robbery. This man is said to be a member of the notorious Curry gang.

MINNESOTA FURNISHED 33

OFFICERS FOR VOLUNTEER ARMY IN SPANISH-AM. WAR.

San Francisco, July 5.—Minnesota furnished 33 officers for the volunteer army, which went out of existence on Sunday. Under the act of March 2, 1899, 26 regiments were provided for to replace the state volunteers in the Philippines in addition to a regiment of Porto Ricans and a squadron of Philippine scouts with the staff of officers necessary. Of 33 officers from the Gopher state, nine each came from the Thirteenth and Fifteenth Minnestoa, three from the Twelfth and Fourteenth, two were reappointed from the previous service, one from the state at large and six were Minnesota men in the regular army.

NOT FOR NEGROES

SO SAYS COLORED PREACHER—"MY COUNTRY 'TIS OF THEE."

Galesburg, Ill., July 6.—Rev. F. L. Smith of Springfield caused a sensation at the Wood river Baptist Sunday school convention, colored, by objecting to the singing of "America" by colored folks. He said that the song, "My Country, 'Tis of Thee," was not intended for the race to sing, and any one who attempts to sing it handles the truth carelessly.

"As long as negroes are shot, hanged and burned at the stake," he exclaimed, "this is not the sweet land of liberty it claims to be."

POOR BUTTER STORAGE

AT BUFFALO—NOT IN CHARGE OF PRACTICAL DAIRYMEN.

The Minneapolis Journal says:

"James A. Harris of Owatonna, who has gone to Buffalo as superintendent of the Minnesota butter exhibit, writes Dairy Commissioner O'Connell that refrigerator facilities are so poor on the grounds that the various states represented will probably club together and store their butter with some cold storage house down town. The refrigerator plant in the dairy building is an exhibit, and only works ten hours a day. It is lined with tar paper and the temperature gets as high as seventy-four.'

The trouble seems to be that the department is not in charge of practical dairymen. The dairy interests are going to make a vigorous effort to the future to see that practical dairymen have charge of the exhibits at all expositions. Failure to do this caused much annoyance at Chicago and Omaha.

OPEN TO SETTLEMENT

PROCLAMATION OPENING INDIAN LANDS PUBLISHED.

Washington, July 8.—The president's proclamation opening to settlement the newly ceded Indian lands in Oklahoma Territory is made public in the newspapers today

There is a vast area of the lands, and thousands of people have been waiting upon the borders for months in order to be among the first to enter.

The opening up of the new country will necessitate the creation of two new land districts and three new counties, and they have been established by proclamation of the president.

The land office for the First district is to be located at El Reno, in Oklahoma county, and the second at the new town of Lawton, named for the late Gen. Lawton, and located on the site of old Fort Sill.

The land embraced in the Lawton district will be wholly in the newly ceded country, but additions will be made to the El Reno district from both the Oklahoma City and Kingfisher districts.

The new counties created are named respectively: Caddo, with Anadarko as county seat; Comanch, with Lawton as county seat; Kiowa; with Hobart as county seat. A portion of the new lands is added to counties already established.

The president has also issued a proclamation designating the Wichita mountains, in the heart of the old Kiowa reservation, as a forest reserve. The lands thus reserved cover an area of 50,000 acres and are covered with timber and undergrowth.

The proclamation and the papers are prepared by Judge Vandeventer, assistant attorney general for the interior department. They present a clear and succinct statement.

THE BANNER YEAR

LAND OFFICE IN CROOKSTON LEADS ALL OTHERS.

The records of the U. S. land office in Crookston show that for the year that closed June 30, the volume of business transacted was the largest ever done, and that without a question it will exceed the amount done by any other office in the United States.

The figures, when compiled, will show that the homestead entries number 1,940. The final proofs amount to 843, with 456 cash entries, and 444 contests filed.

The total receipts for the year were phenomenal, and aggregate $314,525.46.

There is no question that in this latter particular the Crookston office is ahead of all others.

PLUCKY IOWA GIRL

ROUNDS UP GANG OF TRAMPS AND MARCHES THEM TO TOWN.

Delhi, Iowa, July 6.—Miss Sarah Clough is taking unto herself honors because of her bravery and presence of mind in rounding up a gang of tramps who were about to take charge of some young porkers when she discovered them. She lives on the farm of the Beal brothers, who farm extensively.

She covered the tramps with a repeating rifle and gave the order: "Get your hands up quick and face toward town." They were marched to the city and given over to the officers. They are all in jail awaiting trial.

TURNED TO MORMONISM

PROMINENT CHRISTIAN ENDEAVORER BECOMES CONVERT.

New York, July 6.—In Jersey City and on the shore of New York bay, Miss Elizabeth Dickinson, a former secretary of the Young People's Society of Christian Endeavor of the Fort Morris Congregational church, in the Bronx, has been baptized into the Mormon faith. Miss Dickinson wore a bathing robe, which looked like white or cream colored nun's veiling, encircled by silken cords. She wore white roses in her dark hair and a bunch of white flowers was fastened at the corsage.

1,400,000 GALLONS

PER DAY IS THE CAPACITY OF A NEW WISCONSIN WELL.

Fort Atkinson, Wis., July 8.—This town will now be supplied with water from its own artesian well. Friday a flow with a capacity of 1,400,000 gallons a day was struck in the heart of the city, and at a depth of only 750 feet. The big well has drained every small one within the city limits. A movement was on foot to pump the city water from a nearby stream, but since the gusher has been discovered the mains will be connected directly with the well. The well was sunk by S. Swenson of Minneapolis.

TRAINING SCHOOL

Summer Term Where Teachers Become Pupils is Now in Progress

HIGH CLASS INSTRUCTORS

Prospects That the Attendance Will Be Larger Than Usual

The summer training school, that will interest the teaching force of Polk county during the ensuing four weeks was opened here Monday, the sessions being held in the high school building. Supt. Casey, of the county schools, was present to see that all was in order, and opened the exercises.

The corps of teachers is headed by J. H. Lewis of Hastings, former state superintendent of public instruction. The other teachers are J. C Miller, of Lanesboro; R. S. Dewar, of Barnesville; Mrs. H. M. Stanford, of Moorhead, and Miss Stella Telford, of Hastings.

The attendance was about as usual on the opening day, upwards of sixty being enrolled. Large additions will be made to the list during the first few days of the term, and the number will likely be doubled by the opening of the second week.

The instructors are among the state's best educators and the prospects for a profitable term to the county teachers is perhaps the best that has ever been known in the county during the years since the training schools were first instituted.

In Ten Lines.

THE LOCAL RAINFALL.

The government record of water precipitation at this place gives the total precipitation for the month of June as a small fraction over seven inches. Thus far this month the total fall is 2.35 inches, .75 of which fell the 3rd, .60 the 4th and 1 inch the 5th.

SNOW IN MICHIGAN.

Houghton, Mich., July 8.—Snow fell here and at Calumet today. Quincy Hills were white with snow early in the day but it soon melted.

FRUIT FOR CLEANING SHOES.

People who have tried it say that orange juice is the best dressing in the world for black leather. Take a slice of orange and rub it thoroughly all over the boot or shoe. Allow it (the boot or shoe) to dry and then brush quickly with a soft brush until the article you are polishing shines like a looking glass.

A convenient dressing for tan shoes is the inside of a banana skin. Rub it well and evenly all over the shoe, and it will remove all spots and dirt, as well as give a fine polish, which is brought out by using a flannel cloth for wiping dry and another for polishing after drying. Some persons use a slice of lemon as a dressing for russet leather, and recommend it to their friends.

WANT A REAL TRAIN.

Thief River Press: Now is the time for all business men and shippers on this branch of the Great Northern railway to pull together and make a respectful but firm protest to the railway authorities which will result in a passenger train service independent of the freight. The largest shipper in this city is back of a movement to arouse the people and petitions are now being prepared for circulation to that effect. Let us all be in earnest in this matter and the town and county will be benefited.

'TWOULD MAKE A COUNTY SEAT.

The town of Rollis, Marshall county, is on the boom. The settlers are on an excellent piece of land and are extremely energetic. Fencing, ditching and road making are in full blast and two good saw mills are turning out lumber and shingles to their full capacity. It is the best thing north of Thief River Falls and seems sure to be the star township of eastern Marshall county. At present, the only drawback is the wretched condition of the roads leading into that county.

LOST RIVER FLOOD.

Gully Sunbeam: The country north and east of here is suffering from an over production of water owing to that Lost River, which has lost itself all over the country. It does seem too bad that as large a territory of fine farming and grazing land as lies in the northwest should not be made available by having Lost River found. The farmers of that territory are doing all in their power to overcome the mistake of nature but they have been powerless to aver the floods of the present season. The editors of Polk and Red Lake counties publish long articles about the horrors of the Virginia floods and the suffering of the people, but never a word of the suffering of their neighbors from the Lost River floods.

A GOOD BERRY YIELD.

The Fergus Falls Journal tells of a strawberry patch that measures a trifle less than one quarter of an acre, and that the owner picked from it this season over 1,100 quarts of as fine berries as ever came into that market.

GRAND FORKS NOT ON THE MAP.

The Northern Pacific Express company distributed a number of maps about the city recently. An inspection of the map shows that the maker has followed the example of the historic state convention of 1898, and left Grand Forks off altogether. Another curious feature is that the N. P. is represented as crossing the Red river about 30 miles north of the mouth of the Red Lake, and as running on the east side of the Red river from the boundary to Winnipeg. Pembina is stranded away out on the prairie. As a monument of accuracy the map is a corker.

BETTER THAN TIMOTHY.

Prof. Ladd, of the Agricultural College of North Dakota, has been conducting a series of experiments on the relative value of timothy and brome grass, and finds that the latter is much better adapted to resist the drouth and is a more valuable forage plant for that state than timothy. The yield per acre of the brome grass pasture in the dry sumer of 1900 was 216 pounds more of dry matter than for the timothy pasture. The brome grass was cut for hay and yielded a fair amount, while the timothy was too short to be cut with a mower. The brome yielded from three-fourths to one and one-half tons to the acre.

SNAKE IN COW'S STOMACH.

Dublin, Ind., July 6.—John Moore of Philomath lost a valuable cow in a rather peculiar manner. For some reason the cow seemed to crave drink, and finally died. Moore was determined to know what the cow died from, so he cut her open. When he did so a big black snake, six feet in length, crawled from the stomach. He killed it with a club. The snake was probably taken into the cow's stomach several years ago, and had since lived to grow to its full size. The cow had given its usual quantity of milk until recently, when she became sick.

MONTHLY BUTTER CONTEST.

In the monthly butter scoring contest conducted by the state dairy and food department, the first premium went to H. C. Sundergaard of Litchfield, with a mark of 96. Second place went to H. J. Hendrickson of Cokato, with a grade of 95¾. S. S. Sorenson of Alpena took the third place, with a score of 95½. In the cheese contest the first prize went to E. W. Parker of Stanton and second to Samuel Uglow of Litchfield.

TOO MUCH JOHNSON.

Fertile Journal: There seems to be a movement on foot to decrease the Johnsons and Olsons in this locality. The plan is to have the possessors of these common names change them and take up some other names that are not so ordinary. It is conceded that the tribe is entirely too great, and, upon mentioning a man with one of these names, in order to make one understand who is meant, it becomes necessary to tell something about his father, his business, the color of his hair, where he lives, where he came from, etc. It is argued that a man with one of these names has, in a great measure, lost his individuality. It would be an excellent idea, for business reasons, if none other, for men with these common names to consider a "turn around."

TAX REDEMPTION.

State Auditor Dunn Monday issued a circular to the county auditors with regard to preparing notices of expiration of the time of redemption from the absolute delinquent sale of 1899, covering 1895 and prior years. The amount stated in the notice should be the amount for which the property sold at the sale, regardless of what was due the state at the time of the sale. Interest and subsequent delinquent taxes paid by the purchaser should be added. Where property was sold for more than the claim of the state, the original owner must pay the full amount for which the property was sold, but no interest will be charged on the excess. Where property is not redeemed, any excess is returned to the original owner.

JUNE TRANSFERS.

Christianson & Strander's abstract records show business in transfers for the month of June as follows:

Acreage property, 126 transfers, conveying 20,028 acres; total consideration, $263,115.

City and village lots transferred, 88; number of transfers, 54; consideration, $20,588.

For the corresponding month last year there were 112 transfers, conveying 19,488 acres; total consideration, $166,197; 66 lots were transferred by 34 conveyances, the total consideration of which was $12,481.

IT DAZZLES THE WORLD.

No discovery in medicine has ever created one quarter of the excitement that has been caused by Dr. King's New Discovery for consumption. It's severest tests have been on hopeless victims of consumption, pneumonia, hemorrhage, pleurisy and bronchitis, thousands of whom it restored to good health. For Coughs, Colds, Asthma, Croup, Hay Fever, Hoarseness and Whooping Cough it is the quickest, surest cure in the world. It is sold by A. G. Anderaon, who guarantees satisfaction or refunds money. Large bottles 50c and $1.00. Trial bottle free.

SUMMARIZED

THE FOURTH OF FJULY RECORD IN THE TWIN CITIES.

The Minneapolis Tribune gives the following summaries of Fourth of July incidents in the Twin Cities:

Minneapolis:
Cost of fireworks, $25,000.
Accidents reported, 19.
Accidents unreported, numerous.
Arrests, 39.
Arrests for using fireworks, none.
Arrests for discharging firearms, 5.
Revolvers confiscated by police, 45.
Fire alarms in city, 3.
Fire caused by fireworks, none.
Fire loss, none.
Accidents: Due to cartridges, 1; cannon crackers, 7; toy cannon, 2; powder, 6, firearms,3.
St. Paul:
Cost of fireworks used, $15,000.
Accidents reported, 39.
Fire alarms in city, 3.
Fires caused by fireworks, 1.
Fire loss, $800 (about.)
Accidents: Due to crackers, 14 mud cans, 9; cannons, 8; revolvers, 6; rifles, 1; cartridges on street car tracks, 1; total 39.

CASCARINE AT ALL DRUGGISTS.

Cures biliousness, constipation, dyspepsia, price 50c. Sample and book on diet and cure mailed free. Rea Bros. & Co., Minneapolis.

A VETERAN RATTLER.

W. F. Zwiekey formerly of this city, who has been since February employed by the Dawes commission as the appraiser of land and the estimator of timber on the Choctaw Nation reservation, Indian Territory, returned to Minneapolis on a short vacation Saturday morning, having in his possession the rattles, 32 in number, taken from a huge rattle snake killed by him in the Kimichi mountains on June 27. The reptile was at least 32 years old, measured 17½ inches in circumference at the largest point and was seven feet long. According to the oldest Indians on the reservation, never in their recollection have they seen so large a snake of the species.

GOOD ADVICE.

The most miserable beings in the world are those suffering from Dyspepsia and Liver Complaint. More than 75 per cent of the people in the United States are afflicted with these two diseases and their effects, such as Sour Stomach, Sick Headache, Habitual Costiveness Palpitation of the Heart, Heartburn, Water-brash Gnawing and burning pains at the Pit of the Stomach, Yellow Skin, Coated Tongue and Disagreeable Taste in the Mouth, Coming up of Food after eating, Low Spirits, Etc. Go to your druggist and get a bottle of August Flower for 75 cents. Two doses will relieve you. Try it. Get Green's Prize Almanac. F. H. Hillard & Son.

Always A Source of Extreme Satisfaction

That's what it is to have your rooms beautified by our elegant patterns in wall paper, which seem to have been specially produced for exclusive use in your house. Appropriateness to the apartment and style of furnishing, as natural as the leaves on a tree, is the real charm of wall decoration. Careful selections from our assortment will give ideal choices at a few cents a roll and up.

C. C. BOWEN

FOR RAISING A BILL.

Edward Harkins, the Minneapolis youth convicted in the United States court of raising a $1 bill to $5 has been sentenced by Judge Amidon to serve one year in Stillwater and to pay a fine of $500. Harkins still protests his innocence and his attorney, W. J. Sullivan, pleaded for clemency on account of Harkin's youth. He is 22.

Around the Country.

Weekly Reports From the Journal's Corps of News Gatherers.

GARY.

Sandel Qualey left Tuesday for a month's stay in the Twin Cities.

Andrew Holland and his sister, Mrs. N. Amundson, from Waukon, went down to Waseca county for a short visit with their parents.

Miss Julia Herried and her brother Oscar went to Daisy, N. D., to attend the funeral of their sister Tina, who died a few days ago of heart trouble.

The Ada nine played with the Gary nine on the latter's grounds last Sunday. The score stood 9 to 8 in favor of Gary.

Mr. Evans, from Twin Valley, was observed on our streets Tuesday.

O. Kittelson, who has suffered with asthma of late, left on Monday for Washington state to seek relief in a different climate.

Mrs. L. Berland and daughter Bertha visited with Mr. and Mrs. Birkson of Twin Valley the fore part of the week.

Two new cases of diptheria are reported, one at B. K. Strand's, living in town, and the other at B. Siverson's, in town of Waukon. Dr. Gronvold is attending them.

Miss Minnie Sletten left for Moorhead Sunday evening.

Alfred Sverson of Faith is spending the week with his brother Carl.

Mrs. H. Johnson and her son and daughter, Alfred and Ella, from Crookston, are visiting friends in Gary and vicinity.

Miss Dale of Twin Valley is visiting with Miss Elstenson.

Eskold Nelson and Carl Sverson drove out to Faith Tuesday.

KNUTE.

T. B. Jensen is on the sick list.

We are having lots of rain out here.

Lars Myhr, Peter Myhr and Oscar Quist were in Fosston the Fourth.

Peter Satre and Ashel Jorgenson celebrated the Fourth at Lake Sarah.

E. Ostby, a well known blacksmith of the town of Winger, died last Tuesday. The funeral was held last Saturday.

A fine mare pony belonging to James Jorgenson cut herself badly in a wire fence last week.

The Anderson boys and Mr. Lillemoe are putting up fine barns.

Miss Hilda Ostby is going to Red Lake on business.

E. Borgan is going to stay at Mr. Bradley's till after threshing.

LENGBY.

A few young people of Lengby were enjoying boat rides on beautiful Spring lake Sunday.

Miss Dorthia Lillo, who has spent about two months at the home of Mr. Kelly, of Crookston, arrived home Sunday.

Miss Amanda J. Lillo, who has recently finished a nine month's term of school in Rochester, and her aunt, Mrs. P. Anderson, and cousin Mary of that place, arrived here the past week and are visiting at the Lillo's home in this place.

Ed Welte left for Crookston Sunday, where he goes to attend school.

J. N. Oman, the new hotel man, is at present doing good busines with the steam shovel crew and others.

The Fourth of July was celebrated in the rain here.

The heavy rains lately have filled the ponds and streams in this vicinity to the brim.

A large delegation of Lengbyites visited Fosston the evening of the Fourth.

Carl Molstad is building a large frame house. O. J. Lommen is assisting him in doing some of the fancy work.

Robert Johnson, a brother-in-law to Mr. Sederberg, is here from Winsor visiting.

Farner Vinger, who came over from Sweden a short time ago and was visiting with Mr. Berle's, has left for Minneapolis.

The extra gang with the steam shovel and working trains is located at Lengby, and are at work widening the big cuts and fills near this place.

BIRKHOLZ.

The Fourth of July was a very quiet affair at this place. It rained in the morning and the roads were in terrible condition.

The young people at J. H. Dalen's went to Big Woods on the 3rd of July and remained until after the 4th. They report a pleasant time.

Will Dixon of Warren was a pleasant caller at his old friend's, J. W. Northrup, one day last week. He reports the crops about Warren looking fine.

Miss M. Johnson of Grant county, Minnesota, is a guest of her uncle, J. H. Dalen, at this place; also Miss Sanby of Elbow Lake.

We are glad to chronicle that Magnus Kleven is reported better.

Johann Lind, aged about 22 years, died at his father's place two miles north of here on Friday morning of appendicitis. He was buried in our church yard on Monday. He was a most exemplary young man and will be greatly missed by his parents and brothers as well as by a large circle of friends.

The juniper berries on the Dakota side of the river are very abundant this season. B. J. Dunning and son gathered 52 quarts one afternoon last week.

The Red river is very high here, and if it rises much higher people will be unable to cross on the ferry boat, but Johnny R. can swim, so he's all right.

ELDRED.

On last Monday evening the creamery was put to its first test. Every part operated nicely and every indication seemed to suggest that all would be successful, as far as the operation and plant are concerned. The first churning was done yesterday. The present capacity is about 8,000 pounds of milk. While we do not expect to come to the limit, the daily receipts will come to the 6,000 mark in a few days. With suitable rates, which there would be no difficulty in obtaining, it would be well to have milk shipped in from the territory on the south side, in such cases where it is too far to haul the milk. With the present morning and evening express service this would be very convenient and profitable.

We will have another dance here on the evening of July 13. Preparations are on the way for a good time.

C. Monson and Iver Storland of Portland, N. D., were visitors here on Monday and Tuesday of this week.

P. Halstenson is sinking an artesian well.

The crops around here have improved materially in the past few days.

An interesting picnic was held at Rev. Lonne's place last Sunday. There would be nothing amiss if such picnics were held a little oftener at different places where the trees, etc., make it suitable. Some effort to build a church at this place could be made in this way. We all realize the need of a house of worship at a place where the community is large enough for more than one church, which is the case here.

E. Palm has sold his former shop to Hans Lerum, who will have it converted into a carpenter shop. Mr. Palm has fitted out another building and will consequently be in better shape to handle his increasing business. His nephew, E. Moline, will be his assistant, besides Olaf Locken.

Albert Peterson is again employed with E. P. Bancroft. We don't blame Percy for demanding help by the way his sales of lumber continue.

ADA.

Senator O. H. Myran came up from St. Paul Sunday morning and remained a couple of days.

Chas Hummason and family left Friday evening for a few month's visit at the Buffalo exposition and other eastern points.

B. C. Broehoff came down from Hallock Saturday night to visit friends over Sunday.

Mr. and Mrs. Julius Pleth visited with friends here Saturday and Sunday.

The court is in session this week with sixteen civil and two criminal cases, and expects to be busy grinding all week.

The summer school opened up here Monday with about forty in attendance. The enrollment is expected to reach fifty before the week is out.

The band boys swelled the air with music and helped the eagle scream at Fisher on the Fourth, and report a big time. Some of them stayed for the dance in the evening.

Mrs. Chas. Lofgren returned from Minneapolis Sunday morning, where she had been attending the grand lodge of the Rebekahs.

Miss Clara Martinson left Wednesday night for Fargo to undergo an operation for appendicitis.

Dr. Stuart sold his farm adjoining the town on the north side Monday to some Iowa parties for a consideration of $13,000 or $32 an acre.

The band boys are preparing for a dance on the 19th.

Work on the new M. E. church has already commenced. The old one is to be moved back of its present location and the new one built where the old one now stands.

John Bjorem came down from Ferris Thursday night to spend a few days with his folks at this place.

The crops around here look good and judging from present indications there will be a big yield.

DONALDSON.

All our eastern farmers took a trip to Hallock Monday.

The Donaldson base ball team lost the game that was played with the Hallock league team at Kennedy on the Fourth by four scores.

Erik Hoglund assisted Nels Prink to tend bar on the Fourth.

K. J. Lind accompanied August Fogelberg down to Crookston the 5th, returning Sunday on the N. P. to Drayton, from where they drove home all O. K.

An eight gallon keg was emptied here Saturday evening and every body felt so good that wrestling and small scrapping was the program with which it ended.

Miss Nettie Forde, who has been in Crookston for the last three months, returned to her home here Monday.

Conrad Miller caught the pig and the prize for same in Kennedy on the Fourth. The egg business did not pay very well for him there. We all had a treat on the pig all the same.

J. J. Lind has purchased a new double geared buggy with a steam whistle on it.

Mike Chicago tried to hug a roll of barb wire last Friday and the effect of same are visible on his countenance.

Aug. Barr had the misfortune to fall off his separator while moving same, with the result that he dislocated a bone in his back. But while taking him to the house it slipped back into its place, otherwise he would have been a cripple all his life, this being the doctor's opinion.

Mis Taft had a fall down the cellar last week which might have proven quite serious. But as luck had it no bones were broken and she got off with the scare of falling.

Mrs. Curtain is visiting with her sister here, and will return to Moorhead the 8th.

ANGUS.

J. F. Montgomery went to Crookston Tuesday afternoon.

E. Fairchild was thrown from a wagon the 4th, and narrowly escaped serious injuries.

George Clover has the foundation laid for his new residence.

F. W. Garlock attended the regular meeting of the B. P. O. E. at Crookston Wednesday evening.

Misses Hannah and Louise Palmer are attending the training school at Crookston.

Mr. Mickelson spent Sunday with his family at Stephen.

A. Campion and the Misses Cox and Henry were entertained at the home of Mr. and Mrs. Montgomery Saturday evening.

Mr. and Mrs. Fritz of Warren visited with Mr. and Mrs. Will Wattam Sunday.

G. C. Winchester of Warren was looking after his interests in this vicinity the last of the week.

Mr. Burke, of Nobles county, was in our village Saturday.

Mr. and Mrs. G. Evans drove to Warren Monday.

Mr. and Mrs. Holmes spent Tuesday afternoon in Warren.

CLIMAX.

Mr. and Mrs. K. O. Osthy spent the 4th visiting friends at Shelly.

Mrs. P. Hanske of Halstad is visiting her parents in the vicinity of Climax.

Mr. and Mrs. Gilmore and family with all their household effects left for Hendrum Saturday. On Friday evening a surprise party was given them in which a number of citizens participated, and presented them with a beautiful center table and rocker as a token of their esteem.

A sister of E. Suther arrived on Monday's train from Fosston. She will make her home with Mr. Sather.

T. Olson, the aged father-in-law of Thor Amundson, is at present very ill and not expected to live.

The wagon bridge across the Red river between this place and Belmont was washed away by the high water last Sunday. A great deal of the bridge was recaptured further down the river and as soon as the water will permit it will be rebuilt.

Julius Johnson, formerly engaged in the livery barn, occupied room in the village jail over Sunday. On Monday, Judge Axdahl promptly gave him a fine of $10 for disorderly conduct, which was as promptly paid.

Miss Ella Johnston and her friend Miss Johnson of Crookston visited with Mr. and Mrs. Kahlert over Sunday.

Ole Brevik is at home for a short stay.

Work has begun on the new elevator to be built by the Independent Elevator Co.

S. J. Axdahl purchased the corner lot opposite the bank of A. Steenerson, and says he will erect a handsome brick block on it.

Rev. Thos. Dyke will have charge of the Congregational church at this place in the future. Last Sunday evening he preached to a large audience who highly appreciated his efforts. Services will be held at the church every Sunday evening hereafter.

A mission meeting is being held at the Lutheran church on Wednesday, Thursday and Friday of this week.

Dr. S. H. Johnson made a professional trip to Shelly Wednesday evening.

MAPLE BAY.

Chas. Casmey and wife of Euclid are spending the week here camping.

H. A. Bakken was a Woodside caller on Sunday.

Misses Carrie, Estelle and Eva Hunter went to Crookston Sunday to be on hand at the opening of the teachers' training school, which opened on the 8th.

C. E. Dillon, of Erskine, and Miss Kate McAnulty of Tilden, visited friends at the Bay last Sunday.

F. W. Hutchinson and family and Burt Teal and family are here from Euclid for a week's outing.

E. G. Gustafson and wife attended the Strand-Sandill wedding at Woodside Monday.

Even Nelson left Tuesday for a visit with friends at Euclid.

P. J. Bjerke, of Mentor, was a caller here Tuesday.

Tony Nelson and Nick Stenide, of Mentor, made their usual visit to the Bay on Sunday.

Andrew ranes came over from Crookston for an over Sunday visit with his family.

P. W. Horton arrived home last Saturday from Buffalo. He reports plenty of rain there.

Maple Bay did not celebrate the Fourth this year, except with a dance in the evening, which was well attended.

Hans Wik and family are spending a few days visiting relatives at Beltrami.

Miss Mary Simons, of Neilsville, returned home Monday after a week's visit with friends here.

Wm. Tatro will give a dance in the old factory building Saturday evening.

HALSTAD.

G. J. Gilberts went to Detroit Saturday, returning Monday.

Mr. and Mrs. Iver Lien returned Monday from a week's outing at Lake Detroit.

The Ada Kid nine played the Halstad Kid nine on the Halstad diamond. The score was 14 to 13 in favor of Ada.

Oscar Henderson received a letter last Monday from Henry Walker, alias "Bastus, the Coon." The last time last fall Henderson had a letter from him at Natal, South Africa, stating that he had then embarked for China. Now, he wrote from Downie, Wis., and when he left last fall he had only 50 cents.

Miss Christina Holmberg left last Tuesday for Portland, Oregon, where she will visit her uncle J. O. Brottem.

The Halstad Toughs played the Hendrum nine at Hendrum last Sunday, and the result was 7 to 11 in favor of Hendrum. Of course the Toughs laid it to the umpire.

NEW PAVILION

WILL BE BUILT FOR THE MAPLE LAKE DANCERS.

Prof. W. W. Hall, of Grand Forks, has long been an admirer of the beauties of Maple Lake, and has decided to build a summer home for himself there. He has acquired a tract of land at the narrows, known as "Lee's Point," one of the sightliest locations on the entire townsite, and is preparing to erect a handsome structure.

The main feature of the place will be a covered and enclosed porch, 56 feet long and 20 feet wide, that will have a hardwood floor and will not only command a beautiful view of the lake, but will be quite a proper thing for dances and parties during the summer.

DOG BITE WAS FATAL

AND WIDOW SUES OWNER OF DOG FOR DAMAGES.

Washington, July 10—James R. Kennan, a hotel keeper, yesterday was sued for $10,000 damages by Annie White, the widow of a milk wagon driver, who is alleged to have died from hydrophobia inflicted by dogs belonging to Kennan. It is claimed that while he was delivering milk on June 10 last at the home of the defendant, White was attacked by dogs owned by Kennan and bitten in different parts of the body, and it is alleged that he died two months later from the poison of the wounds.

COMMITTED SUICIDE.

Rochester, Minn., July 9.—Miss Irene Harkins committed suicide Sunday at her home in this city by hanging herself from a door hinge with a small cord. She stepped from a chair to obtain a fall. She had suffered for some time with Bright's disease and had been partially insane for nearly a year. She feared being committed to the insane hospital here. She was 47 years of age and a niece of Capt. Abram Harkins, formerly postmaster here and was well to do. Her mother, who survives her, is 82 years old and blind.

The land office force report a very heavy day's business, 14 settlers having made final proof on their lands. Eleven entries were made and a 40-acre tract of pine land in township 150, range 34, was sold to David N. Winton, of the Thief River Falls Lumber company, for $1,749.

GILLER'S GOODS

SEEM TO BE GETTING BADLY SCATTERED.

Moses Giller is a junk dealer who has collected what other people discarded, and dealt to a considerable extent in new goods which he stored in a building near the Northern Pacific depot in this city. He went to Grand Forks last night. There is nothing strange in this, but a strange thing happened to Moses. While conversing with a second hand dealer there, a man walked in and offered to dispose of some goods that Moses recognized as being a portion of his stock that he supposed was securely locked up in Crookston.

Giller caused the man's arrest and then came home and found that his place of business had been entered and a considerable quantity of his stuff stolen.

An officer and a search warrant located some of the goods at Nordblad's second hand store in this city, and the latter has been asked to explain before Judge Holt. Nordblad alleges that he purchased the goods from well known parties in Crookston.

AN INSPECTION ENGINE.

A curious looking piece of machinery is the new inspection engine turned out for the Chicago, Burlington & Quincy Railroad. It is a combination of a locomotive and passenegr car, the car being set on and around the engine boiler, so that from the windows at sides and front the roadbed can be inspected by the railroad officials to the greatest advantage. It might appear such near proximity to the boiler would mean uncomfortable warmth, but this is avoided by an extra thickness of "plastic lagging," as it is called, a non-conductor of heat, in conection with an air chamber between this and the floor of the car. The machine is lighted with electricity, even to an electric headlight, and ten lights distributed under the engine to afford light while oiling. It is to be used constantly on all inspection trips.

WRECK AT DUGDALE

MIX UP IN WHICH WORK TRAINS FIGURE.

Some time and somehow, during the night, two of the work trains engaged in the work of widening the cuts and ballasting the track on the Duluth line got together on the same piece of road and the result was a crash; two battered locomotives and several cars were dumped into the ditch.

This happened at Dugdale, but further than this little can be learned from employes of the company of the particulars.

There was enough left of the engines to enable them to run to Crookston, and they were placed in the round house for repairs. A wrecking crew with the outfit was sent over from Grand Forks to pick up the cars, and the accident in no way interfered with the regular travel.

RED RIVER BRIDGES GONE.

The high stage of water in the Red river, due to the recent excessive rains has wrought havoc among the bridges between Fargo and Grand Forks, and there is not one of them that are safe for passenger travel. The bridge at Climax has been carried away, the one at Neilsville is several feet out of plumb and that at Caledonia cannot be crossed, as the approaches have been carried away.

SHOWING CONFIDENCE.

The Barnesville Record tells how an Iowa man bought 760 acres of land down in Clay county, thereby showing his confidence in the lands thereabouts. Up this way a man showed his confidence by buying 17,000 acres of Geo. Purvis at one time, a week later he took 8,000 more, and afterwards picked up a snap of 10,000 acres additional. That's the Crookston way of doing business and showing confidence.

Teething

Then the baby is most likely nervous, and fretful, and doesn't gain in weight.

Scott's Emulsion

is the best food and medicine for teething babies. They gain from the start.

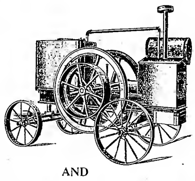
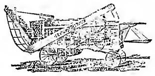
AND



The...
DIXIE
SEPARATOR.



The Simplest and Most Economical Machine on the Market.

We claim absolute separation for the Dixie.

Not a kernel of wheat goes into the straw pile.

No need of a fanning mill after using this machine.

Wheat threshed by the Dixie brought a cent more per bushel the past season, at the elevators, on account of its clean condition.

It can't be equaled for fast work and is a whirlwind for threshing flax.

The Dixie is no experiment. Thirty years of continual use among the small farmers of eastern states has established a wonderful reputation for this machine.

VOL. XXVI CROOKSTON, MINNESOTA, THURSDAY, JULY 18, 1901 No. 15

THE BARRY TRIAL

One of the Most Notable Criminal Cases ever Tried in North Dakota.

BEING HEARD AT LANGDON

The Insanity Plea will be Urged to save Wm. Barry from the Gallows.

Langdon, N. D., July 16.—In the district court of Judge Kneeshaw in this city today began the trial of one of the most celebrated murder cases ever tried in North Dakota. The state will take up the charge of murder in the first degree against Wm. Barry, a wealthy farmer from the vicinity of Milton, who stands accused of the cold blooded killing of Andrew Mellen, one of his farm hands, early on the morning of Jan. 3.

There is a terrible story attached to this tragedy. Barry will pose in the trial as the frantically insane avenger of the undoing of his sister, Miss Mary Ann Barry, who has since died at the Jamestown insane asylum, a physical and mental wreck, the result of the shock given her by the killing of her lover by her brother. The crime took place in the barn on the Barry farm last January, when the taking of the life of Mellen, who had been one of the murderer's hired men for over five years, and looked upon almost as one of the family, was deliberate and cold blooded. Barry first tried to hang his victim from one of the beams overhead, but not having the rope secured, he took a knife and with a single gash in the neck sent his victim into eternity. Mellen dying two minutes after the blow as struck.

The defense will fight the case on the grounds of temporarity insanity and have witnesses from the Ontario home of the Barry family, as well as expert testimony, that the disease is hereditary. The defense will make a desperate effort to exclude the confession of Barry at the inquest. Since being jailed six months ago, Barry has been reticent as to the history of his crime, a marked contrast to his volubility up to the time his lawyers took the case in hand.

The ante-mortem statement of Miss Barry taken at her bedside shortly before death at the insane asylum has been withheld from the public by the state with the greatest secrecy, and something sensational is looked for when it is brought into court. Barry is considered to be worth something like $15,000 to $20,000.

FIRST TRIP OUT

Was Enjoyed by the Youngers Sunday

Stillwater, Minn., July 16.—The Younger brothers made their first trip "out" Sunday and were very happy over it. After returning to the prison, they spent the afternoon and evening talking with friends who called on them. Yesterday omnring they came down town again, Cole calling on some doctors and ministers whom he knew. Later he returned to the prison, where Frank H. Whittier met them and discussed offers of employment. Many of these offers have been thrown out, because of undue notoriety required. There are certain parties who seem to think they can make money by showing the Youngers. This will not be allowed. Fourteen applications have come for their services, but it is thought they will not get to work before August 1.

Dr. T. C. Clark called yesterday and as a joke offered Cole a position in his practice giving "cod liver oil floats." "Floats" are composed of cod liver oil and quinine, and Cole has had much experience in administering them in the prison.

Invitations to dinner in town are numerous, and many of them will be accepted by the Younegrs.

There are numerous invitations sent to the boys to take trips into the country for fishing and sight seeing, but they state that all these will be declined, as there is enough for them to see around Stillwater, where everything is so new to them.

Cole Younger called at a drug store and had his first glass of soda for 25 years. It was a great experience.

HE TOOK THE HINT

And Used the Opportunity he had and was Content

A young couple from Northleach, on a visit to Barnum & Bailey's, had succumbed to fatigue, and were seated on a bale of hay in an obscure corner of the menagerie tent.

'What do you reckon is the most strange thing we seed,' said the girl.

'It's hard to say; but I know what I'd like ter be now."

"The flying trapeze man," she ventured.

"No not him."

"Mebbe the ringmaster?"

"Nor him. You recollect the octopus in the glass tank? Well, I'd like to be he."

"Why?"

Cos he's nigh onto a hundred arms, an' I'd like ter use 'em all a-huggin' you a hundred times at oncet."

"Jerry, that's a very wrong wish."

"Taint, neither."

"Oh, yes 'tis! It's sinful to waste time wishing for the impossible, 'stead o' makin' the best of sech opportunities as yer happen ter have."

And Jerry rose to the occasion, and put all his energy into the gentle art of octopusing.

WARNER & ANDRUS

The Popular Land Sellers Moving their Quarters

The Warner & Andrus Land company which has heretofore occupied rooms in the Peake block, have secured a lease of the building on Broadway, next door south of Miller& Foote's office, and better known perhaps as the Tribune building, and Tuesday took possession of their new quarters. This will afford this enterprising firm more commodious, as well as more conveniently located quarters, thoug hit is doubtful if they can excel the record already made as land salesmen, since they have been doing busi ness in thec ity.

W. H. Reker, who has charge of the local business, is a genial gentleman with whom an acquaintance is a substantial pleasure, as well as one who possesses active rustling qualities.

A NEW SWINDLE

Being Perpetrated in Iowa by Smooth Talkers

Webster City, Ia., July 16.—A smooth talker has been traveling over this county representing himself to be in the employ of the government gathering data regarding deaths. He tells his victims that the government takes such a record every 25 years, and that it is compulsory for the inhabitants to give out the information. A few weeks after his visit, a second man appears with obituary cards at $1 each, saying they were ordered from the first man. It is said the schemers are reaping a good harvest.

Advises Deep Plowing

E. B. Forbes, the state bugologist, was here Tuesday and called to meet the members of the county board concerning the extermination of the grass hoppers, and the prevention of possible damage to next year's crop. Mr. Forbes asked the board to pass a resolution urging all farmers to plow every foot of land where the hoppers have been noticed this year, and do the work at the proper time and in such a thorough manner that all the eggs will be destroyed. The board will likely take the matter up when it meets on Saturday for the transaction of regular business. Mr. Forbes is pleased to note the fact that the hoppers are being killed off by the rains and the parasites, and he now thinks that the danger of further trouble from the pest is past for this year.

Euclid Woodmen Picnic..

The Euclid Woodmen are preparing for the festival and picnic that they were compelled to adjourn from the original date a month ago, owing to the weather, and will hold it on the 25th, with all that goes with it in the way of a good time. The speakers and singers are notable people, and the program of races and sports include enough to interest the entire county. The spirit of the members of the order there is commendable and they are not the sort that ever acknowledges defeat. They deserve and will doubtless have a large attendance present, and a good time.

A Demented Woman

Mrs. Halvor Christianson, of the town of Knute, was brought to the city yesterday afternoon and examined as to her sanity. She was found to be in need of treatment and was taken to the Fergus Falls hospital last night accompanied by her husband and Banker Cronquist of Erskine. There are seven children in the family who are without a mother's care by the unfortunate condition.

George Bailey of Pillager has invented a huge irrigation pump. He had lived the life of a hermit, devoting himself to the materializing of his idea. R. J. Hastley and C. A Albright of Brainerd will back the invention. If it is what is claimed for it there are millions awaiting inventor and promoters.

Uncle Jo's Column

So it seems the Younger brothers have been paroled, and will soon be set at liberty, and perhaps that's all right, but it ain't just the way I think it ought to be. The papers have been making a great blow about what nice men theyv'e been there in prison. And some of them seem to think that just because they hain't been cuttin up and makin a disturbance all the time there in prison they are entitled to a reward. It looks to me as if it was only good common sense for 'em to behave theirselves there, and that they hain't earned any balance of credit for it.

* * *

Of course if they'd been ugly while they was there and tried to slug their guards once in a while, they would have been kept in close confinement, and wouldn't have been given the nice jobs theyv'e had, and they know that as well as anybody. If any body will just read about what a nice chance theyv'e had, and just think about the crimes they committed before they were caught, I don't see how they can claim they have been punished too severely. They were redhanded, deliberate murderers. And it don't help their case that they are smart, brainy men either.

* * *

For my part I don't expect they are going to commit any more crimes. But if they had been obliged to pay the penalty just as it was pronounced, without so much petting and pampering, and so much praise and glory bein given 'em for their good behavior in prison, the influence on other criminals would have been better. The policy that has been pursued with them will encourage bad men that are intelligent about reasoning things out, to keep on and take their chances, and calculate on behaving themselves good if they get caught, with the idea that they will get a good chance to tend library or some other nice work if they get into prison.

* * *

But there's another thing I don't just like the looks of. It seems as if Cole and Jim don't attach much importance to the murders they have committed. They seem to figure it out, so far as anything I can find out that twenty-five years in prison entitles 'em to full absolution for all their crimes. They seem to think they are all balanced up with the world now and just as much entitled to liberty as any other men.

* * *

I don't believe in keepin the Youngers here in Minnesota though. As long as we've turned 'em loose, I think the sooner we let 'em out of the state, and they are forgotten by our citizens teh better it'll be. I spose just as long as they are kept in Minnesota, there'll be some folks foolish enough to throw bokays at 'em for bein so good and patient while in the state prison. And if there ain't a good many folks trying to lionize 'em as bein wonderful men, just as soon as they are out, I shall lose my guess. I expect Cole will be marryin that woman that's been waitin for him all these years, and so far as that goes I haven't any objection to make.

* * *

I heard that Captain Dutton that was here talkin in the Methodist church the other night, and I got to thinkin about the different kinds of influence different kinds of people exert. The influence of some men's lives is a good deal like a bonfire of dry leaves. It flashes up bright and makes quite a show for a minute or two and then it's all gone out again, and there's nothin but dry ashes left. Some men make an awful bright show just like that for a little while and then their light dies down and you can go through the little heap of ashes that's left, and you just can't find a speck of anything but ashes, and they ain't fit even to put in a leach.

GOOD FOR SANDY LAND.

The Gary Graphic says: This week Tom Amundson brought into our sanctum a bundle of what we first supposed to be corn, but on closer investigation found it to be rye, grown on the bleak sand beds of the town of Strand. The stools measure fully six feet in length and Mr. Amundson says it is all the same and raised on a piece of land that would not even grow weeds on account of its barrenness. He speaks very highly of it for fodder purposes and says that farmers make a big mistake in not sowing their poor land into this grain.

TO KEEP BAD ONES OUT

New Regulations in Regard to Immigrants via Canada

Washington, July 17.—New regulations covering the entry of immigrants by way of Canada will soon be issued by the treasury department. A year or more ago an attempt was made to prevent the importation of undesirable immigrants by agreement with the steamship companies whose vessels ply between European points and Quebec. This was not altogether successful, as many persons who would have been denied admission at United States ports were allowed to land at Quebec, and eventually found their way into this country despite the vigilance of the inspectors.

It was then decided that more inspectors should be stationed along the entire Canadian frontier, but the ship companies made a strong plea to the department not to put such a radical measure into effect. Arguments were made by former Assistant Secretary Charles S. Hamlin of Boston on behalf of the steamship companies and a better observance of last year's agreement was promised. This promise has not been lived up to, and the department is now prepared to adopt stringent regulations to prevent illegal immigration.

CHASE IS ABANDONED

Train Robbers Believed to be Beyond Possibility of Capture

Great Falls, Mont., July 17.—The chase after the Great Northern train robbers has practically been given up. Most of the men composing the posses are now on their way home. A message from the Great Falls posse says that it will be home tomorrow, as it has given up in disgust.

The men now realize that they have been on a wild goose chase and they do not propose to continue it further. They went to the little Rockies under the positive statement that the men were there and were carefully guarded, but upon reaching that place they found that nobody there had the faintest idea where the robbers were or who they were. The authorities had absolutely nothing tangible, despite all the stories. There is, in fact, no proof that the men have been seen since they rode slowly away from the train they held up.

It has been confidently stated that the crime was perpetrated by "Kid" Curry, Longbaugh and a man named Jones, who is well known to the authorities in Montana. Perhaps it was, but if all these men should walk into camp and submit to arrest, there is not one iota of evidence upon which to convict either or any of them. The chase for the bandits has been entirely based on the pipe dreams of a few men under Sheriff Griffith of Valley county. They will remain in the neighborhood where the robbers are said to have been and will search the brakes of the Missouri, but, practically speaking, the chase has been abandoned.

WANT A GAME WARDEN

The Slaughter of Big Game Continues in Beltami County

It is stated to the Journal on the best authority that the residents of the new towns on the line of road north and east of Bemidji have had no fresh meat to eat during the summer except moose meat and venison. Market hunters have supplied the dealers during the season with an abundance of wild game to keep their refrigerators and scale blocks filled at all times.

The country is wild and new, and the settlers make no secret of killing an occasional deer, which they carefully divide up and pass around among themselves to supply their wants, and no one is inclined to complain, as they do not kill the does nor the cow moose.

The men who make a living by pot hunting, however, have no scruples about killing the females, and as this is the season when the cows have calves at their sides, the result is that there is a double loss. It is a well known fact that a calf moose is the most helpless of all animals, and that if deprived of its mother during the first six weeks of its existence it will surely die.

At Tenstrike and Blackduck the complaints are the loudest. There the pot hunters make no secret of their work, and even the dealers in some instances have said that it is their desire that the practice of killing be stopped. The settlers are indignant about the ruthless slaughter, and while acknowledging that they kill a deer now and then, they do not approve of the sale of the carcesses nor the killing of the females.

At the present rate of decrease there will be but few of the monarchs of the forest left in northern Minnesota in a few years.

HOT IN GERMANY

All Moisture Dried out of the Soil Two Feet Deep

London, July 17.—"Intense heat has completely dried up the country around Berlin," says the Berlin correspondent of the Times, "and all moistness has been withdrawn from the soil to a depth of two feet. Fruit is falling from the trees before it is ripe and the potato and hay crops have been seriously affected by the heat."

BIG STRIKE NOW ON

It is Becoming Serious With the Steel People but They Claim All is Smooth

WELLSVILLE MILL TO OPEN

But Strikers Say that is Impossible Without the Aid of Union Men

Pittsburg, July 15.—After a three days' session the conference of the American Sheet Steel, American Steel Hoop company and the American Tin Plate company, subsidiary companies of the United States Steel corporation, and the general executive board of the Amalgamated Association of Iron, Steel & Tin Workers, adjourned at 6 o'clock Saturday evening without having reached an agreement. In less than half an hour later President Shaffer of the Amalgamated association had wired the Amalgamated lodges in the tin plate, steel hoop and sheet steel mills of this country:

"Notify your men that the mill is on a strike and for the present only the three companies named will be affected, but later all the men in the employ of the Federal Steel company, the National Steel company and National Tube company may be called out if it is decided to resort to extreme measures to win."

At the start it is estimated 35,000 skilled workmen, 30,000 unskilled and indirectly many thousands more will be affected.

Pittsburg, July 17—The second strike day closes with the Amalgamated men in a satisfied mood and claiming to have made good every promise as to results. On the other hand, the manufacturers will not say a word concerning the strike and refuse to be quoted in any way.

The Amalgamated people say that nothing has been said to them of any plan for mediation or arbitration and they will continue to carry out their program as originally announced. The closing down of the Clark mill and of the Messen sheet mill are looked upon as telling victories and almost the complete tie up of the three companies in the district.

The following telegram was received last night:

"Wellsville, July 16.—The Wellsville Rolling mill will be run and it will be run non-union. It will start tomorrow. If it could not be run non-union, it never would be run at all."

This statement was made yesterday by P. F. Smith, of Pittsburg, manager of the American Steel Sheet company.

The above is the first indication as yet given by the manufacturers that they were other than passive participants in the big strike. What the result may be of the attempt to operate the Wellsville plants none of the local Amalgamated people will predict. All they will say is, "It cannot be accomplished."

Wellsville is looked upon by both as an important point and developments are anxiously awaited by all.

Combination Coal

Another effort is being made to interest North Dakotans in the eggette coal. Ten years ago the industry was boomed and a number of Milwaukee capitalists took up the matter, but later experiments developed that the cost was too great. A Mr. Edison of New York is now at Fargo with a new plan. His combination is about 60 per cent lignite coal, 35 per cent dirt and 15 per cent chemicals. He will make a test of the fuel at a local heating plant and has interested some local people in the idea.

WHEN A WOMAN WILL

She Will and you may Depend on it---Old Adage Illustrated

Mrs. Henry H. Carpenter, of 38 Park Row, New York city, has scored a signal success in the New York court of appeals at Buffalo. She is the first woman lawyer to win a victory in that court, and gets $75,000 for her client, another professional woman. Mrs. Jennie B. La Tourette is a well known practicing physician at Amityville, L. I. Her husband in 1894 conveyed to her real estate and securities worth $75,000, but afterward brought suit to recover the property, alleging that his wife had drugged him and got him to sign the transfers while his mind was a blank. In the lower courts the case was decided against her. The male lawyers in whose hands it had been placed considered it useless to appeal the case, but Mrs. Carpenter believed she could win before the circuit court of appeals and agreed to present argument as counsel for Mrs. La Tourette. The result was a victory for her client and caused much surprise among the men lawyer.s

PACKING PLANT BURNED

Seven Million Pounds of Meat Destroyed---Loss $650,000

Wichita, Kan., July 17.—Fire yesterday destroyed the packing plant of Jacob Dold & Sons in this city. Four large buildings were destroyed, together with about 7,000,000 pounds of meat in process of preparation. The loss is estimated at $650,000; insurance about $400,000. Four men were injured by a falling wall.

Later estimates place the loss at ab- $1,000,000. Employes numbering 350 are thrown out of work. The plant will be rebuilt at once. Spontaneous combustion is supposed to have caused the fire, which originated in the lard house.

ORGANIZE VIGILANTES

Ministers of Denver Considering such Organization

Denver, July 17.—The ministers of this city are considering the advisability of organizing a vigilance committee. Although it is against the things that the ministers will primarily direct their attention, the work which they propose to do at once is only preliminary to the really gigantic scheme they have under consideration, looking to the uplifting of the entire community. They propose to establish an organization as far reaching as Tammany, but with a view to establishing law and order instead of political supremacy. The plan for this organization was prepared by a judge now on the bench.

HEFFERN HAD A FIGHT

It Lasted 30 Minutes but He Killed the Bear

Last Friday when Mr. J. J. Heffern was on his way to Bemidji he came in too close proximity with a large black bear about two miles from this village, and as Mr. Heffern thought he was master of the ceremony a hot fight took place. Being without any material firearms except a small revolver he armed himself with a good sized club and tackled Mr .Bruin. After a severe contest which lasted about thirty minutes the game was up, and the bruin's hide will have a place in one of Heffron's parlors at Ardock.—Teustrike Tribune.

WHO KILLED BUCHARD

Three Indians Arrested Charged with the Deed

Brainerd, July 17.—Sheriff Hardy of Walker was in the city this afternoon and brings the information that the police on the LeechLake Indian reservation have arrested three Indians and they will be held for the murder of Harry Buchard, one of the policemen, who was found dead near the Minnesota & International track recently. The names of the parties can not be ascertained at the present time, but they will be taken to Walker and will probably be brought to Brainerd for safe keeping after the preliminary hearing is held, if they are bound over.

A WRECK AT DUGDALE

Three Trainmen Injured and a Dozen Cars Derailed

Another wreck occurred near Dugdale yesterday where several have previously happened recently, and the trainmen are commencing to think that there is a hoodoo in the swamp thereabout.

As freight train No. 85 was coming west yesterday in charge of Conductor Harris and Brakemen Briggs and Nickey, it broke in twain at a point between the switches in the Dugdale yard, where there is a piece of down grade.

When the sections came together a dozen cars were derailed and overturned, and all three of the trainmen were thrown to the ground and severely shaken up, but not so seriously injured as to prevent them from continuing at work.

A wrecking crew was sent out and a car removed so that a passenger train could pass going east, after which the wreck was cleared away.

Dr. Dampier went out with the wrecking outfit to attend to the injured, who were fortunate in not requiring the use of his surgical instruments.

Editor Gustafson kicks in the Tenstrike Tribune because some of the county papers out east are cutting the rate on final proofs and contest notices, which are the very life blood of the wild country papers.

DEFECTIVE PAGE

OVERCOME BY HEAT

Coroner Chesterman Called to East Grand Forks to Investigate

VICTIM WAS OLE JENSEN

Was Seeking Work and Died by the Highway --- Came From Bemidji

Late Saturday evening Coroner Chesterman was summoned to the farm residence of Mr. Carr, who lives three miles north of East Grand Forks, to investigate the cause of death of a man who had been found by the roadside during Saturday afternoon, and who died a few hours later.

He went over yesterday and decided that the man was a victim of the excessive heat. From papers on his person it was learned that the name of deceased was Ole Jensen. He had evidently come from the lumber country out east, and held a ticket admitting him to the Bemidji hospital in case he should need treatment. He also had a certificate showing him to be a member of the Woodmen.

Late Saturday afternoon Jensen was observed coming along the road near the Carr farm, and he was acting very queerly. Parties from the house went out to meet him, and found that he had laid down under some trees. He was talking incoherently, and never afterward spoke a rational word. Dr. Kirk was summoned from East Grand Forks, but the man died shortly after his arrival. The coroner decided on the evidence of the physician that the man died from the effect of the terrible heat, and no jury was impaneled.

CROOKSTON WANTED IT

THE BANNON OIL MILL TO COST ABOUT $25,000.

A site has been secured and work will be commenced shortly on a brick structure, two stories high, which is to be used as a linseed oil factory and which will be operated by John Bannon and associates.

Mr. Bannon has been in the city for some time in connection with the location of his factory, which was burned out at Grand Forks some time since. He was given courteous treatment by the citizens generally, and as a result of the negotiations, decided to erect a building to cost $10,000, and which, with the machinery to be installed, will be worth when completed, approximately $25,000.

There is no local money invested in the venture.

The location of this factory is the direct result of the effort of our citizens to bring here small institutions which will give employment to labor the entire year. Those who have been instrumental in securing the plant are feeling jubilant over their success.—Superior News.

ANOTHER CREAMERY

THIS TIME RED LAKE COUNTY GETS THE CREDIT.

The Norden and Numedal Co-operativ Creamery association was organized last Saturday and Monday by the farmers living in those two townships, says the Thief River News, and a creamery will be located on Ole J. Tweet's farm at Tweet's postoffice and will be built at once. The following officers were elected, and they will serve until the annual meeting which will be held in January:

President, Nels K. Anderson.
Vice President, H. Johnson.
Secretary, Ole J. Tweet.
Treasurer, Peter Waldnes.
Directors, Elif Gravile, R. Mortenson, Joseph Duchamp, John O. Wnsley and Nels Nora.

The machinery for the creamery has been purchased and the building will be erected at once.

The stockholders of the institution are among the best and most substantial farmers in this section, and it is believed that it will prove a good paying institution, and will be the cause of creameries being established at other points in this section.

ANOTHER ELEVATOR GONE

MONARCH WAREHOUSE AT KEY WEST BURNED FRIDAY.

The grain warehouse belonging to the Monarch Elevator company, located at Key West, burned to the ground Friday morning.

The fire was first noticed between 4 and 5 o'clock, and although the residents of the village were soon on the scene, they were unable to check the flames and the elevator, together with a dwelling, located just to the north and owned by John Brown, elevator agent, were burned to the ground.

A quantity of grain was stored in the elevator, but the Journal was unable to learn the amount in bushels, or its value.

The origin of the fire is believed to be incendiary, as no natural cause can be assigned. As is usual in such cases, tramps have been about the building nights, and it is believed the fire is due to their carelessness or intent. The general store belonging to Paul Skarstad, situated just across the track, was endangered, but was saved by the efforts of the citizens.

TARRED MACADAM

EXPERIMENT PROVES THAT IT MAKES ENDURING PAVEMENT.

"After years of experiment, this city is laying pavement that for excellence, durability and cheapness is commended for examination to those in charge of similar works in the United States," writes Consul Shepherd from Hamilton, Ontario.

"The possibility of making good roads at reasonable cost has been demonstrated, and tests extending over a number of years on business streets prove that tarred macadam makes not only a smooth and solid roadway but one that can be kept in perfect repair at nominal expense.

"The first cost in this city, where limestone is abundant and near at hand is from 70 to 86 cents per square yard; and the engineer estimates the cost of repairing on heavy traffic streets at less than one cent per yard per year, while asphalt costs over three cents.

"The addition of tar renders the roadway impervious to water, frost-proof in winter, and prevents mud and dust in summer. It is easily repaired and does not require scraping, thus avoiding much wearing of the surface.

"One block of tar macadam laid more than a year ago on a business street where there is heavy teaming shows no perceptible wear today. In residential streets these pavements have been in use eight years, without any repairs, and are still in good condition.

"Most of the stone used here is machine crushed, but during the winter season it is broken by hand labor and paid for per cord, to furnish employment in lieu of arms to the needy.

"Limestone is used because it is abundant, but granite or flint stone would absorb less tar and stand more pressure and wear."

SHE DIDN'T WEAR A MASK.

But her beauty was completely hidden by sores, blotches and pimples, till she used Bucklen's Arnica salve. Then they vanished as will all eruptions, Fever Sores, Boils, Ulcers, Carbuncles and Felons from its use. Infallible for Cuts, Corns, Burns, Scalds and Piles. Cure guaranteed. 25c at A. G. Anderson's.

THEY ELOPED

A FOSSTON WOMAN FLIES THE COOP WITH BEMIDJI MAN.

The pine country out east is quite stirred up over a new scandal. It seems that one "Red" Anderson, a gambler who calls Bemidji his home, went down to Fosston to take in the race meeting. He took in the meeting to a finish, taking ten days to the job, and incidentally during that time he acquired a strong hold on the affections of a certain married woman, Mrs. Ostby by name. So fond of one another did they become that when the time came for Anderson to leave, they felt that they could not part, and they settled the matter by going together.

The husband located them at Bemidji and Sheriff Sullivan went out and captured the wayward pair Friday, bringing them back to Fosston, where they will receive the punishment which the justice of the peace thinks they deserve.

RECAPTURED RED SKINS

TWO INDIANS THAT GOT AWAY FROM FERGUS NIPPED.

Sheriff Sawyer, of Otter Tail county, received word from the White Earth reservation a few days ago that the two Indians who escaped from custody here had returned to their former haunts, and left at once to bring them back. He found them way up on the Rice river hiding in a small shack. Deputy Marshal Morrison assisted in re-arresting them. Several of the relatives and friends of the prisoners had assembled to prevent their being taken and a couple of old bucks stood in the doorway of the shack and informed the officers that there was to be no arrest, but the sight of a couple of loaded revolvers changed their minds. The two men were secured and hurried away, and Sheriff Sawyer returned with them Wednesday.

DOES ADVERTISING PAY

A RED LAKE COUNTY MAN DON'T KNOW YET.

A. Sorenson, of Emardville is firmly convinced at the present time that it does though. He inserted an advertisement in a matrimonial paper a few weeks ago and recently received a reply from a widow in Duluth, and a corespondence was begun between them, the result of which was the arrival of the widow on Tuesday of last week, wearing a rosette of white ribbon pinned to her dress as a means of recognition. Mr. Sorenson was fully satisfied with the widow and vice versa and they left immediately for his farm. It is said that they are soon to be married at Red Lake Falls.

HALLOCK ARRANGING

FOR A SPECIAL TRAIN FROM CROOKSTON.

Arrangements are being made to have a special train from Crookston the last day of the fair, July 26th. Crookston wants to come to Hallock with their band of 35 pieces, base ball team and fire company. If this arrangement is completed Hallock and Crookston will cross bats between 10 and 12 o'clock in the morning, July 26th. This aggregation from Crookston promises a following of at least 300 people from that place. The Crookston band is the best in the Northwest and will be a grand attraction. Their fire company will give exhibitions and will have contest races with the Hallock team.—Hallock News.

DROWNED NEAR ERSKINE

A TWO YEAR OLD GIRL FALLS IN A CREEK.

Last Monday evening one of the twin two year old daughters of Charley Gustafson, of the town of Knute, became lost and search was made for her, but without avail. The neighbors were notified and a searching party was organized, and Daniel Nyberg's step son found her dead body in the creek which runs into Oak Lake. The little one had evidently wandered along the banks of the creek and slipped in and was drowned. The bereaved parents have the sympathy of the entire neighborhood.—McIntosh Times.

FOR A CENTRAL SCHOOL

EXPERIMENT TO BE TRIED IN WELLS COUNTY, N. D.

Bloomington school district of Wells county at an election held recently, says the Jamestown Alert, voted for a central school. They have two school buildings in their school district at present. These building will be moved to a central point in the district and the children will be driven to and from the central school in rigs furnished by the school board. Bloomington school district, in a short time, will be able to boast of a graded school. Good work can be done without a doubt, where all of the children of the district can be classified properly and the attendance is good. Children of the district will not need to leave home in order that they may get into the graded school. They can receive the same instruction in this country school—central school.

PILE AND FISTULA CURE.

Sample treatment Red Cross Pile and Fistula Cure and book on piles sent free to any address. Rea Bros. & Co., Dept. X, Minneapolis, Minn.

TOOK A FATAL BATH

ST. HILAIRE MILL HAND DROWNED LAST NIGHT.

Sigbal Gjerde, an employe of the Crookston & St. Hilaire Lumber company, was drowned while bathing in the Red Lake river at St. Hilaire last evening. His body was recovered about two hours later. He was a single man about 23 years of age, and his parents reside eight miles east of Angus.

The coroner was summoned, but decided that no inquest was necessary.

SHERIFF WAS FINED

FOR ALLOWING UNITED STATES PRISONER HIS LIBERTY.

Sheriff Ole Erickson of Crow Wing county received a fine in the federal court in St. Paul of $75 and costs, amounting to $25 more, for allowing George Wolfe, a United States prisoner, to roam about the town of Brainerd when he had been sentenced to serve time in jail.

SLANDERING THIEF RIVER.

One might think from reading the wild stories in some of the dailies about the hair breadth escapes of the game wardens, at Thief River Falls, that that city was composed of nothing but cut throats and thieves. Strange, we that live so near there never found it out before. These deputies must enjoy being the heroes of their own wild tales; certainly, they do not think anyone in a position to know believes them.—Red Lake Falls Courier.

RETURNED FROM NEBRASKA.

W. C. Currie, who has spent the greater part of the past year at Kearney, Neb., arrived in Crookston Monday and will spend the fall months on the home farm near Euclid. He left Nebraska early last week, and at that time the corn crop showed serious damage from the hot winds. Since that time the damage has increased, and the latest reports are to the effect that less than a half crop will be harvested in that state and Kansas.

PLATTING NEW TOWN.

The John Grove Land company has had surveyors at work this week laying out a townsite on the west side of the track opposite the Lockhart farm elevator. Nine blocks will be platted and several buildings will be erected this summer. This may mean that August Maas will move his store and buildings to the new town, which will have the same name as formerly, Lockhart.

A POOR MILLIONAIRE.

Lately starved in London because he could not digest his food. Early use of Dr. King's New Life Pills would have saved him. They strengthen the stomach, aid digestion, improve appetite. Price 25c. Money back if not satisfied. Sold by A. G. Anderson, drug gist.

CUT HER THROAT

Demented Woman Out in Beltrami County Ends Her Life

WENT INTO THE CELLAR

Handed the Eatables to Her Husband and then Used a Razor

Word was brought in by Mr. Gunelius of Leon, Beltrami county, of a terrible tragedy that occurred last Sunday morning in the town of Eddy.

There was a family living there named Maple, consisting of a man and wife and six children, but now there remains the distracted husband and a motherless family of six, all under ten years of age.

For some time past it appears that Mrs. Maple has not been of entirely sound mind, but it was not thought that she was desperate, although on Saturday last she appeared to be worse. Sunday morning, however, she arose and set to work preparing the morning meal as usual. Going into the cellar through a trap door in the floor of the room, she handed up to the floor above several dishes of eatables and then after a few moments Mr. Maple heard the sound of something falling come from below. He went to the opening and looking down to the foot of the steps saw in the dim light his wife lying on the cellar floor. Calling to her he asked what she had done. The poor woman could not speak but held up her hand in which was a bloody arzor. The man then found that she had cut her throat, actually from ear to ear, and the unfortunate suicide died within a few minutes.

The coroner was summoned but deemed an inquest unnecessary.—Thirteen Towns.

HELD UP IN THE AIR

CABOOSE BALANCED ON TOP OF SMOKE STACK.

A caboose hung 14 feet in the air on the top of a locomotive smoke stack is a sight not often seen, but such a sight was on exhibition in the Great Northern yards in Carman Friday.

Thursday at about 1:40, just as Conductor Hull was going to give the engineer the "high ball" to pull ahead with the 45 cars composing their train, he heard something coming from the other directino and looked around just in time to hear a crash and see the caboose go skyward. Up and up it went, until it hung with the center 14 feet above the tracks, and the roof of the rear end 26 feet in the air.

It happened this way. No. 17 was, as heretofore stated, standing on the track and about to pull out when a special pushing in the "Ledgerwood," a machine for unloading flat cars, for repairs, made the same old effort to pass it on the same track, with the usual result. The front of the caboose and a freight car loaded with rails were left on top of the Ledgerwood, and the other end of the caboose as before stated, overhangs the engine, the whole making one of the most picturesque wrecks seen here in a long time. Although elevated to such a height none of the wreckage went off the one track, and the Duluth bound passenger passed on the next track without any trouble.

Just who is to blame for the wreck is a hard question to settle. Engineer Harry Wilson, who was on the special engine, claims that there were no rear lights on the caboose, and that he was not running more than six miles an hour. Conductor Hull says that the lights were burning, and there you are.

A wrecking train came over from Grand Forks the next day and the wreckage was soon cleared away.

A RAILROAD PROJECT

PROPOSITION TO BUILD A ROAD FROM WARROAD WEST.

We are not at liberty to give the names of the parties who propose to build a railroad from Warroad west, a distance of fifty miles suffice to say that the projectors are financially able to do so, and assured Mr. Davis, chairman of the county board, while in St. Paul, that the matter wae definitely settled. Mr. Davis expressed himself as satisfied that the parties spoke in good faith. Representatives of the company who will undertake the building of the road will be here some time during the month of August. It is proposed that the road will touch Roseau and Badger, but concessions will be asked for in the way of bonds and free right of way. It is proposed to arrange with the Canadian Northern for conection at Warroad. If satisfactory arrangements can not be made with this company, the plans may be so changed ae to connect with the G. N. Should this project be in good faith there is no doubt but whet the towns of Spruce, Jedis, Ross, Stokee and Skegen would contribute such aid in the way of securing right of way as the company might require.

While the Times has from time to time given out news of reported railroad projects, which have proven without foundation, yet this project appears in good faith and may prove all right. That Roseau county will have railroad facilities in the neer future we have no doubt. In the mean time let all farmers improve their farms and be ready when the road does come.—Roseau Times.

AN EARNEST PROTEST

ST. HILAIRE LINERS PINING FOR A REAL PASSENGER TRAIN.

The train service on the St. Hilaire branch of the Great Northern railway, which is the principle railway outlet for this county, is undeniably inadequate. Leaving Crookston some old time in the vicinity of 9 a. m., the single train, a mixed freight, bumps and jostles up the line, stopping frequently to shunt box cars, and pulls into St. Hilaire at about 11 o'clock. An hour later when it is on time—and it never is—the train reaches Thief River Falls, shifts box cars around for an hour or so and then doubles back to St. Hilaire and through to the county seat. Along about 3:30 p. m. it gets back to St. Hilaire and starts on the return trip to Crookston, arriving just too late for early supper. Now, this is all well for a freight train, but for a passenger service which will supply the absolute needs of a county of 12,500 population and an additional population of several thousand in eastern Marshall county, which is dependent upon it, it is decidedly rotten. Now the people of this county don't want the world with a fence around it, but they do want a passenger train on this branch which will not be a mere annex to a string of freight cars.—Thief River Press.

FOUND DEAD IN BED

A BEMIDJI MAN EXPIRES IN A GRAND FORKS HOTEL.

Friday afternoon at 3 o'clock Bert Akin, of Bemidji, was found dead in a room in the Palace hotel at Grand Forks.

He went to Grand Forks from Bemidji Wednesday evening and did not appear to be in good health. He was seen night before last, when he went to bed in good spirits. He did not appear for breakfast yesterday morning, but nothing was thought of his absence till after dinner, when an employe broke into his room. He was found in bed partially undressed. In the room was found a bottle partly full of whisky, a beer bottle partly full and a small bottle leleled quinine. There were no signs of any foul play. He had evidently been dead ten or twelve hours.

Deceased was well known in Bemidji, where he had run a saloon for several months, selling out a few days ago to Clyde Bacon, of whom he bought the property originally. Letters found in his pocket led to the belief that he was bound for Gary, S. D., where his mother resides, as well as other relatives.

Aiken was a man of about 45 years of age, and had been drinking heavily during the time he was in Grand Forks.

Coroner Rounsvell, after an investigation of the case, decided that death was due to alcoholism and deemed an inquest unnecessary.

BOARD OF REVIEW

COUNTY COMMISSIONERS SITTING AS SUCH.

The county commissioners met this morning and will remain in session during the succeeding days of the week up to Friday night, as a board of review and will take up for consideration all complaints and grievances in the line of unsatisfactory assessments that may be presented.

Applications for reductions of assessments do not seem to be very numerous, only one having reported thus far.

Saturday morning the board will convene in an adjourned session as e county board and take up the unfinished business which was laid over from the meeting of last week.

REV. HUTTON TO BRAINERD.

The Brainerd Dispatch announces that the members of the First Congregational church of that place have recently held a meeting and unanimously voted to extend a call to Rev. M. L. Hutton, now pastor of the Methodist church at Warren and that Mr. Hutton will accept the call. Announcement was made some weeks ago that this arrangement had been made but owing to some difficulties, which, however, were not explained, Mr. Hutton decided to withdraw his acceptance.

Since that time Brainerd has been sampling other candidates, but hae decided Mr. Hutton is the man.

IT DAZZLES THE WORLD.

No discovery in medicine hee ever created one quarter of the excitement that hes been caused by Dr. King's New Discovery for consumption. It's severest tests heve been on hopeless victims of consumption, pneumonia, hemorrhege, pleurisy and bronchitis, thousands of whom it restored to good health. Large bottles 50c and $1.00. Trial bottle free.

SEC. BAUMBACH

Of the Iron Range Telephone Company is Here Arranging Matters

FOR IMPROVING THE LINE

A New Drop Switch Board Bought---Line to be Rebuilt

Secretary C. W. Baumbach, of the Iron Range Telephone Co., was in town Friday arranging for the work to be done in rebuilding the lines that constitute the city's system of service. A force of men will arrive July 25th, and will proceed at once to practically renew the poles, restring the wires, extend the cable system and in many other ways improve the existing conditions.

Mr. Baumbach announced to the Journal that the material for the improvements to be made here is all on hand and that when the alterations are made and the exchange removed to the proposed new location in the new building being erected by Christianson & Strander, the service will be greatly improved.

One of the means to this end is a new switch-board, known as the Kellogg self restoring drop switch-board, that contains 400 drops, and is considered to be the best article of the sort now manufactured.

The new quarters of the company will be completed early next month, the contractors having arranged to complete the upper portion of the building first, to accommodete the telephone company.

Concerning the extensions of the Iron Range company, Mr. Baumbach said that they have the material purchased and placed for the extensions into Blackduck, Virginia, Hibbing and several other points, and that the Fargo-Crookston line would be one of the earliest built.

A BRIGHT YOUNG LIFE GONE.

Word was received in the city at en early hour Monday announcing the death of Miss Clara Steenerson at 1:30 o'clock at St. Luke's hospital in St. Paul. It will be remembered that she passed through a long protracted and critical illness last year, during which for many days her life hung in the balance. From this sickness she never recovered, and some time ago it became evident that the only hope for a complete recovery lay in an operation to dispose of a pus formation on her lungs. She was accordingly taken to St. Paul and the operation performed successfully, and hopes for her recovery were quite strong. But pneumonia set in, and she was unable to resist the attack. Her parents, Mr. and Mrs. Halvor Steenerson, were both with her at the time of her death. Miss Clara was a very bright young lady, 20 years of age, and was reared in the city, having graduated with honors from the high school here with the class of 1900. She was highly esteemed and greatly beloved by all her acquaintances. The bereaved family will have the sympathy of the ntire community.

The remains are expected to arrive on the Northern Pacific morning train tomorrow, and the funeral will occur Wednesday. The hour and place of the funeral will be announced tomorrow.

CASCARINE AT ALL DRUGGISTS.

Cures biliousness, constipation, dyspepsia, price 50c. Sample and book on diet and cure mailed free. Rea Bros. & Co., Minneapolis.

A HAND OAR ACCIDENT.

A man named Peter Swenson was brought to Crookston Monday and taken to e hospital for treatment. He was employed on the work of improving the roadbed on the Great Northern near Perley, and was injured by being thrown from a hand car. At the time the accident was thought little of, but later on the man found he was quite badly injured, and yesterday he was examined and it developed that he has three broken ribs.

A man named Blackmore of East Grand Forks hae the nerve at this late day to advertise Belgian hares.

A GOOD THING.

German Syrup is the speciel prescription of Dr. A. Boschee, a celebrated German Physician, and is acknowledged to be one of the most fortunate discoveries in Medicine. It quickly cures Coughs, Colds and all Lung troubles of the severest nature, removing, as it does, the cause of the affection and leaving the parts in a strong end healthy condition. It is not an experimental medicine, but has stood the test of years giving satisfaction in every case, which its rapidly increasing sale every seeson confirms. Two million bottles sold ennuelly. Boschee's Germen Syrup was introduced in the United States in 1868, and is now sold in every town and village in the civilized world. Three doses will relieve any ordinary cough. Price 75 cents. Get Green's Prize Almanac. F. H. Hillard & Son.

Saloon and Christianity

The Fergus Globe gives utterance to the following editorial, in which there seems to be a vein of irony running through both sides of the question:

"The saloon traffic is a Christian institution: That is to say the licensed saloon is a Christian institution.

"That may explain why there is no real contest between the church and the saloon.

"The Christians are vastly in the majority here in Fergus Falls. That explains why the liquor laws can not be enforced.

"Our mayor is a Christian; our police officers are Christians; the city council consists this year of Christians only: our city justices are Christians: our sheriffs and district judges are Christians. In short all the machinery of government and a vast majority of the inhabitants are Christians: and yet the liquor laws are openly violated day and night.

"It is only a few of us heathen unbelievers who see the ridiculousness of the professions of these canting Christians, when they preach sobriety and morality, and practice vice and debauchery and drunkenness in various forms and ways.

"We don't pretend to be good, and all we ask is that those pretentions Christians should live up to their pretentions."

It is becoming universally acknowledged that the most attractive state display at the Buffalo exposition is that made by Minnesota. Superintendent James McMullan, who has it in hand, has demonstrated his fitness for the position beyond any possible question. In every detail of the responsible and complex duties involved in it he has managed very judiciously, and his faithfulness and ability have been recognized by making him chairman of the executive committee of the Pan-American board. The most notable feature in the whole display at the expo. is considered by many of the visitors to be the butter model of the new state capitol, which is located near the entrance to the Minnesota building. The model is a perfect one, composed entirely of butter, and is displayed in a double case made of glass, giving excellent opportunity for examination, the temperature in which is kept sufficiently low to maintain the solidity of the butter by ammonia refrigeration. The Minnesota building and its attractions is a matter of more frequent comment among visitors than any other feature.

The Chicago Tribune commenting on the parole of the Younger brothers, says: "Meantime there are numerous other men serving life sentences who will fail to understand why they should be kept in the penitentiary and the Younger brothers should be released. Considering the crimes committed by the latter, it is not an easy question to answer."

There is a young sensation at Stillwater, which may grow to quite prodigious size. The county commissioners agreed upon $46,000 as personal property valuation for the Minneapolis, St. Paul & Suburban Railway company. This amount is less by $54,000 than the valuation given by the state board of equalization.

The city of Grafton proposes to incorporate under the general law, and wil do some paving. Wahpeton is under the general law, and has taken advantage of the districting system allowed to build sewers, and some time they hope to pave and so does Crookston.

Thief River is making an effort to weed out gambling in all forms. The latest effort by Mayor Kretzschmar is to root out the slot machines, and all saloon keepers have been notified to quit the circular feature of their work.

The Thief River News has changed hands, W. C. Smiley retiring, and the work being taken up by Horace Bugley, an attorney at that place, who has had experience in the newspaper business, and who will without doubt make the paper a success.

There were 19 people killed and 1,011 injured as a result of celebrating the Fourth of July. Last year there were 30 killed and 1,325 seriously injured. Celebrating the Fourth on the noisy plan is dangerous business.

Editor W. H. Book of the Warroad Plaindealer assures the Duluth News Tribune that the air up his way is not subject to arrodynamical energy, and the Trib. says: "All right, Book, what you say goes."

Uncle Sam's surplus of $75,000,000 for the fiscal year that ended June 30, is a fine showing. France ran behind $100,000,000 last year and there are deficits in England, Germany, and, in fact the majority of nations.

The United States spends $10,000,000 a year on its Indian subjects, more than five times as much as Canada spends on a similar number.

ADVERTISING PAYS HIM.

There is no more successful advertiser in the state than J. Friedman, of "Spot Cash" fame, who has built up a successful business at Mapleton, Minn, and who is demonstrating that advertising pays. Here are his reasons for advertising, and the Journal commends them to its readers:

"I advertise in the newspapers because I am not ashamed of my goods, my dealings with the people and also to let them know what I've got.

"Because I cater to the intelligent class of people and they read the papers; and because I believe in increasing my business.

"Because I can talk to more people through the newspaper, at a greater distance in a less time and at a more reasonable price than in any other way.

"Because newspaper advertisements have brought me greater returns for the least expenditure of any advertising I have done.

"Because when I write an ad I am not too stingy to pay for placing it in the best possible place, and to have it inserted so that it is attractive. Then it is seen and read by most every one in the house where the paper goes."

THE PAROLE QUESTION.

The release of James and Cole Younger has at last been accomplished, and after 26 years of confinement they go forth into the world comparatively free men.

The Journal indulged in some discussion of the question of their parole a year ago, and has since seen no reason for changing the opinions then expressed.

It is our belief that their release has been secured under the misconceived notion that the paramount purpose of punishment is the reform of the individual, rather than to deter subsequent crime.

But however this may be, they are now paroled with privilege of exercising their liberty within the limits of the state only. Having given them this much, we can see no advantage to be expected from the limitation and believe they may as well be legally relieved of this restriction when the legislature meets again.

We are not seriously disturbed over the likelihood of peril to the public through their future crimes. In fact, we do not anticipate any difficulty in the future in this respect, and do not believe the limitation in question will exert any deterrent influence over criminally disposed persons.

FIGHT ON SPEAKER.

Local members of the legislature are authority for the statement that if an extra session is called by the governor for next year there will be a contest for the speakership for the short term, says the Minneapolis Journal.

Ordinarily it is supposed that the speaker elected at the beginning of the regular session would hold office during the life of the body which elected him, but those who want to supplant Speaker Dowling assert that there is no legal reason why such should be the case. It is contended that Mr. Dowling's term of office ended when at the close of the recent session, the house adjourned sine die.

In the closing days a resolution was offered, but failed of passage, declaring that the house organization be continued for the special term. Back of the defeat of this resolution it is said can be found the determination of a majority of the members of the house to elect a new speaker when the opportunity arrives.

Lord Kitchener's army in South Africa on May 1 was composed of 250,416 men, including 100,000 mounted. The total number of troops placed in the field on the British side is officially reported as 347,661. Up to May 1 the British casualty list was 4,022 killed and 17,200 wounded. There had died of disease or wounds 10,956 and 47,739 had been sent back to England invalided. The number in hospital on March 15 was 13,797. This is plainly the biggest little war on record. In point of cost the distinction is well maintained. The British have spent several hundred million dollars on the war, and the weekly outlay is over six million dollars. Of course, England can stand it. That country has the men and the money to crush out the 15,000 or 20,000 men who are still to be reckoned with as hostiles scattered over a vast territory, but the score to be paid is large beyond all expectation.

There's one thing that the village is greatly in need of and that is a curfew bell, which ought to be erected on the main street. We think that something ought to be done to see if we can put a stop to the children running around the street at all hours of night. —Erskine Echo.

Come down, Editor Egley, and get Crookston's bell, we don't use it often and when we do the kids pay no attention to it. When you get it take along our curfew ordinance, too.

Gambling devices were operated on the streets of Crookston the 4th. This is Nat Campbell's town and the Ada Herald says that a wide open mayor is as good as the party who elects him. And the democrats elected Nat.—Ada Index.

Gambling devices were not operated on the streets of Crookston on the Fourth, Mr. Index, after the authorities learned of the fact. One of the men paid $100 and costs for his part in the business; the other scaled a high board fence to get away, and is going yet.

WEALTH'S RESPONSIBILITY.

Andrew Carnegie, the multi-millionaire, is said to still have about $250,000,000 to dispose of. If he had appreciated properly the responsibility which is connected with the possession of wealth during the years when he was accumulating this vast amount, he would undoubtedly have pursued a different course and accomplished very much toward lifting humanity up to a better plane of life. The strenuous efforts he is now making to dissipate the millions he has spent a lifetime in hoarding will not result in a tithe of the benefit to humanity he might have conferred with it, if from the beginning he had consecrated his money-making talents and energies to the good of others, as he now seems desirous of doing. We would not detract from the meed of praise to which he is entitled for his present efforts to rid himself of his accumulated millions in a way that will benefit the world. But in pursuing the self-centered course of life which was necessary to enable him to attain the purpose to which he consecrated himself, he neglected opportunities for bettering the world and alleviating the sufferings of humanity which are rarely given to mortals.

In view of the present existing conditions of the vastness of his wealth, and his suddenly conceived desire to make the best expenditure of it in the brief time he is likely to have for the task, he is perhaps managing as wisely as possible, and no doubt his munificent gifts to worthy objects will do an untold amount of good.

But his fabulous wealth expended in this way will purchase for him but a mere moiety of the satisfaction and joy that it would otherwise have secured for him.

Exports and Imports

The treasury bureau of statistics completed its statement of exports and imports for the United States for the year ending June 30, 1901, last Saturday.

It shows that the total imports of the year were $822,756,533; total exports, $1,487,056,544, and the excess of imports over exports $664,900,011. The imports are $27,184,651 below those of last year, and the exports are $93,173,462 above those of last year. The excess of exports over imports exceeds that of last year by $120,658,113, and is $49,467,335 greater than the highest record ever before made—that of 1898.

Under the new relations with Hawaii and Porto Rico the commerce of these islands is no longer included in the regular statement of foreign commerce of the United States. Had they been so included, as has been the case in former years, the total exports would have exceeded $1,500,000,000, as the exports of these islands during the year have aggregated about $25,000,000.

The story is told of a man who went to take civil service examination and was asked, "How far away is the nearest star?" He replied, "I don't know, but it's not near enough, I am sure, to interfere with my work if I get the job." That answer suggests a principal that ought to pervade all educational work, that of practicability and utility. That knowledge is of most worth which is most helpful to a person in the doing of his or her work in life. It is gratifying to note a growing tendency in our schools to educate along practical lines. Instead of burdening the child's mind with learning the length of obscure rivers and far away mountains and other unimportant details, as was the custom not long ago, more useful and interesting facts pertaining to this wide and wonderful world are presented. But even yet here is room for improvement. In too many schools too much time is still wasted in cramming useless knowledge into the heads of the little ones. We believe in the idea of manual training and industrial schools and would like to see the day when such schools will be established in every town and village througout the land.—Warren Sheaf.

A HIGH PRICED VOTE.

The highest price promised for a single vote for speaker, of which any statement has been made by the bribe offerer or the person who received the offer, was $20,000. Speaker Marshall's election by one majority was brought about by the votes of five democrats. Two days before the house was organized the men engaged in buying the votes needed to elect Marshall were employing their greatest efforts to bring this result about without the aid of democratic votes. Offers of $10,000 were made to a dozen different insurgent members of the house, and one of $60,000 for the votes of three members was made to one of the trio supposed to control the two others. None of their efforts were successful, and the five democrats were finally called into service to insure the election of Marshall as speaker.—Harrisburg letter in Philadelphia Press.

GOOD TIMES IN ROSEAU.

The great rush of land seekers and land buyers into Roseau county during the past few months has caused the value of land to almost double in price. The population of the county has without doubt increased at least 1,000 since the last census and will certainly reach over 8,000. The country never presented a finer appearance nor have crops looked any better since 1895. From all parts of the county come reports of bright prospects. The hay crop will be something immense, while vegetation of all kinds promises well. The wild strawberries are found in abundance and other wild fruit, such as plums, blue berries June berries and cranberries will also be abundant. —Roseau County Times.

THE TURKISH CLAIMS.

The state department at Washington has at last received from Turkey, through the American legation at Constantinople, the amount of the American indemnity claims. The money, $95,000, was paid by the Turkish government to Mr. Leischman, our minister at Constantinople, and by him placed in the Ottoman Imperial bank, and drafts remitted for the amount. These drafts have just reached Washington.

The aggregate of the claims is considerably larger than this amount but our government has accepted the payment in full satisfaction, and assumed full responsibility for its distribution among the claimants according to its own discretion.

This will be done as soon as a proper pro rata adjustment of them can be made.

The Austin Daily Herald now flies at the mast head a pennant inscribed S. Sweningsen, proprietor. Our old time friend, senator and postmaster has thus added to his responsibilities, cares and income producing sources a live daily newspaper. From our acquaintance with him we feel sure he will see to it that the Register does not fall to the rear of the procession of Minnesota daily papers. He is a broad-minded, all 'round good fellow and a genuine hustler. The Journal's congratulations are extended.

A Chicago judge instead of sending a young man to jail recently for a petty misdemeanor, sentenced him to save $100. At stated intervals he is to show his savings bank book. So long as the amount is growing, the workhouse sentence is suspended; when it stops, he goes up. We believe the judge has struck a splendid idea. —Blue Earth City Post.

Everyday in the year is a holiday on some place of the globe. The Christian people have their holy day on our Sunday, The Greeks have Monday, the Persians have Tuesday, the Austrians have Wednesday, the Egyptians have Thursday, the Turks have Friday, and the Jews have Saturday.

DISCOVERED NEW MICROBE

Which Causes Disease Named Eroso Membraneus Angina

Paris, July 17.—The French Academie de Medicine has just paid an American doctor the greatest compliment in its power. Dr. C. J. Koenig, formerly of San Francisco, who has been widely known as a specialist in throat and nose diseases in Paris, has been asked to communicate to the academy the details of his double discovery of a new kind of sore throat and of the microbe that produced it. Dr. Koenig, who will respond to the honor conferred on him by giving the academy the whole fruit of his labors, said:

The patient who was the indirect cause of my discovery was a man 35 years of age and in perfect health, with the exception of being subject to chronic rheumatism. The trouble began two months ago with a form of superficial ulceration, covered with a grayish false membrane in the upper part of the right tonsil. The only symptom was a slight pain in swallowing. There was no fever, no headache and no gastrointestinal ailment. In spite of all treatment the affection spread to the mouth in the form of superficial erosion, covered again with false membrane, which invaded the palate, the cheeks and even the tongue.

After many weeks of close study and investigation, I discovered a bacillus to which I have given the name "Bacillus Polymorphus," on account of the remarkable variations in its size and shape. It is immobile, differing from all other bacilli in cultural properties and susceptibility to coloration by analine dye. It is non-pathogenis, since guinea pigs don't die when hypodermically injected with the culture.

The new disease has been given the name "Eroso Membraneus angina."

Valuable Pearl Found

Minneapolis, July 17.—A special to the Times from La Crosse, Wis., says: Mrs. Edwin Drake, the only professional lady pearl digger on the Mississippi, has found a pearl at Round Island which is an exact counterpart of the Queen Mary pearl, valued at $40,000, found at the same place several years ago. A local jeweler purchased this for $25,000.

A Life for a Drink

Chicago, July 17.—A special to the Record-Herald from New Orleans, La., says: Louis Thomas, a negro, was lynched near Girard, La., last night by a mob composed of white men. Thomas' offense was the stealing of a bottle of pop.

Will Have Heating Plant

The city council of Faribault has granted the Polar Star company a 25 year franchise for a heating plant with pipes laid down the streets to carry hot water or steam from the central plant to any business house or residence wishing it. Work on the enterprise will be begun at once.

Fergus Falls has been free from smallpox for some time past, but two new cases are reported in the Kelly and Evans families.

PARTY LEADERS

Gather at Cass Lake to Fish a Few Republican Politics.

ALSO A FEW PIKE AND BASS

After Which Elmer Adams Comes to Crookston to Inspect the State Farm.

Elmer E. Adams, prominent as a politician in Minnesota, and the editor of the Fergus Falls Journal, spent yesterday in the city and in his capacity as a member of the board of regents of the state university, visited the Experiment Station to note the conditions that obtain there under the management of Prof. Hoverstad.

Mr. Adams reported satisfaction with all that he saw, and thinks the general conduct of affairs is highly commendable.

He was returning from a trip to Cass Lake, where he had spent several days in company with a number of the leading politicians of the state, the ostensible purpose of the trip being to catch a few fish. The party consisted of Hon. R. C. Dunn, state auditor; Hon. Alvah Eastman, register of the St. Cloud land office; Charles S. Mitchell, editor of the Alexandria Post-News; Elmer E. Adams, editor of the Fergus Falls Journal, and M. Bunnell, manager of the Duluth News-Tribune, and it is fair to presume that the gathering partook somewhat of the nature of a discussion of state politics, as the term applies to the future welfare of the republican party in the northern half of the state. Mr. Adams left for his home last night.

CAUGHT THE ROBBERS

Burglars at Churchs Ferry Nabbed by a Deputy

Churchs Ferry, July 17.—The meat market of Eric Lysue was entered yesterday morning through a back window by two hoboes and the safe was blown open The dial was knocked off the door of the safe and a charge of nitro-glycerine was inserted into the lock. The explosion that followed blew off the lock and the door was easily opened. The robbers secured about $30 in bills and small change.

Albert Hansman, whose harness shop adjoins the Lysue building, was awakened by the explosion, and seizing his revolver, hurried to the scene, only to see the robbers making away. He fired two shots, neither of them taking effect owing to the darkness. Deputy Sheriff J. B. Church, Albert Hausman and Wash Petri immediately set out on their trail, following their tracks west from town. About four miles out Sheriff Church and Hansman jumped a passing freight, while Petri and Bob Thompson drove on in the wagon. When the train pulled into Leeds Deputy Sheriff Church jumped off the caboose and saw two men climb on the front end of the train. He started after them and after searching the train three times he found them secreted in a car of ties. Upon a search he found a bag of small change and a kit of tools, containing skeleton keys, file and a syringe. They gave up without resistance and the sheriff brought them back and lodged them in the town jail.

Bausman's Mistake

William Bausman, a farmer 38 years old, living near Little Falls, met his death Monday. He was driving one team and his boys, ten and fourteen years old, respectively, were driving the second team. The rear team was running past the first when Bausman jumped and made an effort to stop the animals. He was unsuccessful and the pole of the wagon struck him in the forehead, killing him instantly.

SUMMONS.

State of Minnesota, County of Polk, ss.
In District Court.

Charles Hedquist, plaintiff vs. Wilfred Riel, defendant.

The State of Minnesota to the Above Named Defendant:

You are hereby summoned and required to answer the complaint of the plaintiff in the action above entitled which said complaint is on file in the office of the Clerk of the District Court in and for Polk county, Minnesota, and to serve a copy of your answer to said complaint on the undersigned at his office in the city of Crookston in the county of Polk and state of Minnesota within twenty days after the service of this summons upon you, exclusive of the day of such service, and if you fail to answer the said complaint within the time above specified, the plaintiff herein will apply to the court for the relief demanded in the complaint.

A. A. MILLER,
Attorney for Plaintiff,
14-19 Crookston, Minn.

APPLICATION FOR LICENSE TO SELL INTOXICATING LIQUORS.

To the village council of the village of Climax, in the county of Polk and state of Minnesota:

The undersigned, H. Samuelson, hereby makes application for a license to be granted to him to sell intoxicating liquors for a period of one year from the 13th day of August, 1901, to the 13th day of August, 1902. The place where the said business is to be carried on is designated as follows:

One and one-half story frame building on lot (18) eighteen, block (2) two, in the village of Climax, Polk county, Minn.

Said applicant prays that such license be granted to him pursuant to the ordinance of said village of Climax, Minn., and the statutes of said state of Minnesota, in such case made and provided.

Dated at Climax, Minn., July 8th, 1901.
—H. SAMUELSON.

APPLICATION FOR LICENSE TO SELL INTOXICATING LIQUORS.

To the village council of the village of Climax, in the county of Polk and state of Minnesota:

The undersigned Evenson Bros., hereby make application for a license to be granted them to sell intoxicating liquors for a period of one year from the 9th day of July, 1901. The place where the said business is to be carried on is designated as follows:

Lot (8) eight, block (3) three, in one story frame building in the village of Climax, Polk county, Minn.

Said applicants pray that such license be granted to them pursuant to the ordinance of said village of Climax, and the statutes of said state of Minnesota, in such case made and provided.

Dated at Climax, Minn., June 20th, 1901. —Evenson Bros. 12-14

UNITED STATES LAND OFFICE,
Crookston, Minnesota.

Notice of intention to make proof of right to purchase, under the 5th section of the act of Congress, approved March 3, 1887.

Robert J. Montague, of Crookston, Minnesota, having on June 11, 1901, filed in this office his application to purchase, under the 5th section of the Act of Congress, approved March 3, 1887, lot Four of section Thirty-three, in township One Hundred and Fifty North, of range Forty-six West of the Fifth principal meridian, in Polk county, Minnesota, and filed in connection with said application his affadavit in support of his right to purchase the said land, and asking that the St. Paul, Minneapolis and Manitoba Railway company and one Edwin F. Kelly, who is living upon and claiming some right to the said land, under the homestead laws of the United States, be cited to appear and show cause, if any they have, or objections to the submissions of such proofs or consummation of title to the said lands by him, in the manner in said application proposed, and asking that a time be set when he might appear with his witnesses before this office and make proofs of his right to purchase the said land and consummate his title thereto. Said Robert J. Montague offers to make such proof by himself and by the following named witnesses:

James Greenhalgh, postoffice, Crookston, Minnesota.

Joseph Gauche, postoffice, Crookston, Minnesota.

William Watts, postoffice, Crookston, Minnesota.

E. C. Davis, postoffice, Crookston, Minnesota.

Albert J. Lachapelle, postoffice, Red Lake Falls, Minnesota.

James Stoddard, postoffice, Land Dept., Great Northern Railway Company, St. Paul, Minnesota.

And by the records of this land office, and of the office of the register of deeds of Polk county, Minnesota, and by other documentary evidence and especially by a contract executed by the St. Paul, Minneapolis and Manitoba Railway Company, dated January 27, 1881, to one Ozora P. Stearns, and by the books and records and vouchers of the said reallway company, and certain contracts and assignments and deeds by said Ozora P. Stearns and his assigns and grantees under him: and the right of said Robert J. Montague is claimed under and by virtue of said contract made January 27, 1881, by said railway company to said Ozora P. Stearns, of which contract and all rights thereunder the said Robert J. Montague claims to be the assignee, holder and owner.

Notice is hereby given, that said proofs in support of the claim of said Robert J. Montague to purchase said land will be made before the register and receiver of the United States land office at Crookston, Minnesota, on August 6, 1901, at ten o'clock a. m. of that day; and the said St. Paul, Minneapolis and Manitoba Railway Company, and the said Edwin F. Kelly, and all other persons interested, are hereby cited to appear before said register and receiver at the time and place above named, and show cause, if any there be, or any objections which they may have, to the making of said proofs and consummation of title to the said lands by the said Robert J. Montague, in the manner in said application proposed.

Dated June 18, 1901.

SYLVESTER PETERSON,
11-16 Register.

SHERIFF'S SALE.

By virtue of an execution, issued out of and under the seal of the district court, in and for the county of Polk and state of Minnesota, upon a judgment rendered and docketed in the said court on the 12th day of April, A. D. 1901, in an action wherein The McCormick Harvesting Machine Co., a corporation, is plaintiff, and William L. Davies is defendant, in favor of the said plaintiff and against the said defendant, for the sum of Five Hundred Forty-seven and 32-100 ($547..32) dollars, which execution was directed and delivered to me as sheriff in and for the said county of Polk, I have this 11th day of May, A. D. 1901, levied upon all the right, title and interest of the said defendant William L. Davies in and to the following described real property situated in the county of Polk and state of Minnesota, to-wit:

The southwest quarter of the southwest quarter, the northeast quarter of the southwest quarter, and the southeast quarter of the southwest quarter of section number sixteen, township one hundred fifty-three, range number forty-seven.

Notice is hereby given that I, the undersigned as sheriff aforesaid will sell the above described real property to the highest bidder for cash at public auction at front door of the court house, in the city of Crookston, in the county of Polk and state of Minnesota, on Friday, the 19th day of July, A. D. 1901, at ten o'clock a. m., of that day, to satisfy the said execution together with the interest and costs thereon.

Dated June 5th, A. D. 1901.

—E. J. SULLIVAN,
Sheriff of Polk County, Minn.
—A. A. MILLER,
Attorney for Plaintiff.
9—15

SHERIFF'S SALE.

By virtue of an execution, issued out of and under the seal of the district court, in and for the county of Polk and state of Minnesota, upon a judgment rendered and docketed in the said court on the 12th day of April, A. D. 1901, in an action wherein The McCormick Harvesting Mathe southwest quarter of section number chine Co., a corporation, is plaintiff, and William L. Davies is defendant, in favor of the said plaintiff and against the said defendant for the sum of Two Hundred Twenty-one and 40-100 ($221.40), dollars, which execution was directed and delivered to me as sheriff in and for the said county of Polk, I have this 11th day of May, A. D. 1901, levied upon all the right, title and interest of the said defendant William L. Davies in and to the following described real property situated in the county of Polk and state of Minnesota, to-wit:

The southwest quarter of the southwest quarter, the northeast quarter of the southwest quarter, and the southeast quarter of sixteen (16), township number one hundred fifty-three (153), range number forty-seven (47.)

Notice is hereby given that I, the undersigned, as sheriff aforesaid, will sell the above described real property to the highest bidder for cash at public auction at front door of the court house, in the city of Crookston, in the county of Polk and state of Minnesota, on Friday, the 19th day of July, A. D. 1901, at ten o'clock a. m., of that day, to satisfy the said execution together with the interest and costs thereon.

Dated June 5th, A. D. 1901.

—E. J. SULLIVAN,
Sheriff of Polk County, Minn.
—A. A. MILLER,
Attorney for Plaintiff.
9—15

CITY AND VICINITY

Tom Nesbit was over from Grand Forks Saturday with one eye in the hospital, the result of a bee sting.

I have used Dr. Seth Arnold's Cough Killer in my family for thirty years—Rev. J. W. Cole, Northampton, Mass.

—Fine photographs in all styles from $1 to $20 per dozen at Skrivseth's art studio, near Commercial hotel, Broadway.

Anton Nelson of Sundal, spent Friday here, returning from Ada where he has done jury duty during the session of court.

Don't forget that Mull's Lightning Pain Killer kills all pain instantly. $1,000 offered for its equal. Free from opiates. 25 cents.

Peter Sullivan was down from Key West Friday and is of the opinion that this is the wrong season of the year to harvest an ice crop.

Mrs. P. Swanson, who has been visiting the family of John Nelson, of the Crookston Trading company, returned to her home at Wylie Monday.

John E. Ostrom, the Warren merchant, came in Saturday and will go out into the mountains of Montana on a fishing trip where the trout grow large.

Rev. Martin Noesen of Deadwood, S. D., arrived here Friday morning and will remain for a visit to his parents, Mr. and Mrs. P. Noesen of Russia.

"Stop that cough right away with Mull's Lightning Cough Cure. It heals disease of throat and lungs. It's pure and good for children. 25c. For sale by S. A. Wallace.

Peter McKercher, of Minneapolis, a capitalist who owns considerable farm property in Polk county, is here on a visit of a week to his daughter, Miss Jennie McKercher.

Quite a heavy fall of snow is reported as having occurred at Trenton, N. J., last Saturday. The flakes were large, and the snow was plainly visible during a heavy rain storm.

Don't hesitate if you suffer from the tortures of rheumatism. Take Mull's Pioneer Rheumatism Cure. A dollar draft in each $1.00 box; cash it if medicine fails. 25 cents.

P. H. Wall, once of Thief River Falls, well known in Crookston, and the first mayor of Cass Lake, has sold out his holdings at the latter point and gone to Chippewa Falls to live.

Banker Charles Conger, of McIntosh, was here Friday returning home from a month's visit at his former home at Northwood, Ia., and at points in the central portion of Minnesota.

The large barn of Tollef B. Landsverk, of the town of Sletten, was struck by lightning during a recent storm and considerably damaged. Mr. Landsverk also lost a horse and heifer by the stroke.

Mr. and Mrs. Chas. Misaer and their son and daughter returned Saturday from their Pan-American trip, and proceeded to Euclid. They were accompanied by Mrs. Wm. Sully of Sheboygan Falls, Wis., who will remain for a visit.

The compact growth of hard wood timber in this country is often a source of comment. Yesterday Mr. John Ricketson cut down an oak tree that was 15 inches in diameter, and which, counting in the usual manner was 107 years old.

Sheriff Bailey and two assistants were here between trains Friday enroute to Fergus Falls with two crazy men, who have been encountering the ties and fish plates on Jim Hill's line out in the pine country, and doing other things that showed they were daft.

C. J. Larson, of Wylie, spent Friday night here, home going from Tabor, where he has successfully conducted a term of school. Mr. Larson is successful in whatever he undertakes, and is one of the good fellows who is a friend of the news gatherer every day and all the time.

C. W. Russell, of Stephen, returned Saturday from a trip to Iowa. If one quarter of the people in southern Minnesota and northern Iowa who have signified their intention of moving into northern Minnesota do so, the state will have to annex most of Manitoba and Dakota to accommodate them, says Mr. Russell.

T. G. Thompson has leased a building in Thief River Falls and will again embark in the hardware business. The people at that place are getting a good citizen and a live merchant in Thompson, and Crookston is losing what Thief River gains. The best wishes of his friends here are Thompson's.

Mr. and Mrs. James Miller and family will leave in the near future for the Northwest Territory, where Mr. Miller will purchase cheap land and open a farm. The advertising done has attracted a large number from the states to the cheap lands of western Canada, and Mr. Miller has just returned from a locating trip, delighted with the country.

Mr. and Mrs. J. A. Hazard, who were among the very first settlers in the country north of Crookston, settling in Euclid 22 years ago on the property now owned by George Purvis, were here Tuesday en route to Hallock for a visit. They will return to Euclid Thursday and renew acquaintance with old friends at the time of the Woodman picnic. Mr. Hazard is now representing the International Life Insurance company and resides in Denver.

P. E. Smklesang, O. T. Romsos and G. G. Borgen, of Wylie, were among the over night transients here.

Mr. and Mrs. Alex Burnham and their two daughters have gone to Bemidji to spend a week enjoying the fishing and boating.

The idea of securing a special excursion to take the people to Hallock to attend the race meeting, is meeting with favor here and at all points along the line. If such an arrangement is made, it will be an accommodation to many, and pay well.

Maple Lake Breezes

The sizzling hot days are being endured by the Maple Lake summer resorters with much more comfort than city dwellers would believe possible. The shady nooks, comfortable hammocks, bathing places and cottage porches offer excellent opportunities for keeping cool in the heat of the day, while the cooler portions are enjoyed in fishing, sailing and rowing.

In point of numbers the past week is a record breaker. Every cottage is full, including the four just completed. The capacity of the hotel has been taxed to the limit and numerous camping parties are tented on the more popular parts of the shore.

The new steamer built and operated by Anne Brothers has been launched and will make regular Sunday trips around the lake, besides being at the disposal of any wishing to charter it for special excursions about the lake. The steamer is 60 feet long, with an awning covering the entire deck and will carry from 60 to 75 passengers

W. L. Hall has cleared the Lee point of all brush and is having the lumber hauled for the house which he will build there. The building will have ten bed rooms besides the other necessary apartments. The main feature will be the piazza, which will be 20 by 50 feet and is to have a hardwood floor for dancing.

One of the jolliest parties which has struck the lake in a long time is that now domiciled in the Rapin cottage. The twenty young people who form the house party are a merry crowd and their presence is making the Lake very lively.

Mr. and Mrs. C. C. Strander are out from Crookston, guests at the hotel. Mr. Strander's sail boat is one of the finest craft on the lake and Mr. Strander is a thorough sailor.

B. O. Anderson is entertaining a number of Crookston friends this week. There aren't any vacant dates on Mr. Anderson's calendar.

Improvements are being made at the Ericsson cottage on Breezy Point. A spacious addition is under roof. Mr. Ericsson was out from Crookston and joined his wife and son for a stay during the early days of the week.

Mr. and Mrs. Durand came out from Crookston on Saturday and opened their cottage in Whip-poor-will Glen for the first time this season, They were joined on Sunday by their son and daughter, the latter recently returned from Iowa.

Dr. Ekern and W. R. Lasham and wife of Grand Forks were guests at the Hassell cottage over Sunday.

The young ladies who are guests of Mr. and Mrs. Heath at the Streeter cottage are enjoying every moment of the time and are among the happiest of all the lake resorters. The party consists of Miss Haanay of St. Hilaire, the Misses Bouquet of Owatonna, Miss Gleason and Miss Bell of Crookston.

The young people hold nightly dances on the pavillion and the experienced mandolin players provide the music.

Bathing parties are every-day affairs and the "Sand Beach" is the popular resort.

A party of Red Lake Falls young men who have been camping on Lee's Point, returned home last week.

SAD HOME COMING

Parents Arrive with Remains of Their Beloved Daughter

Mr. and Mrs. Halvor Steenerson returned this morning from St. Paul, having in charge the remains of their daughter Clara, whose death at St. Luke's hospital was chronicled in the Journal last night. They were met at the depot by a delegation of sympathizing friends and neighbors, and six young men officiated as pall bearers, accompanying the remains to the family residence.

Opportunity will be given to interested friends to view the remains at ested friends to view the remains at 9 a. m. to 2 p.m. tomorrow. At 2:30 p. m. a prayer service will be held at the residence, and at 3 o'clock the funeral will be held at the Congregational church, of which the deceased was a member, Rev. H. P. Fisher officiating.

LAST SAD RITES

Remains of Clara Steenerson Laid to Rest Today

The funeral services over the remains of Clara Steenerson were held this afternoon and were sadly solemn. Brief prayer was had at the house, where the remains had been viewed by hundreds of the friends of the family today, and at 3 o'clock the funeral party entered the Congregational church. The edifice was filled with sorrowing friends of the deceased, and Rev. H. P. Fisher conducted the services. The music was specially appropriate and the remarks were full of deep feeling.

While sorrowing for the early death of one whose life gave such promise of grace, beauty and usefulness, the hearers of the discourse could not fail to be comforted by the beautiful word picture of the heaven of rest into which she has entered.

The church was beautifully and fittingly decorated and the casket was banked with flowers, among the latter being several exquisite set pieces of large bouquets. Among these was a handsome wreath, a gift of the alumni of the high school. The class of 1000, in which deceased graduated, tendered a beautiful floral pillow and numerous other designs and beautiful cut flowers were offered by friends and relatives.

The remains were followed to the grave by an unusually large number of carriages bearing the sorrowing friends and relatives, and the service at the grave was touchingly sad, yet beautiful.

A number of the young friends of Miss Steenerson had been to the cemetery and had lined the grave and covered the earth around with flowers, the effect of which relieved the interment of much unpleasant suggestion.

The members of the bereaved family, whose heart strings are drawn tense in their sorrow, have the fullest sympathy of every one who knows them, and their sorrow is shared by all who have been privileged with an acquaintance with their lost one.

Back From the Coast

Hon. C. L. Smith, formerly a prominent newspaper man of the Twin Cities, but now a resident of Beltrami county, was in the city yesterday returning from the states of Washington and Oregon, where he has spent the past eight months conducting farmers' institutes. The work was done under the authority and auspices of the Oregon Railway & Navigation company, and the Southern Pacific roads. Great interest was shown in every meeting, and the roads are greatly pleased with the results. Thirty creameries have been established as a result of the work done by Mr. Smith, and the agricultural outlook is brightened for those who are there, besides the stimulus given to immigration.

Broke His Back

Ortonville, Minn., July 17.—Jens Steen, who resided a few miles northwest of here, while riding in a wagon to town, was overcome by the heat and fell from the wagon under the wheels, which broke his back, causing death in about 30 minutes.

Carnegie's Offer Accepted

San Francisco, July 17.—The board of supervisors has adopted a resolution formally accepting Andrew Carnegie's offer of $750,000 to this city for a public library building.

Another Live Wire Victim

A death caused by a live wire occurred Monday in St. Paul, John Corcoran, employed by the St. Paul Gas Light company, while at work on a pole at Third and Robert streets, touched a live wire and the shock caused him to loosen his hold on the pole. He fell to the pavement, thirty feet below, receiving injuries from which he died in four hours.

Strayed

Four head of cattle strayed from my premises on July 3rd. Two black cows, one of which had been dehorned; one yearling, red and white heifer; one spring bull calf, black and white. Any one knowing the whereabouts of these, please communicate with—Joseph Proshek, Angus. wkly. tf.

NOTHER NEW TOWN

In Northern Itasca County but Hasn't been Named yet

Another new town is about to make a bid for prosperity and prominence in northern Itasca county. The budding town has not been named as yet, but it will be situated on the Little Fork river on the line of the Minnesota & International road in a good agricultural district, and with extensive water power at hand. The new town will be located about half way between Koochiching and Grand Falls. It will occupy the site of the H. Slingerland, homestead, embracing 160 acres. Mr. Slingerland has lived on the land eight years, and has had 30 acres under cultivation. A deal for the land has been completed and the new owners are W. F. Street of Bemidji and A. A. White of St. Paul. Mr. Street is the agent of the townsite company that has promoted Bemidji. He is county attorney of Beltrami county, and one of the very successful townsite men of northern Minnesota. Mr. Street was in the city a day or two ago and said: "Northern Minnesota is going to have a wonderful development in the near future. The more I learn of that section the more pleased I am with it."

Mr. Street says that the Little Fork river at the Slingerland farm is as big as the Mississippi at Brainerd.

CROP CONDITIONS

Are Much Improved in North Western Polk.

Granville, Polk county, Minn., July 17.—Special—It is with much gratification I can report that the flooded territory on the lower Snake, where but four or five days ago thousands and thousands of acres of the finest crops ever seen grow were completely covered with water, are now dry, and that crops have suffered very little damage.

Louis Larson, whose farm is right in the flooded district, and who has several hundred acres of the finest wheat ever gazed upon by the human eye, makes the statement himself that he does not consider the crop damaged by the flood; that he has investigated the matter thoroughly and finds to his joy that the stalk of wheat, as well as oats and barley, is green, healthy and strong. It does not hardly sound possible, but such is the case, and the parties concerned are very agreeably and pleasantly surprised.

Snake river fell night before last six feet and where five days ago was good steamboating is today fine bicycling, and people not familiar with conditions of the country would think an overflow would be beyond the limit of possibility in a country so rich and beautified by nature. It might be noted that Casper Sands, well and favorably known in railroad circles and outside, and his brothers Martin and Ole, own several thousand acres in the flooded district, and are to be congratulated upon the favorable turn of conditions that looked so unfavorable and gloomy a few days since. The only damage the water seems to have done is to grades. There are places on the roads where it was flooded where a polished shoe would "fade" in going through.

STOCK FROM THE WEST

Is Now Being Shipped East--First Load Wednesday

M. R. Brown, who superintends the Great Northern stock yards at Minot and Larimore, went west Wednesday to see that everything was ready for the opening of the shipping season. The outlook is that there will be fewer range cattle shipped this year than were marketed last season, as the shortage of the corn crop in Kansas and Nebraska will compel closer selling from that district, and the Montana shippers will hold for better markets later in the year, if they do not decide to defer shipping, except in cases where they are compelled to do so. Their action depends altogether on the state of the markets.

There will, however, be an increase in the number of horses and sheep sent east, and this will likely make amends for any deficit in the horned stock, so that the average will be maintained. The shipments last year amounted to three hundred train loads, and every one of these unloaded at either Minot or Larimore to feed, water and rest.

Any one who happens to be in Minot on Sunday next may see three train loads, amounting to 120 cars, of horses unloaded and fed. The stock is en route to supply the increasing demand of the eastern states.

Fowls and their Fruit

Soft soap is a good remedy for scaly legs in fowls.

Wyandotte hens are hard to beat as sitters and mothers.

It is a good rule to scald out the drinking vessels once a week.

Mark your chicks each year so you can know their age and kill or sell them after the third year.

Turkeys are capable of rapid digestion and apparently are always hungry. They do better if they can have a free range.

Give the ducks and geese plenty of clean straw or leaves for bedding, changing sufficiently often to keep clean, and not only will better health be maintained, but more valuable manure secured.

There is less risk of disease with ducks than with any other fowl. If they can have a free range during the day and comfortable dry quarters at night and are fed lightly, they will need very little other attention.

THEY WANT DEPOT

The Wylie People are Asking it of the G. N.

The railroad and warehouse commission will visit valley points during the week, and listen to grievances presented by citizens of Kragness and Wylie. At Duluth Tuesday they heard complaints against the closing of the Twentieth avenue depot. The people down at Kragness think their town is of sufficient importance to entitle them to a depot, and the Wylieites are of the opinion that the tool house that the company put onto a flat car and moved there from Willmar two years ago is hardly up to the standard of excellence that they claim for their budding city. The thing sheds air, but when three passengers present themselves for tickets, or have to wait for a train to get out of the mud in the Red Lake Falls cut, one has to stay outside, or else the stove and operator's table has to go.

The members arrived here this morning from Kragness in Supt. Jenks' private car, and are out on the St. Hilaire line today.

Rushing that Bridge

The work of driving the piling for the Canadian Northern bridge over Rainy lake is in progress. Operations have commenced on the second span from Gash Point and a considerable distance is now ready for the cap timbers. When completed this will be a remarkable structure. The aggregate length of the various spans will total nearly two miles, extending from Gash Point on the east to Vincent's Point on the west of the neck of the lake spanned. It is not generally believed that the bridge will be completed this season.

Logging Road Extension

The Itasca Logging company, a branch of the Akeley Lumber company of Minneapolis, will extend its road northward form the Mississippi at Deer River some twelve miles. It now reaches twenty-two miles north and is a very important feeder for the Akeley mills. The extension will penetrate about 50,000,000 feet of timber. It is expected that the road will ultimately reach the international boundary.

A tri-weekly train service on the new road from Bemidji to Turtle River has been established over the sixteen miles of road over which the rails are laid.

LAND FOR SALE.

All of sections 23-29 and 25 for sale with small payment down, balance on 5, 10 or 20 years' time. Low rate of interest. Address B. A. Plummer, Forest City, Iowa.

Unclassified News Items.

Thomas Miller of Wadena has a novel claim to fame. He refused to accept an appointment in the state grain service.

—o—

Down at Elbow Lake Olaf Tronsgaard's little boy got hold of a box of matches, ate off the heads and died in a few hours.

—o—

Wilfrid Lemieux of Red Lake Falls has decided to open a general store at Turtle River; the resident partner will be Herbert Miller.

—o—

Ray Hall, a Brainerd boy, went out on to the farm to assist at haying. He got in front of a mower's sickle bar and was badly hurt.

—o—

J. A. Wallace, who has recently discovered iron a few miles up Rainy Lake, near Koochiching, has sold an option on one of his claims for a good round sum.

—o—

The Stephen Leader is kicking vigorously on the mail service on the St. Vincent line, and talks about laziness and "amateurs and kicking to inspectors, and all that sort of thing.

A Fargo church has a junior union of boys and girls between nine and fifteen years of age who decorate the church for every Sunday service and send flowers to all sick and lonely people they can find. It's God's service.

—o—

Alex McKenzie arrived Sunday in Bismarck from the coast and was given quite an enthusiastic welcome. His coming was entirely unheralded but it didn't take many minutes for the people to become acquainted of his presence.

—o—

A lot of settlers at the head of Gull Lake, out north of Bemidji, went down to the outlet and blew up the dam. They then had the nerve to go in a body and acknowledge the deed. The backwater was drowning their hay meadows and washing away the roads and bridges.

Prayer Answered

Miller, S. D., July 17.—General showers and cooler weather here brings all crops back to their normal condition after the fearful heat. Judge Carroll, who has 400 acres of wheat near town, says it is good for ten bushels per acre. Others make better claims. A general prayer meeting was held just before the rain came. Some asked the Lord to fetch rain in his own good time, while others demanded that it be sent at once. It began lightning and thundering before the meeting was over.

TALKED WITH THEM

News Reporter Has an Interview With the Younger Brothers

THEY TELL OF PRISON LIFE

And Evidently Think They Have Had Punishment Enough

A news reporter visited the Younger brothers in the penitentiary at Stillwater last Sunday, and we reproduce herewith in part the utterance of Cole, who was the spokesman in this instance:

"Just to think of it, we have been in this prison nearly 25 years and this is one of the few times we have seen a ray of light shining forth from the darkness that has surrounded us. During our stay in prison we have been well treated by every warden and every prison official under the warden and neither Jim or I could possibly have a word of fault to offer. We have tried to meet every requirement, and I believe the prison records will show that there is not a black mark against us. Jim and I have always tried to make it easy for the officers over us, and I think we have won the friendship and good will of every one of them. The late Ben Cayon was our keeper for many years and not long before his death he called at the prison and said to me, "Cole, my only hope now is that I may live long enough to see you and Jim liberated from prison, for you are certainly entitled to consideration because of your remarkable record."

We came to this prison November 21, 1876, and the prison population at that time numbered about 175. When we first came here the three of us were put in the tub and bucket shops, where we spent the first two years. During the next eight years we were employed in the belt shop and made all the belts, sieves and straw stackers used by the thresher company. Warden Reed then put us in the storeroom and tailor shop, where we remained ten months, until Warden Stordock took us out and put us in the library. Jim was given charge of the mail and Bob was given a position as clerk in the office of Steward Benner. I remained in the library six years, and was then given a position as head nurse in the hospital, where I have since been employed. I have been dishing out pills many months. I can't say I have gained my great knowledge of medicine, but I know what the different medicines are used for, and I have learned to assist the physician in case of accidents.

I weighed 175 pounds when I came to this prison, and I now weigh 234 pounds. I begin to feel my advancing age, but on the whole I feel pretty good and I think I would be able to live a few years more if I were released. I have had only one severe illness while here, and that was an attack of lumbago. Jim has been sick several times, but is now feeling fine and weighs more than he ever did.

I was born in Jackson county, Missouri, Jan. 15, 1844, and Jim was born at the same place Jan. 15, 1848. Bob Younger was born Oct. 19, 1855, and died in a prison hospital of consumption Sept. 16, 1889. We were fourteen children in the family, and all were living in 1860. We have relatives living in Missouri, Texas and California. My sister, Retta, now Mrs. A. B. Rollins of Dallas, Tex., has been here to see us several times, and no will be greater pleased with our liberty than will she.

Friends and relatives have frequently interceded in our behalf, but the first determined effort to secure our pardon was made before Governor Merriam in 1888. People from all parts of the state joined in that effort, but it proved unavailing. The movement, that started two years ago, was strictly a Minnesota affair. It was started by friends without our solicitation, and if we get out we can thank them for our liberty. They have been tireless workers in our behalf.

STILL GIVING

CARNEGIE LOOKING FOR DONATION OPPORTUNITIES.

New York, July 11.—Andrew Carnegie still has £56,000,000 to give away in public benefactions.

Mr. Carnegie himself is authority for this statement, which he made recently at Skibo castle to a member of the New York chamber of commerce committee, who is now in this city, but wishes his name kept secret.

Several members of the New York chamber of commerce delegation, which went to England recently, visited Mr. Carnegie at Skibo castle, and with them he discussed his gifts to the public.

He remarked that in the future he meant to make other donations, more extensive even than heretofore, to public institutions.

According to Mr. Carnegie he is still undecided in what manner to dispose of his wealth for the public good.

He wishes the public to obtain the best results from future benefactions and for that reason has not yet formulated any philanthropic statement.

Mr. Carnegie admitted that free libraries and other educational institutions would undoubtedly obtain a portion of the millions in question, in order that the plans which he had previously adopted should be fully developed.

His hearers judged from what he said that he was considering the advisability of directing his wealth toward endowing and supporting art galleries, scientific museums and similar institutions.

Alameda, Cal., July 11.—Andrew Carnegie has given this city $35,000 for a public library building.

NEGRO POPULATION

NOT DECREASING AS RAPIDLY AS PREDICTED.

New York, July 11.—A special to the Herald from Washington says: Predictions based on the census of 1890 that the negro population of the United States would gradually decrease in proportion to the total population, are not borne out by the statistics of the present census.

The negro population of the United States in 1890 was 11.93 per cent of the total, a decrease from 13.12 per cent in 1880. This year the percentage will be somewhat less than 11, though until after the compilation of statistics has been more nearly completed it will be impossible to give exact figures.

In some of the southern states the negro population is increasing faster in proportion than the white. In the border states there seems to be a little falling off, and in the northern states, to which the tide of European immigration flows strongest, the white population is increasing more rapidly, though this does not hold good in some special localities, such as cities in which negro servants, especially in hotels, are rapidly displacing white men and women.

POWDERED MILK

AN IMPORTANT INDUSTRY FOR SIOUX FALLS, S. D.

Sioux Falls, S. D., July 11—A unique industry is to be started in this city. J. K. Haughton, a local business man, has decided to embark in the business of making powdered milk.

This has been quite an industry in Germany, where it originated.

Mr. Haughton states that powdered milk is not a new thing, as it has been used on ship board and for army purposes for several years. The new industry will mean a great deal to the farmers in this vicinity.

At present, after milk is taken to the creameries and the cream extracted, the skimmed milk is good for nothing but slop for the cattle and hogs. When the business of making powdered milk is in operation Haughton will pay the farmers 30 cents per hundred pounds for the skimmed milk, which will practically add 7 cents to every pound of butter sold by the farmers of this section.

A practical man will be in charge of the new plant, which will be the first of its kind in the northwest.

FAMILY CORPORATION

WITH SIX SHAREHOLDERS AND $400,000 CAPITAL.

New York, July 12.—The Hyde family, of Plainfield, N. J., has incorporated itself. Hereafter the $3,000,000 estate left by Chas. Hyde will be known at the Union County Investment Co., with his widow, his four sons and his daughter as the six stockholders.

There will be a paid up capital of $400,000, the wife owning 565 shares and the children 687 shares each, worth $100 par.

Mr. Hyde died on June 12 last. He bequeathed his large estate to his widow, his four sons and his only daughter.

The family corporation is chartered to deal in stocks, bonds and mortgages, convey real estate and invest in gas, water and railroad securities.

KITTSON COUNTY FAIR

A RACE MEETING WILL OCCUR IN CONNECTION.

The Journal is in receipt of a program of the races to be held at Hallock July 25 and 26, on the occasion of the fourteenth annual fair and race meeting of the Kittson County Agricultural society.

The purses are very liberal, $300 being offered in the free for all event, $175 in the 2:25 trot or pace, $150 in the 2:40 event and $100 in the 3:00 class.

The officers of the association are T. M. George, president, and A. M. Ecklund, secretary, and their experience in conducting the fairs in that county assures success. Stock fanciers and lovers of speedy horse flesh from all parts of the valley will welcome the opportunity to be present at the Kittson county fair.

POOR YEAR FOR CHICKENS.

From present indications the prairie chicken crop will be short this fall. The excessive rains have drowned the nests and the young birds and the hatching season shows up a big shortage, so say the farmers. The ridge sections will have their usual amount, but so much of the country is low-lying that this affords small consolation to the sportsman.

FROM NEAR AND FAR.

Zephyrs Wafted Through Pine Cones and Across Prairies.

No more wooden sidewalks in Fergus Falls. The council has ordered cement for exclusive use.

—0—

The proprietor of the city bakery at Cass Lake found a tarantula in a bunch of bananas Friday.

—0—

Dr. Pearson, the Chicago philanthropist, will give the Congregational college at Fargo another $50,000.

—0—

The McIntosh Tribune is authority for the statement that sightless swine are flourishing in eastern Polk county.

—0—

The Fertile schools have been experimenting with gardening and the matter has aroused considerable interest.

—0—

The Cass Lake Water, Light & Power company is arranging to lay 14 additional blocks of water mains at once.

—0—

The Cass Lake Gun club has elected the following officers: President, J. Gardner; vice president, Heber Hartman; secretary, George Birtch; treasurer, J. Hanley; directors, Charles Tedford, S. Williams, Captain J. E. Nelson.

—0—

At Olivia a horrible case of depravity has come to light. Johnson Hage, a wealthy farmer, and his wife are accused of locking up the aged and insane mother of the latter in a shed, without a bed or care and nearly starving her.

—0—

S. C. Johnson, the butter maker at Red Lake Falls, reports the receipts of milk Thursday to be 3,700 pounds. The second pay day will come on the 20th inst., and it is expected that the price per pound will have advanced one cent over that of the first pay day.

—0—

The official figures of the Northern Pacific gross earnings for the fiscal year just closed show a total of $33,892,338. This includes the fourth week in June, which reached $870,479, an increase over the same week last year of $34,958. The great showing of the property is readily seen, even when viewed with the 1900 fiscal year earnings, which were $30,021,317.72. Allowance must be made, however, for the earnings of the St. Paul & Duluth during the past fiscal year, which ran between $1,800,000 and $1,900,000.

—0—

Crow Wing county commissioners think their surveyor is on the bum and have petitioned Governor Van Sant to remove him.

—0—

The city council of Red Lake Falls has passed an ordinance requiring all persons sentenced to imprisonment in the city jail to be obliged to work upon the streets.

—0—

A smallpox patient died down at Cloquet and the house was so small they had to take the remains out in the yard to hold services and let all who desired hear Rev. Mr. Heard's funeral sermon.

—0—

Down at Anoka some new developments are talked of in connection with the Wise murder case. Two Minneapolis detectives have been covering the ground again and, it is said, claim to have new evidence.

—0—

John Boardman of Red Wing has found a $1,000 pearl. In the same shell was another valued at $200. Both came too late. His wife had just died from illness caused by privation. He will be able to attend to his children, however.

—0—

Alger-Smith & Co.'s great log raft arrived at Duluth from Pigeon river last Sunday, and the logs are now at the West Superior Lumber company's mill. This was the largest raft ever towed on the great lakes, the logs comprising it scaling 7,000,000.

P. Meehan offers to donate to Thief River Falls one half block of ground on his addition for a high school building, and if more ground is wanted will sell the other half for $600. Board to select any location they desire, and if not already platted will plat the property wanted.

—0—

The new wagon bridge over the Black river at Provost's place in Louisville has been giving the town officials all kinds of trouble this spring, owing to the stage of water which is higher than it has been for years.

—0—

The famous Frisco farm, comprising 1,300 acres, was sold the other day to H. L. and O. L. Meignard et al., for a consideration of $24,000. This farm is located west of Argyle, and the transfer includes machinery and stock.

—0—

The new 150 horse power engine which will propel the machinery of the Red Lake Falls electric plant arrived Friday. The foundation for the engine is nearly completed, and it is expected by those in charge that the steam plant will be in operation about September 1st.

—0—

A short time ago while attending to his professional duties in the southern part of Pembina county, Dr. Stinson's attention was called to a tumor on a horse's shoulder, directly over the shoulder blade. The owner wanted it removed which was done, and it was found to contain a twenty-five cent coin.

Gratitude

Always seeks to find some expression for itself, and womanly gratitude will not keep silence. Cynical people sometimes say Why do women write these testimonials to the value of Dr. Pierce's Favorite Prescription? The answer can be put in one word, *Gratitude*. When, after years of agony a woman is freed from pain, when the weak woman is made strong and the sick woman well, the natural impulse is to write a word of grateful thanks for the medicine which caused the cure.

Dr. Pierce's Favorite Prescription cures diseases peculiar to women. It establishes regularity, stops weakening drains, heals inflammation and ulceration and cures female weakness.

"Having used Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery' during the past year," writes Mrs. Mattie Long, of Pfouts Valley, Perry Co., Pa. "I can truthfully recommend the medicines for all female weaknesses. I have used several bottles of 'Favorite Prescription' which I consider a great blessing to weak women. I was so nervous and discouraged that I hardly knew what to do. Your kind advice for home treatment helped me wonderfully. Thanks to Dr. Pierce."

Doctor Pierce's Pleasant Pellets cure biliousness, and sick headache. They should be used in connection with "Favorite Prescription," whenever the use of a laxative is indicated.

BUTTER MODEL NEARLY READY.

The butter model of the new state capitol is about completed and will be placed in position the latter part of this week, according to the statement of H. W. Hall who has returned from the Pan-American exposition, says the Pioneer Press. The model is twelve feet long by six high by eight deep, and is enclosed in a plate glass case. The case is cooled by an ammonia plant to keep the butter from melting. The model was executed by John H. Daniels of St. Paul. The case will occupy the main entrance of the dairy building so that all that enter will see it.

"Minnesota will be known as the bread and butter state," says H. P. Hall one of the Minnesota Pan-American commissioners. "Washburn and Crosby have a flour exhibit in the manufacturers' building where the baking of bread and rolls is going on constantly. The visitors are treated to rolls buttered with rich Minnesota butter furnished from the dairy exhibits."

TRAVEL TO THE WEST.

More and more each year Americans are finding out the attractions of our own country, and as they grow to realize the charm of life among the Colorado mountains or in the Yellowstone Park the tendency is toward greater travel west instead of east for health and recreation. The railroads, too, are alive to the new conditions and have made lower tourist rates this year than ever before. And then the train time has been vastly improved, so that now it takes only night on the road between the Atlantic Coast and Denver, that is, by using the Burlington's fast train from Chicago.

CREAMERY AT WYLIE, TOO.

The Wylie Dairy association is the latest creamery organization to be established in this portion of the valley. It is the outgrowth of the sentiment favoring stock raising and diversified farming, due to the farmers' institutes recently held in Red Lake county, and is being encouraged and fostered by the leading farmers of that vicinity.

WHITE MAN TURNED YELLOW.

Great consternation was felt by the friends of M. A. Hogarty of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, and he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful stomach and liver remedy, and he writes: "After taking two bottles I was wholly cured. A trial proves its matchless merit for all stomach, liver and kidney troubles. Only 50c, sold by A. G. Anderson, druggist.

CHINCH BUGS IN WISCONSIN.

The chinch bugs are completely destroying the crops in some localities in Wisconsin. In some parts of Pierce county the most sanguinary are hoping only to secure a sufficient amount of wheat and oats from their crops for next spring's seed. And some crops of corn are also seriously threatened with complete destruction by these voracious insects. It was hoped the copious rains which have recently visited the infested localities would dispose of the pests. But it seems to have had no appreciable effect upon them.

REFORMATORY SENTENCE.

Joseph Lacaqule, who was arrested last December for stealing a horse from Ole Haugen down in Norman county, and who was an inmate of the Crookston jail during the past six months, pleaded guilty and was given a reformatory sentence at St. Cloud, where his confinement will depend a good deal on his good behavior. One year is the least he can get, and ten years the most. He was taken down Wednesday night.

BUGS PLENTY, MEN SCARCE.

Langdon, Minn., July 13.—Reports still continue to come in of the serious damage being done to crops by chinch bugs. Now that rye is being harvested, they have begun their destructive ravages on other crops with renewed vigor. Wheat, flax and oats alike have been attacked by the pests, but the corn crop is suffering the most.

There is the greatest scarcity of farm help ever known through this section: not an idle man or tramp has passed through this place in months.

Potato bugs are reported very bad here, and are doing considerable damage to the crop.

FEATHERWEIGHTS MARRY.

Samuel Huiz, a wealthy farmer of Andrew county, Mo., 34 years old and weighing 47 pounds, was recently married to Miss Sarah Stephens, aged 29 and weighing 45 pounds. The bride is the daughter of J. E. Stephens, a merchant of Barnard.

$50 FOR 17 LIVES.

Abraham Bittenberg, the confection and notions dealer in whose store in Paterson, N. J., an explosion occurred on June 29, that resulted in the loss of 17 lives and who was found responsible for the explosion was fined $50 for having dynamite stored in his premises.

Thief River News: There seems to be more drunken Indians in this city than ever before, and the people living in the northeastern portion of the city are subject to all kinds of insults from them. It does not appear that the Indians have any trouble in buying whiskey.

CROWE HEARD FROM

SENDS DRAFT FROM SOUTH AFRICA TO PAY LAWYER.

St. Joseph, Mo., July 15.—A. W. Brewster, an attorney of this city, has received a draft for $250 sent to him by Pat Crowe from Johannesburg, South Africa. The amount was sent to the lawyer to pay an attorney fee Crowe had been owing a number of years. Crowe's name has been connected by allegation with the kidnapping in Omaha of the young son of Edward Cudahy, the packer, who paid a ransom of $25,000 in gold to recover his boy. Several years ago Crowe was under arrest in St. Joseph on the charge of train robbery. He employed Brewster, who is a state senator, to defend him. The charge was finally dismissed, as the case was not a strong one.

There is still a reward of $30,000 offered for the arrest of the kidnappers. $25,000 put up by Cudahy and $5,000 by the state of Nebraska.

NOTED CONFEDERATE

ASSIGNED TO MINNESOTA FOR SERVICE BY LAND DEPT.

Washington, July 12.—Colonel John S. Mosby, who was so well known in the Virginia civil war campaign, because of his daring raids, has been appointed special agent of the general land office and assigned to duty in Minnesota and Nebraska. Colonel Mosby has for years been connected with the law offices of the Southern Pacific railway, but upon the readjustment of the affairs of that company was left without a position. His present appointment was made at the special request of President McKinley, who is said to entertain a high regard for the colonel because of his bravery. His new position pays $2,250 a year.

MASON AND DIXON

LINE BECOMING OBLITERATED BY VANDALS.

The monuments of the famous Mason and Dixon boundary line between Pennsylvania and Maryland have suffered severely from the attacks of vandals, and they will soon be replaced with cast iron markers. Rapid progress is now being made on the relocation of the line.

The eastern portion of the line was originally marked by stone monuments at equal distances of one mile. Twenty per cent of these stones have been removed or destroyed. The western portion, owing to the great difficulty at that time in the region traversed by the line, was marked by wooden posts, cut on the spot and secured in place by mounds of earth or stone piled around them.

These posts have disappeared, but some of the mounds remain. Many have been despoiled by cultivation of the ground. It is believed though that enough of them can be recovered to enable the relocation of the boundary with precision.

The legislature of 1899 appropriated $7,000 to reset and repair the boundary monuments, and one year ago the Maryland legislature appropriated $5,000 for the same purpose. Dr. W .C. Clark of Baltimore is co-operating with Secretary of Internal Affairs Latta in directing the work.—Philadelphia North American.

A NEW ADULTERANT

HAS BEEN DISCOVERED BY DAIRY INSPECTORS.

Viscogen is a late milk adulterant discovered by the inspectors of the state dairy and food department. For some time the department kept getting samples of milk apparently far above the legal standard, which on being tested were found to be below standard.

By a shrewd piece of detective work the reason was discovered, and a sample of viscogen obtained.

The stuff is a syrup composed of sugar, lime and water, about the color of water, and is used chiefly to make the milk appear richer than it really is. When a quantity of viscogen is placed in the milk or cream, the lactic acid turns the lime in the fluid into a rich, thick substance, which, assimilated with the milk, gives it an appearance and taste of great richness.

It is possible through its use to palm off upon customers milk and cream which by its appearance would not be known to be far below standard.

While viscogen is not deleterious to health, the practice is fraudulent, and will be stopped by the dairy and food department. Viscogen is so little known that the practice among dairymen is very limited, but those using it will be promptly taken care of by the inspectors.

LOOKING FOR PEARLS

BUTTON INDUSTRY INPERILLED BY THE PEARL FAD.

The Missouri river pearl industry has reached such proportions that it is feared the button business will be injured owing to the fact that the clam shell gatherers who supplied the manufacturers with button material have turned their attention to the more lucrative, but, perhaps, more uncertain business of hunting for clam pearls, says the Minneapolis Journal. J. B. Hudson, of Minneapolis, has quite a collection of these pearls, in all shapes and hues. Odd shapes are the reigning fad now, says Mr. Hudson, and pearls are ultra fashionable. The collection just mentioned does not contain pearls of much higher value than $30, while some of the river pearls which have been taken from the beds near Prairie du Chien have been appraised at $30,000. The baroques, or odd shaped pearls, if all clear and perfect like the oriental pearls which come from India, would be of immense value. They are of varied hues, the most beautiful found in the world—pink, copper and blue, of all shades. The pearls, however, cannot be dressed, and are used exactly as they are found.

The principal river pearl beds extend from La Crosse to Prairie du Chien. A new bed has just been discovered at Langdon, Wis.

TWO MEN KILLED

BY DYNAMITE EXPLOSION CAUSED BY HEAT.

Denver, Col., July 12.—A dynamite magazine near the Grant smelter exploded yesterday. Two men were killed and several hurt. Those killed were Domenclo Muto and Tony West. They were in the magazine getting a supply of dynamite for blasting. They were blown to pieces and the fragments of their bodies strewn over the prairie for hundreds of yards. The explosion is believed to have been caused by the terrific heat.

A NOVEL RACE.

New York, July 12.—An international sailing race half way round the world will start from this city the first week in August. The racing ships are the Acme and the Brilliant. The Acme was built in Maine and flies the stars and stripes. The Brilliant was launched a few months ago at Glasgow. The vessels are the latest additions to the big sailing fleet of the Standard Oil company. They are loading at Bayonne, N. J., for Yokohama, Japan, and their sailing dates are almost identical. The two ships will follow the same course, reaching Yokohama by way of the China sea. It is natural that there should be a race under the circumstances.

The officials of the companies proposed it a few days ago and found the captains more than willing. The Acme has never sailed the voyage before. She registered 2,987 tons, has four masts, 36 sails and carries a crew of 33 men.

The Brilliant was launched in April and made a fast voyage across the Atlantic. She is somewhat larger than the Acme. She registers 3,600 tons. She is fitted to carry water ballast.

For nervousness and sleeplessness try Lincoln's Hop and Celery Nerve Tablets. 25c per box.

ALMOST INCREDIBLE

CHICAGO MAN LOSES MOST OF HIS NECK AND STILL LIVES.

Chicago, July 13.—Although his head is almost torn from his body, Joseph Burdick is still alive, furnishing, it is said, one of the most remarkable cases known to the physicians. Burdick's head hangs by a mere shred, having been all but taken off by a huge piece of metal which fell across his neck by the overturning of a flat car. The trachea and larynx were completely torn away, and the unfortunate man was taken to the hospital, presumably to die. By some fortune his neck was not broken, nor were the jugular vein and carotid artery injured, although both were fully exposed where the flesh had been torn away. At the hospital Burdick was promptly operated upon and equipped with a device for breathing which projects from the throat just above the collar bone.

Dr. I. Clark Gary, in speaking of the case, said:

"Hunt, a medical authority, cites only 27 cases of a character that even approach this, and none of them approaches in the completeness of the work of destruction. It is safe to assume that the injured man will live and he will be confronted by a peculiar condition. He will never be able to utter a word, not even groan. He will have to acquire the means of communication used by mutes, and to do this he will have to start in and learn at the bottom, just as a child has to."

NEW CATTLE DISEASE

IS HIGHLY CONTAGIOUS AND AFFECTS MEN ALSO.

Hemorrhagic septicaemia is the name of a new disease that the state board of health has discovered to be afflicting cattle in Minnesota, says the St. Paul Dispatch. Translated into more simple English, it is blood poisoning accompanied with hemorrhage.

Its cause is the bacillus bovisepticus.

It is highly contagious and affects men as well as beasts.

Drs. S. D. Brimhall and L. B. Wilson are the authors of a voluminous report of 64 cases examined in different parts of Minnesota.

They were due to outbreaks in eight places during the past year.

In practically all cases the result is death.

In none of the Minnesota cases was a human being affected, but Dr. Brimhall said that the disease had made quite a record among men in Ireland.

BIG RUSH FOR LANDS

100,000 PERSONS EXPECTED TO APPLY FOR HOMES.

Wichita, Kan., July 13.—Ten thousand persons have registered at El Reno and Lawton registration booths since yesterday noon. W. A. Richards, assistant land commissioner, says they can be registered hereafter at the rate of eight to ten thousand per day. If this rate does not prove fast enough, he will put on more clerks. Every train into El Reno is loaded and the trains of wagons, five to fifteen miles long, are wending across the plains into the Lawton land office. Wichita is the central point for boomers from the east and six special trains loaded with them left yesterday for the new country. Commissioner Richards said yesterday that he thought 100,000 persons would try for land.

CHINCH BUGS IN WISCONSIN

TWENTY FIVE BUSHELS WHEAT BEING CUT FOR HAY.

New Richmond, Wis., July 13.—The chinch bugs are becoming more evident every day. Vague rumors of their inroads have been in circulation for some time, and are now resolving themselves into definite and tangible reports. The bugs have shown up in rye and wheat on the county asylum farm northwest of the city and also to the south. The Cedar Lake district towns of St. Joseph and Try also report damages.

In the town of Hudson, wheat that promised not less than 25 bushels per acre is being cut for hay. Near North Wisconsin Junction farmers are plowing up the outside margins of their corn fields to head off the bugs that have sucked the wheat and oat fields dry. In Somerset town, where the soil is lighter, fully one-third of the farmers report chinch bugs at work.

NEW LOGGING ROAD

THE WALKER & AKELEY SPRINT OUT FOR SHEVLIN.

The new Walker & Akeley logging road will connect with the Great Northern at a point near Shevlin and will run thence south and west to the shores of Itasca lake. The main line will be 22 miles in length, and 10 miles of branches. A passenger coach will be operated and doubtless will be patronized quite freely by settlers, tourists and hunters.

SUCCESSFUL FLYER

BALLOON DRIVEN BY MOTOR IS EASILY HANDLED.

Paris, July 13.—M. Sontos-Dumont's cigar shaped balloon, driven by a motor, has a trial Friday from St. Cloud across Paris, around the Eiffel tower and back to St. Cloud. The papers say the trip was quite successful and that the balloon ascended and descended apparently at the will of the aeronant.

M. Santos-Dumont says he first sailed five times around the Longchamps race course, then around the Bois de Boulogne, and then around the Eiffel tower.

He adds that one of the ropes of the rudder broke and he had a narrow escape from colliding with the tower, so he descended to the garden of the Trocadero to have the damage repaired, and afterwards again around the tower and returned to St. Cloud. Tomorrow he will make an official attempt to win the prize of 100,000 francs offered by Henry Duetsch for a manageable balloon, in the presence of a committee of the Aero club, which includes Prince Roland Bonaparte, M. Duetsch and others. The aeronaut will start at 6 o'clock in the morning and go over the same course.

TOO HOT FOR APPLES

IOWA CROP HAS BEEN BADLY DAMAGED.

Fort Dodge, Ia., July 13.—The apple crop in Iowa has been severely damaged by the hot winds and severe heat of the past few days. The early apples have felt the effect of the scorching wind and have fallen from the trees. The Haviland orchard of 160 acres, the largest in this part of the state, has been badly damaged, and a crop of Duchess apples, which would ordinarily have amounted to 1,000 barrels, has almost fallen, and Mr. Haviland is a heavy loser. His loss is estimated at fully $3,000, if not more.

Others farmers living in this vicinity have suffered proportionately, and it is understood that the crop all over the state has been severely damaged. Only a change in the weather will save it from total destruction.

FROG EXPLODED

CAUSED ONE DEATH, AND TWO ARE INJURED.

Albany, Mo., July 12.—An accident in which three children, a pet frog and some dynamite figured here yesterday resulted in one death, two persons seriously injured and part of a dwelling demolished. Three children of George McCurry, a prominent contractor, found some dynamite in the cellar of their home, and thinking it was putty, fed it to their pet frog. The pieces of dynamite resembled insects and the frog ate them. A large tool chest fell on the frog and exploded the dynamite which had been eaten. A chisel pierced the temple of the youngest child and killed him. Another child and Mrs. McCurry in the kitchen above were seriously hurt and that part of the house was wrecked.

MULES FOR SOUTH AFRICA

BIG PURCHASES BEING MADE AT GOOD PRICES.

Memphis, Tenn., July 13— The movement of mules from the south and middle west to South Africa for the British government continues. Yesterday 75 carloads of mules passed through Memphis. They were en route from St. Louis, Kansas City and points in this section to New Orleans.

The purchase of mules by British agents has gone far beyond the 100,000 mark, and the end is not in sight. They are buying the smaller sizes, paying about $100 a head. The shipment of horses is light, as experience has been that the mules are better adapted to South African campaigning, and the appearance of Charbon, the agent, will run the prices up, as many plantation owners will be forced to use this inferior grade of animals.

WILL ASSESS THEM

DIVORCE COLONY MUST PAY ITS SHARE OF TAXES.

Sioux Falls, S. D., July 15.—An innovation by the city assessor this year was the listing of the personal property of a dozen or more persons who are here for the purpose of procuring divorces. The temporary residents do not object, but in fact favor the plan, for it enables them to prove their bona fide residence here. They range in personal assessments from $100 to $500.

Of the latter amount, Fred Gebhard and Frank C. Clark, two prominent members of the divorce colony, are among those who have moneys and credits here that cause them to be assessed. This plan will likely be a popular one in the future, and the city will be that much better off on its annual assessments. The total assessed valuation of the city this year is $2,409,744, an increase of $223,074 over last year.

CANARY BAROMETERS.

Baltimore Sun: "I have heard of all sorts of barometers, or weather signs but I know of no more reliable weather prophets than my birds," said a Baltimore lady who owns several canaries. "I can almost tell when it is going to rain by the distinctness with which I can hear the trains at night, but the birds are even more reliable than that. If I hear them singing in the morning early, before I take the covers of their cages off, I know that the day will be a good one, no matter if it is raining at the moment, but if they do not sing I am sure there will be bad weather before the day is over. I have never known them to fail, and I never think of going shopping or calling unless the birds sing in the early morning. That is why I never get caught in the rain, as many of my friends do. That poor weather bureau man who makes so many mistakes in his prophecies ought by all means get himself some canaries."

A Helping Hand . . . .

Good advertising is essential to the success of every business. It is as much of a helping hand as good salesmen and good merchandise.

But don't waste good money on poor advertising. An ad. in the

DAILY JOURNAL OR
POLK COUNTY JOURNAL

is the best of good advertising, because it reaches thousands of people all over the northwest. It goes into the home where there is leisure and the inclination to read it. It carries weight, as we publish no fake advertising. It brings the best results to advertisers.

The Journal.

Weekly Reports From the Journal's Corps of News Gatherers.

ST. HILAIRE.

Judge Knight was up from Red Lake Falls Saturday.

The Mission Friends are holding a series of meetings here this week.

Rev. Lundberg, of Crookston, is here attending the Mission Friend's meeting.

The editors of the county were in session Saturday last, looking after their "combine."

Coroner Blair was up from Red Lake Falls Saturday to hold an inquest over the remains of Sigval Gjerde.

W. A. Case came down from Turtle River and other points, where he had been organizing Woodmen camps, on Monday last.

Miss McCafferty, who has been visiting with her parents here for the past three weeks, will return to her duties as nurse in St. Joseph's hospital at St. Paul, this week.

Sigval Gjerde, a young man 21 years of age, was drowned in the river here while in bathing Friday night last. His home was near Angus, but he had been employed in the saw mill as a sweeper since last spring. His brother arrived Saturday to take charge of the remains, returning with them Saturday evening.

ELDRED.

Mrs. Bahnsen returned from a visit to Crookston on Tuesday evening.

Mr. Freeman, with the La Crosse Plow company spent Monday in town.

Christ Koppang returned to his home near Portland, N. D., the first of the week.

Mr. Claussen of Halstad is placing a tin roof on E. G. Monson's new building.

A veritable one-horse show struck town on Tuesday—counting the mosquitos, they certainly had a full house.

The R. N. A. camp will give an ice cream social on Saturday evening, the 20th. There will be a literary and musical entertainment in connection. The invitation is general.

Members of the creamery association met on Tuesday last to discuss the advisability of importing dairy stock. We are pleased to report that they resolved to have a car load shipped in at once. They are also in correspondence with Prof. T. L. Heacker, of the state dairy school, and hope to secure him for a lecture here in a short time. The selection of these cows will be made under the Professor's superintendence.

Why don't some one open their eyes to the possibilities of Eldred? Do you know that if you wish an opening in some business venture, that this place will give you as good a location as any other? An investment here is safe and paying and the future will prove it so. We have an opening for a bank, a larger and better equipped hotel, a meat shop, a harness shop; we are also able to support a drug store. Then there are several institutions that would quickly follow these.

MAPLEBAY.

H. O. Wik and W. Tatro were Fertile callers Monday.

P. B. Hunter made a business trip to Fertile Wednesday.

Olaf Messelt and Richard Ness of Fertile spent Monday here.

Miss Marie Nelson has gone to Euclid to visit friends for a week.

Mrs. H. A. Bakken and family are spending this week visiting relatives in Woodside.

A large number of pleasure seekers spent Sunday at the Bay, and took a trip on the new steamer.

Mm. Tatro has purchased a fine Bristol organ from P. B. Hunter, and will hereafter have music for his guests.

Bert Teal, F. W. Hutchinson and Emil Vonderbeck and families returned to their homes in Euclid after a week's outing here.

CLIMAX.

Andrew O. Stortroen is laid up with a very sore hand.

H. Samuelson has moved his family into town to live.

Mr. and Mrs. O. T. Strom of Shelly visited in Climax on Tuesday.

Mr. and Mrs. Andrew Steenerson went to Crookston on Tuesday.

The crop prospects in this locality are excellent, especially for wheat.

O. Martinesco has now opened up his restaurant in H. Samuelson's saloon.

Dr. Johnson reports a new boy at Carl Olson's. All parties concerned are doing well.

Rev. Dyke preached to a large audience at the Congregational church on Sunday evening.

Agent Stalcup and family of Shelly spent a part of Sunday in town, the guests of K. O. Ostby.

Rev. H. I. Villesvik of Ironwood, Mich., our former pastor, arrived last Tuesday for a few day's visit.

J. B. Myers left last Monday for a visit to Alberta, Canada, where he has bought some valuable farm land.

J. B. Mesner recived a car load of state prison twine Wednesday, and is telling that the famous Percy Baker made it all.

E. J. Eide now has charge of the postoffice and is the deputy postmaster. The drug store is located in the old postoffice store.

This week Climax has been treated to two entertainments, both claiming to be of high order, and they received patronage above their deserts.

ADA.

The Patersons visited with the Fultons at Beltrami Sunday.

Lewis Hintz spent a few days last week in St. Cloud on business.

The Ada Cadet band is preparing for a social dance on Friday evening.

Bennie Myran played ball with the Gary team Sunday against the Fertile nine.

Sunday the thermometer registered 103 in the shade—the warmest of the year.

Miss Birdie Phund returned Saturday evening from a visit with friends at Walker, Minn.

Mrs Elmer Kulander left Saturday night for a visit with relatives at Winnipeg Junction.

Roy Ahlers intends to start a store at Rolette, and will move up there as soon as he gets his building completed.

Miss Hannah Moffatt returned from Twin Valley Tuesday and intends to start in the millinery business here in the fall.

G. L. Thorpe returned from Iowa Thursday morning, where he spent a few weeks connecting pleasure with business.

Gust Gorden, who has accepted a position with C. R. Andrews & Co., arrived Sunday morning from Minneapolis, where he has been connected with the Plymouth Clothing Co.

The young ladies enjoyed a lively time at Lewis Phund's place Wednesday night, when they dedicated his new barn with a social hop. About twenty-five couples from town enjoyed the fun.

A game of ball was played here Sunday afternoon between Ada and Green Meadow, which resulted in a victory for the former by 22 to 2. Green Meadow had once upon a time the strongest nine in this county, but is now behind the times.

GARY.

Miss Sara Iverson visited Twin Valley friends Saturday.

Dr. Gronvold and Editor Rishoff were Ada visitors Saturday.

Lars Bjerkness of Faith was observed on our streets Tuesday.

Mrs. B. Iverson of Faith visited with her daughters Sara and Alma Sunday.

Mr. and Mrs. Phund and their daughter Bird of Ada visited with Mr. and Mrs. Jones Sunday.

J. Sletten, P. E. Schulstad and H. A. Tupperud drove across to Ada last Friday, returning next day.

J. C. Sletten went up to Red Lake Falls Wednesday morning to visit a few days with his daughter, Mrs. Todd.

Miss Pladson came up from Twin Valley on Saturday evening to spend Sunday with her brother, Mayor Pladsen.

Miss Minie Sletten returned from Moorhead Saturday morning and is now spending a few days with the Iverson sisters.

The Fertile nine came down to play the local nine last Sunday. The game was rather one-sided the score being 23 to 5 in favor of the locals.

Ed Witasek of Faith, who had the misfortune to break his leg, and was taken to Bethesda hospital six weeks ago, returned Saturday evening and now able to move about on crutches.

KNUTE.

Miss Hilda Dale is the hired man for O. H. Dale.

A. Jorgenson is hauling lumber from McIntosh every day.

Mrs. P. Mork is in McIntosh under the care of Dr. Neraal.

Nels Quist and wife visited with friends in town of Badger last Sunday.

Alfred and Oscar Quist were in the town of Badger on a picnic a week ago Sunday.

Ashel Jorgenson and Peter Sater are intending to go to Dakota to work in the harvest fields.

Nels Quist and wife went to Lengby a week ago last Saturday and visited with friends, returning Tuesday.

It has been time for haying a long while out here, but some farmers can not get on to their meadows on account of water standing on their fields. I it keeps on raining the farmers around her won't get their fields down with a mower.

DONALDSON.

Everybody was in swimming Sunday before going to church.

The Wicks and Carter families went out east berrying Wednesday.

Joe Scribner and Iver Halvorson came up from Crookston Wednesday.

F. C. Taft is entertaining some of his friends and relatives from his home.

Axel Miller has been down on his farm for the last few days building a house.

K. J. Lind went east Wednesday to purchase an Indian pony, but came back with no pony.

T. C. Hickey is hiring help right and left, so as to get his new dwelling house in shape to live in.

C. G. Johnson has moved his house about 100 feet further south, there being a more convenient place.

K. L. Olson, living about 16 miles east of here, died last Friday, after being confined to his bed for two months.

Everybody is complaining about the mosquitoes. The old settlers here say they have never seen them so bad in twenty-four years.

Wm. Kilfoyl had a horse chased by mosquitoes so he ran into a barb wire fence and cut himself so badly that he bled to death.

Some of the Donaldson folks went to Fred Dagen's and others to John Dammond's Saturday evening, where they enjoyed a pleasant little hop at both places.

BIRKHOLZ.

J. W. Northrop has the best looking oats in the country. They are "immense."

Miss Mortenson is staying with Mrs. Adolph Johnson, a few miles north of this place, for a few weeks.

The surveyors are at work on the route for the big ditch. We hope it will go north of this town; we don't want it here.

Sister Hilda, of the Deaconess hospital at Grand Forks, was a pleasant caller here on Saturday.

There are four new cases of smallpox at A. Austell's, across the Red river from here. The patients on this side are getting better.

While driving near this place, Chas. Kavanaugh's horse dropped dead in the road. It was a fine animal and it is thought was overcome with the heat.

Peter Hedlund, who has been in Washington for the past two or three years, returned to his parents home here last week. His many friends gave him the "glad hand" on his return.

WARREN.

The farmers are just beginning to make hay.

The roads are just beginning to get in shape so people can do some much needed hauling.

Warren has been quite dry since the flood the Fourth; no rain to speak of up to the present time.

Last Saturday night there was an entertainment at the Presbyterian church, entitled, "Who Killed Joe's Baby," which was quite well attended.

Next Tuesday Warren is going to celebrate and will have all kinds of races and amusements with a grand display of fireworks at night, and wind up with a ball at the opera house.

Last Saturday was the hottest day we have had this summer, and thermometers marked from 98 to 102 in the shade, and 128 to 132 in the sun. Quite a number of persons were very nearly overcome with the heat.

M. L. Hutton, the Methodist minister, is going to leave this charge, we understand, to take a beter paying appointment. So we suppose Warren will have to do without a minister until Conference meets in the fall.

Arrangements were then made for a race between Spot and Sutton which occurred Tuesday. The race was for the best three in five heats, but it was one-sided and Sutton won the first three with the greatest ease. The last heat was made in 2:31½. Before the race there were some offerings of two to one on Spot and the parties feel a little sore now.

The Kid base ball nine of Warren went to Argyle last Saturday to play with the Kids of that place. The result was 5 to 3 in favor of Argyle. It is reported that they played a good game. We overheard some of the kid players of Warren talking after they came back, and they said they expected to play the kids of Argyle, but they said some of the Argyle kid players were so large that they supported full grown mustaches. It seems quite natural, however, for the side that gets beat to have something to kick about, and even the big Nine of Warren kicked about two weeks ago because the boys of Hallock beat them.

Last Thursday was a day of horse racing here at Warren and quite an interest was taken in the sportin gelass. Everything went on smoothly until the last race, which was free for all classes. In this race, three horses were entered: Spot the Wisconsin horse owned by Mr. Woodward, of the Woodward farm, and driven by John Kenon; Dickey Boy of Grand Forks, and Sutton, owned by Mr. Strawser of Argyle and driven by Al Shaw. At the second heat some little dissatisfaction arose and Mr. Kenon took Spot off the track and would not let him run the last heat, consequently Dickey Boy got first and Sutton second money.

LENGBY.

Many of the farmers are busy harvesting hay nowadays.

Grain of all kinds looks very nice in this vicinity and farmers are expecting a good crop.

An immense lot of blueberries have been coming in to the traders of our little town lately, brought by Indians from the Big Bend.

Carl and Julius Frederickson left for Larimore, N. D., Monday, where they intend to get work at harvesting and threshing.

Mr. and Mrs. C. J. Lillo and sons, and their relations who lately came over here from Rochester, drove over to Red Lake and spent a few days visiting with the Lillos, of Lillo postoffice. They returned on Sunday evening.

Alfred and Conrad Lofgren, of Rice Lake, were visiting with schoolmates here the past week. They left for their home Monday.

A. J. Saterstrom is building a brick dwelling house.

The brickyard crew is getting another kiln ready for burning.

Miss Julia and A. and G. Lillo and Misses Amanda Johnson and Mary Anderson were picking blueberries at Long lake, near Ebro, Tuesday.

The marriage of Miss Evaline Louise Lillo to O. N. J. Hagen, of Crookston, occurred in the Synod church at Lengby July 10 at 3 o'clock p. m. Supper was served in the evening for a large number of their friends at the home of the bride's parents, Mr. and Mrs. C. J. Lillo, and many beautiful presents were given to the bride and groom. The evening was spent very delightfully by all, and we join with their large circle of friends in wishing the newly married couple a very happy journey through life.

FOUND UNDER A CHURCH

Thief Hoped to get Ransom for Records

During last Sunday night the court house in Roseau county was entered and nine books of record were stolen. The discovery of one of them that had been dropped during the flight of the burglar gave a clue to the guilty party, that has been followed with the result that the others were unearthed yesterday.

Soon after the theft, suspicion pointed to a man named Louis Norman, who bears an unsavory character, and who was indicted four years ago, together with two brothers, for the murder of a neighbor in that county. Norman showed great interest in the case, suggested that if a large reward was offered he thought the books could be located. He was arrested, placed in the "sweat box," and finally acknowledged that he was guilty of the theft, and that the books were hidden under the steps of the two churches of the village, which proved to be true.

He said that he needed money and that he thought that be would be paid a ransom if he told where the books were, and given immunity from punishment.

MURDERER CAUGHT

Man who Killed the Stranger Whose Body was Found a Week Ago.

GRASSER OF VALLEY CITY

Was Arrested Sunday and Confesses Having Committed the Crime.

Pearl Grasser of Valley City was arrested Sunday charged with the murder of a stranger, whose body was found in the river near the Soo crossing, north of Valley City a week ago. Grasser has confessed his guilt and says tha the and another man bought a team of horses from the stranger for $100 and then shot the man to get the $100 back.

Grasser is known at Valley City, Sanborn and Jamestown as a tough character, and served a term in the county jail at the latter place.

It has not been made known as yet who the other guilty party is, though the authorities are on the trail.

The body had been in the water about a month, and life must have been extinct when it was thrown in. It is not known whether the tragedy occurred at or near the place where the body was found. It may have floated down during the high water. It is known, however, that it was in the vicinity for several days, for John A. Cole, who discovered the body, testified to having seen the same thing at the same place on the Fourth, but that it was not so much exposed, and he took it to be a sheep or other animal.

Plow Exhibition

The plow exhibition was held, as advertised, at Climax, Minn., by the Janesville Machine Co. A test was made between a 14 inch Janesville gang and a 16 inch walking plow. Following is the committee report:

	Gang	Walker.
Width of furrow, in.	27.90	14.50
Depth of furrow, in.	4.52	5.19
Number of square inches turned ..	..142.95	65.54
Average draft, lbs. ..	700.	575.
Number of pounds to turn each inch	4.81	8.75
Number of draft pounds to turn same furrow as turned by gang..	700.	1280.
Percentage of draft doing same work	56	100

Land very heavy and wet, taking more than usual draft.

OLE. F. BRUN,
OLE ENGEN,
AUG. LINDBLAD,
Committee.

What do you think of this draft in this sized furrow? Don't you see how one man can pull it? It runs light, even in hard soil. Strongest. Best on stony land. We guarantee it to scour in any land. See this gang.

B. B. Larson & Co., Agents, Halstad.
Smith & Lanager, Agents, Climax.
Collins & Graver, Agts., Crookston.

Public Notice

Notice is hereby given that the firm of Steenerson & Lanager has dissolved partnership, E. B. Lanager, having sold his interest in the hardware and machine business to John Steenerson and Hans Roholt, as Steenerson & Roholt, his successors. All resources and liabilities are assumed by the new firm.

Dissolved June 19, 1901.
Steenerson & Lanager.

LEAGUERS ROBBED

Gangs of Pickpockets at Colorado Springs Operating

Glenwood Springs, Col., July 17.—The thoroughly organized gangs of pickpockets operating at Colorada Springs are responsible for a party of about twenty Epworth Leaguers becoming stranded here. Men and women alike have been robbed, not only of every cent they had with them, but of railroad tickets as well and unless the railroads will issue tickets back home on their proof of having purchased rides to San Francisco and back they will be compelled to ask aid from the county authorities. In at least ten instances, thieves even secured their victim's trunk on the stolen baggage checks.

Sorely Need Help

Muscatine, Ia., July 17.—Farmers in this vicinity are compelled to see their crops stand in the field much beyond the proper time for lack of hands. As high as $2 per day is being paid, or, rather, offered, but does not bring the desired help. Almost all the surplus labor in this vicinity is employed on the island by the melon and sweet potato growers, which makes it all the more difficult for the farmers to find men to work in the harvest field.

A Brutal Son

Sioux City, Ia., July 17.—Threatened with tar and feathers or hanging, Harrison Martin of Sioux City yesterday fled from home. He knocked his aged father, who is 90 years old, down when the latter failed to get his pension money. The report of brutality reached the ears of the neighbors, and a small mob formed to lynch the son. Desperate efforts of older men prevented this. Martin has not been captured yet.

FINGERS REMODELED

To Increase their Efficiency in Playing Violin.

Quakerstown, Pa., July 17.—In order to reach the goal of his ambition—to be a violinist of the first order—Herbert Saylor has submitted to a most peculiar and painful surgical operation, having had a piece of flesh remove from the tip of each finger. During the healing period there will be from four to six stitches in each finger.

Many physicians believe the operation will destroy the sensitive feeling of the tips of the fingers, but young Saylor thoroughly believes that it will be of great benefit in his work. He is gifted as a musician, having studied under this country's best tutors.

DARKENED BY BUGS

Ohio Town had Visitation Sunday Night

Zanesville was almost entirely in darkness as a result of the visitation of June bugs in countless numbers on Sunday night. Electric light globes were filled and the lights completely smothered by the ashes of burned bugs. The hotel offices were infested with such swarms that it was necessary to close the doors, notwithstanding the intense heat. In several instances church services were interfered with. The river bridges were almost impassable to pedestrians. The atmosphere about the lights was filled with clouds of live insects and floors were covered to the depth to a depth of several inches.

How To Keep Cool

It is easy enough to keep cool if you skip the hot wave stories in the papers and turn your thoughts to other things. After glancing through the columns of the Record, published in Frost, Faribault county, yesterday, we read about ice interfering with navigation off the coast of Labrador, then took up the details of Friday's snow storm down in New Jersey, noted the story from Burlington, Iowa, about frozen rain bigger than hen's eggs falling in that vicinity, and were then delighted to ascertain from the enterprising advertising department of the Northern Pacific road that the thermometer averaged 66 degrees only out in Yellowstone Park. There's everything in the atmosphere with which to fill up your think tank.—Minneapolis Tribune.

Spontaneous Combustion

Ruthven, Ia., July 17.—By spontaneous combustion the hay fields on prairie lands northeast of this place caught fire, causing considerable damage and no end of excitement to the farmers. Alex Ruthven lost about 25 tins of hay, but other damages were light. Crops are in bad shape, only .21 rainfall since July 1. Highest temperature last week was 101, lowest 93.

The Lumber Situation

Duluth Herald: Men with lumber to sell smile when asked about the situation, and it looks as if the lumber bulls had the market well under their control, in Duluth at least. Prices are very strong, particularly in Norway, which is selling at from $11.50 to $12—which is an advance of about $1.50 per thousand feet over last year's price. One prominent dealer said that the local situation was never better at this time of year in the history of Duluth.

Our Grocery Department.

We wish to call your attention to some of the good things we handle exclusively in this department.

Griggs-Cooper Electric Roasted Coffee.

This coffee is absolutely the finest on the market, and this process of roasting brings out the flavor as does no other.

15c to 40c per lb.

Home Brand Salmon.

The finest Columbia River Salmon, canned with the greatest care. In order to introduce the brand we will offer it for one week only at

20c a pound

Domestic Sardines.

Warranted first class. This week

5c a can.

Gentilly Cheese.

A supply of this justly celebrated premium cheese is

Always on Hand.

Uncle Josh Maple Syrup.

This is not left over from last year, but is this spring's product of the Vermont woods and the best on the market.

L. I. BENOIT,
Department Store.

DOCTORS

say "Consumption can be cured." Nature alone won't do it. It needs help. Doctors say

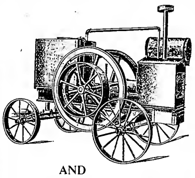
"Scott's Emulsion

is the best help." But you must continue its use even in hot weather.

If you have not tried it, send for free sample.
SCOTT & BOWNE, Chemists,
409-415 Pearl Street, New York.
50c. and $1.00; all druggist.

Gasoline Threshing Rigs

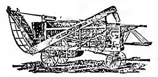
A Strong Combination!



The Flour City Gasoline Engine

AND

The... DIXIE SEPARATOR.



The Simplest and Most Economical Machine on the Market.

We claim absolute separation for the Dixie.
Not a kernel of wheat goes into the straw pile.
No need of a fanning mill after using this machine.
Wheat threshed by the Dixie brought a cent more per bushel the past season, at the elevators, on account of its clean condition.
It can't be equaled for fast work and is a whirlwind for threshing flax.
The Dixie is no experiment. Thirty years of continual use among the small farmers of eastern states has established a wonderful reputation for this machine.

TREASURY SHORT

Disclosure of the Condition of Treasury of District 181 Apparently Accounts for

UNEXPLAINED ABSENCE

Of the Custodian of its Funds--- Amount Shortage not Yet Absolutely Known

The reason for the disappearance of Fred Behlmer, which occurred last week, seems to have now come to light. The Journal was in possession of the facts in regard to the disappearance, but forbore to mention them out of a sincere regard for the parties most immediately interested, and in the hope that something might transpire that would clear up the mystery connected with it, in a way that would clear Mr. Behlmer from any charge of wrong doing.

It now comes to light, however, that Mr. Behlmer was treasurer of school district No. 181, which position he had held for several years past, and that the condition of the funds on hand is such as to furnish a probable explanation of his going away without announcing his intentions to his family or other friends.

It appears that at the annual school meeting in July, 1900, the treasurer's statement which was rendered showed a balance of $544.52, which amount was evidently supposed to be on hand and available in payment of orders.

During the year following, three different settlements with him as district treasurer were made by the county treasurer, the payments made aggregating $351.16, which would make a total amount of $895.68 to be accounted for.

Whether or not there were at that time (July, 1900) any outstanding orders which have since been paid is not positively known, but apparently there were none. Assuming such to be the case, thirteen orders on the treasury have since been issued, amounting in all to $398.40, which, if they had all been paid, would seem to indicate a balance of $497.28 on hand.

But the last two orders appear not to have been paid. One for $45 is in the hands of A. Chabot, having been cashed by him as an accommodation to the payee, and the other one for $20 was drawn to be used for a library remittance, which has not been forwarded.

Mr. Behlmer appears not to have kept any bank deposit of the district's funds, and it is not known how he handled them.

It is very uncertain that the balance shown in July, 1900, was actually on hand at that time, as there was then no deposit in any of the banks, which would indicate it.

The clerk of the district, W. S. Rattray, and the director, Mr. Billodeau, are engaged in looking the matter up.

Mr. Behlmer's bond bears the signatures of DeForest Bucklen and Carl Reidesel, and of course will furnish ample indemnity to the district, and the loss will fall on the gentlemen named.

The unfortunate disappearance of Mr. Behlmer and the disclosure of the shortage in his accounts as above stated furnish a startling surprise to the entire community, as up to this time there has never been a shadow of a suspicion against reputation or character. He has possessed the full confidence of the entire community during his long residence here and the case is one which draws upon the sympathy of all his acquaintances, both for himself and for his family, the latter of whom will still retain the confidence of their friends in this time of their distress.

No definite word has been received from Mr. Behlmer since his departure, but there are good reasons for the belief that he has gone to the northwestern territory via. St. Vincent.

HAS AN ASSISTANT

C. D. Ramsdell will Relieve Supt. Sheffield of a part of the Work

Mr. C. D. Ramsdell arrived Tuesday morning and was shown over the territory on the Fosston, Ada and St. Hilaire lines by Supt. Sheffield of the St. Anthony & Dakota Elevator company.

Mr. Ramsdell will assume the management of a portion of the elevators in this part of the state, particularly those on the lines named and will begin his work at once. He is an experienced man in the handling of wheat and is thoroughly qualified to take charge of the work assigned to him.

He will locate here and his family will join him as soon as he can secure a house.

BAD MONEY CIRCULATES

$2,000,000 of Unauthorized Bills in Circulation

Washington, July 23.—Chief Wilkie, of the secret service, has received a number of bank notes printed from the original plates used by the State Bank of New Brunswick, N. J. over 50 years ago.

The bank went out of existence some time in the fifties, and it was supposed that the steel plates from which its notes were printed were destroyed.

It seems, however, that these plates have fallen into the hands of parties who have printed from them large quantities of notes, which have been put into circulation from New York to San Francisco.

A very large percentage of the notes so far discovered are two dollars, although some ones and fives are being sent in.

Inasmuch as the notes are not counterfeits of any United States notes or obligations, the makers and passers cannot be prosecuted or punished under the United States laws, but it is understood they can be prosecuted for fraud under the state laws.

The takers think they are the notes of the Canadian Bank of New Brunswick, the words "New Jersey" being printed in small letters.

The notes are printed on bond paper and are quite as good in every way as the originals. It is possible that $2.000.000 of these notes are in circulation.

SWITCHMAN CUT IN TWO

In Minneapolis Monday Morning While Coupling Cars

While attempting to make a coupling at 19th avenue south and Bluff street, in Minneapolis, Monday morning Harry Purchase, a switchman, who had been in the employ of the Great Western company about a year, stumbled and fell and was cut in two by the wheels of an oil tank car.

The trunk of the body was left on one side of the road and the legs on the other for nearly an hour until Coroner Williams could be secured, after which they were removed to the morgue.

Purchase was 28 years old and lived at 1021 Washington avenue south. Witnesses to the tragedy say that no one was to blame but the victim, and that his foot caught in some unexplained manner and he was drawn under the truck and crushed to death before anything could be done to stop the momentum of the cars.

MRS. KRUGER DEAD

Her Death may have an Effect Toward Shortening Boer War

Pretoria, July 23.—Mrs. Kruger, the wife of former President Kruger of the South African Republic, died Sunday afternoon of pneumonia, after an illness of three days. She was 97 years old.

Mrs. Kruger's long separation from her husband, combined with the death of her favorite daughter last week, had completely broken her spirit.

London, July 23.—The death of Mrs. Kruger is expected to have influence in shortening the war. Mr. Kruger himself has been reported to be exceeding despondent over the military operations and the correspondence between Reitz an Steyn has justified his discouragement.

His domestic bereavement may cause him to lose heart for continuing a hopeless struggle.

LAST NIGHT'S STORM

Thunder and Lightning Galore but no Hail

This portion of the valley was swept by a thunder storm Monday. It was very severe in places, and did considerable damage. Southern Marshall county was visited early in the evening, and the storm reached as far south as Euclid. Red Lake Falls was so busy with lightning at 9 o'clock in the evening that the telephone line would not work, but no damage is reported. At McIntosh an elevator was set ablaze, but it was extinguished. South of the city and in southwestern Polk county there was also a hard storm, and the elevator at Eldred was destroyed. So far as learned there was no hail over any of the territory covered.

Doctor of Optics

Fred Lanctot, of Ada, has received his diploma as doctor of optics. He passed an excellent examination and received a personal letter from the president of the South Bend College of Optics complimenting him on the success of his efforts.

Uncle Jo's Column

I was readin about a man down in Pennsylvania the other day, that was elected alderman,and he started in and tried to do the best he could at it. But he soon got disgusted tryin to do what was right and he resigned and backed out of his job. He said in order to serve his constituents in a manner that would satisfy 'em he found he had to stifle his conscience and go in with the cliques and dishonest schemes and be a low politician. And if that was really true I don't blame him for backing out. But I just believe there's right where the difficulty in politics is. If a good honest man that's bound to do the right thing as he sees it every time, gets into politics the other fellows make it a special point to try and get him tangled with their schemes. And he gets so lonesome tryin to do right that it ain't long before he begins to yield his principles, and pretty soon he gets into the mud as deep as they are in the mire.

* * *

And then there's another fact that makes him lonesome. He don't get the moral support and encouragement from the people that he ought to have when he does an honest, brave act. That's one place where I think the christian men and christian women, too, are to blame. They don't stand up for their principles and stand together and be unanimous as the other fellows do. If a man in some public position takes an honest, manly stand against some wrong, the fellows on the other side wake up right away and make him feel the weight of their indignation and opposition so strong that if the folks that are supposed to be in sympathy with him dont' rally round him and let him know they sympathize with him he gets awful lonesome for a little encouragement. There ain't no man livin but what needs the encouragement of his friends and appreciates it, too, if he gets it when he's stood up and done the right thing in the midst of strong opposition. And it's right there where christian people ought to stand together but they don't do it.

* * *

That's the reason some of the newspapers don't make more of an effort to improve the morals of the community than they do. Uncle Joe hain't lived seventy-five years in the world without noticin some of these things. And I'll just bet one of Betsy's nice big doughnuts that if one of these newspapers would come out flatfooted for good morals, and insist on having everything that was wrong put away and the officers of the city live right up to their oaths they took to enforce the laws, and start off on that line in good earnest, there wouldn't be a baker's dozen out of all the christian people in the city that would line up in commending the editor and give him to understand that they was right with him, and would stand by him. Some of 'em might give him a little pat on the back and say "good for you old man, go ahead." But they wouldn't put themselves out to give that paper all the news they could before they gave it to the other paper, and they wouldn't take any special pains to give him their job work if the other paper cut the price down below a livin margin, just purpose to catch a job from him.

* * *

There's enough christian units in this city or people who call themselves christians to back up a paper in taking a strong stand for good morals, and the enforcement of the laws. And it is their own fault if it ain't done. When politicians want to carry any special measure, they get together and make their plans, and stand by each other till they carry their point.But the christian people don't do that. They just content theirselves to hold their individual opinions and stand apart in their ideas about getting at things like a lot of icicles. One of 'em has an idea one thing is more important and another one thinks another thing is the most important. One says we ought to get at it this way, and another says we must do it that way. And meantime the Devil is keeping right along sawing wood,and holding his followers in line and in hand ready to combine their forces in fighting any move that morally inclined people may possibly succeed in agreeing on. And in that way he has the advantage of 'em and always will have as long as they work things the way they are doin now.

UNCLE JOE.

NIPPED A SPARK

Thief Swipes Diamond While Shooing Mosquitoes

Monday morning a nicely dressed young man called at Hall Bros.' music store in Fargo to look at some instruments and engaged N. W. Hall in conversation. While talking the gentlemen were bothered some by mosquitoes, and the nice young man deftly brushed a few from Mr. Hall's shoulder and breast. After the young fellow left the store Mr. Hall noticed that a diamond, weighing one and a half carets, was gone from its setting. Then he remembered how accommodating the young fellow had been in keeping the mosquitoes off him. An examination of the setting in Mr. Hall's shirt front would indicate that the fellow used a very sharp instrument in doing his work, as the setting was scratched badly and his shirt cut.

TROUBLE UP NORTH

The Ruction in Northern Beltrami County hard to get at

The riot at the crossing of the Rainy river has not been heard from yet, and the extent of the trouble is not known.

Beaudette is at the mouth of Beaudette river in Beltrami county, at the crossing of the Rainy river by the Canadian Northern railway.

Dan Hyland is the master of ceremonies at the new town, having bossed construction on the railway at that point. A lot of blind piggers are reported to have settled there, in serene confidence that their distance from the county seat, and the temporary character of their residence, would insure them against prosecution. Sheriff Bailey and County Attorney Street left for their far-away pet on Friday, but were somewhat discouraged on arrival at Winnipeg by missing train connections and having to stop over Sunday. As their presence at Beaudette had been widely demanded by Supt. Ramsey of the American Bridge company, who is in charge of the work of construction on the new railway bridge at that point, they were surprised to find that Canadian Northern officials knew nothing of the trouble at Beaudette, and only after opening up communication by wire could they ascertain what the matter was. After talking over the wire for a while the officials concluded that Ramsey had become engaged in a private quarrel with somebody, and had become alarmed over the possibility of being compelled to kill his man. The road volunteered to take the sheriff and attorney out to Beaudette by train Sunday evening, and they accepted the offer.

A PHANTOM CIRCUIT

Enables Three Persons to Talk over two Wires at the same Time

A practical test of a new device in applied electricity was made Tuesday which will, if it does what this test seems to prove that it will do, increase the company's revenue by one-third without necessitating any outlay for stringing more wires. It is called a phantom circuit, and it enables three persons to carry on conversation over two wires, each independently of the other. The device was originally tested in the Minneapolis office, but the first test over long distance wires was made between Grand Forks and Fargo today.

With the two regular circuits in use Crookston was cut in onto the Fargo line at Grand Forks by a separate induction coil connected with both wires. A part of the current was carried over each wire to Fargo, where a receiver connected with another induction coil caught up the divided circuit, enabling an operator to talk to Crookston, although both regular lines were in use. The test was perfectly successful and is considered one of the most important discoveries in electricity as applied to telephone systems in recent years.

One of the new "Phantom Circuits" will be put in between Crookston and Grand Forks if the one now in use continues to do as effective work as it did in today's trial.

HAIL LOSS

Reported from the Town of Nesbit Today

Ferdinand Ross, a prominent farmer who resides in the township of Nesbit, came in Tuesday and notified Marin & Webster of the ravages of hail in his crop of wheat. The trouble occurred during the storm Monday, and as a result 140 acres of Mr. Ross' elegant oat crop sustained a damage of 50 per cent. It was insured at the rate of $4 per acre under a hail clause in the St. Paul Fire & Marine company, for which Attorney Marin is agent.

Mr. Ross says the damage seemed to be purely local, and that the remainder of his crop is not damaged materially, nor are those of his neighbors.

GRASS LAND.
Grass on the ne¼, section 86-148-48 (Vineland) for sale, 85 cents per acre. and also for sale; make me an offer. I have also 80 acres of grass land in King township, the n½ of ne quarter, section 32-148-41, which I will sell for 25 cents an acre.
M. O. SORTEDAHL,
Red Lake Falls, Minn.

TWO ELEVATORS

Get Hot at Being Struck by Lightning---One at Eldred Burns.

MCINTOSH FIRE COMPANY

Does Commendable Work Stopping a Blaze at That Place.

McIntosh, Minn., July 23.—(Special.)—Lightning struck the elevator owned by the Minneapolis & Northern company at this place during the night, and set the building on fire. The department responded promptly to the fire alarm, and did excellent work in controlling the blaze. The building was considerably damaged but it is not a total loss, thanks to the efficiency of the fire boys, who worked faithfully until 4 a. m. to extinguish the blaze.

ANOTHER AT ELDRED.

Eldred, July 23.—(Special.)—The wheat house of the Northwestern Elevator company at this place was struck by lightning last night and was burned to the ground. The building was not open at this time of year, and so there is no loss of grain. The loss on building is $2,000.

NARROW ESCAPE

Traction Engine Drops 20 Feet Through Bridge

Last Saturday Frank Jeaner of Grand Forks, an engineer in the employ of the Geiser Manufacturing Co., had one of the narowest escapes from death on record. It appears that Mr. Jenner was taking a large traction engine out into the country for a farmer and while crossing a bridge over the Wild Rice river, about two miles west of Christian, the bridge broke down, allowing the engine to go through into the creek about twenty feet below. The engine turned wrong side up and the dome of the boiler is embedded in the mud. Mr. Jener was knocked senseless having been on the engine when it went through the bridge, but when he regained consciousness found that he was in only about six inches of water. His face was badly scarred and his lip cut but aside from other bruises about the body of a light character he was not injured. He was alone with the engine and was almost over the bridge when the last stringer broke, allowing the machine to drop into the river.

A SULTRY STORY

Shipment of Eggs from Wis. Town Hatched at Winona

Winona, Minn., July 24.—All hot weather stories were discounted by one developed here yesterday at the warehouse of the Northwestern Egg company. A shipment of eggs from Butternut, Minn., was being unpacked, when Manager Schoonmaker heard a faint noise. Investigation showed one egg chipped and the head of a chick peeping through the opening. This case was sorted and ten eggs nearly ready to hatch picked out. They were covered with a large cloth and placed in the sun and by noon half of them had hatched, showing they must have been in a temperature of over 90 degrees for nearly three weeks.

LARGEST CATTLE SHOW

in the World will be Seen by State Fair Visitors this Year

This year's display of Shorthorn, Hereford and other strains of fine cattle at the state fair promises to be of incalcuable value in introducing fine stock into the Northwest. As a result of last year's exhibition of the American Hereford Cattle Breeder's association at the fair, Secretary Randall says there are now thirty breeders of this stock where a year ago there were three. The claim is made that his year's exhibition will be the largest cattle show in the world.

One very effective way of advertising the fair has been found in the use of a line printed or stamped on the envelope sent out by the business men of the Twin Cities. Secretary Randall, of the fair, has aranged with a printing house in each city to call for the envelopes of any business house.

These will be printed with a line across the bottom corner, giving the date of the fair, and will then be returned to the firm.

Another place is to supply the business houses with rubber stamps for their envelopes and letterheads. Fully 150 of these stamps are now in use in Minneapolis, and every envelope that leaves many of the concerns bears the date of the fair on the corner.

The encouragement which the business men of Minneapolis are giving the fair management is most satisfactory. This year's exhibition will have all the educational advantages of the former years and will also be of national importance.

The fact that the opening will be in charge of Vice President Roosevelt, and the character of the national live stock exhibit which will be maintained, will make the exposition a subject of talk throughout the country.—Minneapolis Journal.

HAD NARROW ESCAPE

Charles Lindquist Rescued from Watery Grave in Nick of Time

Ortonville, Minn., July 24.—An accident Monday came near being fatal to Charles Lindquist, ticket agent of the Queen of the Lake. The boat was returning with an excursion party from Foster and when within about a mile of the Ortonville dock, Mr. Lindquist fell overboard. The accident was not noticed by any one on the boat and it passed along for about half a mile, when the captain was signaled from Simpson's park by the waving of handkerchiefs. Captain Wein soon discovered that Lindquist was missing and backed up, reaching him just in the nick of time to save him from drowning.

APPROPRIATE OCCUPATION

Cole and Jim will sell Tombstones and Gather Bouquets

Stillwater, Minn., July 24.—The first occupation of the noted bandits, Thomas Coleman Younger and James Harden Younger, after 25 years in the Minnesota state prison, will be selling grave stones and monuments. Yesterday Warden Henry Wolfer made a written contract with P. N. Peterson, a resident of Stillwater, who has a monument and granite work son Fifth street, St. Paul, and in this city. By its terms the Youngers are to be traveling salesmen for the P. N. Peterson Granite works, within the state of Minnesota, for one year. Each is to receive a salary of $60 per month, in addition to all traveling expenses and board. The Youngers will make their headquarters in St. Paul. They enter upon their duties today.

The contracts provide that neither of the men are to be used for advertising purposes. They are not to be permitted to act as agents at any state our county fair or public gathering of any character. The Youngers are satisfied with the places given them. They will travel about the state considerably, but part of their time will be spent at the works in St. Paul.

Mr. Peterson says he has four other traveling salesmen and needs two more, and thinks the Youngers will be adapted to the positions. They will solicit business in St. Paul and Minneapolis as well as other parts of the state.

A STRIKE ON

Fifty Men Demand Increased Wages at Grand Forks

The first chapter in the labor question for this season, the difficulties of which have been predicted for some weeks past, occurred in this city yesterday, when the crew of fifty men which had been at work for the Northwestern Telephone company on the underground conduits that are being constructed in this city, stuck their shovels in the bottom of the ditch and demanded an advance of 25 cents per day in wages. They had been hired the day before by Superintendent Dwyer, who has the work in charge, but after working one day demanded an increase, which was refused, and the entire force with the exception of a few men walked out of the ditch and claim they will stick for the big show. They were getting $1.75 per day which is considered very good wages for this season of the year, under ordinary circumstances, but his year promises to be very different from several years past.—Grand Forks Herald.

New Offices Occupied

Messrs. Stair & Steberg have their new offices in the building on the corner of Main and Second street completed, and they moved in Monday. They now have an excellent location on the ground floor and are at home to their friends, business or social, at all times. The front portion of the building will be occupied by the Wheeler Land & Loan company, and the location is the best in the city.

'TWAS A BIG DAY

The Euclid Woodmen Proved Themselves to be Royal Entertainers.

THEIR PROGRAM RENDERED

And an Afternoon Filled With Excellent Features in the Way of Sports

For a good time go to Euclid. That's the concensus of opinion rendered by the Crookston contingent that went to that place last Thursday to enjoy the Woodmen picnic.

The event is the annual gala day in the history of the good people who live in and about that village, and when the time comes to hold it every man, woman and child enters into the spirit of the affair with a zest that insures success.

This year the elements frowned upon them and the day originally set for the celebration was marked by a severe storm. They had incurred considerable expense and were not to be thwarted in their intention of having a good time and of entertaining their neighbors, so carried out the original program at a later date.

A large crowd gathered and the earlier portion of the day was given up to exercises in the hall, a commodious structure owned by the Woodmen. This consisted of addresses and music, the principal speech being delivered by Rev. C. B. Latimer, once a Euclidite, now a resident of Wheaton.

After this a parade drill was given by the Royal Neighbors of the Euclid lodge, that showed great proficiency, and that everyone enjoyed.

Then came dinner. It was a basket affair and the good things furnished supplied the wants of the inner man.

The afternoon was spent witnessing the games and sports scheduled. The judges of these were J. M. Palmer of Angus, C. E. Misner and A. H. Pitkin of this city.

A half mile running race for horses was the first on the bill and was won by Walker's "Pat," a broncho that was once the property of J. N. Kirsch of this city. Other entries were Nancy, owned by D. H. Miller, and Marion, the property of Mr. Campion.

The log rolling contest furnished no end of fun. Mallory, Angus, Crookston and Euclid furnished teams, Angus winning in 7½ seconds, the distance being 16 feet and return.

A hurdle race in which each young man took eight hurdles in addition to getting over the course in swift time was contested by King, Perkins, Evans, Bain, Misner and Casemy, and was won by Bain.

In the potato race, Evans was the only lad to get a dozen Murphies in the box and was declared the winner.

The contestants in a quarter mile bicycle race concluded in the following order: Bain first, Kohler second, and Brandt third.

Euclid lost the tug of war to Angus, the latter team being chosen from those present from Mallory, Crookston and other points.

A game of base ball closed the day's festivities, and was not completed when the train left. It was between Angus and Euclid, and was won by the latter, score 11 to 10.

The evening opened and the morning closed with a dance that was attended by a large number, and everyone present had fun.

A NEW PAPER

Marshall County News Born at Rollis

The little steamboat Maud went up the Thief River last Thursday, the cargo consisting principally of a printing outfit and John E. Havel, who will be the editor and business manager of the Eastern Marshall County News. The paper will be published at Rollis and will be devoted to the upbuilding of eastern Marshall county. Editor Havel is one of the brightest newspaper men in this section of the state, and will be sure to prove a power for good in the moulding of public opinion and advancing the interests of that section. Thanks to the hustling abilities of A.J.Rollis, the paper starts out with a fair sized circulation and will be valuable as an advertising medium.—Thief River News.

INDIAN STUDENTS

Return to White Earth After Three Years' Schooling

Nine of the younger generation of Aborigines who were bred in teepees on the White Earth reservation passed through Crookston on Monday enroute to their parents, whom they have not seen for three years.

They were in charge of the superintendent, Mr. W. H. Johnson of the Morris Indian school, where they have been receiving board, clothing and instruction at the expense of the government. There were five girls and four boys, and they ranged in age from 9 to 17 years.

Speaking to a Journal representative, Supt. Johnson said that the boys and girls would leave the railway at Fosston and Ebro. They have spent three years with him, which is the limit allowed by the government at any one school. There is no compulsion in the matter of their future attendance at any of the government schools, but they will be urged by the representatives of the other schools to take up the work elsewhere and complete their education, as that is desirable.

The superintendent in charge of the party said that while the mental caliber of the mixed bloods was superior to that of the full bloods, and increased in proportion to the amount of white blood present, they were also more difficult to control than the full bloods, and gave far more trouble. The attendance at Morris is now 160.

HAS $400,000 TO LOAN

State Investment Commission Placing State Funds

The state investment commission, consisting of the governor, the treasurer and the auditor, met in the governor's office on Saturday to consider the investment of money in the investment funds. State Treasurer Block made a statement to the board that there is $476,223.45 in the permanent state funds ready for investment. The money is distributed as follows: Permanent school fund, $342,240.22; permanent university fund, $52,698.74; internal improvement land fund, $49,538.31; state tuition fund, $3,174.18.

The board will not invest more than $400,000, of which $100,000 was put into Utah state bonds. This money comes from the permanent school fund.

The board also authorized the following loans for school purposes:

St. Louis county, district No. 27, $10,000; Crow Wing, district No. 68, $500; No. 31, $350; Morrison, No. 2, $400; No. 14, $1,000; Todd county, No. 133, $600; Redwood, No. 103, $1,380; Clay county, No. 104, $700; No. 105, $400; Aitkin county, No. 42, $800; Benton county, No. 46, $500; Chisago county, No. 17, $300; Meeker county, No. 70, $1,000; Mille Lacs county, No. 14, $225; No. 25, $1,000; Morrison, No. 84, $1,000; Yellow Medicine, No. 15, $2,750; No. 92, $800; Stearns, No. 191, $600

INSTALL A MINISTER

Argyle to Have a new one of the Presbyterian Denomination

A meeting of the Red River Presbytery is in session at the Presbyterian church at Argyle today.

At this meeting the Rev. D. K. Grant will be ordained to the gospel ministry and inducted into the charges of Stephen and Argyle. It is expected that on this occasion Rev. F. W. Fraser, of Crookston, will preach the sermon, Rev. C. Mackibben of East Grand Forks will charge the pastor and Rev. Gilbert L. Wilson, of Moorhead, will charge the people.

Does this Coat fit You?

An exchange contains the following, which is worthy of some consideration by all newspaper readers. We will allow each one to determine for himself how near the coat fits him. "If your neighbor is caught doing some dirty act, you want him exposed by the newspaper, and if it is not done then you say the paper is afraid to show him up, its editor has no back bone, and that the sheet should not be patronized; but on the other hand if you are the man who was caught in the mean act, then the paper should not mention it, and if it does, its editor is nosing into things that are none of his business."

Merrill's Egg Preserver

G. E. Merrill, of Fisher, has for several years been experimenting upon an egg preserver and now believes he has it as near perfect as can be. Last year he preserved twenty-three hundred dozen eggs and during the winter found a ready sale for them and did not lose an egg. Up to the present time this year he has pickled over six thousand dozen eggs ready for the coming winter's trade, and is not through yet.

Want Crookston Musicians

Bandmaster Riggs has been besieged with correspondence from the managers of the Hallock fair and the Winnipeg exposition asking upon what terms and under what conditions he would consent to take his aggregation of musicians to those points at the time their attractions are being held. The matter has not been settled, but it is more than likely that the boys will arrange to attend one or both of the meetings.

Opened the Bids

J. E. Morrissey was the lowest bidder on the contract for the heating plant to be installed in connection with the new banking building that will be erected in Thief River Falls. The fortunate bidder on the work of the construction was Mr. Johnson of Red Lake Falls. The contract was held open a week to admit of some changes in the plans.

A POOR MILLIONAIRE.

Lately starved in London because he could not digest his food. Early use of Dr. King's New Life Pills would have saved him. They strengthen the stomach, aid digestion, improve appetite. Price 25c. Money back if not satisfied. Sold by A. G. Anderson, druggist.

DRAINAGE WORK

The State Board Decides to Expend the First Year's Allowance.

IN UPPER PART OF VALLEY

Engineer Ralph Directed to Look Over the Ground and Report Cost of Work Outlined.

Geo. A. Ralph, engineer in charge of the state drainage that will be done under the appropriation made by the last legislature, returned Sunday from St. Paul, where he met the members of the state drainage board which outlined the work to be undertaken.

Mr. Ralph was instructed to survey and report on the ditches to be dug in the following townships: Township 150, range 38 east, Red Lake county; township 146, range 46-47, Norman county; township 156, range 44-45, Marshall county; township 162, range 41-42, Roseau county.

The surveyor was also ordered to estimate the cost of such ditches and to describe the land that will be benefited by their construction. He is also requested to ascertain if condemnation proceedings would be necessary to secure the right ofr way for the ditches. The board allows him $150 per month for services. The projected work is but a small part of that asked for by the counties interested. These counties have not been backward in pressing their claims, and Red Lake county alone asks for as much as $10,000 of the entire appropriation of $25,000.

The members of the drainage board are anxious to divide the appropriation as fairly and justly as possible among the counties which have state lands to be benefited; but as the law requires the finishing of all ditches undertaken, they have commenced very modestly. Secretary of State Hansen says that the money will be applied this year only in localities where there is most need and the greatest good can be accomplished. Mr. Ralph was instructed to make all haste in his work and to report to the commission at the earliest possible date. He will go out into the eastern part of Polk county tomorrow and investigate the conditions of Lost River, where the work is greatly needed.

Station at Kragness

The members of the Minnesota state railroad and warehouse commission visitedKragness and after looking over the ground and investigating the conditions decided to recommend the building of a station at that point. The commissioners are agreed that the Great Northern should build the station and arrange to have it kept open a reasonable time before the arrival of trains; also that an agent be in charge of the [illegible] during the time when the crop is moving during the fall and early winter months.

College is Prosperous

O. O. Christianson returned last evening from Grand Forks, where he attended a meeting of the directors of the Grand Forks college. A number of improvements to the building were decided upon, and will be made at once. It was also decided to build a small hospital during the summer for the benefit of the students. All preparations for the school year will have been completed long before the term opens, and a very large attendance is anticipated.

Adam Plats an Eden

Adam Zeh is platting a townsite at Plummer's, and will name the place Clearwater Falls. The townsite is located on the northwest quarter of section 17, on the west side of the Clearwater river. A dam is being constructed at that point which will furnish water power. Clearwater Falls is about 11 miles northeast of Red Lake Falls and about 14 miles southeast of St. Hilaire.—Red Lake Falls Gazette.

Death of Henry Wagner

The funeral of Henry Wagner, who died on Saturday at his home near Fisher, was held from the German Lutheran church in Lowell yesterday afternoon, and the interment ocurred at Oakdale. The cause of Mr. Wagner's death was a stroke of paralysis that is believed to be due to the excessive heat he suffered while about his farm duties. He was about 32 years of age, a man respected by all who knew him. He leaves a wife and three children.

SHE DIDN'T WEAR A MASK.

But her beauty was completely hidden by sores, blotches and pimples, till she used Bucklen's Arnica salve. THE SECOND DAY

The Temperature Was Sultry and the Races Were Also Hot Stuff

RIVERSIDE WON THE 30 RACE

Which Closed Yesterday's Events--Three Events This Afternoon.

The horsemen who were giving their animals gentle exercise at the race track this forenoon were of the opinion that if there was any merit in a hot day being favorable to bursts of speed, the track events for this afternoon would show some heats in record breaking time.

Yesterday's last race, the 2:25 class, resulted in a victory for Riverside, five heats being necessary to decide the question. Jessex was second and Solo third.

The program this afternoon included three events.

The free for all was won by A. R., in straight heats, Sagamont second, Greenleaf third and Solos fourth. Time, 2:20½, 2:21, 2:26.

As we go to press there is still one heat to be finished in each 2:40 class, and the gentlemen's roadsters' race.

In the former Delio finished first in two heats and third in one. Nesby was second in two and first in the third. Hal Black took third place in the first two heats and second in the third heat. Time ,2:34¼, 2:34½, 2:34¾.

The first heat in the local race was won by Queen Angus, Almont R. second, Billy Draco ,Okatara and W. R. B. finishing in the order named.

BONDS CAN'T ISSUE

East Grand Farks Hasn't Praperty Enough ta Secure Them

The hearing in the injunction proceedings by which it is sought to restrain the city of East Grand Forks from issuing bonds for the light and water plant was on before Judge Watts Saturday. The facts that an effort was made to bring the valuation of the property in that city up to $40,000 in order that bonds could be issued in an amount of $15,000, in addition to the $25,000 already issued, without exceeding the legal limit of ten per cent.

The raise was made by the county board, as requested by the citizens, and the matter went before the board of state equalization, which made a slight change in the value of bank stock, and sent it back. The county board, in order to correct a clerical error that appeared, reduced the value of acre property in the city, and when the paring process was completed the valuation stood at $377,000.

Judge Watts granted the temporary injunction restraining the issue of t bonds on the grounds that there is not taxablep roperty sufficient to warra it.

COUPLE OF SHOTS

Mlade the Paymaster Loosen up on Wages

Fergus Falls, Minn., July 20.—Frank Ryan was brought down from Park Rapids yesterday and lodged in the county jail to await the action of the grand jury on the charge of assault with a dangerous weapon.

Ryan claims that he accepted a position at a lumber camp several months ago, the lumber company agreeing to pay him $45 per month; that when he came to settle the paymaster took the ground that the agreement was that he was to receive $35 per month, and refused to give him more. He [illegible] secured a shotgun and went after the paymaster, who turned over the additional money after two discharges of the gun. Ryan claims that he only fired into the air, but the other party says that he shot at him.

STATE FAIR PROSPECTS

Arrangements Well Along and Success in Every Department Assured

Arrangements for the state fair are progressing very satisfactorily at the grounds. The work is well in hand and the workmen are sufficiently well along with it to give assurance of its completion on contract time.

The opening day program is nearly completed. Governors White of North Dakota, Herrled of South Dakota, Shaw of Iowa and Lafollette of Wisconsin have all accepted invitations to be present, and Gov. Van Sant and staff will also lend dignity to the occasion.

The prospect for a big opening day as an inauguration of the biggest fair to be held this year on the continent is exceedingly promising.

Eight o'clock Monday morning, Sept. 2, is the time set for the important event, and the new building will then be dedicated by the best display human effort can make.

The horticultural department is making extensive and careful preparations for the exhibits in that line and the prospect is good that it will excel any previous display.

Taken all in all, so far as human foresight can be relied on, it is certain that the coming state fair will be a humming success in each department.

EXTENDS ITS CHARTER

The First National Bank Forwards Papers ta Washingtan

Cashier J. W. Wheeler, of the First National bank, has forwarded to Washington the necessary papers asking the extension of the charter of that institution for a period of 20 years.

The bank was organized in 1881, the charter being dated Sept. 16. Since that time there have been few changes in the management, and but a comparatively small number in the board of directors. The first cashier was Ansel Bates, who was succeeded by Charles E. Sawyer, and he in turn by J. W. Wheeler, who five years ago assumed the management. Today it is the foremost financial institution in the valley in point of deposits on hand and general banking business transacted. The books show that within the past week its deposits have passed the half million mark, and there is not another bank in the northern half of the state outside of Duluth that has such an amount of the people's money in its vaults.

CONVENTION ADJOURNED

Good Results Accomplished--Next Meeting at Wahpetan N. D.

Fargo, N. D., July 19.—The Tri-State Drainage convention adjourned last night after a number of interesting speeches had been made. Speaker Dowling, of Minnesota, H. A. Maya, of Walhalla, ex-Congressman Spalding of North Dakota and other prominent men were among the speakers.

Resolutions were adopted reciting the necessity of some governmental action and petitioning congress for an appropriation for the work of draining the Red River valley and controlling the water supply at the sources to avoid disastrous floods in the future.

The proceedings were ordered published and on motion of A. E. Fenton of Amenia a resolution was adopted calling on township organizations on both sides of the river to contribute funds to assist in the proper presentation of the necessities of the case to congress.

The meeting resulted in a fuller and more definite understanding of the real conditions of the plans necessary to prevent the floods. The proposed movement has assumed a more tangible form, and has good hope of success.

The next meeting will be held at Wahpeton, N. D., not later than Oct. 15 of this year.

SILVER WEDDING

Anniversary of the Event Celebrated by Mr. and Mrs. Ammundsan

Sunday of the 25th anniversary of the marriage of Mr. and Mrs. John Amundson of Fairfax, and they decided that it was of too great importance for them to allow to pass without a celebration. Accordingly they summoned a hundred of their friends to their farm home, and made them more than welcome.

Dinner and supper were served and the well known hospitality of the host and hostess leaves no possibility of the thought that there was any desirable thing lacking in the way of refreshments.

During the afternoon a number of addresses were listened to, among the speakers being P. M. Ringdal, E. E. Lommen and K. O. Berget.

Mr. and Mrs. Amundson were married in Menominee, Wis.

WALKER LOOSENS UP

The Pine Baran Puts up $24,aao ta Beltrami Town

Tuesday last T. B. Walker paid into the county treasury the snug sum of $24,090, the total amount due for back taxes prior to 1900. He paid one half of his current tax, $8,000, some weeks ago and will pay the remainder in the fall. The sum of $40,000 dumped into the coffers of the county by Mr Walker is no small affair, and it will help very materially toward establishing the county's credit on a par basis.—Bemidji Pioneer

Overcome by Hent

The excessive heat of Friday was severe upon the stock, particularly on horses. Reports from the country indicate that a number of animals that were being worked were seriously affected by the heat. A farmer in the town of Russia had a team prostrated and the hired man temporarily overcome. Julius Wentzel, who farms west of the city, was compelled to replace one of his plow horses with a three year old colt, and the animal, a valuable one, died soon after being taken to the stable late in the afternoon.

RIOT IN PROGRESS

On North Border of the State--Beltrami County Authorities Called to Act

TROUBLE AT PORT HYLAND

Sheriff Bailey and Attorney Street go to the Front--May Call out Militia

Sheriff Bailey and Attorney Street of Bemidji passed through the city late yesterday en route to Port Hyland, on the northern border of Beltrami county, where they were called to administer the law. There is troub up there and plenty of it, but in just what form it has arisen is a matter of doubt.

Sheriff Bailey yesterday received a telegram from the American Bridge company, now engaged in the construction of the bridge across the Rainy river, at the mouth of the Beaudette river saying that it had been compelled to stop construction on account of the lawlessness of the people of the village of Beaudette. Acting under the direction of County Attorney Street, Sheriff Bailey wired back that the company would be afforded the fullest protection. Complaints have been made of late that several blind pigs were operating at Beaudette, and the sheriff made one trip up there to see if order could not be brought out of the chaos, but the distance is so great to the county seat at Bemidji that the expense of prosecution were deemed too great to warrant taking the prisoners there, as the county was at that time laboring under serious financial difficulties.

Attorney Street informed the Journal that on Thursday he received a message from Dan Hyland at the scene of the trouble asking the appointment of a certain man as justice of the peace and another as deputy sheriff. This it was impossible to do off-hand, as the question of securing bonds takes time. Mr. Street is satisfied that a riot has occurred there and says he will call on the national government to eject the lawless element from the land they are occupying if necessary to keep the peace.

WILL TRY SKIN GRAFTING

To Save a Young Girl From Deformity as a Result of Scalding

Kansas City, July 19.—In order that one of their number may be saved from permanent deformity, the young women of the Epworth League of the United States will be called upon to volunteer for a skin grafting operation. Miss Zola Harry of Hoopeston, Ill., was one of the victims of the Chicago & Alton wreck near Marshall, Mo., several days ago. Since that time she has been confined in a hospital in this city, her face, arms and hands having been terribly scalded. The flesh has begun to slough from her hands, and the physicians find that in order to prevent lifelong deformity it will be necessary to graft upon them the skin of other young women.

The operation will be performed about a week from now. Delegates to the International Epworth League convention at San Francisco will be returning to their homes at that time and it is expected that many of the young women will stop in Kansas City and offer themselves for the sacrifice. Miss Harry, her father and mother were victims of the wreck. The mother died in a hospital here and the father is still confined to his bed. Miss Harry is 15 years old, bright and attractive. It is expected that young women from her home town and other Illinois points will insist upon having skin used in the operation taken from their bodies.

Drawned at Bemidji

An employe of the Bemidji Lumber company was drowned while bathing in the lake at that place Friday. His name was L. H. Grier, and he leaves a wife and family. The accident was due to the intense heat and the fact that the bath was taken after a hearty meal.

Queen Angus Won

It required but two heats to decide the gentlemen's road race Friday, that was the closing event on the program. Queen Angus, Dan McKinnon's driving mare, was the winner in straight heats, with Joe Eckert's Almont R. a close second, Okatara and W. R. B. following in the order named.

Horses Scarce in Kansas

Central Kansas is complaining of a horse famine. The farmers have been too ready to sell their horses to English army purchasing agents, and now the farmers are compelled to pay from $125 to $140 for animals that a year and a half ago found no purchasers at $75.

Statistics showing the distribution of the agricultural exports of the United States for the half decade ending in 1900, lately prepared by the foreign market section of the agricultural department, indicates that there were a dozen countries in 1900 to each of which the United States exported over $10,000,000 of domestic farm produce. At the head of the list of our customers stood the United Kingdom with total purchases amounting to $408,000,000. This was the largest total of agricultural exports to any one country on record, with the exception of the extraordinary year 1898, when a total of $439,000,000 was attained. The exports to Germany, amounting to $134,000,000 worth, were in excess of any previously reported to that country, and showed an increase of nearly 100 per cent in the five years' period. The total exports of domestic farm produce to Cuba, Porto Rico, Hawaii and the Philippines had an aggregate value of over $20,000,000 in 1900 as compared with only $6,200,000 in 1896.

The news that the Bryanites of Ohio have organized a bolt, showing that a certain portion of the Democratic porty is still wedded to its discredited idols, calls renewed attention to the remarks of Representative Dick of Ohio, on the recent action of the convention there. Said he: "Mr. Bryan has a large and very loyal personal following in Ohio. You remember that he was thrown into the breach and stumped the state for McLean two years ago, who has no use for him now. Well, these followers of Bryan are not going to like the way in which he was treated. They will not be pleased when they read that Bryan's picture was trampled under foot. They will not be enthusiastic in their support of the Kilbourne ticket, for the success of the Democracy in Ohio this fall will mean the overthrow of the Bryan idol, and there are many Democrats who are not yet ready to see it dashed to the ground."

Mr. Dick has proven to be a very accurate prophet.

Red Lake county is to be congratulated upon resuming business on a cash basis. Like all new counties, it had to go in debt to begin housekeeping, and for a time its orders were below par. Its affairs have been judiciously managed, however, and the officers now make the announcement that they are ready to pay cash for what they get. The people of our sister county have prospered, their lands have increased in value, their management has been economical and their tax levy has been made large enough to wipe off the old score and leave them with a balance on hand. Its a good thing to have.

This is the kind of thing that happens in Philadelphia: A stranger in the city was called upon at his hotel by a young woman, who told him that she had seen him on the street, was pleased with his looks and would like to marry him. The stranger found her father, found out that she has in her own right $40,000, and married her. The whole romance from proposal to marriage occupied less than three days, and yet, says the Fargo Call, there are people who say that Philadelphia is slow.

A farmer in Missouri, who neither drinks ;swears or smokes, who cares not for travel or recreation of any sort, who doesn't read anything, and works 18 hours a day, owns 14 farms, from which he cleared over $100,000 last year by raising hogs alone. Take it all, in all, the man seems to be in a perfectly congenial occupation, and from year to year, as his wealth increases along with ignorance and narrowness, he will enjoy the society of hogs more and more.—Minneapolis Tribune.

The great need of opening up Lost River has caused a number of farmers on its course to subscribe liberally to a general fund to be used for this purpose. A few hundred dollars from the state would do much to help them and they hope to secure at least a slight assistance from this source at this time. There is no section of the country where $1,000 expended in drainage work would go further than in this opening of Lost River.—Red Lake Falls Gazette.

Montana farmers are improving their premises, their dwellings and outbuildings, doing better farming from year to year and increasing the acreage under tillage. Rarely, if ever before in the history of the state, has the promise for the whole rural people of the state been better than at the present time.

Five years ago many of the railroads of the country were in the hands of receivers. Today every railroad in the country is traffic taxed to its utmost resources. There will be nearly 10,000 miles of new track laid this year, against 1,600 in 1895, and the railroad employes will get $100,000,000 more than during the Gorman-Wilson tariff.

In an address delivered by United States Senator Dolliver before the assembly at Humboldt, Ia., Thursday, on "Lawmakers and Lawmaking at the National Capital," he said that out of 10,014 bills which were received by the different committees at the last session, only 1,000 saw daylight.

Justice Must Wear a Veil

President J. J. McCarthy made startling statements regarding the prevalence of bribery in American courts of justice in his address to the Iowa State Bar association at its annual meeting at Council Bluffs last Tuesday.

"Is it true," Mr. McCarthy said, "that perjury is committed in judicial rpoceedings? It will not do to credit all false statements to lack of memory, visionary exaggeration, inability to see and understand things correctly, white lies, imaginary delusious and such like.

"Where is there a lawyer who has not seen the guilty criminal pass out of the court room acquitted and set free because of perjured testimony? What one of us but has seen the rights of persons and property sacrificed and presumably under due form of law, but really and truly by the use of corrupt and false and sometimes purchased testimony.

"These are the things that beget distrust and disrespect for the courts and for verdicts and for our boasted forms of law. These are the things that produce anarchy, lynching, and invite a just contempt as well as lack of confidence in those tribunals called courts of justice. In short, the time has come when, in the words of another, Justice must wear a veil, not that she may be impartial, but that she may hide her face for shame.

"Some tell us that the crime is committed mostly in the police and petty courts, where, as a rule, the witnesses belong to the vicious classes. But the fact remains that it is committed in other courts and by men professing high station in society, church and state.

"Who can blame a poor outcast from society for false swearing when presumably reputable citizens do the same thing? Why do we spend time and money in prosecuting some poor tramp for stealing an overcoat to keep from freezing, when the wrecker of a bank, the taker of human life or the embezzler of thousands goes unwhipped of justice?"

"Why should a nation or state cry out against discriminations, trusts, combinations and 'watered' stocks when the very crime that makes them possible is passed unnoticed? Why does the press of the country write volumes on the constitution following the flag when the sanctity of an oath that gives the flag and the constitution their real significance is almost ignored?"

Crop Prospects

The wonderful power of the Red River valley crops to withstand adverse conditions when they occur, and to recuperate from an apparent condition of total failure almost simultaneously with the establishment of favoring influences, has again been demonstrated.

In past years there have been two or three instances when the drouth was protracted until it seemed as if the crops was entirely lost, but just in the nick of time a soaking rain fell, and within 48 hours thereafter the crops assumed an entirely different appearance, giving good promise of a fair yield, which was fulfilled at the time of harvest.

Similar results have been realized when the promise of a crop has been faint because of excessive rains, and a change to favoring conditions occurred.

At the present time existing conditions are mainly favorable, and the crops are responding beautifully. While it is true that in some spots where the water has been held in pools among the grain, the crop has suffered beyond the limit of possible restoration, yet in the main it is now making satisfactory showing, and the farmers are in general very hopeful. Wheat is of a healthy, vigorous color, and is pushing rapidly forward. Oats and barley give promise of an ordinary yield, and the same is true of flax in many instances, although this crop appears to be somewhat behind the others in point of promise in some respects.

There has been some instances of severe loss through the grasshopper ravages, but the hopper parasites made their appearance in time to arrest very general destruction.

A Wisconsin man struck by the fact that while labor saving machinery has come to the aid of men, the women on the farms are forced to do their housework the same as they did thirty years ago, suggests that co-operative steam laundries be built and the family wash sent to them to be returned cleaned, ironed and ready to wear. Now, really, this is not so much of a joke when given thought as would appear on the face of it. Why is not the scheme possible? Laundry machinery is not particularly expensive, no great capital would need to be tied up, and a few people would be able to wash a great many pieces in a short time, so that expense for labor would not be great.. The cost per year might be brought down almost to the point of the cost of soap, wear and tear of tubs, wringers and boilers in an ordinary family.—Farm, Stock and Home.

Dominating Influences

The most important question that can be asked of any person is, "What is his character?" Not "what is his reputation," but "what is his character?" The answer to this question reveals the answer to the question, in what direction is his influence in the world being exercised?

The Divine Creator has a purpose in the existence of every human being. There are no haphazzard incidents in the Divine plan concerning the world or humanity. As the race of man rises toward the destiny for which it was designed by its Creator, in that degree it is responding to the Divine purpose.

As the individual character is developed in the direction of the Divine purpose, and directs its influence toward carrying out the Divine plan in the lives of other individuals, to that extent is its possessor moving toward a final victory.

As in the case of the individual, so it is in the case of the community.

The community is but a collection of individuals. The real strength of the individual is in his character, and the real strength of the community is in the character of its citizens collectively. The character of a community is determined by the aggregate of the individual characters, and the direction of the dominating power of those individual characters. And the future hope of our community, and of our nation as well, depends upon the character it is developing in the boys and girls, the young men and the young women of today.

And hence no more important question confronts this community today than the one in relation to the direction of its moral influences. What is the condition of moral sentiment at present prevailing in our community? What influences are now dominant in shaping moral sentiment? What influences must become dominant to give to the citizenship of the future and to the community a sturdy integrity and rightness of character which will successfully meet the responsibilities that confront us?

What are we doing in the direction of caring for the morals of our boys and girls? Are we doing what we ought and what we can, to strengthen and encourage the forces that are operating in our midst toward developing in our boys and girls that which is best and noblest? We suggest that these questions ought to receive the personal consideration of every right minded citizen in our community.

More "Dead and Down" Trouble

It is announced that the United States and the Minnesota lumbermen who have been logging under the "dead and down" act are about to enter on a period of litigation which is likely to be prolonged and expensive. In cutting "dead and down" timber it is inevitable that more or less green trees should be included. It is alleged that the quantity is extraordinary this year and the interior department comes forward with a demand that the loggers shall pay $12 per thousand for this timber. The department declares this to be reasonable "for a trespass case." On the other hand the lumbermen protest that it is exorbitant and outrageous. As a result suits will be begun by the United States district attorney and the loggers announce their intention of fighting them to the bitter end.

There is one way and only one to put an end to this perpetually recurring trouble, waste and litigation over lumbering operations under the "dead and down" act. That is to put the provisions of the Nelson law in force, sell the Chippewa reservation timber, and open up the reservations to settlement. This should be done not later than next spring. Every year of delay is the cause of much expense and shameful injustice. If Congressman Page Morris should begin a crusade for this purpose and carry it to a successful conclusion, it would be the crowning achievement of his political career.—Duluth News-Tribune.

The Morris Sun thinks it is on the cards that Bob Dunn will be tendered a renomination, and there is no question but that if he would accept, he would be nominated by acclamation, and Charley Mitchell, of the Alexandria Post-News says:

"If the state can get Sam Iverson or Jacobson to take Auditor Dunn's place, it will be satisfied, but no man from either Duluth or Minneapolis should be elected auditor. Duluth is the home of the iron baron, Minneapolis of the lumber baron. It is against these two that the state's school funds have to be guarded. Even an honest man has his views tinctured, his opinions warped and his opinions in a large measure formed by his environment. Minnesota cannot afford to have either a Minneapolis or a Duluth auditor, and if those places hold the balance of power in the convention, Mr. Dunn should be and will be the nominee and the state would be in great good luck ar such a result."

Out of the fullness of the heart, Editor Boen's editorial column in the Fergus Globe speaks thusly:

"What a blessing it would be to hold down again a fat office, even though it was for one brief term of two years. And your petitioner will ever pray."

And again:

"If we do anything good for the community, the community looks on in silence and receives it; if we hurt or ignore the community, it rises in its might and crushes us."

The Rosean Times has begun its seventh year, and has upwards of 700 subscribers. Bro. Bell has labored faithfully to give the people up in the new country a good paper, and its readers have never opened the sheet without finding something to interest them and help along the progress of Rosean county and village.

PILE AND FISTULA CURE.

Sample treatment Red Cross Pile and Fistula Cure and book on piles sent free to any address. Rea Bros. & Co., Dept. X, Minneapolis, Minn.

Time for a Reform

Local attorneys agree entirely with President McCarthy, of the Iowa Bar association, when he say sthat the crime of perjury is rapidly increasing in the courts of the country, says the Minneapolis Journal.

In the course of an address delivered recently at Council Bluffs, Mr. McCarthy made a few sensational statements, contending among other things that 50 per cent of the testimony in average criminal cases is rank perjury and that the proportion is 75 per cent in divorce cases. Mr. McCarthy suggests that one reason for this can be found in the fact that the administering of the oath is too carelessly performed and the oath itself held in too little esteem. He advocated the abolition of the official oath and the substitution of the judicial oath, which the judge himself should administer with all possible solemnity.

"For me, I quite agree with Mr. McCarthy," said John W. Arctander, when asked his opinion upon the subject. "I venture to say that in nearly all the cases which have come before the local courts for many years past perjury has been a feature. People do not seem to realize the seriousness of the oath and it is beyond question a fact that our oath is altogether too common.

"It would be a sensible change, I believe, to adopt the custom of Sweden in this particular. There the witness gives his testimony; it is taken down in writing and then handed to him to read. After he has made whatever corrections he desires, he is sworn by the judge and is warned of the nature of the obligation he assumes."

Frank D. Larrabee said: "If Mr. McCarthy had said that 99 per cent of all the testimony offered before the courts of today was false he would have struck much nearer the truth. Things have reached the point where people seem to prefer the false when the true would do just as well."

Another illustration of the prevalence of perjury is furnished by the many titles to government lands which are being secured under the homestead laws by persons living in the cities.

Postal Reforms

Last week Postmaster General Smith signed orders amending three postal regulations affecting second class mail matter. The changes will effect sweeping and radical reforms in the department practices and methods of treating this class of matter. The first order is in these words:

"Periodical publications, herein referred to, are held not to include those having the characteristic of books, but only such as consist of current news or miscellaneous literary matter or both (not excluding advertising) and conform to the statutory characteristics of second class matter."

The second order amends section 281 in several particulars. The essential paragraph is as follows:

"The subscription price must be shown by the publication, and when it appears from the contents or from the extrinsic inducements offered in combination with it, that the circulation of the publication is not founded on its value as a news or literary journal and that subscriptions are not made because of such value, but because its offers of merchandise or other consideration result, in effect, in its circulation at apparently a nominal rate, such publication does not come within the requirements of the law for acceptance as second class matter."

The third order amends section 301, so that unsold copies of second class publications may not be returned at the pound rate to news agents or to publishers. An explanatory statement, given out at the department regarding the order, says:

"The action of Postmaster General Smith is regarded as highly important. It is evidence of the department to administer the law as it is, strictly and properly, and that abuses wherever found will be eradicated. Loose and indifferent interpretation heretofore, is responsible for the loss of many millions to the government. It is believed that when the effect of these changes is thoroughly established, many postal improvements will follow and later 1-cent postage will be made possible."

Of Interest to Threshermen

As the season of the year for moving around of the traction engine is not far distant, it will be well for the owners of threshing rigs to remember that the laws in Minnesota governing them are strict. According their own provisions, the whistle of a traction engine must not be blown on any street or highway within 500 feet of any team passing thereon. Also such traction engine while being moved along such street or highway must be stopped at least 100 feet before meeting any horse or team of horses traveling thereon, and not be started again until such horse or team has passed the engine. A willful violation of the above provisions is punishable, upon conviction, by a fine not exceeding $100 or by imprisonment in the county jail not exceeding 90 days. A disregard of the above law also renders liable for all the damages caused by such disregard. The owner of any traction engine, who neglects to furnish plank to protect any bridge or culvert upon the highway when crossing the same with a traction engine, will pay one half of the expense of replacing or repairing such bridge or culvert, provided that the cost does not exceed $50.—Independent.

AFTER THE STILLS

Moonshiners District in Tenn. Receiving Special Attention of Revenue Officials.

PEOPLE FAVOR MOONSHINERS

And Serious Fights are Likely to Occur---Both Sides are Determined.

Nashville, Tenn., July 23.—Reports from Monterey, Tenn., Sunday, near which place an international revenue raiding party was ambushed by the "moonshiners," Saturday morning, say excitement in that district is at a high pitch. People generally side with the moonshiners and Collector Bell deemed it advisable to take his posse to Cookeville to await the reinforcements which left here yesterday morning. Every deputy collector and deputy marshal in the district has been summoned to join in the raid which is contemplated.

The moonshiners have boasted that they will not be taken alive, and as they are well armed and fortified in the mountains, a serious conflict is expected.

LAND FOR SALE.

All of sections 23-25 and 29, 156-46, for sale with small payment down, balance on 5, 10 or 20 years' time. Low rate of interest. Address B. A. Plummer, Forest City, Iowa.

Notice of Application for Liquor License.

STATE OF MINNESOTA, }
County of Polk } ss.
City of Crookston. }

Notice is hereby given, that application has been made in writing to the Common Council of said City of Crookston and filed in my office, praying for license to sell Intoxicating Liquors for the term commencing on August 16th, 1901, and terminating on August 16th 1902, by the following person, and at the following place, as stated in said application, to—wit:

Donnl McKinnon, on the ground floor of room designated by street No 117, Fronting on 2nd Street, in brick building known as the "Rickett Block." City of Crookston, Polk Co., Minn.

For the term commencing on August 26th 1901, and terminating on August 25th 1902, by the following person, and at the following place, as stated in said application to—wit:

Theodore A. Tharaldson, first floor of brick building, situate 50 feet distant of West line of Broadway, on Lot 17, in Block 5, Fletcher & Houston Add to city of Crookston, fronting on Second Street known as "The white Front." St. No. 105.

For the term commencing on August 28th 1901, and terminating on August 27th 1902, by the following person, and at the following place, as stated in said application, to-wit:

Medara Merell, store room, ground floor, fronting on Main Street, in building known as the "Opera House Block." situate on Lot 5, Block 6, Fletcher & Houston Add to City of Crookston, Minn., St. No. 115.

Said applications will be heard and determined by said Common Council of the City of Crookston, at the Regular Meeting in the City Hall in said City of Crookston, in Polk County, and State of Minnesota, on Tuesday the 13th day of August, A. D. 1901, at 7:45 o'clock P. M., of that day.

Witness my hand and seal of said City this 24th day of July, A. D. 1901.

W. A. LANCTOT
City Clerk.

MORTGAGE FORECLOSURE SALE

Default has been made in the payment of the sum of three hundred seventy-seven and 46-100 dollars ($377.46) which is claimed to be due and is due at the date of this notice upon a certain mortgage, duly executed and delivered by John F. Lindgren, an unmarried man, Mortgagor, to Franklin Edgerton, Mortgagee, bearing date the 18th day of August, 1885, and with a power of sale therein contained, duly recorded in the office of the Register of Deeds in and for the County of Polk and State of Minnesota, on the 18th day of August, 1885, at 3:30 o'clock p. m., in Book "W" of Mortgages, on pages 304-306.

Included in the amount above declared to be due on said mortgage is $49.38, being for taxes upon the premises described in said mortgage for the years 1896, 1898, 1899 and 1900, paid by the mortgagee, with interest on said taxes to the date of this notice.

And no action or proceeding having been instituted, at law or otherwise, to recover the debt secured by said mortgage, or any part thereof,

Now, therefore: notice is hereby given that by virtue of the power of sale contained in said Mortgage, and pursuant to the statute in such case made and provided, the said Mortgage will be foreclosed by a sale of the premises described in and conveyed by said Mortgage, viz:

The south half of lot number eleven (11) in block number two (2) in the townsite of south Crookston, according to the plat thereof on file in the office of the Register of Deeds, in and for said county, in Polk County, Minnesota, with the hereditaments and appurtenances; which sale will be made by the sheriff of said Polk County, at the front door of the Court House in the City of Crookston in said County and State, on the 7th day of September, 1901, at ten o'clock a. m. of that day, at public vendue, to the highest bidder for cash, to pay said debt and interest, and the taxes, if any, on said premises, and twenty five dollars, Attorney's fees, as stipulated in and by said Mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Dated July 24th, A. D. 1901.

FRANKLIN EDGERTON,
Mortgagee.
R. J. MONTAGUE and
SAMUEL MORRISON,
Attorneys for Mortgagee,
Crookston Minn. 6t

NOTICE OF EXPIRATION OF REDEMPTION.

To Thore O. Bakken:

You are hereby notified that on the 8th day of May, A. D. 1897, in proceedings to enforce the payment of delinquent taxes pursuant to that certain real estate tax judgment which was entered in the District Court in and for the County of Polk in the Fourteenth Judicial District of the State of Minnesota, on the 22nd day of March, A. D. 1897, the following described piece and parcel of land which is situated in Polk County in the State of Minnesota, to-wit: ne¼ nw¼ and nw¼ ne¼, section 30, and se¼ sw¼ and sw¼ se¼, section 19, Town 148, Range 44, was sold to satisfy the amount for which it was adjudged liable in said judgment, interests and costs for the sum of Sixteen Dollars and eighty two cents; that on the first day of June, 1899, the right of the state acquired by the said sale was assigned for the sum of Forty four Dollars and one cent; that the amount required to redeem said piece and parcel of land from such sale (exclusive of the costs to accrue upon this notice) is Forty four Dollars and one cent, and interest on said amount at the rate of twelve per cent. per annum from said 1st day of June A. D., 1899, until such redemption is made and that the time for redemption of such piece and parcel of land from such sale will expire sixty days after the service of this notice, and proof thereof has been filed in the office of the County Auditor, of said Polk County.

Witness my hand and official seal this 25th day of June, A. D. 1901.

JOHN PETTERSON,
County Auditor,
of Polk County,
Minnesota.
By N. A. Hoffard,
Deputy.

NOTICE FOR PUBLICATION.

Department of the Interior, Land Office at Crookston, Minnesota, July 18, 1901.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the Register and Receiver of the U. S. Land Office at Crookston, Minnesota, on September 3, 1901, viz. Theodore Noeseu, H. E. 15952, for the sw¼ of section 4, Township 148 N., Range 46 W.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz:

John Baatz, of Russia, Minnesota.
Fred Baatz, of Crookston, Minnesota.
Thomas Wallace, of Crookston, Minnesota.
Benjamin Jerne, of Crookston, Minnesota.

A. F. GEORGE,
Receiver.

APPLICATION FOR LICENSE TO SELL INTOXICATING LIQUORS.

To the village council of the village of Climax, in the county of Polk and state of Minnesota:

The undersigned, H. Samuelson, hereby makes application for a license to be granted to him to sell intoxicating liquors for a period of one year from the 13th day of August, 1901, to the 13th day of August, 1902. The place where the said business is to be carried on is designated as follows:

One and one-half story frame building on lot (18) eighteen, block (2) two, in the village of Climax, Polk county, Minn.

Said applicant prays that such license be granted to him pursuant to the ordinance of said village of Climax, Minn., and the statutes of said state of Minnesota, in such case made and provided.

Dated at Climax, Minn., July 8th, 1901.

—H. SAMUELSON.

UNITED STATES LAND OFFICE,

Crookston, Minnesota.

Notice of intention to make proof of right to purchase, under the 5th section of the act of Congress, approved March 3, 1887.

Robert J. Montague, of Crookston, Minnesota, having on June 11, 1901, filed in this office his application to purchase, under the 5th section of the Act of Congress, approved March 3, 1887, lot Four of section Thirty-three, in township One Hundred and Fifty North, of range Forty-six West of the Fifth principal meridian, in Polk county, Minnesota, and filed in connection with said application his affidavit in support of his right to purchase the said land, and asking that the St. Paul, Minneapolis and Manitoba Railway company and one Edwin F. Kelly, who is living upon and claiming some right to the said land, under the homestead laws of the United States, be cited to appear and show cause, if any they have, or objections to the submission of such proofs or consummation of title to the said lands by him, in the manner in said application proposed, and asking that a time be set when he might appear with his witnesses before this office and make proofs of his right to purchase the said land and consummate his title thereto. Said Robert J. Montague offers to make such proof by himself and by the following named witnesses:

James Greenhalgh, postoffice, Crookston, Minnesota.
Joseph Gauche, postoffice, Crookston, Minnesota.
William Watts, postoffice, Crookston, Minnesota.
E. C. Davis, postoffice, Crookston, Minnesota.
Albert J. Lachapelle, postoffice, Red Lake Falls, Minnesota.
James Stoddard, postoffice, Land Dept., Great Northern Railway Company, St. Paul, Minnesota.

And by the records of this land office, and of the office of the register of deeds of Polk county, Minnesota, and by other documentary evidence and especially by a contract executed by the St. Paul, Minneapolis and Manitoba Railway Company, dated January 27, 1881, to one Ozora P. Stearns, and by the books and records and vouchers of the said railway company, and certain contracts and assignments and deeds by said Ozora P. Stearns and his assigns and grantees under him: and the right of said Robert J. Montague is claimed under and by virtue of said contract made January 27, 1881, by said railway company to said Ozora P. Stearns, of which contract and all rights thereunder the said Robert J. Montague claims to be the assignee, holder and owner.

Notice is hereby given, that said proofs in support of the claim of said Robert J. Montague to purchase said land will be made before the register and receiver of the United States land office at Crookston, Minnesota, on August 6, 1901, at ten o'clock a. m. of that day; and the said St. Paul, Minneapolis and Manitoba Railway Company, and the said Edwin F. Kelly, and all other persons interested, are hereby cited to appear before said register and receiver at the time and place above named, and show cause, if any there be, or any objections which they may have, to the making of said proofs and consummation of title to the said lands by the said Robert J. Montague, in the manner in said application proposed.

Dated June 18, 1901.

SYLVESTER PETERSON,
11-16 Register.

SUMMONS.

State of Minnesota, County of Polk, ss.
In District Court.
Charles Hedquist, plaintiff vs. Wilfred Riel, defendant.

The State of Minnesota to the Above Named Defendant:

You are hereby summoned and required to answer the complaint of the plaintiff in the action above entitled which said complaint is on file in the office of the Clerk of the District Court in and for Polk county, Minnesota, and to serve a copy of your answer to said complaint on the undersigned at his office in the city of Crookston in the county of Polk and state of Minnesota within twenty days after the service of this summons upon you, exclusive of the day of such service, and if you fail to answer the said complaint within the time above specified, the plaintiff herein will apply to the court for the relief demanded in the complaint.

A. A. MILLER,
Attorney for Plaintiff,
14-19 Crookston, Minn.

NOTICE.

In the matter of the grading of Seventh street, original townsite of Crookston, and the grading of Stuart avenue, in Sampson's Addition to the city of Crookston.

Notice is hereby given, that we, the undersigned, having been duly appointed and qualified as commissioners to view the premises and ascertain and award the amount of damages and compensation to be paid the owners of the property taken, injured or affected by reason of the grading of that certain highway in the city of Crookston, being the grading of Seventh street according to the engineer's estimate on file in his office, from a point 150 feet east from Broadway eastward to Central avenue, also the grading of Stuart avenue from its easterly terminus to Minnesota street, and to assess the amount of damages and compensation and the expense of said improvements, will meet on the third day of August, 1901, at ten o'clock a. m., at Stuart avenue, in Sampson's Addition to the city of Crookston, from there will proceed to Seventh street at Central avenue, and from there will adjourn to meet at the office of C. H. Mix, in the Odd Fellow's block, and we will then and there hear such allegations and proofs as any interested person or persons may offer.

Dated July 22nd, 1901.

—C. H. MIX,
—A. McGREGOR,
—WM. MARIN,
Commissioners.

Wkly— 2t

CITY AND VICINITY

Harvey Misuer, of Euclid, was the guest of Crookston friends over Sunday.

Reg. W. Smith came over from the Forks and spent Sunday as a guest of the family of A. R. Fuller.

Frank Benoit and son have gone to Benoit to assist a few days in the work of securing the hay crop.

Mrs. J. O. Sundet and daughter Jennie returned Monday from a visit with friends at Nellsville and Climax.

Peter Sullivan, of Key West, one of the best in the bunch, and everybody's friend, was down Monday preparing for the harvest.

Don't forget that Mull's Lightning Pain Killer kills all pain instantly. $1,000 offered for its equal. Free from opiates. 25 cents.

Fine photographs in all styles from $1 to $20 per dozen at Skrivseth's art studio, near Commercial hotel, Broadway, Crookston.

"Stop that cough right away with Mull's Lightning Cough Cure. It heals disease of throat and lungs. It's pure and good for children. 25c. For sale by S. A. Wallace.

Barley cutting on Pat Filbin's farm in Parnell commenced today, and Pat was here telling how the harvest would proceed without interruption. A fine crop is in prospect.

Don't hesitate if you suffer from the tortures of rheumatism. Take Mull's Pioneer Rheumatism Cure. A dollar draft in each $1.00 box; cash it if medicine fails. 25 cents.

Dr. Geo. Convrette came in from Fosston and spent Sunday. He reports a good degree of success in his new field of labor and has a good word for the hustling qualities of the Fosston people.

Eastern parties have purchased a lot on the new townsite at Lockhart and will erect a building at once that will be used for banking purposes. Mert Patterson, of Ada, will be the cashier.

The interest being taken in Maple Lake as a summer resort has induced M. Redick of Grand Forks to purchase a lot on the lake shore, where he will at once proceed to build a handsome cottage.

Helge Thoreson of Nehy was in the city Monday on business and spending a few hours with his wife who is recovering from a surgical operation which she underwent at Bethesda hospital.

Miss Mayme Varnett, of Fertile, has gone to the Pacific coast to spend her summer vacation. She was accompanied by her sister, Mrs. Nicholson of East Grand Forks, who will reside there in future.

Mrs. Wm. Munch has an apiary that is second to few, if any, in the county. The success that she has had with the bees this year proves ability in handling them, and she now has honey to sell in any quantity.

Mrs. P. J. Russell arrived on Saturday night from Thief River Falls, where she has been visiting her parents, and will remain a week as the guest of Mrs. L. W. Larsen and other friends here, before returning to her home at Bemidji.

"Doc" Rutlege, who is doing the mechanical work and considerable of the local on the Cass Lake Voice greeted friends at the G. N. depot Monday morning while en route home from a visit at Grand Forks. He was accompanied by Mrs. Rutlege.

The Crookston college building is receiving a thorough overhauling. Hardwood floors have been placed in all the class rooms, the walls have been kalsomined and the woodwork painted. The basement will also be fitted up for use by the opening of the fall term.

Mrs. T. G. Thompson has gone to Ashby, where she formerly resided, for a visit with friends and relatives before joining her husband in Thief River Falls. Miss Anna Madhud, who has been visiting with her here and with the family of Mrs. W. O. Wilson, accompanied her to Ashby, which is her home.

Ed. Housker, who is located on section 13 in the town of Crookston, is exhibiting in the city today an exceptionally fine sample of wheat which he claims is good for 30 bushels per acre, and we would not dare to question it. He says it was sowed April 10, and that his neighbors have wheat equally as good.

Joe Jarvis; the man who doesn't know Joe has an experience yet before him—came in from Fisher Monday and told his friends how glad he is to be alive, and a reasonably good crop prospect before him. He enrolled his name on the Journal list and figures out that he will be better natured hereafter, and yet no one every heard Joe kick about anything.

T. G. Thompson was a passenger bound for Thief River Monday, where he will take possession of the hardware business he has recently purchased. The development of the country about Thief River makes the opening a good one, and there is no doubt that Mr. Thompson's business judgment and acumen will bring him success in his new field.

The currant crop has been a bountiful one this year. Almost everyone who is fortunate enough to own bushes has had enough for his own use and to supply some of his neighbors. It is another proof that small fruits will flourish here if properly cared for, and give as good returns for the time and money expended as in milder sections of the country.

Misses Gertrude Gleason and Lucia Stone have gone to Warren to visit in the family of W. F. Powell during the week.

Mrs. Dawes Howe and daughter Lucy have gone to spend a few days as the guests of Mrs. S. Rosenthal at Maple Lake.

Mrs. A. R. Kimball is away at Warren attending the sports in progress there and visiting with her brothers, the Bradleys.

Mr. and Mrs. Wesley Morris came in from Mentor last night and while here Mr. Morris sold his farm on Cable Lake.

Tom Wallace, of Fairfax, had a stack of hay burned last night. The stack contained about ten tons and was ignited by lightning.

Messrs. Erickson and Loeken, of the Crookston ball team, are away at Langdon, N. D., where they will assist that team in a couple of games of ball.

Mrs. M. Sanaker is up from her home at Waukon, Ia., and spent yesterday as the guest of Mrs. Robert Rose of Fairfax, proceeding to Fisher last evening.

Olof Paulsrud is up from Nellsville today telling that the wheat crop thereabout will yield heavy returns, and that the place is on the map safely for another year.

John McWaters, a long-time resident of the town of Fanny, has accepted a position with Frank Creamer, and will look after his machine business during the remainder of the season.

The school election at Thief River Falls resulted in carrying the bonds for a new building by a large majority. This means a new building for school purposes at that place.

A prize dance will be given at the bowery Saturday evening. The prizes can be seen in Fontaine & Anglim's show window. Music will be furnished by Prof. Berg's string band.

Dr. Wheeler, of Grand Forks, has a locomobile in which he rides about the city and country visiting his patients. The machine is very neat in appearance and makes but little noise.

M. R. Brown is away at Minot where the arrival of several train loads of horses demand his attention. The auction sale of horses that will occur there next week is to be the biggest event of the kind ever held in the state.

The storm last night lodged the oat crop in the field belonging to E. M. Walsh, that has been so much admired by all who have seen it. It stood nearly five feet high and was estimated to yield 75 bushels pe racre. It is not likely that the grain will recover its stand.

Charley Hitchcock returned this morning from a trip to the Twin Cities. Saturday in the cities was the hottest day Charley says that he ever experienced .He saw several horses drop in the streets, overcome by the heat, and it seemed impossible to find a place that was anything like cool.

The citizens of East Grand Forks who were in favor of paving and establishing a waterworks system are casting about to find some way of getting around the injunction that was granted by Judge Watts, as that will delay matters to such an extent that it will be difficult to pave DeMers avenue this season.

The state drainage board, in addition to appointing George Ralph of this city as engineer of the commission, directed him to report Saturday. Petitions have been received by the board from Aitkin, Norman, Beltrami, Red Lake, Wadena, Marshall, Roseau and Polk counties asking for a share of the $25,000 available. The commission has not yet decided whether to make a personal inspection of the land to be drained.

Mrs. J. S. Stadsvold has gone to Moorhead for a fortnight's visit, and during her stay Mr. Stadsvold will spend the time at West Superior where he went today as a delegate to the annual meeting of the Scandinavian Workmens' association. He will return as far as Bemidji on Saturday and proceed to his claim north of Blackduck to make some improvements. During Mr. Stadsvold's absence O. M. Vang will look after his business.

WAITING FOR THE RUSH

150,000 Registered to Secure one of 13,000 Claims

Fort Sill, O. T., July 24.—Disorder and distrust it is feared will follow the opening of the Kiowa-Comanche reservation on August 6. It is now estimated that fully 150,000 people will have registered for a chance to secure one of the 13,000 claims to be awarded by lottery when the registration booths close on July 26. Thousands of persons who are now on the reservation, who are neither mechanics nor artisans, and who have little or no money, announce their intention of locating around Lawton, if they fail to win a claim.

Campers who came in prairie schooners by the thousands generally brought with them provisions sufficient only to last from five to ten days.

The continued drouth has caused the water to be restricted, and for days a hot wind has blown over the prairies and the temperature has averaged over the 100 mark.

The controller of the currency has approved the application of J. F. Thompson of Forest City, Iowa; J. Thompson, B. J. Thompson, T. Jacobs and J. O. Osmundson for authority to organize the First National Bank of Argyle, Minn., with a capital of $25,000.

TOOK A HEADER

A Crook Under Arrest Out East Jumps Through Car Window.

TRAIN WAS AT A 50 CLIP

Man Was Uninjured and Took to the Woods--Posse After Him.

A prisoner arrested Monday at Solway, Minn., by an officer from Bemidji, escaped from the train, No. 14, between Solway and Bemidji. The officer having the man in charge was sitting in the seat across the aisle, when suddenly the prisoner leaped head first through the car window while the train was going at the rate of 50 miles an hour. On striking the ground, apparently unhurt, he took to his heels as though pursued by 19 devils and disappeared in the woods.

The train was brought to a halt as soon as possible, and backed up to the place where the man made the jump, and all hands alighted and beat about the woods close to the track, but no trace of the escaped prisoner could be found, and his chances for liberty are good, as the country in that section is sparsely settled, and if the man is not driven to some of the towns for food, he stands an even show for freedom.

It was a wonder to all the passengers how he struck the ground without having his brains knocked out, or his limbs broken, and it is thought that he is a thoroughbred, or he would certainly have been instantly killed. It is not known who he is or who he had robbed, further than the fact that he had been arrested for highway robbery and the officer was taking him to the county jail at Bemidji. The sheriff and a posse started in pursuit as soon as Bemidji was reached and an endeavor will be made to land the slippery crook again, and it is safe to say that he will be well shackled if he is apprehended again.

SAM CAUGHT A PIKE

But is Having Trouble Proving it to his Friends

Sam Rosenthal came in from the lake Monday to tell his friends how he and Mrs. Rosenthal caught a pike. There have been several reports about the lake this spring to the effect that pike had been caught, but there has been a good deal of uncertainty about them. Sam caught a real live pike, took it to his cottage and put it on ice until he could get to town and prove to some of his skeptical friends that there really were specimens of that variety of fish in Maple Lake. Before time to take the train, however, the servant girl found it, cutting off the head, tail and fins, and generally disfiguring it until no one but an expert could tell whether it was a pike or a cat-fish. Sam came to town, but he didn't bring the fish.

Notice to Contractors

Bids will be received at the office of the undersigned at the city hall, until Aug. 13th, 1901, at 8 o'clock p. m., for the construction and grading of part of Seventh street, in the original townsite, and Stuart avenue, in Sampson's addition, all in city of Crookston, Minn., in accordance with plans and specifications for same on file in the office of the city engineer of said city. Successful bidder will be required to furnish adequate bonds for the faithful performance of said work. The city reserves the right to reject any or all bids.

By order of the city council.
Dated July 24th, 1901.
—W. A. Lanctot,
Dly 1-Wkly 1 City Clerk.

Crookston Won

The game of ball played between Crookston-Warren Tuesday resulted in victory for the Crookston team by a score of 3 to 2.

ANOTHER BANK

With F. S. Sargent at its Head will Open at Grand Forks

Grand Forks is to have a third financial institution with F. S. Sargent at its head. It will be located in the Security block, controlled entirely by local business men, with a capital stock of $50,000.

At one time there were five banks there, the Merchant's National, which suspended business about two years ago, and the Grand Forks National and the Second National, which collapsed during the panic in the early '90's, in addition to the First National and the Union National which are now doing all the business and even more than was formerly handled by the five institutions.

The vast country which is being opened up west of there, which has developed wonderfully within the past two years, and which is all tributary to Grand Forks, together with the increase in the local business and the added business resulting from the wholesale houses of the city, unite in greatly increasing the business to be transacted by the local banks.

CROOKSTON LEADS

State Inspector Bliss says our Training School is Best

"Crookston has the best summer school in the state in several respects" said Lafayette Bliss, the state inspector of training schools, during his visit of inspection made here yesterday. Then he proceeded to point out wherein his remark applied.

The particular point emphasized, after the corps of teachers had received unqualified commendation for their ability and attainments, and for the work they are doing, was the ratio of attendance, considering the territory to be drawn from.

"Polk county," said Mr. Bliss, "is surrounded by summer schools. Each one of the counties surrounding has a training school in session, and notwithstanding this, the enrollment at Crookston has reached 115.

"Now," he continued, "take it in the case of Otter Tail county. There the enrollment amounts to 260, but there are far more school districts in that county than in Polk, and beside there is not a summer school in session in any of the counties surrounding, so that the territory it is drawn from is four or five times that of Polk county"

Mr. Bliss is inspecting the schools in Red Lake county today.

Largest Wheat Crop Ever

Jamestown, N. D., July 24.—North Dakota will harvest this season the largest wheat crop in the history of the state. The crops are fine, not only in the famous Red River Valley, but in the James river valley and on the Missouri slope as well. The rainfall in June and in the early portion of July came at the right time, and followed by dry weather, has insured a bumper wheat crop. The wheat heads are large and are filling well. There is an unprecedented demand for harvesting and threshing machinery, and dealers expect to sell more than they have at any other time in the past. The flax crop will be heavier than that of last year, but will not be an average one. The heavy rains have ruined a great percentage of the acreage of this crop. The corn crop will be light. Oats, barley and millet are a good crop and the yield will be heavy.

Pocketbook Lost

Wm. Davidson, of the Keystone farm, was in Grand Forks Saturday and while there lost his pocketbook containing $50 in bills and silver and five checks, made payable to himself from different parties, amounts ranging from $48 to $190. The banks and all others are notified against cashing them.

Stock for Sale

Having sold my farm, I offer for sale for immediate delivery, four good work horses, four and five years old, a lot of farm machinery, 17 head of sheep and lambs, including one buck, a choice animal, weight 220, clipped 17½ pounds of wool, one cow and some young stock. H. C. Scribner, Section 30, Andover, postoffice address, Crookston.

John Florin has completed a job in his usual first class style that will greatly please Ernest Miller of Fertile ,for whom the job is done. It consists of the hardwood fittings and furniture for the latter's new place of business.

ADMIRAL SCHLEY

Asks for Court of Inquiry and will Bring Action Later.

APPLIED TO SEC'Y LONG

Who will Probably Appoint Admirals Dewey, Ramsey and Burnham.

Washington, July 24.—The Washington Post telegraphed Admiral Schley that in an editorial it insisted he owed it to himself as well as to his friends to begin proceedings against Mr. Maclay, author of the History of the United States Navy, to disprove the latter's charge, adding:

"Will you do this? Please wire statement."

The following telegram was received in reply:

"Great Neck, L. I., July 23.—Editor Washington Post—I believe the first step should be an investigation of all matters by the court; then civil action afterwards. I am preparing to take this course.

(Signed) —W. S. Schley."

The Post this morning, as a result of extensive inquiries based upon the admiral's dispatch, said in part:

Admiral Schley proposes to ask an investigation at the hands of the naval court of inquiry and then to sue His[illegible]clay for libel. His ac[illegible] a sequel to the developments during the past week, when the entire country [illegible] stirred by the publication of the unexampled abuse poured out upon him in the third volume of E. S. Maclay's History of the United States Navy, in which publication Schley is said to have run away "in a caitiff flight," and is, in addition, denounced as a coward, a cur and a traitor. The Schley court of inquiry will undoubtedly be one of the most celebrated cases in the naval or military history of the country. The high rank of the officers involved in the controversy and the intense public feeling which has been aroused will combine to give to the investigation a dramatic interest. Nothing has occurred in Washington for many years that will compare with it. The appointment of the court of inquiry is expected to be made by Secretary Long, though it will be within the power of the president to make the selection if he should choose to do so. This is hardly likely to occur, however. Admiral Schley's letter asking for the appointing of a court is addressed to Secretary Long, his immediate superior officer. The ignoring of Secretary Long would not only be a breach of etiquette, but at variance with the secretary's careful observance of punctilious procedure. The court, therefore, will be named by Secretary Long, unless he prefers to refer the matter to the president. Secretary Long has already stated that if Admiral Schley requested an inquiry he would appoint a court and has expressed his willingness to personally select the court.

Although he has made no announcement in regard to the selection of the court, there is reason to believe he will select Admiral Dewey, Rear Admirals Ramsey and Benham, the two latter now being on the retired list.

AMERICAN DAY

The Excursion to Winnipeg will Leave Aug. 2

The feature of the Winnipeg exposition that will attract people from the states will be given on Aug. 2, of this year. On that date the Great Northern and Northern Pacific roads will run special excursions, as they have done in former years, and many are arranging to avail themselves of the opportunity to visit their Canadian cousins.

The Great Northern will run an excursion leaving Crookston at 5 a. m. on the morning of the 2nd, and leaving Winnipeg after the display of fireworks the same night. The Northern Pacific will also run a train, but has not yet announced the schedule.

The rate will be $3 for the round trip as in former years, and there will be a large number of people who have never made the trip, as well as many who have previously done so, who will take advantage of the low rate and enjoy the day.

OTHER INSTANCES

Where Lightning did a Stroke of Business

During the thunder storm of Monday night the lightning made a double visit to the residence of John Locken in the town of Roome, entering the house through both chimneys. One bolt left the chimney in a room where five boys were sleeping, and scattered the contents quite promiscuously, but did not disturb the sleeping youngsters.

The other bolt followed the chimney to the dining room and there demolished a cupboard, the door of which it threw across the room. It then passed to the basement and evidently there was absorbed in the earth.

ANOTHER CASE.

The house on the Swan place, two miles southeast of Dugdale, was struck by lightning and burned to the ground with its contents on Monday night. The house was occupied by a bachelor named J. Olson, who was absent from home at the time. The Hunter house at Maple Bay was also struck, the bolt passing through a room occupied by three members of the family, none of whom were injured.

BOERS ARE COMING

To the United States---Have Abandonded Hope of Success in South Africa.

TAKE HOMES IN OKLAHOMA

Are in Love With Their Newly Selected Country and With Americans.

Guthrie, Oklahoma, July 19.—Three hundred and fifty Boers, despairing of obtaining freedom in their native land, trekked into Lawson, Oklahoma, and registered for homesteads in the new country being opened for settlement. They arrived at New Orleans three weeks ago and declared their intention of becoming citizens.

Those who don't secure homes by drawing will buy out other settlers and a Transvaal in Oklahoma will be the result.

Their head is Captain Joubert, a nephew of the famous fighting Piet. He speaks English fluently. Relative to their intentions he said:

"We came to Alabama on an early transport that had made its last trip to South Africa with mules. Its captain was under no further obligation to the British and we easily made a deal with him. Only a few women came with us. The rest will come as soon as we locate.

"We believe our native country will be unable to wrest freedom from England. If we succeed in securing good lands, thousands of others who followed the fortunes of President Kruger will also locate here. We have received the kindest of treatment, and we know we will love our new land."

SWINDLING PENSIONERS

Man in Wisconsin Posing as Pension Examiner

Madison, Wis., July 19.—Assistant Adjutant General E. B. Gray of the G. A. R. is sending out to post adjutants throughout the state a description of one J. W. Dunn, alias Dolan, alias Doyle, who has been posing as a pension examiner, and swindling veterans who draw pensions, telling them that their pension has been cut down, but that for a small sum, ranging from $2 up to $10, he will fix things all right, and have the pension continued at the old rate. He has been working Palmyra and other places in the eastern part of the state. The last heard of him was that he had stolen a horse, which he tried to sell in Brodhead. Special Pension Examiner Joseph Hall is after him, and asks any person who may run across him to arrest him and wire the United States district atorney at Madison.

Dunn is about fifty years old, 5 feet 7 inches tall, and weighing about 160 pounds, slightly stoop-shouldered, very bald, light complexion, heavy sandy mustache, and has a blemish or spot in the white of the left eye.

DISTINGUISHED BIGAMIST

Sentenced to Three Months Imprisonment

London, July 19.—Earl Russell, arraigned at the bar of the house of lords yesterday for trial on the charge of bigamy, pleaded guilty, after long arguments against the jurisdiction of the court. The trial was carried on with all the quaint middle age ceremonies. The arguments lasted an hour. Both the Earl and Countess Russell (Mrs. Somerville) through their counsel pleaded they did not know they were doing wrong, but had acted on the best legal advice obtainable in Nevada. The peers reached their decision after a consideration of the case, lasting twenty minutes. Earl Russell was sentenced to three months imprisonment as a first class misdemeanant. In anticipation of the arrival of Lord Russell the official of Hollowood prison had prepared for the reception the rooms formerly occupied by William T. Stead, the editor, and a member of the Jameson raiders. It is a commodious apartment, in which his lordship can be supplied with his own food and wines.

AROUND THE WORLD

In 61 Days is the Record Made by a 16 Year Old Boy

Chicago, July 20.—Chas. C. Fitzmorcago American, beat the world's recris. 16 years old, representing the Chiord in a trip around the world. Traveling continuously night and day for the past sixty days, young Fitzmorris declared that he had gained 10 pounds in weight, and while he had never been on the ocean before, he had not been sick an hour in crossing the Pacific. He and his traveling companion, S. M. Williams, London correspondent of the New York Journal, were passengers on the Great Northern flyer which reached Minneapolis from the west yesterday, and left St. Paul at 6:55 last evening via the Milwaukee line, reaching Chicago and completing the circuit of the globe this morning.

Speaking in regard to it, Fitzmorris said:

"We have made a new record for world encircling. Our schedule shows that we could make the long journey in 56 days, and we would have done it with perfect connections, but at Yokohama we were forced to wait four days for the sailing of the Empress of India. The captain agreed to deliver us at quarantine at Victoria last Thursday morning at 10 o'clock, but a heavy fog delayed the boat and we were two hours late. I consider it a great feat in making so good time in the ocean journey of 4,000 miles. We were conveyed in a special through to Seattle, and through the kindness of Samuel Hill, who was a fellow passenger on the Empress of India, we have been given every courtesy on the Great Northern, and the trip has been made east in perfect time.

Our exact time upon arriving at Chicago was sixty days and 13 hours, and Jules Verne and his eighty days are distanced. George Francis Train's record of 68 days was the best time up to my trip."

HAVE FOUND A CLUE

To the Train Robbers Through the Unsigned Bank Notes

Helena, Mont., July 20.—Some of the unsigned bank notes stolen from the Great Northern express car by train robbers on July 3 are said to have appeared in circulation in eastern Montana. Three men stopped at the Morton sheep ranch on the Porcupine, 100 miles southeast of the scene of the robbery, two days after the robbery, riding three jaded horses. They said they were going after horse thieves. They effected a trade of horses with Morton, giving him $100 to boot, and proceeded southeast. Morton had not heard of the robbery. Later he examined the bills and found them unsigned. It is believed that the three men were the train robbers. From Morton's ranch the robbers could easily have reached the Hole-in-the-wall country in Wyoming or the bad lands of the Dakotas before this time and separated. Hope of capturing the robbers is about abandoned, although the Pinkerton agency, which has a large number of men in the field, expects eventually to catch them.

TO EUROPE IN TWO DAYS

Scheme to Carry Mail Across Atlantic in that Time

Washington, July 20.—Postmaster General Smith has received a letter from a rabbi of the orthodox Jewish church in Wabash, Ind., offering to sell to the department a new discovery in mail transmission, by which it is claimed the mails can be regularly carried across the Atlantic in the space of two days. The letter says:

Esteemed Sir—I take the liberty to inform you that I have a scheme to convey the mails to Europe within two days. I should like to submit the idea to the government, and if it can be carried through, should ask some compensation. —Rabbi Sigmund Frey.

Rabbi Frey will be asked to throw more light on his discovery.

STRONG FLOWING WELL

Struck in South Dak.---Has Pressure of 100 Pounds to Inch

Ipswich, S. D., July 20.—One of the best artesian well sin this part of the state has been struck on the farm of August Mathews, ten miles southeast of Ipswich. It has a pressure of over 100 pounds to the square inch. The water 's perfectly clear, soft and pleasing to the taste. It is from the third flow, and was struck at 1,100 feet. The drilling was done in less than 20 days.

A large number of such wells will be drilled in Edmunds and adjoining counties this season. The cost per well for drilling and all material is $800 to $950.

VAN SANT APPOINTS

Crookston Represented Among the Delegates

St. Paul, July 19.—Gov. Van Sant has announced the appointment of the following state delegates to the farmers' convention to be held at Sioux Falls, S. D., Oct. 1 to 10: Prof. Thos. Shaw, agricultural department of the University of Minnesota; Mrs. Bertha Dahl Laws, Appleton; Robert Bird, Bigelow; Thos. Hines, Heath; Jacob Bartels, Stephen; Otto Patterson, Wegdahl; A. W. Trow, Glenville; E. D. Childs, Crookston; Fred Lossow, St. Claire; J. M. Underwood, Lake City; A. D. Warner, St. Paul; Earle F. Andrus, Mountain Lake.

GOOD ADVICE.

The most miserable beings in the world are those suffering from Dyspepsia and Liver Complaint. More than 75 per cent of the people in the United States are afflicted with these two diseases and their effects, such as Sour Stomach, Sick Headache, Habitual Costiveness Palpitation of the Heart, Heartburn, Water-brash Gnawing and burning pains at the Pit of the Stomach, Yellow Skin, Coated Tongue and Disagreeable Taste in the Mouth, Coming up of Food after eating, Low Spirits, Etc. Go to your druggist and get a bottle of August Flower for 75 cents. Two doses will relieve you. Try it. Get Green's Prize Almanac. F. H. Hillard & Son.

DASTARDLY CRIME

Charged to a Man Now Serving a Ninety-Nine Years' Sentence

HAD HIS FATHER MURDERED

In Hope to Secure His Own Liberty--Will Probably be Convicted by Jury

Helena, Mont., July 22.—The trial of Clinton Dotson at Deer Lodge on the charge of conspiring to have his father, Captain Oliver Dotson, killed, was concluded late Saturday, and the case was given to the jury. A verdict of murder in the first degree is expected.

James McArthur, who did the killing at Young Dotson's instigation, for the promise of a reward, was convicted last week and has been sentenced to hang on Sept. 6. Dotson is now serving a 99-year sentnce for killing Eugene Cullinane in the autumn of 1898. It has been the theory of the prosecution in the present trial that Olinton Dotson hired James McArthur, a convict who was about to leave the penitentiary, to kill Dotson's father, leaving upon the body the alleged confession of Elder Dotson that he and not his son killed Cullinane, the idea being to facilitate the pardon of young Dotson. The plot was exposed and McArthur convicted, and now it seems certain that Clyinton Dotson will also be convicted. The case is without a parallel in the criminal history of the state.

THE POTATO CROP

Prospect for Much Larger Crop in Minnesota Than Last Year

The Minneapolis Journal says: Extremely hot weather has greatly damaged the potato crop of the southwestern states and the chances are good for the Minnesota farmer realizing a good price on his potatoes this fall. The Minnesota crop will be an important factor in the general market.

S. H. Hall estimates the potato crop of Minnesota this year at between 15,000,000 and 16,000,000 bushels. This is an increase of 3,000,000 bushels over the crop of last year. While Mr. Hall does not care to make any specific prediction on the price, he says that it will be unusually good. An average price is 20 cents per bushel. This year's crop will bring much better than that figure.

The early garden potatoes raised in Minnesota are now being marketed. The general crop will not be on the market before Aug. 20.

KILLED BY LIGHTNING

Wife and Child of a Marshall County Farmer

A terrible calamity is reported to have overtaken John Beason, a farmer who resides in Marsh Grove township near Middle River.

During the thunder storm of Sunday last, his house was struck by lightning and burned to the ground with all its contents. The same stroke also struck and instantly killed his wife and her infant child, 2 years of age. It has been impossible up to this time to secure further information of the sad even.—Thief River Press.

Barry Case Goes Slow

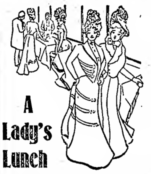
The work of securing a jury in the Barry case at Langdon is still progressing. Up to last evening nine jurors had been secured. The panel of fifty jurors was nearly exhausted, and it was thought that court would have to be adjourned until Tuesday and more jurors summoned. The jurors are subjected to a most searching examination both by the prosecution and defense before being accepted.

Hoppers Stop a Train

Brandon, Man., July 19.—It is hard to believe that grasshoppers will stop a railroad train, but such was the cause of a two hour delay on the Imperial Limited, the Canadian Pacific railway's transcontinental flyer, at a point on the line about fifteen miles east of here, a few days ago. The hoppers were in clouds along the track and the rails became so slippery that the trainmen had to go along the track with sand before the train could move. The hoppers were not of the grain destructive species.

IT DAZZLES THE WORLD.

No discovery in medicine has ever created one quarter of the excitement that has been caused by Dr. King's New Discovery for consumption. It's severest tests have been on hopeless victims of consumption, pneumonia, hemorrhage, pleurisy and bronchitis, thousands of whom it restored to good health. For Coughs, Colds, Asthma, Croup, Hay Fever, Hoarseness and Whooping Cough it s the quickest, surest cure in the world. It is sold by A. G. Anderson, who guarantees satisfaction or refunds money. Large bottles 50c and $1.00. Trial bottle free.



A Lady's Lunch

Has been rudely defined by some cynic as "slops and sweets." And after all there's more truth than poetry in the definition. Ice cream and cake may satisfy the palate, but they are far from satisfying to the stomach, which requires that food be nutritious first and nice afterward. By careless eating women pave the way for stomach "trouble," and its kindred miseries.

Dr. Pierce's Golden Medical Discovery is confidently commended as a cure for diseases of the stomach and other organs of digestion and nutrition. By curing diseases which prevent the assimilation of food it enables the body to be built up and strengthened in the only way known to nature—by food digested and assimilated.

"For twelve long months I suffered untold misery," writes Mrs. Mollie Colgate, of Randolph, Charlotte Co., Va. "No tongue could express the pain that I endured before I commenced taking Dr. Pierce's medicine. I was not able to do anything at all. Could not eat anything except bread and tea—or if I did the top of my head hurt so it seemed it would kill me: with all that I could do it would burn like fire. But now, since using your 'Golden Medical Discovery' and 'Favorite Prescription,' I can eat a little of almost anything I want, and can do a good day's work as well as anybody can. Am better than I have been for years."

Dr. Pierce's Pleasant Pellets cure sick headache.

FOR FARMER'S WIVES

A Rare Opportunity for Instruction in Dairying

The ladies' auxiliary of the State Dairy association has been granted a sum of money to be expended in giving practical instruction along the lines of butter and cheese making to farmers' wives throughout the state.

Mrs. F. W. Wilcox, of Benson, has been secured as one of the instructors to operate in the counties of Wndena, Hubbard and Polk, and is now engaged in the work.

Mr. E. D. Childs is in receipt of a letter from Mrs. Wilcox making the announcement that she will reach this county the latter part of this week or the first part of the following week, and desires that arrangements be made for a series of five or six appointments for her.

She has adopted the plan of neighborhood meetings at such places as may be suitable, going to some farm home, to which the neighboring women are invited, and to which they bring milk and cream to be used by Mrs. Wilcox in the lessons she gives in butter and cheese making.

This plan enables her to come in very close touch with those she seeks to benefit and makes her teaching very plain and practical, and to clear up any points in regard to which questions may be asked. Mrs. Wilcox has a very definite and practical knowledge of dairying and is strongly endorsed by Col. Liggett and Professors Hoverstad and Shaw, and the opportunity to secure her services should not go begging for takers.

Farmers' wives in any neighborhood desiring her services should make suitable arrangements among themselves and notify the Journal of the fact at once.

INDIA'S WORST FAMINE

Is Predicted by a Member of the Imperial Department

London, July 19.—India is threatened with a famine to an extent not paralleled in the history of that country, according to Romesh Duett, a distinguished Anglo-Indian of the imperial revenue department. In an interview Duett said:

"England's oppressive and frequently illegal financial treatment of India is largely responsible for famines. Unless this system is radically changed, the Indian empire will live in a perpetual shadow of famine, with its attendant misery and death. The famine in Bombay has continued two years, and is entering on the third season. This is a condition absolutely unknown hitherto, and unless rains bring relief it is impossible to foresee the bounds of the disaster. Practically the only remedy is to reduce the present iniquitous and burdensome land tax, which, in the northern provinces, takes half the landlord's rental and in the southern provinces onethird of the produce of the soil. These impossible proportions are collected with rigorous severity and are not always strictly legal."

POWDERED SUCKERS

A New Article of Food to be Placed on the Market

Encouraged by the prospect of the success of powdered milk, one of Cass Lake's most enterprising men has conceived the idea of powdering suckers and pickerel for market. There can be no doubt of its feasibility or the probability of its profitableness, and predict that our far-seeing fellow townsmen will soon be rolling in wealth, the results of his conceptions in the line of preparing an article of food in such a form that all the objection to the names of the original material will be entirely removed, and the finished product will at once take rank as one of the favorite foods of the American people. The Times is pleased to state that this new industry will soon be put upon a firm basis with plenty of capital, and with all the force and energy to make the institution a complete success. We learn from the promoters of the new industry that the name of the unique product will be "Krelker," composed of the last syllables of the names of the two fish to be used in the product, and that its excellence and cheapness will insure its introduction into all the markets of the world, and will soon come into general use among the lovers of ichthyic food. We shall watch the new industry as we would if interested ourselves.—Cass Lake Times.

The Riverside Dairy

Offers to the people of Crookston the purest milk, the richest cream, and the best butter to be had in all Minnesota at the lowest prices compatible with conservative business management. Our milk route lies right past your door, delivering twice each day. Call on our driver, or through telephone No. 12 for anything in this line. Don't eat your bread without butter so long as you can get Riverside at present prices.

GREAT NORTHERN R'Y CROOKSTON, MINN.

WHITE MAN TURNED YELLOW.

Great consternation was felt by the friends of M. A. Hogarty of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, and he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful stomach and liver remedy, and he writes: "After taking two bottles I was wholly cured. A trial proves its matchless merit for all stomach, liver and kidney troubles. Only 50c, sold by A. G. Anderson, druggist.

Quail Working North

While out driving the other evening Judge Calkins of Adn thought he heard the peculiar cry of a quail and stopped to investigate. He was at the fair grounds at the time and finally found the bird perched on the grand stand. It was a quail, the first one seen by Mr. Calkins since he has resided here. The bird stood on the rail for several minutes and then left for Mr. Herringer's grove along the Marsh river.

Horse Fell Dead

Friday afternoon just before six o'clock the delivery horse of K. Golden, the grocer, fell dead in front of the residence of Geo. A. Bangs on Fourth street in Grand Forks. The horse had been driven rather hard delivering goods during the afternoon and it is thought that it was overcome by the heat. At any rate it fell dead, and never kicked a kick.

Lost Boy

Herman Dohman of Langdon, N. D., offers a reward of $25 for information as to the whereabouts of his son, aged 16 years, who left his home June 14. He is about five feet in height and weighs 110 pounds. He had on a dark gray coat and black winter cap when last seen.

LARSON IS BAD

He is Being Held for Theft of a Horse at East Grand Forks.

ESCAPED FROM OFFICERS

A Year ago When Under Arrest for a Minor Offence--Was Never Captured.

Officer Hugh Quigley arrived in the city Monday bringing from East Grand Forks a prisoner, who will board with Sheriff Sullivan a week, and perhaps longer.

The man's name is Harry Larson, and he will be charged with stealing a horse. George Revlin, a hackman of East Grand Forks, awoke Sunday morning a week ago and found that a horse, buggy and harness were missing from his stable. Larson disappeared the same night, and as he was an object of suspicion on general principles, it was a bet that Larson knew of the occurrence.

On Saturday night of last week Larson reappeared about his usual haunts as if nothing had happened. Something did happen shortly after his return, though. He was arrested and charged with the theft of the traveling gear.

The horse was not in evidence, and the proof was not sufficient to warrant an examination for a few days, and accordingly Larson was brought here as stated, and his hearing will be held in a week.

The man was identified after reaching here by a man who saw and talked with him as he was passing through on the morning after the rig was stolen. He was then asking the way to Fosston.

The authorities will now seek to secure evidence on which to bind him over to the grand jury. Larson has been mixed up in several unsavory matters during his residence in East Grand Forks, and was once arrested for theft, but escaped from Sheriff Lawrence as he was being transferred from the hands of a constable.

MINNESOTA ROUTES

State now has 149 Rural Free Delivery Routes

Washington, July 22.—There have been established in Minnesota up to this time 149 rural free delivery routes. During June only six routes were established in the state, but the record now being made up will show a large addition to this number for July. The special agents in the field are making prompt reports upon the routes they are examining and there will be liberal additions to the new routes in the states as fast as these reports can be passed upon by the officials here.

On Sept. 2, two rural free delivery routes are to be established at Elk River, Sherburne county, Minn., with H. C. Keays and E. H. Staples as carriers. The routes, fifty miles in length, cover an area of sixty square miles, and serve 260 houses, or a population 1,170. As a result of the establishment of this service, the postoffice at Otsego will be discontinued, together with one star route.

On July 21, the postoffice at Vance, Itasca county, Minn., will be discontinued.

BROKE HIS PAROLE

Eben Ramer Paroled From St. Cloud Tired of Farm Work

Saturday morning Chief Murphy of the Moorhead police received the description of a man named John Ramer who broke his parole at the St. Cloud reformatory on Thursday. The authorities of the prison offered a reward of $50 for his capture and the chief went to work and in three hours had his man behind the bars.

Ramer served 18 months in the reformatory for grand larceny in the second degree. On account of good behavior he was paroled and sent to work on Judge Searle's farm, as he is a professional butter maker. The making of butter suited him all right, but when he was put in the routine work of the farm he got tired and left, and did not say good bye to any of the people there.

WAS TERRIBLY MANGLED

Vicious Dog Chewed Little Girls Face in St. Paul

Marie, the 10-year-old, daughter of August Schultz of 200 Indiana avenue, West St. Paul, was horribly chewed and bitten about the face and head at 10 o'clock Saturday night by a large dog, part mastiff and part St. Bernard. Mr. Schultz is employed as a teamster by a garbage company, and had gone to a barn in the rear of Joe Steiner's saloon to stable his horses. He took his little daughter with him.

Mr. Steiner keeps the dog in the rear of the saloon, untied. It was dark, and the little girl ran across the path of the brute, which jumped upon her, knocking her down. It had nearly chewed the face off the child before her cries attracted the attention of her father.

Part of her nose was chewed off, her right ear is nearly gone and both cheeks are horribly chewed and lacerated, pieces of flesh being torn out in some places. The child's clothing was partly torn from her body and her arms bear the imprint of the animal's teeth. The little girl was on the ground, the dog still gnawing at her flesh, when several men came out of the saloon and beat the dog off.

Doctors Beal and Hawkins were called and for more than an hour they were sewing the wounds of the little girl. Her injuries are not necessarily fatal, they say.

The dog was not killed by the policeman who was called by neighbors.

A Few... Bouquets

The Crookston Daily Journel completed its first year of existence last Monday. It is very creditable to Editor Gordon and his staff at the present time.—Thirteen Towns.

—0—

The Crookston Daily Journal celebrated its first anniversary Tuesday. The Journal may well feel proud of its record for the past year, and if its efficiency in serving the public next year is as marked as during the past, it need not take a back seat for Twin City papers as it modestly does now.—Stephen Leader.

—0—

The Crookston Daily Journal is a year old and long ago began to notice things. It talked back from the start.—Duluth News-Tribune.

—0—

The Crookston Daily Journal started on its second year of usefulness with Tuesday's issue. May its second year eclipse the first, is the wish of the Index.—Ada Index.

—0—

The Crookston Journal gives the Crookston band an extensive write up and proudly calls it the best amateur musical organization in the northwest. That's the kind of pride to take in home institutions.—Ada Index.

—0—

The Crookston Daily Journal was a year old Monday, and came out in an enlarged form in honor of the event. The Journal is rapidly forging to the front—getting more snappy and newsy every day.—Fertile Journal.

—0—

The Crookston Daily Journal is now a year old. and this fact is modestly announced in its issue of Tuesday. As a child grows his clothing has to be enlarged; so it is with a live paper. This issue of Tuesday has been expanded. During the first year it was only a six column quarto. The coming year it will be a seven column quarto. As a six column paper it was a decided success. With seven columns it will be more successful. The editor, judging by his works, is a man of brains, and there is no exchange we are more pleased to welcome than the Crookston Daily Journal.—Fergus Falls Free Press.

—0—

The Crookston Journal entered upon its second year last Tuesday, at which time it was enlarged from a six to a seven column folio. Success to you, neighbor. May you continue to grow and prosper.—People's Press.

MOSQUITO STORY

Texas Workmen were Obliged to Flee for their Lives

Austin, Tex., July 22.—Thos. Walsh, an oil inspector in the Beaumont fields, who is in the city, says he was driven out of Sabine, a few miles north of the Beaumont, by a pleague of mosquitoes. The mosquitoes came from adjacent salt marshes in great clouds which darkened the light of the sun.

The insects settled down on Sabine, and the workmen who were employed in the construction of the oil pipe line of the Lone Star and Crescent company were forced to flee for their lives. All work was suspended and the people took refuge under the mosquito bars, where they remained all day. Many cattle, horses and other animals were killed by the insects. Mr. Walsh says the mosquitoes were so thick it was almost impossible to breathe in the open air. It is the worst plague of mosquitoes ever experienced on the Texas coast.

Population of Minneapolis

There are 103,575 names in this year's directory of Minneapolis, and, using the usual multiple, 2½, a total population of 233,042 is indicated. In comparison with the figures obtained on the basis of last year's directory names, this is a gain of 5,231. While these figures are well over the census returns, the directory people insist they are close to facts.

T. S. Lippy of Fargo is said to have cleared $440,000 from his Eldorado claim near Dawson City, during the past year.

CARMAN.

Aldermen Cronin and Morrisey have consented to let us have a well at last.

Mr. Ingvalson and family have moved to St. Paul where he is employed in the rail road yards.

Joe Kitten, while coming home from Crookston last Saturday night, was knocked down by three men and robbed of $1.50, all the money he had on him.

Elmer Johnson has returned home from Washington on account of his daughter's health. She is very sick with lung fever, but we hope she may recover soon.

The men are thick around here now, and we think the mayor should get a move on and give us a patrolman, and if the council objects to it we would advise our mayor to appoint a special police for the safety of the people going and coming from the city after dark. We don't believe the council knows what they are doing when they refuse to allow a policeman for the Fifth ward at this time of year. Go ahead, Nat. give us a policeman over here and we will stand by it.

FISHER.

Edward Sheire is visiting in Evansville.

Miss Hazel Nesbit of the Marais is visiting Mrs. Holzinger.

Frank Hamilton of Fargo has been here the past week on business.

Mrs. Phalen, accompanied by her daughters, is visiting in McIntosh.

P. B. Hunter and H. O. Wik made a business trip to Fertile Tuesday.

Quite a crowd came over from Melvin Sunday and picnicked at the Bay.

Swan Ness and Olaf Messelt of Fertile came out for a good time Sunday.

Mr. and Mrs. E. Miller and Mr. and Mrs. J. Schwartz of Fertile spent Sunday here.

Edward Klinger came out from Crookston Sunday for a visit with his family.

Nils Peterson, a former resident of Maplebay, wheeled out the first of the week and visited with friends.

About 4:30 Tuesday morning, the residence of Mrs. L. A. Hunter was struck by lightning. The bolt entered a chamber but a short distance from a bed in which Mrs. Hunter and daughter Florence were sleeping, setting fire to several things near the bed. After playing along through the hall, where it divided, one bolt entering the siting room, passing around the wall and coming out through the postoffice. The other bolt entered the kitchen and set fire inside the cupboard. Fire was also discovered under the roof, but was extinguished. The house was considerably damaged, but strange to say nobody was hurt.

BIRKHOLZ.

Mrs. S. S. Trickey and daughters were welcome visitor son Sunday.

Magnus Klevea is out shaking hands with his friends again, having been quarantined for smallpox during the past few weeks.

Miss Sanby of Elbow Lake, who has been visiting her aunt at this place, returned to her home the last of the week.

Miss A. Hedlund, who has been staying with Mrs. Northrup for some time, is now spending a few weeks with her mother.

At the annual school meeting in our district the 20th inst, M. Rose Northrup was moderator. Ole Hendrickson was re-elected clerk. We are to have eight months of school, four months in the fall, beginning Sept. 1, and four months spring term, beginning April 1.

ANGUS.

Mrs. Perkins is visiting friends at Fosston.

ELDRED.

Ole Brun is shipping a car load of wheat from here.

O. M. Kasberg has received his car of Champion binders.

Carl Elg began erecting a dwelling house on his farm last Monday.

The car of prison twine for Eldred arrived on Wednesday morning.

The receipts of milk at the creamery were over 3,400 pounds on Monday last.

There will be a sociable in the hall on Friday evening, the 26th, for the benefit of the Eldred base ball team.

The Northwestern elevator at this place was burned to the ground on Tuesday morning. It was evidently set on fire by lightning. It contained no wheat.

CUT TO PIECES

Railroad Laborer Goes to Sleep on the Track

A man was killed Monday night between Sixth and Seventh streets, in Moorhead, by being run over by a G. N. train, just when or under what circumstances is not known. The remains were found yesterday morning at about 6 o'clock strewn along the track for a distance of thirty feet or more. There was nothing left of the head but a piece of the jaw bone and the largest portion of the remains in one piece was a leg. There seemed to be no way of ascertaining anything about the man, since there was nothing left of his clothes but shreds of cloth; so far as known no papers. It could not even be told whether he was an old or young man. Later it developed that the man was a railroad laborer who had been working on the Great Northern at Georgetown.

CROP PROSPECTS

Affecting Prices of Cereals--New York and Chicago Wheat Advances Four Cents.

MINNESOTA AND DAKOTA

Crops Damaged by Adverse Weather Conditions Partly Responsible.

New York, July 23.—The crowd which surrounded the corn ring was larger than usual yesterday morning. Brokers with their hands full of buying orders were constantly besieged by messenger boys bringing dispatches that told of continued hot, dry weather all over the corn belt. The bell at 10:30 o'clock transformed this nervous crowd of excited men. To the gallery it looked like a veritable bedlam. News coming in from the west told of advances in price and only added fuel to the excitement. There being few sellers, the price jumped rapidly. Even wheat was affected and before the day was out robbed corn of its leading place and absorbed most of the speculative interest itself. The bulls claimed that spring wheot wos being ruined by excessive heat, and the public evidently believing the report to a considerable extent, sent in a stream of buying orders.

Chicago, July 23.—Wheat opened strong yesterday and advanced 4¾c over Saturday's close. The strength in coarse grains, 1 to 1¼d advance at Liverpool and further confirmation of damage in the northwest were the factors. There was a splendid increase in commission house business. Shorts covered easily. There was nothing reported in the cash line. Southwestern advices were that the farmers were refusing to sell their wheat. Compared with the price of coarse grain, wheat looks relatively cheap. With a continuation of advancing prices in those cereals we look for wheat to sell higher.

The corn market was one of excitement and developed great strength, selling 4¾c higher than Saturday's close. The volume of trade was the largest since the upward movement commenced. Outsiders took local orders and carried the market up with a rush at times. There was no break nor signs of one in the western weather conditions, with the affected area extending in every direction. In our opinion, rain will now only tend to stop deterioration and may possibly restore the crop in some sections, but a few days more of heat and drouth will place it beyond recovery.

Oats shared in the excitement and strength of other markets. The feature of the trade was that holders were unwilling to realize. This kept the market bare of offerings all day. The continuation of the drouth is the factor. An immense demand is anticipated for the new crop owing to the failure of hay and fodder. Local stocks decreased 306,000 bushels and the visible supply decreased 1,080,000 bushels.

The Minneapolis Tribune of yesterday says of the situation: Wheat took a jump of 4 cents today over Saturday's close.

While grain men are reluctant to admit that the weather conditions in Minnesota and South Dakota are responsible, they readily give that cause a place, associating it with the strong oats and corn market, explaining that the advance is probably through sympathy with the other markets. Some declare that the other fellow got scared and rushed the price up.

However, the price is up and latest reports from various parts, particularly from the southeast, show sufficient cause for some alarm.

Crop reports from various quarters indicate conditions as follows:

Litchfield: Wheat on sandy soil light half crop; on good soil, one third damage. Late wheat will be a failure if heat continues.

Adrain: Corn in critical condition, and a few more days without roin will put it beyond recovery.

Dassel: Heot has domaged the wheat and will do more serious injury if it continues. Looks like 20 bushels to the acre now.

Morris: Many fields completely ruined by heat. Last year's crop damage was from excessive moisture.

Vining: Five to 10 per cent damage so far.

Henning: Every day of hot weather means so much more ruin.

Royalton: Hot weather has hurt early wheat 10 per cent; late wheat 20 to 25 per cent. Harvest ten days earlier on account of weather.

Crookston: Half crop. Too much rain and too much excessive heat.

Ashby: Wheat is being driven too fast by the hot weather.

Strayed

Four head of cattle strayed from my premises on July 3rd. Two black cows, one of which had been dehorned; one yearling, red and white heifer; one spring bull calf, black and white. Any one knowing the whereabouts of these, please communicate with—Joseph Prosbek, Angus. wkly. tf.

Plow Exhibition

The plow exhibition was held, os advertised, at Climax, Minn., by the Janesville Machine Co. A test was made between o 14 inch Janesville gong ond a 10 inch walking plow. Following is the committee report:

	Gang	Wolker.
Width of furrow, in.	27.90	14.50
Depth of furrow, in.	4.52	5.19
Number of square inches turned	142.05	65.54
Average draft, lbs. ..	700.	575.
Number of pounds to turn each inch	4.81	8.75
Number of draft pounds to turn same furrow as turned by gang..	700.	1280.
Percentage of draft doing same work	56	100

Land very heavy and wet, taking more than usual draft.

OLE. F. BRUN,
OLE ENGEN,
AUG. LINDBLAD,
Committee.

What do you think of this draft in this sized furrow? Don't you see how one man can pull it? It runs light, even in hard soil. Strongest. Best in stony land. We guarantee it to scour in any land. See this gang.

WANTS TEN THOU.

Cause Celebre in Norman County that Means Lot of Trouble.

TAR AND FEATHERS TALKED

Aggrieved Husband Brings Suit To Recover For Wife's Affections.

The village of Gary is at present in the throes of a scandal which concerns one of the most prominent men in northern Norman county. For two years ugly rumors have been afloat in that village regarding K. N. Bragestad and his relations with Mrs. N. T. Natwick, the wife of the former landlord of the Hotel Dewey. The facts in the case have been known to the citizens of the village for some time and there has been a good deal of talk about tar and feathers for the man in the case, but the wiser heads prevailed and trouble of this nature averted. Mr. Natwick has consulted legal advice and has engaged M. A. Brattland as his counsel.

Suit has been commenced by Mr. Natwick against Bragestad for ten thousand dollars, the charge being alienation of his wife's affections and adultery. The evidence on hand by the prosecuting parties is said to be very ample and convincing.

The clandestine meetings of the couple has been local history. The case will come up at the November term of district court.—Ada Herald.

VOL. XXVI CROOKSTON, MINNESOTA, THURSDAY, AUGUST 1, 1901 No. 17

KILLED ON DUTY

E. T. Van Hook Met Accidental Death at Two Harbors Saturday.

WAS THROWN FROM TRAIN

Three Months Ago He Married Miss Pearl Glassford Formerly of this City.

A telegram was received Sunday by Fred Walker from his wife, telling him of the accidental death of E. T. Van Hook, her brother in law, the husband of her sister, who was well known to many acquaintances as Pearl Glassford, and who was married but three months ago. The telegram was sent from Two Harbors, where Mrs. Walker's mother resides, and the story as told in the Duluth News-Tribune is as follows:

"E. T. Van Hook, formerly an operator in the general offices of the Duluth & Iron Range here, and later a brakeman in the employ of the road, was run over by a train of cars about 6:30 last evening and killed. The accident occurred near Two Harbors. An extra train was pulling up a track a short ways ahead of the regular train on which Van Hook was working. He was standing on the caboose at the time. Suddenly the air brakes of the first train refused to work and the cars slid down the grade and bumped into the locomotive behind. The jolt shook Van Hook from the caboose and he was run over by his own train, one wheel passing over his head," and death was instantaneous."

Mr. Walker left for Two Harbors last night to join his wife, who has spent the pst two weeks visiting her mother and sister at that place.

Mr. Van Hook was 25 years of age and his parents resided at Rochester, Minn., where his remains will likely be taken for burial.

"THEY'RE AFTER ME"

Butty Individual Shows up at Grand Forks Junction

About 10 o'clock Saturday night Chief Ryan of Grand Forks received a telephone call from the junction to come out and get a crazy man who had been captured there, and accompanied by Officer Lowe and Deputy Sheriff Gray, drove out, and brought the unfortunate man in. He is a stranger here and gives his name as Al Hanson. He arrived from Duluth Friday evening and has a ticket for Neche. It is supposed he was on his way to work in the harvest fields. He says he has been at work in the mines there and that a piece of ore struck him in the head Monday. It is possible that this may have affected his brain. Saturday afternoon late he was seen by several parties in the vicinity of the junction acting in a peculiar manner. Finally he jumped through a screen window into a farm house, and informed the startled inmates that "they" were after him. He made so much commotion that it was decided to send for an officer. He is now in the county jail.

An Infant Body Found.

One of the employes of the Lenning-Brown-Wright company, while crossing the Great Northern track in rear of the wholesale house Tuesday forenoon discovered the body of a female child lying on the ground between the tracks and the building. The remains were perfectly formed and had evidently been deposited where found but a few hours previously.

It is evidently a case of premature birth, but why the mother should take this means of disposing of the remains excites wonder. There is nothing in the surroundings to indicate who had deposited the fetus where found, and the piece of Fergus Falls Journal that enclosed its five inches of length had no name nor date upon it.

Coroner Chesterman is investigating the matter.

PROSPEROUS GENTILLY.

Cheese Factory Prospering and a Big Harvest in Sight.

Rev. Elie Theillon, of Gentilly, was here Monday securing material for the new parochial residence that he is building in connection with the parish church at that place. He reports activity in all lines there and says that Crookston can come there to see good crops and general good times. The new residence that he is building for a home is proceeding under the direction of W. E. Walker of this city, with whose work the people there are much pleased.

The cheese factory of the Gentilly Dairy association, which Rev, Fr. Theillon is lookin gafter, thereby materially adding in the prosperity of his flock, is taking the milk from a larger number of cows than ever before in its history, and every pound of its output is sold as soon as it passes the ripening period in the new cold storage plant that is a portion of the institution.

A very interesting ceremony was observed at the church in Gentilly yesterday that was attended by a large number of people. It was the occasion when twenty of the children received their first communion. All is well with the Gentilly people, and the future has happy days in store.

DEFENSE IS INSANITY.

Bill Erwin Lays Out the Line in the Barry Case

Langdon, July 31.—The announcement a few minutes after 4 o'clock yesterday by the prosecution that its case was finished and that the state rested caused unbounded surprise in the Barry murder trial. The defense had been given to understand that the prosecution would not be through until some time Wednesday, and consequently was not prepared to go on with the trial, as witnesses were not on hand. The court ordered an adjournment until 9 o'clock this morning.

Immediately on court convening the plan of defense was outlined by Attorney Erwin of St. Paul. He stated that evidence would be introduced to show that there was a strong strain of insanity in the family of the prisoner and read a list of fifteen to twenty names which he contended were the names of relatives of the prisoner who had been adjudged insane or who were known to have a weakness in their upper story. The list includes relatives on both sides of the prisoner's family and goes back as far as his paternal grandfather.

Mr. Erwin's remarks to the jury was a masterly, powerful and polished address, outlining briefly but distinctly the main points on which the efforts would be made to prove that the prisoner was not responsible for his acts at the time he killed Mellem. The address was listened to with the greatest attention by the large number gathered in the court room. The entire time of the morning session of the court was taken up in the opening address of Mr. Erwin.

WAS HORRIBLY MANGLED

Under a Train of Empty Ore Cars at Proctorknott.

James. Fritz, a young man about 22 years of age and employed as a brakeman on the Duluth, Missaba & Northern road, met death in the company's yards at Proctorknott yesterday in a terrible form, his body being mangled under a train of empty ore cars. Fritz came in with his train last night, and having finished his run, was switching a train of empty cars at the yards preparatory to quitting work for the day. This happened at 6 o'clock in the morning, and it was very foggy and difficult to see objects more than a few feet away. He had just thrown a switch and stepped back out of the way on another track, when he was [illegible] instantaneous as the body was badly cut up. Eight cars were derailed by the accident.

Branch Dead Letter Office.

A branch dead letter office will probably be established at St. Paul in the near future, says the Pioneer Press. On account of the enormous amount of work falling on the dead letter office at Washington, there is now a proposition on foot to divide the work and to establish branch dead letter offices in several of the biggest cities. St. Paul, as the principal office in the northwest, will undoubtedly be designated as one branch. The St. Paul dead letter office would cover the territory now covered by the railway mail service and the postal inspector's office, which have headquarters for the northwest in St. Paul. This means the Dakotas, Montana, Minnesota and a part of Wisconsin and Iowa.

Weed Burner in Action.

The weed burning device on the G. N. was run over the St. Hilaire line today, and while it stood in the yards awaiting the passage of the trains, was inspected by a large number of the curious. The machine consists of a huge locomotive rigged with an extension to the tender that has a number of burners which can be lowered to within a few inches of the rails. The fuel employed is crude oil and air is forced through the flame to an extent that gives it great heating power. The weeds and all vegetation on the grade the width of the roadbed is destroyed while the machine moves at a rate of two miles per hour.

Uncle Jo's Column

I wonder how folks are gettin' along about the mosquitoes out on the prairie these days? I can't help but pity 'em. The mosquitoes are the worst here in town I ever saw 'em. I declare I can't stand it to work out in the garden nights and mornings now, and in the middle of the day it's too hot to work, so between the two the weeds are having a fine chance. But that don't help my farmer friends out and I don't forget to pity 'em when the mosquitoes are bitin' me so unmercifully.

—o—

Then I'm afraid some of 'em have had too much water and some of 'em too many grasshoppers for good crops. Somehow I can't help pityin' folks that have trouble. I always do whether I know 'em very well or not. And while the crops generally look as if they are goin' to be real good, yet there's some of 'em that have suffered. But then, I'll tell you it ain't the least little bit of use to worry over things we can't help. Things that we can control we ought to be sure and handle the best we can and then take the rest as it comes, and not worry about 'em.

—o—

I wonder how that Journal corn is gettin' along? If there hasn't been too much rain for it, it ought to be gettin' along all right this weather. There's quite a number of the farmers figurin' on one of them Journal prizes, so they say, and I am goin' to watch out and see who gets 'em. I think there'll be a good lot of samples to select from. Julius Pleth is likely to have a good display of corn, too, from what I hear. Whether the money these prizes cost will find its way back into the pockets it comes out of or not, I don't know. But if it starts people to raisin' more corn, it'll do somebody good anyway.

—o—

It's turnin' out just as I thought it would about those Younger brothers. They're bein' lionized in great shape. That tombstone company they've gone to work for have had to set apart one hour in the forenoon and a half an hour in the afternoon for reception hours for 'em. And the crowds are goin' to see 'em every day. Why the fact is they're attractin' more attention now than any other two men in the state. And what's it all for? The only reason I can figger out for it is because they've behaved themselves so much better since they've been in there behind the bars than they did while they was outside and had their guns. It can't be claimed for 'em exactly that they're the best men in the state, for there's a whole lot of men who have behaved themselves just as well during the same 25 years as Jim and Cole have, and nobody is even goin' across the street to see 'em.

—o—

And so far as I know, there ain't scarcely a half a dozen newspapers in the state that ain't praisin' Jim and Cole for bein' so good and not shootin' their guards and knockin' their brains out against the walls of the prison. And they're doin' their best to sprout wings on 'em, and crystallize the glory they are givin' 'em credit for into a halo around their heads. It must make some of the other fellows there in the state's prison kind o' dizzy tryin' to figger out why they ain't gettin' a little praise too. For my part I hain't got the least bit of hard feeling' against Cole and Jim, but I don't believe I'll turn in and help canonize 'em just yet, anyway.

—o—

I like to encourage people in bein' good and stayin' good, and I like to give a man that's been a bad man and reforms, a whole lot of praise and encouragement for reformin', and I'll give him my hand and try and help him every time. But I ain't willin' to put such a man up as bein' any better for havin' once been a rascal, or to make the man that's always been a respectable citizen take a back seat while the reformed man is put at the head of everything. But I've found out one thing, there's just as much difference in folks as there is in anybody, and I'll have to take my choice in with the rest.

CANDY FOR SOLDIERS

As a Supplement to the Regular Ration.

The war department is shipping over 37,000 pounds of candy monthly for the use of the soldiers in the Philippines, the object being to encourage the soldiers to purchase it, on the theory that a crtain amount of saccharine matter will be desired as a supplement to the regular ration. Other armies have favorably reported the results of similar experiments and it is said that many physicians and scientists endorse the use of sugar as a regular part of army rations. The department of agriculture has recently published a bulletin on this subject and the general use of sugar in preserving fruits in confectionaries and the manufacture of druggists' supplies in the formation of tinctures and syrups of all kinds. The bulletin states that with the present demand and growth in consumption it will not be possible for our home producers and our insular possessions to furnish all the sugar we shall need, as the demand in the future in this country is sure to be progressive and extensive. This report is in line with the efforts of the secretary to encourage farmers to raise more sugar beets.

MIDSUMMER DRINKS.

Thirst Quenching and Cooling Concoctions of Home Manufacture.

At this season a cooling drink that is not only thirst quenching but healthful and appetizing, should be at hand in every home.

Oatmeal Drink: Put into a large pan a quarter of a pound of fine fresh oatmeal, six ounces of white sugar and half of a lemon cut into small pieces. Mix with a little warm water, then pour over it one gallon of boiling water, stirring all together thoroughly, and use when cold.

Lemonade Syrup: With one pound of sugar mix the grated yellow rind of six lemons, moisten the sugar with as much water as it will absorb and boil it to a clear syrup. Add the juice of twelve lemons, stirring it in well over the fire, but do not let it boil after the juice is added. Bottle the syrup at once and cork it when cold. Mix a little of this with cold water when lemonade is wanted.

ANTI-CONTAGION SCHOOL.

Dr. Rodermund Contemplating One for St. Paul.

Appleton, Wis., July 29.—Dr. M. H. Rodermund, the anti-contagion advocate who won a reputation by smearing his face with smallpox germs to prove the truth of his theories, plans a school in which he will teach his belief. The school is to be run in direct opposition to the old time medical theories, and the doctor says, though he does not expect a school with a thousand pupils all at once, he thinks that eventually he will have a big institution.

He states that the anti-vaccination league of America has promised to assist him in his endeavor. Dr. Rodermund has returned from a visit to Milwaukee and Chicago to look into the new medical school proposition, and on his return said though he was not certain what he would do, his belief was that St. Paul would afford a better field for the institution than even Chicago, where medical schools of the regular practice abound.

Dr. Rodermund, however, is just now short of funds. He spent all he had, it is said, in the publication of a volume on "The Murderous Fads of Modern Medicine." The book proved a failure. Its publishers throwing good money after bad, eliminating the "Murderous" from the title and sent out a second edition of 5,000 copies. Of the 6,000 copies printed, just forty have been sold at $5 each.

Now in his effort to spread his theories Dr. Rodermund has begun to advertise, saying that he will give a copy of the work free with every pair of spectacles he sells to his patients.

TROUBLE AT FELTON.

Business Man Absconds Leaving Affairs in Bad Shape.

The village of Felton, down below Ada, is all ripped up the back over a business matter, and there is talk of tar and feathers being used. The story is told in this way in a special to the Minneapolis Journal:

This village is divided in two determined factions as a result of developments in the settlement of the affairs of one of the leading business firms of Felton. Some time ago Martin Nelson, of the hardware firm of Nelson & Morgan mysteriously disappeared, leaving his business affairs in bad shape. Louis Gilbert, who was in charge of the store, has since settled the accounts of Nelson and yesterday when Mrs. Nelson, who has been taking in washing since Nelson's departure, came to the store and demanded a voice in the management Gilbert refused to recognize her interest. Mrs. Nelson took up her station in the store, and when Landlord Byfield attempted to bring her dinner in to her a hand to hand skirmish ensued between him and Gilbert.

The whole town has taken sides in the matter. Gilbert succeeded in barring out two young women who endeavored to take supper to Mrs. Nelson, which so enraged the supporters of Mrs. Nelson that tar and feathers were frequently mentioned, but that is not probable, as in the event of such an action a free for all fight would surely follow.

Mrs. Nelson was locked in the store last night, and at 10:30 a large crowd of citizens attempted to force an entrance with bed and provisions for her, but were met by Gilbert and his followers. Nearly every resident of the village gathered in front of the store, and each side is determined, and serious trouble may result.

INJURIES PROVE FATAL.

Conductor O. C. Todahl Died at the Brainerd Sanitarium.

O. C. Todahl is dead and buried. This information will bring sadness to the hearts of many who knew him while in the employ of the Great Northern. For a time a year ago he officiated as conductor on the St. Hilaire line, running out of this city. Something happened, as is frequently the case in railroad work, and Todahl was let out here. He went to the Minnesota & International, the line from Brainerd to Bemidji. The story of the accident that resulted in his death is told in the Brainerd Dispatch of last Friday as follows:

O. C. Todahl, who was injured in a wreck on the Minnesota & International, about three or four weeks ago, died yesterday afternoon at the N. P. sanatarium of sepsis.

The wreck occurred not far from Lakeport one night about the last of June. Todahl, who has been a conductor on the road for a long time, was at the time in charge of a switching crew. He was thrown off the top of a car and was dragged for some distance beneath the brake beams.

At the time he was taken to Bemidji where medical assistance was summoned but later he was brought to this city and taken to the N. P. sanatarium.

About a week ago the doctors at the hospital held a consultation and it was decided that an amputation of one of his lower limbs would be necessary and the operation was performed. Soon after the operation the patient began to grow very weak and seemed to fail gradually until yesterday afternoon when he breathed his last.

His wife had come to the city from Grand Forks, her home, and had been in constant attendance at his bedside, thinking constantly of his wants with a wife's affectionate solicitude.

The remains were taken to Grand Forks last night accompanied by Mrs. Todahl.

SUNDAY'S STORM.

North Dakota's Grain Laid Flat by High Wind.

Fargo, N. D., July 30.—Estimates of damage done by Sunday's storm are conflicting, and it is thought that much of the lodged grain will soon straighten up. Thousands of acres will have to be cut one way. Oats and corn are down worse than wheat. Some people assert the damage will be 5 per cent, though it may not reach that figure.

A heavy rain and wind storm prevailed in the afternoon over a good part of the state. The greatest damage is reported at Tappen, 125 miles west of Fargo, where it amounted to a tornado. A church, a store, some dwellings and some barns were blown down, and the Northern Pacific station was unroofed. The crop in the path of the storm, which was several miles wide, was totally destroyed.

In the Red River valley rain fell from the national boundary line all the way down the state line. In the northern part there was not much wind, but around Fargo and over in Minnesota there was a heavy straight wind which has lodged the grain some. The damage was made worse by the fact that the wind changed its direction during the storm and tangled the grain.

The wind attained a velocity of nearly forty miles an hour and blew for an hour.

Four Thousand Years Old.

Securely lashed on the forward deck of the German steamer Hohenfels, which arrived in New York recently, from Calcutta, was an Egyptian boat 4,000 eyars old, recently dug up out of the bed of the Nile. The boat is stoutly boxed up and was shipped at Port Said.

The ancient boat is for the Carnegie museum at Pittsburg. The marine curiosity is about twenty feet long, seven feet wide and five feet in depth.

Claimed a Fraud.

An action brought by the Aultman-Taylor Machine company to set aside a transfer of real estate as fraudulent was on before Judge Watts Monday. The facts are that M. M. Davis purchased a threshing machine from the plaintiffs in the case, and subsequently transferred to F. E. Hertz a piece of land that subsequently became the property of Mrs. Davis by another transfer. The company sought to set aside the transfer as fraudulent, but Judge Watts thought the evidence didn't justify and dismissed the case.

Columbia Won Again.

Batemans Point, July 30.—Columbia won in yesterday's race with the Constitution, crossing the finishing line at 2:45:33. Constitution finished at 2:56:47, two minutes and fourteen seconds behind the Columbia, as timed from shore.

GLEASON NAMED

Gov. Van Sant Again Honors Crookston With an Appointment

ON BOARD OF APPEALS

Of the State Grain Inspection Department---Excellent Choice.

A telegram was received by John Gleason late yesterday sent by Gov. Van Sant, notifying Mr. Gleason that he had been named as a member of the State Board of Appeals of the grain inspection department, for Minneapolis.

The news was not unexpected by Mr. Gleason and his friends, as the sentiment in his favor has been growing of late, and the satisfaction that his appointment would give the people of the upper Red River valley has been made plain to the governor.

The names of Mr. Gleason's colleagues on the board are not known, with the exception of F. L. Greenleaf, whose appointment was all along admitted. There are six members in all, three for Duluth and a like number for Minneapolis, and they will assume their duties at once.

The retiring member from this portion of the state is Mr. Alex McKinnon. He has made an efficient officer, and was deservedly popular, but a change had been decided upon, and the people of Crookston, whether they have known Mr. Gleason as a neighbor or a politician, will be pleased that he has been chosen for the position. His most prominent opponent for the place was W. L. Beaton of Fisher, who is not generally well known, but who had strong endorsements for the place.

Mr. Gleason is one of the long-time residents of Polk county, and during his fifteen years' residence in Fisher was interested in the grain trade. During several years he owned a private elevator and handled wheat exclusively. Later on he represented a commission house that handled flax seed to the farmers, and contracted for the crop raised by them, and in so doing had wide experience in judging the quality and grading the grain.

The appointment leaves no room for doubt that the state will be well served.

OVER SIX MILLIONS.

What the Strike Has Cost Up to Date.

Pittsburg, July 30.—Pittsburgers generally express the greatest delight in anticipation of the settlement of the steel strike and no one seems to have the slightest doubt that the negotiations for peace will have any other result but a cessation of hostilities, a laying down of arms to take up the tools of trade.

So far neither of the contending forces has suffered greatly. The weather has been exceedingly hot and the men look upon last month as a vacation during the heated term. Working under the severe strain of the oppressive heat lately would have been an unusual hardship at best and the men think that on this account, perhaps, many lives have been saved by the strike.

So far as the companies are concerned, they are also in better position for work now than they were before the strike. Many of their mills have been repaired and the conditions for an increased output are greatly improved. It is true that a computation of cold figures foots up a total loss of $6,510,000 on account of the strike, of which immense sum $3,960,000 is charged to the combine and $2,556,000 to the strikers, but this loss will soon be made up, owing to the better prices which now prevail and the improved operating conditions as well as the better feeling between the employer and employe.

A Good Sized Ant Story.

Hamilton, O., July 29.—For hours last Friday night and until morning the fire department had a battle with countless millions of winged ants which fairly took possession of the thoroughfares at sunset, rising in myriads from the river. They accumulated on the streets and pavements to the depth of two inches, emiting a sickening odor when crushed. Two big streams were turned on and early yesterday morning the bridge and air were finally cleared. Million of the ants were killed.

COUNTY BOARD

Adjourned Meeting Held Last Saturday -- Action on County Ditch

REPORT OF DITCH VIEWERS

Considered and Accepted and Same Was Located According to Petition

Official proceedings of the board of county commissioners of Polk county, Minnesota.

Pursuant to adjournment the board of county commissioners met in regular session July 20, 1901, with all members present.

The reading of the minutes of the last preceding meeting was on motion dispensed with.

The Road and Bridge committee submitted the following report, which was on motion accepted.

To the Honorable Board of County Commissioners of Polk County.

Gents: We, the undersigned members of the Road and Bridge committee, would respectfully report that we have examined the bridges on the Mentor ditch, built by the town of Grove Park, and would recommend that they be accepted and paid for, as per contract.

The proposition of Frank Mageau to put in vault door in register of deed's office was on motion rejected.

The following resolution offered by Commissioner McCarty was on motion adopted, all members voting in the affirmative.

Resolved that the report of the viewers in the matter of the construction of the county drainage ditch, No. 17, be and the same is hereby accepted, and the said ditch is hereby established.

Conformable to the foregoing resolution, the following order was made, establishing said drainage ditch:

State of Minnesota, County of Polk, ss.

WHEREAS, At a meeting of the Board of County Commissioners of the County of Polk, State of Minnesota, held on the 8th day of April, 1901, a petition signed by John O. Johnson and Peder Hagen, land owners whose lands were liable to be affected by or assessed for the expense of the construction of the work proposed therein, praying for the establishment and construction of a public county ditch along a route described therein, accompanied by a bond duly approved, as provided by law, was filed with the County Auditor of said County; and it appearing by proper evidence that at least thirty (30) days notice has been given of the pendency of said petition and of the time at which the same would be heard, as by law provided, whereupon the said Board did, at its session on the 8th day of April, 1901, proceed to hear and determine said petition; and said Board having determined that the construction of such ditch would be of public benefit or utility, or conducive to the public health, convenience and welfare, we did accept said petition, and thereupon did appoint, as viewers of said proposed work, three (3) resident freeholders of said Polk County, who are not interested in the construction of said proposed work, and are not of kin to any of the parties interested therein, and directed them to meet, preparatory to commencing their duties as such viewers, at the office of the county auditor of said county, at 10 o'clock a. m. on the 20th day of April, 1901; and it appearing to the satisfaction of said board that certified copies of the said petition and order of said Board appointing them as said viewers was issued to and served upon said viewers, as by law provided, they proceeded, at the time set in said order, with a surveyor who is a civil engineer, and made an accurate survey of the line of said county ditch from its source to its outlet, and did cause stakes to be placed along said line at each 100 feet, aa numbered progressing down stream from its source and made and filed a report thereof; and reported that said county ditch would be of public utility; and in their said report made the necessary computations and assessments, description of location, the land through which the same would pass, the names of the owners, and the damages or allowances thereto, the expensa attending to such work, and all the estimates, as required by law, duly sworn to as by law required. And the auditor of said county of Polk did, after the filing of said report, cause a notice to be given, to be published, posted and mailed, as by law provided, of the pendency of said petition and of the time and place set for the hearing thereof.

Now, therefore, we, the board of county commissioners of said county of Polk, having met in session at the time set for hearing of said petition, to-wit, the 9th day of July 1901, and adjourned to the 20th day of July, 1901, and proceeded to hear the same, and having found that the report of said viewers is made according to the provisions of law, and that the proposed county ditch to be of public utility, or conducive to public health, or of public benefit and convenience, and from evidence before us, that the estimated benefits of said work is greater than its total cost, including damages awarded, do hereby locate and establish the said county ditch according to the report of said viewers appointed and acting as aforesaid.

A general description, starting point, route and terminus of said proposed ditch is as follows: Commencing at a point on the county line between Norman and Polk counties, 59 rods west of the southeast corner of Section 31, Town 147, Range 43, in Polk county, Minnesota, thence running north ninety rods, into the northeast quarter of the southeast quarter of said Section 31, thence running east 90 rods into the northwest quarter of the southwest quarter of Section 32, thence diagonally northeast across the northwest corner of the northeast quarter of the southwest quarter of said Section 32, diagonally across the southeast quarter of the northwest quarter of said Section 32, and on northeast to a point in what is known as the "Garden Slough Creek," in the N. W. ¼ of the northeast quarter of said Section 32, fourteen rods east of the quarter line and 33 rods north of the forty line in said northwest quarter of the northeast quarter of said Section 32, and to continue down said creek in a northwesterly direction to where it empties in the Sand Hill River, in the said northwest quarter of the northeast quarter of Section 32, Town 147, Range 43, in said county of Polk.

The computations and allotments, the amount of benefits and damages assessed to each of the tracts of land and the owners' names are as stated in viewers' report, Exhibit "E," on file in the office of the county auditor of said county of Polk.

Given under my hand this 20th day of July, A. D. 1901.

By the board, —K. O. Bratvold,
Chairman Board of County Commissioners of Polk County, Minnesota.
Attest: John Petterson,
County Auditor.

The following resolution offered by Commissioner McCarty was on motion adopted:

Whereas, a certain agreement by and between the board of commissioners of Polk county and the board of commissioners of Norman county, entered into July 20th, 1901, whereby the board of commissioners of Norman county agrees to pay to Polk county the sum of $1,267, according to the terms of said agreement. Therefore, be it

Resolved, that said agreement be and is hereby accepted, and be it further

Resolved, that the county auditor of Polk county be instructed to credit ditch fund No. 17 with tha said amount of $1,267 when said amount is received from said Norman county.

The application of John Carlson for the correction of assessment and abatement of taxes on lots 23-24, block 12, Sampson's addition to Crookston, was referred to the finance committee of the city of Crookston for recommendation.

The following opinion of W. E. Rowe, county attorney, was accepted and ordered placed on record:

To the Board of County Commissioners of Polk County, Minnesota.

Gentlemen:—You have asked me to give my opinion upon the question as to whether you should allow the sheriff of our county any compensation for his efforts in attempting to find property to satisfy the tax warrants returned by him uncollected. In my opinion I would say that there is no law or principle that requires or compels any person or being to perform a service for the exclusive benefit of another without being entitled to a commensurate compensation or reward. In other words, the sheriff is no more a slave or a serf than any other being or individual.

The supreme court of our state in the case of Grundyson vs. Board of Commissioners of Polk County, (57 Minn., 212) decided that the sheriff should receive for all actual travel or mileage incurred by him on the uncollected tax warrants the regular fees for mileage allowed upon other writs. I understand you believe the force of this decision and the case itself overruled by the decision of the court in Chappel vs. Board of Commissioners of Ramsey county, (71 Minn., 18.) In the case last mentioned the only point involved was as to the right of the sheriff to collect fees for making returns upon some 5,154 tax warrants of no property found,—there was no question of mileage in that case. The court very properly held that the sheriff was not entitled to any compensation for simply making a return of no property found, for to so hold would be to place a premium upon the neglect of the sheriff to perform his duties. In the case under consideration, I understand the sheriff makes no claim for endorsing his return upon the warrants of no property found, but simply for his actual mileage. If he has traveled and incurred great expense in attempting to find property upon which to make distraint to pay the personal property taxes of divers delinquents, it seems to me that he has been guilty of no neglect and that if he receives any compensation for his actual travel in so doing, he would be receiving pay, not for any neglect on his part, but for services actually performed.

It is true, the supreme court in the Chappel case seems to intimate that the only officer entitled to any compensation where the tax warrants are returned uncollected is the clerk of court, deciding, as it does, that the mention of one thing is the implied exclusion of any other, and for that reason the sheriff should receive nothing because he is not mentioned in the list of those entitled to compensation where the warrant is returned uncollected, but by the same principle, rule or reasoning, the sheriff should be entitled to fees for actual travel incurred in attempting to satisfy the uncollected tax warrants. Why? Because the supreme court in the Grundyson case held that the sheriff was entitled to compensation for actual travel, and in the Chappel case they overruled the Schmid case which allowed the sheriff fees for making returns upon uncollected tax warrants, but neither expressly nor by implication, although referring to it, overruling or disapproving the Grundyson case. Therefore the Grundyson case, both upon reasons of common sense and common honesty, should govern.

Yours respectfully,
—W. E. Rowe,
County Attorney.

On motion the following agreement was ordered placed on file:

This agreement made and dated this 20th day of July, 1901, by and between the board of county commissioners of Polk county, Minnesota, and the board of county commissioners of Norman county, Minnesota, witnesseth:

That whereas, petitions have been presented to the respective boards of commissioners aforesaid, for the construction of a ditch, having its commencement in the town of Bear Park, in Norman county, Minnesota, and terminating in the township of Garden, in Polk county, Minnesota, known as the Bear Park and Garden ditch No. 17; and whereas, tha benefit to be derived from the construction and maintenance of the said ditch is greater to the county of Norman and the lands in that part of Norman county where the ditch has its commencement than to the lands in Polk county; and whereas the cost of constructing that portion of the ditch in Polk county, Minnesota, is greater than the actual benefits to the lands in Polk county; and whereas, the board of county commissioners of Norman county believing that lands situated in the county of Norman should be assessed for the benefits to be derived from having an outlet to the said ditch and that lands in said Norman county should be assessed according to the benefits to pay that portion of the cost of construction of the ditch in Polk county over and above the actual benefits received by the lands in Polk county, and which said excesss is hereby agreed to be the sum of Twelve Hundred Sixty-seven ($1,267.00) Dollars.

Therefore, it is agreed that in consideration of the promise on the part of the board of commissioners of Polk county to establish and construct that portion of the ditch situated in Polk county, the board of county coms. of Norman county hereby promise and agree to pay unto the Co. of Polk the said sum of Twelve Hundred Sixty-seven ($1,267.00) Dollars to aid Polk county in constructing that portion of the ditch situated or located in said Polk county, which said payment the board of county commissioners of Norman county aforesaid hereby promise and agree to pay into the treasury of the county of Polk to aid, as aforesaid, in constructing that portion of the ditch located in Polk county, as soon as the contract for constructing the said ditch in Polk county is let to the contractor.

And in consideration of the payment of the said sum of money, by the said county of Norman the board of commissioners of Polk county hereby promise and agree to establish and construct that portion of the said ditch situated in Polk county, aforesaid; and it is hereby understood and agreed that the portion of the ditch situated or located in Norman county has been ordered established.

Balance of emergency fund, unexpended at the expiration of one year from the completion and acceptance of said ditch, to be refunded to counties in proportion to amounts paid by each.

In testimony whereof, the several boards of commissioners hereto have hereunto, within their respective counties after resolutions having been offered and adopted for that purpose, subscribed these presents.

The Board of County Commissioners of Polk County, Minnesota.
By K. O. BRATVOLD,
Chairman.
Attest: JOHN PETTERSON,

Clerk of the board.

A GOOD THING.

German Syrup is the special prescription of Dr. A. Boschee, a celebrated German Physician, and is acknowledged to be one of the most fortunate discoveries in Medicine. It quickly cures Coughs, Colds and all Lung troubles of the severest nature, removing, as it does, the cause of the affection and leaving the parts in a strong and healthy condition. It is not an experimental medicine, but has stood the test of years giving satisfaction in every case, which its rapidly increasing sale every season confirms. Two million bottles sold annually. Boschee's German Syrup was introduced in the United States in 1868, and is now sold in every town and village in the civilized world. Three doses will relieve any ordinary cough. Price 75 cents. Get Green's Prize Almanac. F. H. Hillard & Son. 2

The Great Northern will put in a new freight depot at Willmar.

TWO BOYS DROWNED

One a Son of Geo. Harris Well Known in Crookston

News reached the city today of the accidental drowning of Allan, the 18-year-old son of Geo. L. Harris of Wahpeton.

The young man had gone from his home to Clitherall, where he was spending a few days accompanied by a friend, Chas. Hull, also of Wahpeton, at one of the lakes in Otter Tail county. The two lads were bathing, got beyond their depth and both drowned before relief could reach them.

Young Harris is well known in this city, where he has frequently visited during the time his father occupied the position of station agent of the Great Northern at Euclid and Warren. Last year he accompanied his father here on a hunting trip, and is remembered as a man of great promise, who bid fair to develop a manly character.

The other lad who suffered death at the same time was younger than Harris, being but 16 years of age. The two boys were chums, and had been enjoying a few days' outing at the lake when the accident happened.

The friends of the parents of young Harris will sympathize with them in their bereavement.

IT DAZZLES THE WORLD.

No discovery in medicine has ever created one quarter of the excitement that has been caused by Dr. King's New Discovery for consumption. It's severest tests have been on hopeless victims of consumption, pneumonia, hemorrhage, pleurisy and bronchitis, thousands of whom it restored to good health. For Coughs, Colds, Asthma, Croup, Hay Fever, Hoarseness and Whooping Cough it's the quickest, surest cure in the world. It is sold by A. G. Anderson, who guarantees satisfaction or refunds money. Large bottles 50c and $1.00. Trial bottle free.

LAND FOR SALE.

All of sections 23-25 and 29, 156-46, for sale with small payment down, balance on 5, 10 or 20 years' time. Low rate of interest. Address B. A. Plummer, Forest City, Iowa.

By a recent decision of the government, Gull Lake will no longer be known by that title. The lake hereafter will be known as Big Medicine Lake, the name given it by the Indians many years ago.

CHIPPEWA RESERVE

Definite Action for Opening Taken by People Out East.

HERE'S HOPING THEY'LL WIN

Commercial Bodies Interest Newspapers and Congressmen.

Cass Lake, Minn., July 26.—The people who are most interested in the opening of the Chippewa Indian reservation are commencing to move in earnest toward the consummation of their wishes and what they consider their rights. On Wednesday evening a joint session of the Commercial club of Cass Lake and the Industrial association of Walker was held at the Strawhridge hall, Cass Lake. The attendance was very large, and after a full discussion of the subject, the following resolutions were unanimously adopted:

"Be it resolved by the Commercial club of Cass Lake and the Industrial association of Walker, Minn., in joint meeting assembled, that the time has arrived when some decisive action should be taken by the secretary of the interior and congress looking to the immediate opening of the Chippewa reservation, the disposition of the timber thereon and the settlement of the agricultural lands.

"For years the people of this section have waited patiently and anxiously for some executive or congressional action looking to the objects set forth above, and up to the present time nothing has been done. The people came here with the reasonable expectation that the Chippewa reservation would be thrown open to settlement and the pine timber disposed of in some manner. Session after session of congress has passed and nothing has been done in the direction hoped for by the people in this section of Minnesota.

"The withholding of the Chippewa reservation from settlement and the sale of the pine timber thereon is retarding the growth and development of northern Minnesota, besides working a gross injustice upon the Indians, who have every reason to expect that the provisions of the Rice treaty be fulfilled. The spirit of restlessness now exhibited by the Indians is caused by their growing belief that the government is not keeping good faith with them under the provisions of the aforesaid Rice treaty, and that their heritage is being slowly but surely frittered away in useless and unnecessary expense for the maintenance of superintendents and other employes.

"We believe that the best interests of the general government and the Indians would be subserved by the immediate opening of the Chippewa reservation and the sale of the standing pine thereon under what is known as the bank scale, so successfully carried out under the direction of Captain Mercer while in charge of the La Ponte agency in Wisconsin. Under this plan there is an honest disposition of the timber, and the best interests of the general government and the Indians were alike protected and cared for.

"Be it further resolved, that we deem it good policy of the government to reserve from public disposition what is known as the peninsula on the south arm of Leech Lake, and the historic Bear island in Leech Lake, and the two large islands in Cass Lake, said reservations to be used for park purposes.

"Be it further resolved, that should it, from any unknown reason, seem advisable to the government to withhold for the present the sale of timber, we respectfully ask that the agricultural lands of the entire Chippewa reservation be thrown open to settlement, at the earliest time, under the provisions of the Nelson law.

"Be it further resolved, that we highly appreciate the services of Capt. W. A. Mercer, acting Indian agent at Leech lake,, and heartily endorse his admirable and business like administration of the affairs of the Indians since he took charge of matters on the reservation. He has handled every delicate question in connection with the administration of his duties in a manner that has won for him the confidence and respect of both whites and Indians, and we firmly believe that it would be for the very best interests of the goverument and the Indians should Capt. Mercer be given exclusive control of all matters in connection with the opening of the Chippewa reservation, disposition of the timber and the settlement of the agricultural lands.

"Be it further resolved, that copies of these resolutions be sent to the United States senators and members of congress from the state of Minnesota, to the honorable secretary of the interior, commissioner of Indian affairs, Capt. W. A. Mercer, acting Indian agent at Leech lake, and the newspapers of the Twin Cities, Duluth, Crookston, Grand Forks, and all other papers published within the state."

A Few... Bouquets

Bagley Indspendent: The Crookston Daily Journal comes out this week enlarged to a seven column folio. The Journal is fast gaining the reputation of being a first class daily.

Ulen Union: The Crookston Daily Journal commenced its second year Tuesday by adding one more to each of its pages. Well, here is luck.

Ada Herald: The Crookston Daily Journal was one year old last Tuesday and now comes out enlarged to a seven column folio. Brother Gordon has made several improvements in the Journal since he purchased it and now has the best newspaper plant in northern Minnesota.

Thief River News: The Crookston Daily Journal celebrated the first year of its existence last week by being enlarged. The Journal is without doubt the most progressive newspaper in the Red River valley.

Marshall County Banner: The Crookston Daily Journal has been enlarged and generally improved. It is a newsy sheet, and what more does anyone want?

JOINT CALL ISSUED

By Speaker Dowling and President Smith.

Acting in accordance with the suggestion of the Minnesota State Agricultural society, Speaker M. J. Dowling, of the house of representatives, and President Lyndon A. Smith, of the senate, have caused to be issued a joint call for the assembling of the legislature on the grounds of the state fair at 11 o'clock on the morning of Sept. 3. This is not altogether an innovation, as the plan was adopted last year, and a very satisfactory reunion of the law makers of the state was held.

It is not at all doubtful that the members of the legislature will comply with the call and meet at the fair. The custom is one which has received the very warm approval and commendation of the citizens of the state, and there are many obvious reasons for sustaining the precedent.

The official call signed by the speaker and president was issued Saturday and reads as follows:

To the Members of the Minnesota Legislature:

The Minnesota State Agricultural society has suggested that the legislature hold reunions upon the grounds of the society during its annual fair. A successful reunion was so held last year. The undersigned believe that an annual reunion is desired by many of the senators and representatives; and, therefore, they issue this as a call for the members of the legislature to meet on Tuesday, the 3rd day of September, 1901, at 11 o'clock in the forenoon, at the Institute building on the fair grounds, which the Agricultural society kindly tenders for the occasion. It is hoped that every senator and representative will be present.

—M. J. Dowling,
Speaker of the House of Representatives.

—Lyndon A. Smith,
President of the Senate.

GRASS TWINE PLANT

Will be Started at Superior within the next Sixty Days

It is expected that everything in connection with the Superior grass twine plant will be connected up and in shape to start within the next sixty days. It is known to be the intention of the company to have all of the machinery in shape within that time and there will soon be a scurry at the plant to carry out the plans of the company.

The company is figuring on having more machinery than it has in the plant at the present time and will shortly have it here ready to be installed. It is expected that this and everything else will be in the plant within the sixty days inside of which the company wishes to put the plant in operation.—Duluth Herald.

Chief Ryan's Father Dead.

L. E. Gossman received a special delivery letter Monday in time to take the train for Grand Forks, where he was called on account of the sudden death of Thos. Ryan, father of Chief Ryan of the police force of that city. Deceased was an old gentleman and had come from Cresco, Ia., for a visit to his son. He was intending to come to Crookston Monday for a visit with Mr. Gossman, and the uncertainty of life is emphasized by the fact that a message telling of his death came instead.

She Didn't Wear a Mask.

But her beauty was completely hidden by sores, blotches and pimples, till she used Bucklen's Arnica salve. Then they vanished as will all eruptions, Fever Sores, Boils, Ulcers, Carbuncles and Felons from its use. Infallible for Cuts, Corns, Burns, Scalds and Piles. Cure guaranteed. 25c at A. G. Anderson's.

Albert Wagner, while in a boat on Blackduck lake, was mistaken for a moose and received a shot from one of his own party, through the back of his hand. If the bullet had gone four inches out of its course Albert would have been boating on the Styx now.

KILLED IN A BOAT

Nephew of D. E. Gorton Struck by Lightning at Winona on Saturday.

HE WAS WITH OTTO SCHARF

A Brother of Will Scharf of this City, Who Was Severely Stunned.

Will Scharf, bookkeeper for Larsen & Carpenter, has been informed of the narrow escape from death of his brother Otto, at Winona, on Saturday by a stroke of lightning that was more cruel to his brother's companion, Vliet Allen.

The two were out on the Mississippi river in a small boat, when a blinding flash came and young Scharf knew nothing more for some time—just how long he does not know. When he regained consciousness the storm was still raging and he was afloat in the boat. A vivid flash of lightning disclosed his companion lying in the bottom of the boat stone dead. Mr. Scharf was still stunned and dazed, and it was some time before he recovered sufficiently to be able to move. The boat finally drifted ashore and he managed to get out and reach a house where he made known the condition of things.

Deceased was a nephew of D. E. Gorton of Foston, who passed through Crookston last night enroute to Winona to attend the funeral. The strange thing about the occurence is that the bolt did not kill both the young men, or that it did not tear the boat to pieces, and drown young Scharf.

A POOR MILLIONAIRE.

Lately starved in London because he could not digest his food. Early use of Dr. King's New Life Pills would have saved him. They strengthen the stomach, aid digestion, improve appetite. Price 25c. Money back if not satisfied. Sold by A. G. Anderson, druggist.

The common council of Blackduck has decided to economize. The street commissioner and police force has been discharged and like Crookston, the council proceedings are not to be published for a while.

A man out at Tenstrike was arrested for swiping the bell from the school house. He got clear on the plea that he circulated a subscription to pay for it, and only received 25 cents; the balance he paid out of his own weasel skin.

SOLVING THE LABOR QUESTION

Mr. H. L. Creager, of the little city of Washington, Ind., employs in his factory about one hundred men in the manufacture of bent-wood products. He has added to his establishment everything that would seem to add to the comfort and elevation of his employes. He has always evinced a strong interest in meeting the question, "Am I My Brother's Keeper?" and has inaugurated a plan for benefiting his men which, if it were generally followed by employers of labor, would unquestionably abolish the great jealousy now existing on the part of labor toward capital and settle the trouble existing between labor and capital. Every morning as the workmen gather at his factory to commence their day's work, the first fifteen minutes of the ten hours for which they receive pay is devoted to a discussion of the practical truths of the gospel, by an earnest minister, who is employed by Mr. Creager for that especial purpose. The subjects are chosen carefully with special reference to the needs of the men and presented in an earnest, loving way, and the men are interested and attentive. The experiment has been continued for several months and no employe has been late to this service, but all seem deeply interested in it.

Every man is paid for the time so spent, and the minister is also on the factory pay roll, and receives a weekly check for his services. Mr. Creager is enthusiastic over the visible results of this plan, already manifesed among his men. They are brighter, happier and more cheerful and the future has assumed for them a golden glow where before there was ony a dreary gloom. The experiment is one well worth imitation by employers of labor.

Gov. Van Sant has done well in the selection of a member of the board of appeals of the state grain department in choosing John Gleason of Crookston to fill the position. By the terms of the law under under which the board was created, one member of each of the boards at Duluth and Minneapolis must be a democrat or populist. This portion of the state has been well represented by Mr. Alex McKinnon, who has made many friends among the farmers and grain men in the state. For various reasons a change was decided upon, and since it was to be, the natural conclusion was to continue the membership from northern Minnesota in the same political lines. Mr. Gleason is a careful, conscientious, reliable man, has had much experience in handling grain in former years, and his appointment will please the people of northern Minnesota better, perhaps, since a change was to be made, than that of any other man, while it will be equally acceptable to all interested when his ability becomes known to all.

The Minneapolis Journal sums up the situation as to the corn crop this way: "The great drouth in the corn belt is ended and after all it appears that serious as was the injury to corn, varying to 70 per cent in some states to 30 per cent in others, the farmers as a whole have not suffered any irretrievable loss. They have less corn, but they will get so much more for it that their net income from that product may be as large this year as last. But in the drouth region itself the wheat crop was so large that the farmers are likely to have more money this year than last, after all the perturbation of the last few weeks The rains of last week insure good late pasturage and have come soon enough to leave time for fodder crops thus preventing the hasty marketing of beef cattle. All in all the situation is far from being discouraging and it is doubtful if the year can be classed lower than 'average' from the agricultural stand point.

Here's the way Editor Deacon of the New Era feels about the school election: "The blow is struck at last, and by the hand of women; the ladies of St. Vincent turned out last Saturday evening, as they usually do before a storm, and elected Mrs. Noyes clerk of the district school board, and opposing candidates went like chaff before the wind. One great lesson this election has taught us, namely, us men must hang together or we shall hang separately; there is no telling when the next calamity may occur; at any time some demure looking person, in peticoats, is liable to bob up and demand our office of town clerk. Truly we are living in perilous times. It behooves the men to form a trust.

The Thief Lake Journal, Vol. 1, No. 1, came to our exchange table this week and is a very clean specimen of juvenile newspaperdom, the latter phrase applying only to its age. It is mature enough in make-up and is filled with as good news matter as the country in which it is issued will provide. It comes from eastern Marshall county, Ware, a new postoffice, being its home. The youngster bears a name that is commendable—a name that will bring it success—reference being made to the Journal end, not the Thief portion of it. Long may it live and thrive on legal and land office notices.

The Hallock News has become an all-at-home print now, and Editor Nelson is punching up his country correspondents to send in live matter to make the paper interesting. Such prosperity pleaseth friends of the News—and all the Valley fraternity are its friends.

There have been 2,105 petitions in bankruptcy filed in Minnesota since the Nelson law went into effect three years ago. Of these, 942 were filed in the Minneapolis district, 520 in St. Paul, and the balance in the Fergus Falls, Mankato and Duluth districts, these districts coming in the order named. Minnesota had less cases than any other northwestern state except South Dakota, which is a fine showing considering Minnesota's popuation.

A London publication called "Country Life" carries twenty pages of advertisements of English homes for sale. When one is sold, the purchaser is almost invariably an American, as the owners want ready cash. It looks as if the whole tight little island might be largely owned by Americans within a few years.—Minneapolis Journal.

June 30 there was still 104,970 acres subject to homestead entry in the St. Cloud land district. Cass county leads in vacant lands with an acreage of 32,380; Aitkin county is next with 17,440. Crow Wing county follows with 9,290; Pine county, 9,080; Itasca, 3,440 acres. During the year preceding June 1, a total of 40,310 acres were homesteaded in the St. Cloud district.

The Youngers are likely to call on you to take your measure for a monument, says the Minneapolis Journal. This is a new départure with them; they formerly did not stop to take any measurements when they were arranging for a boom in the tombstone market.

In Illinois any husband who abandons his wife or any parent or parents who abanodn a child under 12 years of age, can be fined $500 or be sent to prison for a year. This law has been in effect since July 1.

The Owatonna Chronicle is six years old and better, brighter and newsier than ever.

Amputation Lengthens Life.

An interesting theory on the lengthening of life by the loss of a limb is advanced by a writer in the Des Moines Register. This writer is said to be an authority on the supplying of missing physical members, and he makes the statement that the amputation of a limb or two tends to prolong life. He claims to be familiar with more than 60,000 cases of dismemberment, and from them declares that it is a fallacy to think that people's lives are shortened by the loss of an arm or leg. He cites very many cases in support of his statement and he concludes that men who have lost a limb or two by amputation have lived longer than would have been their lot had they never been injured.

Another thing that he says is most striking. He declares that there is no insanity among maimed men, and that suicide is infrequent; that cheerfuiness among men that have been curtailed of a limb or two is the rule. His conclusion is as follows: "On the whole I think it is safe to say that there is generally a better physical and mental condition, and a consequent freedom from despondency among the maimed. By comparison, the gouty, the rheumatic and the dyspeptic all call for the sympathy of the cripple."

The theory is that vitality is more concentrated, that the man who has lost his legs has more powerful arms; that the four senses remaining to the blind man are far more acute than they were before the blindness came, etc.—Grand Forks Herald.

Cheerful Crop News.

The wheat experts have studied the situation in the Dakotas and Minnesota and have made public their estimate of the wheat yield of the year. Of nine of these gentlemen quoted by the Minneapolis Times three put the crop at 200,000,000 bushels; one, at 190,000,000; two, at from 180,000,000 to 200,000,000; two, at from 185,000,000 to 190,000,000; one at from 175,000,000 to 200,000,000.

All the experts made an allowance rating from 15 to 20 per cent of a crop for damage in southern Minnesota and South Dakota. The unanimous opinion is that if the weather holds, North Dakota will show the biggest crop in her history. Northern Minnesota is also credited with a bumper crop.

Throughout all the northwestern wheat region there is a plaintive cry for harvest hands, the supply being considerably less than the demand. These prospects of a good crop are noted with interest at the head of Lake Superior. The crop failure of 1900 affected Duluth not a little and cut Superior's prosperity to the bone. The ominous crop news of a few weeks ago was disheartening and the announcements put heart into some who were the victims of the blues.—Duluth News-Tribune.

Tramps' Convention.

The hoboes, tramps, tourists, or whatever name the Weary Willies may be known by, are to hold their next convention in Oakland, Ill., on Sept. 23. The last convention was held at a town called Britt, in the state of Iowa, but the members of the order complained that the people there were very inhospitable and refuse to return to that place. So they decided to take a place where they understood they would be welcome. Oakland was selected as that place. One of the wealthiest residents of the place will throw his summer resort open to the visitors. The sheriff of the county threatens to round up the tramps if they attempt to gather in that section. But with the "moral sentiment" of the community behind them the tramps are pretty certain of a warm welcome.—Grand Forks Herald.

PLEA FOR FORESTRY.

Resume of the Address Delivered Before Training School.

The following is the pith of an address before the summer school at Crookston, July 26, by General C. C. Andrews:

Forestry is the raising of trees for profit rather than for ornament. It is a great economy for us here in Minnesota because the pine has its home here and will flourish on land that is unfit for cultivation. It, however, takes an average of 80 years for pine to reach merchantable size in such soil and the state must engage in the work if it is to be done. Hence those should understand the question who form public sentiment.

Let us suppose that on a 1,600 acre tract of land, too hilly, too rocky, or too sandy for farming a beginning was made 80 years ago to plant it with pine. The first year 20 acres were planted and each succeeding year 20 acres were planted. This year completes the rotation, and cutting can now begin with the 20 acres first planted. It is now a normal forest. Next year 20 acres more can be cut and so on indefinitely. Probably over a good part of the 20 acres being cut this year a young crop of pine has started; if not the bare places will be planted. By judicious cutting and gradual admission of light, also taking advantage of years when pines bear full crops of seed, which is every three years, natural re-growth can be effected. The forest is to be treated as an inviolable capital. The trees are to stand crowded when young to promote high growth. When in your travels you see poor soil that is lying idle, remember that if forested it would yield a good income. If the 3,000,000 acres of waste land in Minnesota were now a normal pine forest, its annual growth would be 600,000,000 feet of the net value standing in the woods of $2,400,000. That would be the net value of the annual harvest without impairing the forest; besides yielding wages to thousands of people; and besides the indirect benefits, such as water supply in streams, salubrity of climate and beauty of landscape. The forest would not be in one body for it would occupy only waste tracts. Farms and villages would be interspersed. It would be traversed by good roads.

Baden from 240,000 acres of state forest derives a net annual revenue of $667,000; Saxony from 432,000 acres of state forest has revenue of $2,000,000; Prussia from 6,000,000 acres of state forest derives a net annual revenue of $9,000,000; mostly non-agricultural land in each case.

"I wish," said Channing "to live in a country that is making the world its debtor by its discoveries of truth." Minnesota borrowed its sytsem of ballot from Australia. What is there that we have that was not borrowed from some other state or country? But here in forestry our state has a golden opportunity of furnishing an example and lesson to her sister states of supreme value, if she will act with promptitude.

OUT OF EXISTENCE

Five State Boards Will Cease to be at Midnight

St. Paul, July 31.—Five state boards will be wiped off the slate at midnight tonight, giving up all their duties to the state board of control. The boards which die, and their present membership, is as follows:

Trustees of state hospitals for insane: John Heinen, Hastings; Joseph H. Wagoner, Rochester; John W. Mason, Fergus Falls; Nels H. Hanson, Anoka; Asa W. Daniels, St. Peter.

Board of managers of state prison: E. W. Wing, Breckenridge; Frank Temple, Blue Earth City; B. F. Nelson, Minneapolis; Roscoe A. Bronson, Stillwater; Anton C. Weiss, Duluth.

Board of managers of state reformatory: Geo. R. O'Reilly, St. Paul; H. S. Griswold, Chatfield; David H. Evans, Tracy; Geo. W. Stewart, St. Cloud; J. G. Hultkranz, Minneapolis; R. C. Saunders, Pine City.

Managers of state training school for boys and girls: N. O. Werner, Minneapolis; Wm. C. Krise, Red Wing; C. H. Pettit, Minneapolis; Wm. Pitt Murray, St. Paul; Peter Nelson, Red Wing.

Board of corrections and charities: Gov. S. R. Van Sant, ex officio; Chris Amundson, St. Peter; Wm. F. Folwell, Minneapolis; John W. Willis, St. Paul; H. M. Richardson, Rochester; E. C. Gridley, Duluth.

The state board of charities and corrections held its own obsequies yesterday afternoon. It goes out of existence tonight and the board of control will assume its duties. Gov. Van Sant presided. Acting Secretary Gates presented his final report.

Increased Five Fold.

Fergus Falls, July 30.—The United States government is keeping accurate measurements of the flow of water in the river here in order to secure data for plans for drainage of the Red River valley. The measurements show that the flow of water is five times as great as it was at the corresponding time last year, the volume this summer being about 400 feet, as compared with 75 last year.

Some excitement was caused by the finding of a few flakes of gold in the gravel below the Cable dam washout yesterday. Diligent search fails to reveal anything worth while, how-ever.

The Farmers and Merchants bank of Argyle, Minn., has increased its capital stock from $10,000 to $25,000.

FAILED TO RATIFY

Executive Board of Strikers Association not Satisfied With Terms.

PEACE PROPOSALS IN AIR

Don't Want Non-Union Men to be Employed---Board Meets Again.

Pittsburg, July 31.—Disappointment and apprehension pervades the air of Pittsburg because of the failure of the executive board of the Amalgamated Association of Iron, Steel, and Tin Workers to ratify the peace proposals arranged at the conference in New York last Saturday between the national tin workers of the Amalgamated association and Messrs. Morgan, Schwab and Gary, representing the United States Steel corporation. When the conference opened yesterday it was confidently expected that an agreement would be reached in a short time, but after a session lasting from 9:30 a. m. until 6:30 p. m., the meeting adjourned without arriving at any conclusion so far as known, to meet again today.

The protracted session indicates that the board is not satisfied wit hthe provisions of the compromise measures, and unless some modifications are made its ratification is doubtful. The opening of union mills to non-union workmen is a point which it is believed the board refused to accept and the long distance telephone between New York and Pittsburg was working frequently to get a modification of this clause. Workmen hold that this would give the mill owners a full opportunity of crushing the union without a strike by finding excuses to discharge union men and fill their places with non-unionists. Another rock of dissension is said to be the retention in their present jobs of the men who worked as "strike breakers" at various mills during the strike.

The terms imposed were as follows:

The Amalgamated association is to drop contention for the signing of a scale for all mills.

All mills are to be "open mills" in the fullest sense of the term.

The company is to have the right to place a non-union man in any plant and keep him there.

In addition to the plants covered by the expired scale, it is to be signed by the following:

W. Dewees Wood, of McKeesport; Painter, Lindsay & McCutcheon and Clark mills of Pittsburg, and Monessen plants, of the American Steel Hoop company.

The question of making the Wellsville sheet plant and the Monessen tin plate plant directly covered by the scale, is to be settled by the conferees.

The Amalgamated association is to have the privilege of organizing the men in any of the plants.

Cost of Keeping Insane.

Fergus Falls, July 30.—Steward O. C. Chase, of the state insane hospital here, has prepared his final report to the board of trustees, and the management of the institution will be turned over to the new board of control on Aug. 1.

The total net current expenses of the institution during the year was $178,129.37. Of this amount $64,462.06 was for attendance, $47,233.43 for food, $12,423.83 for clothing and bedding, $1,738.66 for laundry supplies, $26,285.78 for fuel, $474.74 for light, $982 for medical supplies, $2,486.19 for freight and transportation, $711.17 for postage and telegraphing, $6,524.60 for building repairs, $1,106.93 for tool sand machinery, $289.56 for burial expenses, $251.19 for amusement and instruction, while a number of other items are not classified.

Battery for Fort Snelling.

Washington, July 30.—Secretary Root yesterday advised Governor Van Sant, Senator Clapp and Representative Stevens that it is the intention of the department to station a battery of light artillery at Fort Snelling in the near future. These letters were written in response to telegrams from the gentlemen named, in which they urge that a battery be sent there as an aid to the military education of the national guard. The date when the battery is to be sent and number of battery has not yet been determined. Army officers who have been consulted by Secretary Root about the proposed selection of maneuvering ground for national and state troops say there is no present nor remote intention of establishing a school of tactics at Fort Snelling.

Brakeman Muna Killed.

Grand Rapids, Minn., July 29.—Frank Muna, a brakeman in the employ of the Eastern Minnesota on the Duluth-Crookston line, was killed here Saturday. Muna was riding on the cowcatcher at the time and it is supposed that he fell off and was run over. The remains were taken to West Superior, where Muna resided. He leaves a wife and two children.

BULLET HOLE IN HIS BRAIN

But Made His Own Living Four Years Before He Died.

A Louisiana physician relates an instance of a man who lived four years with a bullet hole through his brain. The man was wounded in 1864. He came rushing toward me with blood oozing from his forehead. I stopped him, and a quick examination revealed the fact that a bullet had crashed into his skull. His forehead was bespattered with brains and blood. He talked to me rationally and walked away. He partially recovered and kept fighting until the war was over. I saw him frequently, and while he was in a normal condition he was as sane as any man I ever saw. But occasionally he would pass into fearful paroxyms and would suffer fearfully. In 1868, four years after he was wounded, I was called to see him. He was in the throes of a violent spasm, and I could see that he would never recover. He died in a short while. After his death I made an examination of his head, and found that the bullet had passed through his head and had lodged in the back of his neck. It had passed through his brain. Now, here is a case where a man's brains were shot out and yet he managed to swing onto life for four years after it happened, and, while suffering a great deal in that time, he managed to make his own living, and at no time did he become a charge upon society. It was a remarkable case, and was full of sadness, and I have thought of it at every meeting of the old Confederates since that time."

Notice of Application for Liquor License.

STATE OF MINNESOTA,
County of Polk, } ss.
City of Crookston.

Notice is hereby given, that application has been made in writing to the Common Council of said City of Crookston, and filed in my office, praying for License to sell Intoxicating Liquors for the term commencing on August 16th, 1901, and terminating on August 15th 1902, by the following person, and at the following place, as stated in said application, to-wit:

Donald McKinnon, on the ground floor of room designated by street No. 117, Fronting on 2nd Street, in brick building known as the "Selcott Block," City of Crookston, Polk Co., Minn.

For the term commencing on August 26th 1901, and terminating on August 25th 1902, by the following person, and at the following place, as stated in said application to—wit:

Theodore A. Tharaldson, first floor of brick building, situate 60 feet distant of West line of Broadway, on Lot 17, in Block 5, Fletcher & Houston Add to city of Crookston, fronting on Second Street, known as "The white Front." St. No. 105.

For the term commencing on August 28t 1901, and terminating on August 27th 1902, by the following person, and at the following place, as stated in said application, to-wit:

Medaru Merell, store room, ground floor, fronting on Main Street, in building known as the "Opera House Block," situate on Lot 5, Block 6, Fletcher & Houston Add to City of Crookston, Minn., St. No. 115.

Said applications will be heard and determined by said Common Council of the City of Crookston, at the Regular Meeting in the City Hall in said City of Crookston, in Polk County, and State of Minnesota, on Tuesday the 13th day of August, A. D. 1901, at 7:45 o'clock P. M., of that day.

Witness my hand and seal of said City this 24th day of July, A. D. 1901.

W. A. LANCTOT,
City Clerk.

IN BANKRUPTCY.

In the District Court of the United States, for the District of Minnesota, Sixth Division.

In the matter of Martin M. Davis, Bankrupt.

To the creditors of Martin M. Davis of Crookston in the County of Polk, in said District, Bankrupt:

Notice is hereby given that on the 31st day of July, A. D., 1901, the said Martin M. Davis was duly adjudicated bankrupt; and that the first meeting of his creditors will be held at the office of the undersigned referee in bankruptcy, at the city of Crookston in the county of Polk in said district on the 10th day of August, A. D. 1901, at 10 o'clock in the forenoon, at which time the said creditors may attend, prove claims, appoint a trustee, examine the bankrupt, and transact such other business as may properly come before said meeting.

OLE J. VAULE,
Referee in Bankruptcy.

Dated July 31, 1901.

Bankrupt's Petition for Discharge

DISTRICT COURT OF THE United States for the District of Minnesota, Sixth Division.

In the matter of Oliver Hanson, bankrupt.
—In bankruptcy.

To the Honorable William Lochren, Judge of the District Court of the United States, for the District of Minnesota:

Oliver Hanson, of the village of McIntosh, in the county of Polk and state of Minnesota, in said district, respectfully represents that on the 19th day of March, 1901, last past, he was duly adjudged bankrupt under the acts of congress relating to bankruptcy; that he has duly surrendered all his priperty and rights of property, and has fully complied with all the requirements of said acts and of the orders of the Court touching his bankruptcy.

Wherefore he prays that he may be decreed by the Court to have a full discharge from all debts provable against his estate under said bankruptcy acts, except such debts as are excepted by law from such discharge.

Dated this 10th day of July, 1901.

OLIVER HANSON,
Bankrupt,

UNITED STATES DISTRICT Court, District of Minnesota, Sixth Division, ss.

On this 15th day of July, A. D. 1901, on reading the foregoing petition, it is ordered by the Court, that a hearing be had upon the same on the 24th day of September, A. D. 1901, before the said Court, at Fergus Falls, in said district, at two o'clock in the afternoon; and that notice thereof be published in the Polk County Journal, a newspaper printed in said district, and that all known creditors and others persons in interest may appear at the said time and place and show cause, if any they have, why the prayer of said petitioner should not be granted.

And it is further ordered by the Court, that the clerk shall send by mail to all known creditors copies of said petition and this order, addressed to their places of residence as stated.

Witness the Honorable William Lochren, Judge of the said Court and the seal thereof, at Fergus Falls, in said district, on the 15th day of July, A. D. 1901. —Charles L. Spencer,
(Seal of the Court.) Clerk.
—By L. A. Levorsen, Deputy Clerk.

Public Notice

Notice is hereby given that the firm of Steenerson & Lanager has dissolved partnership, E. B. Lanager, having sold his interest in the hardware and machine business to John Steenerson and Hans Roholt, as Steenerson & Roholt, his successors. All resources and liabilities are assumed by the new firm.

Dissolved June 19, 1901.

Steenerson & Lanager.

MORTGAGE FORECLOSURE SALE

Default has been made in the payment of the sum of three hundred seventy-seven and 46-100 dollars ($377.46) which is claimed to be due and is due at the date of this notice upon a certain mortgage, duly executed and delivered by John F. Lindgren, an unmarried man, Mortgagor, to Franklin Edgerton, Mortgagee, bearing date the 18th day of August, 1885, and with a power of sale therein contained, duly recorded in the office of the Register of Deeds in and for the County of Polk and State of Minnesota, on the 18th day of August, 1885, at 3:30 o'clock p. m., in Book "W" of Mortgages, on pages 304-306.

Included in the amount above declared to be due on said mortgage is $49.58, being for taxes upon the premises described in said mortgage for the years 1896, 1898, 1899 and 1900, paid by the mortgagee, with interest on said taxes to the date of this notice.

And no action or proceeding having been instituted, at law or otherwise, to recover the debt secured by said mortgage, or any part thereof,

Now, therefore, notice is hereby given that by virtue of the power of sale contained in said Mortgage, and pursuant to the statute in such case made and provided, the said Mortgage will be foreclosed by a sale of the premises described in and conveyed by said Mortgage, viz:

The south half of lot number eleven (11) in block number two (2) in the townsite of south Crookston, according to the plat thereof on file in the office of the Register of Deeds, in and for said county, in Polk County, Minnesota, with the hereditaments and appurtenances; which sale will be made by the sheriff of said Polk County, at the front door of the Court House in the City of Crookston in said County and State, on the 7th day of September, 1901, at ten o'clock a. m. of that day, at public vendue, to the highest bidder for cash, to pay said debt and interest, and the taxes, if any, on said premises, and twenty five dollars, Attorney's fees, as stipulated in and by said Mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Dated July 24th, A. D. 1901.

FRANKLIN EDGERTON,
Mortgagee

R. J. MONTAGUE and
SAMUEL MORRISON,
Attorneys for Mortgagee,
Crookston Minn. 6t

NOTICE OF EXPIRATION OF REDEMPTION.

To Thore O. Bakkeo:

You are hereby notified that on the 8th day of May, A. D. 1897, in proceedings to enforce the payment of delinquent taxes pursuant to that certain real estate tax judgment which was entered in the District Court in and for the County of Polk in the Fourteenth Judicial District of the State of Minnesota, on the 22nd day of March, A. D. 1897, the following described piece and parcel of land which is situated in Polk County in the State of Minnesota, to-wit: ne¼ nw¼ and nw¼ ne¼, section 30, and se¼ sw¼ and sw¼ se¼, section 19, Town 148, Range 44, was sold to satisfy the amount for which it was adjudged liable in said judgment, interests and costs for the sum of Sixteen Dollars and eighty two cents; that on the first day of June, 1899, the right of the state acquired by the said sale was assigned for the sum of Forty four Dollars and one cent; that the amount required to redeem said piece and parcel of land from such sale (exclusive of the costs to accrue upon this notice) is Forty four Dollars and one cent, and interest on said amount at the rate of twelve per cent. per annum from said 1st day of June A. D., 1899, until such redemption is made and that the time for redemption of such piece and parcel of land from such sale will expire sixty days after the service of this notice, and proof thereof has been filed in the office of the County Auditor, of said Polk County.

Witness my hand and official seal this 25th day of June, A. D. 1901.

JOHN PETTERSON,
County Auditor,
of Polk County,
Minnesota.
By N. A. Hoffard,
Deputy.

NOTICE FOR PUBLICATION.

Department of the Interior, Land Office at Crookston, Minnesota, July 18, 1901.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the Register and Receiver of the U. S. Land Office at Crookston, Minnesota, on September 3, 1901, viz. Theodore Noesen, H. E. 15952, for the sw¼ of section 4, Township 148 N., Range 46 W.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz:

John Baatz, of Russia, Minnesota.
Fred Baatz, of Crookston, Minnesota.
Thomas Wallace, of Crookston, Minnesota.
Benjamin Jerue, of Crookston, Minnesota.

A. F. GEORGE,
Receiver.

SUMMONS.

State of Minnesota, County of Polk, ss.
In District Court.

Charles Hedquist, plaintiff vs. Wilfred Riel, defendant.

The State of Minnesota to the Above Named Defendant:

You are hereby summoned and required to answer the complaint of the plaintiff in the action above entitled which said complaint is on file in the office of the Clerk of the District Court in and for Polk county, Minnesota, and to serve a copy of your answer to said complaint on the undersigned at his office in the city of Crookston in the county of Polk and state of Minnesota within twenty days after the service of this summons upon you, exclusive of the day of such service, and if you fail to answer the said complaint within the time above specified, the plaintiff herein will apply to the court for the relief demanded in the complaint.

A. A. MILLER,
Attorney for Plaintiff,
14-19 Crookston, Minn.

NOTICE.

In the matter of the grading of Seventh street, original townsite of Crookston, and the grading of Stuart avenue, in Sampson's Addition to the city of Crookston.

Notice is hereby given, that we, the undersigned, having been duly appointed and qualified as commissioners to view the premises and ascertain and award the amount of damages and compensation to be paid the owners of the property taken, injured or affected by reason of the grading of that certain highway in the city of Crookston, being the grading of Seventh street according to the engineer's estimate on file in his office, from a point 150 feet east from Broadway eastward to Central avenue, also the grading of Stuart avenue from its easterly terminus to Minnesota street, and to assess the amount of damages and compensation and the expense of said improvements, will meet on the third day of August, 1901, at ten o'clock a. m., at Stuart avenue, in Sampson's Addition to the city of Crookston, from there will proceed to Seventh street at Central avenue, and from there will adjourn to meet at the office of C. H. Mix, in the Odd Fellow's block, and we will then and there hear such allegations and proofs as any interested person or persons may offer.

Dated July 22nd, 1901.

—C. H. MIX,
—A. McGREGOR,
—WM. MARIN,
Commissioners.

DEFECTIVE PAGE

CITY AND VICINITY

Dr. Aug. Gronerud of Kennedy was a Sunday visitor in Crookston.

Miss Rai Wilkinson is spending the week as the guest of Miss Nora Fuller at Maple Lake.

Miss Lulu Ross and Miss Bertha Remshardt spent Sunday as guests of Fertile friends.

Henry Gebhardt and Miss Tiedtman were among the Euclid people who spent Sunday here.

Mrs. W. P. Murphy has gone to Angus to spend a few days with her mother, Mrs. McAvoy.

Miss Lillie Halliday, of Bemidji is visiting with the Mr. W. H. Bailey family in the Fifth ward this week.

Mrs. J. S. Mortenson went to Beltrami Saturday night and will spend a week visiting with Mr and Mrs. L. Opdahl.

H. Addler, of Red Lake Falls, spent Saturday night here awaiting the arrival of his sister, who came from Milwaukee.

Don't forget that Mull's Lightning Pain Killer kills all pain instantly. $1,000 offered for its equal. Free from opiates. 25 cents.

Mr. and Mrs. Dave McCleary, of Northcote, came down on Saturday night and spent Sunday as the guests of Mrs. McCleary's parents at Fisher.

Miss Anna Kelly, a teacher of Walker, Minn., is a visitor at the home of Judge Montague. She will attend the teachers' summer school during the week.

Fine photographs in all styles from $1 to $20 per dozen at Skrivseth's art studio, near Commercial hotel, Broadway, Crookston.

Don't hesitate if you suffer from the tortures of rheumatism. Take Mull's Pioneer Rheumatism Cure. A dollar draft in each $1.00 box; cash it if medicine fails. 25 cents.

A squad of shooters, members of the Crookston Gun club, will attend the Winnipeg exposition and participate in the tournament to be held there during the latter days of the week.

Miss Naylor, of Owntouna, who has been the guest of Warren friends will arrive here Monday for a few day's stay as the guest of Mrs. Playfair before proceeding to her home.

Mrs. H. Nesne has returned to Red Lake Falls to attend at the bedside of her mother, Mrs. E. Ralph, who was stricken with paralysis two weeks ago and who is very low in consequence.

"Stop that cough right away with Mull's Lightning Cough Cure. It heals disease of throat and lungs. It's pure and good for children. 25c! For sale by S. A. Wallace.

President J. H. Morley, of the Fargo college, formerly superintendent of the Congregational Home Missions in Minnesota, preached two eloquent sermons at the Congregational church in this city Sunday.

Miss Addie Dickman, of St. Paul, who graduated as nurse from St. Luke's hospital, is spending a few weeks visiting here with her sister, Mrs. G. H. Palmer, while taking a much needed rest.

Chas. Misner has been appointed assistant deputy head counsel of the Modern Woodmen for Crookston and will proceed to make Woodmen of all who get within ear-shot of his melodious voice hereafter.

W. L. Beaton, of Fisher, the man who is awaiting the decision of the governor as to who will be the appointee of the board of grain appeals for the state, came over from Fisher and spent Monday here.

During the high water in the Red river a month ago a portion of the bridge at Climax was carried down stream, the remainder being removed and secured on shore. The structure has been replaced and traffic resumed between the people on this side and those in North Dakota.

Henry Funk, who has spent the past six months in quest of relief from a troublesome attack of rheumatism, returned home Saturday. A large portion of the time has been spent at Hot Springs, although the greatest relief was experienced through treatment received from a Kenosha physician.

Leonard Peterson has recovered sufficiently to be able to resume work as manager of the waterworks and electric light plant at Thief River Falls. The company is about to make improvements on the property, and Mr. Peterson wished to be there in time to oversee the work.

Orvis Hinds returned Saturday from eastern Red Lake county, where he had been in company with George Ralph going over the ground where new drainage ditches are proposed, with the "viewers" who are assessing the amount to be paid by each property holder, provided the ditches go through.

Mr. M. F. Howie of Slayton, Minn., is spending a week here looking after his farm interests in which he has invested during the summer and negotiating for a place to which he can remove his family, as he desires to become a permanent resident of Crookston this fall. Mr. Howie is the owner of the Sims farm south of the city.

The concert given at the Synod church Sunday was listened to by a fair sized audience, and was greatly enjoyed. The numbers rendered by the Misses Grindeland and Jerrue of Warren were very pleasing and showed much musical culture and well trained voices. The singing of Mr. Hjort was a treat, and he fully sustained the reputation given him by the press of the state where he is well known.

Allart Kincaid was over from the Forks and spent the Sabbath.

For nervousness and sleeplessness try Lincoln's Hop and Celery Nerve Tablets. 25c per box

The Cass Lake Voice tells how Joe Jarvis and Tom Nesbit of the Marais were so well pleased with their trip out east that they bought two acres of land on the lake shore and will put up summer cottages.

Mrs. M. Kelly, who has been on a visit to friends in Minneapolis returned on Sunday morning accompanied by a friend, Mrs. Jones, who will remain for an extended visit.

Miss Ida Hancock came down from Euclid Tuesday accompanied by her aunt, Miss Bolton. The latter left that evening for Plainview to be present at the marriage of her nephew.

Vibra Godfrey, one of the leading citizens of the town of Woodside, spent Tuesday in the city and tells the Journal to look out for crop reports from down his way. "They're all O. K.," says Godfrey.

An accidental happening at Maplebay last Sunday where Halvor Bakken was severely cut while in swimming, is reported, some sharp instrument severing an artery in one of his legs. The flow of blood was stopped without serious results, however.

A. A. Buckingham, who is superintendent of a line of elevators in South Dakota took a run up to Crookston Tuesday to renew acquaintance with his family, and tells his friends that the wheat crop is only fair down there—better in spots than in places, however.

Travel on the rail is very heavy these days, and the trains leaving the Great Northern station in this city are compelled to attach an extra coach nearly every day to accommodate the rush, or else some of the passengers have to stand in the aisles.

The remains of L. W. Peterson, who was sent from Warren to the Fergus Falls insane asylum two months ago, were taken through the city Tuesday for burial, he having died Monday. The cause of death was pulmonary oedema.

List your farms with Warner & Andrus. We have sold a great many listed farms in the past year. We have a great many customers who want improved farms, especially during the fall season. Therefore if you wish to sell your farm, list the same with Warner & Andrus.

O. K. Berget has left his desk in the office f the clerk of courts for a few days which he will put in at Akeley visiting with the family friends of his wife, and in making an attempt to persuade her that 't is time to close a visit she has been making to the people over there, and return to cheer up the family hearthstone.

In the August Review of Reviews Dr. Shaw discusses the great steel strike in its various aspects and comments on many other matters of current interest at home and abroad. M. de Bloch's recent address at Paris on the lessons of the Boer war is reviewed, and its application to the military situation in the United States, as well as in Europe, is pointed out.

S. W. Vance returned yesterday from an eastern trip that has occupied a month of his time very pleasantly and profitably. He was accompanied by Mrs. Vance, Mr. and Mrs. George G. Erskine also being members of the party. They did the Pan-American and proceeded to points in central New York. Mrs. Vance remained in Chicago for a visit with her sister, Mrs. Coddington, and other friends.

Sunday morning as the Great Northern flyer was approaching Petersburg, N. D., at full speed, a freight was standing on the siding with its tail lights burning. Fireman William Prinderville, thinking that the freight was on the main line and expecting a collision, jumped from the engine. He struck on his back and sustained severe injuries. He was brought to Larimore. He has been an employe of the Great Northern a number of years.

Herb Hunt, who has spent the greater part of a year in the round house in this city, learning how to handle an engine, left for Bagley today where he will do his first duty on the road. It consists of watching an engine that is employed on the construction work and is in the nature of a promotion. Adolph Ramshardt has also been set to work on the Fosston line, his duties being to manage the unloading of the cars with a "Ledgerwood."

As an example of the thoughtfulness of Rev. Mr. Amdalsrud, who is returning to the states after a trip of two years' duration, taken to South America and Africa, Postmaster Elken Tuesday received a message from him sent upon his arrival at New York, asking as to the condition of Miss Amunda Elken, whose is quite ill, and whose condition was known to him before he left Europe. Mr. Amdalsrud is en route to Crookston, where he will resume the pastorate of the Synod church.

Maria Ricks, the once renowned window smasher, has returned to St. Paul and called on Secretary Gates of the state board of corrections and charities. She asked to be sent to Bemidji. Mr. Gates says she belongs to Aberdeen, and says he will send her nowhere else. She will probably be sent there by the kindness of some Minneapolis ladies. Mrs. Ricks now calls herself Mrs. O'Brien. In the last six weeks she has been from Helena, Mont., to Menominee, Mich.

Wanted—¼ or ½ section of good improved or wild wheat land near town. Must be a bargain to receive consideration.—Address P. O. Box 466, Waterville, Minn.

Mr. Matt Huff, father, and Mrs. Matt Huff, the sister in law of Peter Huff of this city, arrived Wednesday from St. Cloud and will remain for a few days' visit.

Henry Funk's rheumatism is playing a return engagement and he is offering a premium to any one that will give him a few hours relief from the pain.

Rev. L. T. Grandchamp is away at Minneapolis where he will purchase the stained glass windows for the new church building that is rapidly nearing completion.

There have been some changes in the location of the Catholic priests out in Red Lake county, Father Roy having gone from Terrebonne to Lambert, his place being filled by Rev. Father Pugos of Two Harbors.

Dr. Whetstone and wife returned from an eastern trip Tuesday and proceeded to their home at Argyle. They saw the sights at the Pan-American and extended their trip to Boston.

The Wheeler Land & Loan company has removed its office furniture to the new location on the corner of Main and Second street, and now has one of the most convenient office suites in the city.

A steam launch, the property of the United States government was shipped through from Leech Lake to St. Hilaire today, where it will be taken to Red Lake and be used in communicating with the Indian schools at "Cross Lake" village and the agency.

Judge Holt put on a paternal smile and spoke the words which united Thos. Jonson and Emma C. Lindstrom, of Eden, for better or for worse during the remainder of their journey through life in that garden. This happened before dinner yesterday.

J. W. Mathews, who conducts a mercantile business at Dorothy, near where the sand is being procured for the Grand Forks filter was in the city over night and secured some men to assist in the work of loading the cars that are carrying the sand west. A dozen cars a day are being handled.

Knute Neerland has returned from the Pacific coast, where he has spent a month looking over the country. He is pleased with the outlook but not to the extent that he has decided to locate there. At Bremmerton, Wash., he found Louis Morin, doing a good business in a hotel that he had recently purchased.

The Scotch of the Marais district, and that's where they live in bunches, met for a reunion and picnic Tuesday. In the afternoon the clans met in a ball game and after the smoke of the conflict had cleared away the party adjourned to Mallory and spent the remainder of the day and several hours of the night in dancing.

T. Jensen and Bernt Benson, two of the prosperous farmers o fthe township of Knute were in the cityTuesday to secure advice as to the method of procedure to compel several of their neighbors to refrain from draining lands in such a manner that the surplus water is turned onto the farms owned by the complainants.

Peace Reigns at Felton

Felton, Minn., July 31.—Peace again reigns in our once quiet village and the tar and feather talk has subsided.

Through the efforts of County Attorney Marden and Deputy Sheriff Murphy, serious trouble in the case of Nelson & Morgan has been averted. A settlement satisfactory to the champions of Mrs. Nelson has been agreed upon.

Harvest is well under way in this vicinity. Crops were never better.

Filed in Bankruptcy

M. M. Davis, a resident of this city, has filed an application in bankruptcy, claiming nothing in the way of assets, and liabilities amounting to $1,109.94. The claims of two judgment creditors are listed, they being the Aultman-Taylor company and the Wm. Deering company. The indebtedness was incurred while Mr. Davis was conducting a farm near Euclid.

Wanted at Once.

5,000 men at a salary of $35 to $40 per month with board and lodging. Each man can secure a homestead of 160 of good land at close of term of service. For particulars, enquire of N. Campbell, Room 30, Reckitt block, Crookston, Minn.

As Told by a Native.

A. T. Campion one of the heavyweight farmers of Angus, was over at Grand Forks Monday and told the Herald that the harvest in places will not be at all similar to what you read about in the railroad guides and that the village resembles Venice more closely than any other city he knows of. Row boats are now handled by all of the machinery dealers, and side wheelers, twin screws, etc., is the subject of more discussion than automobiles.

Parents Gave Consent.

Judge McLean was called upon to perform the marriage ceremony for Theodore Goosen and Miss Maggie Grondahl athisofficeTuesday afternoon The parties were residents of Euclid, and the bride is but 15 years old. The consent of the parents was secured without difficulty, however.

FARMS FOR RENT.

Two good farms of 600 acres each in Hammond township, Polk county, seven miles from Crookston and three from Kittson station, known as the Sims farm. Has a set of buildings on each section. Will rent on shares. Write to M. F. Howie, Slayton, Minnesota.

COUNTY BOARD

Closed the Month's Business at Meeting Held Monday and Tuesday

USUAL BILLS WERE ALLOWED

Important Bridge Matters Attended to---Tax Levy Made.

Official proceedings of the board of county commissioners of Polk county, Minnesota.

Pursuant to adjournment the board of county commissioners of Polk county met in adjourned session July 29, 1901 with all members present.

The reading of the records of the last preceding meeting was on motion dispensed with.

The following resolution offeerd by Commissioner Eastman was on motion adopted.

Resolved that the auditor be and is hereby authorized to issue his warrant in the sum of two hundred forty two and 85-100 dollars to John Sanders in payment for building a bridge across ditch No. 2 and charge to said ditch fund.

T. T. Morken submitted the folowing report which was on motion accepted:

To the Hon. Board of County Commissioners: I hereby respectfully report that I have inspected the bridge across ditch No. 2, on town line between towns of Northland and Esther, built by John Sanders, and found the same to be built according to contract, and recommend that same be accepted and paid for according to agreement.

The folowing resolution offered by Commissioner Fortier was on motion adopted:

Resolved, that the county auditor be and is hereby authorized to issue his warrant in favor of Marin & Nolan in the sum of ($800.00) Eight Hundred Dollars, as part payment on bridges across the Gentilly, Kerstonville and Fairfax ditch No. 15, said money to be paid out of said ditch fund.

On motion K. O. Bratvold was appointed a delegate to attend the meeting held by the state board of health at Duluth on August 13, 1901.

The application of Albert Torgerson for $25.00 damages, in the matter of laying out the Erskine and Winger county road, was on motion rejected.

The auditing board submitted the following report which on motion was acepted:

To the Honorable Board of County Commissioners, Polk County, Minn.

The undersigned auditing board of Polk county, Minnesota, respectfully report to your Honorable Body that we have visited the office of county treasurer of said Polk county; that we have examined the treasurer's books and accounts, and have counted the cash and vouchers found in his possession and also ascertained the amounts deposited in the different banks designated as county depositories, and found the following as shown at the close of business July 27, 1901:

Gold	$ 345.00
Silver	31.50
Town orders	21.05
Nickels and dimes	7.90
Pennies	3.18
First Nat'l bank, Crookston.	10747.79
Merchants bank, Crookston.	10813.69
Scandia Am. bank, Crookston	10816.03
First Nat'l bank, East Grand Forks	8041.34
Fertile State bank, Fertile.	8448.41
Bank of Fosston, Fosston.	2899.09
First State bank, Fosston.	2563.39
State bank, McIntosh	4436.45
Citizen's Bank, McIntosh	2667.24
Bank of Fisher	2363.04
Citizen's Bank of Fisher	2557.35
Bank of Erskine	1948.23
Bank of Beltrami	1164.14
Bank of Climax	1290.11
	$71164.93
Charged to treasurer as per auditor's ledger	$71163.42
Excess	$ 1.51

Respectfully submitted,

—John Petterson, County Auditor.

—K. O. Bratvold, Chairman of the County Board.

—E. E. Lommen, Clerk District Court.

The petition of H. P. Gies, et al., asking to be detached from independent school district No. 3, and attached to school district No. 31, was on motion rejected.

The application of John Renvanz for a correction of assessment and abatement of taxes for the year 1900 against southeast ¼ southeast ¼, Sec. 12, T. 151, R. 50, was on motion granted subject to the approval of the state auditor.

The following resolution offered by Commissioner Bratvold was on motion adopted:

Whereas, the Board of County Commissioners of Polk county has this, the 30th day of July, 1901, allowed the bill of W. E. Walker, of Crookston Minnesota, in the sum of $125.90, for furnishing and putting on the court house screen windows and doors, and whereas, the said W. E. Walker is indebted to Polk county in the sum of $114.54, on the following judgments entered in the district court of Polk county against the said W. E. Walker for unpaid personal property taxes, to-wit:

One dated Jan. 11th, 1901, for $14.41.

One dated Jan. 17th, 1900, for $16.95.

One dated Jan. 18th, 1897, for $61.56, amounting in all with interest to date, $114.54.

Now, therefore, be it resolved, that the said claim of W. E. Walker to the amount of $114.54 be offset against the foregoing tax judgments, and the balance of said bill amounting to $11.36 be and the same is hereby ordered to be paid to the said W. E. Walker; and be it further resolved, that upon the acceptance of this resolution by the said W. E. Walker the clerk of the district court of Polk county is hereby directed to satisfy and discharge all of the foregoing tax judgments against said W. E. Walker.

The following resolution offered by Commissioner Eastman was on motion adopted:

Whereas, it appears that an agreement was made between Andrew Bramseth and the board of county commissioners whereby the aforesaid Andrew Bramseth permitted the crossing of his farm and emptying of ditch No. 6 into a coulee in consideration of the building of the private bridge, and whereas, it appears that said agreement has not been carried out, therefore, be it

Resolved, that the ditch committee be, and is hereby ordered to have the aforesaid bridge built and paid for out of the emergency fund of said ditch No. 6.

The road and bridge committee submitted the following report, which on motion was accepted:

To the Honorable Board of County Commissioners of Polk County, Minnesota.

Gentlemen:—We, the road and bridge committee, to whom the matter of investigating the bridges washed away by the late floods in town of Gentilly, would respectfully report that we find one bridge carried away and two others washed away so as to necessitate the rebuilding of same, which has to be done at once, and the said town of Gentilly is unable to do all this work, therefore, we would recommend that the county build one bridge on section line between sections 16 and 17 in said town across the coulee.

—G. W. Eastman,
—Chas. McCarty,
—Remi Fortier,
Committee.

The following resolution offered by Commissioner Bratvold was on motion adopted:

Resolved, that the bid of Geo. D. Barnard & Co., for 13,000 tax receipts at $72.00 be accepted, their's being the lowest bid.

The following resolution offered by Commissioner Morken was on motion adopted:

Resolved, that the report of the road and bridge committee be accepted and concurred in and the road and bridge committee be authorized to let contract and have said bridge built as soon as practicable.

The application of the Crown Financial company for a refundment of taxes paid against e½ ne¼, sec. 10, and w½ nw¼ sec. 11, T. 151, R. 41, for the year 1891, was on motion granted, subject to the approval of the state auditor, it having been shown that the said land was erroneously entered on the tax list for that year.

The following resolution offered by Commissioner Morken was on motion adopted:

Whereas, it appears in the proceedings of the board of county commissioners for July 19th, 1900, that Andrew Palza and Anton Sencker was allowed $25 each for aid in moving a bridge and building a new bridge across ditch No. 2, in Town of Tabor, be it resolved, that the sum of $10 be added, making the total $60, which amount has been paid by said parties for material, and be it further

Resolved, that the county auditor be and is hereby authorized to issue his warrant to the said Andrew Palza and Anton Sencker for the sum of $30 respectively and charge the same to the fund of ditch No. 2.

The following resolution offered by Commissioner McCarty was on motion adopted, all members voting in the affirmative:

Resolved, that the following tax levy be made for the year 1901:

County revenue, 5 mills.
Bonds and interest, 1 mill.
Road and bridge, 1 mill.
Poor and contagious diseases, 2 mills.

Also a tax of $1.00 on all male dogs and $3.00 on all female dogs in accordance with chapter 187, General Laws of 1901.

The following resolution offered by Commissioner McCarty was on motion adopted:

Resolved, that the bid of Marin & Nolan for the construction of a pile and truss bridge in the town of Gentilly, between sections 16 and 17, for the sum of $5.25 per lineal foot be accepted, their bid being the lowest submitted to this board, and that the said Marin & Nolan be required to enter into contract and furnish a bond in the sum of $3... for the faithful performance of the work. Said bridge to be built according to plans and specifications now on file in the auditor's office, and be completed on or before the 24th day of August, 1901.

The following bills were audited and allowed:

Elias Steuerson, insurance on court house	$ 14.00
P. O. Neraal, medical services	25.00
S. S. Ness, nursing J. Harrington	13.50
Thore Johnson, board for J. Harrington, etc	12.25
A. J. & A. McKinnon, plate drift bolts, etc., for bridge.	13.85
Ben Enstrom, assisting surveyor	8.25
John Aase, wood for court house	11.00
R. A. Lawrence & Co., record books	133.00
Geo. D. Barnard & Co., blanks	8.00
C. T. Lunman, printing	45.81
McIntosh Tribune, publishing training school notices	4.00
C. C. Knappen, publishing training school notices	4.00
E. D. Barness, deputy sheriff's fees, (3 bills)	31.80
Gust Holt, constable fees	1.45
E. J. Sullivan, sheriff's fees.	12.50
K. K. Lee, boarding prisoner.	1.20
Peter Johnson, justice fees, (3 bills)	9.68
Geo. I. Houghtaling, justice fees.	4.35
G. H. Holt, justice fees (5 bills)	17.05
John McLean, justice fees (4 bills)	15.70
John Petterson, services on equalization board, postage, etc	27.05
Ole E. Hagen, postage	10.00
Thos. Casey, postage and express	10.70
K. O. Bratvold, services as commissioner	19.80
Chas. McCarty, services as commissioner (3 bills)	42.60
T. T. Morken, services as commissioner	20.40
G. W. Eastman, services as commissioner	7.00
Remi Fortier, services as commissioner	11.20

The following bills were referred back for correction:

J. O. Jorgeason, Ole O. Legvold and Fontaine & Anglim.

The following bills were rejected:

Kasper Halvorson, Andrew Hanson, J. A. Aker and Charley Gustafson.

Motion made and seconded that bill of E. J. Sullivan for sheriff's fees be rejected, and the motion carried upon a call of districts as follows:

First district, Commissioner Chas. McCarty—Yes.
Second district, Commissioner Eastman—Yes.
Third district, Commissioner Fortier—Yes.
Fourth district, Commissioner Bratvold—Yes.
Fifth district, Commissioner Morken—No.

On motion board adjourned to meet Sept. 9th, 1901.

—John Petterson,
Clerk of the Board.

THRIFTY THIRTEEN TOWNS

Beautiful Homes Nestle Among Groves or Overlook Lakes

To those who have never visited the eastern part of Polk county a trip to the country around McIntosh, Fosston and Erskine, would certainly prove a pleasant surprise. At least it proved so to a Journal representative who strayed up in that part of the country early in the week.

The crops in that locality are far and away the best in the county. The wheat which is now being harvested, will average twenty bushels per acre and there is much of it which will go as high as thirty-five bushels, and the other crops with the exception of flax, are fully up to the standard fixed by the wheat. Even the flax will give a fair yield, better by far than in western Polk.

This is the most thickly settled part of the county and the farmers generally are an intelligent and careful body of men, who have made a thorough success of farming. They have fine farm buildings and comfortable homes. Many of the farm residences in this part of the county rival anything in Crookston for comfort and elegance. The residence of Knute Espeseth four miles north of Erskine, which just being completed, is one of the best of these. It is a large, beautiful home, resting on a stone foundation which alone cost in the neighborhood of $1,000. It has hot and cold water throughout and a complete system of sewerage, and with its bath rooms and heating plant offers all th conveniences of an up to date city residence and will cost $5,000 when completed.

The country itself is very rolling and dotted with lakes and little streams. Timber covers quite a portion of it and gives protection from the winter's winds and an unlimited supply of fuel, while the low places yield a bountiful crop of hay each year.

The farms are well stocked and a fair sized field of corn is found upon almost every farm.

The country as a whole is one of the garden spots of the state and reminds one of the older farming communities which have made Wisconsin famous.

Regarding Homesteads

Cruisers say that there are many homestead claims taken years ago by traveling men and city folk, which have been left in the state nature provides, and no attempt at establishing residence upon them has ever been made, says the Cass Lake Times. The homestead law requires that residence shall be established on the land taken on or before six months from the day of entry; if not the land may be contested and the homesteader loses his right to the land. It is not the purpose of the law to protect the homesteader unless he complies with the requirements of the law, nor is it the purpose of the law to exact conditions that cannot be performed, but there is no excuse for a claimant to neglect to build a house on his claim within the six months given him, and if he fails to do so, it is not only the right but the duty of every law abiding citizen to enter contest and have the tract restored to the category of "open lands."

GRASS LAND.

Grass on the ne¼, section 36-148-48 (Vineland) for sale, 35 cents per acre. and also for sale; make me an offer. I have also 80 acres of grass land in King township, the n½ of ne quarter, section 32-148-41, which I will sell for 25 cents an acre.

M. O. SORTEDAHL,
Red Lake Falls, Minn.

GRASS LAND.

Grass on ne¼ section 36-148-48 (Vineland) for sale, 35 cents per acre. Land also for sale; make me an offer. I have 80 acres of grass land in King township, the n½ of ne quarter, section 32-148-41, which I will sell for 25 cents an acre.

M. O. SORTEDAHL.
Red Lake Falls, Minn.

For Sale

1,000 acres of fine farm land, situated in the vicinity of Euclid and Warren, Polk Co., Minn. Terms cash or crop payment. Also a few good farm horses for sale. Enquire of owner, E. Fairchild, Sec. 26, Angus, Minn.

Hay Land

For rent on shares. All of section 29 in Belgium and three quarter sections in 21 in Angus.—John H. Boyd, Iowa Land Office, Crookston, Minn.

New potatoes are worth $2 per bushel and hay $25 per ton at Tenstrike. At Blackduck hay is selling at $37 per ton.

DEFECTIVE PAGE

THE HALLOCK FAIR

Successful Agricultural Exhibition Given in Kittson County.

EXCELLENT STOCK SHOW

Good Program of Sports and Races---Two Ball Games.

The Kittson county agriculturists come as near to making a success of holding a fair as any set of men can in a country as far north as this. They demonstrated this fact on Thursday and Friday of last week. Considering the immature condition of the agricultural products, the society is compelled to depend largely upon its stock exhibits and sporting events to interest the public. It has the material for one and the ability to interest in the other line in an unusual degree.

The first day's attendance was fair and the second day a much larger crowd was present. The stock show brought out some animals that would do credit to any section of the middle states. One of the leading exhibitors was Thomas Harhorn, whose fame as a breeder of Shorthorns is state-wide. Beside his entries of fifteen head of choice stock, with his recent purchase of an imported Shorthon bull at the head, several other Kittson county farmers had choice animals on exhibition.

The display of Poland China and Berkshire hogs was creditable and proved that swine breeding is being given proper attention by the farmers up north.

Displays of poultry and sheep were numerous and showed good breeding in every instance.

The vegetables, grains and grasses were as fine as were ever seen in the valley at this season of the year, and Kittson county leads the entire district in the quality of crop this year. Dairying was also a prominent feature and the household arts were given due attention.

The sporting events attracted the attention of all during the time given given up to them. A high dive from a trapeze and slack wire artists and a vaudeville company kept the crowd amused when special attractions were not on. A special race on Thursday between Riverside, Hal Black and Jessex brought the horses under the wire in a finish in the order named.

The greatest interest of all centered in the ball games between Crookston and Hallock, of which an account is given elsewhere.

THURSDAY'S GAME.

This was easier. Wall did the twirling for Crookston and but seven hits were made off his delivery, which netted the Hallockers three runs.

Crookston's ten hits and nine errors which the Kittson county boys made did the business. Following is the score by innings:

Crookston .. ....0 1 2 0 0 0 0 5 0—8
Hallock .. ..2 0 0 0 0 0 0 1 0—3

BLACK MARBLE IN WIS.

Fine Quarry in Bayfield County will be Developed

Washburn, Wis., July 27.—Preliminary arrangements have been effected here within the past few days to open up the black marble beds in the southern end of Bayfield county. A number of samples have been sent to different parts of the country for the purpose of test. One Chicago firm scouts the idea of the marble having been found in northern Wisconsin, and declares that the sample is genuine Italian marble. However, the local parties are going right ahead and will perfect an organization to investigate the find. It is their plan to get deep into the bed, which by the way is a whole hillside, and take out a chunk weighing two tons. If the result shows that the marble is free from seams or has cement seams, the discovery will be one of the greatest every known in the country. A company will be organized within a few days, and it is proposed to give the marble bed a thorough test. Perhaps ten thousand dollars will be expended in this work during the present summer. The land on which the marble has been discovered is a homestead belonging to Charles Welcome. He took it up several years ago, upon the advice of his father,, who believed that there was something of great value in the rock which showed everywhere, but until within a short time it has not been known that this rock was marble. In its rough state it does not look unlike other rock, but when polished its presents every appearance of the finest black Italian marble.

REWARD OF $6,500

Offered for Information Leading to Arrest of Train Robbers

A circular has been issued offering a reward of $6,500 for information leading to the arrest of the robbers who held up the Great Northern train near Wagner, Mont., the afternoon of July 3 last.

The circular states that through investigation it has been determined that the robbery was committed by George Parker, alias George Cassidy, alias "Butb" Cassidy, alias Ingerfield; Harvey Logan, alias Harvey Curry, alias "Kid" Curry, alias Bob Jones, alias Tom Jones, and Harry Longbaugh, alias "Kid" Loughough, alias Harry Alonzo.

The circular states that included in the spoils of the Wagner raid was a package of $10,000 of incomplete currency, lacking the signatures of the president and cashier of the National Bank of Montana, of Helena. The package consisted of 800 sheets, with four notes on each, being three $10 and one $20 bills. They also took a similar package containing $500 intended for the American National bank of Helena.

There was also taken 360 blank money orders for the Great Northern Express company.

The reward of $6,500 is offered for the capture and identification of the three men concerned, or a proportionate amount for any one of the trio and an additional $500 each upon conviction.

IT WAS A SUICIDE

Man Whose Body was Found near Dugdale Shot Himself

Coroner Chesterman was called to Dugdale to investigate the case of a dead man who was discovered Friday about a mile from Dugdale in a clump of bushes a short distance from the Great Northen railroad track, and went out Saturday in response to the summons.

From papers found on his person it was decided that the dead man's name was T. T. Hendrickson. He appeared to be about 40 years of age and had a buffalo overcoat and a pair of overshoes on, which would indicate that his death occurred during the cold weather, and that the body had lain there ever since then.

The remains were very badly decomposed. There was found on his person $16.45 in cash, and some promissory notes which had been taken in North Dakota and from which it is thought he had been traveling in that state.

By his side lay a 38-calibre revolver, in two barrels of which were empty shells, and the rest were loaded.

In his right temple by the side of his eye was a bullet hole which was unquestionably made by one of the missing shots from the revolver.

After a careful examination Coroner Chesterman decided that it was a clear case of suicide and that there was no occasion for an inquest.

There was nothing on the papers or about the person of the dead man which gave any possible clue as to where he lived.

CRUSHED TO DEATH

Was Run over by Construction Train and Cut in Two

Grandin, N. D., July 27.—Albert Larson, supposed to be from Moorhead, met with a frightful death last evening about two miles from this place, by being run over. He was at work on the construction train and in some manner fell between the cars and was run over, cutting him in two just above the hips and fearfully mangling him. When the train was stopped and his fellow workmen reached the scene, they found him dead and mangled almost beyond recognition. Larson was a single man about 30 years of age and had been working for the Great Northern about two weeks.

Fosburgh Not Guilty

Pittsfield, Mass., July 27.—At the opening of court today in the Fosburgh trial, Judge Stevens instructed the jury to bring in a verdict of not guilty, and this was done, ending the trial.

The jurymen did not leave their seats. The verdict was received with shouts of applause, which the court immediately suppressed. The demonstration, however, was one of the most remarkable that has ever occurred in the court of justice.

Oh We're Alive

The rushing way they do things out west is indicated by the following from a Great Bend, Kansas, correspondent to the Kansas City Journal: "Standing wheat in a field at noon today, harvested, threshed, ground into flour, baked into bread in large quantities by a bakery and sold around town for 6 o'clock supper was the record breaker this afternoon."—Plattsburg Republican.

Dr. Koch on Malaria.

London, July 27.—In an address delivered before a health congress held at Eastbourne yesterday, Dr. Robert Koch, of Berlin, spoke on the treatment of malaria. He reiterated his dictum that malaria does not emanate from swamps, but is caused by the inoculation of mosquitoes and gnats. He said that malarial parasites can be stamped out with quinine treatment.

A Broken Leg

Wm. Krause, of Euclid, isn't so much of a wrestler as he imagined himself to be. Moreover, he won't do anything in the line of athletics for several weeks. While scuffling with a friend Friday he was thrown to the floor in such a manner as to break both bones in his right leg, between the ankle and the knee.

TARIFF OFF NOW

Between the United States and Porto Rico Under Act of April 12 1900.

PROCLAMATION ISSUED

By President McKinley Yesterday Declares Duties Shall Cease.

Washington, July 26.—The president yesterday issued his proclamation establishing free trade between Porto Rico and the United States and declaring the organization of a civil government for the island. The proclamation is purely formal and only in the body of the resolutions adopted by the Porto Rican legislature (heretofore published) does it appear that the island is set free commercially today in commemoration of the anniversary of the planting of the American flag on the island. The proclamation is headed: "Cessation of Tariff—Porto Rico."

It recites that the act of April 12, 1900 (otherwise known as the Foraker act) provided that, whenever the Porto Rican legislature has enacted and put into operation a system of local taxation to meet the needs of the government and by resolution so notified the president, the latter shall issue a proclamation, and all goods passing between the United States and Porto Rico shall cease. As the legislature has complied with that requirement of the act in terms set out in the resolution, which are quoted in full in the body of the proclamation, that document says:

"Therefore I, William McKinley, president of the United States, in pursuance of the provisions of the law above quoted and upon foregoing due notification, do hereby issue this, my proclamation, and do declare and make known that a civil government for Porto Rico has been organized in accordance with the provisions of the said act of congress.

"And I do further declare and make known that the legislative assembly of Porto Rico has enacted and put into operation a system of local taxation to meet the necessities of the government of Porto Rico."

FIRST ROOSEVELT CLUB

For 1904 has been Organized in Kansas City

Kansas City, Mo., July 27.—About 50 prominent republicans of Kansas City have organized the "1904 Theodore Roosevelt club." The purposes are these: First, to secure the nomination of Vice President Roosevelt for president at the republican national convention in 1904; second, to have this convention held in Kansas City; third, to have Missouri present a solid Roosevelt delegation at the convention.

The organization has the distinction of being the first "1901 Roosevelt club" in the country. It is proposed that this shall be the center of an organization that will cover the entire state of Missouri.

Her Optic Exploded

The most remarkable Minnesota hot weather story yet told is related by a St. Cloud paper, it being no less than the explosion of a woman's eye from the excessive heat the other day. The eye belonged to Mrs. T. H. Fowler, of St. Cloud, and expanding from the high temperature suddenly gave way, the jagged edges somewhat damaging the human socket, and Mrs. Fowler, it is understood, was obliged to consult a St. Paul oculist. The paper explains that the eye was a glass one which, however, does not detract from the interest of the incident.

SUIT AGAINST T. M. ROBERTS

For $500 has been Commenced by a Philadelphia Man

John Hamilton, of Philadelphia, has commenced action in the district court to replevin $500 worth of merchandise sold to T. M. Roberts and delivered the day before the supply house man suspended payment. This is the first suit of any kind begun against Roberts since he made arrangements with his creditors for an investigation of his affairs. The work of preparing a list of creditors is still in progress. Recent additions of smaller amounts, it is thought, will increase the total number of creditors to over 2,000.

AN ANOKA GENIUS

Has Devised Some Very Important Inventions

James Walley, engineer and bead machinist at the Anoka North Star Shoe company's factory, has invented a number of machines which promise to be of great value. The Anoka Herald says the most important is an engine which will develop one third more motive power than any other engine using the same amount of steam. The steam is used repeatedly and there is no lost motion. Another important feature is its size and weight, it not being a third of that of an ordinary steam engine of the same horse power.

Other inventions are a self locking monkey wrench, which retains its grip and does not loosen by use; a fawcet, by which air can be pumped into a cask or barrel, thus not necessitating an extra hole to be made causing evaporation, especially of liquors, gasoline, etc.; a pair of adjustable blacksmith tongs, with which a piece of hot iron can be adjusted to any position without relinquishing the grip; a dinner pail composed of drawers surrounded by air passages to allow heat to pass through. A small alcohol lamp heats the coffee and warms all the food, thus preparing a good, substantial, appetizing meal, the same as would be served at home.

In a Glass of Water.

Put a handful of *glazed coffee* in a glass of water, wash off the coating, look at it; smell it! Is it fit to drink? Give

LION COFFEE

the same test. It leaves the water bright and clear, because it's *just pure* coffee.

The sealed package insures uniform quality and freshness.

THE BENDER FAMILY

Missing for 20 Years now believed to be in Colorado

Topeka, Kan., July 26.—Four persons, believed to be members of the notorious Bender family accused of committing a score of murders at their home near Galena, Kan., 20 years ago, are believed to have been located near Fort Collins, Col., and Gov. Stanley has issued requisition papers on the governor of Colorado for their return to this state. The first steps toward bringing the suspects to Kansas were taken upon the representations of Frank Ayres of Fort Collins, who asserts that one of the quartet, Kate Bender, was once his wife. The Benders lived on a small farm near Galena for years, as developed after their flight, and lured travelers to their place, murdered them for their money and buried their bodies in the yard around their home, or under the house. The house was arranged with trap doors. All four members of the family were accused of aiding in the murders. An investigation into the disappearance of a man who had stopped with the Benders, and whose bones were found beneath the house, led to their flight one night. A heavy reward for their arrest was offered by the state, but they were never found. The family consisted of man, wife, daughter and one son. The parents would now be in the seventies, and the children about 50 years of age.

The Fitness of Things

The state prison authorities [illegible] to have a well balanced judgment in regard to the fitness of things, and have closed a contract with a tombstone firm by which the paroled Younger brothers will engage in the sale of tombstones and monuments. There are probably no two men in the state outside of the medical profession who have accomplished more in the way of creating a demand, or at least a possible demand in this line than these two men, and hence the selection of this occupation is quite appropriate. We submit, however, that they should be allowed to make one trip at least down into their native state and supply the friends of their many victims there who may desire to patronize them.

Between the Twins

Samuel Hill authorizes the statement that he will build a street railway between St. Paul and Minneapolis next year, provided the right of way is granted by the two cities, and that when it is completed the fare will be only five cents. The route has already been surveyed and will start at the West hotel, run down Fifth street to Riverside, thence to Franklin avenue and across the bridge.

On the St. Paul end it would run down St. Anthony avenue, through the heart of Merriam Park, and into Martin street, thence to St. Peter and down into the business center of St. Paul.

For Village Organization

In response to a petition signed by 36 citizens of Hendrum, an election has been called and will be held on the 17th day of August, to determine whether or not that thrifty little place shall become a duly organized village. The Halstad Reporter says of it: The result will no doubt be organization. Hendrum is a good, substantial town, and as a village would have ample back bone and moral courage to keep the town clean of dram shops and gambling dens.

LAND FOR SALE.

All of sections 23-29 and 25 for sale with small payment down, balance on 5, 10 or 20 years' time. Low rate of interest. Address R. A. Plummer, Forest City, Iowa.

What kind of a camera do you want? Come and examine the stock at the Journal office.

Good Drugs

don't grow on every bush nor are they found in every drug store. Can be had here however. At little prices, too. Our goods have won the approval of all discriminating purchasers. Everything offered is fresh and good. Nothing has a chance to deteriorate, because goods move in and out quickly.

Old hunters say The MARLIN has so many things to commend it. The top of the action is always closed, the mechanism the most simple, the finish elegant, the form attractive. It seems to throw its bullets a little more accurately and plant them with a little more force than any other rifle. For deer taken 38-55 or 30-30. 120-page catalog, 300 illustrations, colored cover by Remington, for 3 stamps. MARLIN FIRE ARMS CO. NEW HAVEN, CONN.

EMBALMED FRUIT

Is Being Sold in Chicago by Small Fruit Dealers

St. Joseph, Mich., July 26.—Considerable alarm has been felt here during the past week by the continued reports to the effect that Chicago fruit dealers were embalming their wares. The report has been verified by Gus Boswell, first mate of the steamer Charles McVea, whose life is almost despaired of. Boswell bought some plums at a fruit stand near South Water street while in the city on his last trip. He ate two of the plums and was almost immediately taken with severe pains in the neck and throat. It was a clear case of poisoning. The doctors attending him say that he is in a critical condition. It is understood that the embalming of fruit is done mostly by small dealers who have stands, and not by the reputable commission houses.

WHITE MAN TURNED YELLOW.

Great consternation was felt by the friends of M. A. Hogarty of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, and he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful stomach and liver remedy, and he writes: "After taking two bottles I was wholly cured. A trial proves its matchless merit for all stomach, liver and kidney troubles. Only 50c, sold by A. G. Anderson, druggist.

Thief River is to have a cigar factory.

A man named Evenson Owen at Pelican Rapids has a bright boy. He went into the stable, and noticing the mosquitoes were bothering the family horse, he built a smudge on the barn floor, and the rest can be guessed. They succeeded in getting out both the horse and the boy, though.

EQUALIZING BOARD

Commissioners met to Equalize Assessments as Returned by Assessors.

SOME WIDE CHANGES MADE

As will be seen by Examining the Following Official Report of their Action.

EQUALIZATION MEETING, 1901.

Pursuant to legal requirements the board of commissioners of Polk county met at the auditor's office on the 15th day of July, 1901 and, in conjunction with the county auditor, the members thereof took and subscribed the statutory oath and entered upon their duties as a board of equalization.

The following resolution offered by Commissioner McCarty was on motion adopted:

Resolved that the city assessor of city of Crookston be and is hereby instructed to assess the Clearwater Logging Co., under Item 17, the sum of $25,000.00 for the year 1901, and report the same to the county auditor. It having been shown to this board that said Clearwater Logging Co. owned logs and other property for said amount of $25,000.00, which should have been assessed to said Clearwater Logging Co. in the city of Crookston, but was omitted by the assessor.

The following resolution offered by Commissioner Bratvold was on motion adopted:

Resolved that the assessment of Olof Reisdahl in the village of Fosston for the year 1901, under item 10, be reduced from $90.00 to $25.00.

The following resolution offered by Commissioner Bratvold was on motion adopted:

Resolved that the assessment of L. Kringle in the village of Fosston for the year 1901, under item 10, be reduced from $90.00 to $25.00.

The following resolution offered by Commissioner Bratvold was on motion adopted:

Resolved that the assessment of Citizens Bank of McIntosh, under item 10, be lowered 60 per cent.

The following resolution offered by Commissioner McCarty was on motion adopted:

Resolved, that the assessment of Grand Forks Lumber Co, under item 1, be raised 50 per cent.

The following resolution offered by Commissioner McCarty was on motion adopted:

Resolved that the assessment of the Grand Forks Lumber, of the town of Reis, be raised 50 per cent under item 18.

The following resolution offered by Commissioner Eastman was on motion adopted:

Resolved that the assessment of E. W. Johnson & Co. of the town of Reis, be reduced from $3,200.00 to $2,400.00 under item 16.

The following resolution offered by Commissioner Morken was on motion adopted:

Resolved that the assessment of Farmers' Mercantile Co., in the town of Tabor, be reduced from $2,000.00 to $1,000.00 under item 16.

The following resolution offered by Commissioner McCarty was on motion adopted:

Resolved that the assessment of Erickson & Vannett, in the village of Fertile, under item 11, be reduced $500.00.

The following resolution offered by Commissioner McCarty was on motion adopted:

Resolved that the assesment of Rindal Creamery association, in the town of Garden, be reduced from $650.00 to $400.00 under item 18.

The following resolution offered by Commissioner Eastman was on motion adopted:

Resolved that the assessment of the Monarch Elevator Co., at Marin, be reduced $475.00 under item 28.

The following resolution offered by Commissioner Morken was on motion adopted:

Whereas, It apears that Andrew Benke, under name of Benke Bros., has been assesed in town of Sullivan for the same property for which said Andrew Benke is assessed in town of Northland, and whereas said Andrew Benke resides in said town of Northland, and should properly be assessed in said town, therefore be it resolved that the assessment against Benke Bros in town of Sullivan be and is hereby cancelled.

The following resolution offered by Commissioner McCarty was on motion adopted:

Resolved that the assessment of the Grand Forks Lumber Co., in the city of East Grand Forks, for the year 1901, be raised from $10,200.00 to $20,200.00, under item 17.

The following resolution offered by Commissioner McCarty was on motion adopted:

Resolved that the assessment of the Crookston Lumber Co., of the city of Crookston, under item 17, be raised from $48,888 to $58,888 for the year 1901.

The following resolution offered by Commisioner McCarty was on motion adopted:

Resolved that the assessment in the village of Fertile, under item 26, be raised 150 per cent.

The assessment on horses one year old was equalized as follows:

Andover twp., lowered 5 per cent.
Brislet twp. lowered .. 15 ..
Bygland twp., raised.. 12½ ..
Chester twp., lowered.. 10 ..

On motion board adjourned sine die.

JOHN PETTERSON,
Clerk of the board.

Broke his Neck

McIntosh Times: A sad accident that caused the death of one of Winger's respected citizens occurred there last Thursday and closed the earthly career of M. Gunderson. Mr. Gunderson was raking hay when the bolt of the tongue broke and the team turned short and became tangled in a wire fence, throwing him to the ground, where he struck on his head with such force as to break his neck. Funeral services were held Friday and the remains were buried in the Elerns Congregation cemetery. Mr. Gunderson was 74 years of age and leaves a wife and five children, who are compelled to sell practically all their personal property at auction next Thursday in order to meet pressing obligations.

PRICE OF WOOLENS CUT

Wool Trust Reduce Price of Goods Seven to Twenty-Five per Cent

New York, July 26.—In the opinion of the conservative houses in the woolen business in this city, the wool trust has entered upon the policy of cutthroat competition against its rivals. The trust has just made a general reduction of prices varying from 7 to 25 per cent on its lines of goods, and nothing in recent years has so startled Worth street in New York and Federal street in Boston, the great wool markets of the United States.

Tariff conditions are the same as they were last year. There has been no material reduction in the price of wool, and the raw material is even now on the up grade in price. No improvements in manufacture have been introduced that would affect prices so critically. Hence the complete unexpectedness of the trust's move. It was understood at the close of yesterday's business that about 7,000,000 yards of these staple cloths have been sold since Monday—enough to make about 2,000,000 suits of men's clothes. As a result of the wholesale reduction in prices of the trust, tremendous orders have been withdrawn from competing manufactures and transferred to the trust.

A Lady's Lunch

Has been rudely defined by some cynic as "slops and sweets." And after all there's more truth than poetry in the definition. Ice cream and cake may satisfy the palate, but they are far from satisfying to the stomach, which requires that food be nutritious first and nice afterward. By careless eating women pave the way for stomach "trouble," and its kindred miseries.

Dr. Pierce's Golden Medical Discovery is confidently commended as a cure for diseases of the stomach and other organs of digestion and nutrition. By curing diseases which prevent the assimilation of food it enables the body to be built up and strengthened in the only way known to nature—by food digested and assimilated.

"For twelve long months I suffered untold misery," writes Mrs. Mollie Colgate, of Randolph, Charlotte Co., Va. "No tongue could express the pain that I endured before I commenced taking Dr. Pierce's medicine. I was not able to do anything at all. Could not eat anything except bread and tea—or if I did the top of my head hurt so it seemed it would kill me, with all that I could do it would burn like fire. But now, since using your 'Golden Medical Discovery' and 'Favorite Prescription,' I can eat a little of almost anything I want, and can do a good day's work as well as anybody can. Am better than I have been for years."

Dr. Pierce's Pleasant Pellets cure sick headache.

Pop-Fizz! Foam-Sparkle!

The Nation's temperance beverage

HIRES Rootbeer

Make it at home. Sold everywhere in 25c. packages, which make five gallons each.
CHARLES E. HIRES CO.
Malvern, Pa.

PARKER'S HAIR BALSAM
Cleanses and beautifies the hair. Promotes a luxuriant growth. Never Fails to Restore Gray Hair to its Youthful Color. Cures scalp diseases & hair falling. 50c, and $1.00 at Druggists.

CONSTIPATION
the frequent cause of Appendicitis and many other serious ills should never be neglected. The objection to the usual cathartic remedies is their costive reaction which increases constipation instead of curing it. PARKER'S GINGER TONIC is the proper remedy. It acts on the Liver, and when used as directed, permanently removes the constipation. 50 cts. & $1.00 at all Druggists.

MONTANA TRAGEDY.

James Winters Shot by Some One in Ambush.

Helena, Mont., July 29.—James Winters, at whose ranch near Landusky, all the posses searching for the Great Northern robbers made their headquarters, was shot from ambush Friday and instantly killed. During a land dispute three years ago Winters was forced in self defense to kill John Curry, a member of the notorious gang that is supposed to have been implicated in both the Great Northern and Union Pacific train robberies. Winters had been ordered to leave the state, but declined. The further fact that he aided the posse searching for them made this revenge doubly sweet. Winters was standing just outside the kitchen door when two shots rang out, fired from a Winchester at a distance of 200 yards. Winters fell dead. Officers and ranchers are searching for the Currys and a sanguinary battle will follow if they meet. Four young men from Boston were the only witnesses of the tragedy. One of these rode 70 miles for a doctor.

ANDRE AGAIN.

Interest Revived by Expiration of Three Years' Limit.

London, July 29.—The lapse of the three years which André, who started for the north pole in a balloon, fixed as the extreme limit for his return, has revived interest in his fate. A Norwegian captain of much Arctic experience has a theory which is interesting. He says it is a fact which is probably familiar to all Arctic explorers that after the slightest humidity of the atmosphere the masts and sails of vessels are thickly coated with ice. When Andre started wet snow was falling and the balloon would soon be coated with ice. Its buoyancy would soon be overweighted and it could not remain long aloft. The wind would carry it in the direction of Franz Josef Land, between which and Nova Zembla it would probably fall into the sea. This captain says that the wreck may ultimately be found on one or the other coasts.

FARM LAND WANTED.

I can furnish a few desirable purchasers for land at rock bottom prices. Parties having "snaps" should call on or write Attorney R. M. Hayes, Crookston, Minn. Office over Merchants National Bank.

DEFECTIVE PAGE

Around the Country.

Weekly Reports From the Journal's Corps of News Gatherers.

LENGBY.

R. W. Cartright has commenced harvesting wheat.

Our merchants are busy handling harvesting machinery and twine.

P. A. Sederberg has been busy lately buying cattle to supply the greatly increased demand for meat in our little town.

S. S. Stadesvold was over from Fosston Thursday looking after his interests here.

Several carloads of brick were shipped to other towns th epast week.

Francis Lohn and a few other Fosston lads spent the hours between trains here Wednesday.

Ed. Ness came over from Fosston on Thursday and took a positio uas clerk in the J. N. Oman hotel.

Ole K. Ringstad made a trip over to Beaulieu Thursday for a visit with G. Evje, returning Friday.

Chas. Murle the Ebro blacksmith, was in Lengby Monday.

Rev. Warren, who held services Sunday, will hold services again in Argall hall next Sunday at 3:30 p. m.

Martin Olson was hired by W. L. Hillard to run the carriage in his saw mill this week.

Ole Stave and Andrew Nyman will leave for the harvest fields of North Dakota this week.

With the steam shovel near Lengby, working trains busy brick and tile plant and saw mill all in full blast, Lengby is progressing at a lively rate at present.

Raspberries, Gooseberries and red cherries are all ripe now and plenty of them are to be found in the woods here.

Editor Foss, of the Thirteen Towns, Lewis Lahn and T. Hershberger visited in Lengby Tuesday.

ARGYLE.

A. J. Marsh is at St. Paul for a few days

N. D. Hegness spent Sunday in Crookston.

Mrs. John Hunter tarried over night at Warren Thursday.

J. W. McKay transacted business at Fargo a few days this week.

W. J. Carson of Glenwood spent a few days in our burg this week.

Dan Robertson and Fred Swift took in the Hallock fair both days.

Harvey Witt of Winona is visiting at the home of Mr. and Mrs. H. Keye.

Miss Alberta Layman and Mrs. E. E. W. Zamzow spent Friday at Hallock.

J. F. Thompson of Iowa was here looking after business a few days this week.

Miss Emma Sundberg, of Austin, Minn., a former teacher in our school, is visiting friends here.

Rev. Mr. Hoard and family have left for Campbell, Minn., where he is to be stationed hereafter.

Mr. and Mrs. McLaughlin are away spending a few days visiting Mr. Mc L's brother and family at Cando, N. D.

Henry Wallace is a home visitor since last week, he being employed by the G. N. Railway company at St. Paul.

Rev's Frazer of Crookston, Dahl of Warren and Hall of Hallock officiated at the ordination of Rev. David Grant of this place last week.

Walter Taylor of Nebraska, who has been the guest of Mr. and Mrs. Al Boyce for a week past, left for his home Saturday evening.

FOSSTON.

The machine men are busy nowadays turning out binders and twine by wagon loads.

K. H. Lee, the jeweler, made a visit to his brother in Bagley between trains last Sunday.

Mittun & Randklev have received a new J. I. Case threshing rig for John Sletten of Columbia.

Anton Kvistad is at work making a new front for Jens Bengaard's shoe and harness establishment on Harrison avenue.

Plasterers are at work this week in H. K. Lee's new residence opposite John Lade's, and it will soon be ready for occupancy.

Harvest has already commenced around Tekla and Queen in Beltrami county, also in the towns of Brandsvold in Po... county.

Rev. O. Refsdal, of the old Conference church, was surprised last Sunday afternoon by his three congregations, and presented with a fine well matched team, new harness and top buggy.

Farmers are busy now preparing for harvest, which will be in full blast the last of this week. Crops around Fosston are reported very good and a big yield is expected.

Henry Rund, youngest son of E. Rund, druggist, came very near being burned to death Monday. The boy had found some loaded shells, and knowing there was powder in them, opened several and emptied the contents on a flat-iron. Stooping forward with a lighted match, he ignited the stuff and was badly burned about the face and hands. His eye sight will probably be saved, but his face will be scarred.

On Monday last a narrow escape and accident occurred at the Harrison avenue crossing over the Great Northern railway. Mr. K. Flaten, a farmer living south of Fosston, was crossing the track looking for possible trouble from a freight train that was standing on the switch track, but not noticing the passenger train coming from the east. When Mr. Flaten was squarely on the main track the passenger train had reached a point only a couple of rods from him and started a sharp whistling. The team made a jump, which saved them, but the locomotive struck the rear part of the wagon and threw Mr. Flaten several rods. He was bruised in several places, but not seriously injured. The team was not hurt, but the wagon was badly smashed.

CARMAN.

Alderman Arnold has got the machine on the lot ready to set men to work on the new well.

Thos. Lougheed is repairing his residence property and when the job is completed he will have a very cosy, comfortable home.

Business is getting better here and a great many men are at work on the Great Northern, making this place their headquarters.

The dance at Thomas Hutchins' last week was not very well attended, but the boys bought lots of peanuts and candy, so it made business.

Hoboes are thick now and still we are without a policeman in the Fifth ward. What have we done Mr. Mayor that we should beslighted in this way.

DONALDSON.

Everyone was at Hallock the 26th attending the fair.

A. Blomsness and Peter Lund took in the sights of Stephen Thursday and Friday.

S. O. Myre and K. J. Llud went to Kennedy last Saturday to transact private business.

M. Borgeson and John Lind went out fishing Saturday and Sunday, returning with a nice lot of fish.

E. N. Davis sold his whole threshing rig to the Vickstrom brothers. They are preparing the machine for the fall work.

Mr. and Mrs. Hilt have moved into town and are occupying Rowe's former residence, and he has moved into his new house.

Mr. Richardson and his daughter are visiting with Mr. Nichols at present. They will return home to Nebraska next week.

Cone Miller took a lively trip up to Kennedy last week with Hickey's bronchos, leaving the buggy on the road half way home.

Mr. A. F. Hollberg entertained some of the young people the other evening. The time was spent in playing games and dancing and everyone had fun.

A keg of beer was brought to town Saturday evening, and was stored away in an ice house. But when the owners came to look for it the next morning, the lock was broken and the keg gone.

A hot game of base ball was played in Donaldson last week, between Stephen and Donaldson. But it rained so the players could not control the ball; nor could the score keeper keep track of the scores, so no one knows who got the best end of it.

BIRKHOLZ.

John Grimm is staying at J. Anderson's for the present.

Mrs. W. T. Dunning visited at J. W. Northrup's on Sunday.

Doctor Church, of Grad Forks was called to Andrew Larson's on Saturday.

Miss Emily Dalen is staying with Mrs. Henry Hendrickson for a few weeks.

Will Wilson of Sandsville township was a pleasant caller at Birkholz on Sunday.

Tom Dalen went to Grand Forks on his wheel Saturday evening, and the rain prevented his return.

Some of the people met at the store Saturday evening and passed a few pleasant hours with music and games.

Ole Bang and family, who have been spending a few weeks at their summer resort at Bemidji returned to their farm at this place on Sunday.

Henry Thompson and J. H. Dalen have begun harvesting. The rest of the farmers about here are still haying, and it rains every day.

Gilbert Thorp was kicked by a horse at Ole Kleven's place on Friday. His inuries are so serious that the doctor thinks he will have to be taken to the hospital at Grand Forks.

ADA.

Mert. Patterson is visiting with his uncle at Mentor.

Emil Betcher is erecting a large residence east of Mrs. Bill's house.

N. T. Moen and wife left Saturday night to take in the Buffalo exposition.

Miss Skrivseth, of Crookston, was visiting with Mrs. Geo. Stumpf the past week.

The work on the new M. E. church has commenced, the contractor being J. W. White.

Paul Menge, who has been sick with rheumatism, is now able to be up and around again.

Chas. Humason and family returned Thursday morning from a trip to the Buffalo exposition.

Mrs. Geo. Weatherbead of Kindred is visiting with her parents, the Gaetkes of this place.

I. R. Severtson left Wednesday night for Superior to attend the state convention of the I. S. W. A.

Miss Johnson, who has been visiting with the Larsons this summer, lef tlast Thursday night for her home at Cooperstown, N. D.

The clerks' union held its first annual picnic a tHieberg's park Sunday. The Ada Cadet band and Twin Valley band furnished the music.

Among those taking in the excursion to Winnipeg were Ed. and George Helland, Frank Stuart, Mike Roesch, Mike Harringer, Emil Farley, Peter Sharpe and Welter Moffatt.

Wesley Jenkins sold his farm of 480 acres last week to a party from Illinois at an average of $24 per acre. Mr. Jenkins is undecided yet what he will do, but will probably go out west.

The harvest around here has just about commenced and grain looks fine. There are, however, some spots that have been spoiled by the heavy rains, and will yield but slight returns.

Gray Bros., who have purchased Calkins & Calkins' law library and practice, moved up here from Preston last Saturday and have taken possession of the office. They came highly recommended.

T. T. Braaten was taken seriously ill with hemorrhage of the lungs last Friday, and Saturday morning was taken to the Bethesda hospital at Crookston for treatment. He is reported somewhat improved and out of danger.

WARREN.

Mrs. White was among Monday's arrivals and is visiting relatives and friends in the city.

As we did not notice any items from our city last week, we thought we would pen a few this week.

Enos Mitt came down from Argyle Saturday night and is attending the training school this week.

The musical concert at the opera house last Friday night drew quite a large crowd and was well spoken of.

Mr. Head of Cherokee, Ia., bought the Larson property near the opera house and moved his family to said place last week.

Miss Agaard, who has been in attendance at the teachers' training school, left for her home in Thief River Falls Tuesday.

Miss Naylor, who has been visiting friends in the city for a few weeks, left for her home in the southern part of the state on Monday evening.

Bussiness in all lines seems to be a little dull just now, mostly because the farmers are all busy in the hay fields. The hay weather is very fine and hay in abundance, mostly of good quality.

Wheat harvest will soon be here and the yield is expected to be very good. We heard one man say that he had a field of oats that would go one hundred bushels to the acre. We would call that pretty good for any place.

Warren had quite an attraction Monday in the way of Indian skeletons, mother and child. The parties who had them on exhibition took in a few loose dimes, but the people in general were a little slow to bite, as they were not sure as to the genuineness of the affair.

Quite a number of the people who went to Washington from here last spring have returned. Among them and the last one to arrive was Joe Thomas, who came home last Saturday. This makes about the fifth or sixth one who has come back, and from the appearance of the boys and what they say, we presume they think the Red River valley is good enough for them. Mr. Thomas reports work scarce, with the exception of those who go into the woods.

We understand the First National bank people of this place is just on the verge of commencing their new building. As they have already let the contract for the moving of the old building, now occupied by D. Farrell, the jeweler, no doubt the work will be commenced soon. Peter Neyland has the contract for moving the old building and it is generally understood that L. J. Linder has the contract for putting up the new building, which will be a fine structure when completed.

ELDRED.

Haying is now in full blast.

Some wheat fields will be ready to harvest the latter part of the week.

Mr. A. M. Childs, of the Journal staff, made the town a pleasant call on Tuesday.

C. A. Monson returned Tuesday from a visit with his parents at Portland, N. D.

C. Monson & Son have the sale of the hay on the southwest quarter of section 31, in Andover township, at 50 cents per acre.

Mr. R. R. Power, with the Warder, Bushnell & Glessner Co., is spending a few weeks here in the interests of the Champion goods.

MAPLEBAY.

A. and E. Klinger visited Mentor Monday.

Miss Florence Hunter is visiting in Crookston this week.

Nils Skiple came down from Mentor Saturday for a few days' visit with friends.

Nils Paulsberg came out Sunday from Crookston for a week's visit with friends here.

Rev. S. E. Sorenson came up from Hoffman Saturday to spend a few days with old time friends.

A. Fanes and P. M. Peterson came over from Crookston for an over Sunday visit with their families.

Mrs. S. D. Felsing returned to Crookston Sundsy after a week's visit with her parents, Mr. and Mrs. A. Anderson.

A GOOD THING.

German Syrup is the special prescription of Dr. A. Boschee, a celebrated German Physician, and is acknowledged to be one of the most fortunate discoveries in Medicine. It quickly cures Coughs, Colds and all Lung troubles of the severest nature, removing, as it does, the cause of the affection and leaving the parts in a strong and healthy condition. It is not an experimental medicine, but has stood the test of years giving satisfaction in every case, which its rapidly increasing sale every season confirms. Two million bottles sold annually. Boschee's German Syrup was introduced in the United States in 1868, and is now sold in every town and village in the civilized world. Three doses will relieve any ordinary cough. Price 75 cents. Get Green's Prize Almanac. F. H. Hillard & Son. 2

The Buffalo Exposition

Is admitted to be the most beautiful ever seen. Purchase your railroad ticket via the Burlington Route. Your home agent can furnish tickets that way.

DESPERATE GAME

Serious Charges Made by Nome Attorney Against Judge Anthon Noyes.

SOUGHT TO PACK GRAND JURY

In Order to Secure Indictments of all Who Have Opposed Him or McKenzie.

Minneapolis, July 30—A special to the Journal from Seattle says:

Albert Fink, a Nome attorney for the Pioneer Mining company, opposing Judge Noyes, has arrived in Seattle. He gives his side of the story to the Times, and has much to say of the removal of Mr. Borchsenius. Fink, who of course gives the mining company's side, says Judge Noyes is endeavoring to have all the men who have taken a prominent part in opposing him or Receiver McKenzie or others "indicted by a federal grand jury fraudulently drawn for the purpose." Because Clerk Borchsenius would not at the request of the court report the names of men reported to him by Judge Noyes for that purpose, Judge Noyes, Fink says, asked for his resignation and that being refused, removed him and appointed Clerk Steele in his stead. Mr. Fink said to the Times:

"Judge Noyes is playing a desperate game, as of a man who knows that he is in the last ditch and must risk all in order to save himself. He is determined to indict all of the men who have taken a prominent part in opposing him.

"In order to do this he has attempted to pack the grand jury to be drawn for the July term of court by having the clerk of the court report as drawn in a regular way a list of names to be furnished to the clerk by him, Judge Noyes. This the clerk, Borchsenius, refused absolutely to do, and after requesting him twice to do so, Judge Noyes requested his resignation. Borchsenius refused to resign and was thereupon removed.

"Later, in a talk, Judge Noyes stated to Borchsenius that the latter had been an honest, faithful and efficient clerk of the court; that it would soon be time to draw the grand jury for the July term of court, and as there was likely to be comment on account of the change of clerks immediately prior to the drawing he, Noyes, desired Borchsenius to be present at the time of the drawing to add his approval to the regularity of the proceedings. Borchsenius declined positively to accede to the judge's request and this leaves the matter as it stood when I left Nome."

DROWNED IN MINNESOTA LAKE

Miss Lucille Brown Last Sunday Afternoon While Bathing.

C. F. Whitcomb, son of George F. Whitcomb arrived in the city Monday morning enroute to Thief River Falls, near where he and his father own farms, and brought the particulars of a sad accident that resulted in the death Sunday of Miss Lucile Brown, a bright young lady, and a member of one of the leading families of Alexandria.

The father of the young lady is at the head of the Alexandria Manufacturing company, and has a cottage on Lake L'Hommedieu, three miles from that city. They were there spending a few weeks, and during the afternoon a party of a dozen young people donned their bathing suits and went into the water. Miss Brown waded into deep water and stepped off into a hole that she did not know about, sinking before the eyes of her associates. Her younger brother saw that she needed help and bravely swam to her rescue, but was too late.

The body remained in the water 20 minutes before being recovered, during the time several dived for it without success. Mr. Whitcomb finally found the body and brought it ashore where they attempted to resuscitate the young lady, but without avail.

Telegrams were sent to this city to a brother of the young lady, Mr. F. H. Brown, who travels for the company in which his father is the chief factor, but he had left here Saturday night. He was finally located at Fargo. He is one of the most popular traveling men on the road in this territory and has the sympathy of a large number of friends, who did all possible to solace and comfort him, when the news was broken to him.

Sale of Isolated Tract.

Six isolated tracts of government land were sold Monday at auction at the U.S.land office.They were all situated in Rosean county and the buyers were evidently possessed of the idea that there is money in the soil up north. The largest tract contained less than thirty acres and the prices paid ranged from $1.25 to $3.40 per acre. Laurits Johnson secured two of them, Lewis Ellington Martin L. Halling, J. E. Carpenter and Julius Olson each one.

He's as Good as New.

Representative Rapp, of Red Lake county, came to Crookston Monday, having a few minutes' business to attend to at the court house. He decided that it was not worth while to hurry it up any to get home, as he hadn't been here for a long time and wanted to visit with the boys, anyway. Mr. Rapp is so nearly entirely restored to his old time state of health that no one would suspect that his friends had their ears close to the wires last winter expecting at any time to hear that his toes were pointing daisyward. Mr. Rapp is one of the sort that seldom dies and never resigns to adverse conditions.

McIntosh Creamery.

The first monthly settlement of the new creamery was made last Saturday the price paid being fifteen cents a pound for butter fat, less the cost of hauling. This, says the Times, with the price of St. Paul extras averaging but seventeen and three quarters cents is considered a very good showing and had the patronage been what it should have been, and what the management were led to expect, thus reducing the cost of hauling to the minimum, the net returns to the patrons would have been just that much better.

Only 50 Cents
to make your baby strong and well. A fifty cent bottle of
Scott's Emulsion
will change a sickly baby to a plump, romping child.
Only one cent a day, think of it. Its as nice as cream.

Send for a free sample, and try it.

FIRE AT THE FALLS

The Immense Stables of the Thief River Lumber Company Burn.

OTHER BUILDINGS INJURED

Horses Rescued With Manes and Tails Singed--200 Cords Millwood Burned.

Thief River Falls, Aug. 6.—(Special to the Journal.)—A destructive fire broke out here at 8 o'clock this morning in the stables of the Thief River Falls Lumber company, and that structure, one of the largest buildings in the city, was burned to the ground.

There were at the time twenty head of horses in the stables, but all were safely led out, although several of them had their manes and tails singed and the hair on one or two was burned in spots.

The building is large enough to accommodate sixty head of stock, and contained considerable in the way of hay and grain that was destroyed, together with harnesses, and some other property. The wind was blowing at the time and the fierce heat damaged the building across the street. One of these was Weiner's confactionery store, another being Ulstad's boarding house. The fronts of both were on fire several times. The glass was broken and the stock and goods damaged to quite an extent. They were saved from burning, however, and both carry insurance sufficient to cover the loss.

The fire apparatus belonging to the city was out of repair and the crowd that gathered was powerless to stay the flames. They communicated to a pile of slab wood that stood near, and 100 cords was destroyed.

The building stood near the bridge crossing the Red Lake river, and the fire caught in the slabs that were laid to form the west approach of that structure. This is still burning at 2 p. m., and travel will be suspended for several days. The bridge is an iron one, and will not be damaged. The fire originated from sparks blown from the burner used to cremate the sawdust and offal of the mill.

The loss is estimated at $3,000, and is partially covered by insurance.

DULUTHIANS KICK

On a Crookston Land Office Ruling, but It Doesn't Go

Commissioner Hermann, of the general land office, has issued a decision fully sustaining the Crookston register and receiver in the matter of the entries of certain parties in Duluth who have sought to make entry and proof on certain Red Lake lands on the same day.

The case in point was one where certain settlers had taken lands in the indemnity belt of the Northern Pacific. In case they had perfected title by a five-year residence, and secured a patent and the land was subsequently declared the property of the company, they could in lieu of such lands file on a claim in the Red Lake district and by the presentation of the affidavits and the patent, secure a receiver's certificate at once. This was sought to be made to apply to those who had residence on the claims but six months, and when the parties appeared before the Crookston office and made a filing, and the same day produced their witnesses to prove up, they were denied the privilege, and Commissioner Hermann fully sustains the action of the local office in the premises.

TEN TO TWENTY KILLED

In a Building Wrecked by an Explosion Monday Night

Philadelphia, Aug. 6.—A terrific explosion in a block of six buildings on Locust street, above Tenth, last night completely wrecked five of the structures and caused the death of from ten to twenty or more persons. Over two score of others were more or less seriously injured. Some of those taken to the hospital will die. It is estimated that at least 35 persons were in the five buildings when the explosion occurred and the exact number of dead will probably not be known.

The buildings were occupied as grocery stores, clothing stores and restaurants.

The explosion occurred about 9:30 o'clock. What exploded and how it happened is not known at this time, but it is believed to have been a barrel of gasoline in one of the grocery stores. With the explosion of No 1008 the iron walls of the building were blown outward into the street, while the floors and roof were blown upward and fell straight to the ground. Almost every building in a radius of two blocks about the scene of the explosion had window panes shattered and otherwise damaged. Every building on the opposite side of Locust street was more or less wrecked, but none of them fell.

None of those taken to hospitals died up to midnight. Two hundred men were then at work clearing away the wreckage.

Up to 12:30 a. m. the police and fire officials cannot obtain a list of the injured, but they say a number of bodies are still in the ruins.

HILL INTERVIEWED

The Great Northern and Northern Pacific Showing Up all Right

New York, Aug. 7.—James J. Hill, president of the Great Northern railway, who has returned from the northwest, said yesterday that the wheat, barley, flax, hay and most of the other crops along the Great Northern and Northern Pacific roads are looking extremely well, and promise to be much ahead of last year.

"To show the growth of our general traffic," said Mr. Hill, "I need only to call attention to what we have accomplished in spite of a partial crop failure last year along the Great Northern and Northern Pacific. The loss was 40,000,000 bushels of grain. In transportation and purchasing power this meant a loss of $5,000,000 to the Great Northern railway, all of which loss was made up to within $430,000 by the increase of other traffic and retrenchments of expenses."

"How will the Burlington show up, with so great a falling off in the corn crop?" Mr. Hill was asked. This is known as one of the great corn roads.

"That is a question that nobody can answer definitely at this time," returned Mr. Hill. "But I expect the Burlington will give a good account of itself—as good, in fact, as the Great Northern and Northern Pacific have, following the partial failure of the spring wheat crop of last year; maybe better."

TELEPHONE IMPROVEMENTS

Big Force of Men Here to Rebuild Local Line

Work on the alterations and extensions to be made in the local telephone exchange began Tuesday, a force of twenty men having arrived from Grand Rapids to push the construction.

The Iron Range company proposes to make the Crookston exchange a model of perfection, and to that end has on the ground a supply of the best material that can be procured.

The extensions have been noted in the Journal heretofore, and will be all that have been promised. The new office building that is being erected by Christianson & Strander will be ready for occupancy in two weeks, and a new switch board of the latest patent will be placed in position. The work undertaken here will keep the force busy during the entire month.

LABORERS GALORE

Harvest Hands in Abundance Coming into the Valley

Every train that arrives in Crookston from the Twin Cities or Duluth brings an average of three car loads of men who are looking for work in the harvest fields.

They are in almost every instance ticketed for North Dakota, as the rate of fare is the same, and they all want to get as much as possible for their money.

There is no actual shortage of harvest hands here, although more could find employment here at excellent wages. Farmers were offering $2 per day Monday, and as much as $2.25 was named Tuesday for first class help. In two instances this was refused by men who stated that their intention was to go further west.

Going to the River

Miller, S. D., Aug. 6.—Where is Ira Steele, and why did he mysteriously leave this town in the night? These are questions that cannot be solved by his friends. He was a jeweler who kept his shop in the front part of Mat Holman's furniture store. He was unmarried and about 50 years old. During the sixth months that he kept shop here he was never known to laugh or jest.

One morning Holman came to his store and was surprised to find that Steele had gone during the previous night. In the show case he had left a note in which he said he was going to the river—that Holman should give the repaired watches to the owners when they called and collect for them. This has been done, but Steele has never been heard of. He departed the night after one of the most fearful hot days. What is meant by "going to the river" is only conjecture.

Uncle Jo's Column

I should think more of the farmers would get into the way of raisin' sheep. There's about as much profit in sheep when they're handled right as anything the farmers raise. And when you get started once its real easy to take care of 'em. But then with sheep, its just like it is with everything else; you want to start right and then give 'em whatever care they need just at the time they need it and it'll go along all right.

* * *

There's my old friend Blvins, he's makin' money on his sheep all right. He's got some real fine Shropshires, and he was tellin' me the other day what a nice lot of lambs he's got. There was more of his ewes had twins this year than ever before, and now he's got more lambs than he has ewes. And his sheep gave him on an average of about eight pounds of wool apiece this spring. And the way I figger it, when a ewe gives him a nice lamb and eight pounds of wool in a year, its doin' well enough.

* * *

But there's another reason why sheep pay for keepin'. They're useful about killin' weeds, and at the same time they're doin' good work fertilizin' the soil. And it don't take as much argument now to convince the farmers that our soil must be fertilized as it used to. They're findin' out that wheat after wheat and no manure don't give satisfactory results. I think sheep will be first class medicine for those wild oats too. And the way the oats are gettin' spread around is a terror. Everywhere you go the ground is full of 'em.

* * *

I was talkin' with Uncle Lorenzo Davis the other day and he was sayin' that he had churned 1130 pounds of unsalted butter during the past six months from seven cows. And I think that's real good for common cows. But then he's got one or two cows that's little more than common, anyway. He's got some pretty good Jersey stock, and when it comes to makin' butter there ain't any breed that's much better than the Jerseys.

* * *

Then there's another thing that Uncle Davis makes pay him pretty well too, that some folks don't count much on. He's got about one hundred hens and he makes 'em bring him in from $2.50 to $.00 a week, besides all the eggs the family use. He understands the importance of looking after all the little details about the farm and makin' everything count for what it is worth. And that's the only way to be sure of makin' money every year farmin'.

* * *

I was readin' in the Journal about those basket racks for threshing and stackin', and I think that was just about right. Of course, basket racks ain't anything new, and they've been tried a little around here too. But then these are different from the ones we've tried here. That idea about havin' four feet in the middle of each side only two feet high makes it more handy to pitch the bundles out of onto the table. I hope a good many of the farmers will try this idea. I think they'll like it.

* * *

Speakin' about wild oats makes me think about the way some of the farmers are tryin' to get rid of 'em. They are cuttin' 'em for hay and they haul 'em home and stack 'em and feed 'em to the stock. Now I can't see any advantage in that way of doin'. If they cut 'em early enough, so the seeds wouldn't grow, it would be all right. But if they stand until they begin to turn the least bit before they are cut, they'll grow, and they had better let 'em stand right where they are and go to seed than scatter 'em all over the farm.

* * *

There's just as many grades of common sense as there is of wheat. There's the number one hard and the number one northern (or soft) and so on down to the rejected. And of course the number one hard king brings the best results just as it does in wheat. Now, it don't sem to me that the number one hard kind is the kind that leads a man to raise wheat year after year on the same land without doing anything to maintain its productiveness. I don't know just what grade to call that, and I guess I won't try. But I think after fifteen or twenty years farming in this country the number one hard kind will lead a man to diversify his farming operations and divide his dependence up among different crops and stock raising.

TO PREVENT SMALLPOX

Lumbermen of Three States to Combat the Disease.

West Superior, Wis., Aug. 7.—The lumber kings of Wisconsin, Michigan and Minnesota will be asked to meet with the three state boards of health when they hold their special meeting at the head of the lake on Aug. 18. It will be pointed out that the greater number of smallpox cases have come from lumber camps. There is talk of asking lumbermen to burn the camps, but this is hardly likely to be done, as it is plain a simple request of that kind would not be granted when it came to destroying thousands of dollars worth of property.

The fact that the camps must be kept clean, however, will be impressed upon the lumbermen and they will be asked to do this and vaccinate the men. It is believed that in this way the spread of the disease will be more effectually fought than it was the past winter.

Superior will probably be well represented at the meeting and the city's representatives expect to show the serious condition of affairs. There have been over 400 cases of smallpox in the city within a year. At present there are but six cases, but as two of these were found yesterday, it looks as if there would be more right along.

EMPRESS DEAD

Mother of Emperor William and Sister of King Edward

Cronberg, Aug. 6.—Empress Frederick died at 6:15 yesterday. Her death was somewhat sudden. At 4 o'clock her physicians reported no change in her condition. Emperor William and her Majesty's other children were in the sick room most of the day.

Closely following the announcement of the death from the castle, church bells were tolled and flags half masted. Visitors to the castle began inscribing their names in a book placed for the purpose in the hall.

It is said the cause of the death was dropsy accompanying cancer, the remarkable vitality of the dowager empress astonishing her physicians. She retained consciousness to the end. It is taken for granted that the interment will be at Friedenskirche, Potsdam, by the side of Emperor Frederick, but the date of the function is not yet known publicly.

The papers assert that the dowager empress long ago adopted her husband's motto, "Learn to Suffer Without Complaining." She recently ordered that the public should be excluded from the grounds of Friederichshoff, saying:

"The world shall not learn what I am suffering. I will not be pitied in my misfortune."

To Amateur Sheep Raisers

In making a beginning with sheep in northeast Minnesota, much will depend upon the amount of previous experience possessed by the farmer. If he is used to caring for sheep and understands their general requirements, he can with more safety import grades or even full bloods of the improved mutton breeds. If he has never handled sheep, it would be very unwise for him to start with valuable animals, as with no other class of stock will correct management give better results and mistakes be sooner followed by loss, than with sheep. Common sheep are nearly all grade merinos, small of body and with rather light fleeces of fine wool. Breeding ewes may be obtained from such stock at stock yards, suitable for use as a foundation for a flock at much lower figures than grades of the mutton or larger bodied and longer wooled sheep. By selecting according to the size and condition of the teeth, none but young animals may be secured. Where it is necessary to confine them entirely to brush, such sheep will usually thrive somewhat better than would better bred sheep, and they will clear the brush out a little more thoroughly. These facts and their lesser value make them somewhat more suitable for beginners on new farms, than the better grades, until the farmer has gained the necessary experience and the farm is more developed.

But it should be the aim of every farmer to improve the flock to grading them up to the mutton type. Merino grades usually produce and raise but one lamb, while the mutton breeds commonly have twins. As the profit of the flock lies in its increase, sheep by this one item are more profitable. Larger carcasses and heavier fleeces increase this margin of profit. This result can be brought about by the use of a pure bred ram of a mutton breed, upon the grade merino ewes, saving the ewe lambs and continuing to breed to a pure bred ram. Two crosses will usually produce a type of lamb closely resembling the full blood. A full grown ram will serve a hundred ewes, and it will pay neighbors to combine in the purchase of such an animal, for if a grade ram is used the results will be very much delayed.—Beltrami County News.

Howison Named

Washington, Aug. 7.—The vacancy in the Schley court of inquiry caused by the inability of Rear Admiral Kimberley to serve on account of his health has been filled by the selection of Rear Admiral Henry L. Howison, whose appointment was announced by Assistant Secretary Hackett yesterday. At the same time it was announced that this appointment would be agreeable to Admiral Schley.

ANOTHER PROBLEM

Presented by Alarming Rapidity With Which Wild Oats are Usurping the Fields.

ONE HOPEFUL METHOD

Of Eradicating the Pest Suggested by the Results of an Experiment.

The wild oats problem is a serious one for the farmers to face. It has only been a few years since they made their appearance in this part of the Red River valley, but today they maintain a foothold throughout all portions of it, and many farmers are becoming alarmed at the situation.

The fields which are not to a greater or less extent troubled with them are extremely few and scarce, and every year the problem is becoming more serious. It is no rare instance to see fields in which this is the predominating crop. Any measures which are successful in eradicating the nuisance are of great importance to our farmer friends, and the Journal will at all times take great pleasure in communicating to its readers the method of any successful experiments which may have been made in this warfare.

Dr. Q. A. Low of the town of Andover has grown on his farm a very beautiful piece of wheat which though not absolutely free from wild oats is sufficiently so to attract the attention of observers, where it is so conspicuous an exception to the general conditions.

Yet a Journal representative was informed that two years ago the wild oats were as bad on this as on any piece in the neighborhood.

In 1899 the field was seeded with wheat and was full of wild oats. Immediately after harvest the ground was skimmed over with a plow as lightly as it was possible to do it and not miss any of the surface. The oats came up in abundance and covered the ground but were killed by the frost when cold weather came. And right here we wish to suggest that a flock of sheep turned into the field would have added to the destruction of the oats, considerable value in the way of fertilizer which would have been of advantage for several years. The following spring the field was plowed late and quite deep, planted to corn and potatoes and well worked. The seed corn, however, proved poor and did not grow and that part of it was seeded to barley.

And as before stated the field shows only a very rarely occasional head of oats, and is free from other weeds. The wheat gives strong promise of 25 bushels per acre.

It would be well for others to try the same experiment. If anyone else has had as good success in this or any other way of dealing with wild oats we would be glad to have our readers the benefit of their experience.

There is one caution in regard to what is becoming a too common practice that we wish to add to the above suggestions. The wild oats are frequently thickest and most vigorous in patches around the edges of the fields. And it is becoming quite common among the farmers to take a scythe and go in and mow these oats just before harvest and haul them home for feed. Many acres of grain have also been cut over in the same way and hay made of the crop this year. The seeds of the wild oats will grow if at any time of cutting they are sufficiently mature to begin to turn yellow. And they must be cut much earlier than this if the point of their germination is to be averted. But in many instances where hay has been made of them the tops of the heads if not many full heads have become well ripened, and have been scattering seeds over every foot of soil over which they have been moved, as well as filling the manure piles with their noxious presence.

HOT FIRE AT FERGUS

A Row of Barns and One Dwelling Burned

Fergus Falls, Aug. 7.—One of the hottest fires in the history of the city broke out about 4:30 o'clock Monday afternoon in a barn owned by B. J. Schwalen. The fire is said to have been started by a small boy who lit a wisp of hay in order to light a cigarette. The flames swept easterly, taking a row of barns, including those owned by F. H. Gray, Theodore Johnson, Mrs C. Carlson, J. P. Haave and C. Olson Westby. The firemen made desperate efforts to save the residences, but the Westby barn was too close to the house and Mr. Westby's dwelling was swept away. Bethania hall, a building adjoining, was also partly destroyed and will probably be torn down.

While the fire was in progress sparks and pieces of burning shingles were carried for blocks by the wind and the Model laundry and two or three other buildings on the north side of the river were ignited, but these fires were quickly subdued with garden hose. Roy Whitson and D. Prentice, firemen, were overcome by the heat. The losers nearly all carried insurance.

ONE MILL IS STARTED

Non Union Men are Secured and Work Begins

Pittsburg, Aug. 6.—One of the officials of the Lafayette lodge, Lawrenceville, of the Amalgamated association, this morning announced that he had been notified that no general strike will be ordered. He is authority also for the statement that the directors of the steel corporation are dissatisfied with J. P. Morgan's attitude and are making every effort to open negotiations with the strikers. The official is one of the leading steel workers of the city and the inference is that he has received an inside tip from the higher officials of the association.

Mill Starts Up

Leechburg, Pa., Aug. 6.—The Hyde Park mill resumed operations at 2 o'clock yesterday afternoon, the steel officials stealing a march on the strikers by taking 25 non-union men from Vandergrift into the mills.

It is understood that the Westinghouse company of Pittsburg has forced the Hyde Park plant to open to fill a contract for certain steel. The Westinghouse people had contracted to take the mill's entire output until July 1, 1902. About 250 men will be employed. Trouble is expected when the train bearing non-union men arrives at Hyde Park.

FARGO VS. CROOKSTON

That's the Way the Score Cards Will Read Next Friday

Manager Westerberg has received assurances from the manager of the Fargo aggregation of ball players that they will arrive here on the early train on Friday next, ready to dispute the proposition that Crookston contains a speedier lot of ball players than does the city up toward the source of the Ruby.

The game, whoever wins, will be one of the fastest of the season, and will be worth seeing at any stage. The local team is keeping in practice and is confident that it can put it onto the Fargo boys for a tight lit, and the success it has met in the games played with the North Dakota leaguers warrants the expectation that Crookston will win. All lovers of the sport should be present.

Caught in a Slasher

An accident happened in the Crookston Lumber Company's mill last Monday night that will probably result in permanently crippling Beverly Ward, a young man who has been employed in the lath department of the institution.

Young Ward was about his usual duties, and in passing close to the slasher, his clothing was caught in the gearing and before he could free himself his leg was drawn in and the flesh and muscles were torn and ground in such a manner that it will be some time before the injured young man can recover even partial use of the member. Dr. Dunlop is in attendance on the case, and says that it is one that may, as indicated above, result in permanent injury to the leg.

Postoffice Robbery

Deputy United States Marshal Frank Tufts, of Brainerd, passed through Crookston Monday enroute to Fergus Falls, where he was taking a lad named John Wagner for safe keeping.

The young man is accused of breaking the postoffice at Blackduck and stealing the contents of the money drawer. He will be held to the next session of the grand jury of the federal court.

Wagner comes from a family that is alleged to be crooked from start to finish. He spent a few years, although he is less than 20 years old, in the state reform school, and has a brother now in the reformatory.

Mixed His Business

Elmer M. Johnson, who gives his occupation as that of "dentist and manufacturer of lumber," and his residence as St. Cloud, Minn., filed a petition in bankruptcy in the United States court at Fergus Falls Saturday. He placed his assets at $9,810.76, of which $2,750 is exempt, and his liabilities at $5,901.15.

DEFECTIVE PAGE

PHILIPPINE NEWS

Interesting Letter from the Journal's Special Correspondent.

IN THE PHILIPPINE ISLANDS

Peculiarities of the Cariboa Used as the Beast of Burden.

Vigan, P. I., July 7, 1901.

Ed. Journal:—An experience with our transportation line will interest your readers and I submit it without reading over my latter.

We had worked, struggled and sworn all day, the sun seemed to get hotter and hotter, and there was not much show of our making camp at the next Barrio (village) even if all things went well. The dry season was on, and our drinking water was brought from the small springs away up in the dry canyons in bamboo joints, which soon gave out and left us more thirsty than before.

The escort with the cariboa carts loaded with wire, insulators, nails, etc., and our rations, had gradually dropped away to the rear as we were continuing the military telegraph line into the Lepanto Province, and it took quite a force of Bolo men, cargadores and carts to carry the material and do the work. It was getting late in the afternoon and the high foliage kept out any small breeze that might be lurking outside of the jungle; the sun seemed to have got stuck in one place and burned and sizzled like a furnace; had about made up my mind that we could get to Barrio all right for camp, when a native who drove a cart came up on the run waving his arms and shouting "mucho loco (very crazy) "no got agua, "hop die, go dead." ("No got" means in pigeon English "not to have;" "hop die," or "go dead," is to die.) The native was quickly followed by the corporal a charge of the guard, swearing and mad all through, who told me "that the whole cariboa outfit had gone mad for want of water, and ran away, gone to h-l, as far as he knew." Upon our arrival at the scene of the runaway, I found here a coil of wire, there a piece of bacon, near a tree stump some baggage, farther down the trail a pair of wheels, or a cart box, but not a water ox in sight; they had flown for the nearest mud hole and taken the shortest cut. We camped in the woods that night. About dark the transportation was found calmly chewing the cuds in a lagoon about two miles from where they had left our rations and baggage.

When the corporal was questioned about the cause of their running away he said: "You bet, they'll do it every time their hides get dry when we were on the advance along the railroad," and knowing that a long story was coming, I got him to get the carts fixed.

A cariboa in his wild state spends most of his time in a mud hole, the muddier the hole the more the enjoyment, and no one has ever seen one stuck, even with a load. They are used by the natives to do all manner of work, from plowing with a log and a picked stick to carry the family to town for a fiesta, in a cart. These carts are special features of the island. The wheels are made out of some hard wood without spokes, with a tire of iron, and this tire is the only metal in its whole construction. Bamboo is used for the shafts and body, and a real stylish turnout has a cover of woven bamboo, and the driver rides the cariboa. —Chas. Melville Berg,

Sergt., Signal Service, U. S. A.
Vigan, P. I., July 1, 1901.

WAGNER-SCHMUNK

Fisher People Attended a Wedding this Afternoon.

The marriage of Miss Amelia Schmunk of this city to Mr. August Wagner was solemnized at the German Lutheran church near Fisher this afternoon. Among those who attended from Crookston are Mr and Mrs. Christ Eikhoff and family, Miss Hannah Eikhoff being chosen as bridesmaid. After the ceremony was performed by Rev. Mr. Schaedler of this city, a wedding supper was served at the residence of the groom's parents Mr. and Mrs. Julius Wagner to which a large number of friends were invited. One of the presents received was a deed to a quarter section of land, the gift of Mr. Wentzel, Sr.

A NEW PARTY

"Progressive Democrats" Launch an Organization in Ohio.

Columbus, O. Aug. 1.—"The Progressive Democratic Party" was organized here yesterday. The attendance was so small that many doubted up to 2 p. m. whether any attempt would be made to hold a state convention. The following the recent democratic state convention a conference was held at Cleveland protesting against the present democratic state platform in ignoring Bryan, free silver and other issues, and in not reaffirming the national platforms on which Bryan made his campaign for president. At that conference a call was issued for a state convention of "Bryan Democrats" and others opposed to both the democratic and republican state platforms, to meet here yesterday. Less than a dozen responded to the call and yesterday attended the christening of the new party.

It was announced that the platform sent out from Cleveland on July 17th in circulars and published at the time in papers had already been adopted on the referendum system by many subscribing to the same. The following ticket was named:

Governor—Dr. Rudolph Reemlin.
Lieutenant Governor—Henry C. Cordory.
Supreme Judge—Rial M. Smith.
State Treasurer—C. J. Shepard.
Attorney General—S. L. Clark.
Clerk of Supreme Court—Charles Bonsell.
Member of the Board of Public Works—R. B. Connell.

Dr. Reemlin, who heads the ticket, has been a life long democrat and a radical free silver man. He is president of the Bi-Metallic League of Hamilton county and entertained Bryan during the campaign last year.

It is customary for conventions always in Ohio to authorize their committees to fill vacancies, but this was not done yesterday. After Chairman Groot and others left last night Dr. Reemlin positively declined the nomination for governor and it was reported that the others would not accept.

GIGANTIC ENTERPRISE

In Which the Russians Will Secure Some American Help

St. Paul, Aug. 5.—The Pioneer Press says: M. Robert Barbier, manager of the Russo-China bank of Pekin, representative of the Russian government and manager of the Manchurian railway, who is at present in St. Paul, is said to be connected with a tremendous scheme of railway construction, designed to unite Alaska and Siberia and furnish rail and water connections between Circle City and Vladivostock, the eastern terminus of the Trans-Siberian railway, at a cost of $200,000,000.

The enterprise, it is stated has the backing of the Bank of France, and powerful money interests in the United States. It is to be essentially a French-American undertaking, for which capital is already in sight should it prove feasible and in which it was talked in railroad circles, J. J. Hill is to become interested.

The length of the proposed railroad from Circle City to Bering Sea would be about 2,000 miles, and from the coast of Siberia to Vladistock, 1,800 miles. If the concessions are secured from the United States and the protection afforded the property of the company is adequate, the preliminary survey will commence shortly.

M. Barbier, it is stated, is in the United States for the purpose of obtaining information as to the probable attitude of the government toward the proposed line.

PROFIT IN TWINE

Prison Plant Shows Good Working Margin this Year

Stillwater, Aug. 1.—At a meeting of the board of prison managers today held to close the business before delivering the affairs to the board of control, the binder twine situation was summed up as follows:

Cash shipments	$104,160.73
Gate sales	5,279.52
Miscellaneous receipts	8,262.07
Notes	321,309.85
Accounts	8,752.68
Total	$447,764.85
Material purchased	286,182.38
Operating expenses	64,246.47
Profit of the state	32,796.13

The inventory showed twine in the warehouse of the value of $5,103.16, and machinery of the value of $53,854.13.

The miscellaneous cash receipts of the prison for July were $36,308.95. Of this $27,961.16 was from sales and collections on account of twine, and the remainder for pay of convict labor visitors' fees, etc.

Double Tragedy

Aitkin, Minn., Aug. 1.—Sheriff Newstrom was notified that Tony Jordan had shot and fatally wounded a man named Clausen at McGregor, twenty miles east of here. When the sheriff arrived at the scene Jordan fled and the posse followed. Several shots were fired to frighten him but failing in this, Deputy Hudson fired again, instantly killing the fugitive. Jordan came to town yesterday afternoon with Clausen's wife, who is seeking a divorce. This caused the trouble. Jordan had been engaged to marry Clausen's daughter, but the old man objected.

Nebraska Gets Rain

Lincoln, Neb., Aug. 5.—Lincoln and the greater part of Nebraska experienced a drop in temperature of 41 degrees Saturday and Sunday. In some districts there were intermittent showers during the day and evening amounting to a heavy fall in the northeast part of the state. For the local precipitation W. G. Wright, who has been firing gun powder in the air for 58 hours, claims all the credit. He says the rain came in direct opposition to natural conditions and in the face of contrary predictions of the Washington forecaster. He will, he says, continue his efforts if necessary, on a larger scale.

FIGHT TO FINISH

"No Quarter" is on the Banners of the Steel Corporation.

ALL NEGOTIATIONS ARE OFF

The Most Desperate Battle Ever Fought Between Capital and Labor.

Pittsburg, Aug. 5.—"It will be a fight to a finish. No quarter will be given. We are prepared to spend all the money and time necessary to wipe out the Amalgamated association in all of our mills."

This was the message that came over the wires from New York to local officials of the United States Steel corporation Saturday afternoon. Officials were waiting long after the usual Saturday afternoon closing time to get word from the conference in New York between the executive board of the Amalgamated association and the officers of the big trust.

Two messages came. The first stated that the conference had adjourned between the workers are Morgan after receiving his ultimate decision in the matters in dispute. An hour after this time a second message came to Pittsburg, announcing to the steel officials that the executive board had decided that they would not accept Mr. Morgan's terms.

ANCIENT EGYPTIANS

Made a Date With Africans 4400 Years Ago

London, Aug. 2.—Dr. Carl Peters, the well known German explorer, says that the investigations just completed by himself in central Africa will add a new and important chapter to the world's history. He said:

On my return to England I am prepared to prove to satisfaction of the most exacting students that the territory about the Zambesi was held for many centuries by the Egyptians. From discoveries already made in Egypt we know that the people of that country penetrated far into central Africa about 2500 B. C. My present discoveries show that they were still there in 1600 B. C., but had left the district about 1100 B. C. In other words, we now know that the Egyptians built up a civilization in central Africa and maintained it for several centuries against all opposition.

Train Robbers Near Chicago

Chicago Aug. 1.—The New York and Washington vestibule limited train on the Baltimore & Ohio road, due to arrive in Chicago at 9 o'clock last night, was held up by two masked men near Grand Calumet Heights, Ind.
